INTRODUCTION.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in the Dominion.

A Provincial Act incorporating the Governors of King's College received the royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject, but King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, with the exception of Divinity.

In 1871 a Curriculum was issued for a course of Civil Engineering, and the University has subsequently granted degrees and diplomas in that science, as well as in Arts, Law and Divinity.

During the past Academic Year most valuable donations have been made to the Library by the Hon. Senator Almon, as executor of the late Rev. Geo. E. W. Morris, 246 vols.; by Mrs. Chandler, Mrs. Joshua Chandler and Miss Fanny Chandler of Dorchester; by the Radical Bay Club; by the Halliburton Club; by Dr. Charles Cogswell, London, G. B.; by the Institution of Civil Engineers, London, G. B.; by the Hon. Dr. Almon; by the Royal Dublin Society, Ireland; by the Royal Society of London, G. B.; by the American Institute of Mining Engineers; by the Chief Engineers of the U. S. Army; by the Superintendent of the U. S. Coast and Geoditic Society; by the Smithsonian Institute; by the Provincial Government, Halifax, N. S., and others,—a detailed account of which will be found on page 46 of the Calendar.

A system of Local Examinations has been instituted for those who are not members of the University.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$300 to \$350 per year. The mere money payment demanded, need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$90 for the three years' course, besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

The Examiners for the past Academic Year outside the Faculty were as follows: The Rev. F. Partridge, D. D.; R. Walker, Esq.; M. A. Oxon, R. N., and F. S. Sumichrast, Esq.

COURSE OF STUDY.

The object aimed at is to secure a good general education for all matriculated students, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the sixth term of residence. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B. A. are permitted to attend the lectures of any of the Professors, subject to all the usual Regulations, and can, moreover, under certain conditions, proceed to Degrees in Science and Engineering.

The schemes of Responsions and B. A. Examinations will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

Numerous Scholarships, Prizes, and Honorary Distinctions, (which are more fully referred to elsewhere in the Calendar), are open to be competed for by students in the several faculties, the principal of these being the following:—

<i>Scholarship or Prize.</i>	<i>Annual Value.</i>
One Cogswell Scholarship.....	£24 sterling.

TERMINAL EXAMINATIONS.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures.

Every Undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the Term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible,

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the close of the examination. The names shall be arranged in the order of merit. Any student whose name does not appear in this list shall forfeit his examination.

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1780. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester, Wm. Wilberforce, Sir S. Bernard Morland, John Eardley-Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D. C. L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M. D.; The Dominion Government; The Secretary of the Interior, United States; The Institution of Civil Engineers; The Society of Engineers; The Royal Society; The Religious Tract Society; The Rev. George McCawley, D. D.; The Rev. Canon Hensley, D. D.; General Sir W. F. Williams, K. C. B.; the present Bishop of Nova Scotia; the Right Rev. Dr. Rigand, late Bishop of Antigua; the Rev. George Morris, and Her Majesty the Queen.

This large collection of books, now numbering about 8000 volumes, contained till the year 1870 in a single room in the College building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In Modern History and Belles-Letters it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money, and the benefactions of friends of the University.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia and are especially adapted to show the characters of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Denison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. Mr. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Picket; Hon. W. Odell, and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes, contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented, in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M. D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistry at Pisa, and the memorials of Gens. Williams and Inglis, which include the sword worn by the former throughout the siege of Kara, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wood from the house in the court-yard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases, all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the Hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian*, and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations acknowledged in the yearly Calendars as heretofore.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

REPORT.

THE Executive Committee of the Associated Alumni of King's College, Windsor, on their 37th Anniversary, beg leave to submit the following Report :—

We regret to have to announce that while there has been a very small addition to the number of Annual Subscribers, and no addition to Life Members since our last meeting—very many of those whose names were added last year have neglected to send in their subscriptions, although they have been reminded of their obligation.

It is difficult to understand the apathy which seems to exist throughout the Diocese, notwithstanding the frequent appeals which have been made from time to time, but which, we hope, may not have been altogether in vain—when the final result of the present canvass on behalf of the Endowment Fund has been made known.

With our own subscribers we would wish that their subscriptions might be sent in with greater regularity, so that the full income of the Association might appear in the Treasurer's Annual Account.

In proposing new associates we hope that the members will be particular in giving in the names only of those persons who have expressed their willingness to become members and who understand the obligation devolving upon them.

In several instances names of persons have been proposed, who, on being notified of their obligation, have expressed their astonishment at being called upon for their subscription.

The annual payment was purposely reduced with the hope that all members of the Church throughout this and the adjoining Dioceses—who were naturally supposed to take an interest in the affairs of the University—might be induced to join the Association either as Annual Subscribers to the funds or as Life Members, while it was also hoped that some might be induced to give more liberally to further the objects for which the Society was established.

We still hope for this result, but it can only be brought about by a personal appeal—first to the Churchmen of this Province, who have

a more direct interest in the welfare of the College—and next to the Churchmen of the adjoining Provinces.

The question relative to the retirement of Mr. Shaw from the Board of Governors last year in consequence of his election, as was understood to the place on the Board made vacant by the demise of the Rev. Dr. Jarvis, having been raised and discussed at the last meeting—the clause in the Report relating thereto having been finally adopted—but referred to the Executive Committee. Your Committee beg leave to report that while they have to regret the early retirement of Mr. Shaw from the Board—they can only advise that the rule followed out by the decision of the Alumni be adopted for the future so that there may be no misunderstanding, but they hope that as Mr. Shaw has always evinced a deep interest in the affairs of the University, he may permit himself to be nominated at the present meeting.

Canon Brigstocke's notice of motion on proxy voting, calls for your consideration :

“ *Whereas*, It is most important at the present time that nothing should be allowed to interfere with the prosperity of the Alumni Association, and *whereas*, some have maintained that “proxy” voting has been among the causes which have operated to prevent a larger attendance at the meetings, and a more general interest being taken in the Association by clergy and laity ; be it therefore resolved : That the Executive Committee be requested to take the whole subject of proxy voting into consideration with a view to the most practical way of abolishing it.”

Your Committee after due consideration, and bearing in mind the difficulties which prevent many members from attending the meetings of the Association at Windsor or elsewhere—recommend that the privilege of voting by proxy be continued to the limited extent decided upon at the last annual meeting.

The Treasurer's account for the past year is herewith submitted, showing a small balance on hand applicable to the ordinary disbursements.

This year we have to announce the demise of several of the oldest members of the Association which has come under the notice of the Committee :

Daniel Hodgson, Esq., of Charlottetown, P. E. I.

The Rev. Geo. E. Morris, M.A., who matriculated in 1812—some time rector of Rawdon and Dartmouth.

Rev. J. T. T. Moody, D.D., rector of Yarmouth, who matriculated in 1820, and upon whom the degree of D.D. was conferred last Encænia.

The Rev. Henry Lambeth Owen, D.D., who matriculated in 1820—for many years rector of Lunenburg.

William Pryor, Esq., of Halifax.

In addition to the other business of the day you are requested to elect two Governors in the place of George C. Wiggins, Esq., and the Rev. Geo. W. Hodgson, M.A., whose terms have expired. A Vice-President in the place of Wm. C. Silver, Esq., and three members of the Executive Committee in the stead of the Rev. John D. H. Browne, Rev. Frederick R. Murray, and Wm. D. Sutherland, Esq.

By order,

CHARLES H. CARMAN,

Secretary.

KING'S COLLEGE SCHOOL,

WINDSOR, N. S.

HEAD MASTER: The REV. C. E. WILLETS, D. C. L.,

*Graduate and formerly Scholar of Corpus Christi College, Cambridge,
late Sub-Rector of Bishop's College School, Lennoxville, Quebec.*

This School is in direct connection with King's College, and is subject to the supervision of the President and Vice-President of the College, under instructions from the Board of Governors.

The object of the School is to provide a sound, religious, classical, mathematical and general education, in conformity with the principles of the Church of England; but it is open to all Denominations without restriction.

Pupils belonging to the Church of England attend the Services in the College Chapel, but those of other Denominations may, if required by their parents, attend the Sunday services of the Denomination to which they belong. In the latter case certificates of proper attendance will be required from the Minister.

While ample provision is made to prepare boys for the University and high Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions, and enable them to take that position in society which is conceded only to men of liberal education and refined habits.

COURSE OF INSTRUCTION.

The course of instruction includes all the usual branches of a sound education in Classics, Mathematics, German, French, English, etc.

TERMS.

The School Year is divided into three Terms :
Michaelmas, Lent and Trinity Terms.

Boarders\$200 per annum.
Day Scholars 40 "

The fees are distributed over the year, as follows :

Boarders—Michaelmas Term\$80
Lent and Trinity Terms 60 each.

Day Scholars—Michaelmas Term 16
Lent and Trinity Terms..... 12 each.

Modern Languages—Boarders and Day Scholars—Michaelmas Term, \$5. Lent and Trinity Terms, \$3.50 each.

A half Term's notice must be given in writing previous to the removal of a pupil.

There are two exhibitions connected with the School, one of \$32 and the other of \$16, open to competition for Classics, and a prize of \$10 for French.

RULES REGULATING THE COLLEGIATE SCHOOL PRIZES OR EXHIBITIONS.

"The exhibitions shall be annually contended for, the first prize to be open to the Senior form alone; the second to all the forms of the School except the Senior."

The exhibition of forty dollars shall be awarded to the pupil of the Senior form who shall stand first on the list of Examiners, and the second exhibition of twenty dollars to the pupil of all the other forms who shall stand first on the list of the Examiners.

No pupil shall be entitled to the highest exhibition unless the examination he has passed shall be such as to qualify him to matriculate at King's College, though not compulsory for him so to do.

Several years ago a third prize was added to the number, viz., one of ten dollars for the best scholar in the French language, open for competition to the whole school.

The Committee in charge of this prize fund offer for the year 1885, a prize of fifteen dollars for the best scholar in French, open to all the school, and five dollars for the best scholar in German, also open to all the school.
