

# INDEX

## VOL. XIII

(*Roman numerals refer to the Proceedings; Arabic numerals to the pages of the Transactions.*)

	PAGE
Allison, Augustus. By Harry Piers.....	cv
Allison, Frederick. By Harry Piers.....	civ
Ambrose, Rev. John. By Harry Piers.....	lxxxix
Analyses of Nova Scotian Soils. By L. C. Harlow.....	332
Anthropological work in Nova Scotia, a suggestion for. By Walter H. Prest.....	35
Barbour, J. H.—Sacred Plants of India.....	xxvii
Belt, Thomas. By Harry Piers.....	xcii
Biological chemistry. By Donald M. Fergusson.....	cxvi
Bishop, Watson L.—Presidential Address: (a) The Institute, (b) Obituary of Dr. W. R. Ells.....	xxiii
Curious lightning freak.....	240
Brown, Richard. By Harry Piers.....	lvii
Canada Grouse in captivity. By Watson L. Bishop.....	150
Cattle-killing ragwort and its parasite. Remarks by A. H. MacKay..	284
Cave examinations in Hants County, N. S., report on. By Walter Henry Prest.....	87
Coloured thinking and allied conditions. By D. Fraser Harris.....	308
Commemoration meeting—50th anniversary of organization of the Institute.....	xlvi
Conductivity of rosaniline hydrochloride in water and certain organic solvents. By Harold S. Davis.....	40
Cramp, John Mocket. By Harry Piers.....	c
Creighton, Henry Jermain Maude.—A few measurements on the electrical conductivity of acetophenone solutions of certain organic bases and acids.....	154
On the behaviour of iron salts in the presence of albumens and other organic substances towards certain reagents.....	61
Optical activation of racemic bromcamphor carboxylic acid by means of catalysts.....	1
Davis, Harold S.—The conductivity of rosaniline hydrochloride in water and certain organic solvents.....	40
Dawson, John William. By Harry Piers.....	lviii
Doane, F. W. W.—Recent meteorological notes.....	53

	PAGE
Dodd, Frank William.—Integral atomic weights, Part 1.....	216
Dodd, Frank William.—Integral Atomic weights, Part 2.....	223
Downs, Andrew. By Harry Piers.....	xcvii
Duncan, Francis. By Harry Piers.....	c
Duvar, John Hunter. By Harry Piers.....	xcix
Election of Officers.—1910, xix; 1911, xxvii; 1912, xlvi; 1913, cxiii	
Electrical conductivity of acetophenone solutions of certain organic bases and acids, A few measurements on. By H. Jer- main Maude Creighton.....	154
Electrical resistance and temperature coefficient of ice. By J. H. L. Johnstone.....	126
Ells, R. W.—Obituary notice.....	xxiii
European birds in Nova Scotia, The occurrence of. By Harry Piers..	228
European birds incorrectly reported in Nova Scotia. By Harry Piers.	238
Fergusson, Donald M. Presidential address, 1913.....	cxiii
(a) Deceased members; (b) Biological chemistry.....	cxvi
Fletcher, Hugh. By Harry Piers.....	cviii
Fox, John James. By Harry Piers.....	cvii
Gastrolith found in a moose, Note on a. By D. Fraser Harris.....	242
Geological age of Prince Edward Island. By Lawrence W. Watson..	145
Geology of a portion of Shelburne County. By Sidney Powers.....	289
Gesner, Abram. By Harry Piers.....	lv
Gilpin, Edwin. By Harry Piers.....	lxxxviii
Gilpin, John Bernard. By Harry Piers.....	lxxxii
Gossip, William. By Harry Piers.....	lxxxiv
Granite contact zone near Halifax, Notes on a. By D. S. McIntosh..	244
Grouse, Canada, in captivity. By Watson L. Bishop.....	150
Haliburton, Robert Grant. By Harry Piers.....	xc
Hamilton, Pierce Stevens. By Harry Piers.....	ci
Harlow, L. C.—Analyses of Nova Scotian soils.....	332
Harris, David Fraser.—Coloured thinking and allied conditions.....	308
On the intimate associations of inorganic ions with native and derived proteins.....	76
Note on a gastrolith found in a moose.....	242
On the existence of a reducing endo-enzyme in animal tissue ...	250
Hay, George Upham, Biographical sketch. By Donald M. Fergusson.	cxiv
Hill, Philip Carteret. By Harry Piers.....	lxxxix
Hind, Henry Youle. By Harry Piers.....	cv
Historical account of the Nova Scotia Institute of Science for half a century. By Harry Piers.....	liii
Honeyman, David. By Harry Piers.....	cii
How, Henry. By Harry Piers.....	xciv
Ice, electrical resistance and temperature coefficient of. By J. H. L. Johnstone.....	126
Inorganic ions, intimate associations of, with native and derived proteins. By David Fraser Harris.....	76

INDEX

XV

	PAGE
Integral atomic weights, Part 1. By Frank William Dodd . . . . .	216
Integral atomic weights, Part 2. By Frank William Dodd . . . . .	223
International Geological Congress, report on, By D. S. McIntosh . . . . .	cxxxiii
Iron salts, Behavior of, in the presence of albumens and other organic substances, towards certain reagents. By Henry Jermain Maude Creighton . . . . .	61
"Iron-stone," Note on the analysis of. By Hubert Bradford Vickery . . . . .	209
Johnstone, J. H. L.—The electrical resistance and temperature coefficient of ice . . . . .	126
On the electrical resistance of acetic acid in the solid and liquid phases . . . . .	191
Jones, John Matthew. By Harry Piers . . . . .	lxxxix
Lawson, George. By Harry Piers . . . . .	lxxxvii
Librarian's Annual report.—1910, xviii; 1911, xxvi; 1912, xlv; 1913, cxxxiii	
Lightning freak, Curious. By Watson L. Bishop . . . . .	240
Logan, Sir William E. By Harry Piers . . . . .	lix
MacKay, A. H.—Cattle-killing ragwort and its parasite.—Remarks	284
Phenological observations, 1911 . . . . .	175
Phenology of Nova Scotia, 1912 . . . . .	250
Phenology of Nova Scotia, 1913 . . . . .	347
McCulloch, Thomas. By Harry Piers . . . . .	lv
MacGregor, James Gordon.—Biographical sketch. By D. M. Ferguson . . . . .	cxiv
Mackay, E.—Presidential address, 1910 (a) the Institute . . . . .	ii
(b) some achievements of chemical synthesis . . . . .	viii
Mastodon remains in Nova Scotia. By Harry Piers . . . . .	163
McIntosh, D. S.—Notes on a granite contact zone near Halifax . . . . .	244
Members, list of.—1910, App. I; 1911, App. II; 1913, App. III	
Meteorological notes, recent. By F. W. W. Doane . . . . .	53
Meteorological statistics.—Summary for 20 years to 1911 . . . . .	188
Micmac Indians of Nova Scotia and their remains, Brief account of. By Harry Piers . . . . .	99
Morris, Miss Maria. By Harry Piers . . . . .	liv
Morrow, Robert. By Harry Piers . . . . .	lxxxv
Myers, William James. By Harry Piers . . . . .	xcix
Nickerson, Carleton Bell.—A rearrangement of procedure for the removal of phosphate ions from the iron and alkaline earth groups . . . . .	95
Obituary notices.—Dr. R. W. Ells, xxv; Geo. U. Hay and James Gordon MacGregor, cxiv.	
Officers.—1910, xix; 1911, xxvii; 1912, xlvii; 1913, cxxxiii	
On the existence of a reducing endo-enzyme in animal tissues. By D. Fraser Harris . . . . .	259
Optical activation of racemic bromcamphor carboxylic acid by means of catalysts. By Henry Jermain Maude Creighton . . . . .	1

	PAGE
Patterson, George. By Harry Piers .....	cvi
Phenological observations in Nova Scotia, 1911. By A. H. MacKay..	175
Phenology of Nova Scotia, 1912. By A. H. MacKay.....	250
Phenology of Nova Scotia, 1913. By A. H. MacKay.....	347
Phosphate ions, A rearrangement of procedure for the removal from the iron and alkaline earth groups. By Carleton Bell Nickerson.....	95
Piers, Harry.—Brief account of the Micmac Indians of Nova Scotia and their remains.....	99
Historical account of Nova Scotian Institute of Science, 1862 to December, 1912.....	liii
Pioneer Naturalists.....	liii
Halifax Mechanics' Institute.....	lix
N. S. Unstitute of Natural Science.....	lxi
The Library of the Institute.....	lxxv
The Provincial Museum.....	lxxvii
Biographical sketches,—Deceased Presidents.....	lxxx
Other prominent deceased members.....	lxxxix
Classification of members according to origins.....	cix
List of Officers, 1862—1912.....	cx
Mastodon remains in Nova Scotia.....	163
Occurrence of European birds in Nova Scotia.....	228
Plants of India, Sacred. By Captain J. H. Barbour.....	xxviii
Poole, Henry S.—Comparison of monthly mean temperatures, Halifax, Nova Scotia, and Plymouth England.....	52
<i>Senecio Jacobaea</i> and <i>Callimorpha Jacobaea</i> (The Cattle-killing Ragwort and the Cinnabar Moth).....	279
Presidential Address:—1910, E. MacKay, ii; 1911, W. L. Bishop; 1913, Donald M. Fergusson, cxiii.	xxiii;
Prest, Walter H.—A suggestion for anthropological work in Nova Scotia Report on cave examination in Hants County, Nova Scotia....	87
Prince Edward Island, The geological age of. By Lawrence W. Watson	145
Rearrangement of procedure for the removal of phosphate ions from the iron and alkaline earth groups. By Carleton Bell Nickerson.....	95
Reducing endo-enzyme in animal tissues, On the existence of. By D. Fraser Harris.....	259
Remains of Micmac Indians of Nova Scotia, Brief account of. By Harry Piers.....	99
Sacred plants of India. By J. H. Barbour.....	xxviii
<i>Senecio Jacobaea</i> and <i>Callimorpha Jacobaea</i> . By Henry S. Poole.....	279
Sidney Powers.—Geology of a portion of Shelburne County.....	289
Silver, Arthur Peter. By Harry Piers.....	cvii
Silver, William Chamberlain. By Harry Piers.....	ci

INDEX.

xvii

	PAGE
Soils, Analyses of Nova Scotian. By L. C. Harlow.....	322
Somers, John. By Harry Piers.....	Lxxxiv
Temperatures, Comparison of monthly mean in Halifax, Nova Scotia, and Plymouth, England. By Henry S. Poole.....	52
Titus, Smith, biographical sketch of. By Harry Piers.....	liii
Treasurer's Annual Report.—1910, xviii; 1911, xxvi; 1912, xlv; 1913, cxxii	
Vickery, Hubert Bradford.—Notes on the analysis of "iron-stone"....	209
Watson, Lawrence W.—The geological age of Prince Edward Island..	145
Webster, William Bennet. By Harry Piers.....	lvi
Willis, John Robert. By Harry Piers.....	xciii
Young, John Brookin. By Harry Piers.....	xcix
