THE HON. RAY LAWSON, CHANCELLOR

University of King's College

HISTORICAL SKETCH

King's College, established by Act of Legislature in 1789, was founded at Windsor in 1790, and in 1802 a Royal Charter was granted by King George III in which the College is referred to as "the Mother of an University for the education and instruction of youth and students in Arts and Faculties to continue forever and to be called KING'S COLLEGE." It was the first University established in what is now Canada. The first President of the College, Dr. William Cochran, came from King's College, New York, which afterwards changed its name to Columbia, and two other King's Colleges, one at Fredericton and the other at Toronto, were subsequently founded; but King's College, Nova Scotia, is the only one which has survived. Among its Alumni are many famous men who have won honourable distinction in Church and State. The burning of the College residence at Windsor, February 5, 1920, raised afresh the scheme of University Federation for the Maritime Provinces; and a generous offer from the Carnegie Corporation to give a sufficient sum to provide for the Arts course, if the College would move to Halifax and erect buildings there, seemed to the Governors an opportunity which they ought not to let pass. In 1923 a basis of association with Dalhousie University was agreed upon, and the College moved from Windsor to Halifax, and the internal life of the College continued on exactly the same lines as in former years. In 1930 King's established herself permanently in Halifax in commodious new buildings erected on a site deeded to King's by Dalhousie University. King's College provides residences for men and for women students, under supervision of members of the staff, a President's house, administration offices, library, lecture rooms, dining hall, a chapel and a large recreation hall. The buildings are of stone, of fire resistant construction, and are on the same campus and within a few minutes walk of the Dalhousie University buildings.

In May 1941, the King's College buildings were taken over by the R. C. N. as an Officers' Training Establishment, and during the next four years, until May 1945, nearly 4,000 Officers were trained for sea duty with the R. C. N. The students and academic staff of King's carried on during this period through the kindness of Dalhousie University and Pine Hill Divinity Hall.

In 1954 after some years of careful negotiations, the original basis of association with Dalhousie was revised and new articles of association formally signed. These articles restored certain degree-conferring powers to King's, while placing the financial relationship of the two Universities on a more realistic basis.

King's retains complete control of her Divinity School as well as of her endowments, administration of residences, etc., but holds in abeyance her degree-conferring powers except in Divinity and other Faculties not forming a part of Dalhousie.

ORGANIZATION OF THE UNIVERSITY

The Board of Governors is the supreme governing body of the University. As defined by the Acts of 1923, it consists of the Bishops of the Diocese of Nova Scotia and Fredericton, the President of the University, the Vice-President and the Treasurer, together with ten members elected by the Alumni Association and eight by each of the Synods of Nova Scotia and Fredericton. The Governors have the management of the funds and property of the College, and the power of appointment of the President, professors and officials. The Board appoints an Executive Committee.

University of King's College

(Founded A. D. 1789)

168th SESSION

1956-1957

The University of King's College having entered an association with Dalhousie University, the students of Arts and Science in both institutions must satisfy the same entrance requirements.

All classes in Arts and Science are attended jointly by students of King's and Dalhousie and are given by Dalhousie professors or by professors on the King's Foundation, depending on the courses taken. The Students of both institutions follow the same curriculum, take the same examinations, and must attain the same academic standard.

The academic facilities in Arts and Science are shared by the students of both institutions, and the students of King's College have the added advantage of residential life in King's College buildings on Studley Campus. At the end of a successful course the student receives the same degree as a Dalhousie graduate but his diploma is countersigned by the President of King's College and bears the words "A student of King's College."

A student of King's College has the advantage of attending classes in a large institution with increased facilities as well as the more intimate and friendly relations of a small residential college.

Students intending to enter one of the Dalhousie professional schools may take their pre-professional work in Arts and Science as students of King's College and thus assure themselves a place in the King's residence during such course.

KING'S COLLEGE RESIDENCE

The residential life is the most outstanding feature of King's College, as it brings together students of different temperament and training, to their great benefit.

The residences have been designed with a view to the comfort and convenience of the students, and to facilitate study. Two students occupy a suite of two rooms (bedroom and study), each student has a bed, bureau and closet, and study chairs and tables are provided. The buildings are designed so that it is not necessary to go outside for any student activities.

Students are expected to reside in the College building, but in special circumstances permission may be granted to reside outside. All students are under the immediate charge of the Dean of Residence.

Any student wishing to spend a night outside residence is required to sign-out, leaving particulars of his destination.

Students must provide their own blankets, sheets, pillow-slips and towels.

All property belonging to students in residence is held by them entirely at their own risk.

The residence will be open for students from the evening of September 24, 1956, until the morning of December 20, 1956, and from the evening before the day on which lectures commence in January, 1957, to the morning after Encaenia Day, 1957; (in the case of students expecting to receive their degrees this time will be extended to the morning following Dalhousie Convocation).

Hours

The full advantages of residence life can only be enjoyed where all residents conduct themselves with consideration for others, particularly with regard to noise during hours of study and sleep. Residents are expected to show discretion in the hours of returning to college and retiring to bed, and those who show persistent disregard for the interests of others in this respect will be disciplined.

For one month prior to the beginning of University examinations, quiet hours are in force in the residence throughout the day with the exception of 8-9 a.m., 1-2 p.m., 6-7 p.m. and 10.30-11.00 p.m.

Guests

No one who is not a resident student or a member of the staff may be in College after midnight except by permission of the Dean of Residence. Guests are expected to conform to the rules of the College and students will be held responsible for those whom they entertain. Resident students are welcome to bring guests to the dining hall, but are required to pay for them.

Intoxicants

The introduction by or for any student of beer, wine, spirits, or any kind of intoxicating liquor into the College is strictly forbidden.

Fraternities

The various Societies and Clubs are all designed to fill the social and athletic needs of the students. The unique quality of life at King's revolves around the family atmosphere of a small united College. Membership in fraternities and other organizations unconnected with the College tends to break up this unity, and resident students are not encouraged to join them.

Behaviour

Students are expected to preserve a quiet and orderly behaviour at all times in the halls and corridors of the College especially during the hours of Lectures.

Chapel

All students, divinity and lay alike, are encouraged to attend the daily morning and evening services in the College Chapel. On Sunday mornings, all are expected to attend the Chapel Service or some other service of their choice.

Gowns

Students are required to wear academic costume at meetings of Convocation, in Chapel, at Divinity lectures, at dinner in Commons Hall, at tutorials and other formal interviews with the Faculty, and on other occasions when so ordered.

The academic habits shall be such as have been customarily worn in King's College in times past.

Expenses

The annual charge to Resident Students for board, light, etc., is from \$485.00 to \$515.00, depending on location of room. Students in residence must make a deposit of one hundred and fifty dollars at the beginning of the first term, the balance of the bills for the term to be paid in December when the account is rendered; a deposit of one hundred and fifty dollars at the opening in January; the balance for the year in April when the final account is rendered.

Fee for Student Organizations

At the request of the King's student body, a fee of \$19.00 for men and \$15.00 for women is collected on enrolment from each student who takes more than one class. This fee entitles the student to the privileges of the various students' organizations and clubs, and a copy of the King's College RECORD.

Caution Deposit

On enrolment each resident student is required to make a deposit of fifteen dollars as caution money to cover damage done to furniture, etc. This amount less deductions will remain a credit on the books until the student **graduates** or **leaves**, when the balance will be returned by cheque usually during June. No refund in whole or in part will be made before that month.

Each year a student, on returning, is expected to settle for the previous year's deductions to maintain the credit at fifteen dollars.

Discipline

The Board of Discipline may use all means deemed necessary for maintaining discipline in the residence and on the premises of the University. It is the duty of the Deans, resident professors, and Students' Council to see that order is maintained. Every professor or officer of the College is required to report any cases of improper conduct that may come

under his notice. Students conducting themselves in a unbecoming manner on or beyond the premises of the College during the session may be fined, suspended or expelled.

WOMEN'S RESIDENCE

The residence for women students is conducted under practically the same regulations as the residence for men.

All residents are under the general superintendence of the Dean of Women.

Women students wishing to be out after evening chapel must notify the Dean and state where they are going. Permission must be obtained from the Dean to be out after 11 p.m. and a record is kept of the hour of return of those who have received such permission.

GENERAL UNIVERSITY REGULATIONS†

Registration

All students of the University are required to appear in person at registration and to enter their names in the Register annually, agreeing to obey all the regulations of the University already made or to be made, and to pay the required fees and deposits before entering any class or taking any examination. The Academic Year begins Sept. 24, 1956, and ends May 17, 1957.

ADMISSION

The attention of students entering the Faculty of Arts and Science for the first time, whether in the First or Second year, is called to the fact that registration for such students takes place on September 24 and 25.

All students entering King's College, in Arts, Science, Pre-Medicine, Pre-Dentistry, Pre-Law and Journalism must enrol with the King's Registrar before registering at Dalhousie.

No person under sixteen years of age is admitted to any class except by special permission of the Senate.

Graduate Students are students who hold a Bachelor's degree in Arts or Science or Law or the degree of Doctor of Medicine and are pursuing a course towards a Master's degree.

Undergraduates are students who have completed the requirements for admission and are candidates for a Bachelor's degree, for a degree in a professional course or for a Diploma in an Authorized Course.

For details of admission to the professional courses, see pages 29 and 30.

Special Students are those who have not fulfilled the requirements for admission. They may be admitted, with the consent of the instructor, to classes in which they appear able to profit. Those who intend to complete matriculation, must include the required elementary classes in the first year. When matriculation is complete, university classes that have been taken by special students in their first year at the university, will be recognized as credits towards a degree. **This concession applies to the first year only.**

LIBRARY READING ROOM

is to be paid prior to attendance at the class. No class taken on these terms may be offered as a credit towards a degree, and no official transcript is to be issued unless an additional payment is made representing the balance of full charges applicable to a special student.

Entrance Requirements

No student will be admitted to any regular degree or diploma course, who is deficient in more than one of these subjects.

Note: Since two foreign languages are required for all degrees (except music), students should arrange, if at all possible, to include the two required languages in their High School course. Otherwise it will be necessary to include in the first year an elementary class in a foreign language in addition to the regular courses for a degree.

For a degree in Arts one matriculation language must be Latin or Greek; and for Science one must be French, Spanish or German.

Students looking forward to honours or graduate work should confine their choice to French and German.

The following are the general rules for such a course:

1. A student may obtain Honours in four years from Grade XI if he spends all four years at the University. In certain departments, students who are well prepared may be allowed to obtain Honours in three years from Grade XII.

3. To obtain Honours, a student must:

(d) pass a comprehensive examination covering his Honour work at the end of his course;

(e) make an average of not less than 65% in all his Honour classes. (This includes the five advanced classes, the two additional classes and the comprehensive examination at the end.)

Rev. Canon W. W. Clarkson, B.S.Litt., (Vind.), "Alexandra" Lecturer in Sacred Languages.

ENTRANCE REQUIREMENTS

The normal Divinity course consists of the regular course for the B.A. or B.Sc. (3 years after Senior Matriculation, 4 years after Junior Matriculation) followed by 3 years in Divinity. Thus the normal entrance requirement is matriculation. It is customary for students to be accepted by a Bishop as candidates for ordination before entering the Divinity School, particularly if they are in need of financial assistance. This condition, however, is by no means obligatory, and students may take Divinity courses without being committed to ordination.

Those who already have their degrees will be admitted to the Divinity School direct.

Undergraduates in Arts who have matriculated in Greek and have taken Greek 1 in the Arts Course, may take the Divinity Options given by the King's Faculty of Divinity as shown in (h) below, as part of the qualification for a degree. It is most desirable that Divinity Students should reside in the College and take their full share in the privileges and responsibilities of college life. Circumstances in certain cases may move the Divinity Faculty to allow non-residence for part of the course; but students receiving such permission must be prepared to come into residence for at least one full college year.

COURSE FOR BACHELOR OF ARTS

The course of study prescribed for the Degree of Bachelor of Arts using Divinity Options*, consists of the following twenty classes:

- (a) Two classes in Greek or Latin.
- (b) One class in Latin, Greek or Hebrew.
- (c) Two classes in English.

*Arts students making use of the Divinity Options must indicate Divinity subjects on the University registration card when registering. Students taking Divinity Options must report them to the Registrar.

- (d) History 1; Mathematics 1.
- (e) One class in either Physics, Chemistry, Geology or Biology.
- †(f) Two classes from: Economics 1, History, Latin 2, Greek 2, Mathematics 2, Philosophy 1, Political Science 1, Psychology 1, Sociology 1, or a Science.
- (g) Seven other classes to be taken in not over three of the departments as shown on page 36.
- (h) Greek Bible and English Bible 1 or 2, Church History 2.
- (i) Religious Knowledge to be taken in the first year.

DIVINITY COURSE

The standard academic qualification for ordination is the B.A. (or B.Sc.) followed by the L.Th. The L.Th. will be awarded on the basis of three years' work in the Divinity School (as distinct from the Faculty of Arts and Science). The L.Th. (Hons.) will be awarded to those who, after three years' residence, have passed all the required courses in the complete Divinity course (see below) together with no fewer than 3 Distinction courses and required Field Work. The L.Th. (Pass) will be awarded, at the discretion of the Faculty, to students who, after 3 years in the Divinity School, complete the required courses only, with or without Hebrew.

When a student at the instruction of his Bishop leaves the college after only 2 years in the Divinity School, he will be awarded the college Testamur if, including the three Divinity options which may be taken during his undergraduate course, he has passed not fewer than 19 required Divinity courses (including 2 in Ceremonial, but excluding Hebrew). The Testamur will be awarded to students who, after 3 years' residence in the Divinity School, fail to qualify for the L.Th., but satisfy the requirements of this paragraph. No academic recognition will be given to any student leaving the college with less than 19 Divinity credits.

Students who have their matriculation may, on the recommendation of a Bishop, be admitted to the Divinity School direct without completing any degree course. In such cases, they must complete a probationary year consisting of Religious Knowledge, English Bible 1 or 2, and the following course in Arts:—Elementary Greek, Sociology 1, Philosophy 1, and either English 1, or History 1. They must then take three years of Divinity, at the end of which they may qualify for the L.Th. or Testamur as above.

The degree of Bachelor of Sacred Letters Synod Board of Examiners.

All Divinity Students and those looking forward to the study of Divinity will consult Professor Stone as to the choice and arrangement of their courses; then if approved by the Dean of Divinity, they will register in the Registrar's office on Saturday, September 29th. A medical examination by the General Synod physician is required for all new students.

No Student may write more than three supplemental examinations. A student with more than three failures at the end of a year must repeat the whole year.

The Degree of Bachelor of Sacred Letters (B.S.Litt.) may be taken by Divinity students under the following conditions: The course consists of twenty approved classes in Arts and Science, followed by the complete Divinity course, which in the case of this degree must include three distinction courses passed with a minimum of 65%. The twenty classes must include at least two in Latin, two in Classical Greek and two in Hebrew.

Students who have received the B.S.Litt., or other graduate students who have qualified for the Licentiate in Theology, with Hebrew or Septuagint Greek are in a position to proceed to the final examinations for the degree of B.D. under the General Synod Board of Examiners.
