## HISTORICAL SKETCH.

DALHOUSIE COLLEGE was founded by the Earl of Dalhousie in 1821, "for the elevation of youth in the higher branches of science and literature."

The original endowment was derived from funds collected at the port of Castine, in Maine, during its occupation in 1814 by Sir John C. Borlase, then Lieutenant-Governor of Nova Scotia. These funds were by the British Government authorized the Earl of Dalhousie, Sir John's successor, to expend "In defraying the expenses of any improvement which it might soon expedient to undertake in the Province;" and the Earl, collecting that "a Seminary for the higher branches of education is much needed in Halifax—the seat of the Legislature—of the courts of justice—of the military and mercantile Society," decided upon "founding a College or Academy on the same plan and principle of that at Edinburgh," "openes to all occupations and sects of religion, restricted to such branches only as are applicable to our present state, and having the power to expand with the growth and improvement of our society."

The original Board of Governors consisted of the Governor-General of British North America, the Lieutenant-Governor of Nova Scotia, the Bishop, the Chief Justice and President of Council, the Provincial Treasurer, and the Speaker of the House of Assembly.

\* After unsuccessful efforts on the part of both the British Government and the Board of Governors to effect a union with King's College, the only other then existing in the Province, this College went into operation in 1828, under the Presidency of the Rev. Thomas McCulloch, D.D., and with a staff of three Professors.

By an Act passed in 1841, University powers were conferred on the College, and the appointment of the Governors was vested in the Lieutenant Governor and Council.

In 1843, President McUnloch died, and in 1845 the College was closed, the Governor considering it "advisable to allow the funds of the institution to accumulate."

In 1888, an Act was passed authorizing the Lieutenant-Governor and Council to appoint a new board of Governors "to take such steps for rendering the institution useful and efficient as to His Excellency may seem fit." This Board, from 1849 to 1859, employed the funds of the University to support a High School.

In 1836, the Arts Department of the Gorham College, Liverpool, N. S., was transferred to this College "with a view to the furtherance of the establishment of a Provincial University," and an attempt was made to conduct the Institution as a University under the Act of 1841. This union, however, came to an end in 1857.

In 1863, the College was re-organized under the following Act:—

*An Act for the Regulation and Support of Dalhousie College.*

(Passed the 20th day of April, A. D., 1863.)

WHEREAS, it is expedient to extend the basis on which the said College is established, and to alter the constitution thereof, so as the benefits that may be fairly expected from its invested capital and its central position may, if possible, be realized, and the design of its original founders, as nearly as may be, carried out.

*Be it enacted by the Governor, Council, and Assembly, as follows:—*

1. The Board of Governors now appointed, consisting of the Honourable William Young, the Honourable Joseph Howe, Charles Tupper, S. Leonard Shannon, John W. Ritchie, and James F. Avery, Esquire, shall be a body politic and corporate, by the name and style of the Governors of Dalhousie College at Halifax, and shall have and exercise all usual powers and authorities as such, and have the title, control and disposition of the buildings on the Parade, at Halifax, and of the property and funds belonging to the said College, and held for the use thereof, by the present Governors; and all vacancies at the Board shall be filled up on recommendation of the remaining members thereof by the Governor-in-Council; and any of the Governors shall be removable by the Governor-in-Council, at the instance of the Board of Governors.

2. Whenever any body of Christians, of any religious persuasion whatsoever, shall satisfy the Board that they are in a position to endow and support one or more chairs or professorships in the said College, for any branch of literature or science, approved of by the Board, such body in making such endowment, to the extent of twelve hundred dollars a year, shall have a right, from time to time, for every chair endowed, to nominate a Governor to take his seat at the Board, with the approval of the Board of Governors and of the Governor-in-Council, and shall also have a right, from time to time, to nominate a Professor for each chair, subject to the approval of the Board of Governors; and in the event of the death, removal, or resignation of any person nominated under this section, the body nominating shall have power to supply the vacancy thus created.

3. The same right of nominating a Professor from time to time shall belong to any individual or number of individuals, who shall endow to the same extent and support a chair or professorship, and to the nomine of any testator by whose will a chair or professorship may be so endowed.

4. The Governors shall have power to appoint and to determine the duties and salaries of the President, Professors, Lecturers, Tutors, and other officers of the College, and from time to time to make statutes and bye-laws for the regulation and management thereof, and shall assemble together as often as they shall think fit, and upon such notice as to them shall seem meet, and for the execution of the trust hereby reposed in them.

5. The said College shall be deemed and taken to be a University, with all the usual and necessary privileges of such institutions; and the students shall have liberty and faculty of taking the degrees of bachelor, master, and doctor, in the several arts and faculties at the appointed times; and shall have liberty within themselves of performing all scholastic exercises for the conferring of such degrees, and in such manner as shall be directed by the statutes and bye-laws.

6. No religious tests or subscriptions shall be required of the professors, scholars, graduates, students, or officers of the College.

7. The internal regulation of the said College shall be committed to the Senate Academicus, formed by the respective chairs or professorships thereof, subject in all cases to the approval of the Governors.

8. The Legislature shall have power, from time to time, to modify and control the powers conferred by this Act.

9. The Acts heretofore passed in relation to Dalhousie College are hereby repealed, except the Act passed in the fourth year of his late Majesty King George the Fourth, entitled, "An Act authorizing the lending of a sum of money to the Governors of Dalhousie College, and for securing the repayment thereof."

This Act was afterwards amended by the following Act:—

*An Act to amend the Act for the Regulation and Support of Dalhousie College.*

(Passed the 6th day of May, A. D., 1875.)

*Be it enacted by the Governor, Council, and Assembly, as follows:—*

1. The present Board of Governors, consisting of nine persons, shall be increased to a number not exceeding fifteen; and the Board shall be filled up with new nominations made on the same principle as set forth in the first section of the Act hereby amended; and any of the Governors shall be removable, as heretofore, by the Governor-in-Council.

2. The Governors shall have power to affiliate to Dalhousie College any other Colleges destitute of such affiliation, or any schools in arts, in theology, in law, or in medicine, and to make statutes for such affiliations, and for the regulation and management thereof, on the same principles as obtain in other Universities, and to vary and amend such statutes from time to time. Provided always, that such statutes of affiliation, before they go into effect, shall be submitted to and receive the sanction of the Governor-in-Council.

3. So much of chapter 24 of the Acts of 1863, entitled "An Act for the Regulation and Support of Dalhousie College," or of any other Act, as is inconsistent with this Act, is repealed.

*An Act to provide for the Organization of a Law Faculty in connection with Dalhousie College, and for other purposes.*

(Passed the 14th day of April, A. D., 1881.)

*Be it enacted by the Governor, Council, and Assembly, as follows:—*

1. The Governors of Dalhousie College at Halifax, shall, in addition to the powers conferred on them by section 2 of chapter 27 of the Acts of 1863, entitled, "An Act to amend the Act for the Regulation and Support of Dalhousie College," have power to organize a Faculty of Law in connection with such College; and to appoint professors or lecturers in law, and out of the revenues of the College to provide for the maintenance and support of such Faculty, and to make rules for the regulation and management of such Faculty, and for the granting of degrees in law on the same principles as obtain in other universities, and to vary and amend such rules from time to time.

2. Section 3 of chapter 24 of the Acts of 1863, entitled, "An Act for the regulation and support of Dalhousie College," is amended by adding the words "and governor" after the word "professor" in the said section, and any individual who has hitherto endowed a Chair or Chair in the College shall have a right to nominate a governor for such Chair endowed, in the same way as if section 3 aforesaid had been originally passed as now amended.

3. Section 1 of the said chapter 27 of Acts of 1875, is amended by adding the words "provided, however, that in the event of any body of Christians, individual, or number of individuals, endowing and supporting one or more chairs or professorships in the said College, as provided by sections 2 and 3 of the Act hereby amended, and of such body of Christians or individuals nominating a professor or governor by virtue thereof, the number of Governors may be increased beyond fifteen, but such increase shall be limited to the number of such chairs or professorships as may after the passing of this Act be founded by virtue of said sections 2 and 3."

In pursuance of the Act of 1863, the Presbyterian Church of the Lower Provinces closed their College, and agreed to support two chairs in this University, the Synod of the Maritime Provinces in connection with the Church of Scotland, founded one chair; and the College opened in that year, under the Principalship of Rev. James Ross, D.D., and with an Arts Faculty of six Professors.

In 1868, a Faculty of Medicine was organized, which in 1875 developed into the Halifax Medical College. In 1883 the Faculty was re-organized.

In 1883 a Faculty of Law was added.

In 1879, GEORGE MUNRO, Esq., of New York, a native of this Province, placed in the hands of the Governors the funds necessary for the endowment of a Professorship of Physics. In 1884 he established a Professorship of History and Political Economy. In 1882, he founded a chair of English Language and Literature. In 1883, he added to the staff of the College a Professor of Constitutional and International Law. In 1884, he founded a Professorship in Metaphysics. From 1883 till 1890, he provided Tutors in Classics and Mathematics. Since 1880, he has provided the University with Exhibitions and Bursaries, to the amount of \$25,248.61, which, according to his own desire, have been so offered for competition as to stimulate greater activity and efficiency the High Schools and Academies of Nova Scotia and the neighboring Provinces.

The Governors desire to place on permanent record their high sense of Mr. Munro's enlightened public spirit, and their gratitude to him for the magnificent manner in which he has come to their help in the work of building up an universities in Nova Scotia.

To connect the donor's name for all time with the benefits thus conferred both on the University and on his native country, the chairs which he has founded shall be called the GEORGE MUNRO CHAIRS OF PHYSICS, OF HISTORY AND POLITICAL ECONOMY, OF ENGLISH LANGUAGE AND LITERATURE, OF CONSTITUTIONAL AND INTERNATIONAL LAW, AND OF PHILOSOPHY respectively.

In 1883, ALEXANDER MCLEOD, Esq., of Halifax, bequeathed to the University the residue of his estate. The following is an extract from his will:

"All the residue of my Estate I give and bequeath to the Governors of Dalhousie College or University in the City of Halifax as

Trust, that the same shall be invested and form a fund to be called the McLeod University Fund, and the interest and income of which shall be applied to the endowment of three or more professorial chairs in said College as they may deem proper; but this bequest is made upon these conditions, namely, that if at any time the said College or University should cease to exist, or be closed for two years, or be made a sectarian college, then and in any such case, the said Fund and all accumulations thereof shall go to the said Synod of the Maritime Provinces of the Presbyterian Church in Canada, to be used for the purposes of higher education in connection with said Synod, and it is further stipulated that no part of this Fund shall ever be used, either by said Governors of Dalhousie College or by the said Synod, as a collateral security under any circumstances whatever."

According to the provisions of the will, the McLEOD CHAIRS OF CLASSICS, CHEMISTRY AND MODERN LANGUAGES were founded.

In 1886, SIR WILLIAM YOUNG, one of the oldest and best friends of the College, subscribed \$20,000 to start a Building Fund. In 1887, Sir William Young bequeathed to the University half the residue of his estate, together with a Prize Fund of \$4000, and the amount remaining unpaid of his subscription to the Building Fund. The following are extracts from his will:

"I bequeath to the Governors of Dalhousie College at Halifax, the sum of \$4000 to be kept continually invested by them, and that they shall apply the income derived therefrom in founding and maintaining a prize of a gold medal of the value of \$50, to be called Sir William Young's medal, and to be annually awarded for scholastic eminence, and to have the recipient's name engraved thereon, with the year of his attendance at College, and in founding and maintaining such other prizes for distribution among the students of said College as the Governors may from time to time approve."

"Having agreed and promised to the Governors of Dalhousie College to pay them the sum of \$20,000 to aid in the erection of their building now in progress, I direct my executors to pay the said sum from time to time as it may be required by the said Governors.

"All the rest and residue of my estate I direct my executors to divide into two even and equal parts or shares, and to pay over one such part or share to \_\_\_\_\_, and the other part or share to the Governors of Dalhousie College at Halifax, for the general purposes of said College."

"In the event of my having paid to Dalhousie College during my life-time any part of said sum of \$20,000 hereinbefore mentioned, as agreed to be paid to them to aid in the erection of the college buildings, I do direct my executors to pay to said Governors the balance only, if any, that may be due on said sum at the time of my decease."

In 1887, J. F. AVERY, M. D., made the following bequest to the College:

"I give and bequeath the sum of \$500 to Dalhousie College in the City of Halifax, to be at the disposal of the Senate of the said College, and the interest thereof to be appropriated for an annual prize."

In 1887, MRS. HARRIET ELIZABETH MACKENZIE, of MORRISON, of Stromness Scotland, formerly of Pictou, N. S., made the following bequest:

"To Dalhousie College, £1,000 for founding a bursary for students attending said College, subject to such conditions and regulations as

the governing body of said College may appoint, but with this provision, that said bursary shall be called the 'MacKenzie Bursary,' and that students of the name of MacKenzie, MacLean, and Fraser shall have a preference in the selection of beneficiaries thereto."

The following donations have been made to the Endowment Fund:

THOMAS McCULLOCH, 1833-5, Professor of Natural Philosophy.

JOHN JAMES MACKENZIE, M. A., Ph. D., 1837-79, Professor of Physics.

HERBERT A. BAYNE, M. A., Ph. D., F. R. S. C., late Professor of Chemistry, Royal Military College, Kingston, Ont., 1837-79, Lecturer on Organic Chemistry and Chemical Analysis.

JAMES DEMILL, A. M., 1836-50, Professor of Rhetoric and History.

REV. DAVID HOWETT, D. C. L., F. S. A., F. R. S. C., late Provincial Geologist, 1838-53, Prof. of Geology and Palaeontology.

REV. JAMES ROSS, D. D., 1833-53, Principal, and Professor of Ethics.

J. G. SCHURMAN, M. A., D. Sc., now Professor of Ethics and Metaphysics, Cornell University, 1832-36, Professor of English Literature and Metaphysics.

HON. SIR J. S. D. THOMSON, now Minister of Justice, 1833-56, Lecturer on Procedure and Evidence.

ROBERT SEMEWICK, B.A., Q.C., now Deputy Minister of Justice, 1839-59, Lecturer on Equity Jurisprudence.

W. J. ALEXANDER, B. A., Ph. D., now Professor of English in the University of Toronto, 1834-59, Professor of English Language and Literature.

REV. WM. LYALL, LL. D., F.R.S.C., 1833-50, Professor of Philosophy.

### § I.—COURSES OF INSTRUCTION.

#### I.—CLASSICS.

(*McLeod Professorship.*)

*Professor:* JOHN JOHNSON, M.A.

#### First Year Latin Class.

*Mondays, Wednesdays, and Fridays, 10—11 A.M.*

#### Subjects of study :

Clorē : Pro Milone (Putton's), Macmillan, N.Y., \$0.60. \* Pro Legi Manilia (Wilkin's), Macmillan, N.Y., \$0.75. Virgil: Arndt, Book VI. (Page's), Macmillan, N.Y., \$0.40. Composition: Arnold's Latin Prose by Bradley, (Gage & Co., Toronto, \$1.50). Grammar: Syntax and Prosody, (Allen and Greenough's), Ginn, Boston, \$1.30. History: Roman History, (Smith's), Harper's, N.Y., \$1.50.

\* Students seeking a First or Second Class Distinction are examined in this additional subject. An "unseen" passage will also be set for translation.

## Second Year Latin Class.

Mondays, Wednesdays and Fridays, 11 A. M.—12 M.

## Subjects of study :

Homer : *Odes*, Books I, "II, "III, (Page's, Macmillan, N. Y., 40c, each; Books I-IV, \$1.00). Livy : Book I, (Stephenson's, Macmillan, N. Y., \$0.40). Composition : Easy pieces for Latin Prose, Second Series, (Champeys and Randall, Longmans, N. Y., \$0.50). History : Greek History, (Smith's smaller edit., Harper's, N. Y.).

## Third and Fourth Years Latin Class.

Mondays and Wednesdays, 12 M.—1 P. M.

## Subjects of study in alternate years :

For 1891-92.—*Tacitus* : *Agricola*, (Church & Brodrich's, Macmillan, N. Y., \$0.25). *Plautus* : *Cato*, (Lindsay's, Macmillan, N. Y., \$0.60). Juvenal : *Satires* III, X, XIII, (Hardy's, Macmillan, N. Y., \$1.25).—Composition : Bennett's Second Latin Writer, (Longmans, N. Y., \$1.10). + Sallust : *Catinus's Conspiracy*, (Turner's, Longmans, N. Y., \$0.60). + Roman Provincial Administration by Arnold, (Macmillan, N. Y., \$1.75).

For 1892-93.—Homer : Selected Satires, (Macleane's small ed., with notes, Whittaker, London). *Tacitus* : *Anals*, Book I, (Farnie's, Macmillan, N. Y., \$0.30).—Composition : Bennett's Second Latin Writer, (Longmans, N. Y., \$1.10). + *Tacitus* : *Anals*, Bk. XIV. + Merrivale's Hist. of the Romans, chaps. xxx, xxxi, xxxii, xxxiii-xxv.

## First Year Greek Class.

Tuesday and Thursday, 10—11 A. M.

## Subjects of study :

Lucian : *Vera Historia*, (Jerram's, Macmillan, N. Y., \$0.40.) \* Xenophon : *Cyropaedia*, Book I, (Bigg's, Macmillan, N. Y., \$0.60). Composition : Elementary Greek Prose Competition, (by Fletcher & Nicholson, pub. by W. Baltic, Kingston, Ont., \$1.00), introductory rules; oral and \*written exercises.—Grammar : *Accidence*, (Goodwin's, Ginn & Co., Boston, \$1.65).

## Second Year Greek Class.

Tuesday and Thursday, 11 A. M.—12 M.

## Subjects of study :

Homer : *Odyssey*, Book IX, (Edward's, Macmillan, N. Y., \$0.60). Xenophon : *Hellenics*, Book I, (Underhill's, Macmillan, N. Y., \$0.75).—*Demosthenes* : *Olynthicus*, (Hedley's, Rivingtons, London, \$0.80).—Composition : As in First Year's Class; also Sidgwick's Introduction to Greek Prose Composition, (Longmans, N. Y., \$1.50).

\* Students seeking a First or Second Class Distinction are examined in this additional subject. An "unseen" passage will also be set for translation.

+ For private reading for a First Class. An "unseen" passage also will be set for translation for a First or Second Class.

## Third and Fourth Years Greek Class.

Tuesday and Thursday, 12 M.—1 P. M.

## Subjects of study in alternate years :

For 1891-92.—*Plato* : *Apologia Socratis*; (Adam's, Macmillan, N. Y., \$0.50). *Aeschyles* : *Prometheus Vinctus* (Prickard's, Macmillan, N. Y., \$0.50).—Composition : Sidgwick's Introduction to Greek Prose Composition; introductory rules; oral and \*written exercises.—*Philology* : Müller's Science of Language, vol. I, chaps. 1-7. + *Plato* : Republic, Book I (Warren's, Macmillan, N. Y., \$1.50).

For 1892-93.—*Demosthenes* : *Philippae*, I, II, III, (Tarbell's, Ginn & Co., Boston, \$1.10). *Euripides* : *Medea*, (Vernar's, Macmillan, N. Y., \$0.90).—Composition : Sidgwick's Introduction to Greek Prose Composition; oral and \*written exercises. \**Philology* : Peile's Primer of Comparative Philology, Macmillan, N. Y., \$0.35. + *Euripides* : *Hecuba*.

## Advanced Class.

Twice or three times a week.

In this class the Latin and Greek Subjects prescribed for the Special Course in Classics are read, and Prose Composition is regularly practised.

## II.—MODERN LANGUAGES.

(McLeod Professorship.)

Professor JAMES LUCOTT, M. A.

## First French Class.

Tuesday and Thursday, 3—4 P. M.

## Subjects of study :

Macmillan : *Progressive French Reader*, II. year, (Farnie's). Molire : *Le Bourgeois Gentilhomme*, (Macmillan & Co.). Scribe : *Le Cerveau*. Exercises in Grammar and Composition.

Text Books : Bradsh's Public School Elementary French Grammar. Other Text Books required will be announced at the opening of the session.

## Second French Class.

Tuesday and Thursday, 2—3 P. M.

## Subjects of study :

Moliere's : *L'Amour*. Racine : *Athalie*, (Macmillan & Co.). Corneille : *Orest*. Translation from English writers. Exercises in Syntax. Translation of unspecified passages from modern authors.

Moliere's *Monte-Cristo* (Macmillan & Co.) and other Saindins' *Piccolio* or Madame de Staél's *L'Almayer* are prescribed for private reading to candidates for a First Class position.

Text Books : As in First Class. Outline of the History of French Literature (Salterbury's Primer).

\* Students seeking a First or Second Class Distinction are examined in this additional subject. An "unseen" passage will also be set for translation.

+ For private reading for a First Class. An "unseen" passage will also be set for translation for a First or Second Class.

## Third French Class.

Tuesday and Thursday, 9—10 A. M.

## Subjects of study :

From 1891-92.—Molière : *Les Précieuses ridicules*. Racine : *Pétrarque*. Corneille : *Horace*. Translations from English writers. Original essays. Translation of unspecified passages from modern authors.

From 1892-93.—Molière : *Les Femmes savantes*. Racine : *Iphigénie*. Corneille : *Le Cid* (Macmillan & Co.). Translations from English writers. Original essays. Translation of unspecified passages from modern authors.

Molière's *Tartuffe* (Macmillan & Co.), and either Victor Hugo's *Les Travailleurs de la mer* (Rivington's) or Scribe's *Ruy Blas et Bertrand* are prescribed for private reading to candidates for a First Class position.

*Text Books* : As in Second Class. *Saintsbury's Short History of French Literature*.

## First German Class.

Monday, Wednesday and Friday, 3—4 P. M.

## Subjects of study :

Bachheim : *German Reader*, Part II. Schiller : *Wilhelm Tell* (Macmillan & Co.). Gustav Freytag : *Die Journalisten*, or Haupt : *Das alte Herz*. Exercises in Grammar and Composition.

● *Text Books* : German Grammar will be examined at the opening of the session.

## Second German Class.

Monday, Wednesday, and Friday, 3—4 P. M.

## Subjects of study :

From 1891-92.—Goethe : *Hermann und Dorothea* (Clarendon Press). Lessing : *Missa von Bartelsko* (Macmillan & Co.). Translations from English writers. Original compositions. Translation of unspecified passages from modern authors.

From 1892-93.—Goethe : *Egmont*. Schiller : *Marien Stewart*. (Macmillan & Co.) Translations from English writers. Original compositions. Translation of unspecified passages from modern authors.

Schiller's *Jungfrau von Orléans*, and either Heine's *Prose* (Macmillan & Co.), or Schiller's *Historische Schriften* (Clarendon Press), are prescribed for private reading to candidates for a First Class position.

*Text Books* : As in First Class. Critical outline of the literature of Germany by Alz-Schulz, Ph. D. (Longmans, Green & Co.).

## Third German Class.

Monday, Wednesday and Friday, 3—4 P. M.

## Subjects of study :

For 1891-92.—Lessing : *Nathan der Weise*. Goethe : *Egmont*. Prose composition. Translation of unspecified passages from modern authors.

For 1892-93.—Lessing : *Missa von Bartelsko* (Macmillan & Co.). Goethe : *Götz von Berlichingen* (Macmillan & Co.). Prose composition. Translation of unspecified passages from modern authors.

Schiller's *Wallenstein's Tod*, (George Bell & Sons) and either Goethe's *Faust*, Part I (by Jean Lee ; Macmillan & Co.) or Heine's *Harzreise* (Macmillan & Co.) are prescribed for private reading to candidates for a First Class position.

*Text Books* : As in Second Class.

## Advanced German Class.

Twice a week.

The subjects studied in this class will be those prescribed for the special course of English and German (viii (8)). The course will extend over two years.

In 1891-92.—Middle High German : Grammar (Wright's Middle High German Primer). Selections from Wackernagel's Kleiner Althochdeutsches Lesebuch. Selections from authors of the 16th, 17th and 18th centuries. Prose composition.

In 1892-93.—Middle High German : Grammar (Paul's Grammar). Selections from Wackernagel's Kleiner Althochdeutsches Lesebuch. Selections from Swiss and Plattdeutsch dialect literature. The rest as prescribed for 1891-92.

Other text books will be announced at the opening of the session.

## III.—ENGLISH LANGUAGE &amp; LITERATURE.

(George Manoo Professorship.)

Professor ..... ARCHIBALD MACMICHAEL, PH.D.

## First Year Class.

Tuesday and Thursday, 12—1 P. M.

General Principles of Composition. Characteristics of Style. Exercises, twice a week, throughout the year.

As an illustration of the principles laid down in the course on Composition, and as an introduction to the study of literature, the following works will be read critically:

Dryden : *Mac Flecknoe*, *St. Cecilia's Day*, *Alexander's Feast*, *Albion and Achitophel*. Addison : *Satires*; *Select Essays*. Pope : *Elegy of the Lock*, *Essay on Man*, *Johnson*: *Life of Pope*, *Lives of Dryden, Addison, and Gray*. Gray : *Elegy*, *Goldsmith* : *Traveller, Deserted Village*, *Select Essays*. Burn : *Twa Dogs*, Cotter's Saturday Night, *Momument* : *Samuel Johnson*.

Two reports on private reading, assigned by the instructor, are required from each student.

Books recommended. Clarendon Press edition of Dryden ; Hale's Longer English Poets (Ginnell), which contains all the poetry read in the class.

\* Candidates for First Class will be examined in three additional works, which will not be read in class.

## V.—PHILOSOPHY.

(George Moore Professorship.)

Professor ..... JAMES SEYE, M. A.

## Junior Philosophy.

Monday, Wednesday and Friday, 9—10 A. M.

The work of this class will consist, before Christmas, of a course of lectures on Logic, supplemented by exercises in Jevons' *Elementary Lessons in Logic* (Macmillan & Co.); and, after Christmas, of a course of lectures on Psychology, in connection with which short essays and private readings will be prescribed.

## Senior Philosophy.

Tuesday and Thursday, 3—5 P. M.

After an introductory account of the nature and scope of Philosophy, in its various departments, the chief types of metaphysical theory will be expounded in the light of their historical development, and subjected to critical examination, viz.: I. Dualism, as exemplified by the Scottish Philosophy of Common Sense; II. Materialism, Ancient and Modern; III. Idealism, as exemplified by the philosophy of Berkeley.

Readings and essays will be prescribed in connection with the course, and Fraser's *Selections from Berkeley* (Clarendon Press) will be made the basis of discussion in class.

## Ethics.

Monday and Wednesday, 10 A. M.—12 M.

After an introductory account of the province and method of Ethics, and its relation to other branches of Philosophy, the chief theories of the ethical End will be explained and critically examined, viz.: the Intuitive, the Utilitarian, (psychological and evolutionary), and the Transcendental. An attempt will then be made to formulate an independent position, in the light of the ethical postulate of Freedom.

The work of the class will be conducted mainly by lectures, but will also embrace short essays and special readings, as well as free discussion of the subjects of the course. Butler's *Sermons on Human Nature* (Cassell's National Library), Mill's *Utilitarianism* (Humboldt Library), and Spence's *Data of Ethics* (Humboldt Library), will be read in class. From candidates for First Class Distinction the following additional reading will be expected:—Kant's *Fundamental Principles of the Metaphysic of Morals*, (Albert's Transl., Longmans & Co.), and Green's *Pragmatics of Ethics*, Bk. II. & III, ch. I. (Clarendon Press).

## Advanced Philosophy.

Tuesday and Thursday, 12 M.—1 P. M.

The work of this class, intended primarily for undergraduates taking the Special Course in Philosophy, will consist of (a) a course of lectures on the Philosophy of Kant, in the light of the preceding development of Modern Philosophy; (b) a careful study of Ladd's *Outlines of Physiological Psychology*, (Charles Scribner's Sons).

## VI.—MATHEMATICS.

Professor ..... C. MACDONALD, M. A.

## First Year Class.

Daily, 11 A. M.—12 M.

## Subjects of study :

**ALGEBRA.**—Involution, Evolution, Theory of Indices, Equations of the First and of the Second Degree, Elements of Determinants, Proportion, Inequality, Indeterminate Equations, Variation, Progressions, Theory of Notation; Selected Propositions in the Theory of Equations, with Horner's method of approximating the roots of an Equation of a Degree higher than Five.

**GEOMETRY.**—First and Second Books of Euclid Revised, Third and Fourth Books, Definitions of the Fifth, and the Sixth Book, with Geometrical Exercises and Practical applications.

After the middle of February, attendance at the Class on Fridays, will be optional, except for those who are trying for First or Second Class distinctions. But the Professor reserves to himself the right of judging any whom he may have judged unequal to the work of his Friday class.

Books recommended.—Coleridge's or Todhunter's or Deighton's, *Plane Trig.* and *Elements of Euclid*, Hall & Knight's Elementary Algebra, Todhunter's Algebra, or Hall & Knight's Higher Algebra. (The latter book is recommended to those who wish to pursue advanced work. Todhunter's small School Algebra is scarcely sufficient for the course.)

## Second Year Class.

Daily, 10—11 A. M.

The daily meeting of the Class is subject to the following explanations :

After the Christmas Examinations, the Class will be resolved into two divisions, a Lower and a Higher.

The Lower or Ordinary Division will meet on four or three days a week, according as the general progress of the Class may demand. The Higher Division will meet on the remainder of the five days a week. Fitness to enter the Higher Division is determined by the Professor, according to the general standing and previous record of the student.

In the Lower or Ordinary Division of the Class, the subjects of study are—

**GEOMETRY.**—Sixth Book of Euclid revised; Cockshott & Waller's *Conic Sections*; the *Parabola*; Easy Geometrical Exercises, with practical applications; 21 Propositions of the Eleventh Book of Euclid.

**TRIGONOMETRY.**—Analytical Plane, as far as, but exclusive of, DeMoivre's Theorem. The use of Logarithms, and of the chief Mathematical Tables. Solution of Plane Triangles; Mensuration of Heights and Distances; Elementary Problems in Navigation.

**ALGEBRA.**—Permutations and Combinations; use of the Binomial Theorem; Properties of Logarithms; Compound Interest; Elements of the Doctrine of Chances.

In the Higher Division, the subjects are—

**GEOMETRY.**—Parabola, Ellipse, and Modern Extensions of Euclid.

**TRIGONOMETRY.**—As in the Lower Division, with Extensions; DeMoivre's Theorem, with Higher Angular Analysis; Spherical Trigonometry, as far as the solution of Right-angled Triangles, with applications to easy Astronomical problems.

**ALGEBRA.**—Investigations connected with the subjects studied in the Ordinary Division, with illustrations and examples of a more difficult kind. For First or Second Class at the Examinations, acquaintance with the subjects treated in this Division is necessary.

*Books recommended*—Algebra.—Todhunter's, or Hall and Knight's (best); E. W. Lock's Plane Trigonometry; Cookhart and Water's Geometrical Conics (Macmillan & Co.); Chambers's Logarithms, &c., Tables. For Higher Division—Todhunter's Spherical Trigonometry; Cowey's Sequel to First Six Books of Euclid, (Longman, Green & Co., London.)

#### Advanced Class.

There are two Divisions in this Class :

The First Division meets three times a week.\* Subjects: Analytical Trigonometry, commencing with the applications of DeMoivre's Theorem; Analytical Geometry; Spherical Trigonometry; Theory of Equations; Differential Calculus.

*Books recommended*—Lock's Plane Trigonometry; C. Smith's, and Todhunter's Conic Sections; Todhunter's Theory of Equations; Williamson's Differential Calculus; Williamson's Integral Calculus; Todhunter's Spherical Trigonometry. Any Standard Works on the subjects in said may, however, be used.

The Second Division meets twice a week.\* Subjects: Spherical Trigonometry; Theory of Equations; Differential Calculus; Integral Calculus with Differential Equations; Application of these to Physics, Physical Astronomy, &c.

*Books recommended*—The same as for the First Division. Also, Tait and Steele's Dynamics of a Particle; Todhunter's Analytical Statics; Deole's Differential Equations.

#### VII.—PHYSICS.

(George Muir Professorship.)

*Professor*, ..... J. G. MACLEOD, D. Sc.

#### Junior Physics Class.

Tuesday, Thursday and Friday, 11 A. M.—12 M.

Subjects of the lectures :

The elements of Dynamics; the properties of solid and fluid bodies; Heat; Electricity and Magnetism; Light and Radiant Heat; and Sound. These subjects will be treated in an elementary manner, the mathematical knowledge assumed being no greater than may be acquired in the First Year Class.

*Books recommended*—Students who aim at Distinction will be expected to read in connection with the lectures the following books: Lodge's Elementary Mechanics (C. W. & R. Chambers); Garrett's Elementary Treatise on Heat (Dodgeon, Bell & Co.); Canning's Electronically Treated Experimentally (Evington), and Desbouches's Natural Philosophy, Ed. Everett, Part IV.—Sound and Light (Blackie & Son). Other students are recommended to read Stewart's Elements of Elementary Physics (Macmillan & Co.).

\* An extra hour for some part of the Session may be required.

This work is published in two volumes. The first of these—"A Treatise on Elementary Trigonometry"—is sufficient for the ordinary class.

#### Senior Physics Class.

Mondays and Wednesdays, 10—11 A. M.

The subjects studied in this case will be treated in a less elementary manner than in the Junior Class, a knowledge of the Mathematics of the Second Year Class being assumed. As the course is too extensive to be completed in one session, different departments of it will be taken up in alternate years.

In 1891-92.—Heat, including a discussion of heat engines, and Electricity and Magnetism, including a discussion of dynamo-electric machinery. Maxwell's Theory of Heat (Longmans & Co.), and Canning's Theory of Electricity, (Macmillan & Co.), will be used as text-books, and candidates for Distinction will be expected to be familiar, not only with the portions of these books treated in class, but also with the portions not so treated.

In 1892-93.—Kinematics, Dynamics, and the properties of elastic solids and fluids. The Professor's Kinematics and Dynamics, (Macmillan & Co.) will be used as a text-book, and candidates for Distinction will be expected, not only to acquire a power of solving more difficult problems than those set for men who merely aim at passing, but also to read portions of the text book not treated in class.

#### Advanced Mathematical Physics Class.

Mondays and Wednesdays 11 A. M.—12 M.

The subjects studied will include various departments of Physics. The mode of treatment will be such as to give students an introduction to the application of the higher mathematics to the study of physical problems. They will therefore be assumed to have a sufficient knowledge of Analytical Geometry and of the Differential and Integral Calculus. As the course is too extensive to be completed in a single session, different portions will be taken up in alternate sessions.

In 1891-92 the subjects treated will be:—Kinematics of a point, of a rigid system, and of a deformable system; Dynamics (including Station of a particle, of systems of particles (including strings), of extended bodies, of rigid bodies, of elastic solids, and of fluids; Wave Motion, with application to Sound and Light.

In 1892-93 the subjects treated will be:—Dynamics, the portions bearing on the doctrine of Energy; Thermodynamics; Electrodynamics (including Electrostatics).

*Books recommended*—Students will be referred by the Professor to various works during the course. Those most frequently referred to will be: Tait and Steele's Dynamics of a Particle (Macmillan & Co.); Todhunter's Analytical Statics (Macmillan & Co.); Atkin's Heat Diseases (Dodgeon, Bell & Co.); Bouss's Hydrodynamics (Dodgeon, Bell & Co.); Raynes' Thermodynamics (Chambers Press); and Maxwell and Frouber's Electricity and Magnetism (De la Rue & Co., London), vol. I.

#### Practical Physics Class.

(At least five hours a week.)

The work of this class will consist of the determination of physical constants, such as density, specific heat, electromotive force, electrical resistance, &c., and of simple physical laws.

Members of the class who wish to become science teachers will be allowed to devote part of their time to acquiring facility in devising and executing illustrative experiments.

*Books recommended.—For ordinary use—Glanbeck and Shaw's Practical Physics (Longmans, Green & Co.). For reference—Mortar & Goss's Elementary Practical Physics; Macmillan & Co.'s Ayrton's Practical Electricity (Cassell & Co.), Gray's Advanced Mathematics; Elementary Magnetism (Macmillan & Co.), and Etkin's and Farnsworth's Physical Measurements (J. & A. Churchill).*

## VIII.—CHEMISTRY.

(*McLeod Professorship.*)

*Professor.*..... GEORGE LAWRENCE, PH. D., LL. D.

### Inorganic Chemistry Class.

*Tuesdays, Wednesdays and Fridays, 9-10 A. M.*

Subjects of lectures:

General Principles. Chemical Affinity. Laws of Combination, by weight. Equivalents. Laws of Combination, by volumes. The Elements. Compounds. Atomics. Nomenclature; Notation; Formulas; Equations. The Non-metallic Elements considered in detail; their modes of occurrence in nature; preparation in the free state; their compounds; natural phenomena and artificial processes in which they take part; useful manufactures to which they are related.

The Metals considered in regard to their physical and chemical characters and modes of occurrence in nature; Classification of the Metals. Alloys. Amalgams; Constitution of Salts; Bases, Acids, Radicals. Discussion of the more important Metallic Elements in detail; their Salts and other compounds; Metallurgical processes; Chemical Manufactures.

*Text Book.*—Groves's edition of Wurtz's Elements of Modern Chemistry—the whole of the Inorganic part (Lippincott, Philadelphia.)

### Organic Chemistry Class.

*Mondays and Thursdays, 9-10 A. M.*

Subjects of lectures:

Principles of Classification. Elementary Analysis. Methane and its Homologues, and their Substitution Compounds. The Monatomic Alcohols, and related compounds and Derivatives; Aldehydes, Ethers, &c. The Fatty Acids. Compound Ethers. Polyatomic Alcohols. Ethers and Acids. Cyanogen and its compounds.

Aromatic Compounds. Benzene. Aniline Compounds. Terpenes. Alkaloids.

Students are exercised in the Laboratory in the preparation of organic compounds, and in experiments to determine their elementary composition, chemical constitution, and properties.

*Text Book.*—Groves's Edition of Wurtz's Elements of Chemistry—the Organic part. Reference works: House & Scherzer's, Wurtz's Dictionary, &c.

### Chemical Laboratory.

The Chemical Laboratory is open daily (except Saturdays) from 9 a. m. to 1 p. m. Students taking their first Laboratory course are required to attend at an hour when the Professor is not engaged in lecturing.

**PRACTICAL CHEMISTRY.**—Systematic Separation and Detection of the several Metallic Bases and of Acids. Preparation of Reagents. The week is done entirely by the students. Where additional time can be given, students will also be exercised in the preparation of, and manipulation with, the more important elementary and compound gases.

*Laboratory Books.*—One of the following: Nicandri's Practical Chemistry, Prentiss's Qualitative Analysis, Goodwin's Text Book.

**QUANTITATIVE ANALYSIS.**—Instruction is provided in Quantitative Analysis for Students taking the Special Course in Experimental Physics and Chemistry, and also for Students who, having taken Practical Chemistry in their Third Year, are desirous of taking it again in their Fourth Year. Other persons, having a sufficient knowledge of Chemistry, will also be admitted. Instruction is offered not only in General Quantitative Analysis, but also in special work, such as the Analysis of Metallic Ores, Coal, and other Mineral Substances, Fertilizers, Soils, Mineral Waters; Sanitary Examinations of Water, Air and Food; Detection and Quantitative Estimation of Poisons.

Laboratory students are allowed the use of the ordinary Laboratory apparatus and furnishings, and of inexpensive reagents, but are required to provide themselves with evaporating basins, test-tubes, platinum, gold and silver salts, and other expensive materials which they may require, and to replace apparatus which they may destroy. Those who wish to work in special departments, or to engage in original research, will have to furnish themselves with the necessary apparatus.

*Text Book.*—Prentiss's Quantitative Analysis. Special works in the College Library, will be recommended when necessary. Books needed for actual work are kept in the Balance Room.

## IX.—BOTANY.

*Professor.*..... GEORGE LAWRENCE, PH. D., LL. D.

*Tuesdays and Thursdays, 12-1 P. M.*

The course in Botany embraces the subjects of Structural and Physiological Botany, special attention being given to Minute Structure and Development of Tissues, the phenomena of Growth, Reproduction, Life History, and Plant Movements. Also Classification, as illustrated by the leading natural orders of North American plants. Experiments on living plants, in regard to transpiration, growth and movements, and the examination of tissues, cell development, &c., will be conducted in the Laboratory Balance Room.

*Text Book.*—Goodwin's Physiological Botany (vol. II. of Gray's Botanical Text Book); Field Books for Student Work—Gray's Manual of Botany of the Northern States; Gray's How Plants Grow, with Lawrence's Fern Flora of Canada, as Appendix, (Macmillay); Minot's Catalogue of Canadian Plants.

**§ II.—The Academic Year.**—The academic year consists of one session. The session of 1891-92 will begin on Wednesday, 9th September, 1891, and end on Tuesday, 26th April, 1892.

**§ III.—Admission of Students.**—(1.) Persons of either sex may become students of the College by (a) furnishing satisfactory references or certificates of good moral character (on first entering the College), (b) entering their names in the Register (annually), and (c) paying the annual Registration fee (§ xxiii).

(2.) Registered students may, on presentation of their Registration Tickets and on payment of the proper fees (§ xxiii), enter any of the ordinary classes of the College. The Advanced Classes are open to students who have sufficient knowledge of the subjects taught in them.

(3.) Students who are candidates for degrees are known as Undergraduates, others as General Students.

**§ IV.—Degrees.**—(1.) Two baccalaureate degrees are conferred in the Faculty of Arts, those, viz., of Bachelor of Arts (B. A.), and Bachelor of Letters (B. L.).\*

(2.) Persons who wish to obtain University Degrees must become Undergraduates. Persons of either sex may become Undergraduates by (a) passing either one of the Matriculation Examinations or a recognized equivalent, (§§ iv, 4-6; v, 2; and vi, 2-3), and (b) matriculating, i. e., entering their names on the Matricula or Register as Undergraduates.

(3.) Two Matriculation Examinations are held, of lower and higher grade respectively. The First Year Matriculation Examination admits to the First Year of the various courses. The Second Year Matriculation Examination admits to the Second Year of the various courses, and thus enables those who pass it to obtain their degrees at the end of three academic years.

(4.) Persons may be admitted as Undergraduates of the First Year, without examination, on presentation of certificates from the Principals of High Schools or Academies, approved for this purpose by the Faculty, stating that they have satisfactorily completed the work prescribed for the First Year Matriculation Examination and passed satisfactory examinations therein.

\* The degree of Bachelor of Science hitherto conferred in this Faculty will henceforth be conferred in the Faculty of Science.

(5.) Persons who may have appeared as candidates for Junior Munro Exhibitions and Bursaries may be admitted as Undergraduates of the First Year without further examination, provided their examinations are approved by the Faculty. If their examinations are approved in some subjects but not in others, they may be admitted as Undergraduates on passing in the latter at the Final Matriculation Examination (October 7th-9th.).

(6.) Undergraduates of other Universities may, on producing satisfactory certificates, be admitted *ad eundem status* in this University, if on examination they are found qualified to enter the classes proper to their years. But if their previous courses of study have not corresponded to the courses on which they enter in this University, they may be required by the Faculty to take additional classes.

(7.) Undergraduates must pursue, at the College, specified courses of study, which vary with the degrees for which they are candidates, but in the case of all degrees extend over four years. They must also pass the prescribed examinations according to the regulations of § x.

#### **§ V.—First Year Matriculation Examination.**

(1.) The following are the subjects of this Examination :

1 and 2. Two of the following : Latin, Greek, French, German. (Candidates for B. A. must pass in Latin, and if they are to take Greek as one of the subjects of the First Year, must also pass in Greek).

LATIN.—GERMAN.—Composition—Translation of easy sentences. One Latin book. The following books are recommended :

For 1891.—*Cæsar—Gallie War*, Books IV and V.; or *Firzl.—Mædli*, Book II. Candidates for B. A. must pass in Latin, and if they are to take Greek as one of the subjects of the First Year, must also pass in Greek.

For 1892.—*Cæsar—Gallie War*, Books IV. and V.; or *Firzl.—Mædli*, Book III.

GREEK.—GERMAN. One Greek book. The following books are recommended :

For 1891.—*Kraepelin—Aegean*, Book V. or VI. or VII.  
For 1892.—*Kraepelin*, *Aegean*, Book I. or II. or VII.

FRENCH.—VALZÈRE : *Charles XII.*, Books I and II.; or Octave Feuillet : *Le Roman d'un jeune homme pauvre*. Questions in Grammar limited to the Accidence, and based upon the passages selected.—Easy English sentences for translation into French.

GERMAN.—ADLER'S *German Reader* (Appleton & Co.), Dritter Abschnitt ; or SCHILLER'S *Der Nestroy als Oberl.* Act I. GRAMMAR: Definitions of the Articles, Nouns, and Adjectives.

N. B.—Instead of the books recommended above in Latin, Greek, French, and German, candidates may offer equivalents which are not included in the Course of Study. Such equivalents must have been

previously appraised by the President. The names of the languages and of the books selected (or the approved equivalents) must be sent to the President, at least one week before the date of the Examination.

3. ARITHMETIC AND ALGEBRA.—*Arithmetick. Algebra:* Simple Rules, and Simple Equations of one unknown quantity, not involving surds.

4. GEOMETRY.—Euclid's Elements, Books I. and II.

5. ENGLISH.—*Composition:* Nothing but an essay will be required. More attention will be paid to the candidate's power of expression, than to his knowledge of fact. Legible writing, correct spelling and punctuation will be considered indispensable. *Grammar:* Analysis, and parsing of extracts. *Poetical Literature:* Longfellow; *Evangeline.*

6. HISTORY AND GEOGRAPHY.—Outlines of English and Canadian History, and General Geography.

7. OPTIONAL SUBJECT.—INORGANIC CHEMISTRY.—Nomenclature, Notation, Equivalent and Atomic Numbers, General Principles of Inorganic Chemistry. The Non-metallic Elements, and their more important compounds. Candidates must be able to read chemical formulae and equations, so as to explain their meaning in words, and to express in formulae the composition of common salts, and, in form of equations, ordinary chemical reactions.

This subject is not required; but a candidate taking it will be exempted from attendance on the lectures of the Chemistry class until after the Christmas vacation.

The above examination may be conducted partly *en rere.*

(2.) Candidates who hold Teacher's Licenses of Grade B, issued by the Nova Scotian Education Office, shall be exempted from the following subjects of the above Examination:—Latin, French, Arithmetic and Algebra, Geometry, English and History and Geography, provided these subjects were included in the examination by which they gained their Licenses.—Candidates who hold Licenses of Grade A shall be allowed to matriculate as undergraduates of the First Year without examination.—Candidates who hold Teachers' Licenses, issued by the Education Offices of other Provinces, may be exempted from parts of the above examination, on application to the Faculty.

(3.) Candidates who fail in a portion of the above Examination may, nevertheless, by special permission of the Faculty, be allowed to matriculate conditionally; but they will be required to pass in such portion at a subsequent date.

(4.) This examination will be held at the College on September 9th-14th, 1891. For the benefit of candidates unable to present themselves on these days, an opportunity will be granted of appearing for examination on October 7th-10th. But no student will be admitted as an undergraduate at a later date without the special permission of the Faculty.

## § VI.—Second Year Matriculation Examination.

—(1.) The following are the subjects of this examination:

1 and 2. Two of the following: Latin, Greek, French, German. Candidates for R. A. must pass in Latin; if they are to take Greek as one of the subjects of the Second Year, they must also pass in Greek; if not, they may select Greek, or French, or German.—Candidates for R. L. must pass in two languages, of which one must be French or German.)

LATIN.—The ordinary\* subjects of the First Year Class, as specified in § I (ii), together with one additional book.

GREEK.—The ordinary\* subjects of the First Year Class, as specified in § I (ii), together with one additional book.

FRENCH.—The subjects of the First French Class, as specified in § I (ii).

GERMAN.—The subjects of the First German Class, as specified in § I (ii).

N. B.—Instead of the books prescribed above in Latin, Greek, French, and German, candidates may offer equivalents which are not included in the Course of Study. Such equivalents must have been previously approved by the President.

3. MATHEMATICS.—The subjects of the First Year Class, as specified in § I (vii).

4. ENGLISH.—In addition to the subjects of the First Year Matriculation Examination (in which special stress will be laid on Composition), candidates will be required to pass an examination on the literary subjects specified for the ordinary\* work of the First Year Class (§ I, iii)—or the equivalents thereof.

5. HISTORY AND GEOGRAPHY.—The subjects of the First Year Matriculation Examination.

6. INORGANIC CHEMISTRY.—The subjects of the First Year Class (§ VIII).—Candidates may omit this subject; but in that event they must either pass the examination thereon on entering the Third Year, or take it instead of one of the elective subjects in the Third Year.

The above examination may be conducted partly *en rere.*

2. Candidates who have previously passed in any one or more of the above subjects, or in any portion thereof, either at the Matriculation Examination or at the Examinations of the First Year, shall be exempt from further examination therin.

(3.) Candidates who hold Teachers' Licenses of Grade B, issued by the Nova Scotian Education Office, shall be exempted from the following subjects of the above Examination:—The subjects of the First Year Matriculation Examination in English, and History and Geography.—Candidates who hold Licenses of Grade A, shall be exempted from Latin, Greek, Mathematics, the subjects of the First Year Matriculation Examination in English, History and Geography, and Inorganic

\* The "ordinary" subjects are those not marked with an asterisk in § I.

Chemistry, provided these subjects were included in the examination by which they gained their Licenses.—Candidates who hold Teachers' Licenses issued by the Education Offices of other Provinces may be exempted from parts of the above examination on application to the Faculty.

(4.) Candidates must give at least one fortnight's notice to the President, of their intention to appear at this examination; and in giving such notice they must state in what Latin, Greek, French, German, and English books they intend to offer themselves for examination, whether or not they wish to be examined in Chemistry, and in what subjects they claim exemption from examination.

(5.) This examination will be held at the College on September 9th-14th, 1891. For the convenience of candidates unable to appear on those days, an opportunity will be granted of appearing for examination on October 7th-10th. But no student will be allowed to enter as an undergraduate at a later date, without the special permission of the Faculty.

**§ VII.—Ordinary Courses of Study for Degrees of B. A. and B. L.**—The following is a list of the classes which undergraduates are required to attend in the four years of the ordinary courses for B. A. and B. L. The details of the subjects studied in these classes, will be found under Courses of Instruction (§§ i., xxiv, and xii.).

#### First Year.

1. For B. A.—Latin. For B. L.—German.
2. For B. A.—Greek, or French, or German. For B. L.—French.
3. Mathematics.
4. Inorganic Chemistry.
5. English.

Undergraduates taking French or German, enter the classes for which the Professor considers them fitted.

#### Second Year.

1. For B. A.—Latin. For B. L.—German.
2. For B. A.—The language chosen as subject 2 in the 1st year. For B. L.—French.
3. For B. A.—Mathematics. For B. L.—Mathematics or Junior Physics.
4. English.
5. Junior Philosophy.

#### Third Year.

1. For B. A.—Latin or Greek. The language selected must have been taken during the first two years. For B. L.—German or French.

2. For B. A.—Junior Physics. For B. L.—Junior Physics or any one of subjects 4—5. (Junior Physics must be taken either in the Second or Third Year).

#### 3. History.

#### 4—5. Any two of the following\* :

- |                           |                            |
|---------------------------|----------------------------|
| a. Greek.                 | g. Political Economy.      |
| b. Hebrew.                | h. Ethics.                 |
| c. French.                | i. Senior Philosophy.      |
| d. German.                | j. Organic Chemistry, or   |
| e. English.               | k. Medical Chemistry.      |
| f. Constitutional History | l. Practical Chemistry.    |
| (Law Faculty).            | m. Botany.                 |
|                           | Zoology (Science Faculty). |

Undergraduates are required, on or before September 17th, to submit to the President for approval, the names of the two subjects, 4—5, which they may wish to select.

Undergraduates selecting French or German for the first time, enter the classes for which the Professor considers them fitted. Those selecting Greek for the first time, enter the First Year Class.

A certificate of attendance on a class of New Testament Greek in any recognized College, will exempt from subject 1 or from one of the two subjects 4—5, an undergraduate who has taken Greek in the first two years.

The University provides no instruction in Hebrew, but a certificate of attendance on a Hebrew Class in any recognized College will exempt an undergraduate from one of the two subjects, 4—5.

An undergraduate who takes subject f in the Third Year and subjects k and l in the Fourth Year may complete his course in the Faculty of Law in two years.

An undergraduate who has already passed the Matriculation Examination of the Faculty of Medicine (see Regulations of the Faculty of Medicine) may complete one Medical Academic Year in the third year of his Arts Course, by taking subjects j (Medical Chemistry), k and l. To complete his year in this Faculty he will require to take also subjects 1, 2 and 3.

#### Fourth Year.

#### Any five of the following\* :

- |            |             |
|------------|-------------|
| a. Latin.  | d. French.  |
| b. Greek.  | e. German.  |
| c. Hebrew. | f. English. |

\* So far as the provisions of the Time Table permit.

- g. History.
- h. Political Economy.
- i. Ethics.
- j. Senior Philosophy.
- k. Constitutional Law  
(Law Faculty).
- l. Contracts  
(Law Faculty).
- m. Senior Physics.
- n. Practical Physics.
- o. Organic Chemistry, or  
Medical Chemistry.
- p. Practical Chemistry.
- q. Botany.
- r. Zoology (Science Faculty).

Undergraduates are required, on or before September 17th, to submit to the President for approval, the names of the subjects which they may wish to select.

Undergraduates taking the First Year Greek Class in the Third Year must take the Second Year Class in the Fourth. Those taking the First French or First German Class in the Third Year must take the Second Class of the same subject in the Fourth. Neither the First Year Greek Class nor the First German or French Class can be taken in the Fourth Year without special permission.

A certificate of attendance on a New Testament Greek class in any recognized College, will exempt from one subject an undergraduate who has taken Greek during the first three years.

A certificate of attendance on a class in Hebrew in any recognized College will exempt from one subject. If the Hebrew class be one of five hours a week, attendance on it will exempt from two subjects.

An undergraduate who has already passed the Matriculation Examination of the Medical Faculty (see Regulations of that Faculty) may complete one Medical Academic Year by taking subjects of (Medical Chemistry), p, and q, in the Fourth Year. But he will not be allowed to take these subjects in this year if he have already taken them in the Third.

No class in which the subjects studied are the same from year to year, can be taken twice as part of the course.

**§ VIII.—Special Courses for Degrees.**—(1.) An undergraduate shall be allowed, during his Third and Fourth Years, to restrict his attention to a more limited range of subjects than that of the ordinary course, by entering upon one of the Special Courses, provided he has either attained both a First Class standing at the previous Examination in the subject corresponding to that of the Special Course selected, and a satisfactory standing in the other subjects, or received the special permission of the Faculty.

(2.) Special Courses are provided in the following departments, viz., (1) Classics, (2) Latin and English, (3) Greek and English, (4) English and German, (5) English and English History, (6) Philosophy, (7) Mathematics and Mathematical Genetics, (8) Experimental Physics and Chemistry. Undergraduates in Arts may take special courses in any one of the

The Advanced Class may be taken as an ordinary class in the Fourth Year.  
(See § I, v.)

above departments; undergraduates in Letters in any one of departments 4, 5, 6, 7, and 8.

(3.) An undergraduate taking a special course in any of the above departments shall be required to attend the Advanced Classes provided in the subjects of such departments (§ I), to make progress satisfactory to the Professors who conduct such classes, and to pass the examinations in the subjects of such department. He shall be allowed to omit, from the subjects of the ordinary course, certain subjects specified below, and may select as his ordinary classes in any year, any of the classes of that year, subject to the following regulations and to the approval of the Faculty.

(4.) The examinations in the subjects of the Special Course shall be held at the end of the Fourth Year.

(5.) Undergraduates taking the Special Course in **Classics** may, in each of the Third and Fourth Years, omit any two of the subjects of those years, except Latin and Greek.

They shall be examined in the following subjects:—

#### LATIN.

I. Candidates will be required to have a critical knowledge of the following works, in addition to those prescribed in the ordinary course:—

- Plautus : Miles Gloriosus.
- Terence : Adelphi.
- Virgil : Georgics, Books I., II.
- Horace : Epistles, Books I., II.; Ars Poetica.
- Juvenal : Satires, VII., VIII., XIV.
- Cicero : De Octato, Books I., II.
- Livy : Books XXXI., XXXII.
- Tacitus : Germania; Annals, Book II.

II. Candidates will be required to show a general knowledge of one prose and one verse subject, to be chosen by them from the following list:

- Plautus : Trinummus, Ambulatrix.
- Terence : Andria, Heautontimorumenos.
- Horace : The Satires not read in class, (Hardy's edit.)
- Petrarch : Satiros.
- Cicero : Select Letters, (Muirhead's edit., Birringtons, London).
- Livy : Books II., III., IV.
- Tacitus : Books I., II.

#### III. COMPOSITION.—PROSE.

IV. LITERATURE.—Crutwell's History of Latin Literature, selected chapters.

V. PHILOLOGY.—Peile's Introduction to Greek and Latin Etymology; Comparative Philology by Papillon.

## GREEK.

I. Candidates will be required to have a critical knowledge of the following works, in addition to those of the ordinary course:

- Aeschylus : *Eumenides*.  
 Sophocles : *Oedipus Rex*.  
 Aristophanes : *The Knights*.  
 Homer : *Odyssey*, Books V., VI., VII., VIII.  
 Thucydides : Book II.  
 Plato : *Phaedo*.  
 Demosthenes : *De Corone*.  
 Aristotle : *Poetics*.

II. Candidates will be required to show a general knowledge of one prose and one verse subject, to be chosen by them from the following list :

- Aeschylus : *Agamemnon*, *Choephorae*.  
 Sophocles : *Oedipus Colonus*, *Antigone*.  
 Euripides : *Phoenissae*, *Bacchae*, *Hippolytus*.  
 Herodotus : Any two books, excluding the Second.  
 Thucydides : First and Seventh Books.  
*(Aeschines)* : *Contra Ctesiphonem*.  
*(Demosthenes)* : *De Falsa Legatione*.

## III. COMPOSITION.—PROSE.

IV. PHILOLOGY.—Pelle's Introduction to Greek and Latin Etymology; Comparative Philology by Papilien.

V. LITERATURE.—Mahaffy's History of Greek Literature, the portions bearing on the authors and subjects read by the candidate during his college course. Haigh's Theatre of the Greeks.

6.) Undergraduates taking the Special Course in **Latin and English** may, in each of the third and fourth years of their course, omit any two of the subjects of those years, except Latin and English. They shall be examined in the following subjects, viz.:

## LATIN.

The Latin subjects prescribed for the Special Course in Classics.

## ENGLISH.

The historical development of the language and literature to the year 1300. *Sweat*, Anglo-Saxon Reader (exclusive of poetical selections); *Shiers*, O. E. Grammar trans. by Cook, Part II.; *Moravia*, Specimens of Early English, I., and *Leopardi*, History of the English Language.

History of the Elizabethan and Early Stuart Literature. *Moxon*, Edward H. *Wester*, The Duchess of Malfi. *Greville*, Frer Bacon and Friar Bungay. *Sidney*, Apologie for Poesie. *Hooper*, Ecclesiastical Poetry, Book I. *Bacon*, Advancement of Learning. Select Essays. Shakespeare, Henry VI., Pts. II. and III., Romeo and Juliet, Lear, Henry VIII., Two Noble Kinsmen.

*Books recommended*:—History of Literature: *Salisbury*, *Brosie*. Clarendon Press "Marmaduke" and *Arber* Editions of Elizabethan works.

(7.) Undergraduates taking the Special Course in **Greek and English** may, in each of the third and fourth years of their course, omit any two of the subjects of those years, except Greek and English. They shall be examined in the following subjects, viz.:

## GREEK.

The Greek subjects prescribed for the Special Course in Classics.

## ENGLISH.

The English subjects prescribed for the Special Course in Latin and English.

(8.) Undergraduates taking the Special Course in **English and German** must have taken German in the first and second years of their course, and may in each of the third and fourth years omit any two subjects of those years except English and German. They shall be examined in the following subjects:—

## ENGLISH.

The English subjects prescribed for the Special Course in Latin and English.

## GERMAN.

Middle High German: Grammar (Wright's Middle High German Primer); Selections from Hartmann von Aue, Walther von der Vogelweide, Nibelungenlied, Wolfram von Eschenbach, Freidank or Gotfrid von Strasburg, Sebastian Brant (Wackernagels Kleineres Altdtachses Lossebach).

Selections from Swiss and Plattdeutsch dialect literature.

German literature of the 16th, 17th and 18th centuries, with selections from authors of that period.

Two of the chief literary works of Goethe not read in the ordinary course.

Translation of unspecified passages from any modern High German author.

Prose composition.

(9.) Undergraduates taking the Special Course in **English and English History** may, in each of the third and fourth years of their course, omit any two of the subjects of those years, except English and History. They shall be examined in the following subjects, viz.:—

## ENGLISH.

The English subjects prescribed for the Special Course in Latin and English.

## ENGLISH HISTORY.

A minute investigation of English History from A.D. 1603-1689.

*Books recommended*:—Grote's History of the English People, Vol. 3; Ligouri's History of England, Vols. 7-39; Hallam's Constitutional History of England, Chap. VI.-XIV.; Reddie's History of England; S. E. Gudger's Works on this Period; Clarendon's History of the Great Rebellion; Masson's Life of Milton; Carlyle's Life of Cromwell; Foster's Life of Elliot; Hague's Chief Actors in the Puritan Revolution,

(10.) Undergraduates taking the Special Course in **Philosophy** may, in each of the third and fourth years of their course, omit any one of the subjects of those years, except Senior Philosophy, which must be taken in both the Third and Fourth Years, and Ethics, which must be taken in the Third Year. They shall be examined in the following subjects :-

Plato's *Theatetus* and *Republic*, (omitting Books VII. and IX.) Aristotle's *Nicomachean Ethics*, (omitting Books VI. and VII.)

Locke's *Essay on Human Understanding*: Books II. and IV.

Fraser's Selection from Berkeley,

Hume's *Treatise on Human Nature*, vol. I. (with Green's Introduction).

Kant's *Critique of Pure Reason* and *Critique of Practical Reason*.

Reid's *Essay*, VI.

Mill's *Logic*.

Ladd's *Outlines of Physiological Psychology*.

Green's *Prolegomena to Ethics*,

Stevens' *Data of Ethics*

Sidgwick's *Methods of Ethics*.

A general knowledge of the Physiology of the Brain and Nervous System and a thorough knowledge of Formal Logic will be expected from all candidates; and an Essay will be prescribed to each, to be written in connection with the work of the Advanced Class.

(11.) Undergraduates taking the Special Course in **Mathematics and Mathematical Physics** may omit in the third year any two, and in the fourth year any three, of the subjects of those years, except Physics, and must take the Senior Physics Class in both the third and fourth years. They shall be examined in the following subjects, viz.:-

#### MATHEMATICS.

**TRIGONOMETRY.**—Angular Analysis: Solution of Spherical Triangles; Napier's Analogies; with application to Astronomical Problems.

**ANALYTICAL GEOMETRY.**—The Conic Sections, and the Equation of the Second Degree between two variables; as far as set forth in any standard treatise on the subject.

**CALCULUS.**—Differential and Integral, as set forth in any standard treatise on these subjects. Differential Equations (selected course), with practical applications to Physical Problems.

#### MATHEMATICAL PHYSICS.

Either : Kinematics (a) of a point (b) of a rigid system, and (c) of a deformable system ; Dynamics (including both Statics and Kinetics) (a) of a particle, (b) of systems of particles (including flexible strings), (c) of a rigid body, (d) of elastic solids, and (e) of fluids ; and Wave Motion, with application to Sound and Light.

Or: Dynamics, the portions bearing on the doctrine of Energy; Thermodynamics; and Electrodynamics (including Electrostatics).

These subjects are to be treated by the application of analytical Geometry and the Differential and Integral Calculus.

(12.) Undergraduates taking the Special Course in **Experimental Physics and Chemistry** may, in the third year, omit any one, and in the fourth year, any two, of the subjects of those years, except Physics, Practical Physics, and Organic and Practical Chemistry, and must take the Senior Physics class in both the third and fourth years. They shall be examined in the following subjects :-

#### EXPERIMENTAL PHYSICS.

Candidates shall be required to show a general knowledge of Abstract Dynamics, the Properties of Solids and Fluids, Heat, Electricity and Magnetism, Light and Radiant Heat, and Sound, so far as these subjects can be treated by elementary mathematical methods. The extent of knowledge required is such as may be obtained by a study of the following books :— MacGregor's *Kinematics and Dynamics*, (Macmillan & Co.); Tait's *Properties of Matter*, (A. & C. Black); S. Taylor's *Sound and Music*, (Macmillan & Co.); Abbe's *Geometrical Optics*, (Dent, Bell & Co.); Lloyd's *Wave Theory of Light*, (Longmans); Maxwell's *Theory of Heat*, (Longmans); Stewart's *Treatise on Heat*, (Clarendon Press); Curran's *Theory of Electricity*, (Macmillan & Co.), and S. P. Thompson's *Elementary Lessons in Electricity and Magnetism*, (Macmillan & Co.).

They shall be required to show an intimate knowledge of the following original memoirs : Joule's papers on the determination of the Mechanical Equivalent of Heat, contained in his *Scientific Papers* (Taylor & Francis), vol. I, pp. 123, 172, 288, 342, 622.—Faraday's Experimental Researches in Electricity (Quaritch), vol. I, Series III., IV., VI., VII., VIII.

They shall be required also to show ability to determine practically physical constants, such as Density, Specific Heat, Electrical Resistance, &c., and simple physical laws.

#### CHEMISTRY.

**ORGANIC CHEMISTRY.**—Principles of Elementary Analysis, Practical Estimation of Carbons, Hydrogen, Oxygen and Nitrogen. Principles of Classification. Hydrocarbons, Chlorides, &c. Monatomic and Polyatomic Alcohols, Aldehydes, Volatile Fatty Acids, Complex Ethers, Ethers of Glycerine, Saponification, Organic Acids, Carbhydrates, Fermentation, Transformations of the Alcohols, and Laboratory Determinations. Aromatic Group. Compound Amines. Alkaloids.

*Books recommended* : Wurtz's Chemistry, Organic part. Baues & Schlesinger's Chemistry.

*For reference* : Ewart & Schlesinger; Wurtz's Dictionary of Chemistry, and other reference works in the Science Room Library.

**PRACTICAL CHEMISTRY.**—Candidates will be required to show familiarity with modes of Manipulation, Preparation of Gases, Preparation of Laboratory Re-agents, Systematic Method of Testing for bases and for acids ; also proficiency in one of the following :—(1) Quantitative Estimation of Metallic Ores, (2) do. of Inorganic Poisons, (3) Soil Analysis, (4) Sanitary Analysis. Special work will be prescribed according to the department selected by the candidate, and suitable books suggested.

*Books recommended for general use* : Masland's Practical Chemistry, Prout's Qualitative Analysis, Thorpe or Appleton, Webster's Mineral Analysis.

**§ IX.—Attendance.**—(1.) Undergraduates are required to attend with regularity the classes of their respective years. Professors shall mark the presence or absence of students immediately before commencing the work of the class, and shall note as absent those who enter thereafter, unless satisfactory reasons be assigned.—The amount of absence as recorded in the class registers, which shall disqualify for the keeping of a Session, shall be determined by the Faculty.

(2.) With the exception of persons who have qualified for matriculation at the Final Matriculation Examination (§§ v. (4), and vi. (5)), no undergraduate shall be allowed to register as such more than ten days after the opening of classes without the special permission of the Faculty.

(3.) Undergraduates of any year, who may have previously attended one or more of the classes of that year, and passed in the subjects of them, shall be exempted by the Faculty from attending those classes a second time.

**§ X.—Examinations.**—(1.) Undergraduates are required to appear as candidates at the various examinations held in connection with the classes which they may attend as parts of their course, and to prepare such theses, essays, reports, &c., as may be prescribed by the professor. In all classes two examinations are held, one just before the Christmas vacation and the other after the close of lectures in the Spring. In some classes other examinations are held at dates appointed by the Professor. In the determination of the Pass List and in the award of Class Distinctions, which may be of two grades—First and Second Class, the results of these various examinations and the degree of excellence shewn in theses, essays, reports, &c., shall be taken into consideration.

General Students are admitted to the above Examinations as well as undergraduates, and their position in the Pass and Distinction Lists are determined in the same way.

Certificates are issued to members of each class stating with what degree of regularity they have attended and what standing they have attained.

(2.) Undergraduates who are exempted by § ix. (3), from attendance on one or more classes, shall be exempted also from passing the Examinations in the subjects of them.

(3.) Undergraduates of the Third and Fourth Years who are exempted from attendance on one or more classes on presentation of certificates from recognized Colleges, shall be exempted from examination in the subjects of those classes on presentation of certificates of having passed examinations therein, in the said Colleges.

(4.) An undergraduate who fails to obtain a position on the Pass List in one or more subjects, at the end of any Session, shall be allowed a Supplementary Examination in such subject or subjects at the beginning of any subsequent Session, on the day appointed for that purpose in the University Almanac, (Sept. 14th, 1891).

The ordinary fee for a Supplementary Examination shall be Two Dollars. But to restrain undergraduates from giving the Examiners unnecessary trouble, a fee of Six Dollars will be required in the following cases: (1) if the undergraduate have absented himself from the Examination for reasons considered insufficient by the Faculty; (2) if his answers at the Examination have been reported by the Examiner as having no value; (3) if he have failed to pass in more than two subjects.

(5.) An undergraduate who has failed to pass in any subject, will not be allowed to enter, as an undergraduate, a more advanced class in the same subject, or a class requiring a knowledge of the subject in which he has failed, until he has either passed the Supplementary Examination, or satisfied the Faculty that he is able to prosecute the work of the class with profit.

(6.) An undergraduate who fails either to appear, or to pass, at a Supplementary Examination, shall not be allowed a second Supplementary Examination in the same Session, except by special permission of the Faculty; and in cases in which a second Examination is granted, a fee of Three Dollars will be charged in addition to the Supplementary Examination fee.

(7.) Undergraduates wishing to appear as candidates at any Supplementary or Special Examination shall be required to give notice of their intention, to the Secretary of the Faculty, at least one week before the date of such examination.

(8.) Students are forbidden to take any book or manuscript into the Examination Hall, except by direction of the Examiner, or to give or receive assistance, or to hold any communication with one another, at the Examinations. If a student violate this rule he may be summarily expelled from the Examination room, and he shall be subject to such other penalty as the Faculty may see fit to impose.

**§ XI.—Degrees with General Distinction.**—Degrees with General Distinction will be conferred on undergraduates for special excellence shewn at the Examinations of the Third and Fourth Years of any of the ordinary courses for degrees, the Mathematics of the Second Year being for the purposes of this rule regarded as a Third Year Class.

In awarding such Distinction the Faculty, while requiring that candidates shall attain a good standing in all their classes, will lay special stress on the attainment of a high standing in a few related subjects.

The Distinction awarded may be of the First or Second Rank.

**§ XII.—Degrees with Honours.**—Degrees with Honours in any of the departments of study in which Special Courses are provided, will be conferred on undergraduates for special excellence shewn at the Examinations in the subjects of such courses.

The Honours awarded may be of the First or Second Rank.

A candidate for Honours may defer his examinations in the subjects of his Special Course until a year after he has passed the examinations in the ordinary subjects of the Fourth Year; in which case, however, such candidate shall not be entitled to his Degree until he has passed the examinations of such Special Course.

**§ XIII.—Short Courses of Study for General Students.**—(1.) For the benefit of students who may wish to spend but a short period of time at the University, the Time Table has been so arranged that the following combinations of classes may be made. The details of the subjects studied in these classes will be found under Courses of Instruction, (§ § I. and XII.)

(2.) To students who attend the classes of the following courses with regularity and pass the Examinations (§ X.) in the subjects thereof, certificates will be issued stating the nature of the course pursued and the degree of success attained.

(3.) **Two Years Course of Liberal Studies.**—*First Year.*—Two of the three,—Latin, French, and German; English; Mathematics or History and Political Economy; Inorganic Chemistry or Botany. *Second Year.*—Two of the three—Latin, French, German; English Literature; Political Economy or Junior Philosophy; Physics or Inorganic Chemistry. (The alternative subjects so far as the Time-table may permit.)

(4.) **Two Years Course of Literary and Scientific Studies.**—*First Year.*—French or German, English, Mathematics, Botany, Inorganic Chemistry. *Second Year.*—French or German, English Literature, Physics, Organic Chemistry, Practical Chemistry.

(5.) **Two Years Course in Subjects bearing on Journalism.**—*First Year.*—French, English Literature (1st and 2nd Years' classes), History (3rd and 4th Years' classes), Junior Philosophy or Political Economy. *Second Year.*—French, Advanced English Literature, Ethics, Political Economy, Constitutional History, Constitutional Law.

(6.) **Two Years Course in Subjects bearing on Commerce.**—*First Year.*—French, German, English, Mathematics, Chemistry. *Second Year.*—French, German, English Literature, Political Economy, Physics, Law of Contracts.

**§ XIV.—Evening Classes.**—During the past session evening classes, of two hours a week each, were conducted in Mathematics and Chemistry for the benefit of artisans. It is intended to open similar classes in the present session in Chemistry and Physics, should there be sufficient demand.

### § XV.—Medals and Prizes.

*(The Senate reserves to itself the right of withholding Medals and Prizes in cases in which sufficient merit is not shown.)*

**THE GOVERNOR-GENERAL'S GOLD MEDAL,** which is offered by His Excellency the Governor-General of the Dominion of Canada, will be awarded to the undergraduate standing highest among those taking Honours in the Department of Classics, the winners of other medals being excluded. In the event of its not being awarded in this department, it may be awarded in the department of Latin and English, or in that of Greek and English, or in some other department.

**THE GOVERNOR-GENERAL'S SILVER MEDAL,** which is offered by His Excellency the Governor-General of the Dominion of Canada, will be awarded to the undergraduate standing highest among those taking Honours in Philosophy, the winners of other medals being excluded. In the event of its not being awarded in this department, it may be awarded in some other department.

**THE SIR WILLIAM YOUNG GOLD MEDAL,** founded by bequest of the late Hon. Sir William Young, will be awarded to the undergraduate standing highest among those taking Honours in the department of Mathematics and Mathematical Physics, the winners of other medals being excluded.

**NORTH BRITISH SOCIETY BURSARY.**—A Bursary of the annual value of \$50, has been founded in connection with Dalhousie College by the North British Society of Halifax, to be competed for at the Examinations of the Second Year's Course in Arts, and held by the successful competitor for two years, namely, during the Third and Fourth Years of the Undergraduate Course in Arts. Candidates must be undergraduates who have completed two years of the Curriculum, and must be eligible at the proper age, to be members of the North British Society. The next competition will take place in April, 1892.

**THE WATERSIDE PRIZE.**—This Prize, the interest of an endowment of \$1000, will be awarded annually to the student of the Second Year Mathematical Class, who stands highest at the Examinations in the Mathematics of the year, the winner of the North British Society Bursary being excluded.

THE AVERY PRIZE.—This Prize, the interest of \$500, bequeathed for this purpose by the late J. F. Avery, M.D., will be awarded on graduation to that member of the graduating class, who, during the Third and Fourth Years of his Course, has distinguished himself most among those taking the ordinary B. A. Course.

THE EARLY ENGLISH TEXT SOCIETY'S PRIZE, which is offered annually by that Society, and consists of several volumes of the Society's publications, will be awarded to the Student standing highest in the subject of Early English Language and Literature at the examinations of the Special Course in English and English History.

THE NEW SHAKESPEARE SOCIETY'S PRIZE, which is offered annually by that Society, and consists of several volumes of the Society's publications, will be awarded to the student who stands highest in the subject of the plays of Shakespeare at the Examinations of the Second Year in English Literature.

### § XVI.—MUNRO EXHIBITIONS AND BURSARIES.

(1.) The following Exhibitions and Bursaries are offered by George Munro, Esq., of New York, to be competed for at the beginning of the Session of 1891-92:—

Five Junior Exhibitions of \$150 a year, tenable for two years.

Ten Junior Bursaries of \$100 a year, tenable for two years.

Five Senior Exhibitions of \$150 a year, tenable for two years.

Ten Senior Bursaries of \$900 a year, tenable for two years.

(2.) The *Junior Exhibitions and Bursaries* are offered for competition to candidates for matriculation in Arts or Sciences, provided they have previously neither matriculated\* at any University conferring degrees in these departments, nor appeared as candidates for these Exhibitions and Bursaries more than once.

(3.) The *Senior Exhibitions and Bursaries* are offered for competition to undergraduates entering the Third Year of the B. A. and B. Sc. Courses. Candidates must have completed the Second Year of their Course, either at this or at some other University; but they must not have entered upon the Third Year. They must also have matriculated\* within three years or within two years of the date of the competition, according as they may have entered upon their course as undergraduates of the First or of the Second Year respectively.

(4.) The *Junior Exhibitions and Bursaries* shall be held during two years, provided the holder (*a*) attend in consecutive years, to the satisfaction of the Faculty, the classes proper to the first and second years of the B. A. or B. Sc. Course, Greek being taken as one of the subjects of each of those years if the holder select the B. A. Course; (*b*) pass in all the subjects of the first year, and attain a Second Class standing in at least one of them, and (*c*) pass in the subjects of the second year.

(5.) If a candidate, to whom a Junior Exhibition or Bursary has been awarded, is able to pass the Second Year Matriculation Examination, he may enter the Second Year; in which case, however, he shall hold his Exhibition or Bursary during that year only.

(6.) The *Senior Exhibitions and Bursaries* shall be held during the third and fourth years of the B. A. or B. Sc. Course, provided the holder (*a*) attend in consecutive years, to the satisfaction of the Faculty, the classes proper to the third and fourth years of his Course, (*b*) pass in all the subjects of the third year, and either obtain a Second Class standing in one of them or obtain the favourable report of a Professor on work done in one of the Special Courses, and (*c*) pass in the subjects of the fourth year.

(7.) The annual amounts of the above Exhibitions and Bursaries will be paid in three instalments, the first on the first Monday after the Autumn Convocation, the second on the first Monday after the Christmas vacation, and the third on the day of the Spring Convocation, the payment of each instalment being dependent upon the fulfilment of the conditions of tenure at the date at which it becomes due.

(8.) Candidates are required to make application for these Exhibitions and Bursaries by letter addressed to the President, and sent so as to reach him on or before September 1st, 1891. In making such application they must send (*a*) a statement signed by themselves to the effect that they are not precluded by any of the conditions of § XVI (2) or (3), from competing for these Bursaries, and (*b*), if they have not already been students at this College, a certificate of good moral character signed by a clergyman or other person occupying a public official position.

(9.) A certain standard of answering at the Examinations, fixed by the Faculty, will be required for obtaining any of the above Exhibitions and Bursaries. A higher standard will be required for Exhibitions than for Bursaries.

\* Matriculation consists in entering the name upon the Register of a University as an undergraduate, not in the mere passing of a Matriculation Examination.

<sup>†</sup> For the purposes of condition (*b*), Geometry and Algebra shall be reckoned as separate subjects.

(10.) The Faculty shall in all cases decide as to the fulfilment of the above rules and conditions.

(11.) The Examinations for the Exhibitions and Bursaries will be held at the College on September 8th-11th, 1891.

(12.) The subjects of examination for the *Junior Exhibition and Bursaries* shall be as follows:—

1. **LATIN.**—*Cesar*, Gallic War, Books IV and V, and *Firpius*, Book II.—*Grammar*: Accidence, Prosody, Scansion of Hexameter Verse.—*Text Book*: Smith's Latin Grammar.—*Prose Composition*: As in Arnold's Latin Prose Composition by Bradley, Exs. I-44. An "unseen" prose passage will be set for translation.

2. **GREEK.**—*Xenophon*, Anabasis, Books V., VI. and VII.—*Grammar*: Accidence (omitting accentuation), cited rules of Syntax.—*Text Book*: Smith's Greek Grammar.—*Prose Composition*: As in Fletcher and Nicholson, (A. Ballie, Kingston, Ont.) Exs. I-28. An "unseen" prose passage will be set for translation.

3. **MATHEMATICS.**—*Arithmetick*: the ordinary rules of Arithmetick, Vulgar and Decimal Fractions, Proportion and Interest.—*Algebra*: as far as Simple Equations and Series, with theory of Indices.—*Geometry*: First, Second and Third Books of Euclid or the subjects thereof.

4. **ENGLISH.—Languages.**—*Grammar*, Analysis, Writing from Dictation, Punctuation, Synthesis, Paraphrasing.—*History and Geography*: Outlines of English and Canadian History, and General Geography.

The relative values of these subjects shall be as follows: Classics, 250; Mathematics, 200; English, 200.

(13.) The subjects of Examination for the Senior Exhibitions and Bursaries of 1891-92 shall be any two of the following groups:—

#### A.—CLASSICS.

**LATIN:** *Homer*, Odys, Book iv.—*Chore*, Selected Letters, (Prichard and Bernard's, sold by Macmillan, N. Y.) An "unseen" passage will also be set for translation. *Composition*: An easy piece of English to be turned into Latin Prose. (For models, see Champney's and Rendall's Easy Pieces for Latin Prose, 2nd series, Elvingtons, London.)

**GREEK:** *Herodotus*, Book vi. (Stuckburgh's, sold by Macmillan, N. Y.) An "unseen" passage also will be set for translation. *Composition*: Translation of simple passages. (For models, see Sidgwick's Introduction to Greek Prose Composition.)

#### B.—MATHEMATICS.

**ALGEBRA:** As set forth in Colenso's, or Todhunter's or Wood's Algebra, exclusive of Continued Fractions and Diophantine Analysis.

**TRIGONOMETRY:** Analytical Plane; as far as, and including, DeMoivre's Theorem, with its application to the measurement of

Circular Arcs, and the solution of the equation  $x_n = \pm 1$ .—Spherical; as far as, and including, Napier's Rules for the solution of Right-angled Triangles.

**GEOMETRY:** The First, Second, Third, Fourth and Sixth Books of Euclid; with the definitions of the Fifth; the first 21 propositions of the Eleventh Book. *Conic Sections*:—The Parabola and the Ellipse, as set forth in Deve's Conic Sections. (The equivalents of these will be accepted, if the candidate has used other TEXT BOOKS; which, however, he must, at the examination, specify.)

The examinations will not be confined to the text of the books mentioned, or of any others, but will include Exercises and Problems on the principles laid down in common by all standard treatises on the above subjects.

#### C.—ENGLISH.

*Lowndesbury*: History of the English Language, Pt. 1.; *Spenner*: Farcie Queen, Blk. II.; *Shakespeare*: Merchant of Venice, Henry V.; *Scott*: Marion; *Scott* (Eng. Men of Letters Series).

Candidates shall be required to present themselves for examination in two of the above groups—A, B, C. They may select any two of these groups; but will not be allowed to present themselves for examination in all three.

The relative values of the three groups shall be the same.

Candidates must give notice to the President, of the groups in which they intend to present themselves for Examination.

The subjects of Examination for the Senior Exhibitions and Bursaries of 1892-93, shall be as follows:—

#### A.—CLASSICS.

The same as for 1891-92.

#### B.—MATHEMATICS.

The same as for 1891-92.

#### C.—ENGLISH.

*Lowndesbury*: History of the English Language, Pt. 1.; *Josson*: The Alchemist; *Shakespeare*: Midsummer Night's Dream, Henry IV., Pt. 1.; *Codrington*: Ancient Mariner, Christabel, Knilla Khan; *Codrington* (Eng. Men of Letters Series).

#### D.—CHEMISTRY AND OTHER PHILOSOPHY OR PHYSICS.

**Chemistry.**—The subjects of this Examination will be the same as those embodied in the Course of Lectures on Inorganic Chemistry, given under the heading "Inorganic Chemistry Class," on page 28 of this Calendar.

**Philosophy.**—Jevon's Elementary Lessons in Logic (Macmillan & Co.), Fowler's Inductive Logic (Clarendon Press); and Clark Murray's Handbook of Psychology (Danae Brothers, Montreal.)

**Physics.**—The subjects of examination will be the same as those studied in the Junior Physics Class. But the paper will consist largely of problems of a more difficult order than those taken up in the class.

\* These Text Books are mentioned to indicate in a general way the extent of knowledge required.

Candidates are recommended to revise thoroughly the books prescribed for Distinction in the Junior Class, and in addition to work through Jones' Examples in Physics (Macmillan & Co.).

Candidates shall be required to present themselves for examination in two, and two only, of the above groups, A, B, C, D. Of the two one must be either A or B, and the other may be any other of the four. The relative values of the four groups will be the same.

**§ XVII.—Residence.**—All students are required to report their places of residence to the President on or before the day appointed in the University Almanac, (October 16th).

Persons who wish to take students as boarders must furnish the President with satisfactory references. A Register is kept by the President, containing the names of those persons who have satisfied this condition; and, for the convenience of students, a list of the names and addresses of such persons will be posted on the notice-board in the College hall at the beginning of the Session.

**§ XVIII.—Church Attendance.**—All students under twenty-one years of age not residing with parents or guardians, are required to report to the President on or before the day appointed in the University Almanac, (October 16th), the churches they intend to make their places of worship during the Session. Intimation will be made to the various clergymen of the city, of the names and addresses of the students who have chosen their respective churches as places of worship.

**§ XIX.—Discipline.**—Any case of improper conduct on the part of a student, if brought to the notice of the Faculty, is to be investigated by the Faculty and reported to the Senate.

The Senate has authority to impose fines for damage done to property, to inflict at discretion the penalties of admonition, suspension for a term, and expulsion, for neglect of duty, or for disorderly or improper conduct, and to use all other means deemed necessary for maintaining discipline.

The Professors have full power to maintain order in their respective classes, and may if necessary expel from the room during the class hour, any student persisting in disorderly conduct.

**§ XX.—Degree of Master of Arts.**—A Bachelor of Arts, of at least three years standing, maintaining meanwhile a good reputation, shall be entitled to the Degree of Master of Arts, on producing a satisfactory thesis on some literary, philosophical or scientific subject. The subject must have been previously approved by the Faculty. The thesis must be handed in on or before 1st March.

A Bachelor of Arts of at least one year's standing shall be entitled to the Degree of Master of Arts, on passing an examination in a course of study to be approved by the Faculty, and of about the extent represented by the academic work of a single year.

Examinations for M. A. will be held at the time of the Spring Examinations for B. A. In special circumstances an examination may be granted in the Autumn, but in that case a fee of Ten Dollars will be charged.

Candidates must give at least a month's notice of their intention to appear at an M. A. Examination.

For fee see § xxiii.

**§ XXI.—Admission ad Eundem Gradum.**—Graduates of Universities approved by the Senate, who have received their degrees in course, shall be admitted *ad eundem gradum* in this University, on producing satisfactory proof of character and academic standing. For fee see § xxiii.

**§ XXII.—Academic Costume.**—(1.) Bachelors and Masters of Arts and Bachelors of Letters of this University, shall be entitled to wear gowns, of black stuff, and hoods. The distinctive part of the costume is the hood. The following are the kinds of hood appointed for the various degrees:—

B. A.—Black stuff lined with white silk and bordered with white fur.

M. A.—Black stuff lined with crimson silk.

B. L.—Black stuff, with a lining of white silk, bordered with light blue silk.

(2.) Successful candidates for these degrees shall be required to appear at Convocation in the proper academic costume, to have the degrees conferred upon them. Degrees will be conferred in the absence of the candidate only by special permission of the Senate.

**§ XXIII.—Fees.**—(1.) Fees are payable by students for Registration, for the use of the Gymnasium, for classes attended, and for certain examinations. They are payable in advance.

No student shall be allowed to enter a class until he has paid the proper fees.

The following is a statement of the fees payable by students generally, and of the special privileges granted to undergraduate students:—

Registration Fee, payable annually by all students taking more than one class, except undergraduates who entered the College previously to 1891-92	84 00
Registration Fee, payable by students taking only one class and by undergraduates who entered the College previously to 1891-92	2 00
Gymnasium Fee, payable annually by all male students attending more than one class, except registered students of the Halifax Medical College	1 50
Fee for each class attended, per Session + (except the Practical Chemistry and Physics Classes)	6 00
Fee for each of the Practical Chemistry and Physics Classes for every three months of practical work in Laboratory	6 00
Supplementary Examination Fee, payable on giving the notice required by § x. (7) either £2.00 (or § x. (4))	6 00
Additional Fee for Second Supplementary Examination, if granted (if x. 6.)	3 00
Special Examination Fee, payable on giving the notice required by § x. (7)	2 00
Fee for Special Certificate of Standing	5 00

Undergraduates who entered the College previously to 1891-92 shall in general pay one fee of six dollars to each Professor whose classes they may attend as parts of the ordinary course; but in the case of the Professors of Classics and Mathematics fees shall be paid in both the first and the second years of their course, in the case of the Professor of Modern Languages fees shall be paid twice by undergraduate taking either one language during more than two years or two languages for two years, in the case of the Professors of Chemistry and Physics, fees of \$6.00 per session shall be paid for Practical Classes by undergraduates taking these classes, and in the case of the Professor of English Literature a fee of \$6.00 shall be paid by undergraduates taking the third and fourth years English Class.

Undergraduates entering the College in and after 1891-92, after having attended as parts of their course, two of the ordinary classes conducted by any Professor, shall be allowed, without payment of fees, to attend as parts of their course, any other ordinary classes, not being practical experimental classes, conducted by said Professor.

Undergraduates taking special courses shall be required to pay to each Professor whose Advanced Class or Classes they may require to attend, one fee for the first of such classes attended, but they shall be allowed to attend the second Advanced Class without fee, provided it be not a practical experimental class.

Undergraduates taking Advanced Classes as parts of the ordinary course, shall be required to pay fees for such classes.

(2.) The graduation fees are as follows:-

Fee for the B. A. or B. L. Diploma, which is payable by candidates before the Spring Examinations of the Fourth Year, and will be returned in case of failure	8 5 00
Fee for M. A. Diploma, which must accompany the Thesis, or intimation of intention to appear for examination, and will be returned if the degree be not conferred	10 00
Fee for B. A. or M. A., <i>ad eundem gradus</i>	10 00

<sup>4</sup> The Latin and Greek Classes of any one year shall be considered a single class.

## Faculty of Pure and Applied Science.

THE PRESIDENT (*ex officio*).

CHARLES MACDONALD, M. A.  
GEORGE LAWSON, Ph. D., LL. D.  
JAMES LIECHTI, A. M.  
J. GORDON MACGREGOR, D. Sc.  
JAMES SEITH, M. A.

ARCHIBALD MACMILLAN, B. A., Ph. D.  
A. H. MACKAY, B. A., B. Sc.  
MARTIN MURPHY, D. Sc., C. E.  
EDWIN GILPIN, JR., A. M., F. G. S.  
F. W. W. DOANE, C. E.

Dean of the Faculty: PROF. MACGREGOR.

### § XXIV.—COURSES OF INSTRUCTION.

#### I.—MATHEMATICS.

Professor..... C. MACDONALD, M. A.

The classes will be the same as those of the Arts Faculty, (§ I, VI.)

#### II.—PHYSICS.

Professor..... J. G. MACGREGOR, D. Sc.

#### Junior Physics Class.

Tuesday, Thursday, and Friday, 11 A. M.—12 M.

The subjects will be the same as in the Arts Faculty, (§ I, VII); but candidates for the degree of B. Sc. will be required to do the work prescribed for Distinction.

#### Senior Physics Class.

Mondays and Wednesdays, 10—11 A. M.

The general work of the class will be the same as in the Arts Faculty, (§ I, VII). But candidates for the degree of B. Sc. in Engineering, will have their attention specially directed to technical applications of the subjects discussed.

In 1891-92, when Heat, (including Heat Engines) and Electricity and Magnetism (including Dynamo-electric Machinery) will be the subjects discussed, they will be required to read in connection with the class work, and under the supervision of the Professor, the more important chapters of Cottrell's Steam Engine (E. & F. N. Spon), and Thompson's Dynamo-electric Machinery (E. & F. N. Spon).

In 1892-93, when Dynamics, Hydro-dynamics and Electricity will be discussed, they will be required to pursue a specified course of reading on Graphical Methods and Hydraulics.

#### Advanced Mathematical Physics Class.

As in the Faculty of Arts, (§ I, VII).

#### Practical Physics Class.

As in the Faculty of Arts, (§ I, VIII).

### III.—CHEMISTRY.

*Professor* ..... G. LAWRENCE, PH. D., LL. B.

#### Inorganic Chemistry Class.

*Tuesday, Wednesday and Friday*, 9—10 A. M.

As in the Faculty of Arts, (§ I, VIII).

#### Organic Chemistry Class.

*Mondays and Thursdays*, 9—10 A. M.

As in the Faculty of Arts, (§ I, VIII).

#### Practical Chemistry—Chemical Laboratory.

In addition to the work sketched in § I, VIII, instruction will be given to students of this Faculty in the use of the Blow-Pipe for qualitative determinations, in wet processes for quantitative estimates, in the examination of building materials, &c.

### IV.—MINERALOGY AND LITHOLOGY.

*Lecturer* ..... G. LAWRENCE, PH. D.

#### Systematic Class.

A course of systematic instruction in Mineralogy and Lithology will be conducted in the Museum, illustrated by the McCulloch Collection.

#### Assaying.

The work of this class will be devoted to mineral analysis and the assaying of ores of Iron, Copper, Lead, Manganese, &c., Gold Quartz, Plaster, Coal, &c.

### V.—APPLIED MECHANICS.

*Interior Lecturer* ..... J. G. MACGREGOR, B. Sc.

Twice a week.

The object of this class is to study the practical application of Dynamics to the various branches of Engineering. The series of lectures will form a two years' course, so arranged that students may enter the class at the beginning of either year. The subject studied will be as follows:—

In 1891-92: Review of the Principles of Dynamics so far as required in the subjects to be studied.—The Mechanics of Machinery, including (a) Kinematics: relative velocities and accelerations; velocity and acceleration diagrams; link-work, wheel-tooth, belts, cassia, the screw, conic mechanisms, level and skew gearing, parallel motions, hydraulic connections, &c. (b) Kinetics: centrifugal force, governors, fly-wheels, &c. (c) Statics: equilibrium of mechanisms. (d) Energistics: production, transmission and measurement of power, prime movers, force and work diagrams.—The Elements of Machine Design.—The work of the class will consist chiefly of the former portion. Mechanics of Machinery. The latter portion will be studied privately by students, under the supervision of the Lecturer. Text-books and books of reference will be announced at the opening of the class.

In 1892-93: Review of the Principles of Statics, so far as required in the subject to be studied.—The Theory of Structures and the Strength of Materials.—Details of the class work, text books, &c., will be given in the Calendar of the year.

### VI.—DRAWING.

The University provides no instruction in this department, but the following classes of the Victoria School of Art and Design, in the City of Halifax, are recognised as qualifying for a degree:

Mr. George Harvey's class in the subjects of Free-hand Drawing, Geometrical Drawing, Shaded Drawing from the Round, Modelling in Clay, Principles and Practice of Decorative Design, Elements of Perspective and the History of Art. This course of instruction extends over three years and is the one to be taken by students preparing for Science Mastership in Schools.

Mr. Larkin's classes in Mechanical Drawing, including Practical Geometry, Descriptive Geometry, Projection of Lines, Planes and Solids, Sections by Planes, Developments, Penetrations, Curved Surfaces and Surfaces of Revolution, Preparation of Working Drawings of Machines to scale. This course of instruction extends over three years, and is the one to be taken by Engineering Students.

The class in Building Construction and Architecture may be taken by Civil Engineering Students instead of the third year of the Mechanical Drawing Class.

The classes of the Art School meet twice a week for two hours. The fee is \$8 for the whole year.

## VII.—CIVIL ENGINEERING.

*Lecturer* ..... H. MORRIS, D. Sc., Provincial Engineer.

Once a fortnight.

The subjects treated will be:—Materials and Constructions; Earth-work; Masonry; Carpentry; Structures of Timber, Stone and Iron; the Construction of Common Roads; Railways; Bridges; Water Supply for Towns; and Reclamation of land from the sea.

Such works as are named above are generally in operation in Nova Scotia, under the supervision of the Provincial Engineer, and advanced students in the Engineering Class will be afforded an opportunity of examining them under construction.

Text-books and books of reference will be announced at the opening of the class.

## VIII.—SURVEYING.

*Lecturer* ..... F. W. W. DOAK, C. E.

Once a fortnight.

The subjects treated will be: Chain Surveying; Angular Surveying; Calculating Areas; Use and Adjustment of Transit, Theodolite, Level (Dumpy, Wye, &c.); Aneroid Barometer, Plane Table, and other field instruments; Contour Surveying; Plotting; Topography; Levelling (including indirect and barometric).

Practical operations will be carried on in the field and will include Chain and Compass Surveys, Measurement of Base Lines, Triangulation Survey, Preliminary and Location Survey of a line of road, setting out work, &c.

Students will be expected to keep complete notes and to prepare all drawings required from them.

Text-books and books of reference will be announced at the opening of the class.

## IX.—MINING.

*Lecturer* ..... H. GRIMM, Jr., A. M.

A Course of Twelve Lectures.

The subjects of the lectures will be: Geology in relation to Mining; Occurrence of Veins and Beds; Preliminary Operations; Valuation of Properties; Shaft and Slope Sinking; Mining Operations; Unstratified and Stratified Minerals; Ventilation; Piping; Hoisting; Mining Appliances, Tools, &c.; Cleaning of Ores and Coals.

*Text-Books* (preliminary list): Smith's Coal Mining; Andre's Treatise on Coal Mining; Chanc's Coal Mining, Pennsylvania; Davis' Metalliferous Mines; Morris' Notes and Formulas; Gaskin's Outlines of Field Geology.

## X.—BOTANY.

*Lecturer* ..... G. LAWRENCE, Ph. D., LL. D.

In addition to the work laid down in the Faculty of Arts (§ I, ix), practical instruction will be given in the use of the Microscope, Preparing of Sections, Mounting of Preparations, and Microscopical Analysis.

## XL.—ZOOLOGY.

*Lecturer* ..... A. H. MACKAY, B. A., B. Sc., F. R. S. C.

Fridays, 4 to 5.30 P. M., and Saturday Mornings at 9 A. M., when necessary to complete dissections.

Lectures on Systematic Zoology will for the present year be combined with the practical laboratory work, which will form the all important part of the course, and may be provisionally outlined as follows:

**LABORATORY WORK:**—The comparative anatomy of easily obtainable typical animals from their dissection, with microscopic demonstrations in histology. **Subjects:** The human skeleton, and the general dissection of such as the following species: *Mus musculus*; *Canis*, sheep and rabbit; *Anser*, the crane, sparrow, pigeon, duck, and mallard; *Picus*; *Buteo*; *Locusta*; *Aspidium*; the frog and salamander; *Rana*; the skates, sole, cod and herring, salmon or trout. **Arthropoda:** the lobster and an insect; *Crustacei*; *Malacostraca*; *Mytilus*; the squid or whelk, and the clam; *Cephalopoda*; *Echinoidea*; the sea-urchin and star-fish; *Cnidaria*; *Hydromedusae*; *Prostacea*; sponge, infusoria and rhizopoda; *Cell Life in Zool. Vegetation*; the bacteria, diatoms, dinoflagellates and other algae.

**SYSTEMATIC ZOOLOGY:**—Animal structures and their functions. The classification of vertebrates and invertebrates to the orders, with a knowledge of common representative species. The vertebrate fauna of the Atlantic provinces of Canada in general detail.

Text Books will be announced at the opening of the course.

## XII.—PHYSIOLOGY.

The University provides no instruction in this subject, but the class conducted in the Halifax Medical College by Prof. A. Morrow, M. B., C. M., is recognised as qualifying for a degree. The class meets daily at 11–12 A. M. The fee for the course is \$12.00.

## XIII.—ANATOMY.

The University provides no instruction in this subject, but the Systematic and Practical classes (including the Histology class) conducted in the Halifax Medical College by A. W. H. Lindsay, M.D., *Professor of Anatomy*, and G. C. Jones, M. B., *Demonstrator*, are recognised as qualifying for a degree. The Anatomy Class meets daily, 10–11 A. M.; fee \$12.00. The Practical Anatomy Class meets daily, 8–10 P. M.; fee \$12.00. The Histology class meets once a week; fee \$4.00.

## XIV.—MENTAL SCIENCE.

*Professor* ..... JAS. SETH, M. A.

The class in Mental Science is that known in the Arts Faculty as Junior Philosophy, (§ I, v).

## XV.—ENGLISH.

*Professor* ..... A. MACMILLAN, PH. D.

As in the Arts Faculty, (§ I, iii).

## XVI.—FRENCH AND GERMAN

*Professor* ..... J. LACHIN, M. A.

As in the Arts Faculty, (§ I, ii).

§ XXV.—The Academic Year consists of one session. The Session of 1891–92 will begin on 9th September, 1891, and end on the 26th April, 1892.

§ XXVI.—Admission of Students.—The regulations for the admission of students are the same as in the Arts Faculty, (§ III).

§ XXVII.—Degrees.—Two degrees are conferred in the Faculty of Science, those, viz., of Bachelor of Science (B. Sc.), (in either pure Science or Engineering), and Bachelor of Engineering (B. E.).

The regulations for the admission of students to the courses of study leading to these degrees are the same as in the Faculty of Arts, (§ IV, 2–7).

Undergraduates who have completed a portion of their Arts or Science Courses either in this University or elsewhere, will be admitted to such advanced standing in the courses leading to the above degrees, as the subjects which they have studied may seem to warrant, and arrangements will be made to enable them to complete the courses in as short a time as possible.

§ XXVIII.—Matriculation Examinations.—The examination by which a student may gain entrance to the first year of the various courses in this Faculty, is the same as in the Faculty of Arts, (§ V).

The subjects of the examination by which a student may gain entrance to the Second Year of the various courses in this Faculty, consist of the subjects of the First Year Matriculation Examination and of the First Year of the course in which he wishes to enter (§ XXIX). The regulations for this Examination are the same as in the Faculty of Arts, (§ VI).

§ XXIX.—Courses of Study for Degree of B. Sc.—Seven Courses of Study are provided, which lead to the Degree of B. Sc., viz.:—

Course A, which has as main subjects Mathematics and Physics, and is suited to the requirements of students who wish to prepare themselves for higher teaching positions in these departments, or to obtain a thorough ground-work for a subsequent course in Engineering.

Course B, which has as main subjects Experimental Physics and Chemistry, and is intended to meet the wants of students who wish to prepare themselves for higher teaching positions in these departments, or for engaging in chemical industries.

Course C, which includes a study of the various sciences, of Modern Languages and of Drawing, and is designed to meet the wants of students who aim at Science Masterships in our High Schools.

Course D, which has as main subjects Chemistry and Biology, and is especially suitable for students who intend to enter upon the study of Medicine. A sufficient number of the scientific subjects included in the medical curriculum, are studied in this course to enable the student taking it to shorten his subsequent medical course by one year.

Courses E, F, G, in Civil, Mechanical and Mining Engineering respectively. In these courses, Mathematics, Physics, Chemistry and their applications to the various departments of Engineering are studied *per se*. Through the kind co-operation of leading engineers in the city of Halifax, the University is able to provide very complete courses in these departments, so far as that can be done without workshops and testing laboratories. As no funds are available at present for establishing these desirable adjuncts, students are recommended to spend their summer vacations in the field, the workshop, or the mine. The Dean of the Faculty will be glad to recommend diligent students to Engineers, under whom they wish to secure the opportunity of engaging in practical work during the summer.

Students of Engineering who aim at becoming Electrical Engineers, may begin the necessary practical study of Electricity by taking the Practical Physics Class. But the outfit of the Physical Laboratory is at present too meagre to warrant the University in offering a special course in this department.

The following is a statement of the classes which must be attended in these various courses. Details as to the subjects studied in these classes will be found under Courses of Instruction, (§ XXIV). Classes to which the letters A, B, &c., are attached, are to be taken in the Courses thus indicated. Those

to which no such letters are attached, are common to all the Courses.

## FIRST YEAR.

- (1.) Mathematics.
- (2.) Inorganic Chemistry.
- (3.) For A, B, E, F, G, Drawing. For C, D, Botany.
- (4.) English.
- (5.) French or German\*.

Practical work in Botany will be prescribed for students taking Courses C, D, the work to be done during the summer vacation.

## SECOND YEAR.

- (1.) Mathematics.
- (2.) Junior Physics.
- (3.) Practical Chemistry.
- (4.) Drawing.
- (5.) English.
- (6.) French or German\*.

## THIRD YEAR.

- (1.) For A, Advanced Mathematics. For B, C, D, Practical Chemistry. For E, F, G, Advanced Mathematics (partial course).
- (2.) For A, B, E, F, G, Senior Physics. For C, D, Practical Physics.
- (3.) For A, C, D, Mental Science. For B, Assaying. For E, F, G, Applied Mechanics.
- (4.) For A, B, C, D, French or German\*. For E, F, G, Drawing.
- (5.) For B, D, Organic Chemistry. For C, Drawing. For E, F, G, Surveying.
- (6.) For C, D, Zoology. For F, G, Assaying.

## FOURTH YEAR.

- (1.) For A, Advanced Mathematics. For B, D, Practical Chemistry. For C, Organic Chemistry. For E, F, G, Advanced Mathematics (partial course).
- (2.) For A, B, E, F, G, Senior Physics. For C, D, Physiology.
- (3.) For A, Advanced Mathematical Physics. For B, Practical Physics. For C, Drawing. For D, Anatomy. For E, Advanced Mathematical Physics (partial course), or Practical Physics. For F, Advanced Mathematical Physics (partial course). For G, Mining.

\* As under present arrangements, Latin and Greek are necessary subjects in the examination for the highest grade of Teachers Licence in the Province of Nova Scotia; these subjects may be substituted for French and German, so far as the Time Table may permit, by undergraduates taking Course C.

- (4.) For A, French or German or Practical Physics. For B, C, D, French or German\*. For E, F, G, Applied Mechanics.
- (5.) For B, C, E, G, Mineralogy and Lithology. For D, Practical Anatomy. For F, Practical Physics.
- (6.) For D, Histology. For E, F, G, Civil Engineering.

An undergraduate taking Course D, who wishes his Fourth Year to qualify for a medical degree, must, previously to his entering upon it, have satisfied the requirements of the Medical Faculty with regard to Matriculation. (See Faculty of Medicine.)

§ XXX.—Attendance.—The regulations as to attendance are the same as in the Faculty of Arts. (See § IX.)

§ XXXI.—Examinations.—The regulations as to Examinations are the same as in the Arts Faculty. (See § X.)

§ XXXII.—The Degree of B. Sc. with General Distinction will be conferred on an undergraduate, on the same conditions as the corresponding degree in the Faculty of Arts, (§ XI).

§ XXXIII.—The Degree of B. Sc. with Honours will be conferred on an undergraduate on the same conditions as the corresponding degree in the Faculty of Arts, (§ XII), but the only departments in which it will be conferred in this Faculty, are those of Mathematics and Mathematical Physics, and Experimental Physics and Chemistry.

§ XXXIV.—Medals and Prizes.—The Sir Wm. Young Gold Medal, the Waverley Prize, the New Shakspere Society's Prize, and in some years the Governor-General's Gold and Silver Medals, are open for competition to students of the Faculty of Science. (See § XV.)

§ XXXV.—The Munro Exhibitions and Bursaries are open for competition to candidates for Matriculation, and to undergraduates entering the Third Year in this Faculty. For regulations see § XVI.

§ XXXVI.—Residence, etc.—The regulations as to residence, church attendance, and discipline, in this Faculty, are the same as in the Faculty of Arts. (See § XVII—XIX.)

§ XXXVII.—The Degree of Bachelor of Engineering (B. E.), will be conferred on a Bachelor of Science who has taken the Degree in one or other of the departments of Engineering, at any date not less than one year after graduation, provided he satisfy the following conditions:

\* As under present arrangements, Latin and Greek are necessary subjects in the examination for the highest grade of Teachers Licence in the Province of Nova Scotia; these subjects may be substituted for French and German, so far as the Time Table may permit, by undergraduates taking Course C.

(1.) He must furnish certificates from an engineer or engineers, approved for this purpose by the Faculty, showing that he has been engaged in practical work in some one department of Engineering under their supervision for a period of at least two years, and that he has exhibited satisfactory diligence and progress. A part or all of this time may be spent in any approved Engineering School which possesses workshops or testing laboratories.

(2.) He must hand in to the Faculty designs for some constructive work, prescribed by the Faculty, in the department in which he has been engaged in practical work, the designs to be accompanied by complete working drawings giving full details, bills of materials and estimates. The designs must be accompanied by a declaration to the effect that he has received no assistance in preparing them, and he must be prepared to explain and defend his designs before the examiners.

**§ XXXVIII.—Admission ad eundem gradum.**—Graduates in Science of Universities approved by the Senate, who have received their degrees in course, shall be admitted *ad eundem gradum* in this University, on producing satisfactory proof of character and academic standing.

**§ XXXIX.—Academic Costume.**—Bachelors of Science and of Engineering shall be entitled to wear black stuff gowns and hoods. The distinction part of the costume is the hood, which is to be as follows:

For B. Sc.—Black stuff, with a lining of white silk bordered with crimson silk.

For B. E.—Black stuff, with a lining of white silk bordered with purple silk.

Successful candidates for these degrees must appear at Convocation in the proper academic costume to have the degrees conferred upon them. Degrees will be conferred in the absence of the candidate only by special permission of the Senate.

**§ XL.—Fees.**—The regulations as to fees payable by students, shall be the same as in the Faculty of Arts. (See § XXIII).

The graduation fees are as follows:

Fee for the B. Sc. Diploma, which is payable before the Spring Examinations of the Fourth Year, and will be remitted in case of failure .....	\$ 5 00
Fee for the B. E. Diploma, which is payable on application for the Degree .....	20 00
Fee for B. Sc. or B. E. <i>(ad eundem gradum)</i> .....	10 00

## Faculty of Law.

THE PRESIDENT, *(ex officio.)*

Professor: WELDON,

RUSSELL,

LECTURERS: SHANNON,

TOWNSEND, J.,

GRAHAM, J.,

PATRICK,

HARRINGTON.

Dean of the Faculty: PROFESSOR WELDON.

Secretary of the Faculty: PROFESSOR RUSSELL.

### § XLI.—Courses of Lectures.

The following courses of lectures to be given in the Session of 1891-92, will begin on the 2nd September, 1891, and end on the 12th February, 1892.

### CONSTITUTIONAL AND INTERNATIONAL LAW.

*(George Murray Professorship.)*

Professor..... R. C. WELDON, M. A., PH. D.

Constitutional Law.

*Two lectures per week.*

Subjects of lectures:

Law of Parliament. Select Cases in Constitutional Law. British North America Act.

Text book: *Carwile's Cases.*

[1892-3.]

Subjects of lectures :

Capacity to buy and sell. Executed and executory contracts of sale. Statute of Frauds. Lord Tenterden's act. Rules as to passing of property. Reservation of *jez d'assouement*. Stoppage in transitu. Condition, warranty, express and implied. Remedies of seller and buyer.

Text book : *Benjamin on Sales*.

**§ XLIII.—The Academic Year.**—The academic year consists of one session. The Session of 1891-2 will begin on the first of September, 1891, and end on the 23rd of April, 1892.

**§ XLIII.—Admission of Students.**—(1.) Students may enter the University by (a) furnishing satisfactory references or certificates of good moral character, (b) entering their names in the Register, and (c) paying the prescribed fees.

(2.) Registered students may, on payment of the proper fees, (see § LII), enter any of the classes of the Faculty.

(3.) Students who wish to obtain Degrees must become undergraduates. They may become undergraduates by (a) passing either one of the Matriculation Examinations or a recognized equivalent, and (b) matriculating, i. e., entering their names on the Matricula or Register as Undergraduates.

(4.) Students who are not undergraduates are known as General Students.

**§ XLIV.—Degree of Bachelor of Laws.**—(1.) Candidates for the Degree of LL.B. are required to pass the Matriculation Examination, or a recognized equivalent, and to pass the Sessional Examinations in the subjects of the three years course of study.

(2.) Undergraduates of other Law Schools may, on producing satisfactory certificates of standing, be admitted to similar standing in this Law School if, on examination, they are found qualified to enter the classes proper to their years. But if their previous courses of study have not corresponded to the course on which their enter in the University, they may be required to take extra classes.

(3.) Graduates in Arts who have taken the classes of Constitutional History, Constitutional Law and Contracts, as parts of their Arts Course, shall be allowed to graduate in two years from the date of their entering upon the Law Course, provided they take in those years all the other classes specified.

**§ XLV.—Matriculation Examination.**—(1.) Candidates for entrance into the First Year of the Course shall be examined in the following subjects, except in cases in which certain Examinations mentioned below shall have been already passed :—

**LATIN.**—First three books of Caesar. First book of Virgil, or first book of Gains or Justinian.

**GREEK.**—First two books of Xenophon's *Anabasis*.

Candidates may substitute French or German for Greek.

The papers in the above subjects will contain questions on Grammatical.

MATHEMATICS.—Arithmetic, as in *Hæmills Smith's*; Algebra, as in *Tookehiser's Algebra for beginners*; Geometry, *Eminent*, Books I, II, III and IV, with easy exercises.

ENGLISH.—Grammar, Analysis and Composition, as in *Nova Scotia* prescribed text books for the public schools. Critical study of Shakespeare's plays. For September, 1891, and February, 1892. The Merchant of Venice (Rolle's edition recommended).

HISTORY AND GEOGRAPHY.—British and Canadian History, as in *Nova Scotia* prescribed text books for the Public Schools; General Geography, as in the prescribed text books.

(2.) Persons desirous of appearing as candidates at this examination must give notice to the Dean of the Faculty on or before August 24th, 1891; and they shall be required to pay a fee of \$6.00 or the morning of the day of Examination.—The Examination will be held next Session on Tuesday, September 1st, at 10 o'clock, a. m.

(3.) Graduates and Undergraduates in Arts of any recognized College or University, and articled clerks or law students who have passed the preliminary law examinations in any of the Provinces of the Dominion of Canada, or in Newfoundland, shall be admitted to the standing of Undergraduates of the First Year in the Faculty of Law, without passing any examination.

#### § XLVI.—Course of Study for Degree of LL. B.

##### First Year.

- |                            |               |
|----------------------------|---------------|
| 1. Real Property.          | 3. Contracts. |
| <sup>a</sup> Crimes.       | 4. Torts.     |
| 5. Constitutional History. |               |

##### Second Year.

- |                               |                            |
|-------------------------------|----------------------------|
| 1. Equity                     | 3. Negotiable Instruments. |
| 2. Partnership and Companies. | 4. Constitutional Law.     |
| 5. Conflict of Laws.          |                            |

##### Third Year.

- |                                |              |
|--------------------------------|--------------|
| 1. International Law.          | 3. Evidence. |
| 2. Insurance.                  | 4. Equity.   |
| 5. Sales of Personal Property. |              |

Undergraduates are required to attend with regularity the classes of their respective years. The extent of absence from prescribed classes, which shall disqualify for the keeping of a Session, shall be determined by the Faculty.

The Faculty urgently recommend that students devote their whole time during Sessions to the work of the School, experience having proved that students who undertake office work in

addition to the work of their classes, receive comparatively little advantage from the lectures. The Course having been very considerably enlarged, the Faculty apprehend that students who are doing regular office work during the Session, will find it quite impossible to pass with credit the required examinations.

§ XLVII.—Sessional Examinations.—(1.) The Sessional Examinations will be held in February, 1892, on the completion of the lectures in the several subjects.

(2.) Students are forbidden to bring any book or manuscript into the Examination Hall, except by direction of the Examiner, or to give or receive assistance, or to hold any communication with one another at the Examinations. If a student violates this rule, he shall be excluded from the Sessional Examinations of the Session, and such other penalty shall be imposed as the Faculty may determine.

(3.) If an Undergraduate fail to pass in less than three subjects of the Sessional Examinations, he shall be allowed a Supplementary Examination in such subject or subjects at the beginning of any subsequent Session.

(4.) If an Undergraduate fail to pass in more than two subjects at any Sessional Examination, he shall lose his Session.

(5.) Undergraduates who wish to present themselves at a Supplementary Examination, must give notice to the Dean of the Faculty on or before August 24th, 1891.

(6.) The Supplementary Examination for the present year will begin September 1st, at 10 o'clock, a. m. Fee, \$5.00, payable on the morning of Examination.

§ XLVIII.—Moot Courts.—Moot Courts will be held every fortnight, and will be presided over by some member of the Faculty, or a Barrister selected by the Faculty. Every candidate for a degree shall be required to take part in arguments at the Moot Court. The senior counsel on either side shall be required to file briefs with the Dean before noon of the day preceding that on which the case is argued. A record will be kept of the values assigned to the arguments made, and these values will be considered by the Faculty in recommending a candidate for his degree.

§ XLIX.—Mock Parliament.—The students have organized a Mock Parliament for the discussion of legal and constitutional questions. This Parliament is largely attended, and is found to be of great utility.

**§ L.—Academic Costume.**—Bachelors of Laws are entitled to wear gowns and hoods. The gowns are similar to those worn by Barristers-at-Law. The hoods are of black silk stuff, with a lining of white silk bordered with gold coloured silk.

**§ LI.—The Library.**—The Library has a good set of English and Canadian Reports, and will be found to contain almost all the books which an undergraduate will have occasion to consult.

**§ LII.—Fees.**—The following are the fees payable by Students of the Faculty of Law. They are in all cases payable in advance.

Seats in the Lecture Room will not be assigned to Students until they have paid their Class Fees to the Dean.

Students are requested to pay their Class Fees and sign the University Register on Tuesday, 1st September, 1891, at 10 a.m., in the office of the Law School.

Registration Fee, payable only by general students .....	\$ 2 00
Fee for each class attended, per Session, payable by general students .....	10 00
Fee for the classes of the First Year, payable by undergraduates .....	40 00
Fee for the classes of the Second Year, payable by undergraduates .....	40 00
Fee for the classes of the Third Year, payable by undergraduates .....	35 00
Fee for LL.B. diploma, which is payable before the final examination, and will be returned in case of failure .....	10 00
Fee for the Matriculation Examination .....	5 00
Fee for the Supplementary Examination .....	5 00

Students of any year are permitted to attend lectures in the subjects of an earlier year without extra charge.

## Faculty of Medicine.

THE PRESIDENT, *(ex officio)*,  
GEORGE LAWSON, PH. D., LL. D.,  
JOHN SOMER, M. D.,  
GEORGE L. SINCLAIR, M. D.,

*Dean of the Faculty:* PROF. LAWSON.  
*Secretary of the Faculty:* DR. LINDSAY.

**§ LIII.—Courses of Instruction.**—I. Instruction is provided by the University in the following subjects of the Medical Curriculum:

### I. CHEMISTRY.

*Professor:* GEORGE LAWSON, PH. D., LL. D.

*Daily Lectures, 9 A. M.—10 A. M.*

*With experimental demonstrations,*

**Part I.—INORGANIC.**—Object and nature of the Science. General Principles: Chemical Affinity; Laws of combination, by weight, by volume. The Elements. Equivalencies; Atomity. Nomenclature; Notation; Formulas; Equations. The Non-Metallic Elements and their compounds considered in detail. The Atmosphere. Water. Methods of Water Analysis. Mineral Waters. Combustion: Respiration. Anhydrides. Acids. Manufactures of Chlorine compounds. Acid, Acetosa, etc.

The Metals: their physical and chemical characters; Classification. The Metals and their compounds considered in detail. In discussing the Metals, special attention is given to the Salts and other compounds of Mercury, Antimony, Arsenic, Blomath, Silver, Copper, Lead, Tin,

and the methods of testing for metallic poisons, their detection in organic mixtures and tissues, and their quantitative analysis.

**Part II.—ORGANIC.**—Theory of Organic Compounds, founded on Marsh Gas as a starting point. Functions of Organic Compounds. Principles of Classification. Saturated Hydrocarbons. Monatomic Alcohols and their derivatives; Methyl Alcohol; Chloroform, Ethyl Alcohol; Ether; Nitroso Ether; Nitric Ether. Alcohols. Aldehydes. Volatile Fatty Acids, Compound Esters. Chloral. Chloroform. Polyatomic Compounds. Glycerin. Fats. Saponification. Organic Acids. Sugars and Starches. Fermentation. The Aromatic Compounds. Benzal; Phenol; Aniline, &c. The natural Alkaloids of Opium; Nicotine; Quinine; Strechamine; Caffeine; Morphine, &c. Albasens. Urea. Uric Acid. Urinary Calculi and other deposits; methods of determining their chemical composition, and presence of Glucose, Albasens, &c., in urine. Analysis of Milk, Alcoholic Solutions, &c.

*Text Book:* Greene's Edition of Wurtz's Elements, or any equivalent work may be used.

#### Practical Chemistry.

Systematic Courses of testing for Metallic Bases, and Inorganic and some of the more common Organic Acids, with special exercise. Where students can give the necessary time, this course will be followed by processes of detection of Metallic Poisons; examination of Urine for Glucose, Albasens; nature of Calculi and other deposits. Sanitary Analysis:—Atmospheric Air; Water. Mineral Waters.

*Laboratory Books:* MacAdam's Practical Chemistry. Bowes's Medical Chemistry, and other special works are kept in the Laboratory Library for use of Students. Special Tables are used in the Laboratory.

#### II. BOTANY.

*Professor:* ..... GEORGE LAWRENCE, PH. D., LL. B.

*Lectures Tuesday, Thursday and Friday, 12 A. M.—1 P. M.*

The Vegetable Cell; its structure and contents, with microscopic demonstrations. Typical and Transformed Cells; Tissues. Parenchyma, Prosenchyma. Minute Structure and Development of the Root, Stem and Leaf. Structure and Development of the Flower, Fruit and Seed. Vegetable Physiognomy; its structure, chemical character and movements; effects upon it of Light, Electricity, Irritation, Gravitation, Moisture, Gases. Plant Growth; Relations of the plant to the soil and atmosphere. Diffusion, Osmosis, Absorption, Transpiration, Assimilation. Production of organic matter in the plant; Transmutation or Metastasis. Respiration. Vegetable Growth. Movements of Chlorophyll, of organs (Circumnutation), Nictitropic. Reproduction; Fertilization. The Seed, Germination,—dependent upon moisture, free oxygen, temperature. Effects upon plants of extremes of temperature.

*Classification of Plants:* The Natural System of Classification. The distinctive structural characters and geographical distribution of the more important natural orders will be given, with special attention to those orders containing poisonous plants and plants used in medicine. This part of the course will be fully illustrated by specimens, drawings and preparations.

*Text Book:* Goodale's Physiological Botany (being Vol. II. of Gray's Botanical Text Book); Gray's New Flora Americana, with Lawson's Flora Fere Piera.

*Field Books for Student Work:* Gray's Manual of Botany of the Northern States. Macmillan's Catalogue of Canadian Plants.

2. Students wishing to attend the above courses may do so either as General Medical Students without preliminary examination, or as regular Undergraduates in Medicine. In either case they must enter their names in the University Register at the beginning of the Session.

3. In other subjects the necessary classes may be attended at the Halifax Medical College or at any other recognized School of Medicine.

4. Attendance on classes by those registered as General Medical Students will not qualify for Degree Examinations in this Faculty.

**§ LIV.—The Academic Year.**—The Academic Year consists of one session. The session of 1891-92 will begin on Wednesday, October 28th, 1891, and end on Tuesday, April 26th, 1892.

In order to qualify for Degree Examinations, the Medical Academic Year must include attendance on at least two courses of 100 lectures each, or one such and two of 50 each. Certificates indicating less than 90 p. c. of attendance upon any class will not be accepted without valid reason for absence being shown.

**§ LV.—Degrees.**—Two Medical Degrees are conferred by this University, viz. Doctor of Medicine, (M. D.) and Master of Surgery (C. M.); but neither degree is conferred on any person who does not at the same time obtain the other.

**§ LVI.—Matriculation Examination.**—1. Candidates for medical degrees must give evidence of having obtained a satisfactory general education before entering upon the course of study qualifying for the degrees, by passing either the Matriculation Examination of this Faculty or some other examination recognized by the Senate as sufficient.

2. The following are the subjects of the Matriculation Examination:—

(1.) ENGLISH, including (a) writing a passage of English from dictation.

(b.) English Composition, with the correction of sentences of bad English.

(c.) Questions in English Grammar with analysis of sentences and derivation and definition of some common English words.

(d.) Questions in Geography and History, especially in the History of the British Islands and of English Literature.

(2.) *LATIN*, including Grammar and Translation of an easy passage from a Latin prose author\*, and re-translation into Latin of a single passage of English (translated from a Latin author) the more difficult Latin words being given.

(3.) *ARITHMETIC*, the common rules including *Vulgar* and *Decimal Fractions*.

(4.) *ELEMENTS OF MATHEMATICS*, comprising (a) *Geometry*, Euclid, Books I., II., and III.; (b) *Algebra*, including Simple Equations.

(5.) *ELEMENTS OF DYNAMICS (MECHANICS)*, comprising Elementary Kinematics, Statics, Kinetics and Hydrostatics, as treated in Blairie's Elements of Dynamics (Thin, Edinburgh).

(6 and 7.) ANY TWO of the following subjects:

(a.) *Greek*, including Grammar, Translation from specified authors\*, and Translation of easy English sentences into Greek prose.

(b.) *French*, including Grammar, Translation from specified authors\*, and Translation of easy English sentences into French.

(c.) *German*, including Grammar, Translation from specified authors\*, and Translation of easy English sentences into French.

(d.) *Natural Philosophy*, as in Balfour Stewart's Elementary Physics (Macmillan & Co.).

(e.) *Logic*, as in Jevet's Elementary Lessons in Logic (Macmillan & Co.).

3. This Examination will begin on Wednesday, the 28th of October, 1891, in the College Hall, and will be conducted by instructors of the Arts Faculty.—Persons who wish to appear as candidates are required to give notice to the Secretary of the Faculty at least fourteen days before the date of Examination (specifying in such notice the elective subjects in which they wish to be examined), to enter their names in the Register of Candidates, and to pay a fee of Ten Dollars.

4. This Examination satisfies the requirements of the General Medical Council of Great Britain as to the preliminary examination which must be passed by persons wishing to register as medical students; and also satisfies the requirements of the University of Edinburgh in the same respect.—Certificates will be issued to candidates showing the subjects in which they passed and the extent to which their knowledge of these subjects was tested.

5. A certificate of the possession of a University Degree in Arts, or of the Teacher's Grade A License of Nova Scotia, or

of having passed the Matriculation Examination of the Provincial Medical Board of Nova Scotia, shall be considered by this University sufficient evidence of satisfactory general education.

6. The Matriculation and Sessional Examinations of any chartered University or College; and also the Preliminary Examination of any Medical Licensing Board in Her Majesty's dominions will be recognized *pro tanto*.

7. Candidates who may have passed in all subjects but one, either at the University or the Nova Scotia Medical Board Matriculation Examinations, may enter as undergraduates, and will be allowed after six months to pass a Supplementary Examination in the subject in which they previously failed.

**§ LVIII.—Degree Examinations.**—Candidates for the Degrees of M. D. and C. M. shall be required to pass two examinations—the Primary and Final M. D., C. M. examinations, and to have satisfied at the dates of the examinations certain conditions as to attendance on classes, etc.

**§ LVIII.—Primary M. D., C. M. Examinations.**—1. Candidates for this examination shall be required to produce certificates to the following effect:—

(1.) Of having passed the Matriculation Examination, or other examination recognized as sufficient, at least two academic years previously, and of having completed their sixteenth year at the date of passing said examination.

(2.) Of having, after passing the Matriculation or other equivalent examination, attended either in this University, in the Halifax Medical College, or in some other School of Medicine approved by the Senate, two courses of 100 lectures each, in each of the following subjects, viz.—Anatomy, Chemistry, Materia Medica and Physiology; and two courses of instruction of the same duration in Practical Anatomy, in the course of which they shall have dissected the whole body (*i. e.*, the head and neck and upper and lower extremities) at least twice.

(3.) Of having, after passing the Matriculation Examination, attended either in this University, in the Halifax Medical College, or in some other University or College, approved by the Senate, one course of instruction of fifty lessons each, in each of the following subjects, viz., Botany and Practical Chemistry, and one course of twenty-five demonstrations in Histology.

(4.) Either of having, after passing the Matriculation Examination, attended at the Halifax Medical College or at some College approved by the Senate, one course of instruction

\* *Lectures for 1890, Caesar, Gallic War, Bks. IV. and V.; or Virgil, *Aeneid*, Bk. II. Lectures for 1892, Caesar, Gallic War, Bks. IV. and V.; or Virgil, *Aeneid*, Bks. III. and IV. Lectures for 1893, Xenophon, *Anabasis*, Bks. I. and II. and *VIII.**

In French, Valinier's *Charles XII.*, Books I. and II. or Octave Padelot, *Le Gouverneur, Adolphe's Reader* (Appleton & Co.), Dutter Abecassis, or Schiller's *Der Sohn des Cokuil*, Act 1.

\* These books are mentioned to show the extent of knowledge expected. Other books may of course be used by candidates.

of thirty lessons in Practical Dispensing, or of having had three months' practice in the dispensing of drugs with a recognized apothecary or dispensing medical practitioner.

2. The Primary M. D., C. M. Examination will be held in the third week in April. Candidates are required to transmit the certificates specified above to the Secretary of the Faculty, at least fourteen days before the date of the Examination, to enter their names in the Register of Undergraduates of the University before the date of the examination, and to pay before the date of the examination one-half of the amount of the graduation fee.

3. Candidates may appear for examination in Botany, and Histology, one academic year after passing the Matriculation Examination, on presentation of the certificates specified above, so far as they apply to those subjects.

4. If so disposed, candidates may, at the end of their second year, elect to appear for examination in any two (but not less than two) or more of the remaining subjects of the Primary Examination, provided always that Chemistry shall be one of such elected subjects.

5. Candidates who appear for examination in Botany, etc. at the end of the first year, will be required to pay one-sixth of the amount of the graduation fee and the remainder of the half fee at their next examination in other Primary subjects. Should the candidate fail to pass in any subject or subjects, the fee will not be returned to him, but he will be admitted to one subsequent Examination in such subject or subjects on payment of one-half the original fee.

#### § LIX.—Final M. D., C. M. Examination.—1.

Candidates for this examination shall be required to furnish certificates to the following effect, viz.:—

(1.) That they have completed their twenty-first year, or that they will have done so on or before the day of graduation. This certificate shall be signed by themselves, and shall be after the following form:—

HALIFAX, ————— 18—

I, the undersigned, being desirous of obtaining the Degree of Doctor of Medicine and Master of Surgery, do hereby declare that I have attained the age of twenty-one years, or (if the case be otherwise), that I shall have attained the age of twenty-one years before the next graduation day, and that I am not (or shall not be at that time) under articles as a pupil or apprentice to any Physician, Surgeon or Apothecary.  
 (Signed), A. B.

(2.) Of having passed the Primary M. D., C. M. Examination at this University, or of having passed the same examination at the Halifax Medical College.

(3.) Of either (a) having attended during four academic years at least two courses of lectures per year in subjects of the Primary and Final M. D., C. M. Examinations either in this University or at the Halifax Medical College, or at some other recognized Medical School; or (b), having spent one calendar year in the study of Medicine in the office or offices of one or more registered medical practitioners, and having attended during three academic years courses of lectures as above.

Note.—Persons beginning the study of Medicine after Jan. 1st, 1892, shall not be allowed to constitute an *owenus medicis* by studying in a physician's office, in all such cases at least four academic years will be required by this Faculty.

(4.) Of having, after passing the Matriculation Examination, attended at the Halifax Medical College, or at some other School of Medicine approved by the Senate, two courses of 100 lectures each, in each of the following subjects, viz.:—Principles and Practice of Surgery, Obstetrics and Diseases of Women and Children, and Principles and Practice of Medicine; two courses of lectures of fifty lectures each, in each of the following subjects, viz.:—Clinical Medicine and Clinical Surgery; one course of fifty lectures in Medical Jurisprudence, including Hygiene and Insanity, one course of at least 25 demonstrations in Pathology, and one course of at least 20 lectures in Ophthalmology, Otology and Laryngology.

(5.) Of having, after passing the Matriculation Examination, attended during one calendar year the practice of the Victoria General Hospital, or that of some other Hospital approved by the Senate, and of having attended during at least six months the practice of a Dispensary or of the out-patient department of a general hospital.

(6.) Of having attended for at least six months the practice of a lying-in hospital, approved by the Senate, or of having attended at least six cases of midwifery, under a recognized practitioner.

(7.) Of having obtained proficiency in the practice of Vaccination under a recognized practitioner.

2. Candidates will be required to pass written and oral examinations in the following subjects:—Principles and Practice of Medicine,\* Obstetrics and Diseases of Women and Children, Principles and Practice of Surgery,† and Medical Jurisprudence, (including Hygiene and Insanity). In Medicine and Surgery there shall also be practical clinical examinations conducted at the bedside, cases being submitted for diagnosis and treatment.

\* The Medicine paper may include questions in Pathology.

† The Surgery paper may include questions in Ophthalmology, Otology, etc.

3. Candidates may appear for examination in Medical Jurisprudence (including Hygiene and Insanity) alone, three academic years after passing the Matriculation Examination, on presentation of the certificates specified above, so far as they apply to this subject.

4. This examination will be held in the third week in April. Candidates are required to transmit the certificates specified above to the Secretary of Faculty at least fourteen days before the date of the Examination, to enter their names in the register of under-graduates before the date of the examination, and to pay before the date of the examination, one-half of the amount of the graduation fee. Should the candidate fail to pass in any subject or subjects, the fee will not be returned to him, but he will be admitted to one subsequent Examination in such subject or subjects, on payment of one-half the original fee.

**§ LX.—Academic Costume, &c.**—1. Doctors of Medicine of this University shall be entitled to wear black staff gowns and hoods. The hoods shall have a lining of scarlet silk bordered with white silk.

2. Successful candidates for this degree shall be required to appear at Convocation in academic costume to have the degree conferred upon them. Degrees shall not be conferred in the absence of the candidate, except by special permission of the Senate.

3. Before receiving his degree, the candidate will be required to sign the following oath or affirmation:—

SPONSIO ACADEMICA.

In Facultate Medicinae Universitatis Dalhousianae.

Ego, Doctoratus in Arte Medica, titulus juxa donandos, sancto osculo Deo cordium scrutatores, sponsorio:—me in emin' grati animi officio erga Universitatem Dalhousianam ad extre'mum viti' latitudinem, perseverat'um: in un' porro arte'm medicinae casta, casta, et probe exercitatum: et quoad potest, omnia ad agerorum corporum salutem conuenientia, eam fiduciam prouocaturum; que desipue, inter medendam, vise vel' auditu' silere conueniat, non sine gravi causa valgat'um. Its present'imi sponsori' adit' Nomen.

**§ LXI.—FEES.**—The following fees, payable by candidates for the degrees of M. D., C. M., are in all cases payable in advance:—

Registration Fee .....	8 2 00
Matriculation Examination Fee .....	10 00
Chemistry Class Fee .....	12 00
Chemistry Laboratory Fee .....	6 00
Botany Class Fee .....	6 00
Graduation Fee .....	33 00

## Institutions.

### THE UNIVERSITY LIBRARY.

The General † Library consists of about 3500 volumes, selected to meet the wants especially of students of the Faculty of Arts.

It contains the MACKENZIE COLLECTION of works on Mathematical and Physical Science, which was presented to the College by the relatives of the late Professor J. J. Mackenzie; and the ROBERT MORROW COLLECTION of works on Northern Antiquities and Languages, presented by Mrs. Robert Morrow.

During the past year 139 volumes have been added to the Library. Volumes have been presented by the following:—A. Graham Bell, Esq., 1; Rev. D. R. Goodwin, 1; W. H. Magee, Esq., Truro, 2; W. H. Waddell, Esq., Halifax, 1; P. S. Hamilton, Esq., 1; Hon. Geo. E. Foster, Minister of Finance, Ottawa, 1; J. D. Logan, Esq., 1; Professor Andrew Seth, University of St. Andrews, 1; Professor James Seth, 1; Professor J. G. MacGregor, 4; E. J. James, Esq., 1; President Forrest, 2; The Editors of the *Dalhousie Gazette*, 1; The Bureau of Education, U. S. A., 4; The U. S. Naval Observatory, 2; The Smithsonian Institution, 5; Geological and Natural History Survey of the Dominion of Canada, 3; Railway Department Ottawa, 1; Presbyterian General Assembly of Canada, 1; Messrs. Macmillan & Co., 36; Messrs. A. & W. Mackinlay, 3.

Also Calendars, &c., by the following:—Universities of London, Aberdeen, St. Andrew's, Glasgow, Univ. Coll. Dundee, Melbourne, Harvard, Yale, Johns Hopkins, Cornell, Baltimore Med. Coll., Kansas City Med. Coll., Buenos Aires, Toronto, McGill, Queen's, Bryn Mawr, Lehigh, Coll. Physicians and Surgeons, Ontario, Manitoba, Presbyterian College, Halifax, Mt. Allison, Laval, Vassar, Univ. of California, Univ. of Georgetown, Columbian University, Y. M. C. A. Year Book.

\* The Provincial Legislative Library and the Citizens' Free Library being open to the public on the fulfillment of certain conditions, may also be used by students.

## THE UNIVERSITY MUSEUM.

The Museum \* consists chiefly of the THOMAS McCULLOCH and the PATTERSON COLLECTIONS.

The THOMAS McCULLOCH COLLECTION was presented to the University in 1884, by the Rev. William McCulloch, D. D., of Truro, with a fund of \$1400 for its maintenance and management. It formed the museum of Professor Thomas McCulloch, who occupied the Chair of Natural Philosophy from 1863 to 1865. It contains a large and valuable collection of birds, especially of the native birds of the Maritime Provinces; a systematic series of minerals and rock specimens; collections of shells, fossils, and Indian implements, and collections of dried specimens of native plants. The collection was partly made by Rev. Thomas McCulloch, D. D., the first President of the College.

The PATTERSON ARCHAEOLOGICAL COLLECTION.—This collection of Indian Antiquities was made by Rev. George Patterson, D. D., while engaged during a number of years in researches regarding the history and modes of life of the aborigines of Nova Scotia. The collection was presented by him to the College in 1889, on the condition that the Governors should make suitable "provision for the preservation and exhibition of the same, in such a manner as is usual in well-managed museums." It is kept as a separate collection. It contains 288 specimens, separately catalogued, and is arranged conveniently for reference. About 250 of the specimens have been obtained in Nova Scotia; they represent the stone age of its aboriginal inhabitants, and form an almost complete representation of the articles usually found among the remains of the native races of North America. There are also a number of similar articles from the United States, Scotland, the West Indies, and especially the New Hebrides. The classified catalogue of the collection, which is arranged according to the method adopted in the description of the Archeological Collections of the Smithsonian Institution, contains full particulars of the localities where the several specimens were obtained.

Donations of USED PLANTS from the Pacific Islands and Australia have been made by Rev. Hugh Robertson and Rev. Joseph Ansdell, M. A., New Hebrides; and of Nova Scotian Plants by Mr. George G. Campbell, B. Sc., Truro.

A Collection of CARBONIFEROUS FOSSILS, from the coal measures at Spring Hill, has been presented by Mr. Swift, of the Spring Hill Mines, Cumberland County.

\* The Provincial Museum, which contains collections illustrating the Mineralogy, Geology, and Zoology of the Province, is open to the public daily, and may be used by Students.

## THE GYMNASIUM.

The Gymnasium is provided with apparatus which was purchased by funds contributed for the most part by former students.

Instruction is furnished by a competent Gymnast.

The following are the general regulations for the use of the Gymnasium:—

(1.) All male students, graduates, and members of the Alumni Association shall, on paying the sessional fee, be entitled to the use of the Gymnasium;

(2.) Students shall be entitled to instruction in gymnastics without the payment of any additional fee.

(3.) Graduates and members of the Alumni Association shall be admitted to the classes, on payment of a fee of three dollars.

## STUDENTS' SOCIETIES.

### General Students' Meeting.

This meeting is held regularly in November and February to conduct business in which all the students of the University are interested. Special meetings may be called by the President at any time.

#### OFFICERS.

President .....	A. R. HILL, '92.
Vice-President .....	(J. A. MACLENNAN, (Law), '92.
Secretary .....	(J. S. KENNEDY, B. A. (Medicine), J. W. LOGAN, '93.

### Arts Students' Meeting.

This meeting is held regularly in October and April to conduct business in which the Arts students alone are interested. Special meetings may be called at any time by the President.

#### OFFICERS.

President .....	R. H. GRAHAM, '92.
Vice-President .....	HARRY FUTSAM.
Secretary .....	D. M. ROBINSON, '93.

**The Sedales Debating Club.**

The Sedales Debating Club meets weekly during the session, subjects of general interest being discussed. The officers are elected at the first meeting after the opening of the session.

## OFFICERS FOR LAST YEAR.

<i>President</i> .....	A. R. HILL, '92.
<i>Vice-President</i> .....	A. W. MACKAY, '92.
<i>Secretary</i> .....	G. F. JOHNSON, '92.

**The Medical Debating Society.**

Meetings of this Society are held weekly throughout the session. Topics of general interest are discussed, and papers on medical subjects are read by city doctors.

## OFFICERS FOR LAST SESSION.

<i>President</i> .....	J. W. JOHNSON.
<i>Vice-President</i> .....	J. S. KENNEDY.
<i>Secretary and Treasurer</i> .....	E. J. MEYER.

**The Mock Parliament.**

The Mock Parliament meets weekly. All students of the University are welcome, but only students in law are allowed to take part in the debates, which are mostly of a political nature, on questions of the day. It is conducted strictly in accordance with parliamentary procedure.

## OFFICERS FOR 1890-91.

<i>Speaker</i> .....	ALEXANDER MCNEIL, B. A.
<i>Deputy Speaker</i> .....	L. X. McDONALD.
<i>Clark</i> .....	MR. MUNRO.

**Young Men's Christian Association.**

Meetings of the Association are held every Saturday evening at the College.

## OFFICERS.

<i>President</i> .....	JOHN A. MACINTOSH, '92.
<i>Vice-President</i> .....	J. D. MACKAY, '94.
<i>Recording Secretary</i> .....	GEORGE F. JOHNSON, '92.
<i>Corresponding Secretary</i> .....	J. W. LOGAN, '93.
<i>Treasurer</i> .....	W. C. MORRISON, '92.

**The Dalhousie Athletic Club.**

## OFFICERS.

<i>Honorary President</i> .....	REV. PRESIDENT FOREST, D.D.
<i>President</i> .....	HENRY GRAHAM, '92.
<i>Vice-President</i> .....	E. M. BILL, (Law) '92.
<i>Secretary</i> .....	D. G. MACKAY, '93.
<i>Treasurer</i> .....	J. W. LOGAN, '93.

Executive.—J. A. Mackenzie, (Law), '92; J. G. Fraser, '92; W. E. Thompson; W. S. Thompson, '92; J. D. Logan, '92.

**The Moot Court.**

The Moot Court is intended for law students only, so far as arguing is concerned. It is conducted as nearly as possible after the manner of the Supreme Courts, and all law students of second and third years standing are required to take part in at least one case during the session. (See Law Calendar.)

**The Philomathic Society.**

The objects of this Society are: (a) to stimulate interest in Literature, Science and Philosophy; (b) to encourage thorough study and independent investigation in special departments; (c) to give practice in the presentation of subjects, and in the experimental illustration of lectures; (d) to encourage the formation of collections in Botany, Zoology, Geology, Local History, &c. Meetings are held fortnightly during the College session.

## OFFICERS.

<i>President</i> .....	K. G. T. WRESTEL, '92.
<i>Vice-Presidents</i> .....	(D. S. McINTYRE, (Arts) '92. F. CONNELL, (Law) '91. E. J. McDONALD, (Medicine).
<i>Secretary-Treasurer</i> .....	T. F. WEST, B. A., '91.
<i>Executive Committee</i> .—J. W. LOGAN, '93; G. F. JOHNSON, '92; Geo. Patterson, M. A.

Ubi vero moreri et adpropinquare possibiles videant, nora atque innata specie commoti legatos ad Cassivum de pace miserunt, qui ad hunc modum locuti: non existimare Romanos sic pro circu belliū grecos, qui tantas altitudinis macinacitatis tanta celebritate premovere possent, se usque omnia sorum potestatē permitti possent. Unum petere ac degredi: si forte grā clementia ac mansuetudine, quam ipsi ab aliis audiunt, statuerit. Adhucque eas conservando, ne se armis despiciantur. Siliquas ferē finitima esse iudiciorū ac suae virtutē videbere: a qualibet se deducere traditis armis non posse. Sili præstare, si in eam casum deducatur, quanvis fortessam a populo Romano pati, quam ab his per cruciatum interfici, inter quos dominari consenserunt.

1. What are the subjects of "miseri," "permitti," "præstare"?
2. Give the rules for the dative and ablative without prepositions in extract.
3. Turn into oratio recta the sentences (a) "Non se existimare permitti"; (b) "Sili præstare . . . conservare."

\* The Matriculation paper is not printed this year.

1. "Omnibus portis"; give their names.
2. "Cognoscendi," "colligendi," "potiusdorum"; parse fully, noting any peculiarity.
3. (a) What are the Latin names of the rivers: Rhine, Ebrone, Saone, Aixne?
- (b) The modern names of some towns are derived from those of tribes mentioned in these books of Caesar.

4. How did Caesar get the government of Gaul? In what years did he hold it? What provinces had he previously governed? Write in Latin the day, the month, and the year of the City in which he died.

Sin maxime vestris vestrum adscenderet in urbem; 192  
Ultra Asiam magno Pelopon. sed moenia bello  
Vestrum, et nostros et fata manere nepotes.

1. Write short notes on "Palladio," "Pelopen ad moenia."
2. Write in full the main clause of the sentence: "Nam si . . . futurum."

3. Explain the use of the mood and tense of "paret," "posuit," "convertant," "violasset."

4. Et gener auxilium Priamo Phrygibusque ferebat  
Infelix qui non spesiss proscopia parentis  
Asiderit.

Write an explanatory note, and account for mood of *audierit*.

5. Scan vs. 192-4.

## III.

1. Name the gender and write the nom. and gen. in both numbers, if used, and note peculiarities of declension of: "moxibus," "spe," "se," "armis," "quibus"—"nefas," "infibus," "urbem."

2. What words are declined like *alter*?

3. Name some verbs of the 1st conj. that have the perf. and aorist like those of the 2nd conj.

4. Turn the following into the corresponding form of the other voice (if used): Moxibis, operis, tueri, ferre (two forms), agitate (two forms), petet, videt.

5. Show how the word "world" may be differently rendered in Latin according to its various meanings.

6. The relative *qui* is used in three ways.

7. When is the English infinitive translated into Latin by a subjunctive clause?

8. What classes of verbs govern the dative? What is the peculiarity of their use in the passive?

C. Translate into Latin: After hearing this, Caesar remained with all his men on the top of the mountain for several days, being afraid of the enemy surrounding him in the plain. But so far were they from wishing to attack him that they marched at full speed into their own territories.—When fifty years old, he was forced to depart from Rome, the city he was born in, and to go to Hispania, an almost deserted town. It cannot be denied that he was a man of courage; it is questionable whether he was one of sense.

1. ήτοι τῷ φάλαγγῃ. Explain this military formation. What is the opposite term?
2. ητοὶ προσῆν δύον ἔπειτα. What is the force of this combination of preposition, case and verb.
3. μήδειος δύον δύον. Distinguish this from οἰδίας δύον, δύον.
4. Decline in the singular ΖΕΥΣ, ΣΩΤΗΡ, ἘΠΑΚΑΝΗΣ, ΗΓΕΜΟΝ.

## II.

1. Name the part of the verb in which these forms are found and give their present indicative in the same person, number, and voice; *ἴοισθαι*, *ἴοισται*, *ἴοισθαι*, *ἴοισται*, *ἴοισθαι*.

2. Distinguish *πέντε* διανοεῖ from *εἴπειν* νοεῖσθαι—*δεῖ* τοῖς δασεῖσι from *εἰπεῖν* δασεῖσι—*τοῖς* τοῖς δασεῖσι from *εἰπεῖν* τοῖς δασεῖσι—*τοῖς* τοῖς τοῖς δασεῖσι from *εἰπεῖν* τοῖς τοῖς δασεῖσι.

3. "Some" may be expressed in different ways in: some say—some were killed, others escaped—some say one thing, some another—he drank some wine—he sent some soldiers.

4. Translate the following phrases: *λειτούργον ἄρχειν*—*δεῖ* εἶπειν τῷ γονῷ—*δεῖ* τοῖς δασεῖσι—*δεῖ* τρέψειν—*δεῖ* βασιστεῖν—*δεῖ* τέρπειν—*δεῖ* ποιεῖσθαι δύον δύον.

## 5. Give one example of each of the uses of the middle voice.

6. Translate into Greek: There they stayed for one day on account of the depth of the river, but on the next day having crossed it, the soldiers proceeded.... It is far easier to withdraw than to fight with the enemy.... How many soldiers died at Marathon?—He said that the youths had seen a large army marching through the country. (Express this in two ways).—He ordered his companions not to advance up the mountain.

Le cœur Pierre quitta la Russie en 1698, n'ayant encore régné que deux années, et alla en Hollande, déguisé sous un nom vulgaire, comme s'il avait été un domestique de ce même le Roi, qui l'envoya ambassadeur extraordinaire auprès des Etats-généraux. Arrivé à Amsterdam, inscrit dans le rôle des charpentiers de l'ambassade des Indes. Il y travaillait dans le chantier comme les autres charpentiers. Dans les intervalles de son travail il apprenait les parties des mathématiques qui pouvoient être utiles à un prince, les fortifications, la navigation, l'art de lever des plans. Il entrât dans les boutiques des ouvriers, examinait toutes les machines ; rien n'échappait à ses observations. De là il passa en Angleterre, où il se perfectionna dans la science de la construction des vaisseaux ; il repassa en Hollande, et vit tout ce qui pourrait tourner à l'avantage de son pays. Enfin, après deux ans de voyages et de travaux sauvages sur quatre hommes que lui n'eût voulu se soumettre, il repartit en Russie, amenant avec lui les arts de l'Europe.

1. Le cœur Pierre quitta la Russie en 1698. Write this sent. in the interrog. form, expressing 1698 in letters. Parse and give principal parts of *quitta*. The English to leave may be expressed by *partir*, *sortir*, *soldier*, *bisous*. Prove it by translating: He left his purse. My friend will soon leave for England. Leave the room, he said to me. This gentleman will leave a large fortune to his children.

2. N'ayant . . . que deux années. Mention the principal negative adverbs. Account for the use of *ne* in the above sent., and state its analogous term. Turn into French: Have you ever been in Paris? No Sir, never. He is no longer among the living [vivants]. No human being. No one. Nothing.

3. Extrait . . . des corrières. Parse *extrait*, and write down the present indicat. and the imperf. Subjunct. of this verb. Give the fem. of *corrières* and translate: English male and female labourers. Illustrate the use of *des* as partitive article. Write in French: We have kind friends; have you any? Yes we have some,

4. De ses paix. Parse *ses*, and mention its corresponding personal form. Turn into French: Her Majesty, the Queen. His Majesty, the Emperor. How do you express the English *its*; give some exa.

5. Neut resūs se soumettre. Parse *et*, and write down the Imperative and the Subject. present of this verb. Translate: Qu'y a-t-il? Vous avez raison. Il a mal à la tête.

Sire, lui répondit le comte de Châlisen, en français, le roi nous maltraite n'a ordonné de résider auprès de votre majesté; je me flatte que vous ne me chasserez pas aujourd'hui de votre cour, qui n'a jamais été si brillante." En disant ces paroles, il donna la main au

rei, qui sauta dans la chaloupe, où le comte de l'îper et l'ambassadeur entraient. On s'évançait sous les coups de canons des vaisseaux qui favorisaient la descente. Ein Wanderer kam im heißesten Sommer zu einer Quelle. Er war stark und lange gegangen; Schweiss stand auf seiner Stirne und seine Zunge war von Durst fast vertrocknet. Da sah er das silberhelle Wasser, glaubte, hier neue Kräfte zu sammeln, und trank mit gierigen Zügen. Aber die schädigende, zu schnell abwuschende Kälte wirkte so schädlich auf ihn, dass er zu Boden sank.—"Ach, schädliches Gift!" rief er. "Wer hätte unter einem so reisenden Ansiedler solch eine Welt verursacht?"

"Ich ein Gift?" sprach die Quelle. "Wahrlich, du verläusdest mich. Sich, die Fließ rings umher grinet und lebt durch mich. Von mir trinken sich die Heerden, und Tausende deiner Brüder fanden hier Erfrischung und Labetrunk. Nur Übermensch und Unverschämtheit von deiner Seite machen dir den Genuß schädlich. Ich bin schuldlos an deinen Schmerzen und selbst an deinem Tode, sollte er dir auch begegnen."

1. *Im heißesten Sommer.* Account: (a) for the contraction *im*; (b) for the termination *esten* in *heissten*. Prefix the defin. article to *heissten Sommer* and decline those words in the 4 cases singular and plural.

2. *Dass er zu Boden sank.* Parse *dass*, and illustrate the difference between *dass* and *da*; decline the latter word in the 4 cases sing. and plural. Write the genitive sing. and the nomin. plural of : *Boden*, *Quelle*, *Gift*, *Heerde*, *Tod*, *Mann*, *Herr*, *Sohn*.

3. Write the first sent. of passage A: (a) in the plural; (b) in the negat. interrog. form, sing. Decline *es*, and translate : No man I have not seen him. No, he is not at home.

4. *Die schädigende Kälte.* Decline this sent. in the 4 cases sing. with and without the article. When does the adjective remain unaffected? State an example.

5. *Ich bin schuldlos an deinen Schmerzen.* Write this sent. with the subject in the plural and the object in the singular. Parse and give principal parts of : *hun*, *war*, *pleßte*, *hätte*, *sprach*, *sollte*.

Ein Franzose ritt eines Tages auf eine Brücke zu, die so schmal war, dass zwei Reiter einander kaum darauf ankommen konnten. Ein Engländer betrat zugleich das entgegengesetzte Ende derselben, und als beide auf der Mitte waren, wollte keiner dem Andern Platz machen. "Ein Engländer geht keinen Franzosen ans dem Wege," sagte der Britte. Der Franzmann erwiderte: "Mein Pferd ist auch ein Engländer!" Aber der Engländer machte sich wenig aus diesem Einfälle, sondern sagte: "Ich kann warten, ich habe hier die schrûde Gelegenheit, die heutige Zeitung zu lesen, bis es euch gefällt, Platz zu machen." Also zog er kahltüting eine Zeitung aus der Tasche, wickelte sie aneinander und las darin eine Stunde lang, während dass der Franzose eine Pfeife Tabak herzor nahm und zu rauchen anfing. Die Sonne neigte sich allmählig gegen die Berge hinab und sah nicht aus, als ob sie die Thoren noch lange ausschauen wollte.

1. Can you account for the *propos* as in the first clause of this passage. Write the plural of : *Franzose*, *Tage*, *Brücke*. Can you give another term for : *einen Tag*? Turn into German: The day is fine. We shall have a fine day.

2. *Die so schmal war.* Parse *die*, and state what other word may be used instead of it in this connection. What case or cases, number or gender, do the following words represent : *dem*, *der*, *den*, *die*?

3. *Als Brücke auf der Brücke waren.* What case does *auf gehen*? if you were to write *auf die Brücke* instead, how would you have to alter the sent.? Why is the verb *waren* at the end of the clause, instead of after the subject?

4. *Hein Pferd ist auch ein Engländer.* Write this sentence in the plural.

8. Reproduce in simple prose the substance of the following :—

Long hours ago, while yet the moon was bright,  
 Nor sharp atheist had drunk the headless dew ;  
 A reaper came, and swung his cradled scythe  
 Around this stump, and shearing slowly drew  
 Far round among the clover, ripe for hay,  
 A circle clean and gray ;  
 And here among the scented swallows that gleam  
 Mixed with dead daisies, it is sweet to lie  
 And watch the grass and the few clouded sky,  
 Nor think but only dream.

TIME: THREE HOURS.

1. Enunciate the propositions of Euclid dealing with the equality of triangles.

2. Prove that triangles on the same base and between the same parallels are equal.

3. If a straight line be divided into two parts, the square on the whole line is equal to the sum of the squares on the parts, together with twice the rectangle contained by them. Prove this.

4. " If a straight line be divided into two equal and also into two unequal parts, the sum of the squares on the unequal parts is equal to . . . . Complete the enunciation and prove the proposition.

5. Construct a square equal to a given rectilineal figure.

6. Resolve into factors:

$$4x^2y - 12x^2y^2 + 8xy^3 \\ \text{and } m^3n^2 - 10m^2n + 16.$$

7. Find the difference between

$$\frac{ab+2b^2}{n-2b} \text{ and } \frac{a^2-7ab+12b^2}{a-3b}.$$

8. Simplify :

$$\frac{1}{8(x-1)} + \frac{1}{4(3-x)} + \frac{1}{8(x-5)} + \frac{1}{(1-x)(x-3)(x-5)}.$$

9. Find the square root of  $2a^4 + 30a^2 + 37a^2 + 20a + 4$ .

10.  $\frac{x-6}{8} + \frac{4-7x}{15} = \frac{4x-37}{40}$ . Find x.

11. A man gives away fifty cents more than half the money he has; and again twenty-five cents more than half the sum then remaining to him, and now has two dollars left. How much had he at first?

1. Two navvies undertook to excavate 1022 yards of earth, at the rate of 12 cents per foot, calculating that they could cut out an average of  $2\frac{1}{2}$  yds. per hour, working 9 hours per day; but the work proving stiffer than they had expected, they could cut only 4 yds. in the time they had expected to do it. After 5 days they gave up the job, forfeiting 15 per cent. of pay for the work done. Find what wages each received, and the fraction of the work left undone.

2. Prove the rule for the multiplication of Fractions by treating this example:

$$\frac{5}{8} \times \frac{9}{10}$$

3. \$3729\frac{1}{2}\$ is divided among A, B, and C, so that A's share : B's :: 1 : 1, and B's : C's :: 1 : 1 $\frac{1}{2}$ ; what are their several shares?

4. If  $x^2 + ax + b$ ,  $x^2 + a_1x + b_1$ ,  $x^2 + a_2x + b_2$  have a common measure, prove  $(a - a_1)(b - b_1) = (a - a_2)(b - b_2)$ . Write also the L.C.M., in terms of  $a$ ,  $b$ ,  $a_1$ ,  $a_2$ , &c., of these expressions.

5. If  $x+y+z=1$ , and  $\frac{1}{x} + \frac{1}{y} + \frac{1}{z} = 0$ ; prove  $x^2+y^2+z^2=1$ .

6. Given  $x+y=a$ ,  $x^2+y^2=b^2$ , and  $x^3+y^3=c^3$ ;  
prove  $3 ab^2 - a^3 - 2 c^2 = 0$ .

7. Divide  $x-y$  by  $x^2-y^2$ , and write at length  $\left(\frac{1}{x} - \frac{1}{y} - \frac{2}{x^2-y^2}\right)^2$ .

8. The difference between two numbers is 3. Show that the difference of their cubes, together with three times their product equals three times the square of their sum.

9. Show that if  $2s=a+b+c$ ,

$$\text{then } s(s-a)(s-b)(s-c) = \frac{1}{16} \left( 2a^2b^2c^2 + 2abc^2 - (a^2 + b^2 + c^2)^2 \right).$$

10. Prove that  $\frac{\sqrt[3]{2}}{\sqrt{3}+\sqrt{2}} - \frac{\sqrt[4]{2}}{\sqrt{6}+\sqrt{2}} + \frac{\sqrt{6}}{\sqrt{2}+\sqrt{3}} = 0$ .

11. Prove  $(-1+\sqrt{-3})^3 = 8$ .

12. Solve any two of the following equations:-

$$(1) \frac{x^2 + 6x^2 + 2x + 1}{x-1 + 3x+1} = 1+3x$$

$$(2) \frac{\sqrt{a^2+x^2} - \sqrt{a^2-x^2}}{\sqrt{a^2-x^2} - \sqrt{a^2-x^2}} = \frac{b}{a} \neq \frac{b}{a}$$

$$(3) x + \sqrt{x^2 - 2} = a - m$$

13. Given the simultaneous equations:

$$\begin{aligned} xy &= a(x+y+z) \\ yz &= b(x+y+z) \quad \text{find } x, y, \text{ and } z \\ zx &= c(x+y+z) \end{aligned}$$

## GEOMETRY.

TIME: THREE HOURS.

1. If two triangles have two sides of the one equal to two sides of the other, and the contained angles supplementary, they are equal in area.

2. " All the exterior angles formed by producing the sides of any polygon are together equal to four right angles." Is this always true? Illustrate your answer fully.

3. On a given base construct a triangle equal to a given parallelogram and having an angle at the base equal to a given angle.

4. If an angle of a triangle be acute, the square of the side opposite to it is less than the sum of the squares of the containing sides. Enunciate and prove the relative proposition of Euclid. Also, if, the base being fixed, the vertex of the triangle be moved till it fall into the line of the base, what becomes of the proposition?

5. Prove, from the last question, that if from the ends, B and D, of the base of a triangle, C being the vertex, perpendiculars BQ and DP be drawn to the sides,  $BQ^2 - QB \cdot BD = CD \cdot DP$ .

6. From the property of the circle that the perpendicular from the centre on a chord bisects it, deduce the property that the tangent is at right angles to the diameter drawn from its extremity.

7. The opposite angles of a quadrilateral inscribed in a circle are together equal to two right angles.

8. Four points in a plane are given. With nothing but a rule to measure lengths, and no means of drawing a perpendicular or circle, how would you ascertain whether a circle would pass through all the points?

9. If O be the intersection of the perpendiculars in question 5, prove  $CB \cdot BF = QB \cdot BO$ , and  $CD \cdot DQ = PD \cdot DO$ .

10. The lines joining the alternate angles of a regular Hexagon trisect one another.

11. Assuming that the line joining the middle points of two sides of a triangle is equal to half the third side, solve the following:—The base of a triangle is fixed and the sum of the sides is constant. If from an end of the base a perpendicular be let fall on the bisector of the exterior angle at the vertex, the locus of its foot is a circle.

12. PQ is the common chord of two circles, X and Y : PD is a chord of X and a tangent to Y : through Q a line FQG is drawn, meeting Y in F, and X in G. Prove that GD is parallel to PF.

2. From the property that the areas of triangles upon the same base are to one another as their altitudes, prove that if three lines, AD, BE, CF, drawn from the angles of the triangle, ABC, to the opposite sides, intersect in O,

$$\frac{DO}{AD} \cdot \frac{EO}{BE} \cdot \frac{FO}{CF} = 1.$$

3. The distances of any two points from the centre of a circle are inversely proportional to the distances of their polars from the same : and if P and Q be the points and  $Pp$  and  $Qq$  be the shortest distances to their polars, PQ subtends equal angles at p and q.

4. The sides of a triangle, ABC, are all produced, and a transversal cuts the produced parts in  $a$ ,  $b$ ,  $c$  (opposite the several angles). State and prove, from your diagram, a fundamental property of such a transversal.

5. If from any point without a circle two tangents and a secant be drawn, four points in the circumference are thus determined: prove that if from any other point in the circumference lines be drawn to these four, they form a harmonic pencil.

6. Given the diameter of a circle and two parallel chords ( $2r$ ,  $2a$ ,  $2b$ ): find the breadth of the included zone.

7. In an Ellipse, the perpendiculars from the foci on the tangent at any point, meet it in the circumferences of the auxiliary circle: and their rectangle is equal to the square on the semi-minor axis.

8. A circle of radius  $r$  includes another circle of radius  $r_1$ : the distance between their centres is  $c$ . Show that the locus of the centre of a circle which touches them is an ellipse of eccentricity,  $\frac{c}{r+r_1}$ .

9. If  $\sin \theta = \sin \phi$  and also  $\cos \theta = \cos \phi$ : then must  $\theta$  and  $\phi$  differ by a multiple of  $2\pi$ .

10. If  $A+B+C=180^\circ$ , prove  
 $(\sin B - \sin C) \cot \frac{A}{2} + (\sin C - \sin A) \cot \frac{B}{2} + (\sin A - \sin B) \cot \frac{C}{2} = 0.$

11. Give a full sketch of the manner in which a Table of Natural sines and cosines is calculated, with some account of the tests applied to measure the accuracy of the calculations.

12. ABCDEF is a regular Hexagon whose centre is O, and P is any point in the diameter AB. Prove that  $\frac{1}{6}$ th of the sum of the squares of the lines drawn from P to the angles of the Hexagon =  $(\text{side})^2 + OP^2$ .

## MISCELLANEOUS.

TIME: THREE HOURS.

1. Given the base of a triangle, and the ratio ( $m:n$ ) of the sides. Find the equation for determining the sides.

$$2. \text{ Prove } \tan \frac{m}{n} = \tan \frac{m-n}{m+n} = \frac{\pi}{4}.$$

3. In the ambiguous case in Plane Trigonometry,  $a$  and  $b$  being the given sides ( $a > b$ ), and  $c$  and  $c_1$  the two values of the third: (1) prove  $c^2 = a^2 - b^2$ ; (2) the circumscribing circles of the triangles are equal.

4. If  $A, B, C, D$  are the angles of any Quadrilateral, an application of Desnoivre's Theorem enables you to prove very easily that the sum of the tangents of these angles - the sum of their products, take 3 and 3.

5. Write the series for  $\cos m\theta$  and  $\sin m\theta$  in terms of the powers of  $\cos \theta$  and  $\sin \theta$ , and thereafter express  $\cos 5\theta$  wholly in terms of  $\cos \theta$ .

6. Give a sketch of the steps by which it is shown that

$$\cos x + \sqrt{-1} \sin x = e^{ix}.$$

7. If  $\tan \theta = \frac{b}{a}$ , show by Desnoivre's Theorem that

$$\frac{m}{n} = \frac{m}{n} + \frac{m}{n} \cdot \frac{m}{n} \cos 2\theta$$

$$(a+bi\sqrt{-1}) + (a-i\sqrt{-1}) = 2(a^2+b^2) \cos 2\theta.$$

8. State the fundamental principle of the Theory of Indeterminate Coefficients, with its limitations. Apply it, when explained, to this case,
- $$\frac{\sin x}{\log(1+x)} = ax + bx^2 + cx^3 + \dots, \text{ so as to show that you could determine } a, b, c \text{ &c.}$$

9. If in the equation,  $x^2 + px^3 + qx^4 + r$ , one root is known to be equal to the sum of the other two, prove  $4pq = 8r + p^2$ .

10. Find the formula that determines the numerically greatest

- term of the expansion of  $(1+x)^{\frac{p}{q}}$ ,  $\frac{p}{q}$  being positive; and the condition that two successive terms may be equal. Also, find what term is numerically the greatest in the expansion of  $(1-x)^{\frac{p}{q}}$ ,  $x = \frac{1}{2}$ .

11. A wagers with  $B$  that, in a single throw with 5 dice, three of them at least will show the same face. On this he stakes \$1; against him  $B$  stakes \$4. Query (1) which has the advantage in the bet? (2) how many throws must  $A$  be allowed in order to have a chance just superior to  $B$ 's on an even bet?

## C.—ENGLISH.

Examiner ..... ARCHIBALD MACNEILIAN, Ph. D.

LOUNSBURY: HISTORY OF THE ENGLISH LANGUAGE, PT. I.; SPENSER: FAERY QUEENE, BK. I.; SHAKESPEARE: KING JOHN, AS YOU LIKE IT; BYRON: CHILDE HAROLD.

TIME: THREE HOURS.

N. B.—Not more than two questions to be answered in each section.

A.

1. Account for the chief points of difference between Middle and Modern English.  
 2. To what extent was English a composite language before the Norman Conquest?  
 3. Discuss and estimate the direct and indirect influence of Latin on the English Language.

B.

4. Discuss the fitness of introducing the grotesque element into the *Fairy Queen*, e.g., Lucifer's five coach-horses in Cant. IV. Point out the symbolism in each case.

5. Write critical notes on the metre, the allegory, and the style of the *Fairy Queen*.

6. Explain fully ten of the italicised words:—  
 Ye all *forswained* be. *Eftsoons* I thought her such.

Hunting full greedy after *anfong* blood,  
 .... a wodal *stane* for him she late endured.

.... in mind to rance his life,  
 .... their tales *desyndes* wide.

Their harts she gahed with by their hanble guise;  
 And laying down upon the sandis *grasie*,

.... the nesful routes appell,  
 Therewith the gyant *hasted* him to fight,

.... his visage *waxid* pale.

That *darknesse* cave.

The second was as *astur* of the place,

.... his *chillfest* spars

.... the ground whereon his feet was pight.

C.

7. About which of the three, *Arthur*, *John*, or *Fitzwalter*, does the interest of *King John* centre?

8. How has Shakespeare made the play interesting, when nearly all the characters except Arthur are cosmopolitan, and no mention is made of *Megan Curtis*?

9. Describe in full the character of Rosalind. Characterize *As You Like It*.

D.

10. Show how *Childs Harold* illustrates Byron's politics, religious ideas, and literary opinions.

11. Give the history of its production. Compare the stanza with Spenser's. (What reasons does Byron give for adopting it?)

12. Quote any passage of two stanzas which you admire, and tell why you admire it.
