

fectured many other areas of these eastern Arctic people's lives and is entirely appropriate to the urban character of their existence. With continued encouragement and sympathetic direction, the Eskimo promise quickly to become full-fledged members of modern Canadian society, perhaps with a distinctive role to play in developing the vast Northland.

TO A YOUNG WRITER

Sara Van Alstyne Allen

Forsake the suave road.
Seek the cave by secret way
Of swimming undersea, and under welded shell
Find at last the unbelievable blue.

Cast away fruit that is sweet, stones too smooth,
The flower whose root was stronger where it grew.
Hold in unshrinking hand the flame whose core
Will burn, dispelling not smoke, only a radiation
Rippling like music over lonely sand.
