

NOVA SCOTIA HOLDS HER OWN

in an expanding Canadian Economy!

For example, during the past two years 60 new industries have gone into operation in Nova Scotia! One of these new industries is the Canadian headquarters for the internationally known Bendix Home Appliances Inc., makers of Bendix Washers.

Two other new industries are branches of outstanding British producers—Fairey Aviation Company, Limited, which has opened a plant here for the servicing and production of their Fairey Firefly multi-purpose naval reconnaissance fighter plane; and A. C. Cossor Limited, locating here for the production of radar harbour control and television appliances.

Another development is Maritime Industries Limited, a subsidiary of Standard Chemicals, operating a million dollar plant for the production of table salt. Still another new industry is a development of the National cheese manufacturers, Kraft Foods, in connection with Irish Moss. Two of the smaller new industries are Industrial Shipping Company, Limited, Mahone Bay, making plywood boats for home and export markets and Ven-Rez Products, Shelburne, producing plywood furniture.

They're coming to Nova Scotia and staying here! There were 14,000 more people in the Province this year—80,000 more during the past 10 years, an increase of 13%, greatest gain of any decade since Confederation . . . And they're coming here in droves to visit. Tourist purchases in Nova Scotia averaged \$1,000,000 each week of the 1948 season.

**NOVA SCOTIA HAS MUCH TO OFFER YOU—
WRITE FOR PARTICULARS!**
