INTRODUCTION.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in the Dominion.

A Provincial Act incorporating the Governors of King's College received the royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject, but King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, with the exception of Divinity.

In 1871 a Curriculum was issued for a course of Civil Engineering, and the University has subsequently granted degrees and diplomas in that science, as well as in Arts, Law and Divinity.

During the past Academic Year valuable donations have been made to the Library by the bequest of the late Rev. G. W. Hodgson, M.A., and by other gifts—a detailed account of which will be found later on in the Calendar.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$300 to \$350 per year. The mere money payment demanded need never, however, exclude a candidate really

prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$90 for the three years' course, besides the fee for a B.A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

The Examiners for the past Academical Year outside the Faculty were as follows: The Rev. F. Partridge, D.D., H. Y. Hind, Esq., M.A., Bliss Carman, Esq., M.A., and the Rev. H. A. Harley, B.A.

The College buildings have been restored and painted at an expense of about \$2,000, which has been raised by voluntary effort. The houses for the Professors have been rebuilt on new sites, and are well-constructed and handsome, adding materially to the appearance of the College grounds. Water has been brought to the College and the Professors' houses which will prove a great convenience, and will decrease the rate of insurance. The whole buildings are now in good repair, and externally will need no further expenditure for some years to come.

It is to be noticed that the regulation, which provides that a matriculated student may not offer himself as a candidate for Responsions until he has completed his fourth term, has been cancelled. Hereafter any such student may present himself for that examination as early as he pleases, thereby giving himself more time to perfect himself for the Degree Examination and for any special Honour Course which he may select.

The large additions, which have been made to the Library during the past year, have necessitated further accommodation. This is being provided for by the erection of cases in the lower hall.

A general statement of the financial condition of the University is appended, and will be found to include—

1st. A statement showing "General Fund" in account with the Treasurer for Collegiate Year ending June 30th, 1886.

2nd. The "University" in account with the Bursar.

3rd. The "New Endowment Fund" in account with Archdeacon Gilpin, Treasurer.

4th. The "Restoration Fund" in account with Charles Wilcox, Treasurer.

5th. Statement of the General Fund, Securities, Investments, Income, &c., with estimated expenditure for present year.

6th. Statement of the Visitor's Fund, Securities, Investments, Income, &c., with estimated expenditure for present year.

7th. Statement of Trust Fund for prizes, &c.

8th. List of subscriptions to "New Endowment Fund."

9th. List of donations to "Restoration Fund."

Work on the Professors' houses is progressing satisfactorily, and the contractor expects to have them ready for occupation this autumn.

Course of Study.

The object aimed at is to secure a good general education for all matriculated students, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B.A. are permitted to attend the Lectures of any of the Professors, subject to all the usual Regulations, and can, moreover, under certain conditions, proceed to Degrees in Science and Engineering.

The schemes of Responsions and B. A. Examinations will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

Numerous Scholarships, Prizes, and Honorary Distinctions, (which are more fully referred to elsewhere in the Calendar), are open to be competed for by students in the several faculties, the principal of these being the following:—

MATRICULATION IN ARTS.

Every candidate for Matriculation must lodge with the President of the College before the day of Examination a certificate of good moral conduct extending over a period of not less than eighteen months immediately preceding. Attendance at Lectures.

Attendance at all Lectures, except those which shall be announced as optional, shall be compulsory upon all Undergraduates.

Professors will register, upon the Lectures Attendance List, the presence or absence of students immediately before beginning the exercises of the class; any student entering thereafter will be noted as absent, unless a satisfactory explanation be given to the Professor.

No Student shall be allowed to absent himself from any Lecture, (except by special permission, obtained from the Professor,) nor from the Examinations in any Department in his course. All Students must procure from the Professors certificates of attendance, without which they will not be allowed to proceed to the Examinations held at the end of every term.

Of Terms and Residence.

The Academical year shall begin in October, and shall contain three terms, in which all scholastic exercises shall be performed, and all degrees conferred. Michaelmas Term shall extend from the first Saturday of October to December 22nd; Lent Term from the second Saturday of January to the Saturday before Palm Sunday; Easter Term from the Monday after Easter Monday to the last Thursday in June.

The following days shall be observed as Holidays in the University:—All Saint's Day, Ash-Wednesday, Ascension Day, Whit-sun Monday, and the Birth-Day of the reigning Sovereign.

Any such Student, on making proper application, will be permitted to come into residence during the first week of November in each year, and to remain until the end of the succeeding Lent Term, passing the regular examinations. This will be allowed to count as two Terms. After thus keeping eight Terms, he will be permitted to present himself for the B.A. Examination on any subsequent occasion.

Each Professor shall keep a record of the attendance at his Lectures, to be handed in at a weekly meeting of the Board, and duly registered.

EXAMINATIONS AND GRADUATION.

Terminal Examinations.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures.

Every Undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the Term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificate will then be handed in by the Undergraduate to the Vice-President previous to the beginning of the examination, and no Undergraduate shall be allowed to present himself at any Terminal Examination, unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the close of the examination. The names shall be arranged in the order of merit. Any student whose name does not appear in this list shall forfeit his examination.

Responsions.

Every matriculated student is required to pass a public examination called Responsions, and no term after the sixth can be reckoned until it has been passed. The subjects are ordinarily as follows:—

The certificates will have to be signed by the various Professors whose course of lectures they have attended, and no Undergraduate shall be allowed to present himself at any Degree Examination unless he shall have complied with the above regulations. Or, if they shall not have attended the whole time at King's College, they shall be required to produce similar certificates from the University they have attended.

The Examination shall be carried on mainly by written questions and answers, but the Examiners shall at all times have the power of examining *viva voce*.

A Public Examination for Degrees shall be held towards the end of Michaelmas and Easter Terms. Students shall not be permitted to offer themselves for this before their ninth term, except those who intend to offer themselves for Honors, who may be examined in the Ordinary Degree subjects in their seventh term, between the Responsions and this Examination. In such case, the student must pass an examination in the honor-subjects chosen by him before being admitted to a Degree.

Every candidate for a Degree must be examined on two days in at least three of the subjects on which lectures are delivered by the Professors, of which Classics or Mathematics must be one. The following (or their equivalents) are the subjects of an Ordinary Degree:—

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1780. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester; William Wilberforce, Sir S. Bernard Morland, John Eardly Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D. C. L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C.

Cogswell, Esq., M. D.; The Dominion Government; The Radical Bay Club; The Halliburton Club; The Secretary of the Interior, United States; The Institution of Civil Engineers; The Society of Engineers; The Royal Society; The Religious Tract Society; The Rev. George McCawley, D. D.; The late Rev. Canon Hensley, D. D.; General Sir W. F. Williams, K. C. B.; The present Bishop of Nova Scotia; The Right Rev. Dr. Rigand, late Bishop of Antigua; The Rev. George Morris; The late Rev. G. W. Hodgson, M. A., and Her Majesty the Queen.

This large collection of books, now numbering about 8000 volumes, contained till the year 1870 in a single room in the College Building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In modern History and Belles-Letters it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Theology and Classics this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the Welsford prize money and the benefactions of friends of the University.

The Museum.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology but the majority have been collected in Nova Scotia and are especially adapted to show the characters of the Fossil Flora and Fauna of the province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Dennison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It

contains some beautiful fossils, and is arranged stratigraphically; its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Dennison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James, Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name; Reptilian Tracks of great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils from Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How; Rocks and Minerals from the Dominion Government; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilmot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. J. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Picket; Hon. W. Odell, and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.; A collection from the U. S. Government.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes contains a fine systematically arranged collection of Phænogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algæ and Terrestrial Plants, presented, by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M. D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistry at Pisa, and the memorials of Gens Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore

Memorial Cross, formed of wood from the house in the courtyard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves or distributed in different parts of the hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian* and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S. in order that the receipt may be duly acknowledged, and the donations acknowledged in the yearly Calendars as heretofore.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 79th anniversary of the landing of the Loyalists in New Brunswick.

Additions to the Library, 1885-6.

The books, bequeathed to the library of King's College by the late Rev. George W. Hodgson, M. A., of Charlottetown, P. E. I., were received last December, and partially examined, but were left in the boxes in which they came, as there was not sufficient shelving to accommodate them. They appear to be in good condition, and some are in expensive bindings; amongst these might be noticed 19 volumes of the latest, or ninth edition of the Encyclopædia Britannica, bound in half calf. According to the catalogue, there are 479 volumes.

In closing this list, and especially in connection with the works presented by Dr. Akins, whose notes concerning his own donations I have copied in full, it may not be uninteresting to refer to the fact as mentioned to me by Dr. Akins, and as ascertained by him, namely, that in the library of King's College—mainly through the liberality of the late Rev. Dr. McCawley and Dr. Akins—there are 40 vols. printed during the 15th Century ; this exceeds by 14 vols. the number exhibited in Montreal at the last Caxton exhibition.

The friends of the College are respectfully requested to keep in remembrance that the library, while possessing over 8000 bound volumes, is still very deficient in the later publications in Science, English Literature, and Modern History and Languages, as well as in the other departments.

REPORT.

The Executive Committee of the Associated Alumni of King's College, Windsor, on their Thirty-ninth Anniversary, beg leave to submit the following Report, in which they are pleased at being able to refer to the events of the past Academical Year under the new management as somewhat encouraging.

It is to be hoped that the Association, and the friends of the College generally, knowing this, will be led to greater efforts towards rendering such assistance as may be necessary to establish the University on a firm basis. This can only be done by such an addition to the funds at the disposal of the Board of Governors as will enable them not only to provide for the maintenance of the present Teaching Staff, but to make such additions thereto from time to time as the age may require.

Towards this end the first step is the revival of the Endowment Canvass, which your Committee hope may be commenced as soon as possible, considering the circumstances of the present time.

A few years ago with a view to increase the membership and to excite an interest in the College among the Church people generally, the annual subscription was reduced to Two Dollars, as it was felt that many persons in the several Parishes throughout this and the adjoining Dioceses might be enabled to subscribe who had been deterred by the former rate, and your Committee were pleased at being able to report such a result.

It has been for some years the custom to draw your attention to departed members of the Association. This year we have to record the death of one of our most highly esteemed and useful members not only of the Association but of the University—the Rev. George Wright Hodgson, M.A.; Priest of S. Peter's

Church, Charlottetown, who matriculated in 1857, and took his Master's degree in 1864, of whom it can be truly said that in every relation of life during his College career and subsequent Pastorate, he bore an unblemished reputation, and ever sought to bring upon all with whom he was associated the most powerful influences for good.

The Treasurer's account for the past year is herewith submitted, shewing a balance of \$847.27, of which it has been thought advisable to obtain a permanent investment for \$441.

In addition to the business which may come before you, the chief is as usual the election of new members to the Board of Governors.

This year we are called upon to elect three in the places made vacant by the retirement of Dr. Cowie and Mr. Charles J. Townshend, and the resignation of the Rev. Canon Dart, who has removed from the Diocese.

The Vice-President of the Association and three members of the Committee—Mr. Carman, Rev. Mr. Murray and Mr. Brown—who also retire, but who are eligible for re-election.

By order.

Secretary.

Such additional Governors so to be elected, shall hold office for four years and shall go out of office alternately, and one of such Governors shall be elected at each regular Biennial Session of the Diocesan Synod of Nova Scotia. In case of the death or resignation of any of the said additional Governors, the vacancy shall be filled at the next ensuing Session of the Diocesan Synod of Nova Scotia, and the Governor then elected shall hold office for the residue of the term of four years.

2. Whenever and so soon as the Diocesan Synod of Fredericton shall by resolution declare King's College at Windsor to be the College approved by said Synod for the education and training of the Divinity Students of the Diocese of Fredericton, the Governors of King's College, Windsor, may by resolution, duly passed at a meeting called for that purpose, still further increase their number by the addition of three more Governors, one to be the Lord Bishop of Fredericton for the time being who shall then be *ex officio* a Governor of King's College, and the remaining two to be elected from time to time by the Diocesan Synod of Fredericton in such way and for such term as the said Diocesan Synod may from time to time limit and appoint, and to be members of that Synod at the time of their election. But if at any time thereafter the approval and support of the Diocesan Synod of Newfoundland shall be withdrawn from King's College, or the Divinity Students of that Diocese shall cease to attend said College, the persons so elected by the Synod of that Diocese shall thereupon cease to be Governors of King's College, Windsor, and the number of said Governors shall be reduced to that extent, which reduction shall be effected by a resolution of the Governors of King's College, Windsor, passed at a meeting called for that purpose.

4. All Governors elected by virtue of this Act shall as regards their eligibility for re-election be subject to the regulations of the Synod by which they have been elected respectively, notwithstanding the provisions of Chapter 100 of the Acts of the Legislature of Nova Scotia for 1866.

WINDSOR, N. S.

HEAD MASTER: The REV. C. E. WILLETS, M. A., D. C. L.

Graduate and formerly Scholar of Corpus Christi College, Cambridge.

This School is in direct connection with King's College, and is carried on under regulations prescribed by the Board of Governors.

The object of the School is to provide a sound, religious, classical, mathematical, and general education, in conformity with the principles of the Church of England; but it is open to all denominations without restriction.

In the latter case certificates of proper attendance will be required from the Minister.

While ample provision is made to prepare boys for the University and high Civil Examinations, the utmost attention is devoted to imparting such a training as may fit them for all pursuits and professions, and enable them to take that position in society which is conceded only to men of liberal education and refined habits.

*To the Clergy and Laity of the Diocese of
Nova Scotia :*

In conformity with the resolution passed at the last session of the Synod, I again call your attention to the necessity for active, earnest effort on behalf of King's College if it is to be maintained in an efficient state. At present it is sustained by the aid of funds which ought properly to be used entirely for the improvement of the Theological Department, and even with this misappropriation of funds the President has to submit to a reduction of twenty-five per cent. from the inadequate amount paid to his predecessors, and other officers are doing work without any sufficient remuneration. Our income has been seriously impaired by the general reduction of the rate of interest on all investments, and unless we are speedily provided with a large increase of capital our present staff cannot be maintained. The houses for the Professors have been erected at Windsor, but we are very reluctantly compelled to require rent from the occupants.

It is all important that King's College should be fully recognized and heartily supported as the Church College and University of the two Dioceses of Nova Scotia and Fredericton, for only by combined effort can a College worthy of our position be sustained. It is said by some that the University of Fredericton is so good that parents cannot be expected to send their sons to Windsor, but since the education there is avowedly and entirely secular, they who regard religious training as an essential element of a sound education cannot be content with it. As the Methodists of the two Provinces recognize Mount Allison, and expend large sums in sustaining it, so it is to be presumed that Churchmen similarly situated will realize the importance of securing similar advantages for their sons. I cannot doubt that if they realize their responsibility and their duty to their brethren as well as to themselves in this matter the Churchmen of New Brunswick will heartily co-operate with us, and will afford liberal and substantial support to the old University. I especially beg you to act speedily and to contribute without needless delay what you may be able to offer towards the great object now demanding our utmost efforts.

H. NOVA SCOTIA.

I heartily endorse this appeal, and specially commend it to the members of the Church in New Brunswick.

JOHN FREDERICTON.
