University of King's College

(In Association with Dalhousie University.)

HISTORICAL SKETCH

King's College, established by Act of Legislature, in 1789, was founded at Windsor in 1790, and in 1802 a Royal Charter was granted by King George III in which the College is referred to as "the Mother of an University for the education and instruction of youth and students in Arts and Faculties to continue forever and to be called KING'S COLLEGE." It was the first University established in what is now Canada. The first President of the College, Dr. William Cochran, came from King's College, New York, which afterwards changed its name to Columbia, and two other King's Colleges, one at Fredericton and the other at Toronto, were subsequently founded; but King's College, Nova Scotia, is the only one which has survived. Among its Alumni are many famous men who have won honourable distinction in Church and State. The burning of the College residence at Windsor, February 5th, 1920, raised afresh the scheme of University Federation for the Maritime Provinces; and a generous offer from the Carnegie Corporation to give a sufficient sum to provide for the Arts course, if the College would move to Halifax and erect buildings there, seemed to the Governors an opportunity which they ought not to let pass. In 1923 a basis of association with Dalhousie University was agreed upon, and the beautiful property on the North West Arm, known as University Hall, was leased as a temporary residence for students, the College moved from Windsor to Halifax, and the internal life of the College continued on exactly the same lines as in former years. In 1930 King's established herself permanently in Halifax in commodious new buildings erected on a site deeded to King's by Dalhousie University. The session of 1930-31 opened in the new King's College, which provides residences for men and women students, under supervision of members of the staff, a President's house, administration offices, library, lecture rooms, dining hall, a chapel and a large recreation hall. The buildings are of stone, of fire resistant construction, and modern in every respect, and are on the same campus and within a few minutes walk of the Dalhousie University buildings.

King's retains complete control of her Divinity School as well as of her endowments, administration of residences, etc., but holds in abeyance her degree-conferring power in Arts and Science.

ORGANIZATION OF THE UNIVERSITY.

The Board of Governors is the supreme governing body of the University. As defined by the Acts of 1923, it consists of the Bishops of the Dioceses of Nova Scotia and Fredericton, and the President of the University, together with ten members elected by the Alumni Association and eight by each of the Synods of Nova Scotia and Fredericton. The Governors have the management of the funds and property of the College, and the power of appointment of the President, professors and officials. The Board appoints an Executive Committee.

University of King's College

(In Association with Dalhousie University).

The University of King's College, having moved from Windsor to Halifax and entered an association with Dalhousie University, the students of both institutions must satisfy the same entrance requirements. (See p. 18).

Separate classes for their respective students are provided in King's and Dalhousie in English 1, and Latin 1. All other classes are attended jointly by students of King's and Dalhousie and are given by Dalhousie professors or by professors on the King's Foundation, depending on the courses taken. The students of both institutions follow the same curriculum, take the same examinations and must attain the same academic standard.

The academic facilities in Arts and Science are shared by the students of both institutions, and the students of King's College have the added advantage of residential life in King's College buildings on Dalhousie Campus. At the end of a successful course the student receives the same degree as a Dalhousie graduate but his diploma is countersigned by the President of King's College and bears the words "A student of King's College."

A student of King's College has the advantage of attending classes in a large institution with increased facilities as well as the more intimate and friendly relations of a small residential college.

Students intending to enter one of the Dalhousie professional schools may take their pre-professional work in Arts or Science as students of King's College and thus assure themselves a place in the King's residence.

KING'S COLLEGE RESIDENCE.

The residential life is the most outstanding feature of King's College, as it brings together students of different temperament and training, to their great benefit.

The residences have been designed with a view to the comfort and convenience of the students, and to facilitate study. In a suite of two rooms (bed-room and study), each student has a bed, bureau and closet, and study chairs and tables are provided; this arrangement avoids any crowding. There is an ample supply of hot water at all times, and the buildings are designed so that it is not necessary to go outside for any student activities.

Students are required to reside in the College building, but in special circumstances permission may be granted to reside outside. All students are under the immediate charge of the Dean of Residence, but **must report to the President at the beginning and end of each term.**

Students must provide their own blankets, sheets, pillowslips and towels.

All property belonging to students while in residence is held by them entirely at their own risk.

For the time being men students of King's College will be accommodated in the residence of Pine Hill Divinity Hall, Halifax, and the women students in Shirreff Hall, Halifax, and the House rules of these institutions apply in all cases to King's students while taking advantage of this hospitality.

Hours.—Every student is expected to be in his room after 11 p. m., and in bed before midnight; also to be in Commons Hall for breakfast at 8 a. m. on week days and 9 a. m. on Sundays.

Meals in Rooms.—No student can be furnished with breakfast or any other meal in his rooms, except by permission of the President and in such cases of illness as would render it imprudent that he should be present in the Hall, *and no student is allowed to take crockery or cutlery from the dining hall or the pantry.*

Doors.—The doors are closed at 11 p. m. and all resident undergraduates are expected to be in by that hour.

Guests.—No one who is not a resident student or a member of the staff may be in College after 11 p. m.

except by permission of the President. Guests are expected to conform to the rules of the College and students will be held responsible for those whom they entertain.

Intoxicants.—The introduction by or for any student of beer, wine, spirits, or any kind of intoxicating liquor into the College is strictly forbidden.

At gatherings of students, whether held in the College or elsewhere, intoxicating liquors are forbidden.

Radios.—Radios are not allowed in the College residences.

Fraternities.—The various King's College societies and Clubs are all designed to fill the social and athletic needs of students. External so-called Greek Letter social fraternities, therefore, can have no place in King's College, and residential facilities in the College will not be granted to members of such fraternities.

Behaviour.—Students are expected to preserve a quiet and orderly behaviour at all times in the halls and corridors of the College, especially during the hours of Lectures.

Chapel.—Daily morning and evening services are conducted by the King's staff in Pine Hill Chapel. Students belonging to other Communion are required to attend their own services on Sunday, and, except in such cases, *all are expected to attend Chapel service in King's College Chapel at eleven o'clock on Sunday morning unless specially excused by the President.*

Gowns.—Students are required to wear academical costume at meetings of Convocation, at all College lectures and examinations; and all students in residence are required to wear gowns in Chapel, at dinner in Commons Hall and on other occasions when so ordered. The academical habits shall be such as have been customarily worn in King's College in times past.

Expenses.—The charge to resident men in Pine Hill for board, room and light is \$10.00 per week. Pine Hill also requires one yearly payment of \$8.50 as an establishment charge. The rates at Shirreff Hall go up to \$300.00 per annum according to the location of the room. King's men students will be billed from King's College office monthly, and all bills for college dues will be paid to the Bursar of King's College.

Students whose accounts are unpaid after 30 days may be asked to leave the College, unless they have the written permission of the President, and interest at the rate of 6% per annum will be charged on these accounts from date of issue.

Fee for the Support of Student Organizations.

At the request of the King's student body, a fee of \$10 is collected on enrolment from each student who takes more than one class. This fee entitles the student to the privileges of the various student organizations and clubs, to a copy of the King's College Record, and to inclusion in an insurance scheme.

Discipline.

The Board of Discipline may use all means deemed necessary for maintaining discipline in the residence and on the premises of the University. It is the duty of the Dean of Residence to see that order is maintained. Every professor or officer of the College is required to report cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the College during the session, may be fined, suspended or expelled.

WOMEN'S RESIDENCE.

The House rules of Shirreff Hall apply to women students of King's College for the time being.

National Federation of Canadian University Students. Exchange plan.

The object of the plan is to permit specially selected students to take one year's university work at universities other than the "home" university and in a different part of Canada.

For the purposes of the plan the universities of Canada are grouped in four divisions, as follows:—

- II. The Universities of Alberta, Saskatchewan, and Manitoba.
- III. The Universities of Ontario and Quebec.
- IV. The Universities of the Maritime Provinces.

Subject to certain exceptions, no student is allowed to apply for the benefits of the plan unless he contemplates taking work at a university which is in a different division than is his home university.

Any bona fide student, male or female, who is applying for study at a university in another division in the third year of his course, or any year beyond the third, is eligible, provided that he undertakes to return the following year to his home university to complete the work for his degree.

All applications must be in the hands of the local Selection Committee on or before the 1st day of March.

When his application is accepted by the local Selection Committee and by the authorities of the "Exchange University," the successful candidate will be permitted to take a full year's work at the desired university without paying tuition fees or Students' Council fees.

GENERAL FACULTY REGULATIONS.

Admission to Classes.

1. Candidates for a degree must pass the Matriculation examinations (*p. 18 et seq.*). Only those classes which a student attends as an Undergraduate are recognized as qualifying for a degree in Arts or Science.

2. A student deficient in one of the required foreign languages, whose preparation in this language has not covered any considerable part of the work prescribed for Matriculation, may be refused admission to more than three undergraduate classes.

3. No undergraduate shall be admitted to a class until he has satisfied the preliminary qualifications.

4. The list of classes which a student may take shall include all required classes, before any elective is added, but candidates for admission to Honour courses may have this rule modified on application to the Committee on Honours.

5. Five classes shall be regarded as constituting a normal year's work for a student in good standing. Students seeking admission to six classes must make written application to the Committee on Studies, furnishing reasons in support of their application. No student who has failed in any class of his course in the preceding year of his attendance shall be admitted to more than five classes without special permission.

6. Any student, who at the Christmas examinations has not shown reasonable proficiency, may, at the discretion of the Faculty, be required to discontinue attendance at the University for the remainder of the session. Fees will not be reimbursed to such students.

Class Work and Attendance.

In order that their class work may be recognized as qualifying for a degree or diploma, candidates must conform to the following requirements:

1. All students are required to attend the classes of their prescribed course regularly and punctually.

2. They must appear at all examinations, prepare such essays, exercises, reports, etc., as may be prescribed and, in case of a class involving field or laboratory work, complete such work satisfactorily.

3. They must secure positions on the Pass List. In determining this list both the standing attained in prescribed class exercises and in field or laboratory work and that in the various examinations are taken into consideration. A candidate who fails to obtain a mark of at least 20 per cent on the work of the session in any class shall lose credit for attendance in such class.

4. When the work of a student becomes unsatisfactory or his attendance irregular he will be reported to the Committee on Studies who may require him to discontinue attendance in the class or classes concerned and to be excluded from the examinations.

5. A candidate taking an affiliated course must, in the case of classes taken in another Faculty, conform to the regulations of such Faculty and must secure a position on the pass list in accordance with such regulations.

Examinations.

Sessional and Class Examinations.

For the purpose of examination the session is divided into two terms, the separation occurring at the Christmas vacation.

In all classes other than purely laboratory classes, two examinations, at least, are held, the Christmas examinations at the end of the first term, immediately before the Christmas vacation, and the Spring examinations after the close of lectures in the Spring. Other examinations in any class may be held at dates appointed by the instructor. The papers set at the Spring examination in any subject cover the work of the whole session in that subject, and not merely the work of the second term, and at least 25 per cent. of the questions shall be set on the ground covered before Christmas.

Ordinary and Distinction Class Lists.

The names of candidates successful in the ordinary examinations are arranged in the published lists in

order of merit in each class. The requirements for Distinction in any class shall be determined by the department concerned, it being understood that Distinction entails independent work of high quality. To be eligible for Distinction in any class students must obtain at least sixty per cent in the ordinary work of the class. The Distinction list for a class shall be published in order of merit, without division into grades.

Supplementary and Special Examinations.

A student who fails to secure a position on the Pass List in a class, but who has passed in at least half of his classes and has otherwise fulfilled the requirements in class work stated on p. 23, may be allowed the Supplementary examination in such class at the beginning of the next session of his attendance, on the day appointed in the University Almanac. A student who fails to appear at or to pass the Supplementary examination can only get credit for that class by passing a *Special examination therein.

Supplementary or Special examinations in any class shall in all cases cover the whole work of the session in that class, and not merely the work of the first or second term.

Supplementary and Special Examinations are held in September only.

No award of Class Distinction is made on the results of a Supplementary or Special examination.

A student wishing to appear as a candidate at a Supplementary or Special examination shall be required to give notice of his intention to the Secretary of the Committee on Studies and Attendance on or before August 23rd, the fee (see p. 27) to be remitted with the notice.

*Students who have failed to pass in any class should carefully note that any examination taken subsequent to the Supplementary examination held in September of the next session of their attendance is a Special examination. The standard required to pass a Special Examination is considerably higher than that required for other examinations.

Order of Classes.

Candidates who intend to take one of the Affiliated Courses, or to enter an Honours Course, or who wish to be eligible for Scholarships, should consult the Bursar concerning the proper order of their classes.

All Required classes should be completed in the first two years of a course, leaving the Elective classes to be taken up in the two final years.

Affiliated Courses.

An undergraduate looking forward to the study of Divinity, Law, or Medicine may offer one of the following groups:—

For Divinity.—New Testament Greek and two of the following: Hebrew, Biblical Literature, Church History 2, as conducted by the Divinity Faculty of King's College, in place of three of the Electives in Table I.

For Law.—Any four classes of the first year in Law.

For Medicine.—The classes of first year Medicine, instead of four of the Elective Classes on p. 29.

Securing Degrees in Three Years.

Provided a student has completed matriculation; provided also that he has won standing of at least fifty per cent in Grade XII or equivalent examinations on at least four subjects of those listed below, he may be allowed to try to complete his degree in three years, but he will not be given credit for more than five of these subjects. The subjects are as follows:—

Latin 1, Greek 1, French 1, German 1, English 1, History 1, Mathematics 1.

A candidate will be allowed supplementary examinations in the subjects required to complete five classes provided that the certificate shows a mark of at least thirty per cent in such subjects and that the candidate has credit for the corresponding matriculation subjects. **No credit will be given for certificates obtained after a student has once been registered in the University.**

The certificates to which these provisions apply are the following:

- *(a) High School Certificate of Grade XII of Nova Scotia issued by the Department of Education;
- (b) Certificate from Accredited Schools of the Department of Education of the Province of Nova Scotia.
- (c) Honour Diploma as issued by Prince of Wales College, P. E. I.;

The above privilege of taking Supplementary examinations on certain subjects of the first year, granted to the holders of specified certificates, may be granted also to other candidates who in the opinion of the Committee on Admission have equivalent qualifications.

(B) Distinction in the Ordinary Course.

The degree of Bachelor of Arts or of Science with Distinction will be conferred for special excellence shown in the classes of the Ordinary course. The award of such degree is based upon the Class Distinctions (p. 24) gained by candidates; and not only are the number and grade of such Distinctions considered; but also the extent and character of the work by which they have been gained.

To be eligible a student must have completed at least ten classes in which Distinction may be obtained; and he must have secured Distinction in not more than eight classes nor in fewer than six classes distributed over at least two and not more than three departments.

Students taking more than 25 hours per week (lectures and laboratory) will not be admitted to read for Distinction in any class.

No distinction work will be offered in Latin 1, Greek 1, French 1, German 1, Spanish 1, English 1, Mathematics 1, Physics 1, 2, Chemistry 1, 2, Biology 1, Zoology 2.

Candidates for Distinction must consult the Committee on Studies with respect to the selection of classes.

*The standard required is 50 per cent in each subject.

(C) Degree of Bachelor with Honours.

An undergraduate who has passed in at least *nine* classes of the Ordinary Arts or Science course with sufficient credit is allowed to enter an Honour course.

Permission to enter an Honour course must be obtained from the Faculty, and only students of outstanding merit will be granted this privilege. *The student should therefore plan the course so as to include the Preliminary classes in the first two years.*

The departments in which Honour Courses are offered, together with the preliminary classes needed, and the Honour classes, are shown in Table II on the following page.

Students contemplating an Honour course should before entering their second year consult the department concerned regarding courses and necessary Distinctions.

Honour Students must consult their department for advice regarding the scope of their work and the standard required in the examinations.

The examinations in the subjects of an Honour course are held at the end of the last year of the course; or a candidate may defer the examinations until a year after he has passed in the ordinary subjects of the fourth year; in which case, however, he shall not receive his degree until he has passed the examinations of such Honour Course.

Successful candidates will be declared to have obtained degrees with Honours, or with High Honours.

OTHER COURSES

Master of Arts and Master of Science.

In accordance with the Terms of Association a graduate cannot take a Master's degree while enrolled at King's; but the attention of students is especially drawn to the regulations in Dalhousie Calendar covering the courses required for Master's degrees.

Diploma in Education.

King's College graduates are eligible for the course leading to a Diploma in Education. Education 1 is the only course for which undergraduates are permitted to register.

By arrangement with the Nova Scotia Department of Education, graduates in Arts and Science who have completed the course at Dalhousie University leading to a Diploma in Education subsequent to receiving their degree in Arts or Science may receive a permanent Superior First Class License to teach in any public school in Nova Scotia. After graduation in Arts, two years are required to complete the Divinity Course.*

Course for Bachelor of Arts.

Students in Arts will not be permitted to enter any classes in the Divinity Faculty except those which are required as options for the Arts degree without special permission of the Faculty.

Divinity Students will not be permitted to take any portion of M.A. work along with their Divinity Course without written consent of the King's College Faculty.

For those students who, with the permission of the Bishop, proceed to the study of Divinity without taking a degree, a four years course is required, viz: a Probationary year, followed by the three years course as outlined below. Successful candidates will thereby qualify for the Diploma of Licentiate in Theology.

Students in Arts, looking forward to Divinity, are advised that they must include in their Arts curriculum the Divinity options noted below and in addition the compulsory subjects of the probationary year in Divinity.

Graduate students who have taken the Divinity options and the courses of the probationary year may, with the approval of the Divinity Faculty, complete in two years the requirements for the Divinity Testamur.

Graduate students who have qualified for the Divinity Testamur may proceed to the final examinations for the degree of B.D. under the General Synod Board of Examiners.

Graduates in Arts of this or of other approved Universities who have not fulfilled the above requirements must take the full three years course to qualify for the Testamur.

Non-graduate students who wish to qualify for the Diploma of L. Th. must complete the courses in Divinity and five of the following courses in Arts, viz: Latin, Greek, English, History, Sociology, Philosophy.
