## University of King's College

### HISTORICAL SKETCH

King's College, established by Act of Legislature in 1789, was founded at Windsor in 1790, and 1802 a Royal Charter was granted by King George III in which the College is referred to as "the Mother of an University for the education and instruction of youth and students in Arts and Faculties to continue forever and to be called KING'S COLLEGE". It was the first University established in what is now Canada. The first President of the College, Dr. William Cochran, came from King's College, New York, which afterwards changed its name to Columbia; and two other King's Colleges, one at Fredericton and the other at Toronto, were subsequently founded; but King's College, Nova Scotia, is the only one which has survived. Among its Alumni are many famous men who have won honourable distinction in Church and State. The burning of the College residence at Windsor, February 5, 1920, raised afresh the scheme of University Federation for the Maritime Provinces; and a generous offer from the Carnegie Corporation to give a sufficient sum to provide for the Arts course, if the College would move to Halifax and erect buildings there, seemed to the Governors an opportunity which they ought not to let pass. In 1923 a basis of association with Dalhousie University was agreed upon, and the College moved from Windsor to Halifax, and the internal life of the College continued on exactly the same lines as in former years. In 1930 King's established herself permanently in Halifax in commodious new buildings erected on a site deeded to King's by Dalhousie University. King's College provides residences for men and for women students, under supervision of members of the staff, a President's house, administration offices, library, lecture rooms, dining hall, a chapel, and a large recreation hall. The buildings are of stone, of fire resistant construction, and are on the same campus and within a few minutes' walk of the Dalhousie University buildings.

In May 1941, the King's College buildings were taken over by the R. C. N. as an Officers' Training Establishment, and during the next four years, until May 1945, nearly 4,000 officers were trained for sea duty with the R. C. N. The students and academic staff of King's carried on during this period through the kindness of Dalhousie University and Pine Hill Divinity Hall.

In 1954, after some years of careful negotiations, the original basis of association with Dalhousie was revised and new articles of association formally signed. These articles restored certain degree-conferring powers to King's, while placing the financial relationship of the two Universities on a more realistic basis. A convention signed in December 1959 modified the 1954 agreement in the light of five years' experience of its operation.

King's retains complete control of her Divinity School as well as of her endowments, administration of residences, etc., but holds in abeyance her degree-conferring powers except in Divinity and other Faculties not forming a part of Dalhousie.

### ORGANIZATION OF THE UNIVERSITY

The Board of Governors is the supreme governing body of the University. It consists of the Bishops of the Dioceses of Nova Scotia and Fredericton, the President of the University, the Vice-President and the Treasurer, together with eight members elected by the Alumni Association, six by each of the Synods of Nova Scotia and Fredericton, and not more than eight co-opted members. The Governors have the management of the funds and property of the College, and the power of appointment of the President, professors and officials. The Board appoints an Executive Committee.

## University of King's College

(Founded A. D. 1789)

173rd SESSION 1961-62

The University of King's College having entered an association with Dalhousie University, the students of Arts and Science in both institutions must satisfy the same entrance requirements.

All classes in Arts and Science are attended jointly by students of King's and Dalhousie and are given by Dalhousie professors or by professors on the King's Foundation, depending on the courses taken. The students of both institutions follow the same curriculum, take the same examinations, and must attain the same academic standard.

The academic facilities in Arts and Science are shared by the students of both institutions, and the students of King's College have the added advantage of residential life in King's College buildings on Studley Campus. At the end of a successful course the student receives the same degree as a Dalhousie graduate but his diploma is countersigned by the President of King's College and bears the words "A student of King's College."

A student of King's College has the advantage of attending classes in a large institution with increased facilities as well as of enjoying the more intimate and friendly relations of a small residential college.

Students intending to enter one of the Dalhousie professional schools may take their pre-professional work in Arts and Science as students of King's College and thus assure themselves a place in the King's residence during this course.

### KING'S COLLEGE RESIDENCE

The residential life is the most outstanding feature of King's College, as it brings together to their great benefit students of differing temperaments and training.

The residences have been designed to provide for the comfort and convenience of the students, and to facilitate study. Two students occupy a suite of two rooms (bedroom and study), and each student has a bed, bureau and closet, study chairs and tables also being provided. The buildings are designed so that it is not necessary to go outside for any student activities.

Students are expected to reside in the College building, provided space is available, but in special circumstances permission may be granted to reside outside. All students are under the immediate charge of the Dean of Residence.

Any student wishing to spend a night outside residence is required to sign out, leaving particulars of his destination.

Applications for admission each year greatly exceed available accommodation, so that the allocation of a place in the residence is a privilege carrying certain obligations. After October 20th, of each year, no student who has been admitted to residence may withdraw therefrom without giving two weeks' notice to the Dean of Residence.

Students must provide their own blankets, sheets, pillow-slips and towels.

Since college cutlery and crockery may not be taken out of the dining room, students are advised to bring cup, plate, knife and spoon as well.

All property belonging to students in residence is held by them entirely at their own risk.

The residence will be open for students from the evening of September 24, 1961, until the morning of December 20, 1961, and from the evening before the day on which lectures commence in January, 1962, to the morning after Encaenia Day, 1962; (in the case of students expecting to receive their degrees this time will be extended to the morning following Dalhousie Convocation). Resident Students in Law and Medicine, and other students by permission of the Registrar may reside in College at other times on payment of rent, and, when the kitchen is open, board.

### Hours

The full advantages of life in residence can be enjoyed only when all residents conduct themselves with consideration for others, particularly with regard to noise during hours of study and sleep. Residents are expected to show discretion in the hours of returning to college and retiring to bed, and those who show persistent disregard for the interests of others in this respect will be disciplined.

For one month prior to the beginning of University examinations, quiet hours are in force in the residence throughout the day with the exception of 8-9 a.m., 1-2 p.m., 6-7 p.m. and 10.30-11.00 p.m.

### Guests

No one who is not a resident student or a member of the staff may be in College after midnight except by permission of the Dean of Residence. Guests are expected to conform to the rules of the College and students will be held responsible for those whom they entertain. Resident students are welcome to bring guests to the dining hall, but are required to pay for them.

### Intoxicants

The introduction by or for any student of beer, wine, spirits, or any kind of intoxicating liquor into the College is forbidden.

### Fraternities

The various Societies and Clubs are all designed to fill the social and athletic needs of the students. The unique quality of life at King's revolves around the family atmosphere of a small united College. Membership in fraternities and other organizations unconnected with the College tends to break up this unity, and resident students are not encouraged to join them.

### Behaviour

Students are expected to preserve a quiet and orderly behaviour at all times in the halls and corridors of the College, especially during the hours of Lectures.

### Chapel

All students, both divinity and lay, are encouraged to attend the daily morning and evening services in the College Chapel. On Sunday mornings, all are expected to attend the Chapel Service or some other service of their choice.

### Gowns

Students are required to wear academic dress at meetings of Convocation, in Chapel, at Divinity lectures, at dinner in Commons Hall, at tutorials and other formal interviews with the Faculty, and on other occasions when so ordered.

The academic habits shall be such as have been customarily worn in King's College in times past.

### EXPENSES \*

#### Resident Students

The annual charge for board, light, etc., to Resident Students from Arts and Science registration day until Dalhousie Convocation Day is \$550.00. Students in residence must make a deposit of \$300.00 at the commencement of the first term, the balance of the bill to be paid in February when the account is rendered.

#### Non-Resident Students

Non-Resident Students must pay for the following at commencement of the first term: student body fees, the cost of gowns and caps, and any tuition fees payable to the University of King's College.

#### Surcharges

If deposit is not paid within 21 days of registration day a surcharge of 5% will be charged and a further 2% for each additional complete month until paid. The same applies to charges payable by Non-Resident Students. Bills will be rendered in February and if not paid within 21 days a similar surcharge and interest as above will be added.

\* Payment must be made at par, Halifax, N. S. Please make cheques payable to the University of King's College for the required amount and for convenience add "plus exchange", if outside Halifax area.

#### Fee for Student Organizations

At the request of the King's student body, a fee of \$22.00 for men and \$21.00 for women is collected on enrolment from each student who takes more than one class. This fee entitles the student to the privileges of the various students' organizations and clubs, and a copy of the King's College RECORD.

### Caution Deposit

On enrolment each resident student is required to make a deposit of \$15.00 as caution money to cover damage done to furniture, etc. This amount less deductions will remain a credit on the books until the student graduates or leaves, when the balance will be returned by cheque, usually during June. No refund in whole or in part will be made before that month.

Each year a student, on returning, is expected to settle for the previous year's deductions so that his credit may be maintained at \$15.00.

### Discipline

The Board of Discipline may use any means deemed necessary in order to maintain discipline in the residence and on the premises of the University. It is the duty of the Deans, resident professors, and Students' Council to see that order is maintained. Every professor or officer of the College is required to report any cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the College during the session may be fined, suspended or expelled.

### WOMEN'S RESIDENCE

The residence for women students is conducted under practically the same regulations as the residence for men.

All residents are under the general supervision of the Dean of Women.

Women students wishing to be out after evening chapel must notify the Dean and state where they are going. Permission must be obtained from the Dean to be out after 11 p.m. and a record is kept of the hour of return of those who have received such permission.

## GENERAL UNIVERSITY REGULATIONS†

### Registration

All students of the University are required to appear in person at registration and to enter their names in the Register annually, agreeing to obey all the regulations of the University already made or to be made, and to pay the required fees and deposits before entering any class or taking any examination. Students withdrawing from the University or intending to discontinue the work of any Arts or Science class must notify the Registrar.

### Discipline

If a student is required by a Faculty to discontinue attendance in the Faculty solely because he has failed to maintain the required academic standing, he is not regarded as dismissed on grounds of general discipline and his right to be considered for admission to another faculty is unaffected.

When the work of a student is unsatisfactory, or his attendance is irregular without sufficient reason, he may be dismissed from one or more classes, or from the University.

Students are expected to be in attendance on the first day of term, and to remain in attendance until the last day of term, as specified in the calendar. A student who is guilty of a wilful infraction of this rule is subject to a fine, the amount to be determined by the nature and duration of absence.

No return of fee will be made to any student dismissed from classes or from the University.

### Non-Academic Student Activities

Students representing the College in non-academic activities must be in good standing. Those who are ineligible for such representation are as follows:\*

(a) Students on probation in any Faculty. (b) Students registered for fewer than ten lectures per week, a period of two laboratory hours being regarded for this purpose as equivalent to one lecture. (c) Students who have more than two failures in college subjects.

†It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc. contained in this Calendar are applicable to the current year only; and that the University does not hold itself bound to adhere absolutely to the curriculum and conditions laid down.

\*These regulations do not apply to the Dramatic Society.

### Tutors

King's professors are always ready to arrange auxiliary classes for King's students who need them. There is also an organization set up by the Student Council under which students who are weak in certain subjects may be tutored by Senior Students specializing in those subjects.

### King's College Library

The library is open every weekday from 9 a.m. to 1 p.m. and every day except Saturday and Sunday from 2 p.m. to 5.30 p.m., and most of the session from 7.00 p.m. to 10.45 p.m.

Books, other than those on the reserved lists, may be taken out by instructors or students and kept for one week.

Books on the reserved lists may be taken out immediately before the closing of the library on any day, and must be returned when it opens on the following morning.

Not more than two books may be borrowed at one time by a student not in an Honours course, nor more than four by a student taking Honours.

Students are given the privilege of borrowing books from the library for the summer. Students using the privilege are required to make a deposit with the Librarian's Office. This deposit is returnable when the books are replaced in the library.

### Dalhousie Libraries

King's students enjoy the same privileges in the Dalhousie Libraries as Dalhousie students. For regulations and hours see the current Dalhousie calendar.

### Other Libraries

Arrangements can be made for King's students to use the Halifax Public Library, the Nova Scotia Technical College Library, Pine Hill Library and the Legislative Assembly Library.

### Conferring of Degrees

Successful candidates for degrees are required to appear at Convocation in the proper academic costume to have the degree conferred upon them.

By special permission of the Senate degrees may be conferred, in exceptional cases, *in absentia*. Written application giving reasons for the request must be made well in advance to the Secretary of Senate. The additional fee for such degrees conferred at Convocation is \$10.00

### Student Employment

The National Employment Service of the Unemployment Insurance Commission, in co-operation with the University, maintain an office on the campus from September to May (inclusive). This is done to assist students in obtaining employment and to assist employers wishing to recruit at Dalhousie.

All students, wishing assistance in obtaining part-time, summer, or graduates seeking permanent employment, are urged to register early in October with the University Placement Officer, Room 150, Arts and Administration Building.

There is an opportunity for men students to earn part of their college expenses by working in the Library or Dining Hall.

### STUDENTS' HEALTH SERVICE \*

The Students' Health Service is located at the Dalhousie Public Health Clinic.

1. All students registering for the first time at the University are required to undergo a medical examination at the beginning of the session.

A student is not covered by the Students' Health Service until he has complied with the requirements set out in this section.

2. Appointments for these examinations will be made at the time of registration.

Students are excused from classes to keep these appointments.

3. Annual examinations will be required of all students who are found on admission to be in a low medical category, and also of students participating in major sports.

4. The Students' Health Service provides the following services:

- (a) An annual medical questionnaire to be completed at the time of registration.
- (b) Students will be tuberculin tested yearly and positive reactors will receive a chest x-ray.

\* The fee for this service is \$5.00 per year.

- (c) A medical examination of students who request it because of illness\*\*. Students are urged to seek medical attention early in illness.
- (d) A medical service for minor ailments at the Dalhousie Public Health Clinic from 12.15 noon to 1.15 p.m. daily except Sundays. A student who is too ill to attend the noon clinic or who is taken ill outside of clinic hours may consult a doctor of his own choice. The Students' Health Service will pay for physicians' call at the rate of \$3.00 for the first visit and \$2.00 for the second, with a limit of \$5.00 for each illness. Students may pay the doctor's fee and bring receipted bill to the Students' Health Service Office, or may have his bill sent directly to that office.
- (e) Any medicines (except antitoxin sera, insulin or other unusual preparations) and dressings that are available through the Halifax Visiting Dispensary.
- (f) A free clinic for immunization against diphtheria, and vaccination against smallpox held every Wednesday at 2. p.m. at the Dalhousie Public Health Clinic.
- (g) Hospitalization Expenses:  
The Emergency Department of the Victoria General Hospital is available to students if the need arises. If required to enter hospital for observation or treatment during the academic year (excluding Christmas recess) a student, on discharge from the hospital, should present the receipted bill to the Director of the Students' Health Service. Students whose hospital account is not already covered by an insurance plan will be reimbursed by the Business Manager of the University at the rate of nine dollars *per diem* for ward rate, to the extent of six days in any one session\*. 2. The list of classes which a student may take should include all possible required classes, before any elective is added, but candidates for admission to Honours courses may have this rule modified on application to the Committee on Studies.
3. Five classes shall be regarded as constituting a normal year's work for a student in good standing, and should not be exceeded without permission of the Committee on Studies.
4. Any student who at the Christmas examinations has not shown reasonable proficiency, may, at the discretion of the Faculty, be required to discontinue attendance at the University for the remainder of the session. Fees will not be refunded to such students.

2. They must appear at all examinations, prepare such essays, exercises, reports, etc., as may be prescribed and, in case of a class involving field or laboratory work, complete such work satisfactorily.
3. In determining pass lists both the standing attained in prescribed class exercises and in field or laboratory work and that in the various examinations are taken into consideration. A candidate who fails to obtain a mark of at least 25 per cent on the work of the session in any class shall lose credit for attendance in such class.

A student who fails to write or pass the Supplemental examination can obtain credit for this class without repeating it only by passing a special\* examination.

Supplemental or Special examinations in any class shall cover the whole work of the session in that class, and not merely the work of the first or second term.

Supplemental and Special examinations for registered students are held in September only.

A student wishing to appear as a candidate at a Supplemental or Special examination shall be required to give notice of his intention to the Registrar's office on or before August 20, the fee (see page 34) to be remitted with the notice.

## ORDER OF CLASSES

Candidates who intend to take one of the Affiliated Courses, or to enter an Honours Course, should consult the Registrar concerning the proper order of their classes.

## Affiliated Courses

An undergraduate looking forward to the study of Divinity, Law, Medicine or Dentistry may offer one of the following groups in place of the 3 classes of (vii), Table 1:

**For Divinity**—The classes of one full year of the Divinity Course, conducted in the Divinity Faculty of King's College or at Pinehill Divinity Hall; or the classes of the first year of Law, Medicine or Dentistry may be offered for the three electives.

**For Law**—The classes of the first year, provided conditions are satisfied for entrance into second year Law.

**For Medicine and Dentistry**—The classes of the first year.

## Honours Courses (B)

Students of ability and ambition are urged to take a course leading to the Bachelor's degree with Honours. The course entails (a) a certain degree of concentration, (b) additional work in the subject chosen for Honours, (c) a higher quality of work than that for the ordinary Bachelor's degree. The following are the general rules for such a course:

1. A student may obtain Honours in four years from Grade XI if he spends all four years at the University. In certain departments, students who are well prepared may be allowed to obtain Honours in three years from Grade XII.

2. Honours students must be accepted by the department concerned. Their entire plan of study during the last two years of their course must be under the supervision of that department.

3. To obtain Honours, a student must:

(a) observe the rules for the ordinary B.A. or B.Sc. degree as laid down in the Calendar, (pp. 36-39).

- (b) take at least five advanced classes prescribed by the department in which he is taking Honours;
- (c) take two additional or special classes—one in the third year and one in the fourth year in the department in which he is doing his Honours work. (These classes shall be primarily for Honours students and may be given in any way that the department may decide.) This means that twenty-two classes are needed for the B.A., B.Sc. degrees with Honours;
- (d) pass a comprehensive examination covering his Honours work at the end of his course;
- (e) make an average of not less than 65% in all his Honours classes. (This includes the five advanced classes, the two additional classes and the comprehensive examination at the end.)

4. In order to obtain **First Class Honours** a student must pass his Honours classes, as above in 3 (e), with an average of at least 80%.

5. A degree with Honours may be obtained in the following departments:

Biology	History
Chemistry	Mathematics
Classics	Modern Languages
Economics and Sociology	Philosophy
English Language and Literature	Physics
French (Romance Languages)	Political Science
Geology	Psychology
German (Modern Languages)	

## OTHER COURSES

### Master of Social Work

King's, like most other Maritime Universities, has entered into an agreement with the Maritime School of Social Work to confer the degree of Master of Social Work on those students who have completed successfully the requirements laid down for this degree. For further details a prospective student should write to the Director, Maritime School of Social Work, 150 Coburg Road, Halifax.

### Master of Arts and Master of Science

In accordance with the Terms of Association, a graduate cannot take a Master's degree while enrolled at King's; but the attention of undergraduates is especially drawn to the standing and conditions needed in their courses before being admitted to work for a Master's degree.

### Degree in Education

King's College graduates are eligible for the course leading to a Degree in Education. Education 1 is the only course for which undergraduates are permitted to register.

By arrangement with the Nova Scotia Department of Education, graduates in Arts and Science who have completed the course at Dalhousie University leading to a Degree in Education subsequent to receiving their degree in Arts or Science may receive a permanent High School Class Licence to teach in any public school in Nova Scotia.

### Diploma in Journalism

A School of Journalism was inaugurated in the fall of 1945, under the auspices of the University of King's College, Saint Mary's University and Mount Saint Vincent College.

This course is one of three years and leads to a Diploma in Journalism.

The Academic subjects are given at the constituent Colleges. The Professional subjects are taken in common, and conducted by practical newspaper and radio people.

## School of Divinity

### ENTRANCE REQUIREMENTS

The normal Divinity course consists of the regular course for the B.A. or B.Sc. (3 years after Senior Matriculation, 4 years after Junior Matriculation) followed by 3 years in Divinity. Thus the normal entrance requirement is matriculation. It is customary for students to be accepted by a Bishop as candidates for ordination before entering the Divinity School, particularly if they are in need of financial assistance. This condition, however, is by no means obligatory, and students may take Divinity courses without being committed to ordination.

Those who already have their degrees will be admitted to the Divinity School direct.

It is most desirable that Divinity Students should reside in the College and take their full share in the privileges and responsibilities of college life. Circumstances in certain cases may move the Divinity Faculty to allow non-residence for part of the course; but students receiving such permission must be prepared to come into residence for at least one full college year.

### COURSE FOR BACHELOR OF ARTS

The course of study prescribed for the Degree of Bachelor of Arts using the affiliated course in Divinity\* consists of the following classes:

- (a) Three classes in Greek.
- (b) Two classes in English.
- (c) One class in Mathematics.
- (d) One class in either Physics, Chemistry, Geology or Biology.
- (e) Any two of a University course in European History, Philosophy 1, Psychology 1.
- (f) Any one of Economics 1, Political Science 1, Sociology 1.
- (g) Six classes which require a university class as prerequisite, selected from not more than two departments.
- (h) One elective in place of Classical Literature in Translation.
- (i) Religious Knowledge to be taken in the First year.

\*Arts students making use of the affiliated course in Divinity, must indicate this fact on the University registration card when registering.

## DIVINITY COURSE

The standard academic qualification for ordination is the B.A. (or B.Sc.) followed by the L.Th. The L.Th. will be awarded on the basis of three years' work in the Divinity School (as distinct from the Faculty of Arts and Science). The L.Th. (Hons.) will be awarded to those who, after three years' residence, have passed all the required courses in the complete Divinity course (see below) together with no fewer than 3 Distinction courses and required Field Work. The L.Th. (Pass) will be awarded, at the discretion of the Faculty, to students who, after 3 years in the Divinity School, complete the required courses only, with or without Hebrew.

When a student at the instruction of his Bishop leaves the college after only 2 years in the Divinity School, he will be awarded the college Testamur if he has passed not fewer than 19 required Divinity courses (including 2 in Ceremonial, but excluding Hebrew). The Testamur will be awarded to students who, after 3 years' residence in Divinity School, fail to qualify for the L.Th., but satisfy the requirements of this paragraph. No academic recognition will be given to any student leaving the college with less than 19 Divinity credits.

Students who have their matriculation may, on the recommendation of a Bishop, be admitted to the Divinity School direct without completing any degree course. In such cases, they must complete a probationary year consisting of Religious Knowledge, English Bible 1 or 2, Greek Bible A, and the following courses in Arts—Sociology 1, English 1, and either History 1 or Philosophy 1. They must then take three years of Divinity, at the end of which they may qualify for the L.Th. or Testamur as above.

The provisions of this paragraph are generally intended for older men and only in exceptional circumstances will be allowed to men under twenty-five years of age.

All Divinity Students and those looking forward to the study of Divinity will consult Professor Stone as to the choice and arrangement of their courses; then if approved by the Dean of Divinity, they will register in the Registrar's Office not later than September 30th.

A medical examination by the General Synod physician is required for all students during their first term in Divinity.

No student may write more than three supplemental examinations. A student with more than three failures at the end of a year must repeat the whole year.

The Degree of Bachelor of Sacred Letters (B.S.Litt.) may be taken by Divinity students under the following conditions: The course consists of twenty approved classes in Arts and Science, followed by the complete Divinity course, plus three distinction courses passed with a minimum of 65%. The twenty classes must include at least two in Latin, and two in Classical Greek. Two classes in Hebrew must be taken in the Divinity School.

Students who have received the B.S.Litt., or other graduate students who have qualified for the Licentiate in Theology, with Hebrew or Septuagint Greek are in a position to proceed to the final examinations for the degree of B.D. under the General Synod Board of Examiners.

The organization of this Institute, in collaboration with Pine Hill Divinity Hall and the Divinity School of Acadia University, represents one of the newest projects in theological education on the Canadian scene. It is the objective of the Institute to bring pastors and theological students face to face with human misery as it exists both in and out of institutions, through courses in clinical pastoral education in both general and mental hospitals, reformatories and juvenile courts, homes for the aged, alcoholic treatment centres, and other social agencies.

For those students with a particular aptitude and interest, there will be opportunity for further training to become qualified teachers of these subjects in theological colleges, directors of clinical training courses, and institutional chaplains; also in certain cases to become experts in particular specialized fields, such as ministering to the mentally ill or alcoholics, where the Church may have a significant role to play in partnership with secular professions.

Other goals of the Institute include the production of teaching materials, the promotion of workshops, and the establishment of a first class library and reference centre at the Institute office.

## THE MARITIME SCHOOL OF SOCIAL WORK

Incorporated 1941

In affiliation with the University of King's College and other Maritime Universities, the Maritime School of Social Work provides postgraduate education in Social Work leading to the Degree of Master of Social Work.

The School is governed by a Board of Trustees representing all parts of the Atlantic Region.

The Chairman of the Board of Trustees is Manuel I. Zive, Esq., Halifax, N. S.

The Director of the School is L. T. Hancock, Esq., M.A.

As The Maritime School of Social Work is the only training centre for professional Social Work east of Quebec City, it serves the entire Atlantic Region.

The curriculum of the School which consists of both practical and theoretical training, conforms to standards set by the Council on Social Work Education which is the accrediting body for Schools of Social Work on the North American continent. In addition to participating in classes, seminars, and discussion groups, each student spends a minimum of two days per week practising Social Work in an established social agency under the supervision of a specially trained instructor. In this way the student gains practical experience in applying theory to practice. The shortage of trained social work personnel is acute, and attractive opportunities await those who seek a profession concerned with the social, emotional, and economic problems of mankind.

The program in Biology is designed to provide the student with a basic training in biological science which may serve as a preparation for graduate and professional work in Botany and Zoology, in Microbiology or Medicine. The training leads to professional opportunities which include teaching of natural sciences in secondary schools and universities, work in industrial and research laboratories, and research posts with Federal and Provincial Departments of Agriculture, Forestry, and Wild Life Management. It serves also as preparation for professional courses of Medicine and Dentistry and various technical posts in medical laboratories. A student looking forward to Biology in general or one of its branches as his major field of study is invited to consult the Department early in his course so that a proper plan can be worked out.
