When it takes years of work and effort to accumulate an Estate surely it is right and proper to spend a short time in deciding how it can be best disposed of for the benefit of your dependents.

The function of The NOVA SCOTIA TRUST is to help plan a Will and then administer it as Executor and Trustee, either solely or jointly with another, as the Testator may decide.

With years of experience in administering Estates of Nova Scotians, let us help you plan your Will.

Without obligation, write or call our nearest office for assistance, and for our booklet, "Wills—Their Importance and Why you Should Have One."
