

Canadian Architectural Periodicals

There is a wealth of information about architecture in Canada to be found between the covers of this country's architectural periodicals. Presented here, as a work in progress, is a summary of Canadian periodicals which have published on the subject of architecture from 1888 to the present.

This selective compilation does not include all periodicals which touch on the subject of Canadian architecture. Omitted are periodicals primarily pictorial in nature, such as *Canadian Illustrated News*. Francine Brousseau and Line Chabot have indexed all illustrations and text concerning architecture in this periodical (1869-1883) and its French-language counterpart, *L'Opinion publique* (1870-1883), in *Architecture in/dans Canadian Illustrated News and/et L'Opinion publique: Inventory of References/Inventaire des références* (Ottawa: Parks Canada/Parcs Canada, 1984). Nor does this compilation include periodicals aimed primarily at the contracting industry, such as *Western Canada Contractor and Builder*, published in Winnipeg from about 1903 to 1942, only scattered copies of which seem to have survived, or *Contractor* (1920?-24) and its successors *The Contractor and Building Journal* (1925-29), *Building in Canada* (1929-46), and *Home Building in Canada* (1946-61), all published in Toronto. These are all rich sources of information in their own right.

While American periodicals have frequently included Canadian architectural projects within their covers, these, too, have been omitted from this list. (Canadian projects published in *American Architect and Building News* from 1887 to 1937 have been copied by the Architectural History Branch of Parks Canada, and this manuscript collection is held in their offices in Hull, Québec.)

To the everlasting gratitude of students of architecture, a number of the periodicals in this compilation have been indexed in one form or another. The most comprehensive indexing work thus far undertaken in Canada is Claude Bergeron's bilingual *Index des périodiques d'architecture canadiens, 1940-1980/Canadian Architectural Periodicals Index, 1940-1980*, translated by Sylvia Bergeron (Québec: Presses de l'Université Laval, 1986). Bergeron's omnibus index covers nine of the most important architectural periodicals published in Canada between 1940 and 1980.

A number of individual periodicals have also been independently indexed, including Patricia J. Johnston and Paul R.L. Chénier's *Index of/du Canadian Architect and Builder, 1888-1908* (Ottawa: SSAC, 1987), and Christina Cameron's *Index of Houses Featured in Canadian Homes and Gardens from 1925 to 1944* (Ottawa: Parks Canada, 1980). A detailed index to *Construction: A Journal for the Architectural, Engineering and Contracting Interests of Canada* (1907-34) exists in index-card form at the Architectural History Branch of Parks Canada, and would be a worthy candidate for future publication.

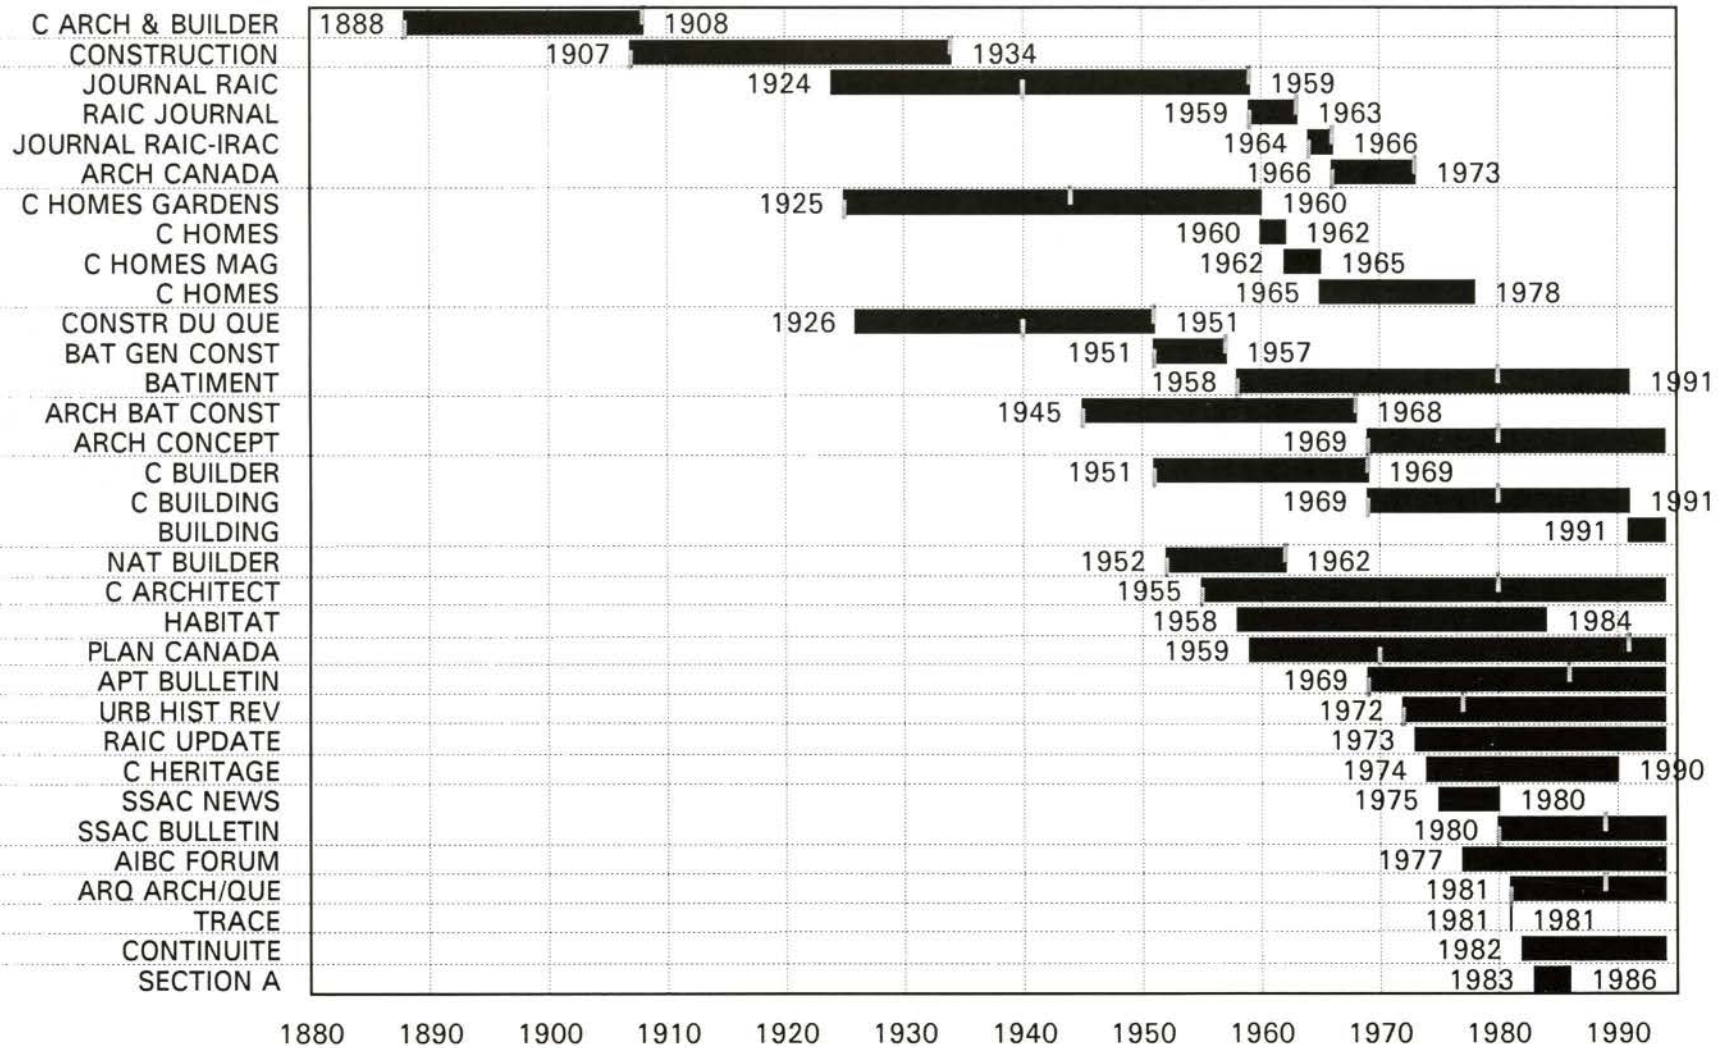

Some publishers have undertaken their own periodical indexing projects, including the *SSAC Bulletin* (1980-94), *Plan Canada* (1970-91), *ARQ: Architecture/Québec* (1981-89), *APT Bulletin* (1969-86), and *Urban History Review* (1972-77).

Selected articles from some architectural periodicals are included in Loren R. Lerner and Mary F. Williamson's two volume *Art and Architecture in Canada: A Bibliography and Guide to the Literature to 1981/Art et architecture au Canada: Bibliographie et guide de la documentation jusqu'en 1981* (Toronto: University of Toronto Press, 1991). Some *Construction* and *Journal of the Royal Architectural Institute of Canada* articles have made their way to this annotated bibliography, for example, as have some *APT Bulletin* and *Canadian Heritage* articles (the Heritage Canada Foundation created a typescript index to *Canadian Heritage* in the late 1980s, but few copies exist).

To aid researchers, a summary chart of selected Canadian architectural periodicals has been created to display, at a glance, the major architectural periodicals being published during any given period.
