The Dalhousie Hymn

*Where smiles the sea 'neath the sky ever blue,
Where blooms the maple tree,
There stands Dalhousie, our College-by-the-Sea
And her children all our we.*

*Yes we come from Dalhousie,
Our Alma Mater,
Our mother dear,
And proudly now we sing her praises
So all may know that her sons are near.*

*All hail to thee Dalhousie,
Our college by the sea,
With heart and voice we praise thee,
Wherever we may be.*

President of Dalhousie University

The President's Message . . .

To the Class of 1956:

The publication of this new volume of *Pharos* is a signal that the day of your graduation from Dalhousie is drawing near. The thought awakens mingled feelings in the minds of those of us who have continuing responsibility in the University.

On the one hand, we are sorry that your undergraduate days are almost over, and that although we may anticipate the pleasure of seeing some of you again in the faculties of advanced and professional studies, most of you will now be taking your final leave of the campus, and the distinctive associations that we have had with you are due to terminate very shortly.

We welcomed you a few years ago when you came to us from High School with only the measure of maturity appropriate to your age, and some impatience perhaps with our demand that you demonstrate the seriousness befitting the members of a University. I do not think we were ever unreasonable in our insistence, but we did want you to understand from the outset that when you were admitted to this company you had actually made the transition to the estate of responsible manhood and womanhood. Dalhousie has never regarded itself as a custodial institution for adolescents, but as a fellowship—albeit a delightful one, not lacking in the lighter phases—of young adults who were prepared to think earnestly about the larger issues of life and to govern themselves with all requisite self-discipline. It was with no little satisfaction that we watched you leave callow youth behind, acquire new knowledge, develop a reasoned appreciation of the highest values, and find purposes worthy of your deepest loyalties. We regret that the time is now inevitably approaching for most of you to say farewell to us and to one another, and that we shall no longer have the day to day contacts with you that have meant so much to us and, we dare to hope, to you also.

On the other hand, we share without reserve the joy which your graduation brings to you and to all who belong to you; we congratulate you most cordially on reaching this significant, if still subordinate, goal in your careers; and we give you our blessing as you go out from these college halls to make your contribution to the manifold life of the community and nation. We have implicit confidence that you will not only repay with enduring affection what Dalhousie has done for you, but that you will add fresh distinction to the already illustrious name of the University.

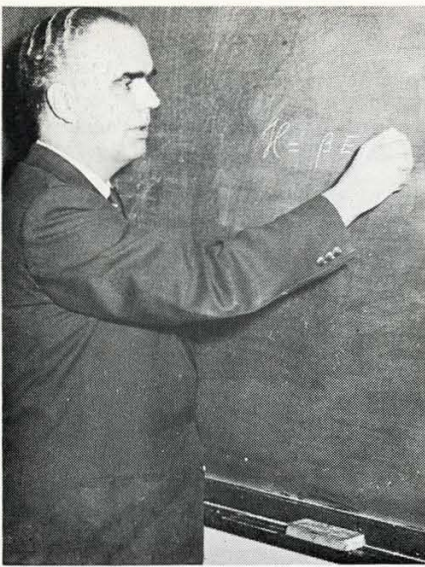

A few days ago I had occasion to look into a collection of addresses which the late Dr. Richard Roberts gave to students in various centres across this continent about the time when I was at the place where you stand now. I read them again with special interest, partly because it had been my good fortune to be appointed as his associate when I completed my own college course, and partly because the addresses themselves have so much intrinsic merit and appeal. I take the liberty of concluding my message to you with words from one of them:

"Your business (whatever it may be) is not your own private gold mine: it is your opportunity to serve your generation according to the will of God. And there is joy in it, when with it the sense grows upon you that you are filling a place in the world, that you are feeding the processes of life, that you are justifying your own existence. To realize your daily task as a holy vocation, and so to discharge it, to be making good on your particular job every day, putting into it all you know, so that you come to the end of each day unstained, undishonoured, and unashamed, and glad even though the best work has brought you no more than your daily bread—that is the road to joy, the highway to realization."

I commend this wise admonition to your careful consideration, and suggest that you include it in your philosophy.

Council of Students

The Council of Students is the principal administrative and legislative organization of the Student Body. It is the only recognized medium between the Student body and University authorities.

This year the Council of Students welcomed Robert Inglis as its new Secretary-Treasurer. Bob graduated from Dal in 1952 with a B. Comm.

Initiation, which in the past few years had been mild, began to pick up this year. However emphasis is still on Freshmen reception rather than hazing.

Highlighting the fall term was the football season. The weather was good and attendance records were broken. However the championship Tigers were eliminated in Semi-final play.

Tennis had a successful season as Dal won the Maritime title and some of its female stars received National ranking.

Financially speaking, the Council is secure, operating on a slim surplus. All budgets submitted were accepted with only minor changes. However, as a result of increased costs and endeavours it has been realized that activities must be curtailed or students' fees raised for successful operations in the future.

In the Spring term the Blood drive was fairly well attended as donations exceeded last years by 100.

In hockey the highlight was the Invitation tournament at Lynn, Mass., when Dal won its 3 games. Reports coming from Lynn also praised the sportsmanship of the players.

While boys' basketball has not been too successful, the girls have been having a good year

Further sport treats may be in store this year and possibilities of McGill and Harvard visiting us for Basketball and Hockey respectively.

The Awards Committee undertook a minor revision in the point system in order to conform with changing campus conditions.

The Gazette received national honours from C.U.P. For this we thank Matt Epstein. Dennis Madden, N.F. C.U.S. committee, for 54-55, was instrumental in bringing the Georgian trophy to Dal this year. Interest in N.F. C.U.S. remained at a high level this year and the Council was fortunate in having an active chairman to carry on this aspect of its activities.

Medical Society

The Dalhousie Medical Student Society has had a most successful year. This year we filled two important positions on the campus with Douglas Brown as President of the Students' Council, and Peter MacGregor as President of the DAAC. In the fall a most successful banquet was held at the Lord Nelson Hotel and was attended by many students and doctors. The Dalhousie Medical Students' Society is an active society producing the DMSS Journal and running their own bookstore. We did well in Rugby and we expect to do as well in hockey. The climax of the year is our Annual Medical Ball which is thoroughly enjoyed by all.

Standing: Paul Kinsman, Alan Hebb, Bill Janes (President)
Seated: Patty MacLeod

Law Society

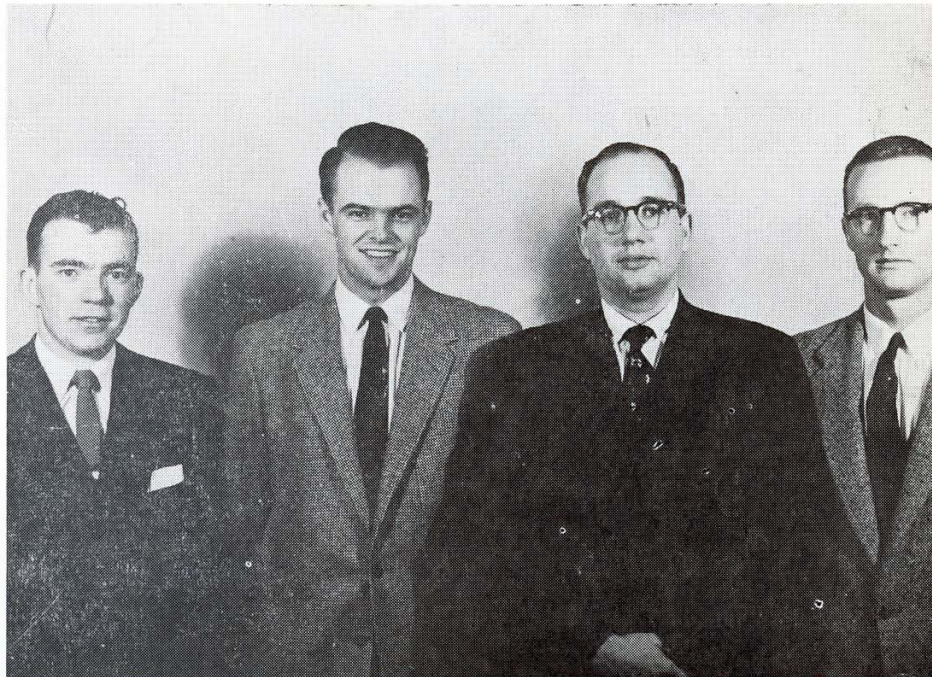

Beginning with a very enjoyable and successful Law Ball, held at the Lord Nelson Hotel, November 4, the Dalhousie Law Students' Society had a busy year. As usual, the lawyers were avid and active participants in interfaculty sports. Our Law Queen for 1955-56, Miss Ann Stacey, was presented for the first time at the Law Ball. In February, the Sea Gull Club was the scene of the fabulous Poor Mans' Law Ball, while the Law Library witnessed the hectic scenes of another Mock Parliament. Both the new Law crest and ring were brought into public view while the year terminated with a post examination banquet and dance.

John Crosby, Dave Fraser, Brad Smith (President)

Dental Society

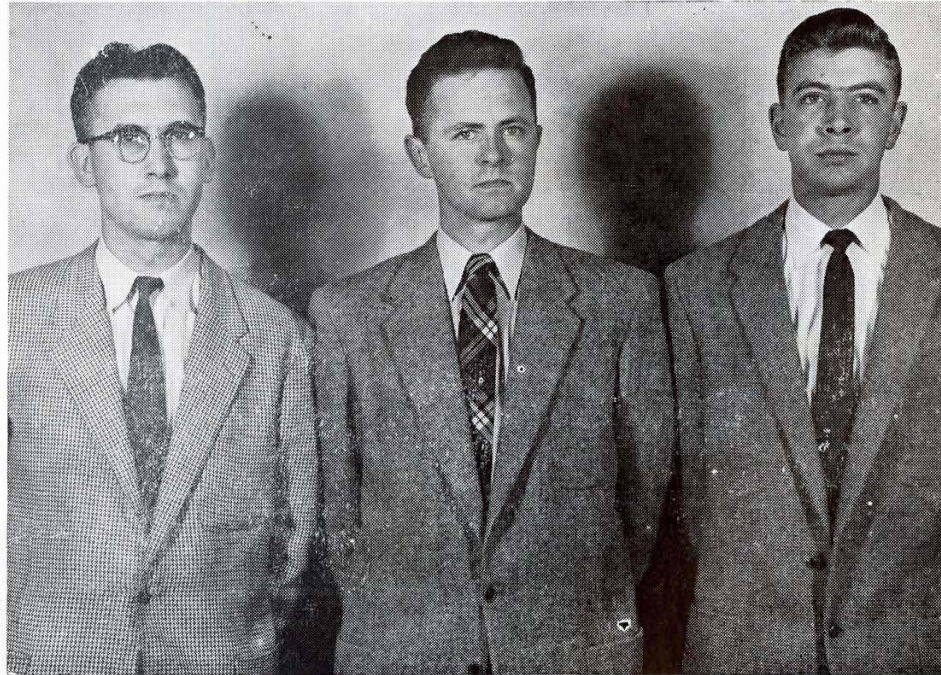

The Dalhousie Dental Society has enjoyed another active year. Although a comparatively small society in numbers it makes up for this in spirit and enthusiasm both in sports and in its activities. The highlight of the year was the Dent Ball in November, which is an annual feature, and the nomination of Carol Vincent as Dentistry candidate for Campus Queen on Munro day. Throughout the year films and discussions have helped to clarify any problems that have arisen and these have been enjoyed by all.

Fred Bullock, Murray Dewis, Sam Newman (President), Jack MacNeiley

Pharmacy Society

Another successful year seems to be the theme of the Pharmacy Society. Thanks to the work of the executive and the co-operation of every member of the Society, this year has been more than successful. Again the Society sponsored teams in the interfaculty leagues. The annual Banquet and Ball was held in the Lord Nelson Hotel in February, and was a success in every way. Plans are being made for the first, of what is hoped to be, an annual event of the United States to visit one of the larger drug manufacturing plants. As another first, the Pharmacy Society held a Barn Dance in February at the gym. The future is bright for the Society, so small in number, but so big in spirit.

Commerce Company

After three years of steady growth, Dalcom has experienced one of its most successful years. It has been active in practically every phase of Campus Life. Dalcom this year took over the management of the Gazette giving it business technique and experience. The highlight of the Commerce activities was Commerce Week, starting with a banquet at the Lord Nelson and ending with the ever popular Millionaires Sweater Dance. Throughout the year special speakers, industrial tours and discussion groups of special interest to Commerce students were made available.

Bill Phillips, John Jay (President), Doug Lennox

Engineering Society

The Engineers will always look upon the past year with fond memories and smiling faces, as they remember the year's activities. There was the Jamboree, the Ball, the Banquet, the industrial and other tours and many other interesting and infamous times that will be remembered not only by the engineers but also by the campus as a whole. In every phase of activity, on the campus and off, the slide rulers had a most successful year.

Arts & Science Society

This year the Society has introduced, with the co-operation of the University, a comprehensive system of society dues. As a result more society members have taken part in the activities sponsored this year than ever before. This year for the first time in the last six years the A. & S. inter faculty Rugby team won the championship. Another championship was copped by the Society in the Cross Country Road Race.

Already the Society has sponsored two dances on the social side of things, with a welcoming Barn Dance for the freshmen at the start of the University year, and the regular A. & S. dance held in January. The Society plans to sponsor the Ice Carnival, one of the most widely attended events of last year.

All in all the events of this year point to a resurgence of the Society in years to come.

Dorothy MacIntosh, Peter Jones (President), Janet MacLaughlin, John Keyston

Graduate Studies

The Society of Graduate Students this year held a number of well attended meetings. Guest speakers included University Librarian D. G. Lockhead, Dr. J. E. Keyston, who spoke on "The Conception of Space", and Dr. T. W. Cook who spoke on "Artificial Languages". Films, refreshments and discussions rounded out the meetings. The annual banquet, held in February, featured Dr. Bruce Ferguson.

Standing: Sheila McInnis, Ron Tolmie (President) Seated: Evelyn Bennett, Mollie McBride

Canterbury Club

The Dalhousie-Kings Canterbury Club is an organization sponsored by Anglicans, which meets regularly to consider problems affecting mankind. The meetings usually take the form of an introductory paper on the chosen topic, followed by open discussion. This year, the Club met on Sunday evenings at All Saint's Cathedral Hall where many topics of importance were dealt with. Membership in the group is open to all interested students.

Don Hambrick, Frances Dibblee, Alfred Howard (President), Isabel Conrad, Garth Embree

Newman Club

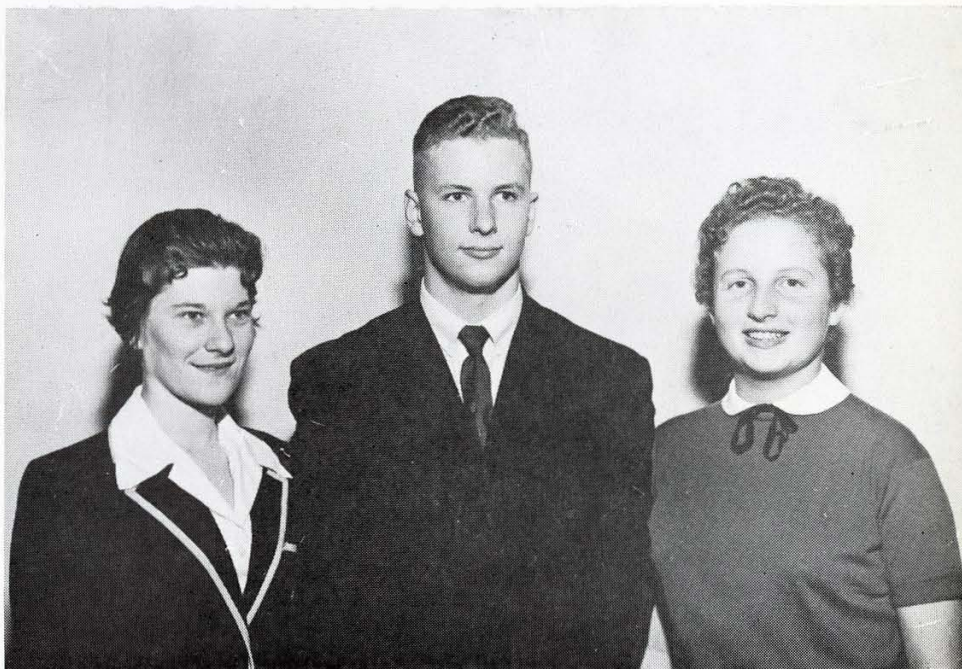

The acquisition of a new hall was the most important event of the past year for the Dal.-Tech. Newman Club. The Newman Hall on Windsor Street was renovated largely through the efforts of the Newman Alumni Club. During the year the undergrad club held regular Sunday evening meetings and heard lectures and panel discussions on a variety of topics related to Christian belief and practise. During the second term the annual student mission was held, and was attended by many Catholic students from Dal. and from N. S. Technical College. Newmanites are hoping for increased club activity in the future, thanks to their new hall.

Hillel Club

The Hillel Counselorship was organized at Dalhousie in the season 1952-53. It is a campus organization for the promotion of Jewish educational, cultural and social activities. Sponsored by the B'nai Brith of Halifax, its programme for the year 1955-56 included services, breakfast clubs, lecture series, Oneg Shabbat, counseling and Home Hospitality under the guidance of Rabbi Isaac Mayefsky of Baron de Hirsch Synagogue. During the year Hillel meetings were held in the Arts Building on Tuesdays at noon by President Bill Warren, Vice President June Nudelman, Secretary Shelagh Ellman, Social Chairman Gloria Breslin, Zena Shane and Publicity man Hersh Horovitz.

June Nudleman, Bill Warren (President), Gloria Breslin

Student Christian Movement

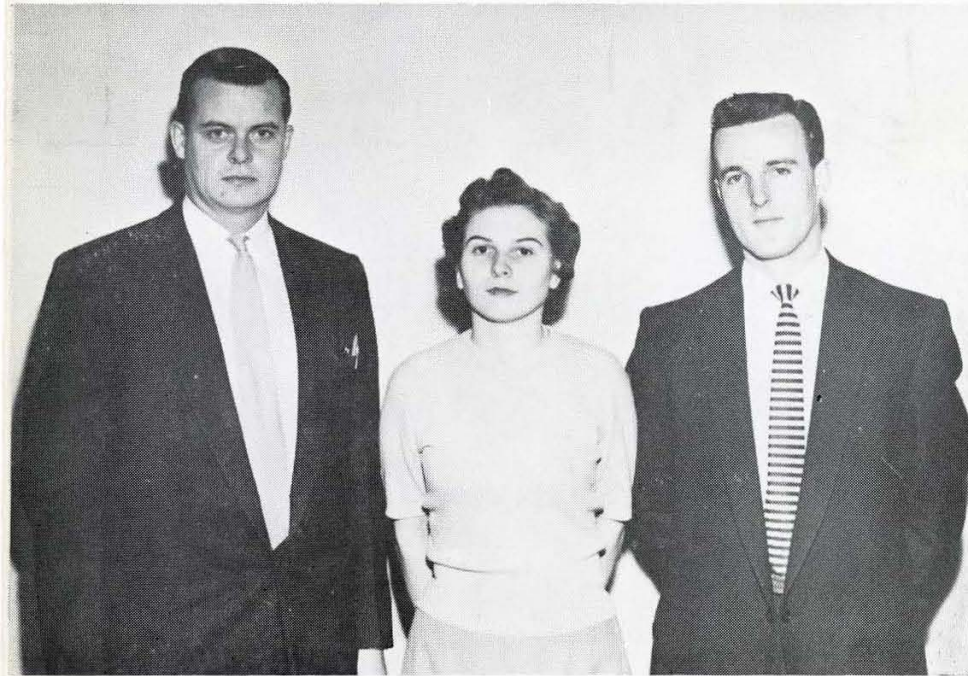

The Student Christian Movement is an interdenominational fellowship which emphasizes serious thought and consideration of Christianity, and the problems it faces in the university, and in vocations. The activities of the S.C.M. include: study groups, Sunday afternoon meetings, week-end camps and chapel services. Two students from Dal. took part in the National Study Conference and Council this year in Paris, Ontario. A delegation of six students represented Dal. at the Ecumenical Student Conference in Athens, Ohio, in December. The S.C.M. at Dalhousie represents a small unit of a large national organization which seeks to extend the message of Christ to the students in Canadian universities.

Shirley Powell, Hubert Mercer, Scottie Whittier (President)

Sodales

The Society launched out in the fall by posting Interfaculty debating lists. Thirty-six competitors answered the challenge. This number itself indicates the enthusiasm. The competitors were told at the outset that the resolutions must be of a light nature. This factor resulted in large audiences throughout the year. As for the Intercollegiate level Dalhousie has a right to be proud. Before Christmas UNB Law school challenged Malcolm Smith and Al Sinclair at the rostrum. This was Dal's first victory. Matt Epstein and Richard Vogel represented Dal and won by default over St. Thomas. David Peel and Hugh Coady defeated UNB at Fredericton, N. B. A tie with St. Dunstan's University forced a playoff for the Maritime championship. Dal was capably represented by Malcolm Smith and David Peel. Dal was again victorious and Smith and Peel proceeded to the Dominion finals.

Garry Braund (President), Joan Oberholtzer, Merlin Nunn

W.U.S.C.

The past college year has been one of the most successful for the local committee of W.U.S.C. In October Professor Graham and Don Young were the Dal delegates at the National Assembly held this year at the University of Saskatchewan. In February Miss Jane Banfield the Executive Secretary of W.U.S.C. visited the Summer Seminar of W.U.S.C. to be held this year in Germany.

In the fund raising campaigns, the highlight was the Treasure Van which filled the gym for three days in early October. As usual W.U.S.C.'ers peddled polar pies at the stage shows in the gym, and this year for the first time W.U.S.C. took over the production of programmes of all Dalhousie Glee and Dramatic Society's presentations.

Matt Epstein, Maureen Connolly, Dorothy MacIntosh, Don Young (President)

Sociology Club

The first meeting of the Sociology Club took place in the Haliburton Room of King's College on November 22 when Rev. Dr. W. W. Judd gave an address "The State and Responsibility of Canadian Churches in Modern Social Welfare". Dr. Judd is retiring from his position as General Secretary of the Council for Social Service in Canada, and is a graduate of King's College.

The Club's guest speaker in January was Rev. Leonard F. Hatfield, who led a most interesting discussion on social welfare.

The Sociology Club is under the direction of Dr. Uhler, who was elected Honorary President of the Club.

Charles Kempt, Ann Rayworth, Dr. Uhler, Judy Bryson (President), George Phills

N.F.C.U.S.

The Dal committee of the National Federation of Canadian University Students has had its second successful year. The 1954-55 committee, which reorganised and gave new life to N.F.C.U.S. on the campus won the Georgian Trophy for outstanding contribution to the Federation. Early this year the freshmen were welcomed with an introductory pamphlet, book covers were sold, and the student discount service was reactivated and enlarged to include theatres. Scholarship lists were sent to provincial high schools, a survey of students' financial needs was taken, and in co-operation with the National scholarship campaign members of Parliament were approached.

Dave Peel was elected the Federation's Atlantic Regional President at the Edmonton conference, and at the regional conference, the Atlantic Entrance scholarship was established.

Rink Rats

Organized early in November, the Rink Rats have had a most successful year with plans already in view for next year's activities. In October, the Jerry Vale show at the Gym was sponsored jointly by the Rink Rats and radio station CHNS. The Rink Rats have had charge of the rink canteen for the third year with great financial success, due to the energetic enthusiasm of its members. Thanks go to Kempton Hayes for his efficient job as manager and to Bob MacLean who acted as business manager.

Cercle Francais

Le Cercle Francais is a Club organized by and for the Dalhousie French students. This year has been a most eventful and successful one. Meetings throughout the year have included movies, songs and games, all in French. The climax of the year's activities was the "soiree" held in March, which was equally enjoyed by participants and audience alike.

Shirriff Hall House Committee

House Committee is the executive of the Shirreff Hall Self-governing Association to which every resident of the Hall belongs. It consists of eight members representing each class, who have as their duty the interpretation and enforcement of the laws governing student conduct in the Hall. In addition to sponsoring the Hall Formal, the annual Christmas party and the Senior Banquet, the House Committee has this year had charge of revising the Constitution of the Self-governing Association.

Back: Elizabeth Montgomery, Barbara Ferguson, Janet Conrad, Jean Anthony, Joan Oberholtzer.
Front: Elizabeth Dustan, Tinker Pullen (President), Dorothy MacIntosh.

Delta Gamma

Delta Gamma is the social organization to which all women students at Dalhousie belong. This year Delta Gamma was very successful in its various undertakings. It sponsored a very enjoyable Open House at Shirreff Hall in November, entered a play in the Connolly Shield Competition, and debated against a team representing the women's organization at Mount Allison University. Co-Ed week was, as usual, a very active week, highlighted by the annual Sadie Hawkins Dance and the crowning of the Campus King.

Dalhousie Gazette

EDITOR.....MATT EPSTEIN

The Dal. Gazette made a name for itself during the 1955-56 publication year. Honors came to the Gazette when it succeeded in turning out the best college weekly in the Atlantic Region. The Gazette also achieved National recognition when it was ranked fourth amongst Canadian University English Weekly college papers.

Over five percent of Dal. students worked regularly as Gazette staffers with nearly 75 people participating in the week-to-week efforts. The Gazette appeared on Campus 21 times during the college year and included a comic edition, a special Munro Day edition and an extra year's review edition of eight pages.

A dozen members of the staff journeyed to Acadia University in November to take part in the Atlantic Regional Canadian University Press Conference while a three man delegation represented the college-weekly at the National C.U.P. Meet in Quebec city over the Christmas holidays.

Of special interest was the special campaign and the Alumni edition sent to over ten thousand Dalhousians throughout the world with the probability of being repeated as an annual occurrence.

The Gazette gave its full support to many worthy Campus projects including the blood drive, Glee and Dramatic productions, Campus elections, various student council projects and Munro Day. Activities for the year were wound up March 16 with a successful staff party.

Glee Club

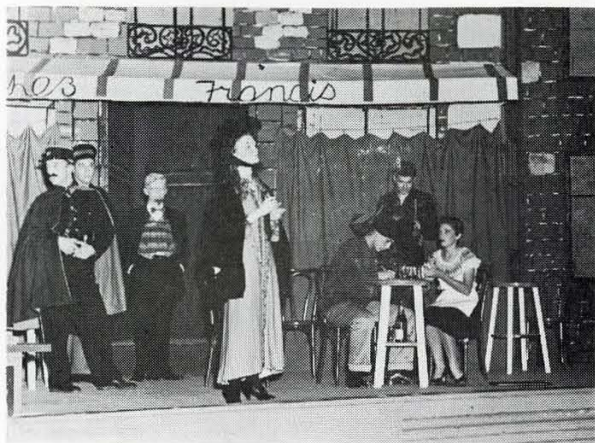

In November, the Dalhousie Glee Club and Dramatic Society began its year with the French play, "The Madwoman of Chaillot" by Jean Giradoux. Later on in November another revue, "It's A Steal" was presented. These two productions aroused quite a bit of controversy but were generally appreciated by the critics of Dalhousie. In the spring, a second play, "The Little Foxes" by Lillian Hellman was met with favourable comment from all sides. In March the Gilbert and Sullivan operetta "The Mikado" was presented. This year the Glee Club was greatly helped by WUSC, who took complete charge of all the programs for the various shows. This year the Glee Club feels it has taken another step forward in giving Dalhousie bigger and better shows and hopes that this trend will be continued in the future.

Mikado

Graham Day, who graduates from the Law School this year, is the first student director that a Glee Club major musical production has had for many years. His direction of "The Mikado", coming after past years' experience with Audrey Farnell and Harold Hamer, received plaudits from students and public alike, that were in no way less than praise given to these professionals.

In his five years at Dalhousie, Graham has had leading roles in "Iolanthe", "H.M.S. Pinafore", "The Gondoliers", and "Yeomen of the Guard".

This year he has added to his reputation as a performer the ability to bring fine performances from others, and has won the respect of singers, orchestra and audiences alike.

Football '55

Dalhousie's 1955 Football Tigers had a rather up and down season, losing four regularly scheduled games and bowing out to the Champion Shearwater Club in the semi-final. Despite a rather disappointing performance on the playing field, the Tigers once again provided many of the big thrills of the '55 grid campaign. There will be few who will forget Dave Bryson's 85 yard return kickoff T.D. in the crucial Stadacona game. There will be even fewer fans forget the mass hysteria of the game with St. Francis Xavier University. With seven seconds remaining, Fullback John Nichols drove to greener pastures and Studley spirit rose to unequalled heights. But such drive and determination were missing in many of the Tabby games, and despite a big and powerful line, braced with fast and adept backs, Dalhousie yielded the Purdy Cup to a driving Shearwater team. With the Championship lifted from her grasp Dalhousie looked forward to future N.S.C.F.L. seasons, and to even greater play in a sport in which she has been a dominant power.

Hockey '56

Dalhousie's Varsity Hockey Tigers had a very colourful year in the ice wars. Playing to capacity houses in every contest, the Tigers not only competed in the Maritime Inter-Collegiate loop, but also played several exhibition games with Halifax Service and American University teams. Despite the obvious failure to cop the Inter-collegiate Championship, the team enjoyed one of the biggest years in Dalhousie's Hockey history. During the Christmas Holidays, the Dalhousie team was invited to play in the Annual Christmas Invitation Tournament in Boston, the only Canadian team so honoured. Here, playing with the best Eastern American teams available, the Canadian Collegians went through an impressive undefeated schedule, thereby bringing further honour and renown to Dalhousie.

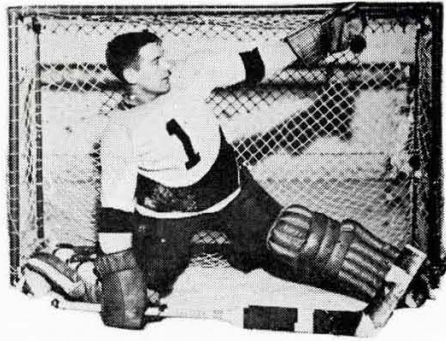

With the winter months waning, the Tigers settled back for the Maritime Inter-collegiate wars. In this year's loop, Dalhousie placed third, bowing out in two bitterly fought contests to the Champion St. Francis Xavier squad. The X games were the games of the year with standing room only, and out of these emerged the heroes of the '56 campaign, the "Kid Line" of Hill, Street and Dauphinee.

On D Day and Munro Day, the Bengals closed out their colourful '56 play by meeting the Providence Friars from Providence University, Rhode Island. This series, the first in thirty years with a visiting American team, capped a very enthusiastic and exciting hockey season.

Basketball '56

Dalhousie was represented on three fronts of the basketball scene in 1956. In intercollegiate play the Tigers managed only three wins in twelve games but showed their potential as they beat every team in the league once. The City Intermediate "A" team finished third in regular season's play behind Kings and Stadacona but in the playoffs were unbeatable. After downing Stadacona in a close-fought semi-final series, the Tigers turned back the powerful King's quintet in straight games to regain the City Intermediate Crown. The Intermediate "B" squad was less successful, finishing on top over the regular schedule but bowing to the R.C.A.F. squad in the league finals.

== Curling ==

The Dalhousie Curling once again had a successful year, with the club centering its activities around the Halifax Curling Club. An enthusiastic group participated in the "roarin' game" and a Chocolate Bar, Double Knock-out, and Interfac competitions were staged. The Dalhousie Club was represented in the Maritime Inter-Collegiate Curling Bonspiel in Charlottetown, copped by the University of Kings College for the third consecutive year.

== Golf ==

The Dalhousie Golf Team regained the Nova Scotia Inter-collegiate Golf Title at Truro in October as they finished in front of teams from St. F.X. and Acadia. Members of the team were Allan Doane, David Moon, Gene Gibson, Bob Timothy, Lea Windsor.

The faith men live by

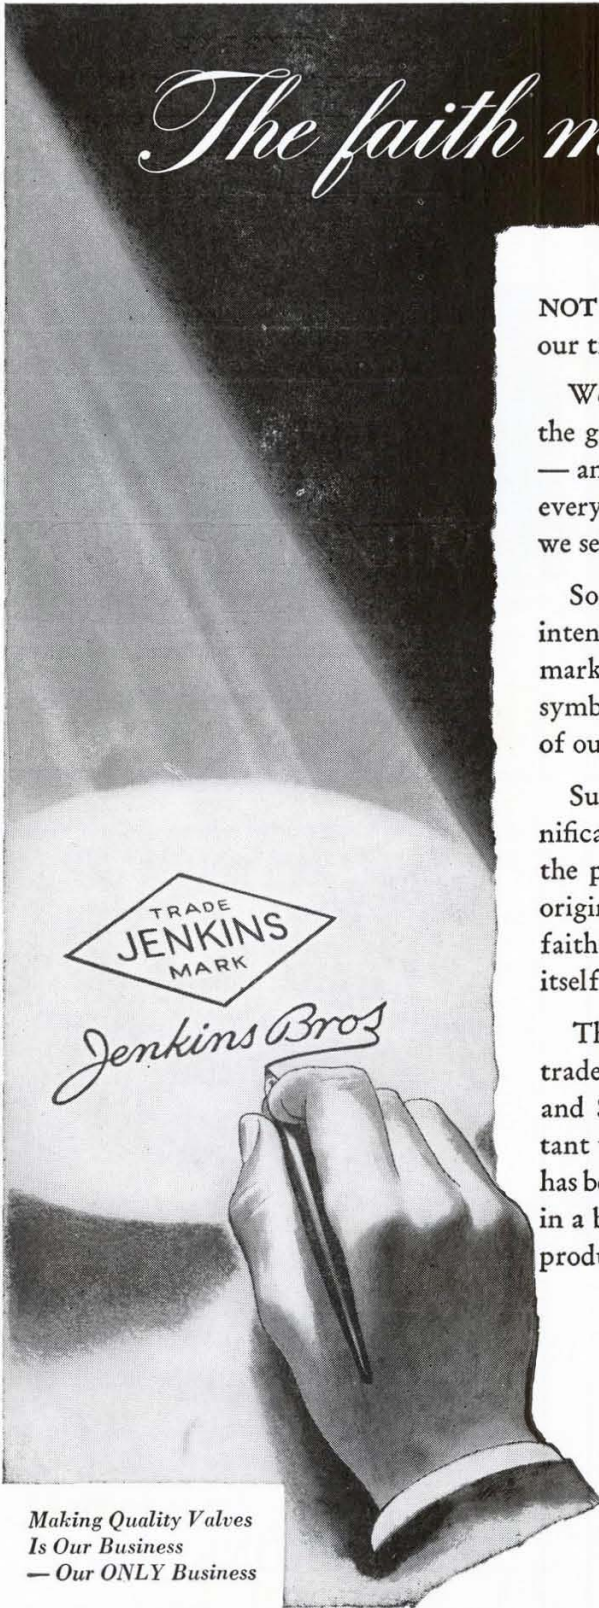

NOT A DAY GOES BY that we don't put our trust in others, in countless little ways.

We trust the policeman to keep the peace, the grocer to give us good meat and bread — and we trust, in measure, the honesty of everyone whose wares we buy, or to whom we sell our own.

Sometimes in evidence of our good intent, we sign our name or make our mark — and this mark becomes a visible symbol of our earnestness to merit the trust of our fellow man.

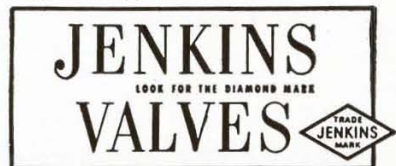

Such a mark does not attain its full significance as the ink is dry, but rather with the passage of years. As time goes by the original trust that engendered it ripens into faith in the signer's integrity, and that faith itself becomes an institution.

That is why Jenkins Bros. consider their trade mark — the Jenkins Bros. Diamond and Signature — among the most important virtues of a Jenkins Valve. This mark has become a symbol of justified faith placed in a body of honorable men making honest products, since 1864.

it has always seemed to us . . .

**that the first function of any advertisement
is to get itself read.**

**People do not have to read
advertisements. Therefore any art
or device, even as simple and
inexpensive as this advertisement
was to prepare, commands
more attention than just cold type.**

**Use more pictures. Illustrate
your advertising.**
