ANNOUNCEMENT

Realizing possibilities of a distributing branch in the Maritime Provinces the Anglo-Canadian Drugs of Oshawa, Ont. have located at Suite 137-138 Roy Building in Halifax. A complete stock of fine Pharmaceuticals will be kept, alterations now being completed to stock rooms and offices. Anglo-Canadian Drugs are an ethical manufacturing firm catering to Medical, Veterinary and Drug professions, Manufacturing fine Pharmaceuticals, Chemicals and Biological Veterinary needs. Transportation time will be cut by several days by the installation of this service, and emergency needs of the Professions can be met promptly.

The officers and directors of the Anglo-Canadian Drugs are all Canadian and Canadian capital alone is responsible for the erection and operation of a high class modern and scientific industry. Laboratories and Plant are headed by men of high reputation who have been identified as leaders in the Pharmaceutical world. The Halifax agency will be under the direction of Mr. R. G. Blair a Pharmaceutical Chemist who has had many years experience in all branches of Pharmacy. Salesmen and Medical detailists will cover Nova Scotia, New Brunswick, Prince Edward Island and Newfoundland under the direction of the Halifax office. An entire Maritime staff who understand Maritime necessities are engaged and will be able to meet the requirements of this part of Canada in an understanding way. Mutual benefit will be the result of this new procedure by the parent organization of this Canadian industry. Agencies with stock rooms are in operation in Montreal, and are being established in key Cities throughout Canada.

Editorial

IN its decision to sponsor an undergraduate journal, the Dalhousie Student Medical Society achieves the realization of a most cherished dream. To us, of the editorial staff, have been extended the duties of its first publication. The policy of this journal has been set to fulfil a purpose that is twofold;

“to encourage and train the medical undergraduate in the preparation of scientific articles and to act towards a closer association between past and present students of our University.”

With this uppermost in mind, we present the first issue of the *Dalhousie Medical Journal*, and do earnestly trust it may attain such heights that in years to come, this number will be valued only as the forerunner of a truly fine publication.
