## UNIVERSITY ALMANAC, 1926-1927.

	1926.
Aug. 23	M.—Last day for receiving applications* for Supplementary Examinations.
Sept. 7	To.—Shop Work and Surveying Course for students in Engineering begins.
14	To.—Sessional Examinations, Registration and Payment of Fees.
15	W.—Supplementary Examinations for students in Law, Medicine, Dentistry.
15	W.—Lectures begin. Last regular Registration 11 Day for students in Engineering.
15	S.—12 Noon. Registration for such students ends.
23	S.—Last day for receiving applications* for Matriculation.
28	To.—Registration (and Payment of Fees) begins in Arts and Sciences. Matriculation (and Scholarship) and Supplementary Examinations* begin.— —9 a.m. Lectures begin; French, German, ** —2.30—3.30 p.m. English. 29 W. —9 a.m.—12.30 p.m. French; Greek, **
30 Th.	—9.30—12.30 p.m. German; Chemistry, —1.30—5.30 p.m. Chemistry.
Oct. 1 F.	—2.30—3.30 p.m. Telecommunications; History, **
2 S.	—12 Noon. Regular Registration** Period for Students in Arts and Sciences begins. Registration of Matriculation and Supplementary examinations declared.
4 M.	—9 a.m. Lectures begin in Arts and Sciences.
5 T.	—12 Noon. Meeting of Faculty of Arts and Sciences.
9 W.	—12 Noon. Registration in Arts and Sciences ends.
13 W.	—Instruction as in elective subjects to be made up or before this date in Arts and Sciences ends.
14 M.	—Thanksgiving Day. No Lectures.
Dec. 14	To.—Last day of lectures in classes where Christmas examinations are held.
16 W.	—Christmas Examinations* begin.
22 W.	—Last day of lectures.
22 W.	—9 a.m. Christmas vacation begins.
	1927.
Jan. 4 Tu.	—9 a.m. Lectures resume.
Mar. 1	—Last day for receiving thesis for Master's degree.
18	—Last day for receiving Applications* for Examinations for Master's degrees and for payment of fees.
Apr. 11	M.—Last day for receiving Applications* for Spring Supplementary Examinations and for payment of Examination Fees in Medicine and Dentistry.
15 F.	—9 a.m. Lectures resume.
22 M.	—Last day of Lectures.
27 W.	—Spring Examinations* begin.
May 5 Th.	—First Professional Examinations in Medicine and Dentistry begin.
12 Th.	—11 a.m. Meeting of Faculty of Arts and Sciences. 4 p.m. Meeting of Faculty of Law. —5 p.m. Meeting of Faculty of Medicine.
13 F.	—5 p.m. Meeting of Faculty of Medicine.
14 S.	—11 a.m. Meeting of Senate.
17 W.	—Instruction as in elective subjects to be made up or before this date.
17 W.	—9 p.m. Convocation. Session ends.

\*For most programmes application for examination.

\*\*In case of change of examinations arrangements will be made for changes suitable to all candidates.

†For time table see Notice Board.

††Extra fee for late Registration, 22.00 per day.

# Dalhousie University.

## BOARD OF GOVERNORS.

George S. Campbell, Esq., LL.D., Chairman.  
A. Stanley MacKenzie, Ph. D., D. C. L., LL. D., F. R. S. C.,  
*President of the University.*  
His Worship the Mayor of Halifax, ex officio.  
A. H. MacKay, LL. D., F. R. S. C.  
Hon. W. S. Fielding, LL. D.  
Charles Archibald, Esq., M. E.  
Hector McInnes, Esq., LL. B., K. C.  
Hon. George H. Murray, LL. D.  
C. H. Mitchell, Esq.  
Hon. W. E. Ross, K. C.  
G. Fred Pearson, Esq., LL. B., Vice Chairman.  
W. H. Chase, Esq.  
Hon. R. G. Beazley, M. L. C.  
Hon. T. S. Rogers, B. A., D. C. L., K. C.  
D. Macmillivray, Esq.  
H. E. Mahon, Esq., B. A., LL. B., Alumnus Representative.  
Hon. W. A. Black, M. P.  
Hon. R. E. Bennett, LL. D., K. C., M. P.  
W. E. Thompson, Esq., LL. B.  
Rev. Charles MacKinnon, M. A., D. D., LL. D.  
A. H. Winsell, Esq.  
J. P. Edwards, Esq.  
J. S. Roper, Esq., M. A., LL. B., Alumnus Representative.  
Hon. G. G. Patterson, M. A., LL. B.  
K. A. MacKenzie, M. D., C. M., Alumnus Representative.  
Jean F. Forrest, M. A. (Dal.), Alumnus Representative.  
Hector McInnes, Esq., LL. B., Treasurer.  
W. E. Thompson, Esq., LL. B., Secretary.  
H. B. Stairs, Esq., B. A., LL. B., Assistant Secretary.

## SENATUS ACADEMICUS, 1925-1926.

A. Stanley MacKenzie, Ph. D., D. C. L., LL. D., F. R. S. C.,  
*President of the University.*  
Archibald MacMechan, Ph. D., LL. D., F. R. S. C.  
Howard Murray, B. A., LL. D.  
Murray Macneill, M. A.  
Hon. Donald S. McIntosh, Ph. D., F. R. S. C.  
Donald S. McIntosh, M. Sc.  
Herbert L. Stewart, M. A., Ph. D., F. R. S. C.  
A. G. Nicholls, M. D., D. Sc., F. R. S. C.  
John Cameron, M. D., D. Sc., F. R. S. S., E. & C., M. R. C. S.  
John Stewart, C. B. E., M. B., C. M., LL. D.  
G. E. Wilson, M. A.  
C. B. Nickerson, M. A.

## Officers of Administration.

W. P. Copp, B. A., B. Sc., M. E. I. C.  
B. C. Hunt, B. B. A.  
J. E. Read, B. A., B. C. L., K. C.  
W. H. Hattie, M. D., C. M.  
H. F. Munro, M. A.  
S. G. Ritchie, B. A., B. M. D.  
G. K. Thomson, D. B. S.  
E. V. Hogan, M. D., M. M. R. C. S., L. R. C. P.  
K. J. MacKenzie, M. B., C. M.  
J. H. L. Johnston, M. Sc., Ph. D.  
D. MacMechan, B. A., B. Sc., A. M., D. Sc., F. R. S. C.  
J. N. Gowerlock, B. A., B. Sc.  
W. D. MacFarlane, M. A., Ph. D.  
A. S. Walker, M. A.  
E. G. Young, B. A., M. Sc., Ph. D.  
E. W. Nichols, M. A., Ph. D.  
R. Gauthier.  
N. J. Symons, M. A.  
G. H. Henderson, M. A., Ph. D.  
O. S. Gibbs, M. B., Ch. B.  
B. Babkin, M. D., D. Sc.  
A. L. Macdonald, B. A., LL. B.  
Prof. H. F. Munro, Secretary.

## Committee on Admission.

Professor Macneill, Chairman. Dean Murray.

## OFFICERS OF ADMINISTRATION.

A. Stanley MacKenzie, *President of the University.*  
Howard Murray, *Dean of the University.*  
John E. Read, *Dean of the Faculty of Law.*  
John Stewart, *Dean of the Faculty of Medicine.*  
G. K. Thomson, *Dean of the Faculty of Dentistry.*  
W. H. Hattie, *Assistant Dean of the Faculty of Medicine.*  
Murray Macneill, *Registrar of the University.*  
E. Margaret Lowe, *Warden of Stirling Hall.*  
A. Edith Fenton, *Superintendent of the Public Health Clinic.*  
W. A. Bullock, Esq., O. B. E., M. A., *Secretary to the Head Conference & Paper Building, Temple, London, E. C. 4, Eng., Honorary Representative in Great Britain.*  
A. MacMechan, *Librarian of the University Library.*  
M. Josephine Shannon, *Assistant University Librarian.*  
Zaida A. Harris,  
Orpha McNutt, *Assistant Medical Librarian.*  
H. Joyce Harris, *Bursar and Secretary to the President.*  
Edith B. Clark, *Assistant Registrar.*  
Gladys M. Little, *Clerk of the Dental Infirmary.*  
W. L. Harper, *Business Manager.*

## ACADEMIC STAFF.

## FACULTY OF ARTS AND SCIENCE, 1925-26.

- Arthur Stanley Mackenzie, B. A. (Dal.), Ph. D. (J. H. U.), D. C. L., LL. B., F. R. S. C., President of the University, 24 Oxford St.
- Archibald MacMechan, B. A. (Tor.), Ph. D. (J. H. U.), LL. B. (Tor.), F. R. S. C., *George Moore Professor of English Language and Literature and Head of Department*, 72 Victoria Rd.
- Howard Murray, B. A. (Lond.), LL. D. (Tor.), *Melton Professor of Classics and Head of Department*, 15 Spring Garden Rd.
- Murray MacNeill, B. A. (Dal.), M. A. (Harv.), *Chair of Scotland Professor of Mathematics*, 83 Ingliston St.
- Howard Logan Bronson, B. A., Ph. D. (Yale), F. R. S. C., *George Moore Professor of Physics and Head of Department*, 366 Morris St.
- Herbert Lester Stewart, M. A. (R. U. I. or Oxon.), Ph. D. (R. U. I.), F. R. S. C., *George Moore Professor of Philosophy and Head of Department*, 75 Larch St.
- Walter Percy Copp, B. A. (Acad.), B. Sc. (McGill), M. E. I. C., *Professor of Civil Engineering*, 394 South St.
- Bishop Carleton Hunt, B. B. A. (B. U.), *Win. A. Black Professor of Commerce*, 93 Coburg Rd.
- Henry Fraser Munro, B. A. (Dal.), M. A. (Harv.), *Erie Dennis Memorial Professor of Government and Political Science*, 246 Jubilee Rd.
- John Hamilton Lane Johnstone, M. Sc., (Dal.), Ph. D. (Yale) *Professor of Physics*, 235 South St.
- Douglas MacEachern, B. A., B. Sc. (Dal.), A. M. (Cornell) D. Sc. (McGill), F. R. S. C., *Research Professor of Chemistry and Head of Department*, Bloomsdale Terrace.
- Carleton Bell Nickerson, M. A. (Clark), *Professor of Chemistry*, Armdale.
- Walter Douglas MacFarlane, M. A. (King's), Ph. D. (Gott.), *Professor of English Language and Literature* (King's), 314 South St.
- A. Stanley Walker, M. A. (Leeds and Birn.), *Professor of History* (King's), 245 Oxford St.
- Rene Gauthier, Agrégé des Lettres (Paris), *Professor of French and Head of Department of Modern Languages*, Elmwood Hotel.
- Norman Jelinger Symons, M. A. (Oxon.), *Professor of Psychology* (King's), 288 Tower Rd.
- George Hugh Henderson, B. A., B. Sc., M. A. (Dal.), Ph. D. (Cornell), *Professor of Mathematical Physics* (King's), 44 Chestnut St.
- Boris Babkin, M. D. (MIL Med. Acad., St. Petersburg), D. Sc. (Lond.), *Professor of Physiology*, 33 Morris St.
- George Earle Wilson, M. A., (Queen's), Ph. D. (Harv.), *Professor of History and Head of Department*, 93 Coburg Rd.
- Edward Wilber Nichols, M. A. (Dal.), *Professor of Classics*, 86 South Park St.
- Hugh Phillip Bell, M. Sc. (Dal.), Ph. D. (Tor.), *Associate Professor of Botany*, 245 Tower Rd.
- Charles Henry Mercer, M. A., B. Comm. (Manch.), *Associate Professor of Modern Languages*, 3 Chestnut St.
- James Nelson Gowansloch, B. A., B. Sc. (Man.), *Associate Professor of Zoology*, Almeda Apartments.

## Academic Staff.

- Arthur Kent Griffin, M. A. (Tor. et Oxon.), *Associate Professor of Classics* (King's), 134 Robie St.
- Ralph Walter Scott, A. M. (Princeton), *Associate Professor of Modern Languages* (King's), Westminster Apartments.
- Raymond Jackson Bean, M. S. (N. H.), *Associate Professor of Histology and Embryology*, Almeda Apartments.
- Charles Lindsay Bennet, B. A. (Cantab.), *Associate Professor of English* (King's), King's College.
- Donald Sutherland Macintosh, B. A. (Dal.), M. Sc. (McGill), *Assistant Professor of Geology*, 133 Henry St.
- Harold Skinner King, A. B. (Harv.), *Assistant Professor of Chemistry*, Armdale.
- Forrest Hamilton Murray, A. B. (Ull.), A. M., Ph. D. (Harv.), *Assistant Professor of Mathematics* (King's), 44 Chestnut St.
- Harold Raymond Thaxton, B. Sc. (Minning), (N. S. T. C.) A. M. E. I. C., *Assistant Professor of Engineering and Engineer in Charge of Buildings and Grounds*, Commodore Apartments.
- William Russell Maxwell, B. A. (Dal.), M. A. (Harv.), *Assistant Professor of Economics* (King's), 44 Chestnut St.
- Merle Perry Bronson, M. A. (Dal.), *Instructor in Physics*, 366 Morris St.
- Ebenezer Walter Todd, B. A. (Dal.), *Instructor in Chemistry*, 61 Walnut St.
- George G. Laurence, B. Sc. (Dal.), *James Gordon MacGregor Memorial Professor of Physics*.
- Jotham Wilbur Logan, M. A. (Dal.), *Lecturer in Classics*, 279 Barrington St.
- James William Falconer, M. A. (Edin.), D. D. (Knox.), *Lecturer in Archaeology*, Franklyn St.
- Harry Arnold Kent, M. A. (Dal.), D. D. (Mont.), *Lecturer in Biblical Literature*, Franklyn St.
- Emily Margaret Lowe, B. A. (Tor.), *Lecturer in English Composition*, Sheriff Hall.
- Harry Dean, *Lecturer in Music and Examiner in Theory of Music*, 36 Henry St.
- Samuel Henry Prince, M. A., (Tor.), Ph. D. (Col.), *Lecturer in Economics and Sociology* (King's), King's College.
- James Michael MacDonald, B. A. (St. F. X.), M. B. A. (Harv.), *Instructional Lecturer in Commerce*, 37 Spring Garden Road.
- Harry Ritchie Chapman, B. A. (Dal.), M. A. (Harv.), Ph. D. (McGill), A. C. I. C., *Teaching Fellow in Chemistry*, 32 Ingliston St.
- Robert Cumming Robb, B. A. (Dal.), *Laboratory Assistant in Biology*.
- Margaret Elizabeth MacKay, B. A. (Dal.), *Laboratory Assistant in Histology and Embryology*.
- John Lester Nickerson, B. A. (Dal.), *Laboratory Assistant in Physics*.
- W. E. Stirling, *Physical Instructor*.
- Secretary of the Faculty*, Professor E. W. Nichols.
- Registrar of the Faculty*, Professor M. MacNeill.
- Committee on Studies and Attendance* [Professor MacNeill, Chairman,  
[Professor Macintosh, Secretary,  
Professors Wilson, Johnstone and Bennet.]
- Committee on Library* [Professor MacMechan, Chairwoman,  
[Professor Murray.]

## FACULTY OF LAW, 1925-1926.

- A. Stanley Mackenzie, B. A. (Dal.), Ph. D. (J. H. U.), D. C. L., LL. D., F. R. S. C., President of the University.  
 Benjamin Russell, M. A., D. C. L., (Mét. All.), LL. D. (Dal.), Justice of the Supreme Court of Nova Scotia, Professor of Law.  
 John E. Read, B. A. (Dal.), Rhodes Scholar, B. C. L. (Oxon.), K. C., George Muuro Professor of Law.  
 A. L. Macdonald, B. A. (St. F. X.), LL. B. (Dal.), Assistant Professor of Law.  
 H. E. Read, B. A. (Acad.), LL. B. (Dal.), LL. M. (Harv.), Instructor in Law.  
 T. W. Murphy, LL. B. (Dal.), K. C., Lecturer in Mortgages and Suretyships.  
 C. J. Buschell, M. A., LL. B. (Dal.), K. C., Lecturer in Shipping.  
 R. F. Yeoman, B. A., LL. B. (Dal.), Lecturer in Bankruptcy.  
 Vincent C. MacDonald, LL. B. (Dal.), Lecturer in Agency, Sales Procedure.  
 W. E. Thompson, LL. B. (Dal.), Lecturer in Insurance.  
 F. H. M. Jones, B. A., LL. B. (Dal.), Lecturer in Insurance.  
 J. W. Godfrey, B. A. (Dal.), Rhodes Scholar, B. C. L. (Oxon.), Lecturer in History of English Law.  
 R. D. McCloskey, II, A., LL. B. (Dal.), Lecturer in Practical Statutes and Rules of Interpretation.

## SPECIAL LECTURERS.

- J. A. Chisholm, B. A. (St. F. X.), LL. B. (Dal.), Justice of the Supreme Court of Nova Scotia, Legal Ethics.  
 T. R. Robertson, B. A., LL. B. (Dal.), K. C., Crown Rules.  
 R. A. MacLeod, Practice.  
 Captain W. F. Mitchell, Navigation.  
 R. H. Murray, B. A., LL. B. (Dal.), K. C., Disease.  
 I. C. Doty, B. A. (Acad.), LL. B. (Dal.), Criminal Procedure.

Dean of Faculty, Professor J. E. Read.

Secretary of the Faculty, Professor A. L. Macdonald.

## FACULTY OF MEDICINE, 1925-26.

- A. Stanley Mackenzie, B. A. (Dal.), Ph. D. (J. H. U.), D. C. L., LL. D., F. R. S. C., President of the University.  
 M. A. Curry, B. A. (Vind.), M. D. (Univ. of N. Y.), Emeritus Professor of Clinical Gynaecology.  
 Murdoch Chisholm, M. D., C. M. (McGill), L. R. C. P. (Lond.), LL. D. (Dal.), Emeritus Professor of Clinical Surgery, 383 Brunswick St.  
 William H. Hattie, M. D., C. M. (McGill), Professor of Hygiene and Public Health, Mental Diseases, Dartmouth.  
 Louis M. Silver, B. A. (Vind.), M. B., C. M. (Edin.), Professor of Medicine and of Clinical Medicine, 65 Morris St.  
 John Stewart, C. E. E., M. B., C. M. (Edin.), LL. D. (Edin. and Dal.), Professor of Surgery, 28 South St.

- E. J. V. Hogan, M. D., C. M. (McGill), M. R. S. C. (Eng.), L. R. C. P. (Lond.), Professor and Head of Department of Surgery and Clinical Surgery, 169 College St.  
 H. K. MacDonald, M. D., C. M. (McGill), Professor of Clinical Surgery, 11 Coburg Rd.  
 A. G. Nicholls, M. A., M. D., C. M., D. Sc. (McGill), F. R. S. C., Professor of Pathology and Bacteriology, 86 Oxford St.  
 John Cameron, M. D. (Edin.), D. Sc. (St. And.), F. R. S. S. E. & C., M. R. C. S., Dr. D. G. J. Campbell Memorial Professor of Anatomy, 290 South St.  
 J. H. L. Johnstone, M. Sc. (Dal.), Ph. D. (Yale), Professor of Zoology, 285 South St.  
 C. B. Nicollson, A. M. (Clark), Professor of Chemistry, Armada, Elrid Gordon Young, B. A., M. Sc. (McGill), Ph. D. (Cantab.), Professor of Biochemistry, 44 Chestnut St.  
 A. Stanley Walker, M. A., Leeds and Birr., Professor of History (King's), 245 Oxford St.  
 Owen S. Gibbs, M. B., Ch. B. (Edin.), Professor of Pharmacology.  
 Boris Babkin, M. D. (Mil. Med. Acad. St. Petersburg), D. Sc. (Lond.), Professor of Physiology, 13 Morris St.  
 W. Bruce Almon, M. D., C. M. (Dal.), Associate Professor of Obstetrics, 35 Hollis St.  
 Kenneth A. MacKenzie, M. D., C. M. (Dal.), Associate Professor of Medicine and Clinical Medicine, 88 Spring Garden Rd.  
 Philip Weatherbie, M. B., Ch. B., (Edin.), Associate Professor of Surgery and Demonstrator in Operative Surgery, 211 Barrington St.  
 J. G. MacDougall, M. D., C. M. (McGill), Associate Professor of Surgery and Clinical Surgery, 26 Spring Garden Rd.  
 E. Kirk Macleod, M. D., C. M. (Dal.), Associate Professor of Obstetrics and Demonstrator in Practical Obstetrics, 119 Spring Garden Rd.  
 George H. Murphy, M. D., C. M. (Dal.), Associate Professor of Clinical Surgery, 28 Carleton St.  
 Hugh P. Bell, M. Sc. (Dal.), Ph. D. (Tor.), Associate Professor of Biology, 242 Tower Rd.  
 J. N. Gowanslach, B. A., B. Sc. (Man.), Associate Professor of Zoology, Almeda Apartments.  
 H. B. Atlee, M. D., C. M. (Dal.), F. R. C. S. (Edin.), F. R. S. M. (Lond.), Associate Professor of Obstetrics and Gynaecology and Demonstrator in Practical Obstetrics, York Apartments.  
 Raymond Jackson Bean, M. S. (N. H.), Associate Professor of Histology and Embryology, Almeda Apartments.  
 N. R. Symons, M. A. (Oxon.), Professor of Psychology (King's), 21 Lower Rd.  
 C. L. Bennett, B. A. (Cantab.), Associate Professor of English (King's), King's College.  
 Harold S. King, A. B. (Harv.), Assistant Professor of Chemistry, Armada.  
 D. J. MacKenzie, M. D., C. M. (Dal.), Assistant Professor of Pathology and Bacteriology.  
 N. B. Dreyer, B. A. (Cape et Oson.), M. A. (Oxon.), M. R. C. S. (Eng.), Assistant in Physiology, 27 Inglis St.  
 Merlin P. Bronson, M. A. (Dal.), Instructor in Physics, 366 Morris St.

## Academic Staff

- E. Walter Todd, B. A. (Dal.), *Instructor in Chemistry*, 6½ Walnut St.
- Lewis Thomas, M. D., C. M. (Dal.), M. R. C. S. (Eng.), L. R. C. P. (London), Demonstrator in *Practical Surgery*, 299 Brunswick St. On leave of absence.
- F. E. Lawlor, M. D., C. M. (McGill), Demonstrator in *Mental Disease*, Dartmouth.
- R. E. Mathers, M. D. (New York), *Lecturer in Diseases of the Eye, Ear, Nose, and Throat*, 34 Morris St.
- J. F. Lessell, M. D., C. M. (Dal.), Demonstrator in *Anæsthetics*, 151 South Park St.
- M. J. Carney, B. A. (Dal.), M. D., C. M. (McGill), *Lecturer in Paediatrics and Clinical Medicine*, 115 Oxford St.
- Frank G. Mack, M. B. (Tor.), *Lecturer in Skin Diseases and Demonstrator in Urology*, 149 Spring Garden Rd.
- James R. Corston, B. A., M. D., C. M. (Dal.), *Lecturer in Medicine and Therapeutics and Demonstrator in Clinical Medicine*, 337 Brunswick St.
- G. A. Burbridge, Member of N. S. Pharm. Soc., *Lecturer and Demonstrator in Materia Medica*, 194 Robie St.
- W. Alan Curry, M. D., C. M. (McGill), F. R. C. S. (Eng.), *Lecturer in Surgery and Demonstrator in Anatomy*, 121 South Park St.
- P. A. Macdonald, M. D., C. M. (McGill), Demonstrator and *Chief of Clinic in Practical Obstetrics*, 317 Barrington St.
- W. L. Muir, M. D., C. M. (McGill), Demonstrator in *Anæsthetics*, 240 Jubilee Rd.
- J. L. Churchill, B. A. (Acad.), M. D., C. M. (McGill), *Lecturer in Medicine and Demonstrator in Clinical Medicine*, 7 Quingold Rd.
- T. M. Siemlewicz, M. D., C. M. (Dal.), *Lecturer in Medicine and Demonstrator in Clinical Medicine*, 26½ Bland St.
- S. R. Johnston, M. D., C. M. (Dal.), *Lecturer in Medicine and Demonstrator in Radiology*, 9 College St.
- A. C. Jost, M. D., C. M. (McGill), *Lecturer in Hygiene and Public Health*, 35 Cambridge St.
- H. A. Chisholm, C. M. G., M. D., C. M. (McGill), *Lecturer in Hygiene and Public Health*, 109 Inglis St.
- G. W. Grant, B. A. (Edin.), M. B., Ch. B. (Edin.), Demonstrator in *Anatomy and in Pathology*, 18 Summer St.
- P. D. McLaren, M. D., C. M. (Dal.), *Lecturer in Clinical Medicine*, 317 Barrington St.
- J. G. D. Campbell, M. D., C. M. (Dal.), Demonstrator in *Paediatrics*, 407 Brunswick St.
- J. N. Lyons, M. D., C. M. (Dal.), Demonstrator in *Bacteriology and in Clinical Surgery*, 22 Carlton St.
- Gordon W. Will, M. D., C. M. (Dal.), Demonstrator in *Paediatrics*, 135 Royal St.
- Frank V. Woodbury, M. D., C. M. (Dal.), L. R. C. S., L. R. C. P. (Edin.), L. F. P. S. (Glas.), Demonstrator in *Medical Jurisprudence*, 105 South Park St.
- M. G. Burris, B. A., M. D., C. M. (Dal.), Demonstrator in *Clinical Surgery*, Dartmouth.
- V. L. Miller, B. A. (Acad.), M. D., C. M. (McGill), F. R. C. S. (Edin.), *Lecturer and Demonstrator in Clinical Surgery*, 133 Spring Garden Rd.
- D. J. MacDonald, M. D., C. M. (McGill), Demonstrator in *Clinical Surgery*, 183 South St.

## Academic Staff

- T. B. Acker, M. D., C. M. (Dal.), Demonstrator in *Clinical Surgery*, 26 Bland St.
- A. R. Cunningham, B. A., M. D., C. M. (Dal.), Demonstrator in *Diseases of the Eye*, 268 Barrington St.
- A. E. Doull, M. D., C. M. (McGill), Demonstrator in *Diseases of the Ear, Nose and Throat*, 34 Morris St.
- H. W. Kirkpatrick, M. D., C. M. (Dal.), Demonstrator in *Diseases of the Eye*, 317 Barrington St.
- V. O. Master, M. D., C. M. (McGill), Demonstrator in *Anatomy*, 7½ Queen's Rd.
- Robert C. Peihl, B. A. (Dal.), *Laboratory Assistant in Biology*.
- Margaret E. MacKay, B. A. (Dal.), *Laboratory Assistant in Histology and Embryology*.
- Dean of the Faculty, Professor John Stewart.
- Assistant Dean, Secretary of the Faculty, Professor Hattie.
- Committee on Studies and Attendance

## FACULTY OF DENTISTRY, 1925-26.

- A. Stanley MacKenzie, B. A. (Dal.), Ph. D. (J. H. U.), D. C. L., LL. D., F. R. C. S. (Edin.), F. D. Sc. (U. of P.), *Professor of Dental Pathology and Therapeutics*, 185 Hollis St.
- S. G. Ritchie, B. A. (U. N. B.), D. M. D. (T. D. C.), *Professor of Dental Anatomy and Comparative Dental Anatomy and Prosthetic Dentistry*, St. Paul Building.
- G. K. Thomson, D. D. S. (P. D. C.), F. A. C. D., *Professor of Hygiene, and Preventive and Clinical Dentistry, Chronicled Building*.
- F. V. Woodbury, M. D., C. M. (Dal.), L. R. C. S. and L. R. C. P. (Edin.), L. F. P. S. (Glas.), *Professor of General and Oral Surgery and Anæsthetics*, 185 South Park St.
- W. W. Woodbury, B. Sc. (Dal.), D. D. S. (P. D. C.), *Professor of Operative Dentistry*, 70 Spring Garden Rd.
- A. G. Nicholls, M. D., M. B., C. M., D. Sc. (McGill), F. R. S. C., *Professor of Pathology and Bacteriology*, 86 Oxford St.
- John Cameron, M. D. (Edin.), D. Sc. (St. And.), F. R. S. E., & C., M. R. C. S., Dr. J. G. D. Campbell Memorial Professor of Anatomy, 299 South St.
- J. H. L. Johnstone, M. Sc. (Dal.), Ph. D. (Yale), *Professor of Physics*, 285 South St.
- C. B. Nickerson, A. M. (Clark), *Professor of Chemistry*, Armada, E. Gordon Young, B. A., M. Sc. (McGill), Ph. D. (Cantab.), *Professor of Biochemistry*, 44 Chestnut St.
- A. Stanley Walker, M. A. (Leeds and Birma.), *Professor of History (King's)*, 245 Oxford St.
- Boris Bobrin, M. D. (Mil. Med. Acad., St. Petersburg), D. Sc. (Edin.), *Professor of Physiology*, 23 Morris St.
- W. H. Beckwith, D. D. S. (P. D. C.), *Professor of Operative Dentistry*, 306 Barrington St.
- W. C. Oxner, D. D. S. (B. C. D. S.), *Professor of Crown and Bridge Work and Ceramics*, 66 Spring Garden Rd.

- Philip Weatherbe, M. B., Ch. B. (Edin.), Associate Professor of Surgery, 218 Barrington St.  
 H. F. Bell, M. Sc. (Dal.), Ph. D. (Tor.), Associate Professor of Botany, 242 Tower Rd.  
 R. J. Bean, M. S. (N. H.), Associate Professor of Histology and Embryology, Almeda Apartments.  
 J. N. Gowansich, B. A., B. Sc. (Man.), Associate Professor of Zoology, Almeda Apartments.  
 C. L. Bennett, B. A. (Cantab.), Associate Professor of English (Ling's), King's College.  
 H. S. King, A. B. (Harv.), Assistant Professor of Chemistry, Armada St.  
 J. Stanley Beagmell, D. S. (Dal.), Assistant Professor of Dentistry, 34 Larch St.  
 D. J. MacKenzie, M. D., C. M. (Dal.), Assistant Professor of Pathology and Bacteriology, 44 Chestnut St.  
 N. B. Dreyer, B. A. (Cape et Oxon.), M. A. (Oxon.), M. R. C. S. (Eng.), Assistant in Physiology, 27 Inglis St.  
 Merle P. Bronson, M. A. (Dal.), Instructor in Physics, 366 Morris St.  
 E. Walter Todd, B. A. (Dal.), Instructor in Chemistry, 61 Walnut St.  
 G. H. Fluck, D. D. S. (P. D. C.), Lecturer in Prosthetic Dentistry, 125 Hollis St.  
 A. W. Faulkner, D. D. S. (Dal.), Lecturer in Crown and Bridge, 49 Göttingen St.  
 G. R. Hennigar, D. D. S. (B. C. D. S.), Lecturer in Endoscopy and Radiology, 127 Barrington St.  
 K. F. Woodburn, D. D. S. (Dal.), Lecturer in Materis Medicu, 177 South Park St.  
 W. Alan Curry, M. D., C. M. (McGill), F. R. C. S. (Eng.), Lecturer in Surgery and Demonstrator in Anatomy, 121 South Park St.  
 G. A. Chudleigh, D. D. S. (B. C. D. S.), Lecturer in History and in Operative Dentistry, St. Paul Building.  
 C. B. H. Climo, D. D. S. (Dal.), Lecturer in Prosthetic Dentistry, 313 Barrington St.  
 H. S. Crosby, D. D. S. (Dal.), Lecturer in Jurisprudence, Ethics and Economics, 315 Barrington St.  
 Dr. S. G. Ritchie  
 Dr. G. K. Thomson  
 Dr. W. W. Woodbury  
 Dr. W. H. Beckwith  
 Dr. W. C. Oates  
 Dr. J. S. Begnall  
 Demonstrators in Dental Subjects.

- G. W. Grant, B. A. (Dal.), M. B., Ch. B. (Edin.), Demonstrator in Anatomy and in Pathology, 13 Summer St.  
 Q. Gardner, Teacher in Prosthetic Dentistry, 42 Le Marchant St.  
 Dean of the Faculty, Dr. Thomson.  
 Secretary of the Faculty, Dr. Begnall.  
 Committee on Studies and Attendance: President MacKenzie, Chairman.  
 Secretary: Dean Thomson, Dr. Begnall, Secretary.  
 Attendance: [Drs. S. G. Ritchie and D. J. MacKenzie.]

# Dalhousie University.

## INTRODUCTION.

### Historical Sketch.

Dalhousie College was founded in 1818 by the Right Honourable George Ramsay, ninth Earl of Dalhousie, "for the education of youth in the higher branches of science and literature."

The original endowment was derived from funds collected at the port of Castine, at that time a part of the Commonwealth of Massachusetts, now of Maine, during its occupation in 1814 by Sir John Sherbrooke, then Lieutenant-Governor of Nova Scotia. In a letter to Lord Bathurst, dated December 14th, 1817, Lord Dalhousie, with the unanimous consent of the Council, proposed that £9,350 of these funds be devoted to the "founding of a College or Academy on the same plan and principle as that in Edinburgh," "open to all occupations and sects of religion, restricted to such branches only as are applicable to our present state, and having the power to expand with the growth and improvement of our society," and that this College be established in Halifax, "the seat of the legislature, of the commercial centre, of the church, and the mercantile society." On the 6th of February, 1818, Lord Bathurst, writing to the Prince Regent's "entire approval of the application of the funds in question in the foundation of a Seminary in Halifax for the higher classes of learning." The building was begun in 1819, and on the 22nd of May in the year 1820 the corner stone was laid by the Earl of Dalhousie. On the 13th of January, 1821, an "Act to Incorporate the Governors of Dalhousie College at Halifax" became law. The original Board consisted of the Governor-General of British North America, the Lieutenant-Governor of Nova Scotia, the Bishop, the Chief-Judge, the President of the Council, the Treasurer of the Province, the Speaker of the House of Assembly, and the President of the College.

After unsuccessful efforts in 1822-4 and 1829-36 on the part of both the British Government and the Board of Governors to effect a union with King's College, at that time the only other existing in the Province, Dalhousie College went into operation in 1838, with the Rev. Thomas McCulloch, D. D., as President.

In 1841 an Act was passed conferring university powers upon the College, and vesting the appointment of the Governors in the Governor and Council. Two years later President McCulloch died, and in 1845 the College was closed, the Governors considering it "advisable to allow the funds of the institution to accumulate." From 1849 to 1859 the College funds were employed to support a High School. Toward the end of this period, in 1856, the Arts department of Gorham College, Liverpool, supported by the Congregationalists, was transferred to Dalhousie, "with a view to the furtherance of the establishment of a Provincial University," and for a short time an attempt was made to conduct the institution as a University under the Act of 1841.

The history of Dalhousie College as an institution realizing the purpose of its Founder may be dated from 1863. In that year the College was reorganized under an Act which empowered the Board

of Governors to grant to any body of Christians, or any individual, or number of individuals, the privilege of nominating a representative to the Board and a Professor, for every chair in the College supported by them to the extent of twelve hundred dollars a year. In consequence of this provision, the Presbyterian Church of Nova Scotia closed its academies at Truro and Halifax, and transferred the support of two chairs; and the Church of Scotland in Nova Scotia having no institution of its own, endowed another chair—the Chair of Mathematics. Thus strengthened, the College opened in the Autumn in 1863 with a staff of six professors, the Rev. James Ross, D. D., being President. At the death of the incumbents of the two chairs supported by it, the Presbyterian Church withdrew its support.

In 1859 Mr. George Munro, of New York, endowed the Chair of Physics, and in rapid succession Chairs of History and Political Economy, English Literature, Law, and Metaphysics. He also supported Tutorials in Classics and Mathematics and for ten years provided liberal exhibitions and bursaries. His significant gifts, aggregating about \$350,000, were at that time unparalleled in Canada.

In 1882 Mr. Alexander McLeod, of Halifax, left the residue of his estate, about \$55,000, to endow the three chairs now known as the McLeod Chairs of Classics, of Modern Languages and of Chemistry.

The purchase of the old College building by the City and the generous gift of \$30,000 by Sir William Young, for over forty years Chairman of the Board of Governors, led to the erection of a new building on Carleton St., the corner stone of which was laid by Sir William on the 27th of April, 1887. The gifts of Sir William Young to the College, subsequent to its reorganisation, exceeded \$68,000.

In 1890 Mr. John P. Mott, of Halifax, left a bequest of \$10,000 to the College.

In 1902 the University received \$2,000 under the will of Professor Charles Macdonald for a library endowment fund.

In the same year the Alumni began a movement to collect funds for the erection of a library building in memory of Professor Macdonald, and obtained contributions of \$15,000 for the purpose. The erection of this building was not begun until February, 1914, being delayed by a want of site for the University should be secured. The corner stone was laid by the Rev. Dr. Allan Pollock on April 29th. In the same year Professor Johnson left a number of his books and a bequest of \$1,000 to the library. In 1917 the library received a further endowment of \$1,000, the gift of President A. Ross Hill, of Missouri University, in memory of his deceased wife, nee Agnes Baxter, B. A. '91. In 1921 the late Mrs. Elsie Stewart Strathe bequeathed to the University \$1,500 as an endowment for the library in memory of her husband, Rev. R. G. Strathe, B. A. '93.

In 1912 a canvas for funds to pay for the purchase of the Studley estate which had been lately acquired as a new site for the University, and to erect the necessary new buildings and increase the endowment, brought in new subscriptions of about \$400,000. The new home of the University contains more than 40 acres and is

beautifully situated on a partly wooded eminence overlooking the North-West Arm. The corner stone of the first of the new buildings, the Science Building, was laid by H. R. H. the Duke of Connaught on Aug. 15th, 1912. Mr. Andrew Carnegie gave \$40,000 towards the erection of this building on condition that the University set aside a like amount for maintenance. The Science Building and the Macdonald Memorial Library were opened for occupancy in the fall of 1915. A stack, capable of accommodating 125,000 volumes, was added in 1921. In Jan., 1922, a building for the Law School was completed. It is to be used for a time as an Arts Building. The foundations of what is to be the permanent Arts Building have been laid, and a temporary building erected over them to serve as a gymnasium and examination and assembly hall.

Lient. George W. Stairs, B. A. '09, who fell at Langensack, bequeathed the sum of \$5,000 to the University.

By the will of Mr. Joseph Matheson, of Lower L'Ardoise, who died in 1915, the University received a legacy of \$15,000.

In 1916 Mr. John Macnah, a life-long friend to the University, died leaving two-thirds of the residue of his estate to the Board of Governors, a portion or all of it at their discretion to be devoted to the extension and maintenance of the library. The amount of this bequest was about \$90,000.

In 1917 Mr. and Mrs. George S. Campbell, by a gift of \$15,000.00 established a series of valuable scholarships, fully described on page 23.

In 1918 the late Senator William Dennis and Mrs. Dennis founded the Eric Dennis Chair of Government and Political Science in memory of their son Eric who gave his life for his country at the taking of Vimy Ridge. They made provision for giving to the University the sum of \$60,000, the interest on which was to be devoted to the payment of the salary of the occupant of the new chair and to the provision of scholarships and a gold medal in connection with the department.

In 1919 the one hundredth anniversary of the founding of the University was celebrated, having been delayed for a year by the war. As a memorial of this event a canvas was made during 1919 for a fund for endowment and buildings, to be called the Centennial Fund. This canvas was successful, and the contributions for general purposes amounted to \$43,000, and also the following amounts to be used for the specific purposes mentioned:—

Senator and Mrs. Dennis donated \$40,000 to be added to their previous gift, bringing the foundation of the Dennis Chair to \$100,000.

W. A. Black, Esq., of Halifax, contributed \$60,000 to endow a Chair of Commerce with special reference to seaborne commerce.

The late Mrs. E. B. Eddy, of Ottawa, made to the University a gift of \$300,000 to erect a Women's Building to serve as a residence and centre for the general interests of the women students. This was the largest single gift which the University had ever received. It was made in memory of Mr. and Mrs. Shireff, of Chatham, N. B., the parents of Mrs. Eddy, and the building is called Shireff Hall.

By the will of the late Mrs. Eddy, who died in 1921, the University receives to receive on the death of her sister \$350,000; the University receives also a share of the residue of the estate.

**Dalhousie University.**

In 1915, the Carnegie Corporation made a grant to the University of \$60,000 on aid in wiping out the deficits incurred by the University since the outbreak of the war, and also an annual grant of \$20,000 for five years to meet prospective deficits during that period.

In the same year R. B. Bennett, Esq., M. P., of Calgary, added to his many other generous gifts to his Alma Mater, the presentation of the house and grounds of the late Mr. E. P. Allison as a residence for the President of the University.

The Rockefeller Foundation and the Carnegie Corporation, both of New York, contributed \$500,000 each to the University for the furtherance of medical education. Their magnificent gifts make possible a medical centre of the first rank in the Maritime Provinces.

The British Empire Steel Corporation made a promise of a contribution of \$250,000 for the encouragement of scientific research to stimulate the development of the mineral and other natural resources of the Province.

A fund of £4,000 sterling, to be known as the "James Gordon MacGregor Memorial Fund," was provided by the New Glasgow relatives of Professor MacGregor. The object of the fund is to provide a Teaching Fellowship in Physics.

The Faculty of Medicine was organized in 1868, merged into the Halifax Medical College in 1875, and re-organized as an examining faculty in 1885. In 1911 the University purchased the property of the Halifax Medical College, and undertook the provision of instruction in all the subjects of the medical curriculum. After the removal of the Faculty of Arts and Science to Sydney in Sept., 1913, the Medical School was removed to the Forest Building, and the old Halifax Medical College vacated. The group of medical buildings has since been increased by the erection of the Medical Science Building, the Out-patient and Public Health Clinic and the Power House, all on the Medical Campus.

In 1924 Dr. D. A. Campbell and Mrs. Campbell endowed the Dr. D. G. J. Campbell Memorial Chair of Anatomy, in memory of their late son, a distinguished alumnus of this University.

The Faculty of Science was organized in 1877, and re-organized in 1911. In 1911 a School of Mines was established. An appeal for funds for the support of this department was made, and subscriptions were received to the amount of about \$60,000. In 1906 the Faculty was divided, the department of Pure Science uniting with the Faculty of Arts to form the Faculty of Arts and Science, and the department of Applied Science becoming the Faculty of Engineering. On the opening of the Nova Scotia Technical College in 1909, the Faculty of Engineering was discontinued.

The Faculty of Law was established in 1883.

The Faculty of Dentistry was organized in 1908, in affiliation with the Maritime Dental College, which, under the auspices of the Dental Association of the Province, provided instruction in the professional dental subjects. In 1912 the Dental College discontinued its work, and instruction in all subjects of the curriculum is now carried on by the Faculty of Dentistry.

In 1911 the Pharmaceutical Society of Nova Scotia received the co-operation of the University in establishing the Nova Scotia College of Pharmacy. The University placed rooms at its disposal and arranged with some of the members of the scientific staff to give

some of the instruction. In 1917 the Pharmaceutical Society of New Brunswick joined in the undertaking and the name was changed to the Maritime College of Pharmacy. The University offers the degree of B. Sc. to candidates fulfilling the necessary requirements.

A close association with King's College was entered into during the summer of 1923, whereby King's moved to Halifax and holds in abeyance its degree-granting powers, except in Divinity. The staffs of the two institutions are combined into a single faculty of Arts and Science, and the students of both institutions are combined for purposes of instruction (except that King's freshmen have classes by themselves in purely Arts subjects). King's retains its entire corporate organization, residential life and internal discipline. It is temporarily housed in University Hall on the North West Arm, until funds are raised wherewith to build the new King's College.

**Constitution.**

**The Board of Governors** is the supreme governing body of the University. Appointments to it are made by the Governor-in-Council on the nomination of the Board, or on the nomination, with the approval of the Board, of any body of Christians, or of any individual, or number of individuals, supporting a chair in the College. Any such body or individual is entitled to one representative Governor for each chair so supported. The Board has granted to the Alumni Association the privilege of proposing the names of three members of the Board. An Alumni Representative Governor must resign at the end of three years; he may be appointed to succeed himself; but he cannot hold office for more than six years continuously. On similar conditions, the Alumnae Association have the selection of one member of the Board. The Governors have the management of the funds and property of the College; the power of appointing the President, Professors and other officials, and of determining their duties and salaries; and the general oversight of the work of the University.

**The Senate** consists of the President and Professors. To this body are intrusted, by statute, the internal regulations of the University, subject to the approval of the Governors. All degrees are conferred by the Senate.

**The Faculties** consist of the members of the teaching staff in each of the four main domains of study in which courses can be pursued at the University, namely, Arts and Science, Law, Medicine and Dentistry. To them are intrusted by the Senate, subject to its approval, the supervision of the teaching, the preparation of regulations governing courses of study, and the recommendation of suitable candidates for prizes, scholarships, diplomas and degrees.

**Degrees and Courses.**

The Senate confers the degrees in courses of Bachelor and Master of Arts, Bachelor and Master of Science, Bachelor of Commerce, Bachelor of Music, Bachelor of Science in Pharmacy, Bachelor of Laws, Doctor of Medicine and Master of Surgery and Doctor of Dental Surgery. A course in Music for the diploma of Licentiate of Music is also prescribed.

### Dalhousie University.

The degree of Doctor of Laws may be conferred *honoris causa* in recognition of eminent literary, scientific, professional, or public services.

The various Faculties of the University provide the instruction required in the courses leading to the above degrees, except in Music and in Pharmacy. In Music instruction is provided in the literary and scientific subjects required, and the University recognizes as qualifying for a degree the instruction in professional subjects given by the Halifax Conservatory of Music or other approved institutions.

In Pharmacy the University provides instruction in pure science and recognizes the teaching in professional subjects of the Maritime College of Pharmacy or other approved institutions.

In Household Science the University offers a diploma to students who have completed two years of an Arts and Science Course and who have attended and passed in a recognized course in Household Science at the Halifax Ladies' College or other approved institution.

**Engineering Courses.**—Courses in Engineering are offered in the Faculty of Arts and Science. These courses extend over two or three years, and, if completed to the satisfaction of the Nova Scotia Technical College for the first two years of four years, courses in Civil, Mechanical, Electrical and Mining Engineering. A diploma will be issued to those completing the course satisfactorily.

**Public Health Nursing Course.**—In February, 1928, a course of six months' duration was instituted for graduate nurses intending to take up the work of Public Health Nursing. A certificate of proficiency will be issued to those completing the course satisfactorily.

**Affiliated Courses.**—By a proper selection of elective subjects in his course, a candidate may reduce by one year the time required for the degree of Bachelor of Arts and a professional degree in Law. Similarly a candidate for the degrees of Bachelor of Arts or Bachelor of Science may reduce by two years the time required for the combined degrees in Arts or Science and Medicine.

A candidate for the degree of Bachelor of Arts or Bachelor of Science may shorten by two years a subsequent course for a degree in Engineering.

**Privileges.**—The usual privileges of exemption from the Preliminary Examination granted to graduates of recognized universities by the learned professions in Canada and Great Britain are extended to this University.

The University of Oxford exempts from Responsions an undergraduate in Arts of this University who has passed in the subjects (including Greek) of the second or a higher year. A Bachelor of Arts with Honours is further exempted from four terms of residence. The Trustees of the Rhodes Scholarships exempt from the qualifying examination candidates who are exempted from Responsions by the University of Oxford.

Of the seven courses required by the University of Edinburgh for the degree of B. Sc. in Pure Science, three may be taken in this University; and of the seven courses required for the B. Sc. in Engineering, two may be taken in this University, subject to certain conditions.

### Equipment.

The University of London exempts Bachelors of this University from the Preliminary Examination leading to the LL. B. degree of that University.

Graduates in law of this University are admitted to the Bar of Nova Scotia without further examination and the Law School is on the registered list of the Regents of the State Board of New York.

The degree in Medicine from this University is recognized as entitling to the privileges usually granted to graduates in Medicine of Canadian Universities. Graduates of this University in Medicine and Surgery who hold the Licence of the Provincial Medical Board may, on application, be placed on the colonial List of the British Medical Register, and are eligible for admission to the licensing examination in the States of New York and Pennsylvania, and, the Medical School having been given the rating of Class A by the council on medical education and hospitalization of the American Medical Association, graduates enjoy all the privileges which this confers.

### Affiliated Institutions.

#### United Church College of Halifax.

**Principal** \_\_\_\_\_ Rev. Clarence Mackinnon, M. A., D. D., LL. D.

The classes and examinations in Hebrew I, and New Testament Greek I, conducted at this college are recognized as qualifying for the degree in Arts at the University. Arrangements have been made whereby students may reduce to six years the time required to take the degree of B. A. from the University and complete the divinity course at the Presbyterian College.

#### The Prince of Wales College.

**Principal** \_\_\_\_\_ S. N. Robertson, M. A., LL. D.

Students holding High Honour Diplomas of Prince of Wales College, of Charlottetown, P. E. I., are admitted to the Third Year of the B. A. Course in Dalhousie, those holding Honour Diplomas to the Second, those holding Certificates or First Class licences to the First Year.

#### Halifax Conservatory of Music.

**Director** \_\_\_\_\_ Mr. Harry Dean.

The University recognizes the teaching of the Conservatory as part of the qualifications required for the degree of Bachelor of Music and for the Diploma of Licentiate of Music.

#### The Maritime College of Pharmacy.

**Secretary** \_\_\_\_\_ Mr. G. A. Burbidge.

The University recognizes the teaching of the Maritime College of Pharmacy as part of the qualifications required for the degree of Bachelor of Science in Pharmacy.

#### Halifax Ladies' College.

**Principal** \_\_\_\_\_ Miss F. E. Blackwood, B. A.

Students who have completed the regular course and received the Matriculation Diploma are admitted to the Arts course without further examination. The University recognizes the teaching in Household Science as part of the qualifications for the diploma in that department.

**Convent of the Sacred Heart.***Mother Superior*

Madame Nasd.

Students who have completed the regular course and received the Diploma are admitted to the Arts course without further examination and may receive Advanced Standing in classes of the First and Second years for work done at the Convent.

**Mt. St. Vincent College.***Mother Superior*

Mother Bernhara.

Arrangements have been made whereby students from this institution may receive Advanced Standing in classes of the First and Second Years for work done at the College, and instruction in separate classes in the work of the Third and Fourth Years.

**Equipment.****Libraries.**

The University possesses a University Library, the Macdonald Memorial Library, open to all registered students, and the separate Law, Medical and Dental Libraries for the students and instructors in those Faculties.

The University Library was instituted in 1867, as the result of an appeal made by the Rev. George M. Grant, at Convocation. It contains 32,000 volumes and 5,000 pamphlets, selected primarily to meet the needs of students in the Faculty of Arts and Science.

When the Law Faculty was organized in 1883 it received a sumber of very generous contributions for a Library. Today the Law Library contains about 10,000 volumes, including all the law reports which a student will find it necessary to consult.

The Medical Library, containing about 18,000 volumes, received its real start by the gift of books and an endowment of £1,000 from Dr. C. Cogswell. It is open to all students and practitioners to any practitioner in the Province as well as to medical students.

Besides the libraries in the University, students may use, subject to certain conditions, the following libraries: The Science Library (61,000 volumes and pamphlets), the Legislative Library (24,000 volumes), the Citizens' Free Library (33,000 volumes), the Library of the Presbyterian Theological College (11,000 volumes), and the Nova Scotia Barristers' Society Library (38,000 volumes).

**The Museum.**

The Museum consists chiefly of the Thomas McCulloch, the Patterson and the Honeyman Collections.

The Thomas McCulloch Collection, presented by the late Rev. William McCulloch, D. D., of Truro, contains a large and valuable collection of birds, especially native species of the Maritime Provinces, besides many mineral, rock and fossil specimens, shells of recent mollusca, Indian implements, etc. The fossil specimens include a collection of European cretaceous fossils and of carboniferous fossils, chiefly Nova Scotian. The collection of birds is supplemented by the valuable collection made by Col. T. J. Egan, of Halifax, containing thirty cases of native birds.

The Patterson Collection of Indian antiquities was made by the late Rev. George Patterson, D. D., LL. D., F. R. S. C. and pre-

**Admission.**

sented by him to the University. It contains 250 specimens, catalogued and conveniently arranged for reference, including about 250 specimens relating to the aborigines of Nova Scotia.

The Honeyman Collection consists of the extensive geological collection made by the Rev. David Honeyman, D. C. L., F. S. A., for some years Professor of Geology in Dalhousie College, and was presented by Dr. Honeyman's relatives.

The collection of the Provincial Museum, illustrating the Geology, Mineralogy and Zoology of the Province, may be conveniently used by students.

**Laboratories.**

The Science Building is designed to be ultimately a chemical laboratory only, but for a number of years it will be divided between the departments of chemistry and physics. For a short time it will house also the departments of Geology and Engineering.

The Forrest Building on Carleton St. contains the laboratories conducted by the departments of Biology, Histology, Anatomy and Dentistry.

The new Medical Science Building on College St. contains the laboratories of the departments of Physiology, Bio-Chemistry, Pharmacology and Hygiene.

The Out-patient and Public Health Clinic building on Morris St. was opened in November of 1924. It marks the beginning of a new departure in the training of men for the practice of medicine. The Halifax Dispensary and Halifax Welfare Bureau have moved to this building and continue their activities from that centre. The Massachusetts-Halifax Relief Commission operates one of its three units from this building and the Victorian Order of Nurses uses it as a sub-station for certain of its activities.

**ADMISSION.**

Women are admitted to classes on the same conditions as men.

No person under sixteen years of age is admitted to any class except by special action of the Senate.

Students are classified as Graduate Students, Undergraduates, Matriculants and Special Students.

**Graduate Students** are students who hold a Bachelor's degree in Arts or Science and are pursuing a course in Arts or Science for a Master's degree.

**Undergraduates** are students who have completed Matriculation and are candidates for a Bachelor's degree in Arts or Science or a degree in a professional course. For details of admission to the professional courses see pp. 14-16.

**Matriculants** are students looking forward to a degree who have not completed Matriculation, but have sufficient subjects of Matriculation to their credit to enable them to have the classes which they may attend and pass recognized as qualifying for that degree. In the faculty of Arts and Science a Matriculant is one who has passed in English and in at least four other Matriculation subjects.

**Special Students** are all not included in one of the preceding groups. The classes attended by a Special Student are not recognized as qualifying for a degree.

Persons of good moral character may be admitted to certain classes as Special Students without formal examination, provided they are deemed qualified by the Committee on Admission to profit by the work of the class or classes selected. A person seeking admission as a Special Student, if under nineteen years of age, must submit evidence, such as a certificate from the school last attended, that he has a satisfactory knowledge of English and that his other acquirements and habits of study are such as should qualify him to profit by the work of the class or classes he wishes to enter.

#### Matriculation.

All candidates for a degree must satisfy the requirements for Matriculation, either by passing the Matriculation examinations of this University or by presenting certificates acceptable as equivalents.

The Matriculation examinations will be held at the University, and at such other places as the Senate may appoint, on Sept. 28th to Oct. 1st, 1926. For the timetable of the examinations see the University Almanac.

No fee is charged for a matriculation examination in September until after the student's second year of attendance.

Candidates for the Matriculation examinations must make application on a form to be obtained from the University Office.

*The last day for receiving applications for the examinations held at the University for the session of 1926-1927*

#### Requirements in Each Subject.

11

*is Saturday, Sept. 25th, 1926. Applications for examination at an outside centre should be made one month earlier.*

The Matriculation examinations are held in the following subjects, one paper each:

English	Geometry	French
British History	Trigonometry	German
Ancient History	Latin	Physics
Algebra	Greek	Chemistry

#### Subjects Required for each Degree.

The subjects of matriculation common to all degrees are:

- (1) English.
- (2) History (For Medicine and Dentistry  
this must be British History).
- (3) Algebra.
- (4) Geometry.

The remaining subjects are:

For the B. A., and LL. B. degrees,

- (5) Physics or Chemistry, (6) Latin or Greek,  
(7) another foreign language, (8) an elective.

For the B. Sc., and B. Mus. degrees,

- (5) Physics or Chemistry, (6) French, (7)  
German, (8) an elective.

For the B. Com. degree,

- (5) Physics or Chemistry, (6) and (7) two  
foreign languages, (8) an elective.

For the M. D., C. M. degrees,

- (5) Physics, (6) Chemistry, (7) Latin, (8)  
French or German or Greek.

For the D. D. S. degree,

- (5) Physics, (6) Chemistry, (7) Latin.

For the requirements for the Engineering Course see p. 45.

#### Requirements in each subject.

The requirements in each of the subjects specified above are as follows:

**English.**—Language; Grammar, analysis, parsing. Composition: An essay on one of several set subjects to be selected from—Macaulay: *Warren Hastings*; Seward Johnson: Shakespeare; *Merchant of Venice*; Julius Caesar; Longfellow: *Evangelist*; Scott: *The Lady of the Lake*; Stevenson: *Kidnapped*. Questions on the interpretation of a passage not specified, to test general intelligence.

**Note.**—The essential part of this examination is the essay. Legible writing, correct spelling and punctuation will be considered indispensable. Skill shown in sentence and paragraph construction will be awarded high marks. Not more than two of the works named need be read. They should be read primarily for the story, and need not be studied minutely, as a choice is allowed among at least six themes selected from the works named.

**British History.**—General outlines, as in *Ontario High School History of England*; or Tosti: *History of England, from the earliest times to the death of Queen Victoria*; or Bassano: *Short History of England*.

**Ancient History.**—General outlines, as in Webster: *Ancient History*; or Myers: *A short History of Ancient Times*.

**Algebra.**—Equations of the first and second degrees, indices, ratio and proportion, theory of quadratic equations, arithmetic and geometric progressions, permutations and combinations, as discussed in any high school algebra.

**Geometry.**—The straight line, triangles, quadrilaterals and pentagons in their relation to circles, including the subject matter of the first four books of Euclid, as discussed in any high school geometry.

**Trigonometry.**—Up to and including formulae relating to the sum and difference of two angles, the solution of equations and of right-angled triangles, as in any elementary trigonometry.

**Latin.**—The paper will contain, (1) passages for translation from prescribed books with questions arising out of those books; (2) easy passages for translation from books not prescribed; (3) questions on grammar, accidence, and elementary syntax; (4) translation of easy sentences from English into Latin.

The books prescribed are: Caesar: *Gallic War*, Book I.; and Vergil: *Aeneid*, Book I.

**Greek.**—As under Latin.  
The book prescribed is Xenophon: *Anabasis*, Book I.

**French.**—*Ontario High School French Grammar*, to the end of Lesson LXXXIII; Berthen: *Specimens of Modern French Prose* (Macmillan) omitting IV, VI, IX, X. Easy sight translation from French into English and from English into French.

**German.**—Joyce-Melmer's *Grammar* to end of Lesson XLIV; Buchheim: *Modern German Reader*, Part I; grammar questions limited to incidence and easy rules of syntax; easy sight translation from German into English and from English into German.

#### Certificates Exempting from Examination.

13

**Chemistry.**—Thermometer; barometer; gas laws and correction of volumes of gases for changes of pressure and temperature; specific gravity. The following elements and their simplest compounds: oxygen, hydrogen, chlorine and the halogens, sulphur, nitrogen, phosphorus, carbon, silicon, the principal metals. Fundamental laws. Meaning of formulas and equations. The extent of knowledge expected is such as may be gained from Evans' "Elementary Chemistry for High Schools," or other text book of similar grade, accompanied by a laboratory course of not less than seventy hours. Each candidate for examination must present a record of his laboratory work, neatly and legibly written, and duly certified to be the candidate's work by the teacher with whom the work was done. (See below).

**Physics.**—The candidate should have received instruction consisting of at least ninety hours of recitation and sixty hours of laboratory work. Such text-books as *The Ontario High School Physics and Laboratory Manual*, Gage's *Introduction to Physical Science*, and Mann and Twiss' *Physics* will indicate the grade of instruction required. The candidate is expected to make up a laboratory experiment distributed over the various parts of the subject, and to keep in a note-book a neat and orderly record of the same, described in his own words. This note-book bearing the certification of the instructor, must be presented for inspection along with the certificate or diploma submitted. (See below).

For 1926-1927 the laboratory requirement in Chemistry and Physics will not be insisted upon.

Instead of the authors and books in languages given above, a candidate, if he so desires, may be examined on others recognized as equivalents (except in the case of candidates for the Entrance Scholarships); but application for this privilege must be made at least two weeks in advance.

Candidates who pass in four or more subjects, but not in all, on any one occasion, will be given credit for such subjects; and may complete their Matriculation by passing the remaining subjects on any subsequent occasions.

#### Certificates Exempting from Examination.

Candidates who hold one or more of the following diplomas, licences or certificates will be exempted from the above examinations in such of the above subjects as were included in the examinations by which such diploma, licence or certificate was obtained, provided a sufficiently high standard was reached, and provided this standard was reached in four or more of the subjects required for Matriculation.

- (a) Certificates of Matriculation Examinations taken at recognized Universities;
- (b) High School Certificates of Grades XI or XII of Nova Scotia, and, in the case of History and Science, of Grade X.
- (c) Honour Diplomas, or Certificates entitling to a First Class Licence, as issued by Prince of Wales College, or a First Class Licence issued by the Education Department of Prince Edward Island;
- (d) Grammar School, or Superior (except in Latin), or First Class Licences of New Brunswick;
- (e) Equivalent Licences or Certificates issued by Education Departments of other Provinces;
- (f) Diplomas of the Associate Grade as issued by the Education Department of Newfoundland;
- (g) The Preliminary Examination Certificate of the Nova Scotia Barristers' Society; and similar Certificates of the Bar Societies of other Provinces and Colonies with equivalent standards;
- (h) Certificates similar to the above issued by University or other official examining bodies, when found adequate.

If a candidate gets credit for at least four of the eight subjects of Matriculation, either at the Matriculation examinations or on a single certificate, he may complete Matriculation either by examination, or by certificate, or by both.

**Candidates holding certificates which they wish to offer for exemption as above should forward them for appraisal as early as possible.**

#### Special Matriculation Regulations for each Faculty.

**Faculty of Arts and Science**.—A certificate of grade XI standard (or of grade X for History and Science) issued by the Education Department of Nova Scotia is treated as follows: Marks obtained in other than Matriculation subjects are not considered. The mark in a Matriculation subject is not considered unless it is at least 50 per cent. Subject to these restrictions the certificate will be accepted for the Matriculation subjects it covers in which the average of the marks obtained is at least 60 per cent., provided this average is reached in at least four subjects.

A minimum mark of 40 per cent. in a subject made in an examination for a certificate of grade XII standard will exempt from Matriculation in that subject. When such subject is divided in this certificate ex-

amination into two or more parts the average mark for such parts is taken as the mark to be considered.

In order to be admitted to a course in the Faculty of Arts and Science, a candidate must have credit for Matriculation in English and in at least four other subjects.

**Faculty of Law**.—In order to be admitted to the course in Law, a candidate must have completed Arts Matriculation, and must also present a satisfactory certificate of having attended and passed, at some degree-granting College or University recognized by the Senate for the purpose, at least ten regular classes of the course for the degree of Bachelor of Arts, comprising two classes in English, one class in Latin, one class in French or some other foreign language, one class in Mathematics, one class in English Constitutional History and any four classes to be chosen from the following—Latin, French or some other foreign language, History, Logic and Psychology, Economics, Political Science, Accounting, Chemistry or Physics, Surveying.

Students eligible for admission to advanced standing in the Faculty of Arts may be exempted from any of the foregoing classes, not exceeding five in number, for which they have received credit upon such admission and the aforesaid number of ten classes may be reduced accordingly.

**Faculty of Medicine**.—In order to be admitted to the course in the Faculty of Medicine a candidate must have complete Matriculation in Arts, including Physics, Chemistry and British History, and must have attended and passed in ten classes in the Faculty of Arts and Science, including two classes in English, Latin 1, another foreign language, History, Mathematics I, Chemistry 1A, Physics 1 and Biology 1A or must be exempted by certificate covering equivalent work done elsewhere. The course in Medicine is one of five years subsequent to such admission.

A person entering upon the study of Medicine for the purpose of qualifying himself to practise in the Province of Nova Scotia must also satisfy the Preliminary Requirements of the Provincial Medical Board, and have his name entered in the Medical Students' Register kept by the Board. These Preliminary Requirements are practically identical with the requirements of the University, but intending

students are advised to apply for information to the Registrar of the Board, Dr. W. H. Hattie, Halifax, N. S.

**Faculty of Dentistry.**—In order to be admitted to the course in the Faculty of Dentistry a candidate must have matriculation in Arts, in Latin, English, British History, Physics, Chemistry, Geometry and Algebra, and must have attended and passed in five classes in the Faculty of Arts and Science, including English 1, History, Chemistry 1A, Physics 1, Biology 1A or must be exempted by certificate covering equivalent work done elsewhere. The course in Dentistry is one of four years subsequent to such admission.

A student intending to practise his profession in Nova Scotia, in addition to satisfying the University Matriculation requirements, must register with the Provincial Dental Board.

#### Admission to Advanced Standing.

##### Admission of Non-Collegiate Students.

Students who hold a High School certificate of Grade XII of the Province of Nova Scotia, or certain certificates of similar grade from other provinces, may obtain credit for certain classes of the first year, and so shorten by a year the time required to complete a course for an Arts or Science degree. For the regulations concerning exemptions see under Faculty of Arts and Science, p. 33. See also the terms of affiliation with the Prince of Wales College, p. 7.

Students are admitted to advanced standing in any other Faculty only in accordance with the regulations for admission *ad eundem statum* below.

##### Admission *ad Eundem Statum*.

Students from other Universities desiring to enter classes in this University may, on producing satisfactory certificates, be admitted *ad eundem statum* in this University, if they are found qualified to enter the classes proper to their years. But if their previous studies have not corresponded to those they would have taken in this University for the course on which they propose to enter, they may be required to take additional classes. In no case, however, shall a candidate admitted to advanced standing be admitted to a degree in course in this University unless he has attended and passed in at least one year's work, and that the last year of the course.

Persons seeking admission *ad eundem statum*, must, in making application, submit certificates of good character and standing, with duly certified statements of their Matriculation, and of the classes attended and passed, with the grades attained; also calendars of the institution from which they have come of such dates as to show the courses which they have followed.

#### Admission *ad Eundem Gradum*.

A graduate of a University approved by the Senate, who has received his degree in course, may be admitted *ad eundem gradum* in this University on producing satisfactory evidence of good character and academic standing, and on payment of the required fee, provided the applicant is pursuing a course of study or research in this University, or is associated with the academic work of the University.

### UNIVERSITY REGULATIONS.

#### Registration.

All students of the University are required to enter their names in the Register annually, agreeing to obey all the regulations of the University already made or to be made, and to pay the required fees and deposits before entering any class or taking any examination. After registration and payment of fees a student is given a certificate, on presentation of which to the professors and lecturers whose classes he is entitled to attend, his name is entered on the class register.

#### Health.

All students entering the University for the first time are required to submit to medical examination by the Staff of the department of Medicine at the University Health Centre. Any student wishing to engage in competitive athletics must submit to such examination each session, which will determine the form of athletics in which he may engage. All students entering the University who cannot submit certificates of having been successfully vaccinated shall be required to submit to vaccination. They are required to attend a short course of lectures on personal hygiene. All students shall be given the privilege of receiving medical

examination, advice and treatment at the Health Centre, during the college sessions, free of charge.

#### Residence.

All students are required to report their place of residence to the University Office on or before October 21st.

Shirreff Hall, the Women's Building of the University, the gift of the late Mrs. Eddy, will accommodate about one hundred students. All women students not living with parents or guardians must live in residence, except in very unusual circumstances. Applications for rooms may be made through the Registrar's Office.

The dormitories of the United Church College of Halifax are usually available for students of Dalhousie University to the extent of the accommodation not needed by the United Church College for its Divinity students. For information and reservations application should be made to the Principal, United Church College, Halifax, N. S.

The Secretaries of the Men's and Women's Branches of the Student Christian Association will arrange to have someone meet at the train any student coming to Halifax for the first time, if notified in advance of the time of arrival, and will assist in finding boarding places. They can be addressed after September 15th in care of the University.

#### Church Attendance.

All students not residing with parents or guardians are required to report to the Office on or before October 15th the churches which they intend to make their places of worship during the session. Intimation will be made to the various clergymen of the city of the names and addresses of the students who have chosen their respective places of worship.

#### Discipline.

The Senate may use all means deemed necessary for maintaining discipline. It is the duty of the Dean of the University to see that order is maintained within the buildings and on the premises of the University.

Every professor or officer of the University is required to report to the Dean cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the University during the session, may be fined, suspended, or expelled from the University. Since the formation of the Council of the Students in 1911, that body holds an investigation and reports its finding to the Senate for action and may recommend penalties to be inflicted.

Irrregularity of attendance, except for approved reasons, or neglect of or unsatisfactory progress in studies shall be regarded as sufficient cause for dismissal from one or more classes, or, in extreme cases, from the University. Particular attention is called to the regulation number 7 on page 52 covering the case of students in the Arts and Science Faculty who fail at the Christmas Examinations.

No return of fees will be made to any student dismissed from classes or from the University.

#### Non-Academic Student Activities.

Students representing the University in all non-academic activities must be in good standing. Those who are ineligible for such representation are as follows:

- (a) Students on probation in any Faculty.
- (b) Students registered for less than ten lectures per week, a period of two laboratory hours being regarded for this purpose as equivalent to one lecture.
- (c) Students with more than two entrance conditions or more than two college conditions or more than three of both, as defined in the rules of the Maritime Intercollegiate Athletic rules.

#### University Library.

The Library is open during the session on every week-day, except Saturday, from 9 a. m. till 5 p. m., and on Saturday till 1 p. m.

Books, other than those on the reserved lists, may be taken out by instructors or students and kept for two weeks. They must then be returned to the library.

Books on the reserved lists may be taken out immediately before the closing of the library on any day, and must be returned when it opens on the following day.

Not more than two books may be borrowed at one time by a student not in an Honour course, nor more than four by a student taking Honours.

Students are allowed the privilege of borrowing books from the library for the summer. Students using this privilege are required to make a deposit with the University office. This deposit is returned when the books are replaced in the library.

#### **Caution Deposit.**

Each male student on registration is required to deposit two dollars as caution money to cover damage done to furniture, apparatus, etc. This amount, less deductions, if any, will be returned at the close of the session. There shall be no deduction from the Caution Fund for damages which have been charged to or assumed by individuals.

#### **Laboratory Deposit.**

A student taking a class involving laboratory work is required to make a deposit of two to five dollars, depending upon the class taken, on registration. This amount, or what remains of it after deducting any charges which may have been incurred for breakage or materials used, is returned to the student at the end of the session.

#### **Fee for Support of Student Organizations.**

At the request of the student body, as expressed by a ballot taken on the question and presented through the Council of the students, a fee not exceeding \$7.00 may be collected on registration from each student who takes more than one class. This fee entitles the student to the privileges of any or all of the following student organizations: Dalhousie Amateur Athletic Club, Dalhousie Skating Club, Delta Gamma Society, Dalhousie Dramatic Club, Sodales, and to a copy of the Dalhousie Gazette. A student taking only one class and desiring to take part in one or more of the above organizations must pay this fee.

#### **Students' Loan Fund.**

A Students' Loan Fund has been started by the gift of \$1,000 for the purpose from the Chronicle Publishing

Co., Limited, of Halifax. It is hoped that other donations will be made to increase the fund for this desirable purpose.

An application for a loan will be considered only from a student of Undergraduate standing who has attended the University for at least one year, has the approval of the Dean or corresponding university officer of his Faculty as to general academic standing, and is of good standing among his fellow students. The loan to any student shall not exceed \$100 in any one year, nor \$300 in total amount. Loans shall not bear interest until the beneficiary, or the class of which he was a member, has graduated; and it shall be repayable within one year from this graduation date.

The Alumnae Loan Fund for women students has been started by the Alumnae Association. Loans will be granted on terms similar to those outlined above. For further information apply to the President.

#### **Academic Costume.**

Undergraduates, Matriculants and Special Students attending more than one class are entitled to wear gowns at lectures and all meetings of the University. The forms prescribed are the Oxford undergraduate gown of black stuff with sleeves, and the black tunicer with tassel.

Graduates of the University shall be entitled to wear gowns and hoods of black stuff. The distinctive part of the costume is the lining of the hood, which for the various degrees is as follows:

- B. A.—White silk bordered with white silk.
- M. A.—Crimson silk.
- B. Sc.—White silk bordered with scarlet silk.
- M. Sc.—Scarlet silk.
- B. E.—White silk bordered with dark green silk.
- B. Mus.—White silk bordered with light red silk.
- B. B.—White silk bordered with gold coloured silk.
- C. Gen.—White silk bordered with light blue silk.
- M. D., C. M.—scarlet silk bordered with white silk.
- D. P. S.—Scarlet silk bordered with gold coloured silk.
- B. D.—Purple silk.

Doctors of Law shall be entitled to wear gowns and hoods of black silk.

### Conferring of Degrees.

Successful candidates for degrees are required to appear at Convocation in the proper academic costume to have the degrees conferred upon them.

By special permission of the Senate degrees may be conferred, in exceptional cases, *in absentia*. Written application giving reasons for the request must be made well in advance to the Secretary of Senate. For fee see Page 55.

### Prizes and Scholarships.

*The Senate reserves to itself the right of withholding Medals, Prizes and Scholarships, in cases in which sufficient merit is not shown.*

*The annual payment of any Scholarship or Bursary is made in two instalments, on October 15th and February 1st, the latter payment being conditioned on the holder having made satisfactory progress in his classes.*

(Open to Students in Arts and Science).

### Halifax City Free Scholarships.

The University offers each year to the Halifax Academy, to Bickford High School and to St. Patrick's High School for Girls, a scholarship entitling the holder from tuition fees to a maximum amount of \$900 per year. These scholarships are available for four years, conditional upon the scholar continuing a course in Arts or Science leading to a degree and reaching the grade of Distinction in at least two classes in each year. They are not payable during the year in which the holder is in receipt of another scholarship.

Candidates must have completed Matriculation, and reached a grade of scholarship represented by an average of 65 with no mark less than 30 on papers written in Grade XI examinations on Matriculation subjects, or the mark of Distinction on papers written in the Matriculation examinations, and must satisfy the Committee of Selection that they are deserving of financial assistance.

The University has the following funds available for scholarships to be awarded to candidates standing highest in the Matriculation and First Year Sessional Examinations:

**The Sir William Young Fund.**—This fund was left by Sir William Young for the purpose of endowing scholarships, and amounts to £4,000.

**The Mackenzie Bursary Fund.**—Mrs. Harriet Mackenzie Morrison, of Stromness, Scotland, daughter of Rev. Kenneth Mackenzie, of Pictou Co., bequeathed £1,000 to the University in 1887 to be used as a Bursary Fund.

**The University or Professors' Scholarships Fund.**—The University has set aside funds sufficient to produce an income of £600 per year for scholarships to take the place of those offered in the earlier days by individual professors who received their class fees as part of their salaries.

### Prizes and Scholarships.

**The George H. Campbell Memorial Scholarships Fund.**—In 1917 Mr. and Mrs. George S. Campbell gave the University the sum of \$25,000 to commensurate their only son, George Henderson Campbell, B. A. '15, who enlisted for overseas service during his senior year, and was killed while on duty at the front.

**The Robert Bruce Fund.**—The University receives one-seventh of the income received from a bequest of \$57,500 by Robert Bruce, of Quebec, to be used for bursaries and scholarships.

**The Khaki University and Young Men's Christian Association Memorial Scholarship Fund.**—This fund, amounting to \$6,500, was received from the trustees of the Khaki University to endow scholarships.

The income from these funds is applied as follows:

### Entrance Scholarships.

These Scholarships are nine in number, as follows:	
3 George H. Campbell Memorial Scholarships, of	\$200 each
2 Sir Wm. Young Scholarships, of	100 each
2 University Scholarships, of	100 each
* Mackenzie Scholarship, of	100
1 Bruce Scholarship, of	85

\* In the awarding of this Scholarship, candidates of the same of MacKenzie, MacLean or Fraser will be given the preference.

In order to be eligible a candidate must reach the grade of Distinction (55%) in the examinations named below, and otherwise satisfy all matriculation requirements, and must not have attended as a Matriculant or Undergraduate a recognized degree-granting College or University, and must intend to enter the Arts and Science Faculty of Dalhousie University. Candidates must not have been a candidate more than once before. In the award of the Scholarships, subject to the above conditions, one shall be assigned, each, to Halifax County,  
Cape Breton Island,  
Prince Edward Island,  
New Brunswick,

but not more than one shall be awarded to Halifax City and vicinity when other candidates are eligible.

The locality from which a candidate shall be considered as coming will be determined by the locality of the last High or Preparatory School attended; or, in the event of his having been educated beyond grade X by private tuition, by his usual place of residence.

The next award of these Scholarships will be made on the marks received in the following five subjects of the regular matriculation examinations held at Dalhousie University from September 28th to October 1st:

1. English. 2. Algebra. 3. Geometry. 4 and 5. Two of Latin, Greek, French, German. For the requirements in each subject, see p. 12. Applications to take the examinations must be made on forms to be obtained from the University Office.

These Scholarships are tenable for one year in the Arts and Science Faculty, and payable in two equal instalments, on October 15th and February 1st, the latter payment being conditional on the Scholar having made satisfactory progress in his classes.

The successful candidate for any one of these Scholarships may enter on Advanced Standing the classes of a higher year than the first (see p. 18), but he will not then be eligible for the First Year Scholarships described below.

#### First Year Scholarships.

These Scholarships are seven in number as follows:

3 George H. Campbell Memorial Scholarships, of	\$200 each
2 University Scholarships, of	\$100 each
*1 Mackenzie Scholarship, of	\$100
1 Bruce Scholarship of \$35.00 tenable, for three years....	235

\*In the awarding of this Scholarship, candidates of the name of MacKessey, MacLean or Fraser will be given the preference).

They are open only to Undergraduates who are just completing the first year of the course in Arts or Science, and are tenable for one year (except the Bruce Scholarship) and payable in two equal instalments, on October 15th and February 1st, the latter payment being conditional on the Scholar having made satisfactory progress in his classes.

They are awarded on the results of the Sessional Examination returns in the following classes: English 1, Mathematics 1 or 2, Chemistry 1 or LA or Physics 1 or 2, and any two of the four classes, Latin 1, Greek 1, French 1, German 1.

#### Second Year Scholarships.

**The Allan Pollock Scholarship.**—This scholarship has been instituted by the North British Society of Halifax, in memory of the Rev. Dr. Allan Pollock. It is of the value of \$300 and will be awarded annually without restriction as to age or nationality to the student standing the highest in the six classes which may be considered, constituting a normal second year course in Arts, namely, (a) English 2, (b) Latin 2 or Greek 2, (c) a class in Mathematics or Science, (d) a class in History, Economics, Philosophy or a foreign language, (e) another class. The scholarship can not be held along with the N. B. Centennial Bursary, the Jetham Blanchard Bursary or the Charitable Irish Society Scholarship. It will be tenable in the third year of the Arts course.

**The North British Society Centennial Bursary.**—A Bursary, of the annual value of \$100, founded by the North British Society of Halifax, will be awarded biennially. Candidates must be undergraduates in a course in Arts or Science who are just completing "two years of residence, and must satisfy the test of general eligibility for membership in the North British Society. The Bursary will be awarded to the candidate standing highest in the examinations in any five classes selected by himself from the following: (a) English 2, (b) two from Latin 2, Greek 2, French 2, German 2, (c) two other classes. It is tenable for two years, namely, during

\*For students who have been admitted by certificate to the second year residence for "1920."

the third and fourth years of residence. The next award will be made in May, 1923.

**The Jetham Blanchard Bursary.**—This Bursary, of the annual value of \$50, being the interest of an endowment of \$1000, founded by the New Glasgow Literary and Historical Society in memory of Jetham Blanchard, an honoured name in the annals of Pictou County, will be awarded biennially on the same academic conditions as the North British Society Centennial Bursary. It is tenable during two years, namely during the third and fourth years of residence. The next award will be made in May, 1927.

**The Charitable Irish Society Scholarship.**—A Scholarship of the annual value of \$100 to be awarded biennially was established in 1919, by the Charitable Irish Society of Halifax. The Society has under consideration some proposed changes in the method of award, and due notice will be given of any change made. Hitherto the regulations have been the following: Candidates must be undergraduates in a course of Arts or Science who are just completing two years of residence, and must be in the judgment of the Society, of genuinely Irish descent. The scholarship shall be awarded to that candidate who shall have been admitted by the Senate of the University to an Honours Course for the degree of B. A., or in the event of more than one such candidate being available, to that candidate whose university standing is highest. In the event of such persons being applicants for this scholarship it shall be awarded to the candidate whose university standing is highest in the examinations of any five classes selected by himself or herself from the following: (a) English 2, (b) one from Latin 2, Greek 2, French 2, German 2, Spanish 2, (c) one in Mathematics, Physics, Biology or Chemistry, (d) one from Philosophy 1, History 1, Economics 1, (e) one other class. It is tenable for two years, namely, during the third and fourth years of residence.

The next award will be made in May, 1928.

**Commercial Club Scholarships.**—The Commercial Club of Halifax has offered two scholarships of \$100 each to the students of the second and third years of the course in Commerce who have attained the highest standing in their respective classes.

**The Bruce Bursary.**—A bursary of \$100 tenable during the third year of the Arts and Science course will be awarded to a student "of promising abilities but of straitened circumstances."

#### (Other Undergraduate Prizes).

**The Waverley Prize.**—This prize, of the value of \$40, being the interest of an endowment for the purpose, will be awarded annually to the student standing highest in Mathematics 3, his standing in Mathematical classes previously taken in the University being taken into consideration.

**The Studley Quoit Club Prize.**—This prize, of the value of \$50, is offered by the Studley Quoit Club for the encouragement of the study of Greek and Latin. It will be awarded annually to the student making the highest aggregate in Greek 2 and Latin 2, provided first class standing is obtained in each class.

**The Khaki University Scholarships.**—These scholarships of the value of \$100 each, two in number, will be awarded to third year

students in Arts and Science to be held during their fourth year. The award is based on scholastic attainments but preference is given to men or women, who have served overseas, or to their children.

**The Katherine Buttenshaw Prize.**—This prize, being the interest of an endowment of \$1000 for that purpose, will be awarded annually to the student standing highest in Mathematics 5 or 7.

#### Graduation Prizes.

*To be eligible for a medal a candidate must attain a standard considerably above that required for high honours.*

**The Governor-General's Gold Medal,** offered by His Excellency the Governor-General of the Dominion of Canada, will be awarded to the student who stands first among those taking High Honours in the department of Classics. In the event of its not being awarded in this department, it may be awarded in the department of Latin and English, or in that of Greek and English or in some other department.

**The Sir William Young Gold Medal,** founded by bequest of the late Sir William Young, will be awarded on graduation to the student who stands first among those taking High Honours in Mathematics.

**The Eric Dennis Gold Medal,** founded by Senator William Dennis and Mrs. Dennis, will be awarded on graduation to the student who stands first among those taking High Honours in Government and Political Science.

**University Medals** of bronze will be awarded on graduation to students who take High Honours in departments in which a gold medal is not available.

**The Avery Prize.**—This prize, of the value of \$20, being the interest of a sum of money bequeathed for this purpose by J. F. Avery, M. D., will be awarded on graduation to the student standing highest among those graduating with Distinction.

**The Eric Dennis Foreign Scholarship,** of a value not less than \$250, founded by Senator William Dennis and Mrs. Dennis, will be awarded on graduation to the student standing highest in the department of Government and Political Science, provided he attains a sufficiently high standard, who obliges himself to pursue at least one year of post-graduate study in the same department of another University approved by the Senate.

(Open to all Students).

**The Halifax Overseas Club Essay Prize.**—This prize, of the value of \$55, being the interest of a fund of \$1,000 given by the Halifax Overseas Club, will be awarded annually. It will be offered for the best answer to some question, historical or critical, relating to the place of the Overseas Dominions in the British Commonwealth. For further particulars address the President.

**The W. H. Dennis English Prize; The Joseph Howe Prizes for Poetry and the James DeMille Prizes for Prose.**—These prizes, established by W. H. Dennis, Esq., of the value of \$200 each for a first prize and \$100 each for a second prize, will be offered annually. For the regulations address the President.

#### The Rhodes Scholarship.

This scholarship of the annual value of £300 for three years is awarded annually. For circulars and further information apply to Prof. J. E. Read, Secretary Committee of Selection.

#### 1851 Exhibition Science Research Scholarships.

These scholarships, of the value of £200 sterling a year, are tenable for two to three years inclusive. They are open to students of not less than three years standing who have shown evidence of capacity for original research, and are tenable at any university or other institution approved by the Commissioners. For particulars address the President.

#### Daughters of the Empire Bursary.

This bursary of the annual value of \$250.00, is tenable for four years at any university in Nova Scotia and is open to the sons and daughters of deceased or permanently disabled soldiers and sailors. One is available for each Province each year.

Full information can be obtained by writing to the Head Office of the Order for Canada, 238 Bloor Street East, Toronto, Ont. (The holder of this bursary is granted exemption from class fees to the extent of \$25).

(Open to Graduates).

#### The James Gordon MacGregor Memorial Fellowship in Physics.

This Fellowship of the value of \$300 is awarded annually to a graduate of this or other University. The holder of the Fellowship is required to give twelve hours per week to teaching work in the department of Physics.

#### Daughters of the Empire Post-Graduate Overseas Scholarship.

This scholarship was founded by the Imperial Order, Daughters of the Empire, as part of the war memorial of the Order. Nine are offered annually—one for each Province. They are of the value of \$1,400, are tenable for one year and have been founded "to enable students to carry on studies at any university in the United Kingdom, in British and Imperial history, the economics and government of the Empire and Dominion, or any subject vital to the interests of the Empire." For further information apply to the Head Office of the Order.

# Faculty of Arts & Science

## General University Regulations.<sup>†</sup>

University regulations applicable to the students of all Faculties and relating to registration, residence, church attendance, discipline, etc., will be found on p. 17, *et seq.*

### Academic Year.

The Academic Year consists of one session of about thirty-two weeks' duration. The session of 1926-27 will begin on Tuesday, September 28th, 1926, and end on Tuesday, May 17th, 1927.

### Degrees and Courses.

Courses are prescribed leading to the degrees of Bachelor of Arts (B. A.), Master of Arts (M. A.), Bachelor of Science (B. Sc.), Master of Science (M. Sc.), Bachelor of Music (B. Mus.) and Bachelor of Commerce (B. Com.) and to the Diploma of Licentiate of Music (L. Mus.). A course in Engineering, extending over two or three years, is prescribed for students who look forward to subsequently completing a course in Civil, Mechanical, Electrical or Mining Engineering at the Nova Scotia Technical College, or other technical institution. A diploma is given for successful completion of this course.

A diploma is offered also for the successful completion of a course in Household Science.

The courses for the degrees of Bachelor of Arts and of Science extend over four years. Candidates for these degrees may either follow the corresponding Ordinary course, or, if they have obtained a sufficiently high standing in the work of the first two years, may in their third year enter upon a course leading to the degree of Bachelor of Arts or of Science with Honours.

<sup>†</sup>It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this Calendar are intended for the current year only, and that the Faculty does not hold itself bound to adhere absolutely to the curriculum and conditions now laid down.

### Ordinary Course of Bachelor of Arts.

29

The degree of Bachelor of Arts or of Science with Distinction is awarded to a student who obtains a sufficiently high standing in the classes of the Ordinary course. See page 34.

The degree of Master of Arts or of Science is given for the successful completion of an approved course of graduate work extending over at least one year. See page 44.

The course of study for the Diploma of Licentiate of Music extends over two years, and that for the degree of Bachelor of Music over three years. See page 47.

### Ordinary Course for Bachelor of Arts.

The Ordinary course of study prescribed for the degree of Bachelor of Arts consists of the following twenty classes:

- (i) Two classes in either Latin or Greek.
  - (ii) Two classes in one, not already chosen, of the following languages: Latin, Greek, French, German, Spanish.
  - (iii) Two classes in English.
  - (iv) History 1, Philosophy 1, Mathematics 1 or 1C.
  - (v) One class in either Physics or Chemistry.
  - (vi) One class in Physics or Chemistry or Biology 1 or Geology 1.
  - (vii) Latin 3 or Greek 3 or French 3 or German 3 or Economics 1 or Political Science.
  - (viii) Eight other classes, selected from the following list, such that of the twenty offered for the degree at least four must be taken in one subject and at least three in each of two others.
- |                     |                   |              |
|---------------------|-------------------|--------------|
| Latin               | Economics         | Geology      |
| Greek               | Political Science | Biology      |
| Biblical Literature | Philosophy        | Physiology   |
| French              | Mathematics       | Histology    |
| German              | Music             | Embryology   |
| Spanish             | Mechanics         | Bacteriology |
| English             | Physics           | Biochemistry |
| Archaeology         | Chemistry         | Neurology    |
| History             |                   |              |

For details of subjects studied in the above classes see Courses of Instruction, p. 56, *et seq.*

Latin 1, Greek 1, French 1, German 1 and Spanish 1, are not recognized as part of a course for a degree unless the corresponding second class is subsequently taken.

An advanced or Honour class may be taken as an elective by students who are not in an Honour course, if approved by the Faculty.

Lists of the elective classes chosen by students must be submitted for approval not later than Wednesday, October 13th, 1926.

#### Affiliated Courses.

An undergraduate looking forward to the study of Divinity, Law, Medicine, Engineering or Commerce may offer one of the following groups in place of three of the eight electives required above:

**A. For Divinity.**—By an arrangement with the United Church College of Halifax, the classes in New Testament Greek and Hebrew conducted in that institution can be offered for the three electives referred to above by students intending to go forward to the study of Divinity there.

By an arrangement with King's College, Halifax, the class in New Testament Greek and two of the following three classes, Hebrew, Biblical Literature and Ecclesiastical History, conducted by the Divinity Faculty of that institution, can be offered for the three electives referred to above by students intending to go forward to the study of Divinity there.

**B. For Law.**—Any four classes of the First year in Law.

**C. For Medicine.**—Anatomy 1 and Practical Anatomy 1, Histology, Embryology, History 2 A.

**D. For Engineering.**—Drawing 1, Drawing 2, Mechanics 3, 4.

**E. For Commerce.**—Accounting 1, Accounting 2 or Commercial Law, Marketing, Business Organization.

Students whose course has included Physics 1, 20, Chemistry 1A, 2, 4, Biology 1A, and the subjects of Group C may complete a subsequent course in Medicine at this University in four years.

An undergraduate who elects group D, and also includes in his course the other classes common to it and the course in Engineering, and who takes Surveying, Drawing 3 and Mechanics 5 as extra classes, may complete the subsequent work for a degree in Engineering in two years.

Graduates who have passed in the classes of Group E, may complete a subsequent Commerce course in this University in two years.

#### Order of Classes.

The classes of a course may be taken in any order, subject to the regulations regarding admission to classes (page 50). The following schedule in which the classes are arranged in years shows the order recommended for undergraduates; but students who intend to take one of the *Affiliated Courses*, or to enter an *Honour Course*, or to be eligible for *First or Second Year Scholarships*, should consult the Registrar early in their course about the right order of classes for the purpose.

#### First Year.

1. Latin 1, or Greek 1.
2. One, not already chosen, of Latin 1, Greek 1, French 1, German 1, Spanish 1.
3. English 1.
4. Mathematics 1 or 1C.
5. Chemistry 1, or History 1, or Physics 1 or 2.

#### Second Year.

1. The language chosen as class 1 in the first year.
2. The language chosen as class 2 in the first year.
3. English 2.
4. Philosophy 1, or History 1.
5. A class in one of the following: Mathematics, Physics, Chemistry, Economics, Political Science.

## Third and Fourth Years.

The remaining required classes and elective classes from the subjects specified on page 29.

## Ordinary Course for Bachelor of Science.

The Ordinary course of study prescribed for the degree of Bachelor of Science consists of the following twenty classes:

- (i) Two classes in English.
- (ii) One in each of the following: Mathematics (including Drawing 1B), Physics, Chemistry, Biology or Geology, French, German.
- (iii) Two classes selected from the departments of Languages, History, Economics, Political Science and Philosophy.
- (iv) Ten other classes, such that of the twenty offered for the degree at least four shall be taken in one Science (including Mathematics), at least three in another Science and at least three in Mathematics or English or a third Science.

An advanced or Honour class may be taken as an elective by students who are not in an Honour Course, if approved by the Faculty. Lists of the elective classes chosen by students must be submitted for approval not later than Wednesday, October 13th, 1926.

## Affiliated Courses.

An undergraduate looking forward to the study of Engineering may offer the classes of Group A below instead of four of the electives required from Group (iv) above:

A. For Engineering.—Drawing 2 and 3, Surveying, Mechanics 3, 4 and 5.

An undergraduate who elects group A and also includes in his Science course the other classes common to it and the course in Engineering, may complete the subsequent work for a degree in Engineering in two years.

## Admission to Advanced Standing.

An undergraduate looking forward to the study of Medicine may offer the subjects in Group B below for three of the electives in Group (iv) above:

B. For Medicine.—Anatomy 1 and Practical Anatomy 1, Histology, Embryology, History 2A.

Students whose course has included Physics 1, 20, Chemistry 1, 2, 4, Biology 1A, and the subjects of Group B, may complete a subsequent course in Medicine at this University in four years.

C. For Pharmacy.—By arrangement with the Maritime College of Pharmacy, classes in Pharmacy, Materia Medica and Dispensing may be offered for three classes in Group (iv) above, by those pursuing the study of Pharmacy.

Such students must include among their electives Physiology 1 and Bacteriology 1; they shall be exempted from the requirement in Drawing.

## Order of Classes.

The classes of a course may be taken in any order, subject to the regulations regarding Admission to Classes (page 50). The following schedule in which the classes are arranged in years shows the order recommended for undergraduates; but *students who intend to take one of the Affiliated Courses, or to enter an Honour Course or for first or second year Scholarships, should consult the Registrar early in their course about the right order of classes for the purpose.*

## First Year.

1. French 1.
2. German 1.
3. English 1.
4. Mathematics 1 (including Drawing 1B).
5. Physics, or Chemistry 1.

## Second Year.

1. English 2.
2. An elective.
- 3, 4, 5. Three Science classes.

## Third and Fourth Year.

The remaining required classes and elective classes from the subjects specified.

## Admission to Advanced Standing.

Students may enter the University on Advanced Standing, that is, be given credit for certain classes of

the first year, and thus have the opportunity of completing a course for a degree in Arts or Science in three years, as follows:

A student entitled to Matriculant or Undergraduate standing in Arts or Science, who presents one of the certificates specified below, will be given credit, after completing a subsequent class in the same subject, or, in the case of Mathematics 1, a Science class, for such classes in the following list, not exceeding five in number, as the certificate warrants:

**Latin 1, Greek 1, French 1, German 1, English 1, Mathematics 1.**

A candidate will be allowed Supplementary examinations in the subjects required to complete five classes provided the certificate shows a mark of at least 30 per cent. in such subjects and the candidate has credit for the corresponding Matriculation subjects. No credit shall be given for certificates obtained subsequent to registration in the University for the first time. The certificates to which these provisions apply are the following:

- (a) High School Certificate of Grade XII of Nova Scotia;
- (b) Honour Diploma, as issued by the Prince of Wales College, P. E. I.;
- (c) Grammar School Licence of New Brunswick;
- (d) Diploma of the Senior Associate Grade, as issued by the Education Department of Newfoundland;
- (e) Equivalent Certificates issued by Education Departments of other Provinces.

The above privilege of taking Supplementary examinations on certain subjects of the first year, granted to the holders of specified certificates, may be granted also to other candidates who in the opinion of the Committee on Admission have equivalent qualifications.

**Degree of Bachelor with Distinction.**

The degree of Bachelor of Arts or of Science with Distinction will be conferred on undergraduates for special excellence shown in the classes of the Ordinary

\*The standard required is 80 per cent. in each subject. For Mathematics an aggregate of 100 is required in the three subjects of Algebra, Geometry and Trigonometry.

course. The award of such degree is based upon the Class Distinctions (page 53) gained by candidates; and not only are the number and grade of such Distinctions considered, but also the extent and character of the work by which they have been gained.

The total number of classes in which distinction may be attempted is eight, of which two may be taken in the second year and three in each of the third and fourth years.

Students taking more than 25 hours per week (lectures and laboratory) will not be admitted to read for distinction in any class.

No distinction work will be offered in Latin 1, Greek 1, French 1, German 1, Spanish 1, English 1, Chemistry 1, Physics 1, 2, Mathematics 1, 1C.

Candidates for Distinction are advised to consult the Registrar with respect to the selection of classes.

**Degree of Bachelor with Honours.**

An undergraduate who has passed in at least nine classes of the Ordinary Arts or Science course with sufficient credit is allowed to restrict his attention during his third and fourth years to a more limited range of subjects than that prescribed for the Ordinary course, by entering an Honour course.

A candidate for admission to an Honour Course must obtain the permission of the Faculty, which will in ordinary circumstances be granted only to students who have attained a high standing in the classes preliminary to the Honour course selected (see statement of Honour courses below); and the candidate should, accordingly, plan his course so as to take these preliminary classes during his first two years.

Before graduation he must have passed in the following classes: (a) Two in each of two foreign languages, of which, in Arts, Latin or Greek must be one. (b) Two in English. (c) One in Mathematics. (d) One in Physics or Chemistry.

In all cases the number of classes required for the degree shall not be less than twenty.

Honour courses are provided in the following departments: (i) Classics, (ii) Latin and English, (iii) Greek and English, (iv) English and English History, (v) History and Economics or Political Science, (vi) Philosophy (vii) Mathematics, (viii) Physics, (ix) Chemistry, (x) Geology and Geological Chemistry. Undergraduates in Arts may enter any of these courses for which they are eligible. Undergraduates in Science may enter any of the last five courses for which they are eligible.

An undergraduate who enters upon an Honour course in any of the above departments must take the advanced classes in the department chosen and certain other classes specified below in the requirements for the individual courses, and is required to make satisfactory progress in these classes. He may select the remaining classes of his course, if he is an undergraduate in Arts, from any of the subjects of the Ordinary course in Arts, and if an undergraduate in Science, from any of the subjects of the Ordinary course in Science, the choice in each case being subject to the approval of the Faculty.

The examinations in the subjects of an Honour course are held at the end of the last year of the course.

A candidate for Honours may defer his examination in the subjects of his course until a year after he has passed the examinations in the Ordinary subjects of the fourth year; in which case, however, such candidate shall not be entitled to his degree until he has passed the examination of such Honour course.

Successful candidates will be declared to have obtained their degrees with Honours, with High Honours, or with High Honours and a Medal.

#### Honour Courses.

##### I. Classics.

**Preliminary Classes.**—Latin 1 and 2, and Greek 1 and 2.

Candidates taking the Honour Course in Classics are required to take Latin 3, 4, 5 and 6 and Greek 3, 4, 5 and 6 in their third and fourth years, and sufficient elective classes to complete the total of twenty classes required for a degree. The special Honour examinations

#### Honour Courses.

37

will be on the following subjects; but the standard of attainment shown in Latin 3 and 4 and Greek 3 and 4 will be considered in the final award.

##### Latin.

**A.** Candidates will be required to have a critical knowledge of the following works, in addition to those prescribed in the ordinary course:—

Plautus: *Capitoli, Miles Gloriatus, Terence: Adelphi, Phormio, Vergili: Georgics, I, IV, Herac: Egisto, I, II; Art Pastore, Juvenal: Satires, III, V, X, XII, Cicero: De Officiis, I, Philippic, I, II; Pro Caelio, Luy: XXI, XXII, Tacitus: Annales, I, II; Agricola, Fliny: Letters, Bks. I-III,*

##### B. Composition.—Translation from English into Latin prose.

**C. Literature.**—A general knowledge of the history of Latin literature with a more minute knowledge of the lives and writings of the authors prescribed. (Mackail: *Latin Literature*, Cruttwell: *History of Roman Literature*).

**D. Translation at Sight.**—Passages from Latin books not prescribed will be set.

##### Greek.

**A.** Aeschylus: *Eumenides, Prometheus Fictus, Septedies: Ajax, Oedipus Rex, Aristophanes: Frogs, Knights, Homer: Odyssey, V-VIII, Thracylides, II, III; Plato: Republic, I-IV, Demosthenes: De Corone, Aristotle: Poetics,*

##### B. Composition.—Translation from English into Greek prose.

**C. Literature.**—A general knowledge of the history of Greek literature, with a more minute knowledge of the lives and writings of the authors prescribed. (Jebb: *Primer of Greek Literature, Introduction to Homer*, Makaffy: *History of Greek Literature*, Haigh: *Attic Theatre*).

**D. Translation at sight.**—Passages from Greek books not prescribed will be set.

##### II. Latin and English.

**Preliminary Classes.**—Latin 1 and 2, and English 1 and 2. Prospective candidates are strongly recommended to take two classes in German.

Candidates taking the Honour Course in Latin and English are required to take Latin 3, 4, 5 and 6 and English 3, 4, 5, 6 and 7 in their third and fourth years, and sufficient elective classes to complete the total of twenty classes required for a degree. The special

Honour examinations will be on the following subjects; but the standard of attainment shown in Latin 3 and 4 and English 3, 4 and 5 will be considered in the final award.

#### *Latin.*

The Latin prescribed for the Honour course in classics.

#### *English.*

The historical development of the language and literature to the year 1300. Bright: *Anglo-Saxon Reader*. Stever: *O. E. Grammar* (trans. by Coski), Pt. II. Meritt: *Specimens of Early English*, I. Emerson: *History of the English Language*. Sight reading of Old English.

History of the Elizabethan and Early Stuart Literature.—Sidney: *A Defence of Poesie*. Hooker: *Ecclesiastical Polity*, Book I. Bacon: *A dvancement of Learning*, Essays.

Marlowe: *Tamburlaine*, *Edward II*, *The Jew of Malta*. Greene: *Private Papers and Private Passions*. Jonson: *The Alchemist*, *Few Men of Honor*. Beaumont and Fletcher: *Philaster*, *The Knight of the Burning Pestle*, *Masque of a New Way to Pay Old Debts*. Webster: *The Duchess of Malfi*. Shakespeare: *Venus and Adonis*, *Romeo and Juliet*, *Julius Caesar*, *Hamlet*, *Othello*, *Lear*, *Macbeth*, *Antony and Cleopatra*, *Coriolanus*, *Timon*, *The Two Noble Kinsmen*.

**Books recommended**—Sidney, Cook's edition (Ginn & Co.); Webster, *Church History*; Bacon, *Advancement*; Wright (Carr, Penn), *Essays*, Wright, *Alchemist*; Fletcher, *Philaster*, *Burnt Pestle*, *New Way* (Longman, Green & Co.); Marlowe, Temple Dramatist, *Selus Letters*, and other editions of Elizabethan works.

### III. Greek and English.

For the requirements in this course read "Greek" for "Latin" in the above course.

### IV. English and History.

**Preliminary Classes.**—English 1 and 2 and History 1. Prospective candidates must arrange to take these classes during their first two years if they desire to complete the work for a degree in four years.

Candidates taking the Honour Course in English and History are required to take English 3, 4, 5, 6 and 7, and History 2, 3, 4 and 5 and any special Honour class in History offered, in their third and fourth years, and sufficient elective classes to complete the total of twenty

classes required for a degree. The special Honour examinations will be set on the following subjects; but the standard of attainment shown in English 3, 4 and 5 and History 2, 3, 4 and 5 will be considered in the final award.

#### *English.*

The English subjects prescribed for the Honour course in Latin and English.

#### *History.*

The History subjects prescribed for the Honour course in History, and Economics or Political Science. (See below).

### V. History and Economics or Political Science.

Candidates desiring to take the Honour course in these departments and to complete the work for a degree in four years must take the preliminary classes in each department in their first two years. They are required to take a minimum of four additional courses in each department and any special Honour classes offered, in their third and fourth years; and in addition to the required classes they must have taken during their course sufficient elective classes to complete the total of twenty classes required for a degree. The special Honour examinations will be set on two groups of the following subjects; but the standard of attainment shown in the other classes taken in the two departments will be considered in the final award.

**Preliminary Classes.**—History 1, 2, Economics 1 or Political Science 1.

#### *History.*

Four subjects from the following groups, but not more than two from any one group.

A. 1. A Period in Greek History.

2. A Period in Roman History.

B. 1. A Period in English History prior to 1603.

2. A Period in English History since 1603.

**Faculty of Arts and Science.**

- C. 1. A Period in Medieval European History.  
 2. A Period in Modern European History.  
 3. Another Period in Modern European History.  
 D. 1. Canadian History to 1763.  
 2. A Period in Canadian History since 1763.

**Economics.**

**A. Economic Theory and its History.**—Adam Smith: *The Wealth of Nations*. David Ricardo: *Principles of Political Economy*. J. S. Mill: *Principles of Political Economy*. Alfred Marshall: *Principles of Economics*. J. B. Clark: *The Distribution of Wealth*. J. A. Hobson: *Wage and Wealth*. F. W. Taussig: *Wages and Capital*.

**B. Money and Banking.**—Marshall: *Money, Credit and Commerce*. Fisher: *The Purchasing Power of Money*. Hawtrey: *Currency and Credit*. Nicholson: *Money and Monetary Problems*. Walker: *Money, Exchange*. Compton: *Modern Banks of Issue*. Clark: *A, B, C of the Foreign Exchanges*.

**C. Public Finance.**—Bastable: *Public Finance*. Seligman: *Essays in Taxation*. T. H. Innes, T. R. Jones: *Nature and First Principles of Taxation*. Ashby: *Modern Tariff History*. Nicholson: *Principles of Political Economy*, Vol. III.

**D. Labour Legislation.**—Jevons: *The State in Relation to Labour*. Commons and Andrews: *Principles of Labour Legislation*. Kingsbury: *Labour Laws and their Enforcement*. Hutchins and Harrison: *A History of Factory Legislation*. Keeling: *Child Labour in the United Kingdom*. Eastman: *Work, Accidents and The Law*. Seager: *Social Insurance*. Andrews: *Minimum Wage Legislation*. Downey: *Workers' Compensation*. Frey: *The Labour Inspection*.

**Political Science.**

Four subjects from the following groups, but not more than two from any one group.

- A. 1. Greek Political Thought.  
 2. Political Thought of the Middle Ages.  
 3. Modern Philosophy of the State.  
 B. 1. Government of England.  
 2. American Government.  
 3. Municipal Government.  
 C. 1. Advanced International Law.  
 2. Great Congresses and Treaties from Westphalia to Versailles.  
 3. History and Practice of Diplomacy.

**Honour Courses.****VI. Philosophy.****Preliminary Class.**—Philosophy 1.

Candidates taking the Honour course in Philosophy are required to take Philosophy 2, 3, 4, 5, 6, 7 and 8 and any special Honour classes in Philosophy offered, in their third and fourth years, and sufficient elective classes to complete the total of twenty classes required for a degree. The special Honour examinations will be set on the following subjects; but the standard of attainment shown in Philosophy 2, 3, 4, 5, 6, 7 and 8 will be considered in the final award.

**A. Logic.**—Welton: *Manual of Logic* (2 vols.). Mill: *System of Logic*. Joseph: *Introduction to Logic*. Bradley: *Principles of Logic*.

**B. Psychology.**—Klemm: *A History of Psychology*. Rand: *The Classical Psychologists*. Watson: *Behavior: An Introduction to Comparative Psychology*. Psychology from the Standpoint of a Behaviorist. MacDougall: *Body and Mind*. Ward: *Psychological Principles*.

**C. Metaphysics.**—Taylor: *Elements of Metaphysics*. Bradley: *Appearance and Reality*. Bergson: *Time and Free Will*.

**D. Ethics.**—Mackenzie: *Manual of Ethics*. Moore: *Principia Ethica*. Sidgwick: *Methods of Ethics*, and *History of Ethics*. Green: *Pragmatism to Ethics*. Randall: *Theory of Good and Evil*.

**E. History of Modern Philosophy.**—Locke: *Essay on the Human Understanding*. H. V. Berkeley: *Principles of Human Knowledge*, *New Theory of Vision*, *Dialogues between Hylas and Philo*. Hume: *Inquiry into Human Nature*. Kant: *Critique of Pure Reason*, to the end of the Transcendental Dialectic.

**F. History of Greek Philosophy.**—Comper: *Greek Thinkers*. Adam: *Religious Teachers of Greece*. Plato: *Republik*, I-III, V, VI, VII. Aristotle: *Ethics*, I-III, VII, X.

**VII. Mathematics.****Preliminary Classes.**—Mathematics 1, 2, 3 and 4, and Physics 1, or 2 and 3.

Undergraduates taking the Honour course in Mathematics are recommended to take German and Physics 1, or 2 and 3 in their first and second years. They are required, if they wish to complete the work for a degree in four years, to take in their third and fourth years four advanced classes in Mathematics, and four

classes in Physics or Mathematical Physics approved by the department of Mathematics for that purpose.

The special Honour examinations will be set on the following subjects:

#### Pure Mathematics.

Any four of the following:

- (a) Infinitesimal Calculus;
- (b) Plane and Solid Analytic Geometry;
- (c) Differential Equations;
- (d) Algebra (Determinants, Theory of Equations, Quantics, Invariants, Series, Functions of a real variable);
- (e) Projective Geometry.

#### VIII. Physics.

**Preliminary Classes.**—Mathematics 1, 2, 3 and Physics 2 and 3.

Undergraduates taking the Honour course in Physics are recommended to take German, Physics 2 and Mathematics 1 and 2 in their first year and Physics 3, Chemistry 2 and Mathematics 3 in their second year. They are required, if they wish to complete the work for a degree in four years, to take in their third and fourth years at least eight classes in Physics, Mathematics, Mathematical Physics and Chemistry.

The Special Honour examinations will be set to test (1) the student's general knowledge of the more elementary parts of the subject, (2) his grasp of the more advanced parts of the subject which have been taken up in lectures and (3) his ability to work up some part of the subject without the aid of lectures.

#### IX. Chemistry.

**Preliminary Classes.**—Chemistry 1, 2 and 4, Physics 1, Mathematics 1, 2, 3. Two classes in German are recommended.

In order to complete this course in four years, it is necessary to take Mathematics 1, 2, 3, Physics 1, Chemistry 1, 2 and 4 in the first and second years; and Physics 4, 5 and 10, Chemistry 5, 6, 7, 8 and 9 or 10 in the third and fourth years.

Candidates for High Honours will be expected either to prepare a thesis embodying the results of a

short original investigation, or to show special attainments in some branch of laboratory work, as special branches of analysis, or the preparation of organic compounds. The standard of attainment shown in Physics 4 and 5 (Distinction courses), Physics 10 and Chemistry 5, 6, 7, 8 and 9 or 10, will be considered in the final award.

The special Honour examinations will be set on the following subjects:

A. **Inorganic and Physical Chemistry.**—Mellor: *Modern Inorganic Chemistry*; Ostwald: *Principles of Inorganic Chemistry*; Waller: *Introduction to Physical Chemistry*; Washburn: *Physical Chemistry*. Selected portions of LeBlanc's *Text-book of Electro-Chemistry* and of Ten-books of *Physical Chemistry*, edited by Sir William Ramsay. The requirements in Physical Chemistry are in large part covered by the class-work of Chemistry 6.

B. **Organic Chemistry.**—Holleman: *Organic Chemistry*, Cohen: *Organic Chemistry* (selected chapters); Porter: *The Carbon Compounds*.

C. **Chemical Theory.**—The development of chemical theory as treated in Chemistry 5 with the prescribed supplementary reading. Candidates are required to have a thorough knowledge of the following memoirs: Graham: *Researches on the Aromatic, Phosphatic and Modifications of Phosphoric Acid* (Aberdeen Club Reprints, No. 10); Liebig and Wöhler: *Ueber das Radikal der Benzoesäure* (Ostwald's Klassiker, No. 22); Liebig: *Ueber die Constitution des organischen Stoffes* (Ostwald's Klassiker, No. 26).

D. **Laboratory Methods.**—The principles and methods of analysis and of the preparation of inorganic and organic substances, as in Chemistry 7, 8 and 10, including Distinction work.

#### X. Geology and Geological Chemistry.

**Preliminary Classes.**—Geology 1, Physics 1, Chemistry 1 and 2, and Biology 2 and 3, or 1A.

Prospective candidates are recommended to take German.

The special Honour examinations will be set on the following subjects:

- (a) General Geology;
- (b) Mineralogy;
- (c) Petrography;
- (d) Economic Geology;
- (e) Geological Chemistry.

**Master of Arts and Master of Science.**

A candidate for the degree of Master of Arts or Master of Science must hold the corresponding Bachelor's degree from a College or University recognized by the Senate for the purpose, and have held it for at least one year, and be of good character and standing. The course of study for the degree shall be confined to one subject or two closely related subjects, and must be submitted to, and receive in advance the approval of the Faculty of Arts and Science. The course shall consist of work in advance of that given in the ordinary undergraduate classes; but some of the more advanced undergraduate classes may be a part of it, provided these have not been part of the work of the candidate for the Bachelor's degree. At least three undergraduate classes must already have been taken in the main subject offered and distinction must have been obtained in the last two classes so taken. The course shall comprise work amounting to not less than that of five classes, and designed to occupy the candidate's time for not less than forty hours per week for a session, class attendance and time spent on preparation being included. The work may be done wholly or in part by private reading by graduates of Dalhousie University, for whom attendance at the University is not necessary; all other candidates must be in residence. When work done extra-murally is offered for the degree two years must have elapsed, after approval of the candidate's application, before the examinations for the Master's degree can be taken. In announcing the award it shall be stated whether the course was taken in residence or extra-murally.

The course of study for the Master's degree shall be arranged for each candidate by the department chiefly concerned, due consideration being taken of the candidate's preparation, needs and aims. In case of deficient preparation for what the department regards as proper graduate work, prerequisite undergraduate classes may be prescribed, but such classes shall not count as part of the work for the degree.

An essay or thesis may be required of the candidate. When required, it shall be regarded as forming one-

fifth of the full course of study and should occupy one fifth of the candidate's time for the session. This restriction, however, shall not apply to the departments of Physical Science. Theses must be sent to the Secretary of the Faculty on or before the first of March.

An undergraduate who, at the beginning of a session, has fewer than five classes to complete in order to obtain the Bachelor's degree, may be permitted, with the approval of the Faculty, to take not more than two advanced classes with a view to including such class or classes in a subsequent course for the Master's degree.

A candidate for a Master's degree must complete the entire work of his course before being admitted to any examinations for the degree, and the time over which such examinations may extend shall not exceed a fortnight. A student failing in any one of the examinations is required to repeat all examinations. The pass mark shall be fifty per cent. in each subject. Examinations shall be held ordinarily at the time of the Spring examinations; but in special circumstances, they may be held in the Autumn. Candidates must give one month's notice to the Secretary of the Faculty of their intention to appear for examination, and the fee must accompany the notice.

**Uniform Course for all Branches of Engineering.**

This course is intended for students who look forward to taking a degree in Civil, Electrical, Mechanical or Mining Engineering. It covers the requirements prescribed for admission to the courses for a degree in Engineering in the Nova Scotia Technical College, or to entrance into the third year of other engineering institutions. A Diploma is given for successful completion of the course.

In order to complete the course in two years the student must have ordinary Arts matriculation in English, History, Algebra, Geometry, Physics or Chemistry, a foreign language, and one other matriculation subject, preferably Trigonometry; and must enter with advanced standing (satisfactory grade XII or Senior matriculation) in English, Mathematics and a foreign

language; and must take and pass in the following classes:

**First Year.**—Mathematics 2 and 4, Physics 2, Chemistry 1A, Drawing 1 and 2, Shopwork.

**Second Year.**—Mathematics 3, Physics 3, Mechanics 2, 3, 4 and 5, Surveying, Drawing 3, a second class in a foreign language or History 1 or Economics 1.

For those entering without advanced standing, that is, with ordinary Arts matriculation, the course is one requiring three years, namely:

**First Year.**—English 1, Mathematics 1, Chemistry 1A, Drawing 1, French 1 or German 1 or Latin 1, Shopwork.

**Second Year.**—Mathematics 2, 4, Physics 2, Drawing 2, Surveying, another class in a foreign language, or History 1 or Economics 1.

**Third Year.**—Mathematics 3, Physics 3, Mechanics 2, 3, 4, 5, Drawing 3.

The course in Shopwork, of about three weeks duration immediately preceding the regular session, is given by the Nova Scotia Technical College in its own work shop.

The Surveying Camp conducted under the auspices of the Nova Scotia Technical College on the grounds of the Agricultural College, Truro, must be attended by all students taking the class in Surveying.

Students intending to take a degree in Mining Engineering, should add Geology 1 to the course prescribed above in the third year.

Engineering students may obtain the degree of B. Sc. by taking certain Arts classes in addition to those specified above, see page 32.

#### Course for Bachelor of Commerce.

The course of study prescribed for the degree of Bachelor of Commerce may be completed in four years, and consists of the following classes:

**First Year.**—French 1 or German 1 or Spanish 1, English 1, Mathematics 1C, Economics 1, Economic Geography, Accounting 1.

**Second Year.**—French 2 or German 2 or Spanish 2, English 2, History 1, Accounting 2, Biology 1 or Chemistry 1 or Physics 1, Marketing and Distribution.

**Third and Fourth Year.**—Philosophy 1, French 10 or German 10 or Spanish 10, Business Organization,

Economics 2, Commercial Law, Business Correspondence, Money and Banking, Labor and Trust Problems, Corporation Finance and Investment, three other classes in Commerce, thesis or supervised work at the discretion of the Department requiring six hours a week.

#### Degree of Bachelor of Music.

The course for the degree of Bachelor of Music may be completed in three years. Candidates for the degree may be students of the pianoforte, or organ, or violin, or voice. Candidates are required to pass the examinations in the subjects of the course, to submit the prescribed compositions, and to satisfy the examiners of their proficiency as musical performers by passing the prescribed practical tests. In addition, before proceeding to the examinations of the final year they must have completed Matriculation and must have satisfied the department of Modern Languages that they have a good reading knowledge of French and German.\*

The examinations in theory are the same for candidates in all branches of music.

#### Examinations.

The examinations are arranged in three groups or years. The examinations in any one group may be taken in a single year, and a candidate must have passed in all the subjects of a given group or year before proceeding to the examinations of the following one. The papers shall be set in accordance with the following schedule:

##### First Year.

1. Harmony in not more than four parts.
2. Analysis of Harmony.
3. Strict Counterpoint in two and three parts.
4. History of Music from the beginning of the Christian era down to 1750.
5. English 1.

##### Second Year.

1. Harmony in not more than five parts.
2. Strict Counterpoint in three and four parts.

\*To meet this requirement candidates are advised to read carefully six hundred pages of French and four hundred pages of German, of a varied character, in addition to the amount of reading required for Matriculation.

3. Double Counterpoint in the octave and two parts.
4. Canon and Imitation in two parts.
5. Fugue as far as subject and answer.
6. History of music since 1750.
7. English 2.

**Third Year.**

1. Strict and Free Counterpoint in not more than five parts.
2. All forms of Double, Triple and Quadruple Counterpoint; Canons and Imitation in two, three and four parts.
3. Strict and Free Fugue in not more than five parts.
4. Analysis of Form.
5. Acoustics, in its relation to the Theory of Music.
6. Orchestration.
7. Analysis of a Full Orchestral Score.

The University provides instruction in English, Acoustics, French and German. Instruction in the professional subjects may be obtained at the Halifax Conservatory of Music, or other institution recognized for this purpose by the Senate.

Candidates for examination must make application in accordance with the Regulations for Courses in Music. (See below).

**Practical Tests.**

The Practical Tests are held only at the time of the corresponding examinations, and an application for examinations is considered as an application for the practical tests also. The practical tests of each of the three years are those given in detail in the calendar of the Halifax Conservatory of Music. A certificate of having passed the practical tests of the first year in an approved institution may be accepted, but those of the second and third years must be taken at this University.

**Compositions.**

Candidates shall compose the following exercises, which are to be submitted at or before the final examinations for the degree:

- (a) A solo song with pianoforte accompaniment.
- (b) A four-part vocal composition.
- (c) An instrumental composition (other than a dance) for pianoforte, organ, or other stringed or wind instruments, with pianoforte accompaniment.

**Diploma of Licentiate of Music.**

The Diploma of Licentiate of Music in Pianoforte, or Organ, or Violin, or Voice, will be granted candidates who complete two years of the course for the degree of Bachelor of Music by passing the examinations and practical tests of the first and second years.

**General Regulations for Courses in Music.**

Candidates for any examination must have passed Matriculation in English (see p. 12).

Candidates who present certificates from a recognized institution of having attended approved courses of instruction in the subjects of the first year, and of having passed examinations on them accepted as equivalent to those of this University and of having satisfied the corresponding practical tests set by that institution may be exempted from the examinations and practical tests in the subjects of the first year. The examinations and practical tests of the second and third years must be taken at this University.

Candidates who hold the Diploma of Licentiate of Music of this University are exempted from the examinations and practical tests of the first and second years of the course for the degree of Bachelor of Music.

The regular examinations are held in April. Supplementary and Special examinations are held in September only. (See University Almanac).

Candidates for any examination must make application to the Secretary of the Faculty of Arts and Science not later than March 25th, the application being accompanied by the proper fee (see p. 55) and by certificates of having attended approved courses of instruction in the professional subjects of the examinations and of having satisfactorily completed the work of such courses.

**COURSES IN PHARMACY.****Degree Course.**

Students of Pharmacy may obtain the degree of B. Sc. by taking certain classes in the Faculty of Arts and Science in addition to the classes in the purely Professional subjects. See page 34.

**Other Pharmacy Courses.**

The Maritime College of Pharmacy, with the co-operation of some members of the staff of the University offers two other courses in Pharmacy, a Short Course for Pharmacy Clerks, and a Qualifying Course required of those who desire to become Registered Pharmacists in Nova Scotia, and a special course for those who desire to become Registered Pharmacists in New Brunswick. These courses are carried on in the University buildings, and the students are subject to University regulations and discipline.

The Short Course for Pharmacy Clerks is intended to prepare the student for the Certified Clerks Examination of the Nova Scotia Pharmaceutical Society. It is expected that students will have a general education at least equal to that of Grade IX. Attendance on this course is prerequisite to the Qualifying Course.

The Qualifying Course begins on Saturday, Oct. 2nd, 1926, and ends with the University session. The course which covers two years and includes Chemistry, Botany and Microscopy, Materia Medica, Pharmacy, Prescriptions and Dispensing and Economics, is designed to prepare the student to pass the final licensing examinations of the N. S. Pharmaceutical Society. It is necessary that students shall meet the University matriculation requirements prescribed for a degree in Medicine.

The Special course, suitable for New Brunswick students, covers one year and includes the subjects required for the Final Pharmacy Examinations of that Province. Students must have passed the "General Subjects" Examination of the N. B. Board of Pharmacy Examiners. This course begins Sept. 2nd, 1926.

For the calendar of the Maritime College of Pharmacy, and for all information, address G. A. Burbidge, Forrest Building, Halifax, N. S.

**General Faculty Regulations.****Admission to Classes.**

1. Candidates for a degree must pass the Matriculation examinations (pp. 11-14). Only those classes which a student attends as an Undergraduate or Matri-

culant are recognized as qualifying for a degree in Arts or Science. In order to be a Matriculant in this Faculty the student must have passed Matriculation in English and at least four other subjects of Matriculation.

2. A Matriculant pursuing a course for a degree in Arts or Science and wishing to finish this course in four years should complete his Matriculation before entering the classes proper to the second year of his course. Thereafter until Matriculation is completed such student shall not be permitted to attend more than four classes in any one year.

3. A Matriculant deficient in more than one subject of Matriculation shall not be admitted to more than four classes of a course for a degree.

4. A Matriculant deficient in one of the required foreign languages, whose preparation in this language has not covered any considerable part of the work prescribed for Matriculation, shall not be admitted to more than three undergraduate classes; and if deficient to a similar extent in the two required foreign languages, he shall not be admitted to more than two undergraduate classes. The Committee on Admission may, however, at their discretion, waive this regulation in the case of a student whose standing in the other subjects of Matriculation is high.

5. Classes are to be taken in the order of their advancement; and the class or classes specified under Courses of Instruction (p. 56 *et seq.*) as preliminary or prerequisite to a given class must be taken before such class. No undergraduate or matriculant shall be admitted to a class until he has passed the preliminary class or classes or other preliminary qualifications required.

6. Five classes shall be regarded as constituting a normal year's work for a student in good standing. Students seeking admission to six classes must make written application to the Committee on Studies, furnishing reasons in support of their application. No student who has failed in any class of his course in the

\*For the purpose of this regulation five classes shall be regarded as constituting a year.

preceding year of his attendance shall be admitted to more than five classes.

7. Students shall not be permitted to continue during the second term in more than two of the classes in which they have failed at the preceding Christmas examinations, and if they have failed in more than two-thirds of their classes their work during the Session shall not be recognized as qualifying for a degree and they shall be advised and, in extreme cases, may be required to discontinue attendance at the University for the remainder of the Session.

#### Class Work and Attendance.

In order that their class work may be recognized as qualifying for a degree or diploma, candidates must conform to the following requirements:

1. All students are required to attend the classes of their prescribed course regularly and punctually.
2. They must appear at all examinations, prepare such essays, exercises, reports, etc., as may be prescribed and, in case of a class involving field or laboratory work complete such work satisfactorily.
3. They must secure positions on the Pass List. In determining this list both the standing attained in prescribed class exercises and in field or laboratory work and that in the various examinations are taken into consideration. A candidate who fails to obtain a mark of at least 20 per cent. on the work of the session in any class shall lose credit for attendance in such class.
4. When the work of a student becomes unsatisfactory or his attendance irregular he will be reported to the Committee on Studies who may require him to discontinue attendance in the class or classes concerned and to be excluded from the examinations.
5. A candidate taking an affiliated course must, in the case of classes taken in another Faculty, conform to the regulations of such Faculty and must secure a position on the pass list in accordance with such regulations.

#### Sessional and Class Examinations.

In all classes other than purely laboratory classes two examinations, at least, are held, the Christmas examinations, immediately before the Christmas vacation, and the Spring examinations, after the close of lectures in the Spring. Other examinations in any class may be held at dates appointed by the instructor. The papers set at the Spring examination in any subject cover the work of the whole session in that subject, and not merely the work of the second term, and at least 25 per cent. of the questions shall be set on the ground covered before Christmas.

#### Ordinary and Distinction Class Lists.

The names of candidates successful in the ordinary examinations are arranged in the published lists in order of merit in each class. In some classes (See page 34) additional work consisting of private reading, essays, reports, field or laboratory work, is prescribed for students who aim at Class Distinction. In such classes extra examinations are held in this additional work at the end of the session, and the award of distinction is based upon the ordinary and the additional work of the class.

Class Distinctions are of two grades, First and Second Class; but candidates who attain a standing considerably above that required for First Class will be indicated as having obtained a High First Class.

Names are arranged in the lists in order of merit in each grade.

#### Supplementary and Special Examinations.

A student who fails to secure a position on the Pass List in a class, but who has otherwise fulfilled the requirements in class work stated on page 52, may be allowed the Supplementary examination in such class at the beginning of the next session of his attendance, on the day appointed in the University Almanac. A student who fails to appear at or to pass the Supplemen-

tary examination can only get credit for that class by passing a "Special examination therein."

Supplementary or Special examinations in any class shall in all cases cover the whole work of the session in that class, and not merely the work of the first or second term.

Supplementary and Special Examinations are held in September only.

No award of Class Distinction is made on the results of a Supplementary or Special examination.

A student wishing to appear as a candidate at a Supplementary or Special examination, shall be required to give notice of his intention to the Secretary of the Committee on Studies and Attendance on or before August 23rd, the fee (see p. 55) to be remitted with the notice.

#### Fees.

*All Fees and Deposits are payable in advance, and until these are paid the student will not receive credit for attendance upon any class, nor be admitted to any examination.*

#### For Registration.<sup>†</sup>

Payable by students taking only one class in the University.....	\$3.00
Payable by students taking more than one class.....	5.00
Additional, payable by all students registering after 12 noon, on last regular registration day, for each day.....	2.00

#### For Tuition.

For each class not involving work in laboratory or draughting room.....	\$ 18.00
*For each class involving work in laboratory or draughting room.....	23.00
For students taking one of the regular engineering courses the maximum annual tuition fee will be.....	125.00
For each tutorial M. A. class.....	2.00
For changing course of study after October 13th, charge for adding or substituting a class.....	1.00

\*Students who have failed in one or more classes should carefully note that any examination taken subsequent to the supplementary examination held in September of the next session of their attendance is a Special examination. The standard required to pass a Special Examination is considerably higher than that required for other examinations.

Students who register only for the purpose of taking examinations are exempt from the payment of this fee.

<sup>†</sup>See Laboratory Deposit, p. 29.

These charges are the same whether the class is attended for all or part of the year.

A class taken a second time is charged for as if taken for the first time, except as stated below.

Up to and including October 13th, a student may retire from a class for which he has paid, and his class fee will be refunded; but if he retire after that date, his fee will not be refunded, except as stated below.

If a student is compelled to withdraw from college before December 1st through illness or for some other equally valid reason, one-half of his tuition fees will be refunded. If for like reasons he is compelled to withdraw between that date and February 1st, he will be allowed to take his classes a second time at half rates.

No return of fees will be made to any student dismissed from classes or from the University.

#### For Examinations.

*An application for Examination must be accompanied by the proper fee.*

Matriculation examination at an outside centre.....	\$ 5.00
Each Matriculation examination after second year of attendance.....	4.00
Each Supplementary examination in Arts or Science.....	2.00
Each Special Examination in Arts or Science.....	4.00
Examination for the Degree of B. Mus., First Year.....	10.00
" " " " " Second Year.....	12.00
" " " " " Third Year.....	20.00
" Diploma of L. Mus., First Year.....	10.00
" " " " " Second Year.....	15.00
Each Supplementary examination in Music or Pharmacy.....	5.00
Examination for the degree of M. A. or M. Sc.....	10.00
Ditto, at an outside centre.....	20.00

#### For Certificates and Diplomas.

*An application for a Certificate or Diploma must be accompanied by the proper fee.*

Certificate under the University seal.....	\$ 1.00
†B. A. or B. Sc., or B. Com. or L. Mus. or Engineering diploma.....	5.00
†B. Mus. or Pharm. B. diploma.....	10.00
†M. A. or M. Sc. diploma.....	20.00
All random graduation diplomas.....	10.00

Additional fee for any degree conferred is classified..... \$ 0.00

See Pages 20 for

Fees for Support of Student Organizations.

Caution Deposit.

Laboratory Deposit.

<sup>†</sup>Payable before the final examination, and refundable in case of failure.

## COURSES OF INSTRUCTION.

## I. Classics.

*Professors* ..... Howard Murray (*Head of dept.*), E. W. Nichols.  
*Associate Professor* ..... A. K. Griffin.  
*Lecturers* ..... J. W. Falconer, J. W. Legan.

## Latin.

**Elementary Latin.**—*Tuesday, Thursday and Saturday, 11—12 a. m., and another hour to be determined after the class is formed.*

This class is intended for beginners in the language, and for those whose work has been insufficient to qualify them for admission to Latin I. Students whose work throughout the session has been satisfactory will be admitted to a Matriculation examination in Latin, held in April.

As it will not be possible to cover in class all of the reading required for Matriculation, students intending to qualify for the above examination must do a considerable part of the reading by private work, and must be prepared to devote much more time to the subject outside of class hours than is required in the ordinary undergraduate class.

The first book to be used will be *Collar & Davy's First Year Latin*, (Ginn & Co., Boston). Other books will be announced at the beginning of the session.

1. *Tuesday, Thursday and Saturday, 10—11 a. m., or Monday, Wednesday and Friday, 12—1 p. m.*

Pre-requisite.—Matriculation Latin.

*Cicero: In Catilina II and IV; and in Asinius IV;* Vergil: *Aeneid*, Book IV. Latin Grammar. Latin Prose Composition. Exercises in Sight Translation.

## Archaeology.

*Monday and Wednesday, 8:30-4:30 p. m.*

This course, conducted by Professor J. W. Falconer, consisting of about thirty lectures accompanied with illustrations, will give an outline of the history of ancient sculpture, painting, architecture and the minor arts. The introductory lecture will be devoted to Egyptian and Assyrian Archaeology, while the major part of the course will deal with Greek and Roman antiquities.

Text Books: Fowler and Wheeler: *Greek Archaeology.* Wickhoff: *Roman Art.* Farnell: *Handbook of Antiquity.* Marquart: *Parthian Archaeology.* Gardner and Jones: *Handbook of Greek Archaeology.* Anderson and Spiegel: *Archaeology of Greece and Rome.* W. M. Ramsay: *Studies in the History and Art of the Eastern Roman Provinces.* Baldwin Brown: *The Fine Arts.*

## Introduction to Philology.

*Two hours per week. Hours to be assigned.*

Prerequisites.—Two years of Latin or Greek, and at least one year of another foreign language.

This course, conducted by Dr. E. W. Nichols, aims to furnish (1) an outline picture of the history of scholarship; (2) an elementary knowledge of the methods, problems and results of philological investigation. The course is conducted by means of lectures and assigned readings. Reading for distinction will be assigned early in the session.

\*For private reading by students seeking First or Second Class Distinction.

## Courses of Instruction.

## II. New Testament Greek.

Prerequisite.—Greek 1.

The class and examination in New Testament Greek conducted by Professor J. W. Falconer, in the United Church College of Halifax, and those conducted by Prof. T. H. Hunt in the Faculty of Divinity, King's College, are recognized as qualifying for a degree for those taking the affiliated course for Divinity. Similar classes in other theological colleges approved by the Faculty are also recognized for the same purpose.

## III. Hebrew.

The class and examination in Hebrew, conducted by Professor H. A. Kent, in the United Church College, of Halifax, and those conducted by Professor T. H. Hunt in the Faculty of Divinity, King's College, are recognized as qualifying for a degree for those taking the affiliated course for Divinity. Similar classes in other theological colleges approved by the Faculty are also recognized for the same purpose.

## IV. Modern Languages.

Professor ..... René Castelot,  
Associate Professor ..... C. H. Mercer, R. W. Scott.

Pre-requisite.—Economics I.

Text Book: Lotte: *Public Finance*.

**Books Recommended:** Brash: *Public Finance*. Seligman: *Essays in Taxation*. Pinto: *Introduction to Public Finance*. Stango: *The Principles of Taxation*. Ballock: *Selected Readings in Public Finance*.

- 6. Economic Statistics.**—(1927-28). Tuesday and Thursday, 9-10 a. m.

Pre-requisite.—Economics I, Matriculation Mathematics.

**Books Recommended:** Jensen: *Statistical Method*. W. L. King: *Elements of Statistical Method*. Venetia: *An Introduction to the Theory of Sampling*. Lewis: *Elements of Statistics*. Bertrand: *Introduction to Statistical Methods*. Victory: *Index Numbers*. Mitchell: *Monthly Indexes of Wholesale Prices in the United States and Foreign Countries*.

#### 7. History of Economics.

This course will only be given to advanced students who apply for it in sufficient numbers. It aims to trace the development of economic doctrine from the earliest times up to the present.

**Books Recommended:** Gide and Rist: *History of Economic Doctrines*. Ingram: *History of Political Economy*.

- 8. International Trade and Tariff Problems.**—(1926-27). Tuesday and Thursday, 11-12 a. m.

Pre-requisite.—Economics I.

Text Book: F. W. Tawney: *Selected Readings in International Trade and Tariff Problems*.

**Books Recommended:** Peacock: *Foreign Exchange*. Statistician: *The Theory of International Trade*. F. W. Tawney: *The Arms of the Tariff*. Ontario: *Tariff History of the United States*. Purritt: *Sixty Years of Protection in Canada*.

#### Sociology.

**Assistant Professor** ..... S. H. Prince.

- 10. Social Organization.**—(1926-27). Wednesday and Friday, 12-1 p. m.

Pre-requisite.—Economics I.

An introductory course in the psychology of human society, social organization, and means of social control, (as given in 1924-25).

Text Book: Elwood: *The Psychology of Human Society*. Glazebrook: *Psychology of Society*. French: *The Social System*.

Special reading list with assignments from works of Giddings, Sumner, Ross, Bogardus, Ogburn, Lumley and others.

- 11. Applied Sociology.**—(1926-27). Tuesday and Thursday, 2.20-3.30 p. m.

Pre-requisite.—Economics I.

## Courses of Instruction.

**1. General population problems.** Distribution and growth of population; immigrant types; relation of races; rural organization; urbanization; unyding agencies. Special attention given to Canadian conditions.

**II. Ideals and methods of modern social work.** Social causes and treatment of poverty; child welfare; community health; social origins of delinquency and crime; social pathology of feeble-mindedness; unemployment and its remedies; housing; juvenile recreation and its social control; standards of family welfare. Custodial and correctional care.—Observational visits to local institutions and clinics.

**Text Books:** Beach: *Introduction to Sociology and Social Problems*. Wright: *Population*. Quayle and Massie: *Social Pathology*. Tawney: *Social Problems*. Also topical bibliography supplied in class.

- 12. Educational Sociology.**—(1926-27). Wednesday and Friday, 4.30-5.30 p. m.

Pre-requisite.—Economics I, (for special admission).

**Text Books:** Smith: *Introduction to Educational Sociology*. Better: *Social Principle of Education*. For teachers and students who are looking forward to teaching.

- 13. History of Social Thought.**—(1927-28). Tuesday and Thursday, 2.30-3.30 p. m.

Pre-requisite.—Economics I.

A course which aims to acquaint the student with the chief literature of Sociology and to present a general survey of the history of social thinking.

**Text Books:** Lichthaus: *Development of Social Theory*. Additional Readings prescribed from Giddings, British, Regardus, Barnes and other writers on historical sociology.

#### X. Political Science.

##### Professor.

- I. Government of the British Commonwealth.**—Monday, Wednesday and Friday, 3.30-4.30 p. m.

Introductory lectures on general political concepts. Federal, provincial and municipal institutions of Canada. Merits and defects of existing systems. Problems and tendencies of the Canadian democracy. Brief survey of other British governments. Mandated territories. Imperial Conferences. Inter-imperial relations. International status of the British Commonwealth. General deductions regarding British democracies.

**Reading:** Selections prescribed from time to time from the works of Ainslie, Bryce, Dicey, Keith, Lowell and other commentators on British government. Considerable class use will be made of Jeaffres' *A History of Politics* and Kennedy's *Documents of the Canadian Constitution*.

A previous course in History or Economics is recommended before taking up the study of Political Science.

- 2. Current Political Problems.**—(1926-27). *Monday and Wednesday*, 9—10 a. m.

In this class, which will be conducted as a Seminar, will be considered selected problems of the present day. Treaties, governmental reports, city charters and, generally, documents of public importance as issued from time to time, will form the basis of the course.

- 3. Political Theory.**—(1927-28). *Tuesday and Thursday*, 9—10 a. m.

Pre-requisite.—Political Science 1.

Theories of the state and of government from Plato and Aristotle to Montesquieu.

Text Book: Dunning: *Political Theories*. Collateral reading from the works of representative political thinkers.

- 4. Modern Political Theory.**—(1926-27). *Tuesday and Thursday*, 9—10 a. m.

Pre-requisite.—Political Science 1.

The philosophy of the state from Rousseau to the present day.

Text Books: Dunning: *Political Theories from Rousseau to Spencer*. Morris and Sumner: *Political Theories*; *Recent Times*. Collateral reading.

- 5. Constitutional History.**—(1927-28). *Monday, Wednesday and Friday*, 2.30—3.30 p. m.

Anglo-Saxon institutions. Feudalism in England. The Magna Charta and the Constitutional Ordinance. Origin and growth of the Houses of Parliament. Origin and development of Trial by Jury. Origin and development of the Courts of Law. The Royal Prerogative. The Liberty of the Person. Origin and development of the Cabinet System. History of the Reform Bills. The written code of the Constitution. *Magna Charta*. Petition of Right. Bill of Rights. *Habeas Corpus*. Act of Settlement. Recent Constitutional changes.

Text Book: Tawell-Langdon: *Constitutional History of England*, with collateral reading from the works of Maitland, McKersie, McIlwain, Adams and others.

- 6. International Law.**—*Tuesday and Thursday*, 2.30—3.30 p. m.

Pre-requisite.—Political Science 1 or 5.

The relations of states with each other in peace, war and neutrality, through the study of actual cases. No previous knowledge of law required.

Case Book: Stowell and Mason's *International Cases*, Vols. I & II with some approved text book as parallel reading.

- 7. Advanced International Law.**

- 8. History and Practice of Diplomacy.**

- 9. International Arbitrations.**

- 10. International Organization.**

### XI. Law.

Certain classes conducted by the Faculty of Law in the first year of the curriculum, and the examinations conducted in these subjects by that Faculty, are recognized as qualifying for a degree in Arts when offered by a student taking the affiliated course in Law.

### XII. Philosophy.

*Professors* ..... H. L. Stewart, (Head of Dept.), N. J. Symons.

- 1. Logic and Psychology.**—*Tuesday, Thursday and Saturday*, 9—10 a. m.

Text Books: Logic: Creighton: *Introductory Logic*. Psychology: Pillsbury: *Elements of Psychology*.

- 2. History of Greek Philosophy.**—(1927-28). *Monday and Wednesday*, 2.30—4.30 p. m.

Pre-requisite.—Philosophy 1.

Text Books: Plato: *Euthyphron*, *Phaedo*, *Apology*, *Theatetus*.柏拉图: *学生手册*; *希波吕特*: *希腊哲学史*. Taylor: *Aristotle on His Predecessors*.

- 3. Ethics.**—(1927-28). *Tuesday and Thursday*, 9—10 a. m.

Pre-requisite.—Philosophy 1.

Text Books: Plato: *Republic* I-IV. Butler: *Sermons*. Mackenzie: *Moral of Ethics*. Mill: *Utilitarianism*. Solovieff: *History of Ethics*. References will also be made to Radcliffe: *The Theory of Good and Evil*, and to Moore: *Principia Ethica*.

- 4. History of Moral Ideas.**—(1926-27). *Tuesday and Thursday*, 11—12 a. m.

Pre-requisite.—Philosophy 1.

Text Books: Lesky: *History of European Morals*. References will frequently be made to Wissowa: *Origins and Development of the Moral Ideas*.

- 5. Metaphysics.**—(1926-27). *Thursday and Saturday*, 10—11 a. m.

Pre-requisite.—Philosophy 1.

Text Book: Taylor: *Elements of Metaphysics*.

- 6. History of Philosophy from Bacon.**—(1926-27). *Wednesday and Friday*, 3.30—4.30 p. m.

Pre-requisite.—Philosophy 1.

Text Books: Bacon: *Nature Organon*. Locke: *Essay on the Human Understanding*. Berkeley: *Dialogue*. Hume: *History of Philosophy*.

- 7. British Philosophy in the Nineteenth Century.**—(1927-28). *Tuesday and Thursday*, 10—11 a. m.

Pre-requisite.—Philosophy 1.

Text Book: Regan: *British and American Philosophy since 1800*.

## Faculty of Arts and Science.

- 8. Philosophic Ideas in Literature.**—(1926-27). Wednesday and Friday, 2.30—3.30 p. m.

Pre-requisite.—Philosophy 1.

The course will include a study of philosophic ideas in Tolstoy, Hardy, Anatole France, H. G. Wells, Ibsen, Marley, Frederic Harrison, Mrs. Humphry Ward, Rabindra-na-th Tagore, Wilfrid Ward, George Meredith.

## Psychology and Education.

- Professor*..... N. J. Symons.

- 9. Experimental Psychology.**—(1927-28). Monday and Wednesday,

Pre-requisite.—Philosophy 1.

Text Book: Langfeld and Alport: *Elementary Laboratory Course in Psychology*.

Simple apparatus will be used with a view to furnishing an experimental approach to the study of sensation, attention, the learning process and other aspects of the functioning of the organism. The class is intended primarily for those interested in acquiring a knowledge of experimental technique and methods.

- 10. Social Psychology.**—(1927-28). Monday and Wednesday, 9—10 a. m.

Pre-requisite.—Philosophy 1.

Text Books: McDonald: *The Group Mind*. Alport: *Social Psychology*.

- 11. Educational Psychology.**—(1926-27). Tuesday and Thursday, 4.30—5.30 p. m.

Pre-requisite.—Philosophy 1.

Text Book: Colvin: *The Learning Process*. Additional references for reading will be given in class. The course is designed to bring into prominence such aspects of theoretical and experimental psychology as have a bearing on the teachers' vocational activities. Reference will also be made to class room management and to intelligence tests.

- 12. History of Education.**—(1926-27). Monday and Wednesday, 4.30—5.30 p. m.

Pre-requisite.—Philosophy 1.

Text Books: Cokerley: *History of Education*. Readings in *History of Education*.

The course is designed for those entering the teaching profession and gives a broad account of the doctrines of the great educators from Plato down to the present time.

- 13. Dynamic Psychology.**—(1926-27). Monday and Wednesday, 3.30—4.30 p. m.

Pre-requisite.—Philosophy 1.

Text Books: Tandy: *The New Psychology and its Relation to Life*. Prince: *The Unconscious*.

## Courses of Instruction.

A review of recent findings in the fields of abnormal psychology and psychopathology in so far as these have a bearing upon the working of the normal mind.

- 14. History of Psychology.**—(1927-28). Monday and Wednesday, 4.30—5.30 p. m.

Pre-requisite.—Philosophy 1.

Text Books: Brett: *A History of Psychology*. Band: *The Classical Psychologists*.

A survey of the more important psychological theories from Plato to the present day.

## XIII. Mathematics.

*Professor*..... Murray Macneil.  
*Assistant Professor*.....

- 1. Elementary Mathematical Analysis.**—Monday, Wednesday and Friday, 10—11 a. m.; or, Tuesday, Thursday and Saturday, 11—12 a. m.

Pre-requisite.—Matriculation Algebra and Geometry.

Logarithms, Interest and Annuities, Probability, Binomial Theorem, Graphs, Maximum and minimum values, Theory of Equations, Solutions of plane triangles, Trigonometric Equations and Identities, Proportional Geometry.

- 1C. Methods of Calculation.**—Monday, Wednesday and Friday, 10—11 a. m.

Pre-requisite.—Matriculation Algebra and Geometry.

Formulas and the principles on which they are based, Logarithms, The Compound Interest Law, Progressions, Annuities, Amortization of Bonds, Indeterminate Equations, Permutations and Combinations, Probability, Approximations and Percentages of Error, Infinite Series, Graphical Representation of Statistics.

The class is primarily intended for Commerce students, but may be taken as the required class in Mathematics by those who do not intend to take Mathematics 2.

- 2. Analytic Geometry.**—Tuesday and Thursday, 11—12 a. m.

Pre-requisites.—Mathematics 1, which may, however, be taken at the same time.

Text Book: Smith and Gale: *New Analytic Geometry*.

- 3. Infinitesimal Calculus.**—Monday, Wednesday and Friday, 11—12 a. m.

Pre-requisite.—Mathematics 1 and 2.

Text Book: Graville: *Differential and Integral Calculus*.

- 4. Solid Geometry and Spherical Trigonometry.** Analytic Geometry of three dimensions.—Tuesday and Thursday, 10—11 a. m.

Pre-requisite.—Mathematics I and 2. The latter may be taken at the same time.

#### Advanced Classes.

The courses in these classes are intended for those who wish to take mathematical work in the third or the fourth year in the ordinary course in Arts or Science. They are also intended to serve as courses introductory to the study of higher mathematics for those who may desire to attend graduate schools in the larger universities. Candidates for Honours in Mathematics are required to take four of these courses in class. Each class meets weekly throughout the year. Mathematics 3 and 4 are pre-requisite.

- 5. Advanced Calculus.**—Topics in the treatises of Todhunter, Williamson, Hartree, Lamb and Gibson.
- 6. Plane and Solid Analytical Geometry.**—Based on the treatises of Salmon and C. Smith.
- 7. Differential Equations.**—Murray's *Differential Equations*, with supplementary lectures.
- 8. Algebra.**—Topics in Determinants, Theory of Equations, Quaternions, Invariants, with lectures on Series and Functions of a real variable.
- 9. Projective Geometry.**

#### XIV. Physics.

*Professor.* . . H. L. Bronson, (*Head of Dept.*); J. H. L. Johnstone, *Demonstrator*; . . . . . J. L. Nicolson, *MacGregor Fellow*; . . . . . G. C. Laurence.

- 1. General Physics.**—*Lectures:* Monday, Wednesday and Friday, 10—11 a. m. *Laboratory:* Two hours per week.

Pre-requisite.—Matriculation Mathematics and Physics.

The whole subject of Experimental Physics is taken up, the subjects treated being: Kinetics, Dynamics, Properties of Matter, Sound, Heat, Electricity and Magnetism, Light and other forms of Radiation. The lectures are illustrated by experiments and special attention is paid to the solution of problems, which must be submitted by all students for correction and criticism.

Two hours a week are devoted to laboratory work. The laboratory class is divided into three sections which meet on Monday, 11 a. m.—1 p. m., Thursday, 9 a. m.—12, Friday, 2.30—5.30 p. m. The experiments selected for the course are designed to acquaint the student with the methods and instruments used in physical measurement. They will also assist him in grasping that part of the subject which is taught in the lectures.

*Text Book:* Kinsell: *College Physics*.

#### Courses of Instruction.

- 20. Light, Sound, X-Radiation and Radio-Activity.**—*Lectures:* Monday and Wednesday, 9—10 a. m. *Laboratory:* Tuesday or Thursday, 9—12 a. m.

Pre-requisite.—Physics 1.

This course is primarily intended for second year students in Medicine and Dentistry and special attention will be given to those parts of the subject of interest to them. It may be elected by any students who are properly qualified.

- 2. Mechanics, Hydrostatics, Heat, Light and Sound.**—*Lectures:* Monday, Wednesday and Friday, 12—1 p. m. *Laboratory:* Wednesday, 2.30—5.30 p. m., but other hours may be arranged.

Pre-requisite.—Mathematics 1; but it may, however, be taken at the same time.

*Text Book:* Kinsell: *College Physics*.

- 3. Electricity and Magnetism.**—*Lectures:* Tuesday and Thursday, 9—10 a. m. *Laboratory:* Monday, 2.30—5.30 p. m.

Pre-requisite.—Physics 2 and Mathematics 1.

Physics 2 and 3 are intended primarily for Engineering students, and for students desiring to take Honours in Mathematics or Physics. They are also recommended for students in Arts and Science who are interested in the subject and desire a more thorough grasp of it than can be obtained from Physics 1.

*Text Book:* Hatchett: *Intermediate Magnetism and Electricity*.

- 4. Thermodynamics.**—*Lectures and Laboratory.*

Pre-requisite.—Mathematics 3, Physics 1 or 2.

*Books Recommended:* Planck: *Thermodynamics*. Bremmer: *Principle of Thermodynamics*.

- 5. Light.**—*Lectures and Laboratory.*

Pre-requisite.—Mathematics 3, Physics 1 or 2.

*Books Recommended:* Schuster: *Theory of Optics*. Wood: *Physical Optics*.

- 6. Electricity and Magnetism.**—*Lectures and Laboratory.*

Pre-requisite.—Mathematics 3, Physics 1 or 2.

*Books Recommended:* Stetson: *Electricity and Magnetism for Advanced Students*. D'Arsonval: *Modern Electricity and Magnetism*. Faraday and Williamson: *Alternating Currents*.

- 10. Elementary Practical.**—*Six hours per week.*

Pre-requisite.—Physics 1, or its equivalent.

This course is a continuation of the experimental work of Physics 1, but is somewhat more difficult and in it more attention is paid to

**Faculty of Arts and Science.**

experimental methods. It is intended for Honour students in Chemistry and for those who desire a larger acquaintance with the experimental side of Physics than is to be obtained in Physics 1.

**11. Advanced Practical.**—*Six hours per week.*

Pre-requisite.—Physics 2 and 3.

The work of this class consists of the investigation of physical laws of a more complex kind than in Physics 2 and 3, and a greater degree of precision will be expected in the determinations made.

**12. Research Course.**—*At least ten hours per week.*

The work will consist of new investigations conducted by students who show sufficient ability and are otherwise qualified to undertake it.

**Physics Seminar and Journal Club.**—*Tuesday, 5 p. m.*

Lectures on recent developments in Physics; presentation of papers by advanced students; reviews of current journals. All Honour and Graduate students are expected to attend.

**Mathematical Physics.**

*Professor.*..... G. H. Henderson.

**13. Modern Physics.**—*2 hours lectures and 1 Laboratory period.*

Pre-requisite.—Two courses in Physics.

An introductory course, treating from the experimental side such topics as electrons, radioactivity, X-rays and the structure of matter.

Books Recommended: Cawther: *Nut, Electron, etc.* Collated reading.

**14. Mechanics.**

Pre-requisite.—Mathematics 3 and Physics 2.

A general course in statics and dynamics applied to particles and rigid bodies, conducted chiefly by problem work.

Books Recommended: Lamb: *Statics*. Lamb: *Dynamics*.

**15. Advanced Mechanics.**

Pre-requisite.—Physics 14 and Mathematics 7.

A continuation of the previous course.

**16. Introduction to Mathematical Physics.**

Pre-requisite.—Mathematics 3 and Physics 6.

Vector analysis with application to physical problems; Fourier analysis and heat conduction; Theory of Errors; Dimensional analysis.

Books Recommended: Coffin: *Vibr. Analysis*. Berlin: *Fourier's Series*. Bousfield: *Introduction to Mathematical Physics*.

**Courses of Instruction.****18. Quantum Theory and Relativity.**

Pre-requisite.—Mathematics 7, Physics 4 and 14.

**19. Advanced Electricity and Magnetism.**

Pre-requisite.—Mathematics 7 and Physics 16.

Electrodynamics of the electron, electromagnetic radiation, electro-magnetic theory of light. Solution of problems involving spherical and zonal harmonics, conjugate functions and Bessel's functions.

Book Recommended: Jones: *Electricity and Magnetism*.

**XV. Chemistry.**

<i>Research Professor (Head of Dept.)</i> .....	D. McIntosh.
<i>Professor</i> .....	C. B. Nickerson.
<i>Assistant Professor</i> .....	H. S. King.
<i>Instructor</i> .....	E. W. Todd.
<i>Teaching Fellow</i> .....	H. R. Chapman.

**1. General Chemistry.**—*Lectures: Monday, Wednesday and Friday, 9–10 a. m. Laboratory: Monday, 2.30–5.30 p. m.*

Pre-requisites.—Matriculation Algebra, Chemistry and English.

Phenomena leading to the fundamental laws of combination are first presented, as far as possible in historical order, and thereafter the atomic theory, Avogadro's hypothesis, and the formation of equations. The chief non-metallic elements are then studied somewhat in detail, and the more important metals more briefly. The elements of Physical and Organic Chemistry are also introduced. Written class exercises are held regularly.

Books Recommended: McPherson and Henderson: *A Course in General Chemistry*, Second Edition. Smith and Kendall: *College Chemistry*. For occasional readings: Ladd: *Chemistry in Daily Life*. Alembic Club Reprints. *Brid: Modern Science Reader*.

**1A. General Chemistry.**—*Lectures: Monday, Wednesday and Friday, 9–10 a. m. Laboratory: Tuesday and Thursday, 2.30–5 p. m.*

Pre-requisites.—Matriculation Algebra and Chemistry.

The Laboratory work of this course is that of Chemistry 1 with two and one-half additional hours per week, part of which is spent in a preliminary course in qualitative analysis.

**2. Advanced Inorganic Chemistry and Qualitative Analysis.**—*Lectures: Saturday, 9–10 a. m. Laboratory: Tuesday and Thursday, 2.30–5.00 p. m.*

Pre-requisite.—Chemistry 1 or 1A.

Lectures: The theory and application of such subjects as ionization, the mass law and electromotentials are discussed. The metals and their compounds are studied and several lectures are devoted to the more recent theories of atomic and molecular structure.

### Faculty of Arts and Science.

**Laboratory:** The detection of the more common basic and acidic ions and the analysis of unknown mixtures and commercial products. The preparation of certain inorganic compounds of theoretical interest.

This course is especially intended for students who contemplate further work in Chemistry or Physics and is not offered to students who are registered in Medicine or Dentistry.

Books Recommended: McPherson and Henderson: *A Course in General Chemistry*; Smith and Kendall: *Applied Chemistry*; Talbot and Blanchard: *Electrolytic Distillation Theory*; Noyes: *Qualitative Chemical Analysis*.

- 4. Organic Chemistry.**—*Lectures: Monday and Wednesday, 10–11 a. m. Laboratory: Saturday, 10–1 p. m.*

Pre-requisite.—Chemistry 1 or 1A.

**Lectures:** A study of the compounds of carbon. Until Christmas, the lectures will deal with methane and ethane and their simple derivatives.

**Laboratory:** Qualitative analysis of organic compounds. The laboratory methods of organic chemistry. The preparation and examination of the properties of typical aliphatic and aromatic compounds.

Books Recommended: Russen and Ondorf: *Organic Chemistry*; Perkin and Kipping: *Organic Chemistry*.

#### Advanced Classes.

These classes are especially intended for candidates for Honours in Chemistry; but any student who has passed in Chemistry 2 and 4 with Distinction may be admitted. Of these classes, Chemistry 5 and Chemistry 8 are given in alternate years.

- 5. History of Chemical Theory.**—(1927-28). *Twice a week.*  
The development of chemical theory from the time of Boyle.

Books Recommended: Ansdell: *History of Chemistry*; Ewing: *Dalton and the Periodic Law*; Gmelin: *Handbuch der Physikalischen Chemie*; Ladd: *Topics: Essays on Historical Chemistry*; Schlesinger: *Rise and Progress of Organic Chemistry*; Szwarc: *Recent Advances in Organic Chemistry*; Larusson: *Topics of Organic Chemistry*; Selected Moments from the Academic Career of Rutherford and Orville R. Fisher. For Reference: Von Meyen: *History of Chemistry*.

- 6. Physical Chemistry.**—*Lectures: Tuesday and Thursday, 9–10 a. m. Laboratory: Saturday, 9–10 a. m. and three additional hours.*

Pre-requisite.—Chemistry 2.

General Physical Chemistry including the constitution of matter and compounds; the chemistry of the radio-active elements, the kinetic theory of gases; the theories of solution and of electrolytic dissociation. Laboratory.—Four hours per week.

Books Recommended: Wohler: *An Introduction to Physical Chemistry*; Flory: *Practical Physical Chemistry*; Ondorf: *Principle of Inorganic Chemistry*; and *Outline of General Chemistry*; Washburn: *Physical Chemistry*.

### Courses of Instruction.

79

- 7. Quantitative Analysis.**—*Lecture: Wednesday, 9–10, a. m.*

Pre-requisite.—Chemistry 2.

Lectures on the general principles of quantitative analysis, and nine hours of laboratory work each week.

Text Book: Talbot: *Elementary Quantitative Analysis*.

- 8. Modern Theories of Chemistry.**—*(1926-27). Two lectures a week during the First Term. (b) Electrochemistry.—Two lectures a week during the second term.*

Pre-requisite.—Chemistry 2 and 4.

Books Recommended: Lewis: *Valency*; Thompson: *The Electron in Chemistry*; Aston: *Isotopes*; Brügel: *X-Ray Spectroscopy*; Leibiger: *Electrochemistry*; Chapman and Paul: *Radio-Chemistry*; Thomson: *Applied Electro-Chemistry*; Standfield: *The Electric Furnace*.

- 9. Advanced Quantitative Analysis.**—*One lecture and 9 hours laboratory work per week.*

Pre-requisite.—Chemistry 4 and 7.

Students may take one of the following courses:  
(a) Advanced Inorganic Analysis. Special methods including gas analysis.

(b) Food and Drug Analysis.

Books Recommended: Foy: *An Advanced Course in Quantitative Analysis*; Hale: *The Chemical Analysis of Iron and Steel*; Hobson: *Gold Works Material*; Demarest: *Quantitative Analysis*; Washington: *The Analysis of Silicate Rocks*; Woodward: *Food Analysis*; *bulletins of the U. S. Department of Agriculture*.

- 10. Advanced Organic Chemistry.**—*One lecture and nine hours laboratory per week.*

Pre-requisite.—Chemistry 4.

Books Recommended: Holloman: *Organic Chemistry*; Cohen: *Organic Chemistry*.

- 11. Research.**—The work of this class will consist of original investigation conducted by students who have shown themselves qualified to undertake it.

### XVI. Geology and Mineralogy.

*Assistant Professor.....D. S. McIntosh.*

- 1. General Geology.**—*Lectures: Monday, Wednesday and Friday, 10–11 a. m. Exercises and Laboratory: Tuesday and Friday afternoon. (One afternoon a week is the full requirement).*

Pre-requisite.—Matriculation Chemistry.

The lectures will consist of a general survey of the whole field of Geology. A large part of the time will be devoted to Dynamical and Structural Geology. Historical Geology will deal mainly with the North American Continent, tracing its development, and that of life upon it, from early times to the present day.

**Faculty of Arts and Science.**

During the early part of the First Term excursions will be made to points of interest around Halifax on Tuesday or Friday afternoons. This will be succeeded by laboratory work of two hours on these afternoons during the rest of the session.

This course is elective for candidates in Arts and Science.

It is also the course for candidates in engineering who require Geology as one of their subjects.

**Text Books:** Pearson and Schuchert: *Introductory Geology*.  
**Reference Books:** Crampton: *Solidary Geology*; Goldie: *Geology*.  
 Pearson and Schuchert: *Text Book of Geology*; Young and Brock: *Geology and Economic Minerals of Canada*.

**2. Canadian Geology.**—*Lectures: Tuesday and Thursday, 10-11 a. m. Laboratory: Three hours per week.*

Pre-requisite.—Geology 1.

This course deals with the Geology of Canada—physical, historical and economic.

**Reference Books:** Coleman and Parker: *Elementary Geology*; Young and Brock: *Geology and Economic Minerals of Canada*; C. G. S. Reports.

**3. Mineralogy and Petrography.**—(1927-28). *Lectures: Two hours per week. Laboratory: Chiefly microscopical. One afternoon per week.*

Pre-requisites.—Chemistry 1 and Geology 1 (the latter, however, may be taken in the same year).

This course will embrace crystallography, the rock-forming minerals, and the classification and description of rocks.

**Reference Books:** W. S. Bayliss: *Elementary Crystallography*; Pearson: *Rocks and Rock Minerals*; Market: *Petrology for Students*.

**4. Mineralogy and Economic Geology.**—(1928-27). *Lectures: Two hours per week. Laboratory: Three hours per week.*

Pre-requisites.—As in Geology 2.

The mineralogy of this course will supplement that of Geology 3 by a description and determination of minerals by their physical properties and systematic blow-pipe analysis. The nature, mode of occurrence and distribution of the economic minerals will also be dealt with.

**Reference Books:** Dunn: *A Text Book of Mineralogy*; Beach and Penfield: *Descriptive Mineralogy and Blow-pipe Analysis*; Lindgren: *Mineral Deposits*; Keay: *Our Deposits of the United States and Canada*.

**16. Economic Geography.**—*Tuesday, Thursday and Saturday, 11-12 a. m.*

This class cannot be offered as one of the imperative Science classes for the Arts degree.

**Courses of Instruction.**

Erosion and the development of land forms; shoreline and harbours; the factors that influence climate; regional vegetation; natural resources; the human factor; transportation; trade routes; density of population.

**Text Books:** T. C. Hockin: *Elements of Physical Geography*. Whitbeck and Webb: *Elementary Geography*.  
**Reference Books:** Gregory, Keller and Bishop: *Physical and Commercial Geography*; J. Russell Smith: *Commerce and Industry*.

**Advanced Courses.**

One at least of these courses will be given each year, if there is sufficient demand.

**5. Palaeontology.**—*Class and laboratory work one afternoon per week.*

Pre-requisite.—Geology 1; Biology 2 and 3.

Typical fossils of the various formations will be studied.

**Reference Book:** Ettel: *Text Book of Palaeontology*.

**6. Practical Geology.**—*One lecture per week, with field work during the open season.*

Pre-requisite.—Geology 1.

This course will deal with problems in structural geology, with geological and magnetic surveys.

**7. Geological Chemistry.**—*Lecture, one hour per week. Laboratory, six hours per week.*

Pre-requisites.—Geology 3 and 4, Chemistry 7.

The lectures will embrace the application of chemistry to geological problems. The laboratory course will deal with mineral and rock analysis.

**XVII. Biology.**

**1. General Biology.**—*Lectures: Tuesday and Thursday, 2.30-3.30 p. m. Laboratory: Tuesday and Thursday, 3.30-5.30 p. m.*

Pre-requisite.—Matriculation Physics or Chemistry.

This class, conducted jointly by the instructing staff in Zoology and Botany, is intended primarily for Arts and Science students. Along with Zoology 3 it can be offered in place of Biology 1A, by students in Medicine or Dentistry. The aim of the course is to acquaint the student with some of the more important biological facts and theories and to serve as an introduction to biological methods.

**Text Books:** Hegner: *Introduction to Biology*; Holmes: *Biology, the Principles of Biology*; Curtis and Guthrie: *Laboratory Exercises in General Biology*; Geomory: *Text Book of Biology*.  
**Reference Books:** Parker and Haswell: *Text Book of Ecology* (2 Vols.); Shull: *Principles of Animal Biology*; Goodrich: *Living Organisms*.

## Zoology.

*Associate Professor.....* J. Nelson Gowenlock.  
*Student Assistant.....*

**Zoology 2. Invertebrate Zoology.**—(1927-28). *Lectures: Two hours per week. Laboratory: Four hours per week.*

Pre-requisite.—Biology 1 or 1A.

This course provides a study of invertebrate types together with some experimental investigation of their reactions. At least five half-day field-trips will be arranged.

*Text Books:* Parker and Elsowell, Vol. I.  
*References:* Parker and Elsowell: "Principles of Zoology." Elsowell: "Animal Communities in Temperate America." Frost: "Manual of Common Invertebrate Animals."

**Zoology 3. Comparative Vertebrate Anatomy.**—(1926-27).  
*Lectures: Monday and Wednesday, 2.30—3.30 p. m. Laboratory: Monday and Wednesday, 3.30—4.05 p. m.*

Pre-requisite.—Biology 1 or 1A.

This course covers general principles of the comparative anatomy of vertebrate animals, together with the dissection of a series of types.

*Text Books:* Davison: "Mammalian Anatomy" (6th ed.). Hyman: "Lectures on the Classification of Vertebrates." *References:* Parker and Elsowell: "Text Book of Zoology," Vol. 2. Beauford and Jennings: "Anatomy of the Cat."

**Zoology 4. Variation, Evolution and Genetics.**—(1927-28).  
*Lectures: Three hours per week, to be arranged.*

Pre-requisites.—Two courses in Biological Science.

This course, which is conducted on the seminar plan, provides for the study of these fields with especial reference to modern developments and applications.

**Zoology 5. Marine Zoology.**—(1926-27). *Lectures: Two hours per week. Laboratory: Four hours per week, together with field trips.*

This course is designed to serve as an introduction to some of the facts and methods of zoology as applied to marine problems. Especially, work and surveys of operations in fish hatcheries and sea-fisheries; collection and identification of local marine forms will constitute the practical work. This course is primarily designed for students who will proceed to original investigations on sea-life, in its economic aspects.

**Zoology 6. Zoological Seminar.** (For advanced students only).  
*Lectures: Two hours per week. Special meetings by arrangement.*

This course provides for the study of recent zoological problems by the seminar method.

## Courses of Instruction.

**Zoology 7. Research Course.** *At least ten hours per week.*

The work consists of original investigations carried out by properly equipped students who have shown themselves capable of conducting critical experimental studies.

*Associate Professor.....* H. P. Bell.  
*Student Assistant.....* Phyllis R. Hilton.

**2. Cryptogamic Botany.**—*Lectures: Monday and Wednesday, 2.30—3.30 p. m. Laboratory: Monday and Wednesday, 3.30—4.30 p. m.*

Pre-requisite.—Biology 1 or 1A.  
 An introductory course in the slime moulds, fungi, algae, liverworts, mosses, ferns and fern allies.

**3. Phanerogamic Botany.**—(1926-27). *Lectures: Monday and Wednesday, 2.30—3.30 p. m. Laboratory: Monday and Wednesday, 3.30—4.30 p. m.*

Pre-requisite.—Biology 1 or 1A.  
 An introductory course in the conifers, conifer allies, and flowering plants. This course is adapted to the needs of those who intend to teach in the public schools.

**4. Mycology.**—*Lectures: Two hours per week. Laboratory: Four hours per week.*

Pre-requisite.—Botany 1 or 1A.  
 Special attention is given to those forms of fungi which cause plant diseases.

**5. Algology.**—*Lectures: Two hours per week. Laboratory: Four hours per week.*

Pre-requisite.—Botany 1 or 1A.  
 Special attention is given to the marine forms found in the vicinity of Halifax. Before credit will be given for this course the student must present an original collection of at least twenty-five species properly identified and mounted.

**6. Biological Laboratory Technique.**—*Lectures: One hour per week. Laboratory: Ten hours per week.*

Pre-requisite.—Biology 1 or 1A.  
*Text Book:* Chamberlain: "Methods in Plant Biology."  
*Reference:* Lee: "The Microscope's Value-Maxim."

**7. Botanical Seminar.**—*Lecture: One hour per week. Special meetings and laboratory work arranged as required. (For advanced students only).*

This course includes a study of recent botanical literature, and an investigation of special problems may be undertaken by qualified students.

**Histology and Embryology.**

The classes in Histology and Embryology given in the Medical Faculty may be selected as electives for the Arts or Science degrees by those who offer a group of four classes in Biology, and for that purpose they are regarded as classes in Biology.

**XVIII. Physiology, Biochemistry and Bacteriology.**

The classes in Physiology, Biochemistry and Bacteriology given in the Medical Faculty may in special cases be selected as electives for the Arts and Science degrees.

**XIX. Anatomy.**

The classes in Anatomy conducted by the Faculty of Medicine are recognized as qualifying for a degree in Arts or Science, when offered by a student taking the affiliated course in Medicine.

**XX. Music.**

*Lecturer* ..... H. Dean.  
**Music I.**—(1926-27). *Harmony and Counterpoint*.—*Tuesday and Thursday*, 2-4 p. m.

**Music II.**—(1927-28). *History of Music*.—*Tuesday and Thursday*, 2-4 p. m.

*Appreciation of Music and Analysis of Musical Form.*

In addition to the above electives for the Arts degree the classes in the Theory of Music and History of Music conducted in the Halifax Conservatory of Music are recognized as qualifying for the degree of Bachelor of Music. In the Theory, the course extends over three years; in the History, over two. Information as to details of subjects studied in the classes, fees, text-books, etc., may be obtained on application to the Director of the Conservatory, Mr. Harry Dean.

**ENGINEERING COURSES.**

*Professor* ..... W. P. Copp.  
*Assistant Professor* ..... M. R. Theakston.

**XXI. Mechanics.**

**2. Advanced**.—*Monday, Wednesday and Friday, 9-10 a. m., Second Term.*

*Pre-requisites*.—*Physics 2; Mathematics 1, 2 and 3* (the latter however, may be taken simultaneously).

This course is intended for Engineering students, but can be offered for a degree in Arts and Science. It deals with statics and dynamics of a particle and of a rigid body; the application of the

**Courses of Instruction.**

85

calculus in considering the motion of a particle under varying force; simple harmonic motion; oscillation of springs and pendulums, etc.; Moment of Inertia of Areas and of Masses; Work, Energy and Power, etc. The course is illustrated by practical problems.

*Text Book:* Postgate: *Applied Mechanics*. Morley: *Mechanics for Engineers*.

**3. Graphical Statics**.—*Monday, Wednesday and Friday, 9-10 a. m. First Term. Wednesday, 2.30-5.30 p. m., throughout the Session.*

*Pre-requisites*.—*Drawing 1 and Physics 2.*

The work includes the composition of forces, use of funicular and force polygons, determination of reactions, centres of gravity, bending moments and moments of resistance, stresses in cranes hoisted towers, roof trusses, and bridge trusses. Shearing force and bending moment diagrams.

*Text Book:* Malcolm: *Graphical Statics*.

**4. Mechanics of Machines**.—*Tuesday, 11-12 a. m., Monday, Wednesday and Friday, 12 a. m.-1 p. m.*

*Pre-requisites*.—*Drawing 1, Physics 2, Mathematics 1, 2 and 3* (the latter, however, may be taken simultaneously).

**Kinematics**: The work includes constrained motion, kinematic pairing, velocity and acceleration in mechanisms, analysis of simple mechanisms, including the quadric crank chain, slider crank chain and various wheel trains, and the design of involute and cycloidal gear-teeth and chains.

**Dynamics**: A brief discussion of work and power; the power and turning effort of prime movers; the inertia and kinetic energy of revolving and reciprocating parts of machines.

**5. Materials of Construction**.—*Thursday, 11-12 a. m.*

The work includes the manufacture and properties of cast iron, wrought iron, crucible, bessemer and open hearth steel; principal alloys; manufacture and properties of Portland and natural cements; lime; concrete; stone and brick masonry; timber; preservation of timber; standard specifications.

*Text Book:* Moore: *Materials of Engineering*.

**XXII. Surveying.**

This course includes all of the following, which must be taken during the same session.

(a) *Levels*.—*Monday and Wednesday, 10-11 a. m.*

*Pre-requisites*.—*Drawing 1 and Mathematics 1 and 2.*

Instruction is given in the use and adjustment of the various surveying instruments, also in plane land surveying by chain, compass, transit and level; contour surveying; stadia surveying; topo-

graphical surveying, etc.; railway curves; land systems of the Dominion and Provinces.

Text Book: French & Hansen: *Plane Surveying*.

(b) *Surveying Field Work*. About three weeks immediately preceding the opening of the sessional lectures, and Tuesday, and Thursday 2.30—5.30 p. m., of the First Term are devoted to practical surveying field work. The course embraces problems in chaining, transits and compass-surveying, levelling, etc. This part of the course is carried on at a United Surveying Camp, conducted under the auspices of the Nova Scotia Technical College in the grounds of the Agricultural College, Truro. In addition a detail transit and tape survey is made of the Stanley property of the University.

(c) *Mapping*. Tuesday and Thursday, 2.30—5.30 p. m., Second Term.

Drafting from field notes of chain and angular surveys; particularly emphasizing the Stanley property survey, the map for which is very carefully drafted and tinted with water colours; Drafting of various survey problems assigned from time to time.

### XXIII. Drawing.

1. *Engineering Drawing*.—*Lectures*: Tuesday and Thursday, 9—10 a. m. *Laboratory*: Monday and Friday, 2.30—5.30 p. m.

This course is required of all Engineering students. It deals with freehand lettering; object drawing; geometrical exercises; detail and assembly drawings; tracings of simple machines; sketching, blueprinting, graphs and wash drawings.

Text Book: French: *Engineering Drawing*.

1B. *Engineering Drawing*.—*Lectures*: Tuesday and Thursday, 9—10 a. m. *Laboratory*: Monday, 2.30—5.30 p. m.

This course or Drawing 1 is required of all students proceeding to the Degree of B. Sc. It is a modification of Drawing 1 and in addition deals with perspective, and pseudo-perspective. Special emphasis is given to free hand sketching.

Text Book: French: *Engineering Drawing*.

2. *Descriptive Geometry*.—Saturday, 9 a. m.—1 p. m.

The work includes the projection of lines, plane figures and solids, problems on the relations of straight lines and planes in space, intersections and developments, surfaces of revolution, perspective. The course aims not only to develop the power to visualize magnitudes involving three dimensions, but also to point out practical applications to engineering work, with practical problems applying the theory.

Text Book: Smith: *Practical Descriptive Geometry*.

3. *Advanced Engineering Drawing*.—Friday, 2.30—5.30 p. m.

Pre-requisite.—Drawing 1 and 2.

This course is required of all Engineering students and is divided into three parts: (a) October-November—Elementary structural drawing, aiming to familiarize the student with structural steel shapes and the detail connections for same. (b) December-January-February—Detail drawings and tracings of more difficult machine parts. (c) March-April advanced descriptive geometry and its application to more difficult architectural, sheet metal, piping and mining problems.

Lectures are given during the course dealing with draughting room methods and explanation of design and problems.

Reference Books: French: *Engineering Drawing*; Smith: *Practical Descriptive Geometry*; Carter: *Descriptive Geometry*; Bishop: *Structural Drawing*; *Compton Steel Handbook*.

### XXIV. Shop Work.

A course of about three weeks duration immediately preceding the regular sessional lectures, is given by the Nova Scotia Technical College in its own workshops. The course includes chipping, filing and scraping; machining a surface block; various kinds of work on drilling machines; grinding of drills; instruction in cutting speeds and rates of feed; tapping and threading and problems connected therewith; engine lathe work, etc.; various problems assigned at the discretion of the instructor suited to the individual ability of the student.

### XXV. Commerce.

*Professor* ..... Bishop C. Hunt.  
*Lecturer in Commercial Law* .....  
*Lecturer in Accounting* .....

1. *Elementary Accounting*.—Monday, Wednesday and Friday, 2.30—3.30 p. m.

Fundamental principles, theory and practice of debit and credit; functions and classification of accounts; columnar books of original record; supporting information; proprietorship; controlling accounts; entries to open, adjust and close; preparation of financial statements; single entry; elementary problems.

Text Book: Ester: *Accounting Theory and Practice*, Vol. I, 2nd Edition and Practice Data. Esterhouse and Percy: *Accounting Problems*; Elementary.

2. *Intermediate Accounting*.—Monday, Wednesday and Friday, 11—12 a. m.

Pre-requisite.—Elementary Accounting.

Accounting as an instrument of business control. Theory and practice of the technical phases of mercantile accounting. Advanced methods of recording and handling sales, purchases, receipts and disbursements; the voucher system, columnar control; the functions and adjustment of partnership accounts; of corporation

**Faculty of Arts and Science.**

accounts; stock and bond issues, bond interest and discount, surpluses and reserves, sinking funds; aspects and methods of providing for depreciation; investments; intangible assets. The problem of valuation. The preparation, analysis and interpretation of the financial statements of mercantile and manufacturing concerns; readings in accounting theory; the solution of a variety of problems.

**Text Books:** Kotter: *Accounting Theory and Practice*, Vol. II and *Practice Data*. Reference will be had to: *Accounting Problems—Intermediate*. Reference will be had to: *Corporate Accounting*. Hailfield: *Modern Accounting*. Dickinson: *Accounting Practice and Procedure*. Spier and Tugler: *Auditing*.

**3. Advanced Accounting Problems.—(1926-27). Three hours per week.**

Pre-requisite.—*Intermediate Accounting*.

1. Auditing, theory and practice; investigations; classes; purposes and methods.
2. Fiduciary Accounting. The preparation of trust and estate accounts; a wide range of problems in Theory and Practice.

**Reference Books:** Spier and Tugler: *Auditing*. Blockley: *Joint Stock Companies*. Dickinson: *Accounting Practice and Procedure*. Montgomery: *Auditing, Theory and Practice*.

**4. Marketing and Distribution.—Tuesday and Thursday, 9—10 a. m.**

Pre-requisite.—*Economics I*.

A study of the processes, channels and problems of market distribution.

I. The marketing of raw materials and semi-manufactured products for wholesale consumption; trade channels; position and function of various types of middlemen; the problems of transportation, financing, insurance, storage and speculation; sources of market information; investigation of the more important raw materials to illustrate principles.

II. The methods of marketing manufactured goods for retail distribution; middlemen in the manufacturer's market; economics of retailing; types of retail stores, competitive advantages and disadvantages; advertising as a business force; price policies; sales under brand; merchandising costs; critique of the present marketing system; problems.

**Text Books:** Macklin: *Efficient Marketing for农夫*. Clark: *Principles of Marketing*. Coeckel: *Marketing Problems*.

**Readings from** Chayrlton: *Advertising as a Business Force*. Neutrom: *Economics of Distribution*. Marshall: *Industry and Trade*. Shaw: *An Approach to Marketing Problems*.

**5. Business Correspondence.—(1927-28). Friday, 9—10 a. m.**

Pre-requisite.—*English 2*.

A study of the various types of business letters, their form and methods of expression; routine-buying, collection, adjustment, circular, sales and application letters; the preparation of reports and outlines; mailing lists; handling correspondence; the language of advertising; the problem of effective business communication.

**Text Book:** Gardner: *Effective Business Letters*. Hall: *Writing as Advertising*.

**Courses of Instruction.****6. Business Organization and Management.—(1927-28). Monday and Wednesday, 9—10 a. m.**

Pre-requisites.—*Economics I* and *Commerce I*.

I. The evolution of industry based on methods of production; organization from the standpoints of association and ownership; the form of the business unit; the partnership, corporation and corporation combination; advantages and disadvantages; tests of efficiency.

II. The theory of industrial and plant location, equipment and development; types of internal organization for purposes of control; the administration of production; methods of modern business management; the Taylor system of scientific management; the administration of personnel; the human equation in business; executive co-ordination; accounting and statistics as instruments of business control.

**Text Books:** Marshall: *Business Administration*. Reference to Jones: *Administration of Industrial Enterprises*. Taylor: *Principles of Scientific Management*. Shaw: *An Approach to Business Problems*. Schell: *Technique of Economic Control*. Marshall: *Industry and Trade*.

**7. Corporation Finances and Investments.—1926-27. Monday, Wednesday and Friday, 9—10 a. m.**

Pre-requisite.—*Economics I*, *Commerce 2*.

I. Types and varieties of securities; promotion—the promoter, investment banker, underwriting syndicate, sale of securities to the public, financial plan; problems of financial administration, accounting and dividend policies; expansion—industrial combinations, the sale of notes, bonds and securities, railroad and public utility finance; failure and reorganization.

II. An analysis of types of investments and their suitability for different persons and institutions; investments and the business cycle.

**Text Books:** Dowling: *Corporation Finance*. Lincoln: *Problems of Business Finance*. Ladd: *Investment Securities and Investment Policies*. Reference will be had to: Dowling: *Financial Policy of Corporations and Corporate Problems and Requirements*. Gerstenberg: *Financial Organization*.

**8. Commercial Law.—1926-27.**

General principles of business law, including the law of contracts, sales and agency. Elements of jurisprudence.

The law of negotiable instruments; partnerships and corporations; torts; real property; liens; bankruptcy; the Bank Act. Lectures and assigned readings.

**Reference:** Cockle and Hibbert: *Cases on the Common Law*. Topham: *Company Law*.

**9. Foreign Trade.—(1927-28). Tuesday and Thursday, 10—11 a. m.**

Pre-requisite.—*Economics I*; *Commerce 4*.

I. The principles underlying the development of international commerce; geographic, economic and social factors; foreign exchange.

**I.** The technical aspects of merchandising Canadian goods in overseas markets and of importing from abroad; market analysis.

**III.** Ocean transportation; the business of shipping and its organisation; freight rates; marine insurance; trade routes; port and harbour facilities; government aid, mercantile marine policies and subsidies.

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

#### 10. Railroad Transportation.

The principles of railroad transportation; development and operation of the Canadian systems; administrative organisation; rates and rate making; problems of the shipper, the traffic department.

#### 11. Advanced Market Organisation and Problems.

An analysis of problems of selling policy; the sales organization, development and relation to other departments; market analysis; functions and principles of advertising and selling; preparation and execution of sales campaigns.

*Text Books:* Assigned Reading and Exercises. Extracts from Copeland: *Marketing Problems.* Tavel: *Advanced Sales Management.* David: *Practices of Advertising.* Fisher and Hatchikoff: *Principles of Advertising.* Whitelock: *Practices of Salesmanship.* Hoyt: *Selling-Sales Management.*

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

*Text Books:* *Transport Selected Readings in International Trade.* Farber: *Foreign Exchange.* Wynn: *Export Merchandising.* Tomlin: *Practices of Export Sales Management.* Dennis: *Foreign Trade Organization.*

## Faculty of Law.

#### Preliminary Statement.

The Faculty of Law was organized in 1883. A curriculum was then prescribed extending over three years and leading to the degree of Bachelor of Laws. The curriculum has been modified from time to time and at present closely corresponds to the Standard Curriculum recommended by the Canadian Bar Association.

A Chair of Constitutional and International Law was endowed by George Munro, of New York, in 1883, as one of his many generous benefactions to the University. Richard Chapman Weldon, Ph.D., was appointed to this chair in the same year and was made Dean of the Faculty, and held this position until his retirement from teaching in 1914. The professorship of Contracts was held continuously from the beginning by Dr. Benjamin Russell, lately one of the Justices of the Supreme Court of Nova Scotia. Mr. Justice Russell ceased to deliver regular lectures in 1921. An additional full-time professorship was established in 1920 and a full-time lectureship in 1921. This lectureship was converted into an assistant-professorship in 1923. Besides the three full-time teachers, eighteen members of the Bench and Bar of the Province have during the past year given their services as voluntary lecturers in various courses at the School.

The Law School occupies the first two floors of the north wing of the Forrest Building on Carleton Street. A new building was erected on the Studley Campus in 1921 which is designed for the use of the Law School as soon as a new building can be erected for Arts. The Library of the Law School contains over 9000 volumes, including practically all the English and Canadian Reports and a number of sets of legal periodicals.

#### Affiliated Courses.

A Bachelor of Arts of this University who has during his Arts Course taken the classes of the first year in

Law may complete a subsequent Law course in the University in two years. Only four of such classes may be counted towards the Arts degree. See page 30.

#### Arrangements with the N. S. Barristers' Society.

Arrangements have been made with the Nova Scotia Barristers' Society whereby the University, when the Society desires it, will appoint two co-examiners for any subject of examination, one of them to be nominated by the Society. The Society in return will exempt from its Professional Examinations holders of the degree of Bachelor of Laws from Dalhousie University, but expressly stipulates that the examinations passed by the student must have included one by co-examiners on Procedure and Practice.

As students are expected to familiarize themselves with the subject-matter of the subjects of examination, whether covered by the lecturer or not, they are advised to consult not only the reference books recommended by the lecturer, but also those in the printed syllabus of the Professional Examinations of the Nova Scotia Barristers' Society.

The following information abstracted from the regulations of the Society is given for the benefit of those seeking admission to the Bar in this Province.

Attention is directed to the fact that by recent action of the Society, the requirements of the Preliminary Examination for admission as an articled clerk have been raised, and that besides the Preliminary Examination a candidate for admission to the Bar of Nova Scotia has now to pass three professional examinations instead of two. These changes took effect as respects the Preliminary Examination on Jan. 1st, 1924, and as respects the professional examinations on July 1st, 1924.

An applicant for admission to the Bar must pass four examinations, Preliminary, First, Second and Third Professional.

#### Preliminary Requirements of the Society.

The Preliminary requirements must be satisfied before a candidate can be admitted as an articled clerk. In lieu of the examination certain certificates may be accepted. The subjects of examination are:

1. English; 2. Geography and History; 3. Mathematics;
4. Latin; 5. Greek, or French, or German; 6. Constitutional

#### General Regulations.

History; 7 and 8, any two of the following—Chemistry, Physics, Logic and Psychology, Surveying, Economics.

The grade of difficulty and comprehensiveness of the examinations is that of the corresponding examinations of the second year of a course in Arts of a recognized University. For the syllabus of the subjects see the printed regulations of the Society.

Candidates may be exempted from the Preliminary examinations, in whole or in part, as follows:

(a) A candidate who presents to the Secretary satisfactory certificates of having completed Matriculation into any College or University approved by the Council of the Society for the purpose, and also of having attended and passed at some College or University approved by the Council of the Society for the purpose, at least ten regular classes of the course for the degree of Bachelor of Arts, of which two shall be English, one Mathematics, two Latin and two in another foreign language.

(b) A candidate who presents to the Secretary a satisfactory certificate that he is the holder of the diploma of Bachelor of Arts from any College or University approved by the Council for the purpose.

#### Intermediate and Final Examinations of the Society.

"No candidate who does not hold the degree of Bachelor of Arts from a College approved for the purpose shall be admitted to an Intermediate examination unless he has served as a duly articled clerk for at least two years. Any candidate holding such degree may be admitted to the Intermediate examination after he has served as a duly articled clerk for one year."

The time during which a student must serve under articles of clerkship is three years, if (1), during this time he is a Bachelor of Arts, or, (2), at the time of application for admission to the Bar he is a Bachelor of Laws, of a recognized university. The time for all other students is four years.

A student during his term of service shall not engage in any employment, other than attendance at an institution of education in law, which will have the effect of interfering with such services.

#### General University Regulations.

University regulations applicable to the students of all Faculties and relating to registration, residence, church attendance, discipline, etc., will be found on pp. 17 et seq.

#### Degree.

The only degree conferred in the Faculty of Law is that of Bachelor of Laws (LL. B.).

**Academic Year.**

The Academic Year consists of one session of two terms covering a period of about thirty-six weeks. The first term of the session of 1926-27 will begin on Tuesday, September 14th, 1926, and end on Tuesday, December 21st, 1926. The second term of the session of 1926-27 will begin on Tuesday, January 7th, 1927, and end on Tuesday, May 17th, 1927. The last day on which students can register for the work of this session is Saturday, September 18th, at noon. Students are registered for the whole session only and not for one or other of the two terms.

**Admission.**

Students are admitted to classes either as Special students without formal examination, or as Undergraduates in Arts taking the Affiliated subjects in Law for the degree of Bachelor of Arts, or as regular Undergraduates in Law.

**Special students.**—Subject to the University regulations for the admission of students, (p. 9), a student may be admitted to classes in this Faculty as a Special student, but his attendance is not recognized as qualifying for a degree.

**Undergraduates in Arts.**—An undergraduate in Arts looking forward to the study of Law may take any four of the classes of the first year of the law course and have them count in place of three of the eight electives required for the degree of Bachelor of Arts (see p. 30). Such undergraduate should arrange his Arts Course, so as to take along with it the remaining subjects of the first year of the law course and thus be able to complete this course in two more years. For this purpose he should consult the Registrar early in his Arts Course.

Students who have Grade XII certificates and enter the Arts Faculty with advanced standing are advised that they cannot in general expect to complete the combined courses in Arts and Law in less than six years.

**Undergraduates in Law.**—All other candidates for admission must have completed Matriculation and must also present satisfactory certificates of having attended and passed at some degree-granting College or

**Admission.**

University recognized by the Senate for the purpose at least ten regular classes of the course for the degree of Bachelor of Arts, comprising two classes in English, one class in Latin, one class in French or some other foreign language, one class in Mathematics, one class in Political Science, and any four classes to be chosen from the following:—Latin, French or some other foreign language, History, Logic and Psychology, Economics, Political Science, Accounting, Chemistry or Physics, Surveying. These ten classes may be reduced to five in the case of students who enter with advanced standing. Candidates for admission who present satisfactory certificates of having received the degree of Bachelor of Arts or of Science in course at some degree-granting College or University recognised by the Senate for the purpose may be admitted as undergraduates in Law whether or not their course for that degree has included the above specified subjects.

Students presenting themselves for the first time to register in the Faculty of Law must submit to the Registrar their diplomas or certificates to establish their qualifications, and *these must prove acceptable before the student can be registered. Students are consequently advised to mail such certificates to the Registrar for appraisal, as far in advance as possible.*

Undergraduates of other approved law schools may, on producing satisfactory certificates, be admitted to advanced standing in this Law School. (p. 16).

**Matriculation.**

For details of the requirements for Matriculation, see pp. 10-16.

**Curriculum.\*****First Year.**—

*First Term.*—Contracts I, History of English Law, Property I, Crimes, Torts.

*Second Term.*—Contracts II, History of English Law, Property II, Crimes, Torts.

\*It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this Calendar are intended for the current year only, and that the Faculty does not hold itself bound to adhere absolutely to the curriculum and conditions now laid down.

**Second Year.—**

*First Term.*—Property II, Procedure I, Bills and Notes, Agency, Bankruptcy.

*Second Term.*—Property II, Procedure I, Corporations and Partnership, Equity I, Insurance.

**Third Year.—**

*First Term.*—Evidence, Constitutional Law, \*International Law, Procedure II, Practical Statutes, Shipping, Conflicts.

*Second Term.*—Evidence, Constitutional Law, \*International Law, Procedure II, Shipping, Mortgages and Suretyship, Equity II.

(\*) Optional.

The foregoing schedule is to be understood as subject to possible modification either by transposition of subjects from one term to the other, or otherwise.

Detailed information regarding the classes included in these courses will be found under Courses of Instruction, p. 99 *et seq.*

In addition to the work given in the regular subjects of the curriculum, special lecture courses will be given by members of the Bench and Bar. Attendance at these courses will be required.

The first of a series of special courses of lectures on Legal Institutions was delivered in April, 1926, by Ferdinand Roy, LL. D., K. C., of the Quebec Bar and Professor of Law in Laval University, on Quebec Laws and Institutions.

No student shall be allowed to take a class belonging to a year in advance of his own year without special permission from the Faculty.

No student shall be allowed to take classes in other faculties of the University, without special permission from the Faculty of Law.

The Faculty urgently recommends that students devote their whole time during sessions to the work of the School, experience having proved that students who undertake office work in addition to the work of their classes receive comparatively little advantage from the lectures.

**Attendance.**

In order to be permitted to write an examination, a student must have credit for attendance in 90 per cent. of the lectures or other meetings of the class in question.

**Examinations.**

Examinations in the subjects of the First Term will be held immediately before the Christmas vacation. Examinations in the subjects of the Second Term will be held after the close of Lectures in the spring, and will cover the whole work of the Session in these subjects.

**Supplementary Examinations.**

If a student fail to pass in not more than two subjects of his first year, or in not more than three subjects of his second or third year, at the sessional examinations he may be allowed a supplementary examination in such subject or subjects at the specified times for such examinations. In case of more serious failure he must repeat his year.

Students failing to pass in fifty per cent. of the work of any term will not be allowed to proceed with the work of the following term without special permission of the Faculty.

If a student fail in more than one subject of his year, he must pass in at least all but one of them at a subsequent supplementary examination before he can enter upon the studies of the next higher year.

Supplementary examinations in all subjects are held at the beginning of the session, and at the end of each term in the subjects of that term only, but at no other times.

Students who wish to present themselves at a supplementary examination must make written application at least two weeks before the period of the examination concerned, and the fee must in all cases accompany the application for examination.

**Medals and Prizes.**

**University Medal in Law.**—This medal will be awarded on graduation to the student standing highest

among those taking the full regular third year curriculum, provided he reaches a very high standard of excellence, and obtains First Class Distinction in at least all but three of the subjects of examination.

**Carswell Prizes.**—Books to the value of \$100, (\$20, for the first year, \$30 for the second year, \$50 for the third year) will be awarded to the students making the highest aggregates in their respective years.

#### Fees.

*All fees and deposits are payable in advance, and until these are paid the student will neither receive credit for attendance upon any class, nor be admitted to any examination.*

#### For Registration.

Payable by students taking only one class in the University	\$ 1.00
Payable by students taking more than one class	5.00
Additional, payable by all students registering after 12 noon on last regular registration day, for each day	2.00

#### For Tuition, Examinations and Diplomas.

For each class attended, when taken singly	\$ 50.00
Payable by those taking the regular prescribed curriculum, each year	150.00
Students deposit for the regular curriculum will be charged for each class singly; but the maximum charge for three years shall be	600.00
For each Supplementary examination	5.00
For LL. B. diploma (payable before the Third Year or final examinations, and returnable in case of failure)	10.00
Additional for degree conferred in absentia	5.00

A class taken a second time is charged for as if taken for the first time.

See page 20 for

**Fee for Support of Student Organizations.**  
**Caution Deposit.**  
**Students Loan Fund.**

## COURSES OF INSTRUCTION.

#### First Year.

##### Contracts I.

*Lecturer..... J. E. Read.*

*Five lectures per week, first term.*

This course includes a study of the general principles of the law of contract.

Text Books: Williston's *Cases: Aves on Contracts.*

##### Contracts II.

*Lecturer..... V. C. MacDonald.*

*Five lectures per week, second term.*

In this course the study of the general principles of contract law will be continued. The law governing the measure of damages, the Factors Acts, and the law governing the sale of goods will also be studied.

Text Books: Mayne: *Damages*. Palgrave's *Cases on Sales.*

#### History of English Law.

*Lecturer..... J. W. Godfrey.*

*Two lectures per week, both terms.*

This course includes a study of the development of the English law from the Anglo-Saxon period to modern times.

Text Books: Pollock and Maitland; *History of English Law*. Maitland: *Forms of Action*. Maitland and Montague: *Book of English Legal History*. Jenkins: *Short History of English Law*. Holdsworth: *History of English Law*.

#### Property I.

*Lecturer..... H. E. Read.*

*Three lectures per week, both terms.*

General principles of the law of Personal Property. Possession of lands and chattels. Elementary principles of the law of Real Property.

Text Books: Warren: *Cases on Property*. Kirkby: *Readings in the Law of Real Property*. Crimes.

*Lecturer..... A. L. Macdonald, I. C. Doty.*

*Two lectures per week, both terms.*

This course includes a study of the substantive law of Crimes and also Criminal Procedure.

Text Book: Thorne: *Canadian Criminal Code, Annotated.*

**Faculty of Law.****Torts.**

*Lecturer..... A. L. Macdonald.*

*Three lectures per week, both terms.*

This course includes a study of the whole field of Torts.  
Text Books: Kenner: *Cases on the Law of Torts.* Salmon: *Torts.* Pollock: *Torts.*

**Second Year.****Property II.**

*Lecturer..... J. E. Read.*

*Three lectures per week, both terms.*

This course will include a study of Real Property, the Wills Act, Drafting and Interpretation of Wills, Law of Landlord and Tenant, and Conveyancing.

**Procedure I.**

*Lecturer..... V. C. Macdonald.*

*Two lectures per week, first term; three lectures per week, second term.*

The course includes a study of the Judicature Act and Rules and also a conduct by the students of Proceedings in the Practice Court. The work is conducted under the supervision of the lecturer.

Text Book: *Nova Scotia Judicature Act and Rules.*

**Bills and Notes.**

*Lecturer..... H. E. Read.*

*Three lectures per week, first term.*

This course includes a study of the Bills of Exchange Act, and of the general principles of the law governing Negotiable Instruments. Text Book: Russell on Bills: *Preliminaries on Banking and Bills of Exchange.*

**Agency.**

*Lecturer..... V. C. Macdonald.*

*Three lectures per week, first term.*

This course includes a study of the principles of the law of Agency, including Master and Servant.

Text Book: Bowesland: *Agency.*

**Bankruptcy.**

*Lecturer..... R. F. Yeomas.*

*Two lectures per week, first term.*

The course is based upon the Bankruptcy Act and recent decisions of the Courts.

Text Book: *The Bankruptcy Act.*

**Corporations and Partnership.**

*Lecturer..... A. L. Macdonald*

*Five lectures per week, second term.*

**Courses of Instruction.**

101

The course includes a general survey of the leading principles of Company Law and Partnership, and also a study of the Dominion and Provincial Acts.

Text Book: Palmer: *Company Law.*

**Equity I.**

*Lecturer..... H. E. Read.*

*Five lectures per week, second term. (1927-28).*  
Specific performance. Injunctions.

Text Books: Smith and Read: *Cases on Equity.*

**Insurance.**

*Lecturer..... W. E. Thompson, F. H. M. Jones.*

*Two lectures per week, second term.*

The course includes a study of the law governing the different types of insurance.

**Third Year.****Evidence.**

*Lecturer..... A. L. Macdonald.*

*Two lectures per week, both terms.*

The course includes a study of the law of Evidence generally and of the Dominion and Provincial legislation.

Text Book: Pitman on Evidence. Cockish: *Cases on Evidence.*

**Constitutional Law.**

*Lecturer..... J. E. Read.*

*Three lectures per week, both terms.*

The course includes a general study of the principles of Constitutional Law applicable throughout the Empire, and a detailed study of the British North America Act and the principles peculiar to the Canadian Constitution.

Text Book: Read: *Cases on Constitutional Law.*

**International Law.**

*Lecturer.....*

*Two lectures per week, both terms.*

History of the development of International Law. The Law governing Nations during Peace and War, Neutrality. The Laws of War. International Law during the Great War. International Arbitration. The League of Nations.

Text Book: Stowell and Munro: *International Cases.*

**Procedure II.**

*Lecturer..... J. E. Read.*

*Three lectures per week, both terms.*

This course is a continuation of Procedure I. Instruction will also be given by special lecturers on Legal Ethics, Divorce Practice and Crown Rules.

## Practical Statutes and Rules of Interpretation.

*Lecturer.**Two lectures per week, first term.*

The course includes a study of the principles of Interpretation and also a study of some of the more important Provincial Statute Law.

Text Book: Maxwell: *Statutes.*

## Shipping.

*Lecturer.*

C. J. Barchell.

*One lecture per week, both terms.*

The course includes a study of the law of Shipping and of Admiralty Practice.

Text Books: McLachlan: *Shipping.* Mayes: *Admiralty Law and Practice*  
Murdoch: *Collision at Sea.* Lowndes: *General Average.*

## Conflict of Laws.

*Lecturer.*

H. E. Read.

*Five lectures per week, first term.*

The course includes a study of the leading principles of Private International Law.

Text Book: Falconbridge: *Cases on Conflict of Laws.*

## Mortgages and Suretyship.

*Lecturer.*

T. W. Murphy.

*Two lectures per week, second term.*

The course includes a study of the law governing mortgages and real estate and also the law of suretyship.

## Equity II.

*Lecturer.*

H. E. Read.

*Five lectures per week, second term. (1926-1927).*

The course includes a study of the law governing trusts and trustees, fraud, misrepresentation and mistake.

Text Book: Smith: *Cases on Trusts.*

## Faculty of Medicine.

## Preliminary Statement.

In accordance with an agreement entered into in 1911 between the Governors of Dalhousie University and the Corporation of the Halifax Medical College, the work of the latter institution was forthwith discontinued, and instruction in all subjects of the medical curriculum was undertaken by the University.

By an arrangement between Dalhousie University and the Provincial Medical Board of Nova Scotia, the final Professional Examinations are conducted conjointly by the University and the Board, and hence candidates may qualify at the same time for the academic degree and the licence of the Board.

## Important Notice.

Students who look forward to practising in some other province are reminded that they must conform to the regulations prescribed by the Medical Board or Council of that province. Official information relative to the regulations for licence to practice in the various provinces may be obtained from the Registrars of the Provincial Medical Boards or Councils. In as much as some licensing boards require that applicants for the licence to practice must have been registered as medical students for five years before taking their final professional examinations, students are advised to register with the licensing board of the province or state to which they belong on commencing their medical studies. The names and addresses of the Registrars of the Medical Boards for the Maritime Provinces and Newfoundland are as follows:

Nova Scotia, Dr. W. H. Hattie, Halifax.  
New Brunswick, Dr. S. H. McDonald, St. John.  
Prince Edward Island, Dr. Jas. Warburton, Charlottetown.  
Newfoundland, Dr. T. M. Mitchell, St. John's.

**Privileges.**

The General Medical Council of the United Kingdom admits graduates in Medicine of Dalhousie University who have passed the professional examinations conducted jointly by the University and the Provincial Medical Board, and have been licensed by the Board, to registration in the Colonial List of the British Medical Register. This confers precisely the same privileges as registration on the British List, viz., the right to obtain, without further examination, the licence to practise medicine in practically any part of the British Empire and also in Italy and Japan, and, further, admission to the army and other medical services. Graduates of Dalhousie University are accordingly eligible for nomination under the following Militia Order:

"The Imperial Army Council has intimated that two commissions in the Royal Army Medical Corps will be granted annually to candidates who have qualified in the Medical Schools of Canada."

For information relative to registration in the Colonial List of the British Register application should be made to the Registrar of the Provincial Medical Board of Nova Scotia. Information with regard to the Army Commission will be furnished upon application to the Militia Headquarters of the nearest Command or District.

**Equipment and Facilities for Teaching.**

The laboratories of physics and chemistry, on the Studley site, are used for the practical instruction of medical students in these subjects, and are thoroughly modern in design and equipment. A description of these laboratories will be found in the earlier pages of this calendar.

The laboratories of biology, histology, embryology and anatomy are situated in the Forrest Building, where the didactic teaching in these and in some other subjects is carried on. The equipment of the biological laboratory was recently largely increased through the liberality of Sir James H. Dunn, of London. The

completion of the new Medical Sciences Building has provided room in the Forrest Building for extension of the laboratories of anatomy, biology, histology and embryology and for more museum space for these branches of the curriculum. The department of anatomy is well supplied with models, sections, etc. and lends bones to students, for home study, free of charge. A very satisfactory Anatomy Act assures abundant material for dissection and operative surgery.

The laboratories of pathology, bacteriology and public health, of the Victoria General Hospital, were designed to provide for teaching and research in these subjects and made available to this University. The building which accommodates these laboratories has recently been greatly enlarged and provides superior facilities for the practical instruction of students.

The laboratories for Physiology, Bio-chemistry, Pharmacology and Pharmacy are located in a new building adjoining the Forrest Building. These laboratories, which were carefully designed to meet the requirements of modern teaching, are commodious, well lighted, and very completely equipped. Generous provision has been made for research work, and special attention has been given to the comfort and convenience of the students both in the laboratories and in the two large lecture rooms and a demonstration room which are included in the building.

The opportunities for clinical teaching are exceptionally good, owing to the fact that the Victoria General Hospital, the Children's Hospital, the Tuberculosis Hospital, the Grace Maternity Hospital, and the City Home are all grouped about the Medical College. The University has recently erected a new building, known as the Dalhousie Public Health Clinic which was planned to serve as an out-patient department to these various institutions, and to which the Halifax Visiting Dispensary has removed. Here, too, the work of various agencies which are concerned with the promotion of public health is centred. This building not only materially increases the students' opportunities for clinical study of the commoner illnesses, but provides facilities for demonstrating the bearings of social and home conditions upon health.

Students are admitted to all the hospitals mentioned upon terms which are unusually favourable for clinical teaching. The Victoria General Hospital, with 250 beds, affords admirable opportunities for the observation and study of the more acute and serious forms of disease, and maintains a very active surgical service. In its special wards, diseases of women and children, skin diseases and diseases of the eye, ear, nose and throat are studied clinically. The X-ray department of the Hospital is very complete, and excellent laboratory facilities are provided for the investigation of special clinical problems. The Children's Hospital (55 beds), the Tuberculosis Hospital (60 beds), and the Grace Maternity Hospital (70 beds), are all admirably equipped, and the advantages they offer for clinical instruction are made fully available to the University.

Opportunity for the study of the more chronic diseases is provided in the hospital wards of the City Home.

Clinical instruction in mental disorders is given at the Nova Scotia Hospital, Dartmouth, which accommodates 480 patients, and which offers to students the privilege of studying any type of disease which may be under treatment in the institution.

Arrangements have been made for instruction of students in problems of nutrition at the Halifax Infants' Home.

#### Public Health Nursing.

In March, 1920, the University initiated a Course in Public Health Nursing for graduate nurses. It is intended to continue it from year to year. A circular giving details of the Course can be had on application to the University Office.

#### General University Regulations.

University regulations applicable to the students of all Faculties and relating to registration, residence, church attendance, discipline, etc., will be found on pp. 17 et seq.

Medical students must further observe the regulations of the hospitals relative to students and student internes, and any violation of such regulations will be dealt with in the same way as if a University regulation were violated.

The University, in recognition of its responsibility to the public, and for its own reputation, reserves the right to terminate the attendance of any student at any time should it appear that he is unlikely to reach such a standard, either educationally or ethically, as would warrant his admission to the practice of medicine. Fees cannot be refunded to students who have been dismissed for any cause.

#### Academic Year.

The Academic Year consists of one session of eight months' duration. The session of 1926-27 will begin on Tuesday, Sept. 14th, 1926, and end on Tuesday, May 17th, 1927. Registration dates for the classes in the Faculty of Arts and Science preliminary to the Medical curriculum will be found on p. 28.

#### Degrees.

Two medical degrees are conferred, viz., Doctor of Medicine (M. D.) and Master of Surgery (C. M.); but neither degree is conferred on any person who does not at the same time obtain the other.

#### Admission and Grading.

All persons who have satisfied the Entrance Requirements (p. 15) in Medicine are admitted to the full work of the first year.

For admission to any subsequent year an undergraduate must have passed the examinations required in all subjects of the preceding years. The number admitted in any one year will be limited by the extent of the Hospital facilities of the clinical years. Students who fail in the spring examinations may come up for supplementary examinations in the autumns under the following conditions:

(a) In the case of students of the final year, supplementary examinations will not be allowed in more than two subjects.

(b) In the case of students of other years, the number of subjects in which supplementary examinations will be allowed will at no time exceed three.

(c) In the case of students of all years, those who fail to pass in all of the subjects of their year at the spring examinations, or to pass at the next ensuing supplementary examination all subjects in which they may have been allowed examination, must repeat attendance on all the courses of the year before again coming up for examination.

Subject to the University regulations for the admission of students, a Special student may be admitted to classes in this Faculty, but his attendance is not recognized as qualifying for a degree.

Women are admitted to classes under the same conditions as men.

No person under sixteen years of age is admitted to any class.

#### Entrance Requirements.

Full details of the requirements for Entrance will be found on pp. 11-16.

#### \*Curriculum.

The course for the degrees of Doctor of Medicine and Master of Surgery extends over five years. Detailed information regarding the classes included in it will be found under "Courses of Instruction," pp. 116 *et seq.*

The following division of the curriculum into years and the corresponding examinations will probably be somewhat modified before the opening of the session.

*First Year.* Physics 20, Chemistry 2A and 4, Anatomy 1 and Practical Anatomy 1, Histology, Embryology, History 2A.

\*It is to be distinctly understood that the regulations regarding courses of study examinations, fees, etc., contained in this calendar are intended for the current year only, and that the Faculty does not hold itself bound to adhere absolutely to the curriculum and conditions now laid down.

*Second Year.* Anatomy 2 and Practical Anatomy 2, Structural Neurology, Physiology 1, 3, Biochemistry 1, Bacteriology 1, 2, Practical Materia Medica, Introduction to Clinical Medicine and Surgery.

*Third Year.* Physiology, Biochemistry and Pathological Chemistry, Laboratory Diagnosis, Pharmacology, Pathology, Psychology, Medicine and Clinical Medicine, Surgery and Clinical Surgery.

*Fourth Year.* Pathology (Morbid Anatomy), Therapeutics, Medical Jurisprudence and Toxicology, Abnormal Psychology and Psychiatry, Obstetrics, Gynaecology and Clinical Gynaecology, Medicine and Clinical Medicine, Surgery and Clinical Surgery, Autopsies.

*Fifth Year.* Surgical Anatomy, Operative Surgery, Paediatrics, Hygiene, Ophthalmology and Otology, etc., Clinical Medicine, Clinical Surgery, Clinical Obstetrics, Vaccination, Clinico-pathological conferences, Autopsies, History of Medicine and Medical Ethics.

#### Regulations for Degrees.

In addition to the Matriculation and Entrance examinations, candidates for degrees are required to pass five Professional Examinations. The requirements in each subject are covered by the work of the class or classes in that subject specified under "Courses of Instruction" (pp. 116, *et seq.*). In all examinations the marks obtained at sessional tests and at Christmas examinations will be considered in computing the marks allowed in each subject at the spring professional examinations. The examinations in the various subjects will be held within the dates set in the University Almanac, and as posted on the Notice Boards, and are arranged as follows:

##### First Professional Examination.

One paper in each of the following subjects: Physics 20, Anatomy, Histology, Embryology, History 2A; one paper and a practical examination in Anatomy and in each of Chemistry 2A and 4; oral examinations during the session in Anatomy, Histology and Embryology.

**Second Professional Examination.**

One paper and an oral examination in each of the following subjects: Anatomy, Structural Neurology, Bacteriology, Practical Materia Medica; one paper and an oral and practical examination in each of the following: Physiology, Bio-Chemistry.

**Third Professional Examination.**

A paper and an oral examination in each of the following: Pathology 1, Physiology 2 and Pharmacology; a paper and an oral and practical examination in Bio-Chemistry; a practical examination in Pathology 2; a paper in each of the following: Surgery, Medicine; a practical examination in Laboratory Diagnosis.

**Fourth Professional Examination.**

One paper in each of the following subjects: Surgery, Medicine, Obstetrics and Gynaecology, Medical Jurisprudence and Toxicology, Therapeutics, Abnormal Psychology and Psychiatry.

**Fifth or Final Professional Examination.**

One paper and an oral examination in each of the following subjects: Surgery in all departments and including Surgical Anatomy; Medicine in all departments and including Therapeutics; Obstetrics and Diseases of Women and Children; Hygiene. Also a practical clinical examination in Surgery and in Medicine.

**Pass and Distinction Lists.**

The names of candidates successful in the examinations are arranged in the published lists in two divisions, the Pass and Distinction divisions. To pass, a candidate must obtain a minimum mark of 40 per cent. in all subjects of the first year except Anatomy, Histology and Embryology, in which and in all other subjects a minimum of 50 per cent. is required.

For Distinction in any subject he must obtain a mark of 75 per cent. or over in that subject. The

names in the Pass division of the list are arranged in alphabetical order; the Distinctions are in order of merit.

**Admission to Examinations.**

Candidates for admission to Degree examinations must conform to the following requirements:

1. They must have satisfied the Entrance requirements (p. 15).

2. They must have attended the prescribed classes regularly and punctually. Certificates indicating less than 90 per cent. of attendance upon any class will not in ordinary circumstances be accepted.

3. They must have prepared such exercises, reports, etc., as may have been prescribed, and, in the case of classes involving laboratory or practical work, they must have completed such work satisfactorily.

4. For admission to the examinations of the second or any higher year they must have passed the examinations of all previous years.

5. Candidates for the Final Professional examination will be required to subscribe to the following declaration with regard to their age:

Hallax..... 19...

I, the undersigned, being desirous of obtaining the Degrees of Doctor of Medicine and Master of Surgery do hereby declare that I have attained the age of twenty-one years (or, if the case be otherwise, that I shall have attained the age of twenty-one before the next graduation day).

(Signed).....

They must also present satisfactory certificates of having fulfilled the following requirements:-

i. Attendance (a) during at least two periods of eight months each on the practice of the Victoria General Hospital; (b) during at least one period of eight months on the practice of the Dalhousie Health Cen-

tre; (c) on at least ten maternity cases at Grace Maternity Hospital; (d) on the post-mortem examinations conducted at the Victoria General Hospital over a period of at least six months, during which instruction shall have been received in the methods of making such examinations and in framing reports; (e) on a course in operative surgery, during which operations shall have been performed on the cadaver to the satisfaction of the demonstrator.

ii. Service for at least eight months, in the Victoria General Hospital, as (a) clinical clerk in the medical wards; (b) dresser in the surgical wards; and of having submitted complete histories in fifteen medical and fifteen surgical cases.

iii. Received instruction and attained proficiency in (a) administration of anaesthetics; (b) practice of vaccination.

#### Supplementary Examinations.

1. The conditions under which supplementary examinations are allowed are set forth under "Admission and Grading" (p. 107).

2. Supplementary examinations are held in the autumn on the dates specified in the University Almanac, and during the regular Professional examinations in the spring, but at no other times.

3. Application for admission to a Supplementary examination must be made on or before the date set in the University Almanac for receiving applications, on a form to be obtained from the University Office and must be accompanied by the proper fee (p. 115).

#### Exemptions.

Candidates may be exempted from attending on one or more subjects of the first four years of the medical curriculum on presenting certificates,

- (a) of having satisfied the requirements for admission to the Faculty of Medicine (see page 15); and

- (b) of having attended and performed at any medical school or college recognized by the Senate the equivalent of the work required at this University.

Candidates may be exempted from examination in one or more subjects of the first four Professional examinations on presenting in addition to the certificates specified under (a) and (b) above, certificates of having passed equivalent examinations at any medical school or college recognized by the Senate for the purpose.

#### Sponsio Academica.

Before admission to his degree, a candidate shall be required to sign the following oath or affirmation:

*In facultate Medicinae Universitatis Dalhousiensis.*

Ego, Doctoratus in Arte Medica titulo jam donatus, sancto coram Deo confidit scrutatorum, spesde—ne in omni grati animi officio erga Universitatem Dalhousiensis ad extremum vitæ holitum, perseveraratur. Tam perno Artem Medicam castæ, castæ, proleque exercitigurum et quod potero, omnia ad segrotorum corporum salutem condonata, cum fide procuravimus. Quae denique, inter medieandam via vel audita siere conveusat, non sine gravi causa vulgaturum. Ita præcessu nihil spesdesti adit Nomen.

#### Medals and Prizes.

**University Medal in Medicine.**—This medal will be awarded on graduation to the student with the highest standing, provided he has reached the high standard set by the Faculty for that purpose.

**The Dr. Clara Olding Prize.**—This prize, of the value of \$40, the interest of an endowment of \$1,000, by Dr. A. M. Hebb, of Dartmouth, as a memorial to his deceased wife, will be awarded annually to the student making the highest aggregate in the examinations of the fourth year, character and previous scholarship being taken into consideration.

**The Dr. Lindsay Prize.**—A price of books will be awarded to the student who stands first among those taking the second Professional examination, provided he shall have obtained Distinction in at least two of the subjects of examination.

**Professor Cameron's Prize.**—A prize of books will be awarded to the student of the first year who makes the highest marks in the Anatomy class.

#### Fees.

*All fees and deposits are payable in advance, and until these are paid the student will not receive credit for attendance upon any class nor will he be admitted to any examination.*

#### \*For Registration.

Payable by students taking only one class in the University	\$3 00
Payable by students taking more than one class	5 00
Additional, payable by all students registering after 12 noon on last regular registration day for each day	2 00

#### For Tuition.

##### Payable by Students Taking Individual Classes.

Practical Anatomy, each year	\$50 00
All other classes, each	40 00
Admission to Victoria General Hospital, Pathological Laboratory, Children's Hospital, Maternity Hospital, Health Centre, each	5 00

The fees payable for attendance upon classes a second time shall be in accordance with the above schedule, but the total tuition fee for such classes shall in no case exceed one hundred and twenty-five dollars, exclusive of fees for admission to hospitals, etc.

The amount payable by a candidate for a degree who may be completing his course by attendance of only one year at Dalhousie University, shall be in accordance with the above schedule, provided that the amount so payable be in no case less than two hundred dollars.

##### Inclusive Fee Payable by Students Taking the Regular Classes of Any Year of the Curriculum.

For each year	\$200 00
---------------	----------

This includes registration, tuition, hospitals, laboratory and the regular sessional examinations. Students taking the affiliated courses in Arts or Science and Medicine will pay the fees for courses as in Arts during the first three years and the full rate of \$200.00 for the fourth year. That is, all students affiliated in Arts or Science and Medicine will pay the full medical fees for five years of their medical course.

\*Students who register only for the purpose of taking examinations are exempt from the payment of this fee.

#### Fees.

##### For Examination.

*An application for an examination must be accompanied by the proper fee.*

Individual subjects of medical examination, each subject	\$ 5 00
Supplementary examinations, each subject	10 00

#### For Certificates and Diplomas.

*An application for a Certificate or Diploma must be accompanied by the proper fee.*

Certificate under the University seal	1 00
For M. D., C. M. Diploma (payable before the final examination and returnable in case of failure)	10 00
Diploma, payable by those attending less than 4 years	30 00
Diploma, extra when conferred in absentia	5 00

See pages 19 and 20 for

Caution Deposit.
Laboratory Deposit.
Fee for Support of Student Organizations.
Students' Loan Fund.

## COURSES OF INSTRUCTION.

## I. English.

- Associate Professor*..... C. L. Bennett.  
**IA.** Composition and Literature.—*Monday, Wednesday and Friday, 2.00-3.30 p. m.*  
 A course for pre-medical and pre-dental students.

## II. History.

- Professor*..... A. Stanley Walker.  
**IA.** History of Thought.—*Monday and Wednesday, 3.30-4.30 p. m.*

An outline history of civilization from the Stone Age to modern times. A lecture course, in the main, but illustrated with set collateral reading and exercises for pre-medical and pre-dental students

- 2A.** Influence of Science on Civilization.—*Monday and Wednesday, 11-12 a. m.*

A course of lectures given by individual professors to first year medical students.

## III. Physics.

- 1.** General Physics.—*Monday, Wednesday and Friday, 10-11 a. m. Laboratory: Monday or Wednesday, 11-1.*

As under Faculty of Arts and Science, for pre-medical and pre-dental students.

- 2B.** Light, Sound, X-Radiation and Radio-Activity.—*Lectures: Monday and Wednesday, 9-10 a. m. Laboratory: Tuesday or Thursday, 9-12 a. m.*

As under Faculty of Arts and Science, for first year medical students.

## IV. Chemistry.

- 1A.** General Chemistry.—*Lectures: Monday, Wednesday and Friday, 9-10 a. m. Laboratory: Tuesday and Thursday, 2.30-3 p. m.*

As under Faculty of Arts and Science, for pre-medical and pre-dental students.

- 2A.** Advanced Inorganic Chemistry and Qualitative Analysis.—*Lectures: Saturday, 9-10 a. m. Laboratory: Tuesday or Thursday, 9-12 a. m.*

Pre-requisite.—Chemistry 1A.

Laboratory: The detection of the more common basic and acidic ions and the analysis of simple unknown substances.

Books Recommended: McPherson and Henderson: *A Course in General Chemistry*; Smith and Kendall: *Inorganic Chemistry*; Talbot and Blanchard: *Electrolytic Dissociation Theory*; Perkins: *Qualitative Chemical Analysis*.

## Courses of Instruction.

## 117

- 4.** Organic Chemistry.—*Lectures: Monday and Wednesday, 10-11 a. m. Laboratory: Saturday, 10-1 p. m.*

As under Faculty of Arts and Sciences.

## V. Biology.

- Biology IA.**—*Lectures: Tuesday, Thursday and Saturday, 9-10 a. m. Laboratory: Tuesday, Thursday and Saturday, 10-12 a. m.*

Pre-requisite.—Matriculation Physics or Chemistry.

This class, for pre-medical and pre-dental students similar in scope to Biology I (p. 82), treats of materials and methods especially important for students proceeding to Medicine or Dentistry, the comparative anatomical viewpoint being emphasized. A complete dissection of the cat is included.

Text Books: Parker and Parker: *Practical Zoology*; Davidson: *Mammalian Anatomy*, with special reference to the Cat (4th ed.); Curtis and Gutierrez: *Laboratory Dissections in General Zoology*; Gansing: *Textbook of Zoology*.

## VI. Anatomy.

- Professor*..... John Cameron.  
*Demonstrations*: W. Alan Curry, G. W. Grant, Victor O. Mader.

## Anatomy Lectures.

- 1.** Osteology and Arthrology.—*Monday and Wednesday, 12-1 p. m.*

This course is intended for first year students. The entire skeleton with the exception of the cranial bones will be carefully studied, the bones and joints being examined in detail. All the ordinary bones of the skeleton are supplied to students, both in the Practical Anatomy Room, and for study at home, on their making a deposit of the proper fee.

- 2.** Regional Anatomy.—*Friday 12-1 p. m., and Tuesday and Thursday, 2.30-3.30 p. m.*

This part of the course will be given during the second year and will be devoted to the consideration of the cranial bones and of the Regional Anatomy of the body. Lectures will be illustrated by fresh dissections, plates, diagrams and models.

Text Books: Cameron: *Regional Anatomy*; Cameron: *Osteology & Arthrology*.

- 3.** Surgical Anatomy.—*Friday, 4-5 p. m.*

This course, to be taken by students of the final year, will consist of additional lectures and demonstrations on those portions of anatomy which are essential for the understanding of practical medicine and surgery, and is therefore intended for students who are engaged in clinical work.

## Practical Anatomy.

Special attention will be given to this branch. The dissecting room will be open daily, except Saturday, and will be under the

**Faculty of Medicine.**

direct supervision of the Professor of Anatomy, assisted by the Demonstrators, one or other of whom, in addition to the Professor, will be present during the hours while the class is in session every day, so that each student will be frequently examined and assisted during the progress of his dissections.

The course extends over two years, during which the student is required to have dissected each "part" at least once. Dental students must dissect the head and neck and one other part in each year.

A Tutorial Class in Osteology, for medical students of the first year, is held once a week.

**Histology and Embryology.**

*Associate Professor*..... Raymond J. Bean.  
*Assistant*.....

**Embryology**—*Monday, 2.30-5.30 p. m.; Friday, 9-10 a. m.*

This course is intended primarily for medical students of the first year. It consists essentially of laboratory work supplemented by oral discussions once per week. The problems of fertilization, segmentation, the development of the embryo, and its protective membranes, are worked out in the laboratory by dissections and the intensive study of slides. The materials used include the frog, chick, rabbit, pig, and human.

A close relationship is maintained between embryology and histology, and the laboratory work in embryology will occasionally be extended so as to include a portion of the time allotted to the course in histology.

Organogenesis, the physiology of the embryo, and factors which underlie growth and differentiation are the particular aims of this course.

Dental students will be given special instruction on the growth and development of the teeth.

**Histology**—*Tuesday and Thursday, 2.30-5.30 p. m.*

This course consists essentially of laboratory work and is intended to meet the requirements of medical students of the first year. It deals with the minute structure of the tissues and organs of the human body, their development, and primary functions.

Students will be carefully trained in the principles of tissue differentiation, and frequent tests involving the identification of unknown slides and fresh preparations will constitute an important part of the work.

Dental students will be provided with both dried preparations and sections of decalcified teeth in situ, and will receive special instruction upon the microscopic structure of the teeth.

**Courses of Instruction.****Structural Neurology.**

*Professor*..... John Cameron.  
*Associate Professor*..... R. J. Bean.

**Part I. Gross Anatomy.**

This course is intended primarily for medical students of the second year. It consists of a series of lectures and demonstrations by Prof. Cameron on the gross anatomy of the nervous system. The lectures, 15 in number, are illustrated by diagrams and fresh dissections. In addition, each student is required to make a complete dissection of the human brain and spinal cord, the laboratory work covering 25 hours.

**Part II. Histology.**

This portion of the course, also for students of the second year, consists of 12 lectures and 10 laboratory periods of 2 hours each. The lectures are illustrated by charts, diagrams, and lantern slides. The laboratory work consists of a thorough study of the microscopic structure of the entire brain stem. The principal nerve tracts, fasciculi, nuclei, and fiber systems are studied with special reference to their functional importance.

**VII. Physiology.**

*Professor*..... Boris Babkin.  
*Associate Professor*..... N. B. Dwyer.

**1. Waterday, Thursday and Saturday, 9-10 a. m.**

A course of lectures and demonstrations intended for the students of the second year, and comprising the physiology of circulation, respiration, nerve and muscle physiology, ductless glands, temperature of the body, sense organs. It is to be taken concurrently with Physiology 3.

**2. Monday and Thursday, 3-4 p. m.**

A course of lectures and demonstrations intended for the students of the third year, and comprising the physiology of digestion, renal function, central nervous system and autonomic nervous system.

**3. Junior Practical Experimental Physiology**—*Wednesday, 11 a. m.-1 p. m.*

In this course the students of the second year will perform certain simple experiments and obtain records of them.

**4. Mammalian Practical Experimental Physiology**—*Wednesday, 2.30-5.30 p. m.*

An advanced practical course during which the students of the third year will perform the experiments and obtain the records of them.

Text Books: Halstedson: *Handbook of Physiology*; Howell: *Text Book of Physiology*; Martini: *Physiology and Biochemistry in Modern Medicine*; Starling: *Principles of Medicine*; Piersol: *Practical Physiology*, Part I—*Alternative*; Aarø and Harts: *Practical Physiology*; Paul: *Elementary Medical Events*; *Recent Advances in Physiology*; Bayliss: *Principles of General Physiology*.

**VIII. Bio-Chemistry.**

<i>Professor.....</i>	E. Gordon Young.
<b>1. Lectures.</b> — <i>Tuesday, 11-12 a. m. Laboratory: Monday, 10-1 p. m.</i>	

A course of lectures, conferences and laboratory work given to students of the second year inclusive of the chemistry of the carbohydrates, fats, proteins and related substances.

<b>2. Lectures.</b> — <i>Monday, 9-10 a. m. Laboratory: Saturday, 9-12 a. m.</i>	
--	--

A course of lectures and laboratory work given to students of the third year in the biochemistry of nutrition, digestion, metabolism and excretion in physiological and pathological aspects.

*Text Book:* Hawk, *Practical Physiological Chemistry*. *Reference Books:* Mathews: *Physiological Chemistry*; Von Futtik: *Chemistry of Metabolism*; Wells: *Chemical Pathology*; Moore: *Applied Biochemistry*.

<b>3. Laboratory Diagnosis.</b> — <i>Tuesday 4-6 p. m.</i>	
--	--

A course of lectures and laboratory work for third year students in the examination of sputum, stomach contents, faeces, blood, urine, exudates and transudates, with reference to diagnosis.

Each student will be required to provide himself with a haemocytometer.

*Text Book:* Hutchinson and Bailey: *Physical Methods*. *Reference Books:* Webster: *Diagnostic Methods*; Salkin: *Laboratory Diagnosis*.

**IX. Pathology, Bacteriology and Parasitology.**

<i>Professor.....</i>	Albert G. Nicholls.
<i>Assistant Professor.....</i>	Donald J. MacKenzie.
<i>Demonstrator in Bacteriology.....</i>	J. N. Lyons.

*Demonstrator in Pathology.....* Gerald W. Grant.

**Pathology.**

<b>1. Lectures.</b> — <i>General Pathology.—Monday and Wednesday, 11 a. m.</i>	
--	--

A course of lectures to third year students during the First and Second Terms, dealing with the general principles of Pathology, in which the following subjects will be considered: the morphology, physiology and chemistry of the cell; the causes of disease; the morbid processes; the tissue changes; reaction and adaptation, metaplasia; blood and circulation. A written test is held at the end of the first term. The oral examination will be held on the completion of the course, the final written examination in the spring.

<b>2. Laboratory Work. Morbid Histology.</b> — <i>Monday and Wednesday, 9-11 a. m.</i>	
--	--

A course during the First and Second Terms given to students of the third year. The lesions affecting the various organs will be

**Courses of Instruction.**

taken up systematically, and instruction will be given in the cutting, staining and mounting of histological preparations. A representative series of microscopical preparations will be lent to each student for purposes of study, after the mechanical technique shall have been mastered. The student will be expected to make drawings of his sections. A practical examination will be held in the spring.

**3. Morbid Anatomy and Post Mortem Examinations.**

Demonstrations to students of the third year will be given at suitable times on Morbid Anatomy. Systematic instruction will be given on this important subject to students of the fourth year, two hours weekly.

The students of the third, fourth and fifth years are required to attend and assist at all autopsies. They will receive instruction in the proper conduct of the same, and will be expected to prepare and mount all tissues removed at autopsy for purposes of diagnosis and report upon them.

**4. Clinico-Pathological Conferences.**—*Tuesday, 11 a. m.*

As opportunity arises, conferences will be held in room 18 of the Pathological Institute, conducted by the clinicians and pathologists. Interesting and instructive cases will be presented, special attention being given to the course and development of the disease, the clinical diagnosis, and the final pathological findings. Students of the fourth and fifth years are expected to attend and take part in the discussions.

**Bacteriology.**

<b>1. Lectures.</b> — <i>Tuesday, Thursday and Friday, 11-12 a. m. (First Term); Tuesday and Friday, 11-12 a. m. (Second Term).</i>	
---	--

A course of lectures to second year students during the First and Second Terms. The nature of bacteria, their morphology, staining reactions, and mode of growth will be discussed, as well as regular instruction given on their relationship to infective processes, immunity and immunity reactions will also be considered in a specially planned short course. A written test is conducted at the end of the first term. A written and an oral examination will be held in the spring.

<b>2. Laboratory Work.</b> — <i>Tuesday and Friday, 9-11 a. m. (First Term); Tuesday, 9-11 a. m. (Second Term).</i>	
---	--

A course during the First and Second Terms for students of the Second year, in which will be considered the various culture media, methods of laboratory technique, the mode of growth and specific reactions of the more important bacteria. Particular attention will be given to methods of bacteriological diagnosis as applied to clinical medicine. Students will have an opportunity of making permanent preparations of the various organisms considered for purposes of future study. A short practical course will be provided also in immunology (for medical students only).

## Parasitology.

About twenty lectures and demonstrations are given during the Second Term at the close of the regular course in Bacteriology to students of the Second year in Medicine. This course is elementary and only intended to be a basis for a clearer understanding of the more important diseases due to protozoan and metazoon parasites.

*Text Books:* *General Manual of Pathology*, Mallory; *Pathological Histology*, Jordan; *Text Book of General Bacteriology*, Mackie & McCartney; *Introduction to Practical Bacteriology*, Buchanan; *Biology of the Micro-Organisms*, Karrer & Ede; *Principles of Immunology*, Chodat; *Animal Parasites*.

## X. Pharmacology.

*Professor* ..... O. S. Gilby.  
*Lecturer in Materia Medica* ..... G. A. Burbidge.

## Pharmacology.

*Lectures*.—Monday, Wednesday and Thursday, 10-11 a. m. Laboratory.—Friday, 3-5 p. m.

This course consists of a systematic study of the actions of drugs on animals and man. Attention is chiefly directed to the substances of therapeutic, or general scientific interest. Questions are encouraged, and questioning is practiced largely during the lecture periods.

The more important actions are illustrated by means of experiments and demonstrations.

During the last results of the session special attention is devoted to prescription writing, emphasis being laid not only on the pharmacological action, but also on the methods of administering drugs.

Efforts are especially directed in this course to forming a good basis of practical and theoretical knowledge, from which a sound and rational therapeutic use of drugs may be derived.

*Text Book:* *Canfield's Pharmacology and Therapeutics*. Reference Books: *Pharmacology*, after Laboratory Guide; *Jackson's Applied Pharmacology*; *Reynolds' and D. S. P. Martindale and Woottton's Extra Pharmacopoeia*; *A. M. A. New and Non-Official Remedia*.

## Practical Materia Medica.

## I. Practical.—Saturday, 10-12 a. m.

This course, given in the second year, aims to provide an elementary knowledge of prescriptions and dispensing. The following are discussed: weights and measures; simple pharmaceutical processes; classification and definition of Galenical preparations; notifications; composition and doses of a selected number of pharmaceutical preparations; elementary surgical procedure; pharmaceutical classification of medicinal principles; plants; common chemical and pharmaceutical incompatibilities. Frequent practice is given in copying and reading prescriptions. So far as possible, instruction is imparted by means of practical laboratory exercises.

*Text Books:* *M. C. F. Jessie's Pharmacy Note*.

*Reference Books:* *Reynold's Art of Compounding*; *British Pharmacopoeia*; *U. S. Pharmacopeia*; *Canadian Formulary*.

## Courses of Instruction. 123

## XI. Surgery.

*Professors* ..... E. V. Hogan (*Head of Department*), John Stewart  
*Associate Professors* ..... J. G. MacDougall, Philip Weatherbe,  
*Lecturer* ..... W. Alan Carry.

## Lecture Courses.

1. A course of lectures, two hours per week, on the general principles of Surgery, to be given during the third year.

2. A course of lectures, two hours per week, on Regional Surgery, to be given during the fourth year.

*Text Books:* Rose and Carles, *Thomson and Miles*. For Reference: *American System*, Wharton and Curtis.

## Operative Surgery.

3. This course, conducted by Dr. Weatherbe, will be given in the final year. While descriptive instruction will be given by the teacher, students themselves, under supervision, will be required to perform operations on the cadaver.

*Text Books:* Tocino, Waring, McGehee.

## XII. Clinical Surgery.

*Professors* ..... E. V. Hogan (*Head of Department*), H. K. MacDonald.  
*Associate Professors* ..... J. G. MacDougall, G. H. Murphy.  
*Lecturers* ..... Frank G. Mack, W. Alan Carry.  
*Demonstrators* ..... L. Thomas, J. F. Lessel, W. L. Muir, P. Weatherbe, M. G. Barrie, V. L. Miller, D. J. Macdonald, J. N. Lyons, T. B. Acker, F. D. MacLaren.

*Clinical Surgery*.—A short course introductory to Clinical Surgery will be given to second year students by Dr. Miller.

In addition to lectures on cases at the Hospitals and Health Centre, students of the fourth and fifth years are individually trained at the bedside in diagnosis and treatment. Students of the fourth year receive clinical lectures three days a week.

*Practical Surgery*.—The application of bandages, splints, and other surgical appliances, the use of instruments and the treatment of emergencies and cases of minor surgery is taught by Dr. Thomas in the third year. A course of instruction in the administration of anaesthetics is given by Drs. Lessel and Muir.

## XIII. Medicine.

*Professor* ..... L. M. Silver.  
*Associate Professor* ..... K. A. MacKenzie.  
*Lecturer* ..... S. R. Johnston, J. A. Churchill, J. R. Corson.

1. A course of lectures and recitations, two hours per week, in which diseases of the digestive, circulatory and respiratory systems, blood and ductless glands will be discussed, in the third year.

2. A course of lectures and recitations, two hours per week, in which infectious and constitutional diseases and those affecting the kidneys and the nervous system will be taken up, in the fourth year.

*Text Books:* *Cader: Principles and Practice of Medicine.* *For Reference: Remond: Gross: Oder: Modern Medicine.* *Moritz: Dictionary of Practical Medicine.* *Thom: Practice of Medicine.* *Church and Peterson: Nervous and Mental Disease.*

#### XIV. Clinical Medicine.

<i>Professor:</i>	L. M. Silver
<i>Associate Professor:</i>	K. A. MacKenzie
<i>Lecturers:</i>	F.G. Mack, S.R. Johnston, T.M. Sieniewicz.
<i>Demonstrators:</i>	J. R. Corston, J. A. Churchill, G. W. Grant, P. D. McLarren, G. B. Wiswell, J. G. D. Campbell.

**Clinical Medicine.**—A short introductory course to Clinical Medicine will be given to second year students by Dr. McLarren.

Clinical lectures and instruction will be given to the students of the last two years in the Hospitals and Health Centre at least three days a week throughout the session. Students will be called upon to rotation to examine cases.

All students before graduation will be required to produce evidence of having served for at least eight months as clinical clerk in the Medical Wards and to submit complete histories of at least fifteen medical cases.

**Practical Medicine.**—Practical instruction in the methods of examining patients will be given to the students of the third year, by Dr. MacKenzie, Dr. Johnston and Dr. Sieniewicz. The class will be divided into convenient groups in order that students may receive individual attention.

*Text Books:* *Batley: Diagnosis of Internal Medicine.* *Alternatives: Page: Physical Diagnosis.* *Iacob: Atlas Clinical Medicine.* *Munsey: Medical Diagnosis.* *Hastings and Baynes: Clinical Methods.* *Cader: Medical Diagnosis.* *Deutsche: Physical Diagnosis.*

#### XV. Obstetrics and Gynaecology.

<i>Associate Professor of Obstetrics and Gynaecology (Head of Department):</i>	J. B. Atlee.
<i>Associate Professors of Obstetrics:</i>	W. B. Almon, E. K. MacLellan.
<i>Demonstrators of Practical Obstetrics:</i>	F. A. Macdonald ( <i>Chief of Clinic</i> ), E. K. MacLellan, H. B. Atlee.

**Obstetrics.**—In the fourth year of the course two lectures are given each week. These lectures are illustrated by diagrams, lantern slides and models. Clinical instruction is given at the Grace Maternity Hospital in the examination of patients, diagnosis of pregnancy, prenatal care, etc.

In the final year the student attends the Grace Maternity Hospital and is given an opportunity of seeing all the work in the Hospital, and assisting in the management of cases.

Students who have had sufficient experience at the maternity hospital, and who have shown themselves competent, will be attached in rotation to the "obstetrical unit" for attendance upon obstetrical patients at their houses.

**Gynaecology.**—In the fourth year of the course two lectures are given each week, in which the various conditions are considered in detail and diagrams and treatment fully discussed. Clinical instruction is given at the Victoria General Hospital, where the students are taught, in groups, in case taking, the examination of patients, the use of instruments and the conduct of operations.

In the final year, clinical instruction in the examination and diagnosis of gynaecological cases is given to small groups of students. Each student is required to act as clinical clerk to the cases assigned him, to be present at any operation required, and to follow the after-treatment. Operations will be performed on stated days, and at these the members of the clinic may be present.

*Text Books:* *Obstetrics:* *Eddow: Manual of Midwifery.* *Gynaecology:* *Stevens: Diseases of Women.*

#### XVI. Medical Jurisprudence.

<i>Lecturer:</i>	Frank V. Woodbury, O. S. Gibbs.
------------------	---------------------------------

This course will embrace a consideration of the procedure to be followed in the identification of the dead, the medico-legal examination of the dead body, the determination of the cause of death, special features associated with death by violence, the medico-legal aspects of pregnancy, delivery, abortion, infanticide, etc., medical malpractice; mental capacity in relation to criminal responsibility, contracts and wills; federal and provincial laws which concern the physician; and, generally, matters in which the courts are likely to require medical opinion. The instruction in toxicology will be given by Prof. Gibbs, and the class will be taken in groups for autopsies in medico-legal cases by Dr. Woodbury.

*Text Book:* *Breed.*

#### XVII. Therapeutics.

<i>Lecturer:</i>	J. R. Corston
------------------	---------------

This course will consist of two lectures each week in Clinical Therapeutics. The course will include a series of lectures by special lecturers, on electro-therapy, hydro-therapy, cytology, radiology, massage and clinical dietetics.

*Text Book:* *Rudolf: Medical Treatment of Disease.* *Reference Books:* *Cushing: Pharmacology and Therapeutics.* *Hast: Practical Therapeutics.*

#### XVIII. Hygiene and Public Health.

<i>Professor:</i>	W. H. Hattie.
<i>Lecturer:</i>	A. C. Jost, H. A. Chisholm.

The course will consist of lectures and demonstrations, two hours a week, designed to give a comprehensive view of the field of hygiene and public health. Particular attention will be given to such subjects as

ters as the laws governing public health administration, modern methods in preventive medicine, epidemiology, quarantine and disinfection, water supplies, air and ventilation, housing problems, sewage and refuse disposal, food, vital statistics, and various special phases of public health work. Advantage will be taken of the opportunity of studying the operation of plants for water filtration, water chlorination, milk pasteurization, heating and ventilation of public buildings, etc., and the general management of public health clinics.

In addition, a short course of lectures on Military Hygiene will be given, during the second term, by Col. Chisholm. This course will outline the duties of medical officers in the conservation of the health of troops.

Text Books: Parkes and Knowles: *Hygiene and Public Health*. Letham: *Sanitation in War*.

### XIX. Skin Diseases.

Lecturer..... Frank G. Mack.

This course will consist of weekly lectures, chiefly clinical, to be given in the wards of the Victoria General Hospital and at the Health Centre to final year students.

Patients will be brought before the class and their condition examined into and demonstrated, and the appropriate treatment prescribed and illustrated.

Text Books: Walker: *Introduction to Dermatology*. Schamburg: *Diseases of the Skin and its Appendages*. For Reference: Sternberg and Gaskell: *Diseases of the Skin*.

### XX. Eye, Ear, Nose and Throat Diseases.

Lecturer..... R. Evatt Mathers.  
Demonstrators: A. R. Cunningham, A. E. Doull, H. W. Kirkpatrick.

Didactic and clinical instruction in these subjects will be given to students of the final year each week during the session, on Wednesdays, at 3 p. m., at the Victoria General Hospital, and at the Children's Hospital. Clinical instruction will also be given at the Health Centre.

Text Books: *Diseases of the Eye*—Mayo. *Diseases of the Nose, Throat and Ear*—Tunstall.

### XXI. Mental Diseases and Psychiatry.

Professor..... W. H. Hattie  
Demonstrator..... F. E. Lawlor.

A course of twenty didactic lectures dealing with the principal forms of mental disease will be given to fourth year students, supplemented by clinical instruction by Dr. Lawlor at the Nova Scotia Hospital.

Text Book: Cade: *Mental Disease*. Alternatives: Stoddart: *Mind and its Disorders*. Craig: *Psychological Medicine*.

### Psychology.

Professor..... Norman J. Symons.

This course is designed to afford a clear insight into the newer work in psychology, particularly in its bearing upon medical problems. Only such relevance is made to the usual text book teaching as is necessary to elucidate matters brought up for discussion, the aim being to make the course as free from academic consideration and as adaptable to medical practice as is possible. The course is given in the third year.

### XXII. Paediatrics.

Lecturer..... M. J. Carney.  
Demonstrator..... G. B. Winsell.

This course will consist of weekly didactic lectures to students of the final year. In addition, clinical lectures illustrative of disease in children will be given by members of the staffs of the Victoria General Hospital, the Children's Hospital, the Infectious Diseases Hospital, the Infants' Home and the Health Centre.

Text Books: Dingley-Fortippe: *Diseases of Children*. For Reference: Stoddart: *Common Diseases and Disorders of Children*. Mayo: *Practical Textbook of Children and Young People's Diseases*. Simplified Infant Feeding. Moyes: *PRACTICAL HANDBOOK ON DISEASES OF CHILDREN*. For: *The Diagnosis of Children's Diseases*.

### XXIII. Vaccination.

The student will receive instruction in this subject at the Health Centre and other institutions. He will be required to perform the operation and note results so as to obtain a certificate of proficiency.

### XXIV. Medical History and Medical Ethics.

A course of approximately twenty lectures will be given by members of the teaching staff. In the course in medical history the endeavour will be made to indicate systematically the influence of current thought upon medical teaching at different times, and the manner in which scientific developments have been correlated to medicine. Three lectures will be devoted to medical ethics.

# Faculty of Dentistry.

## Preliminary Statement.

An agreement was consummated in 1911 between the Board of Governors of Dalhousie University and the Provincial Dental Board of Nova Scotia, whereby the Maritime Dental College was merged into the Faculty of Dentistry of the University.

The instruction in the purely scientific subjects and in the professional subjects common to Dentistry and Medicine is taken by Dental students in common with the students of the Faculties of Arts and Science and of Medicine. Instruction in the Dental subjects is given in the Dental Apartments, in the south wing of the Forrest Building; these include the Infirmary and the Dental Laboratories. Abundant dental infirmary practice is available, and all operations are supervised by prominent practitioners in active dental practice with several years experience in teaching. The Victoria General Hospital is near by, and affords an ample surgical clinic. The new Health Centre rounds out a group of medical, surgical and dental clinics and laboratories, all in close proximity. As it is carried on the school and preschool-age dental clinics under the supervision of full time practitioners and excellent opportunities are thereby afforded for the study of Preventive Dentistry, Anaesthesia, Diagnosis, etc. They are available to medical as well as dental students, thus promoting the closer association of the two professions. Students will also attend the dental clinic of the Halifax Dispensary. The laboratory of Pathology and Bacteriology which has been erected and equipped by the Hospital Commission in connection with the Victoria General Hospital, affords superior facilities for both elementary and advanced study of these subjects.

## Important Notice.

Students are reminded that the Dental degree does not necessarily qualify for admission to practise in any province, each province having its own regulations for

(128)

admission, to which a candidate must conform. Particulars regarding these regulations in each of the Maritime Provinces and in Newfoundland may be obtained from the Respective Registrars, who are as follows:

For Nova Scotia: Dr. A. W. Faulkner, Halifax, N.S.  
For New Brunswick: Dr. F. A. Godsoe, St. John, N.B.

For Prince Edward Island: Dr. J. S. Bagnall, Charlottetown, P. E. I.

For Newfoundland: Dr. T. P. Smith, St. John's, Newfoundland.

## Dominion Dental Council.

The Dominion Dental Council of Canada is a central organization under the control of the dental profession of Canada. Its object is to erect and maintain a standard of education and ethics for the dental profession, and to conduct professional examinations and issue Certificates of Qualification which will be accepted without further examination by the provinces.\* These certificates are now accepted in all the provinces except Quebec and British Columbia.

Dental students who comply with the Council's Matriculation or Preliminary education requirements and term of studentship, and who graduate from an accepted Canadian dental college, and pass the examination of the Council, may be registered in any province in Canada without further examination (British Columbia and Quebec excepted). This privilege is enjoyed by the graduates in Dentistry of this University, as its Matriculation regulations meet the requirements of the Council, and the Faculty of Dentistry is on the accepted list of Canadian Colleges. Graduates are also eligible for admission to the licensing examination in Newfoundland, all the provinces of Canada except Quebec, and the States of New York and Massachusetts.

## General University Regulations.

University regulations applicable to the students of all Faculties and relating to residence, church attendance, discipline, etc., will be found on page 18.

\*For information address Dr. W. D. Cowan, Secretary of the Dominion Dental Council, Regina, Sask.

**Academic Year.**

The Academic Year consists of one session of eight months duration. The session of 1926-27 will begin on Tuesday, Sept. 14th, 1926, and end on Tuesday, May 17th, 1927.

No students will be admitted after noon of Saturday, Sept. 18th.

**Degree.**

The only degree conferred in the Faculty of Dentistry is that of Doctor of Dental Surgery (D. D. S.).

**Admission of Students.**

A student will not be admitted to the classes of any year, unless he has passed in all the subjects of the previous year.

Students intending to practise in Nova Scotia must register with the Provincial Dental Board before beginning their course of study.

Students intending to practise in another province of the Dominion or in another country are reminded that they must conform to all the regulations of that province or country.

Women are admitted to classes under the same conditions as men.

No person under sixteen years of age is admitted to any class.

**Entrance Requirements.**

Full details of the requirements for Entrance will be found on pp. 10 *et seq.*

**Curriculum.\***

The course for the degree of Doctor of Dental Surgery extends over four years. The course is as follows:

\*It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this calendar are intended for the current year, and that the Faculty of Dentistry need not be held bound to adhere strictly to the schedules and conditions now laid down.

**First Year.**

*Lectures.*—Chemistry 4, Anatomy 1, and Practical Anatomy, Histology, Embryology, Dental and Comparative Dental Anatomy, Drawing and Modelling, Metallurgy, Preventive Dentistry.

*Laboratory.*—Chemistry, Anatomy, Histology, Embryology, Dental Anatomy, Drawing and Modelling, Metalcraft, Prosthetic Technique.

**Second Year.**

*Lectures.*—Prosthetic Dentistry, Biochemistry 1, Operative Technic, Materia Medica, Anatomy 2, Physiology 1, Bacteriology 1, Preventive Dentistry, Exodontia.

*Laboratory.*—Prosthetic and Operative Dentistry, Preventive Dentistry, Anatomy, Physiology 3, Biochemistry 1, Bacteriology 2.

**Third Year.**

*Lectures.*—Surgery 1, Operative and Prosthetic Dentistry, Orthodontia, Preventive Dentistry, Crown and Bridge Work, Radiology, Pathology 1, Dental Pathology and Therapeutics.

*Laboratory.*—Prosthetic Dentistry, Dental Infirmary, Hospital, Crown and Bridge Work, Orthodontia, Pathology 2.

**Fourth Year.**

*Lectures.*—Operative Dentistry, Prosthetic Dentistry, Oral Surgery, Anaesthetics and Physical Diagnosis, History, Jurisprudence, Ethics and Economics, Crown and Bridge Work and Ceramics, Preventive Dentistry, Orthodontia.

*Laboratory.*—Prosthetic and Operative Dentistry, Preventive Dentistry, Infirmary, Hospital, Dispensary, Crown and Bridge Work and Ceramics, Orthodontia.

**Regulations for Degrees.**

In addition to the Matriculation or Preliminary examination, candidates for degrees are required to pass

four Professional examinations, one at the end of each year of the course, on the dates set in the University Almanac. The examinations are arranged as follows:

#### First Professional Examination.

One paper in each of the following subjects: Embryology, Dental and Comparative Dental Anatomy, Preventive Dentistry, Metallurgy; one paper and a practical examination in Chemistry 4, Histology and Drawing and Modelling; one paper and an oral examination in Anatomy.

#### Second Professional Examination.

One paper in each of the following: Prosthetic Dentistry, Operative Dentistry, Materia Medica and Preventive Dentistry, Exodontia, and one paper and an oral examination in Anatomy and in Bacteriology, one paper and an oral and a practical examination in Biochemistry and Physiology.

#### Third Professional Examination.

One paper in each of the following: Surgery, Operative Dentistry, Prosthetic Dentistry, Dental Pathology and Therapeutics, Radiology, Orthodontia, Crown and Bridge Work; one paper and an oral and a practical examination in Pathology.

#### Fourth or Final Professional Examination.

One paper in History, Jurisprudence, Ethics and Economics, Preventive Dentistry.

One paper and oral examination in each of the following: Operative Dentistry, Prosthetic Dentistry, Crown and Bridge Work and Ceramics, Orthodontia, Oral Surgery, Anaesthetics and Physical Diagnosis.

#### Pass and Distinction Lists.

The names of candidates successful in the examinations are arranged in the published lists in two divisions the Pass and Distinction divisions. To pass, a candidate must obtain a minimum mark of 40 per cent. in English, History, Chemistry, Physics and Biology; in all other subjects a minimum of 50 per cent. is required.

For Distinction in any subject he must obtain a mark of 75 per cent. or over in that subject. The names in the Pass division of the list are arranged in alphabetical order; the Distinctions are in order of merit.

#### Admission to Examinations.

Candidates must conform to the following requirements in order to qualify for admission to the Professional examinations:

1. They must attend the prescribed classes of the curriculum regularly and punctually. Certificates indicating less than 90 per cent. of attendance upon any class will not in ordinary circumstances be accepted.

2. They must prepare such exercises, reports, etc., as may be prescribed, and in the case of classes involving laboratory or practical work they must complete such work satisfactorily.

3. Candidates for the Final Professional examination will be required to subscribe to the following declaration with regard to their age:

Halifax, N. S. .... 192.....

I, the undersigned, being desirous of obtaining the Degree of Doctor of Dental Surgery, do hereby declare that I have attained the age of twenty-one years (or, if the case be otherwise, that I shall have attained the age of twenty-one years before the next graduation day).

(Signed).....

#### Supplementary Examinations.

A candidate who has failed to pass in not more than two subjects of the Professional examination of any year shall be entitled to Supplementary examinations in such subjects, provided he is qualified in attendance and class work for admission to examination.

A candidate who has failed to pass in more than two subjects of any Professional examination shall be required to repeat his attendance and class work in all the subjects of the year.

Supplementary examinations are held on the dates specified in the University Almanac, in September and during the regular Professional examinations in the spring, but at no other times.

Application for admission to a Supplementary examination must be made on or before the date set in the University Almanac for receiving applications, on a form to be obtained from the University Office, and must be accompanied by the proper fee. (See p. 136).

#### Exemptions.

Candidates may be exempted from examination in one or more subjects of the first three Professional examinations on presenting certificates of having taken equivalent classes and passed equivalent examinations at any dental college recognized by the Senate for the purpose, and complying with the regulations of the University.

#### Instruments and Appliances.

All the heavier appliances are supplied by the University. The student must provide all other instruments, tools and material for his technic work in both Laboratory and Infirmary. Students are warned not to procure operating instruments until entering College. Each student must have the instruments prescribed and of the particular make selected by the Faculty. Arrangements have been made whereby these may be procured to the best financial advantage. The borrowing of instruments is absolutely forbidden.

#### Medals and Prizes.

**University Medal in Dentistry.**—This medal will be awarded on graduation to the student who stands highest in the Final Professional examination, provided he shall obtain Distinction in at least four of the five major subjects of that examination, and shall have reached an exceptionally high standing on the whole four years of his course.

**The Charles Bell and E. A. Bell Prizes.**—Books to the value of \$25 to be divided between the two students who make the best two general averages in all subjects of the First Professional examination, provided the required standard is reached; offered by Mr. Charles Bell; similar prizes in the case of the Second Professional examination offered by Mr. E. A. Bell.

**The Nova Scotia Dental Association Prizes.**—Books to the value of \$25 to be divided between the two students who make the best two general averages in all subjects of the Third Professional examination, provided the required standard is reached.

**Dr. Frank Woodbury Memorial Prize.**—These prizes are awarded to students of the final year.

1st—Book Prize to the value of \$20 for the best thesis on an approved dental subject.

2nd—Book Prize to the value of \$15 for the best prosthetic and crown and bridge technic.

3rd—Book Prize to the value of \$15 for the students obtaining highest marks in the infirmary.

#### Fees.

*All fees and deposits are payable in advance, and until these are paid the student will not receive credit for attendance upon any class nor be admitted to any examination.*

#### For Registration.\*

Payable by students taking only one class in the University	\$3 00
Payable by students taking more than one class.....	5 00
Additional, payable by all students registering after 12 noon on last regular registration day, for each day.....	2 00

#### For Tuition.

Students taking individual classes will be charged according to the schedule shown on page 114, if those classes are common to the Medical curriculum. The charge for purely Dental classes may be had on application.

\*Students who register only for the purpose of taking examinations are exempt from the payment of this fee.

**Inclusive Fee Payable by Students taking the Regular Classes  
of any Year of the Curriculum.**

For each year .....	200 00
This includes registration, tuition, hospital, laboratories and the regular sessional examinations.	

**For Examination.**

*An application for Examination must be accompanied by the proper fee.*

Individual subjects of dental examination, each subject.....	5 00
Supplementary examination, each subject .....	10 00

**For Certificates and Diplomas.**

*An application for a Certificate or Diploma must be accompanied by the proper fee.*

Certificate under the University seal .....	\$ 1 00
For D. D. S. Diploma (payable before the final examination and returnable in case of failure).....	10 00
Diploma, payable by those attending less than 3 years.....	20 00
Diploma, extra when conferred in absentia.....	5 00

See pages 19 and 20 for

Cautious Deposit.

Laboratory Deposits.

Fee for Support of Student Organizations.

Students Loan Fund.

**COURSES OF INSTRUCTION.**

For the details of classes in—

English,  
History,  
Physics,  
Chemistry,  
Biology,  
Anatomy, and Histology and Embryology,  
Physiology,  
Biochemistry,  
Pathology and Bacteriology,  
Surgery.  
See pp. 116 et seq.

**Drawing and Modelling.***Lectures.*

A course sufficiently comprehensive to form a suitable introduction to several succeeding dental subjects in which artistic principles play an important part, will be given during the first professional year.

**Metalcraft.**

During the first professional year a course in this subject will be given by an experienced metalcraft teacher. It will prepare the student for exercises in dental technology and be a valuable introduction to the practice of Operative, Prosthetic and Preventive Dentistry as well as Orthodontics.

**Dental Anatomy and Comparative Dental Anatomy.**

*Lecturer.....* S. G. Ritchie

**Dental Anatomy.**—This course includes a study of the contents of the buccal cavity from a dental standpoint. The forms of the teeth, the process of calcification, eruption and absorption.

A practical course in tooth carving and dissection of the natural teeth will be carried on in the laboratory.

*Reference Book:* Black.

**Comparative Dental Anatomy.**—The lectures and demonstrations in this course are designed to be a study in the classification of dental types and theories of evolution of the dental organs from simple to complex forms.

*Reference Book:* Tones.

**Hygiene, Preventive and Clinical Dentistry.**

*Professor*..... G. K. Thomson.

This course consists of a series of lectures and demonstrations, part of which is given in each of the four years. It is designed to emphasize the more generally accepted theories of the etiology of abnormal oral conditions and to indicate a rational procedure to foster, as far as may be, a condition of immunity in the oral tissues. Lectures and demonstrations in Periodontology will be given in Preventive as well as in Operative Dentistry.

Reference Books: A. C. Foye: *Oral Hygiene, Preventive Dentistry*. Blinn & McCall: *Clinical Periodontology*.

**Operative Dentistry.**

*Professor*..... W. H. Beckwith.  
*Lecturer*..... G. A. Chudleigh.

The instruction in this subject begins in the second year. It will proceed through the processes involved in Operative Technique to a study of the whole subject of Operative Dentistry. The course will be thoroughly illustrated and demonstrated in the Technical Laboratory and Clinic.

Students in the last two years will be engaged in Infirmary practice daily under the supervision of experienced demonstrators. The work of the final year is designed to instruct the student in the details of Operative practice.

Text Book: Black.  
Reference Books: Ward, Marshall, Johnson, Evangeline Jordan.

**Dental Pathology and Therapeutics.**

*Professor*..... A. W. Cogswell.

The course is designed to provide a proper knowledge of Dental Pathology and Therapeutics. The lectures will be given in the third year, with practical demonstrations in the Infirmary throughout the last two years. The principles of sterilization will be carefully taught.

Reference Books: Engleman & Wagner, Burchard & Ingles.

**Materia Medica.**

*Lecturer*..... K. F. Woodbury.

This course consists of about twenty-five lectures given in the second year. The student is expected to become familiar with Prescription writing and the properties, uses and therapeutic effects of the drugs used in dentistry.

Text Books: Buckley, Price.

**Orthodontia.**

*Professor*..... W. W. Woodbury.

This subject will be presented in a course of lectures and clinical demonstrations during the last two years.

The course of instruction will proceed from a discussion of normal conditions to the various derangements of alignment of the teeth, the abnormalities of the dental arch and deformities of the face, and interference with mastication. The methods and appliances adopted to correct or ameliorate these conditions will be practically applied.

Text Book: McCay.

Reference Books: Denslow, Puffin (in Johnson's Operative Dentistry), Lichon.

**Oral Surgery, Anaesthetics and Physical Diagnosis.**

*Professor*..... F. V. Woodbury.

**Surgery.**—A course on Oral Surgery, to be given during the final year, embracing operations which the dental surgeon should be able to perform.

Text Books: Blair.

Reference Books: McCarty, Thomson & Miles, Ivy.

**Anaesthetics.**—General Anaesthetics will be taught along with Oral Surgery, ample opportunity being given for practical demonstration.

Text Books: Paxton.

Reference Books: Lake, Struthers.

**Exodontia and Radiology.**

*Lecturer*..... G. R. Hennigar.

**Exodontia.**—A course of lectures weekly during the second term of the second year, including the study of nitrous oxide and oxygen, somnifor, etc., and local anaesthetics.

Text Book: White.

Reference Books: Smith, Thomas, Hewitt & Ford.

**Radiology.**—A course of lectures weekly during the first term of the third year, including the study of plates and films from the Infirmary and office patients.

Text Books: Roper, 7th edition.

Reference Books: McCay, Thomas, Gospod.

**Prosthetic Dentistry.**

*Professor*..... S. G. Ritchie.  
*Associate Professor*..... J. S. Barnall.  
*Lecturer*..... C. B. Climo.

This course continues throughout the four years. The instruction is didactic and practical. The teaching and Laboratory Technic

are designed to impart a working knowledge of all that appertains to Dental Prosthesis. Technic will be carried along in proper sequence, and at the earliest possible moment students will be required to construct dental appliances of various kinds for patients in the Infirmary.

Reference Book: Prothero, Wilson, Campbell.

### Crown and Bridge Work, and Ceramics.

<i>Professor</i> .....	W. C. Orner.
<i>Lecturer</i> .....	A. W. Faulkner.

This subject will be presented by lectures, demonstrations and laboratory experiments. It will continue throughout the last two years, with Infirmary practice.

Gold and Porcelain, Crown, Bridge and Inlay Construction, including casting methods, will receive proper attention. The latest types of electric furnace and casting machines are provided for the use of the students. Students who may desire to use their own electrical furnaces will be supplied with electric connections.

Text Books: Godier.  
Reference Books: *Crown & Bridge*, Evans; *Principles of Ceramics*, Capon, Howes.

### Metallurgy.

<i>Lecture</i> .....	C. B. Nickerson.
----------------------	------------------

A course of lectures and demonstrations in Metallurgy will be given during a part of the first year.

Reference Book: Hodgen, Engle.

### Dental History, Jurisprudence, Ethics & Economics.

<i>Lecturer</i> .....	H. S. Crosby.
-----------------------	---------------

*History*.—History and development of Dentistry.

Reference Book: Taylor.

*Ethics*.—A brief statement of the important principles of morals and obligations of professional men to their patients, other practitioners and the public.

Reference Book: Neves.

*Jurisprudence*.—A discussion of the subject as it affects the qualifications and responsibilities of the Dental Surgeon.

Reference Book: Brothers.

*Economics*.—The student's attention is directed to factors that make for success in dental practice; to a consideration of the rewards of service, and to an appreciation of their values.

Reference Book: Johnson, Success.

## Societies.

### THE ALUMNI ASSOCIATION.

(Organized in 1871. Incorporated in 1876).

*President*—F. H. Zwicker; *First Vice-President*—W. W. Woodbury; *Second Vice-President*—H. E. Nichols; *Secretary-Treasurer*—R. E. Inglis; *Executive*—H. E. Mahon; Dr. T. M. Slesilewicz; F. M. Miligan; J. E. Ratledge; J. P. Conroy; *Advertiser*—H. P. Bell; R. M. Fielding; *Alumni Governors*—D. A. Cameron.

### THE ALUMNAE ASSOCIATION.

*Honorary President*—Dr. Eliza Ritchie; *President*—Mrs. J. S. Roger; *First Vice-President*—Mrs. Charles MacAuley; *Second Vice-President*—Isabel McLellan; *Corresponding Secretary*—Judith Pieri; *Recording Secretary*—Lois Coghegan; *Treasurer*—Louise Clayton; *Executive*—Mrs. H. L. Stewart; Annie Crowley; Carol Hawkins; Mrs. R. E. Inglis.

### Council of the Students of the University.

*President*—F. W. MacMinn; *Vice-President*—Helen L. Wickwire; *Secretary-Treasurer*—J. G. Godroe; *Executive*—Avis H. Marshall; A. M. Smith; J. W. Dobson; *Finance Committee*—J. W. Merritt; M. M. Rankin; J. M. Fraser.

### The Sodales Debating Club.

The Sodales Debating Club meets fortnightly during the session, subjects of general interest being discussed.

*President*—H. A. Davidson; *Vice-President*—Katherine A. MacLennan; *Secretary-Treasurer*—E. B. Fairbanks; *Executive*—S. H. Brown; C. M. Rosenblum; J. W. Dobson.

### Dalhousie Amateur Athletic Club.

*President*—R. J. Moore; *Vice-President*—J. A. Turner; *Secretary-Treasurer*—M. M. Rankin; *Manager Football Team*—A. E. Dugell; *Manager Basket Ball Team*—J. A. Turner; *Manager Hockey Team*—J. F. McManus; *Track Manager*—J. W. Dobson.

### Dalhousie Girls' Athletic Club.

*President*—Mabel A. Borden; *Vice-President*—Ruth M. Foote; *Secretary-Treasurer*—M. Allison McCurdy.

**Students' Christian Association—Men's Branch.**

The Association carries on Bible study groups for the discovery of the teaching of Jesus. It provides a forum for discussion of religious and social problems. By means of inter-college conferences and visits from foreign representatives, it is endeavouring to create a national and international student consciousness.

*President*—E. B. Fairbaeks; *Vice-President*—C. B. Moore; *Secretary*—S. H. Baird; *Treasurer*—H. S. Morton; *Executive*—H. A. Davidson; J. M. Fraser; A. O. Hebb; F. R. Hayes; W. L. Headley; B. B. Price.

**Students' Christian Association—Women's Branch.**

The Students' Christian Association at Dalhousie lives in the form of study groups. During the coming year it is the purpose of the Association to provide groups in relation to the study of social principles, world fellowship, and the life of Jesus. The real value of these groups (of ten or twelve) is found in the freedom of discussion, and in the formation of friendships.

*Working Executive and Monthly Committee*—Charlotte Mana; Avis Marshall; Leon Tribe; Janet Piggott; Augusta Messenger; *Secretary-Treasurer*—Ruth Foote.

**Dalhousie Glee and Dramatic Society.**

*President*—Gordon Graham; *Vice-President*—Jean Shaw; *Secretary-Treasurer*—R. A. Baxter; *Meջiclasses*, etc.—H. H. Bell; J. L. Atwood.

**Arts and Science Students' Society.**

*President*—F. M. Fraser; *Vice-President*—W. B. Ross; *Secretary-Treasurer*—Not elected.

**Delta Gamma Society.**

The Delta Gamma Society meets bi-monthly during the session. All women students are eligible for membership. Debates are held and literary programmes are prepared.

*President*—Helen Wickwire; *Vice-President*—Katherine MacLennan; *Secretary-Treasurer*—Jean F. MacKenzie.

**Engineering Society.**

*President*—R. M. Doull; *Vice-President*—G. J. Currie; *Secretary-Treasurer*—H. H. Bell; *Executive*—H. M. Beaton; J. M. Morton.

**Commerce Society.**

*President*—A. E. Jubien; *Secretary-Treasurer*—H. C. Grant; *Executive*—M. Irene MacDougal; R. U. Slayter.

**Law Students' Society.**

*President*—P. J. Judge; *Vice-President*—Josephine S. Dresser; *Secretary-Treasurer*—J. E. Mitchell.

**Dental Students' Society.**

*President*—R. H. Barrett; *Vice-President*—L. G. Iacob; *Secretary-Treasurer*—W. H. Godos.

**Dalhousie Rifle Association.**

*President*—S. H. Baird; *Secretary-Treasurer*—F. A. Mindell.

**Dalhousie Gaelic Society.**

Organized to promote a deeper study of the Celtic language and literature.

*Honorary President*—D. MacGillivray; *President*—J. D. N. MacDonal; *Vice-President*—J. J. Morrison; *Secretary-Treasurer*—A. MacKinnon.

**Maccabean Society.**

*President*—C. Govis; *Vice-President*—Isabella Pink; *Secretary-Treasurer*—P. Margaret.

**Class 1926 Arts (Life Members).**

*President*—W. J. McCurdy; *Vice-President*—Florence R. MacMullen.

**Class 1927 Arts.**

*President*—M. M. Rankin; *Vice-President*—Freda Windfield; *Secretary*—M. Allison McCurdy; *Treasurer*—A. B. Jubien; *Executive*—Minna Troop; H. C. Grant; C. P. Roger.

**Class 1928 Arts.**

*President*—W. G. Denis; *Vice-President*—K. Keltie Holman; *Treasurer*—R. C. Hebb; *Secretary*—Jean MacKenzie.

**Class 1929 Arts.**

*President*—R. A. Baxter; *Vice-President*—Jessie Gladwin; *Secretary-Treasurer*—B. M. Kelloway; *Executive*—Margaret Smith; Marion Cameron; F. S. Smith.

# University Lists.

## DEGREES CONFERRED SESSION 1925-26

Convocation, May 11, 1926.

\*—Degree conferred during the session.

\*\*—In absentia.

### Honorary Degree of Doctor of Laws.

**Sir Andrew Rae Duncan, Kt., M. A., LL. B.	Beckingham, Kent, England.
Isaac Gammon, B. A.	Montreal, Quebec.
John Clarence Webster, M. D., F. R. S. E., D. Sc., LL. D.	Sediac, N. B.

### Master of Arts.

Butler, Keith Huestis	Halifax.
Hill, Muriel Olive	Halifax.
MacKay, Margaret Elizabeth	New Glasgow, Pict. Co.
***Murphy, Mother Clare	Montreal, Quebec.
Robb, Robert Cunningham	New Glasgow, Pict. Co.
Seary, Victor Perrin	Yarmouth.
**Sister Francis d'Assisi	Halifax.
**Sister Marie Raphael	Halifax.

### Bachelor of Arts.

Barnstead, Elinor Grace	Halifax.
Bersford, Mary Agnes	Dollar, Southland.
Berry, Dorothy Eileen	Sussex, N. B.
Bown, Agnes Margaret	Sydney, C. B. Co.
Campbell, Marion Emily May	Halifax.
Colquhoun, Marjorie Gwendolyn	Halifax.
Cook, Arthur Stanley	Halifax.
Crocker, Margaret Betts	Mifflinton, N. B.
Cumming, Theodore Melville	Joggins, Cumb. Co.
Davidson, Herbert Armstrong	Middleton, Ann. Co.
Dresser, Josephine Selma	Halifax.
FitzRandolph, Mary Allison	Bridgewater, Ann. Co.
Firth, William Adams	Doukstown, N. B.
Forbes, Donald Frederic James	Sussex, N. B.
Gochis, Joseph Gerald	Halifax.
Gordon, John Clifford	Georgetown, P. E. I.
Hallett, Edith Compton	Preston, N. B.
Hayman, Ruby Avia	Truro, Col. Co.
Hodges, James Arthur	Berwick, King's Co.
Irwin, George Byron	Port Morris, C. B. Co.
Jessen, Evertina	Halifax.

Jewitt, Arthur Russell	Halifax.
Johnson, Charlotte Fulton	Pinchurt, Lun. Co.
Kings, Vera Huntington	New Carlisle, Quebec.
McCurdy, William Jarvis	Halifax.
Macdonald, Ian	Halifax.
MacIntyre, Jessie Helen	Halifax.
MacKay, Mary Hilton	Sussex, N. B.
McKenzie, Olive Sayler	Halifax.
MacKenzie, Charles Foggs	East Side Lake Ainslie, Iav. Co.
MacKinnon, Alice Catherine	Sydney, C. B. Co.
MacKinnon, Jessie May	Sydney, C. B. Co.
MacLeod, Ellis Maxwell	New Glasgow, Pict. Co.
MacLeod, Frederick Henry	Barroo, Col. Co.
MacMullin, Florence Rathbone	Halifax.
MacPhail, Edith Jean	Dartmouth.
MacPhail, Bertha Heles	Toronto, Ontario.
MacRae, Joan Crookman	St. John's, Newfoundland.
**Miller, Leonard Albert	Halifax.
Mitchell, James Evelyn	Union Road, P. E. I.
Moore, Cyrus Bertram	Halifax.
Morris, Edith Vera	St. John, N. B.
Morton, Elizabeth Homer	Halifax.
Morton, Herbert Creighton	Halifax.
Morton, Rita Lilian	Halifax.
Mosher, Marjorie Alice	Halifax.
Murphy, Arthur Lister	Halifax.
O'Connor, Helen Augusta	Halifax.
Outhit, William Daniel	Kentville, King's Co.
Pagan, Frank Crawford	Halifax.
Patterson, Harry Rossing	Halifax.
Peveritt, Helen Isabel	Somerville, Mass., U. S. A.
Rodmond, Gerald John	Halifax.
Rosnick, Rhoda Saftstein	Bedford, Halifax Co.
Robb, Marion Dennis	St. John, N. B.
Roberts, Isa Harriet	Halifax.
Shaw, John Fraser	Petite Riviere, Lun. Co.
Sperry, Clyde Winston	Pictou.
Sutherland, Edith Margaret	Kentville, King's Co.
Thomson, Archibald Blanchard	Bellevue, P. E. I.
Thompson, Eliza Mae	Halifax.
Thompson, Marion Isabel	Yarmouth.
Vickery, Katherine Starr	Millard, Hants Co.
Wickwire, Chalmers Jack	Norton, N. B.
**Wood, Walter Augustus	Sydney, C. B. Co.
Woodfill, Roy Bert	

### Bachelor of Science.

Evans, John Wilfrid Fisher	Tatamagouche, Col. Co.
Church, John William	New Glasgow, Pict. Co.
Hayes, Frederick Ronald	Halifax.
Hilton, Phyllis Raymond	Yarmouth.
Matheson, John Hogan Parks	New Glasgow, Pict. Co.
Moran, William Gregor	Truro, Col. Co.
Priole, Aubrey Farnham	Bridgewater, Ann. Co.
Richardson, Andrew Love	Westville, Pict. Co.

**Bachelor of Commerce.**

Buckley, Gerald Robert.....	Halifax.
Doyle, Charles Elmer.....	Toronto, Col. Co.
Fulton, Ruth Allison.....	Upper Stewiacke, Col. Co.
*Geddes, George Earle.....	Milford Station, Hants Co.
Messenger, Frances Jean.....	Bridgetown, Anns. Co.

**Bachelor of Laws.**

Binsett, Clarence Norton, B. A. (King's).....	Windsor, Hants Co.
Bisson, Frederick William Mass- field, B. A.....	Halifax.
Blanchard, Norman Dester, B. A. (King's).....	Windsor, Hants Co.
Byrne, James Ross.....	Dartmouth.
Coughlan, Cyril Richard.....	St. John, N. B.
Hill, Arthur Ross.....	Glace Bay, C. B. Co.
Lewis, Philip Joseph.....	Holyrood, Newfoundland.
Longley, John Wilberforce, B. A.....	Halifax.
McLanes, Donald, B. A.....	Halifax.
MacIntyre, Mary Montgomery.....	Montague, P. E. I.
Mills, Gertrude Evelyn, B. A.....	Halifax.
Morton, Arthur Bleas, B. A.....	Halifax.
Parks, Carl Hector, B. A.....	Halifax.
Pitt, Bertrand Joseph Spencer.....	St. George's Grenada, B. W. L.
Ross, John Gordon.....	Yarmouth.
Wilson, Roy Charles.....	Sydney, C. B. Co.

**Doctor of Medicine and Master of Surgery.**

Bates, John Fabian, B. A. (St. F. X.).....	Sydney, C. B. Co.
Berkowitz, Samuel.....	Chicago, Ill., U. S. A.
Chadisheing, Charles Washington San Fernando, Trinidad, B. W. I.	San Fernando, Trinidad, B. W. I.
Cologrossi, Anthony Leonard.....	Chicago, Ill., U. S. A.
*Creelman, Prescott Archibald.....	Toronto, Col. Co.
Dryadale, Cyril Ellis.....	Halifax.
Dworski, Louis.....	Detroit, Mich., U. S. A.
*Fields, Dudley Arthur Augustus, Prince's Town, Trinidad, B. W. I.	Trinidad, B. W. I.
Forbes, George Ronald, B. Sc.....	Halifax.
*Gardiner, Royden Simon.....	New Glasgow, Pict. Co.
Goldsmith, James Joseph.....	Barfield, Conn., U. S. A.
Haslam, Herbert de Montfort.....	Oswego, N. Y., U. S. A.
Houston, Charles Owsley.....	Port Moresby, Queen's Co.
Karras, George Lycurgus.....	Chicago, Ill., U. S. A.
Kelley, Hugh Edgar, B. Sc.....	Yarmouth.
Kissel, Henry.....	Bronx, N. Y., U. S. A.
Kluzak, John Frank.....	Cicero, Ill., U. S. A.
Levin, Harry Maurice.....	Chicago, Ill., U. S. A.
Little, Perley Rettie.....	Belmont, Col., Co.
MacIntyre, Robert Fraser.....	Halifax.
McLean, Allan Lockhart.....	Toronto, Ont.
McOwen, Peter James.....	Huntington, West Va., U. S. A.
Maghalan, Gil Lapid.....	Manila, Philippine Islands.
Marko, Irving Edward.....	New York, N. Y., U. S. A.

**Honours, Prizes and Medals.**

Melancon, Herbert Joseph.....	Corbett, Dig. Co.
Mitkowsky, Edwin John.....	Chicago, Ill., U. S. A.
Morten, Silvans Archibald, B.A.....	Halifax.
Palevich, Matthew Domisic.....	Chicago, Ill., U. S. A.
Patel, Manilal Shankerhal.....	Vaghali, India.
Paul, Simon Tholath.....	Kemamkulam, India.
Pierce, Harry Hammond.....	Cornwall, P. E. I.
Reid, James William.....	Windsor, Hants Co.
Rosenthal, Ralph Jack.....	Chicago, Ill., U. S. A.
Tropp, Oscar.....	New York, N. Y., U. S. A.
*Wilson, Alpheus Marshall.....	Burlington, Shelb. Co.

**Diploma of Licentiate of Music.**

**Duff, Agnes Peterson.....	Lunenburg.
Page, Frank Crawford.....	Halifax.
Wilcox, Helen Louise.....	Halifax.

**Diploma of Engineering.**

Armstrong, Owen Fred Calder.....	Tepperville, Ann. Co.
Church, John William.....	New Glasgow, Pict. Co.
Dwyer, Thomas Edward.....	Halifax.
*Elliott, Arthur Moore.....	Halifax.
Kent, George Edward.....	Halifax.
Lovett, Percy Arthur.....	Halifax.
*Moore, James Gordon Wurtele.....	Halifax.
Rosen, Charles Parsons.....	Halifax.
Ross, Radvers Roberts.....	Meadowlievile, Pict. Co.
Sandford, Harold Kilham.....	Halifax.

**HONOURS, PRIZES AND MEDALS.****Diplomas of Honour.**

Latin and English— <i>High Honours</i> Arthur Russell Jewitt.
Economics and Political Science—
Honours.....Donald Frederic James Forbes.

**Diplomas of Distinction.**

Great Distinctions—Etta Mae Thompson, Ina Harriet Roberts, Florence Rathbone MacMedin, John Hogan Parks Matheson, Distinctions—Eliza Grace Barnstead, Cyrus Beattie Moore, Rita Lillian Morton, Charlotte Fulton Johnson, Elizabeth Homer Morton, William Jarvis McCurdy, Jess Creelman MacRae, Edith Isabel MacNeil, William Adams Firth, Seymour Clifford Gordon, Joseph Gerald Godson, Phyllis Raymond Hilton, Katherine Starr Vickery, Dorothy Eileen Berry, Edith Coraforth Hallett, John Wilfrid Fisher Byers.
--

**Graduation Prizes and Medals.**

Governor General's Gold Medal (Latin and English).....	Arthur Russell Jewitt.
Every Prize (First Distinction Graduate).....	Etta Mae Thompson.

## University Lists.

*Carmell Prize* (Highest standing  
in regular course in Law) 3rd  
Year.....Divided between Arthur Ross Hull  
and Mary Montgomery Mac-  
Intyre.

## Entrance and Undergraduate Prizes.

## Entrance Scholarships (in order of merit).

*George H. Campbell Memorial Scholarships*—Walter Brenton Ross,  
Ernest Redmond Buckler, John Harvey Kent.  
*Sir William Young Scholarships*—Cedric Arnold Yeo, Agnes Matilda  
MacIver.  
*University Scholarships*—Mary Elizabeth Colpits, George Copeland  
Grant.  
*Mackenzie Scholarship*—Elizabeth Graham Frame.  
*Bruce Scholarship*—Donald McLellan Murray.  
*Halifax City Free Scholarship*—Alexander Fraser Chisholm.

## Undergraduate Scholarships and Prizes.

*Bruce Scholarship* (1st Year Arts) Forest Fairbrother Musgrave.  
*George H. Campbell Memorial Scholarships* (1st Year)  
1st. John Henry Badgley.  
2nd. George Van Vliet Nicholls.  
3rd. Mary Elizabeth Colpits, Robert Alex. MacMillan) equal.  
*University Scholarships* (1st Year Arts).....1st. Mary Elizabeth Colpits,  
Robert Alex. MacMillan, equal.  
2nd. Hand Jean Williamson.  
*Mackenzie Scholarship* (1st Year Arts).....Irene Margaret Macdonald.  
*Alies Pollock Scholarship* (2nd Year Arts).....Edith Alice Atherton.  
*North British Society Centennial Bursary* (2nd Year Arts).....Walter Brenton Ross.  
*Charitable Irish Society Scholarship* (2nd Year Arts).....Ernest Redmond Buckler.  
*Commercial Club Scholarship* (2nd Year Arts).....Robert Underhill Slayter.  
(3rd Year Arts).....Arthur Edwin Jansen.  
*Katherine M. Butterfield Prize* (Advanced Mathematics).....George Otto Langstroth.  
*Waverley Prize* (Mathematical).....Dorothy Mary Irwin.  
*Shadley Quasi Club Prize* (Latin 2 and Greek 2).....John Hugh MacLennan.  
*Bruce Bursary* (2nd Year Arts) May, 1925.....Herbert Frederick Wheatley.  
May, 1926.....To be awarded later.  
*Khaki University Scholarships* (3rd Year).....Isabella Pink.  
Roy McKeen Wiza.

## Honours, Prizes and Medals.

*Carmell Prizes* (Regular Course  
in Law) 1st Year.....Albert Joseph Walsh.  
2nd Year.....Kenneth Borden Palmer.  
*Professor Casgrain's Prize* (Practical Anatomy).....Charles McLean Jones.  
*Dr. Lindsay Prize* (4th Year Medicine).....John William Merritt.  
*Dr. Clark Olding Prize* (3rd Year Medicine).....Seymour Stronga.  
*Charles Bell Prize* (2nd Year Dentistry) 1st.....Stuart King Oldfield.  
2nd.....Lawrence Llewelyn Buffett.  
*New Scotia Dental Association  
Prize* (4th Year Dent.) 2nd.....Hugh Macdonald Eston.  
*Halifax Overseas Club Essay Prize* (Mary Agnes Beresford).  
*W. H. DeMille Prize* (Essay—1926, 2nd prize).....Percy Lawrence Herbert Mus-  
champ.

## STUDENTS REGISTERED, 1925-26.

## FACULTY OF ARTS AND SCIENCE.

## Enrolled in Dalhousie University.

Campbell, Mae Henderson	Halifax
Campbell, Marke Emily May	Hong Kong, Kweilin
Chai, Harold	Halifax
Chisholm, Alexander Fraser	Truro, Col. Co.
Chisholm, James Louis Lee	Caledonia, Gwyn. Co.
Chisholm, Roy Nelson	New Glasgow, Pic. Co.
Church, John William	Halifax
Cancy, Edna Mildred	Tatamagouche, Col. Co.
Clark, Anna Middleton	Halifax
Clark, Ewan Somerville	Somerville, P. E. I.
Clark, Hillard Everett	Toronto, Ont.
Clark, Ruth Elizabeth	Halifax
Clark, William Ross	Inverness
Clayton, Mary Louise, B. A.	St. Andrew's, N. B.
Cloigh, Oliver Wendell	Tatamagouche, Col. Co.
Cockburn, Robert Edwin	Halifax
Coffin, Harold Stewart	Berwick, King's Co.
Coffin, Thomas Herbert	Sussex, N. B.
Cogswell, Laverne Eldon	Salt Spring, Pic. Co.
Collett, Mary Elizabeth	Halifax
Colquhoun, John David	Halifax
Conrad, Marion Francis	Halifax
Cook, Arthur Stanley	Halifax
Cooke, William Greig	Sydney, C. B. Co.
Cotter, Claude Hanbury	Canso, King's Co.
Covett, Frank Manning	Truro, Col. Co.
Cox, Donald Wilfoughby	South Weymouth, Mass., U. S. A.
Cox, Jean Gertrude	Truro, Col. Co.
Croftman, Robert Currie	Halifax
Crighton, George Wilfrid Irving	Miltonton, N. B.
Crocker, Margaret Betts	Crometown, Lun. Co.
Crouse, George Herbert	Truro, Col. Co.
Cunning, Jean	Joggins, Cumb. Co.
Cunning, Theodore Melville	Halifax
Curne, Eve Westaway	Halifax
Curne, George James	Halifax
Curtis, Jeann Maudred	Halifax
Darby, William Alfred	Abram's Village, P. E. I.
Davidson, Herbert Armstrong	Middleton, Ann. Co.
Davison, Robson Lamy	Amherst, Cumb. Co.
Dawson, William Levi	Moncton, N. B.
Bechman, Walter Fairchild	Bridgewater, Ann. Co.
Dennis, William Gerald	Amherst, Cumb. Co.
Dennison, Archibald Clyde	Port Clyde, Shel. Co.
Dewart, Lewis Edward	Halifax
Dockrill, Russell Blendid	Halifax
Douche, Muriel Catherine	Halifax
Douglas, Arthur Stanley	Stanley, N. B.
Dougl, Robert Moore	Halifax
Dowd, Peter John	Moncton, N. B.
Dayle, Charles Elmer	Truro, Col. Co.

## Students.

Dresler, Josephine Selma.....	Halifax.
Drysdale, Ruby Claire.....	Halifax.
Duchemin, Warren James.....	Charlottetown, P. E. I.
Dustas, Harry Gordon.....	Halifax.
DuVerset, Frederick Parker.....	Digby.
Duxbury, Frank Raymond.....	Halifax.
Dwyer, John Harrington.....	Halifax.
Dwyer, Thomas Edward.....	Halifax.
Eddett, James Alexander.....	Elmsdale, Hants Co.
Elder, Ruth Bertha.....	Truro, Col. Co.
Elliis, Marjorie Florence.....	Halifax.
Elliston, Charles William Peter.....	Halifax.
Elliott, Margaret Elizabeth.....	Canning, King's Co.
Erkosen, Marie Florence.....	Trinity, Newfoundland.
Evans, Mary Hilda.....	Halifax.
Fader, Norwood John.....	White Plains, N. Y., U. S. A.
Fairbanks, Edward Binney.....	Windsor, Hants Co.
Falconer, Mary Douglas.....	Halifax.
Falconer, Robert MacLean.....	Arndale, Halifax.
Fay, James Jordan.....	Bridgetown, Ann. Co.
Ferguson, Everett George.....	Matapeira, Ont.
Filmore, Nada Myrtle.....	Sellerton, Pict. Co.
Firth, William Adams.....	Brockton, N. B.
FitzRandolph, Mary Allison.....	Bridgetown, Ann. Co.
Foley, Thomas Michael.....	Halifax.
Foote, Ruth Morton.....	Halifax.
Forbes, Donald Frederic James.....	Somers, N. B.
Forsyth, Donald Alexander, B. A. Dartmouth.....	Dartmouth.
Forsyth, Ian Keith, M. A. ....	Dartmouth.
Frame, Elizabeth Graham.....	Westville, Pict. Co.
Fraser, Gordon Flemming.....	Westville, Pict. Co.
Fraser, Alford Vance.....	Truro, Col. Co.
Fraser, Caroline Catherine.....	Sellerton, Pict. Co.
Fraser, Flora Margaret.....	Halifax.
Fraser, Frederick Murray.....	Halifax.
Fraser, Gwendoline.....	Stellarton, Pict. Co.
Fraser, James Alexander.....	Toronto, Ont.
Fraser, James Milton.....	Scotstoun, Pict. Co.
Fraser, Norman MacKay.....	Halifax.
Fraser, Reginald Alfred Stephen.....	Fresh Village, Hrs. Co.
Freeman, Allan Tupper.....	Halifax.
Freeman, Mary Elizabeth DeBlois.....	Halifax.
Frink, Sylvia Cuyler.....	Rothsay, N. B.
Fuller, Ralph Lee.....	Truro, Col. Co.
Fulton, Mary Louise.....	Upper Stewiacke, Col. Co.
Fulton, Ruth Allison.....	Upper Stewiacke, Col. Co.
Gaffen, Bernard Albert.....	Sydney, C. B. Co.
Gallagher, Victoria Louise.....	Halifax.
Gardner, Rev. Sinclair.....	Bridgewater, Lunenburg Co.
Gardner, Hazel Greenlynn, B. A. Cartier, Newfoundland.....	Avalon, Newfoundland.
Gaudet, Frederick Joseph.....	Yarmouth.
Gavins, Charles.....	Sydney, C. B. Co.
Giffis, Audley Arwood.....	Halifax.
Giovannetti, Joseph Louis.....	Tregasse, Newfoundland.

## Students.

Girvan, Lois Ernestine.....	Halifax.
Gladwin, Jessie Louise.....	Pitts Bay Road, Bermuda.
Godsoe, Joseph Gerald.....	Halifax.
Goldsberg, Julia.....	Halifax.
Gordon, Seymour Clifford.....	Charlottetown, P. E. I.
Gould, Rowena Evelyn.....	Halifax.
Graham, Jane Mandie.....	New Glasgow, Pict. Co.
Grant, Donald Lorne.....	Yarmouth.
Grant, George Allister.....	Port of Spain, Trinidad, B. W. I.
Grant, George Copeland.....	B. A. Yarmouth.
Grant, Gordon MacGregor.....	New Glasgow, Pict. Co.
Grant, Harold Copeland.....	Halifax.
Granville, Frederick Joseph.....	New London, Conn., U. S. A.
Gray, Allyn Baldwin.....	Stellarton, Pict. Co.
Gray, Robert.....	Halifax.
Griffin, Joseph Frederick.....	St. John, N. B.
Gus, Benjamin.....	Halifax.
Hagen, Kathleen Agnes.....	Halifax.
Hallett, Edith Corcoran.....	Halifax.
Hanson, Leonard Brewster.....	St. John's, Newfoundland.
Harrington, John Talbot.....	Bridgewater, Lun. Co.
Harris, Jerome Lester.....	Yarmouth.
Harris, Karl Belose Bentley.....	Yarmouth.
Harris, Thomas Edward, B. A. (See F. X.)	St. John's, Newfoundland.
Harrison, James Alden.....	Halifax.
Harvey, Alice Goofson, B. A. ....	Dartmouth.
Hayes, Frederick Ronald.....	Halifax.
Haymas, Ruby Avie.....	Truro, Col. Co.
Hebb, Ralph Comings.....	Halifax.
Henley, Doris Gray.....	Halifax.
Henry, Winifred Laddie.....	Brookfield, Col. Co.
Higgins, Albert Irving.....	Bridgetown, Ann. Co.
Higgins, George Clark.....	Halifax.
Hill, Myrtle Raymond.....	Yarmouth.
Hines, Rebecca Mary.....	Halifax.
Hockin, James Arthur.....	Berwick, King's Co.
Hogan, William Vincent.....	Halifax.
Hofman, Katherine Keltie.....	Summerside, P. E. I.
Hood, Carl Webster.....	Yarmouth.
Horne, John Edmund.....	Halifax.
Hudson, Vernon Fawcett.....	Dartmouth.
Humphrey, Adelaide.....	Kensington, P. E. I.
Humphrey, Thomas James.....	Kensington, P. E. I.
Hussey, John William Fraser.....	Halifax.
Irwin, Dorothy Mary.....	Halifax.
Irwin, George Byram.....	Halifax.
Irvine, Hugh MacLaskill.....	Lunenburg.
Iverson, Leon Joshua.....	Lunenburg.
Jackson, Sam.....	St. John, N. B.
Jardine, John Arthur.....	Bradford, P. E. I.
Jensen, Everta.....	Halifax.
Jensen, Frank William.....	Halifax.

Jewitt, Arthur Russell.....	Halifax.
Johnson, Aethen Doree.....	Halifax.
Johnson, Charlotte Fenton.....	Halifax.
Joseph, Cyril Louis.....	Port of Spala, Trinidad, B. W. I.
Jubin, Arthur Edwin.....	Halifax.
Judge, Russell Llewellyn.....	Yarmouth.
Kaye, Dorothy Crawford.....	Halifax.
Keans, Marjorie Lences.....	Halifax.
Keating, Claude Edmund.....	Moncton, N. B.
Keating, Lloyd Everett.....	Moncton, N. B.
Keating, Maurice Edward.....	Halifax.
Kelloway, Berkley Maxie.....	Perry's Cove, Newfoundland.
Kennedy, Douglas Joseph.....	Halifax.
Kennedy, Irene Edythe.....	Charlottetown, P. E. I.
Kenney, Cleveland Lovitt.....	Clark's Harbour, Shelb. Co.
Kent, George Edward.....	Halifax.
Kent, John Harvey.....	Halifax.
Keyes, Clyde Costello.....	Halifax.
Keyes, George Wells.....	Halifax.
Kidney, James Powell.....	Halifax.
Knot, Vera Huntingdon.....	Pinehurst, Lun. Co.
Lachmaning, Joseph Pruyng.....	Berbice, British Guiana, S. A.
Lamb, Charles.....	Halifax.
Lamond, David Archibald.....	Sydney Mines, C. B. Co.
Langille, James Arnold.....	Tatamagouche, Col. Co.
Langstroth, George Otto.....	Halifax.
Laurence, George Craig, B. A.....	Halifax.
Laurence, Roy Anderson.....	Margaree Harbour, Inv. Co.
LeBrun, Charles Thomas.....	Bridgetown, Ann. Co.
Levine, Jacob.....	St. John, N. B.
Lewis, Edmund Keith.....	Belmont, Col. Co.
Lewis, John Alfred Charles.....	Sydney, C. B. Co.
Long, Alice George.....	Louisburg, C. B. Co.
Livingstone, Harry Lincoln.....	Big Bras d'Or, Vic. Co.
Locke, Thomas Johnson.....	Halifax.
Love, Donald Fraser.....	New Glasgow, Pic. Co.
Love, Muriel Vaughan.....	St. Martin's, N. B.
Lovett, Percy Arthur.....	Halifax.
Love, George Everett.....	Clark's Harbour, Shelb. Co.
McCaughis, Ellen Caroline.....	Hantsport, Hants. Co.
McCleave, James Edward.....	Stewiacke, Col. Co.
McColl, Ronald.....	Halifax.
McCua, Raburn Fraser.....	Oxford, Comb. Co.
McCurdy, Janet Amelia.....	New Carlisle, Que.
McDermott, Margaret Allison Florence.....	Newcastle, N. B.
McCord, William Jarvis.....	New Carlisle, Que.
MacDonald, Alexander Gray.....	Halifax.
MacDonald, Arlet Rosemarie.....	Mira, C. B. Co.
MacDonald, Jessie Isabel.....	Halifax.
McDonald, Charles Frank, Jr.....	Col. Co.
McDonald, Donald Wilson.....	Sydney, C. B. Co.
McDonald, Helen Archibald.....	Sydney, C. B. Co.
Macdonald, Ian.....	Halifax.
Macdonald, Irene Margaret.....	Inverness.

MacDonald, Kathleen Lucy Logan.....	Halifax.
MacDonald, Robert Archibald.....	Dunraven No. 6, C. B. Co.
MacDangell, Margarette Isote.....	Sunny Brae, Pic. Co.
MacDuff, Leslie Coles.....	Halifax.
MacGregor, Marion Elizabeth.....	East River Road, Pic. Co.
McIntosh, Charles Gordon.....	Bedford, Hfx. Co.
McIntosh, Douglas Major.....	Bedford, Hfx. Co.
MacIntosh, George Kenneth.....	Sydney, C. B. Co.
MacIntosh, Roderick Donald.....	Militia Point, Inv. Co.
MacIntyre, Jessie Helen.....	Halifax.
McIntyre, William Sutherland.....	Montague, P. E. I.
MacIver, Agnes Matilda.....	Baddeck, Vic. Co.
MacIver, Angus Wilbert.....	Hazelsdale, Vic. Co.
McKay, Ethel Isabel.....	New Glasgow, Pic. Co.
MacKay, Malcolm Ross.....	Halifax.
MacKay, Margaret Elizabeth, B. A.....	New Glasgow, Pic. Co.
MacKay, Mary Hilton.....	Halifax.
MacKay, Peppy Elmo.....	Canso, Guys. Co.
McKay, Robert Donald.....	Yarmouth.
McKenna, Edwin.....	Halifax.
McKenna, Olive Snyder.....	Sussex, N. B.
MacKenzie, Charles Fogo.....	Halifax.
MacKenzie, Daniel Campbell.....	Big Harbour Centre, Inv. Co.
MacKenzie, Jean Forbes.....	Halifax.
MacKenzie, Walter Campbell.....	Baddeck, Vic. Co.
MacKinnon, Alice Catherine.....	East Side Lake Ainslie, Inv. Co.
MacKinnon, Clarence Gordon.....	Halifax.
MacKinnon, Jessie May.....	Sydney, C. B. Co.
MacKinnon, Marjorie Janet.....	Halifax.
MacKintosh, Eleanor.....	St. Stephen, N. B.
MacLagan, Margaret Florence.....	New Glasgow, Pic. Co.
MacLaughlin, George Hollywood.....	Grand Marais, N. B.
MacLean, Alexander Franklin.....	Hopewell, Pic. Co.
MacLean, Frank William.....	Trenton, Pic. Co.
MacLean, Florence May.....	New Glasgow, Pic. Co.
McLean, Neil Ronald.....	Louisburg, C. B. Co.
McLellan, Frederick Clair.....	Tatamagouche, Col. Co.
MacLeman, John Hugh.....	Halifax.
MacLeman, Katherine Aletha.....	Brookfield, Col. Co.
MacLeod, Annie Mae.....	North Sydney, C. B. Co.
MacLeod, Catherine Isabel.....	Sydney, C. B. Co.
MacLeod, Ellis Maxwell.....	Sydney, C. B. Co.
MacLeod, George Cameros.....	New Waterford, C. B. Co.
MacLeod, Roderick Henry.....	New Glasgow, Pic. Co.
MacLeod, Wilson Churchill.....	Caledonia, Queen's Co.
MacLeod, William John.....	Colchester, Rich. Co.
