## *The Summer Land Supreme*

---

---

REST, recreation, sport, historic associations, magnificent landscapes and seascapes—you will find all these and more in Nova Scotia.

A surf-swept country with comfortable hotels and country homes. Sand beaches bathed in sunshine. Salmon and trout fishing—no preserved waters. Tuna fishing. Swordfish harpooning. Yachting, boating, canoeing. Tennis, golf. Fresh and salt water bathing.

1500 miles of smooth, curving seaside roads for motoring amidst scenes that will make you glad. Oil and gas stations everywhere. Three months touring without registration.

Climate possesses remarkable tonic qualities, being tempered to the right degree of coolness by the sea breezes.

# The Invention of the Telephone

Marked the Passing of the  
Dark Ages of Communication

---

THOSE Dark Ages began when wanderlust drove men to going to and fro in the earth and walking up and down in it.

For, these wanderings and walkings put a veto in the shape of distance on Nature's method of communication—the word-of-mouth way.

Those Dark Ages ended when the infant cry of Graham Bell's great invention was heard.

Then Nature's own way of communication—the word-of-mouth way—reasserted its supremacy, with promise of a jurisdiction greater than ever before.

Distance was, in effect, annihilated.

Think of communication 100 years ago between parted friends!

The written message—the package—the lumbering mail coach—even the “haste post haste” of the horseman.

What labour, what expenditure of time, what insecurity of transmission!

To-day, a few words spoken into an attachment on the desk or wall, and the space between the parted friends is spanned by a frail but certain bridge over which thought, translated into words and then into electric waves, passes back and forth.

The action, not deserving the name of effort; the time, a matter of minutes; the certainty of the message reaching its destination, all but absolute.

Each time you Telephone, you celebrate the ending of the Dark Ages of Communication.

**I**N 1906 policy 31524 for \$1,000 was issued to a young man of 35 who agreed to pay the annual premium of \$49.50 for 20 years. He completed his contract—the total payments amounting to \$990. When the policy matured in 1926, he had the option (1) of purchasing a paid-up, non-participating policy for \$1,000 and withdrawing \$929 in cash, or (2) withdrawing the principal sum (\$1,000) and accumulated profits (\$495) wholly in cash. In taking his second option he receives \$505 in excess of premiums paid,—in addition to protection for 20 years.

EVERY MAN INTENDS TO  
MAKE A WILL

But when one feels fit and eager for the day's work, can make the ninth hole in four and help carry a canoe around a three-mile portage, it's hard to contemplate the idea of a WILL with any seriousness.

That's why so many men die without a will.

That's why so many a comfortable little fortune is wasted in legal tangles.

That's why so much property gets into hands for which it was never intended.

Every man has rather decided views about the disposition of the wealth that he has created and saved. And he can enforce his wishes by a carefully drawn will and a wise choice of an executor. He can choose no executor who will administer his estate more prudently and faithfully than

## A Good Living A Profitable Future A Provision for Old Age

THE Canada Life Assurance Company has a District in the Province of Ontario, offering these opportunities.

There is a certain man, with no Life Insurance experience, with whom we desire to get in touch; likely a very promising business man between twenty-five and forty-five years of age, who realizes the limitations across his path of opportunity, and whose abilities require greater outlook and earning capacity.

Such a man may want to make a move, but hesitates to "take a plunge."

There is a better way: The Canada Life will undertake to thoroughly educate him for the life insurance business, which has been growing and will grow as has no other business, a business which offers permanent success, does not fluctuate, is a professional occupation and has been truly named "The best paid hard work in the world."

This is done by close contact, a correspondence course and personal assistance, free of charge.

The first two booklets of the course will be sent to anyone interested. All correspondence strictly confidential.

## What Jewett Means by a "New Day" Car

IT MEANS a car with *instant acceleration*—that shoots you through traffic quick as thought.

But it means, *also*, equally quick "stopping"—the instant, unfailing, cushioned stop possible only with Paige-Hydraulic 4-wheel brakes.

It means, too, wider, freer, clearer vision than any former car has ever had—almost complete elimination of the deadly "blind spot."

It means an ease of steering and control that makes your car seem responsive more to your wish than to your touch.

It means an uncanny ability to slip into parking spaces unbelievably small

# Surface Protection

IT is interesting to note the excellent preservation of some old family residences. Except for their architecture, one might almost imagine them to be products of the present age, yet in reality, they stand as silent tributes to wise precautions against decay and deterioration on the part of former generations.

Any house worth building is also worthy of preservation by means of paint. The maximum of protection is found in

**B-H "ENGLISH" PAINT**  $\frac{70\% \text{ Pure White Lead}}{\text{(Brandram's Genuine B. B.)}}$   $\frac{30\% \text{ Pure White Zinc}}{100\% \text{ Pure Paint}}$

The above formula produces a paint with a fine, smooth surface, which does not crack, chip or peel and a surface protection film that will defy the elements.

Investigate B-H "English" Paint. You will find most Canadians use it, because of its economy and lasting qualities. Even if B-H "English" Paint were more expensive than it is, it would still be the most economical, for the shorter life of cheaper brands makes them more expensive in the end.
