

# NOVA SCOTIA

## CANADA'S EASTERN GATEWAY

NOVA SCOTIA is the nearest Canadian Province to Great Britain. As the oldest established Province of the Dominion, it has more to offer the newcomer from the standpoint of social conditions, than the newer Provinces of the west. There are other important reasons however, why British people should settle in Nova Scotia.

NOVA SCOTIA has the most basic resources for industrial development of any portion of the American Continent. While her industries are expanding rapidly, agriculture still remains of prime importance and last year the Province was favored with crops to the estimated value of over \$26,000,000.

NOVA SCOTIA has land suitable for Mixed Farming, Market Gardening, Dairying, Sheep Raising and Fruit Growing. Her apples are among the finest flavored in the World. Trees bear from five to ten years after planting and yield profitably for from sixty to one hundred years. Nearly a million acres of land not yet planted are suitable for orcharding.

NOVA SCOTIA has strong local markets and unexcelled opportunities for exporting. Her ports, a number of which rank among the most accessible and safest harbors in the World, are near to the great international trade routes.

NOVA SCOTIA, unlike the great prairie Provinces of Canada, the development of which depend very largely upon one or two resources, presents the greatest variety of Agricultural, Industrial and Commercial opportunities of any part of the Dominion of Canada.

# Don't Write Home Talk Home— By Telephone

Talking is an older art than Writing.

Most of us are better talkers than writers—perhaps because we've had more practice in talking.

We are apt to be stilted and unnatural in writing to even the closest of friends; but in a talk we are our own selves and express ourselves fluently.

That is why the weekly Telephone Talk home is rapidly superseding the weekly letter home.

Who, for instance, wants a dry-as-dust, stiff, written communication from you when the Long Distance Telephone can carry the living tones of your voice right into the house where it used to ring in fun and frolic all day long—and in the tones of your voice your very personality?

Why, a Telephone Talk home is almost as good as a visit!

### EXECUTOR

Many able persons are unwilling to incur the responsibilities of executor.

Individual executors and trustees often neglect their duties, causing real annoyance and sometimes loss to the beneficiaries of an estate. The appointment of this trust company effectually guards against risks of all kinds.

### WILL

If a testator submits his will to us, our solicitors will advise him.

If you have already had your will drawn up and care to submit it to us, we will be pleased to advise you upon the subject and tell you at length how we best might serve you.

### APPOINTMENT

The appointment of this company as executor is a safe financial step.

This trust company will either act alone or jointly with others in the administration of the affairs of an estate and give ample guarantee of the faithful performance of its duties.

### FOREVER

Individual executors may pass away but this Trust Company lives forever.

The resignation or the death of individual trustees who have been appointed to guard and regulate the affairs of an estate frequently necessitates the naming of new trustees. This, of course, adds extra expense to the estate. The appointment of a reliable trust company solves this problem.

## Surface Protection

IT is interesting to note the excellent preservation of some old family residences. Except for their architecture, one might almost imagine them to be products of the present age, yet in reality, they stand as silent tributes to wise precautions against decay and deterioration on the part of former generations.

Any house worth building is also worthy of preservation by means of paint. The maximum of protection is found in

**B-H "ENGLISH" PAINT** 70% Pure White Lead  
(Brandram's Genuine B. B.)  
30% Pure White Zinc  
100% Pure Paint

The above formula produces a paint with a fine, smooth surface, which does not crack, chip or peel and a surface protection film that will defy the elements.

Investigate B-H "English" Paint. You will find most Canadians use it, because of its economy and lasting qualities. Even if B-H "English" Paint were more expensive than it is, it would still be the most economical, for the shorter life of cheaper brands makes them more expensive in the end.
