

# NOVA SCOTIA

## CANADA'S EASTERN GATEWAY

NOVA SCOTIA is the nearest Canadian Province to Great Britain. As the oldest established Province of the Dominion, it has more to offer the newcomer from the standpoint of social conditions, than the newer Provinces of the west. There are other important reasons however, why British people should settle in Nova Scotia.

NOVA SCOTIA has the most basic resources for industrial development of any portion of the American Continent. While her industries are expanding rapidly, agriculture still remains of prime importance and last year the Province was favored with crops to the estimated value of over \$35,000,000.

NOVA SCOTIA has land suitable for Mixed Farming, Market Gardening, Dairying, Sheep Raising and Fruit Growing. Her apples are among the finest flavored in the world. Trees bear from five to ten years after planting and yield profitably for from sixty to one hundred years. Nearly a million acres of land not yet planted are suitable for orcharding.

NOVA SCOTIA has strong local markets and unexcelled opportunities for exporting. Her ports, a number of which rank among the most accessible and safest harbors in the World, are near to the great international trade routes.

NOVA SCOTIA, unlike the great prairie Provinces of Canada, the development of which depend very largely upon one or two resources, presents the greatest variety of agricultural industrial and Commercial opportunities of any part of the Dominion of Canada.

# Don't Write Home— Telephone!

Would you rather write a letter to a person or talk with him?

Would you rather read a letter from a man or talk with him?

Why, you would prefer to talk every time. So would anyone.

Writing letters is invariably a bore. The written word is at best but a poor substitute for the spoken one.

That's why the student's practice of writing a weekly letter home is falling into the discard.

The Telephone Talk over the Long Distance lines, with its free and easiness and the element of give and take, which make it all but as good as a face to face chat, has ousted the weekly epistle from its wonted place.

# Surface Protection

IT is interesting to note the excellent preservation of some old family residences. Except for their architecture, one might almost imagine them to be products of the present age, yet in reality, they stand as silent tributes to wise precautions against decay and deterioration on the part of former generations.

Any house worth building is also worthy of preservation by means of paint. The maximum of protection is found in

**B-H "ENGLISH" PAINT** 70% Pure White Lead  
 (Brandram's Genuine B. B.)  
 30% Pure White Zinc  
 100% Pure Paint

The above formula produces a paint with a fine, smooth surface, which does not crack, chip or peel and a surface protection film that will defy the elements.

Investigate B-H "English" Paint. You will find most Canadians use it, because of its economy and lasting qualities. Even if B-H "English" Paint were more expensive than it is, it would still be the most economical, for the shorter life of cheaper brands makes them more expensive in the end.
