**In Memoriam: Luke Hattie**

Luke Hattie passed away suddenly and unexpectedly on April 28 at the age of 25. Luke is survived by his parents Kimberley Ann and Alan Hattie, his brother Daniel Eric Hattie and fiancée Bailey McNutt. Luke received his undergraduate degree at Memorial University in Newfoundland, and his MSc degree in the Department of Biochemistry and Molecular Biology at Dalhousie. He remained an important part of the department working as a technician, and had recently been hired as a bioanalytical scientist in Nova Scotia. He had a bright future ahead of him. Luke will be remembered for his kindness and thoughtfulness, his great sense of humour, his creative ingenuity in fixing and building equipment of all sorts, and his love for animals. He deeply cared for his family and friends, and was much loved in return. He will be missed by all.

His full obituary can be found here: <https://www.huskilson.net/obituary/luke-hattie>
