Dalhousie University

INTRODUCTION

HISTORICAL SKETCH

Dalhousie University may be said to have begun when the British Government, in 1818, sanctioned the institution of a college at Halifax, Nova Scotia. The original endowment was part of the customs collected at the port of Castine, in the present State of Maine, while it was occupied by a Halifax expedition during the latter part of the War of 1812. This use for the fund had been proposed by a Lieutenant-Governor of Nova Scotia, George Ramsay, ninth Earl of Dalhousie, who had the satisfaction of laying the corner stone of the building May 22, 1820. In doing so he made an address, containing these words: "This College of Halifax is founded for the instruction of youth in the higher Classics and in all Philosophical studies; it is founded in imitation of the University of Edinburgh; it is founded upon the principles of religious toleration. From this college every blessing may flow over your country. May it continue to dispense them to the latest ages! Let no jealousy disturb its peace; let no lukewarm indifference check its growth! Protect it in its first years, and it will abundantly repay your care!"

Despite this fervent appeal and prophecy, the College did not begin to function till 1838. King's College, at Windsor, was already in existence. There was not room for the two institutions and efforts at union were unavailing. King's College admitted only adherents of the Church of England. In 1838, Pictou Academy joined forces with Dalhousie, its Principal, the famed Dr. McCulloch, becoming President of Dalhousie, and £200 of the £600 annual grant to Pictou Academy being transferred with him. Two other teachers joined him in Dalhousie. But, in 1843, Dr. McCulloch died and the college closed its doors, though in the next two decades it showed some discontinuous activity as a school.

In 1853, the Presbyterian Church of the Lower Provinces expressed its colleges at Truro and Halifax and undertook the support of two Chairs, and the Church of Scotland in Nova Scotia undertaken to support another Chair. Thus supported Dalhousie made a fresh beginning, with six professors. So carefully chosen were these men, and so vitalizing was their effect as teachers, that there was never again a break in the life of the College.

Sixteen years later, George Munro began a series of gifts, chairs and scholarships, on a scale hitherto unheard of in Canada. The result was not only a nucleus of some of the most famous university teachers in Canadian history; these teachers had among their students the cream of maritime schools—students who exerted an influence out of proportion to their numbers. Unfortunately these scholarships were discontinued for a decade only.

In 1883, the Faculty of Law was established, George Munro endowing the Chair of Constitutional and International Law.

In 1887 the University sold its premises on the Parade to the City of Halifax, and moved to a site on Carleton Street. The building then erected is still in use, the Ferret Building. In 1911, the University acquired new property to the West, a spacious campus, of forty acres; here many of the new buildings have been erected.

In 1906, the Faculty of Science, first organized in 1877, was rearranged, "Pure Science" united with Arts, the whole Faculty becoming that of "Arts and Science." "Applied Science" was replaced by the Faculty of Engineering. This latter discontinued in 1909 when the Nova Scotia Technical College opened.

In 1911 the former affiliation between Dalhousie University and the Halifax Medical College (established in 1865) came to an end, and the University undertook a full medical curriculum. Through the generosity of the Rockefeller Foundation and the Carnegie Corporation in 1920 new medical buildings were erected close to the provincial and civic hospitals.

In 1912, the Faculty of Dentistry was established.

In 1923, a "long contention" ceased, and one of the happiest events in Dalhousie's history occurred. The University of King's College, the oldest University in Canada, moved from Windsor, Nova Scotia, to Halifax, and associated with Dalhousie. (The buildings of King's College are situated on the West Campus.) King's College retains its degree-granting powers in Divinity, but not in Arts. The staffs of King's College and of the Arts and Science Faculty of Dalhousie are combined, and constitute a faculty worthy of the name. The libraries of the two institutions are available to the students of both. A distinctive feature of King's College is its "residential" life, which continues its old tradition, and which was originally based on an imitation of Oxford, as Dalhousie was modelled on Edinburgh. *Ex rite scholasticorum eundemque discipulis.*

MUNRO DAY

On July 9, 1881, the Governors of Dalhousie University dealt with a petition from the students, asking that each year there be a holiday named "The George Munro Memorial Day" in celebration of the great benefactions of George Munro mentioned above. The petition was granted, and the third Wednesday of January of each year was set aside as "The George Munro Memorial Day." In the course of years the name has been shortened to "Munro Day." In the year 1928 "Munro Day" was celebrated on March 9, and President A. Stanley Mackenzie reviewed the history of Dalhousie's benefactors. The special guest on that occasion was the Right Honourable R. B. Bennett, (later Viscount Bennett), who was referred to as one of our great benefactors himself, and the cause of other notable benefactions. Since that time, the names of all our benefactors have been associated with "Munro Day." In 1938 the Senate decided that in future Munro Day should be celebrated on the second Tuesday in March.

FACULTIES AND AFFILIATIONS

The Faculty of Arts and Science has been so styled since 1906, when the Pure Science part of the Sciences Faculty, established in 1877, joined Arts. ("Applied Science," then called the Faculty of Engineering, was discontinued in 1909 on the opening of the N. S. Technical College.)

The Faculty of Law was established in 1883. In this year Mr. George Munro endowed the chair of Constitutional and International Law, held by Dean H. C. Weldon for 31 years.

The Faculty of Medicine was established in 1868 and was affiliated for many years with the Halifax Medical College. Since 1911 the University has assumed responsibility for a full curriculum. The medical buildings are on the East Campus in close proximity to the teaching hospitals.

The Faculty of Dentistry was organized in 1908 in affiliation with the Maritime Dental College. In 1912 the Dental College discontinued its work, and instruction in all subjects of the curriculum is now carried on by the Faculty of Dentistry.

The University offers the degree of B.Sc. to candidates fulfilling the requirements of the Maritime College of Pharmacy. The College of Pharmacy does its work in Dalhousie University buildings, and some of the instruction is given by the Dalhousie staff.

Since 1928 Dalhousie University has co-operated with the Fisheries Research Board in a course leading to degrees in Fisheries. These courses are now graduate in character, the instruction involved being given by the staff of Dalhousie and of the Board.

In cooperation with the Nova Scotia Technical College and the Fisheries Research Board, the University offers a course leading to the degree of B.Sc. with a Diploma in Food Technology.

The Faculty of Graduate Studies was established in 1949. For prospectus of degrees and courses address the Acting Secretary, Professor J. G. Adshead, Dalhousie University, Halifax, N. S.

CONSTITUTION

The Board of Governors is the supreme governing body of the University. Appointments to it are made by the Governor-in-Council on the nomination of the Board. The Board has granted to the Alumnae Association the privilege of proposing the names of six members of the Board. An Alumna Representative Governor must resign at the end of three years;

DEGREES AND COURSES

he may be appointed to succeed himself; but he cannot hold office for more than six years continuously. On similar conditions, the Alumnae Association have the selection of three members of the Board. The Governors have the management of the funds and property of the College, the power of appointing the President, Professors and other officials, and of determining their duties and salaries, and the general oversight of the work of the University.

The Senate consists of the President and Professors. To this body are intrusted, by statute, the internal regulations of the University, subject to the approval of the Governor. All degrees are conferred by the Senate.

The Faculties consist of the members of the teaching staff in each of the four main domains of study in which courses can be pursued at the University, namely, Arts and Science, Law, Medicine and Dentistry. To them are intrusted by the Senate, subject to its approval, the supervision of the teaching, the preparation of regulations governing courses of study, and the recommendation of suitable candidates for prizes, scholarships, diplomas and degrees.

DEGREES AND COURSES

The degree of Doctor of Laws may be conferred *honoris causa* in recognition of eminent literary, scientific, professional or public service.

The Senate confers the degrees in courses of Bachelor and Master of Arts, Bachelor and Master of Science, Bachelor of Commerce, Bachelor of Education, Bachelor of Music, Bachelor of Science in Pharmacy, Bachelor of Science in Engineering Physics, Bachelor of Nursing Science, Bachelor of Laws, Doctor of Medicine and Master of Surgery, and Doctor of Dental Surgery. Courses for diplomas in Music, Pharmacy, Education, Engineering and Nursing, are also presented.

The various Faculties of the University provide the instruction required in the courses leading to the above degrees and diplomas except in Music, and in Pharmacy.

In Music instruction is provided in the literary and scientific subjects required, and the University recognizes as qualifying for a degree or diploma the instruction in professional subjects by the Halifax Conservatory of Music or other approved institution.

In Pharmacy the University provides instruction in pure science and recognizes the teaching in professional subjects of the Maritime College of Pharmacy or other approved institution.

In Food Technology the University provides instruction and recognizes teaching in professional subjects by the Nova Scotia Technical College and the Fisheries Research Board.

Engineering Courses.—A course in Engineering is offered in the Faculty of Arts and Science. This course extends over three years and corresponds to the work prescribed by the Nova Scotia Technical College for admission to the courses for a degree in Chemical, Civil, Mechanical Electrical or Mining Engineering. A diploma will be issued to those completing the course satisfactorily.

Affiliated Courses.—By a proper selection of elective subjects in his course, a candidate may reduce by one year the time required for the degree of Bachelor of Arts or Bachelor of Commerce and a degree in Law. Similarly a candidate for the degree of Bachelor of Arts or Bachelor of Science may reduce by one year the time required for the combined degrees in Arts or Science and Medicine or Dentistry.

An affiliated course between Commerce and Engineering may be arranged for students interested.

A candidate for the degree of Bachelor of Science may shorten by two years the time required for that degree and a degree in Engineering.

**PRIVILEGES OF DALHOUSIE STUDENTS IN
OTHER INSTITUTIONS**

The University of Oxford exempts from Responsions an undergraduate in Arts of this University who has passed in the subjects of the second or a higher year. A Bachelor of Arts with Honours is further exempted from four terms of residence. The Trustees of Rhodes Scholarships exempt from the qualifying examination candidates who are exempt from Responsions by the University of Oxford.

The University of London exempts Bachelors of this University from the Preliminary Examinations leading to the LL.B. degree of that University; and students in Medicine are exempted from the Courses of Study anterior to the First and the Second Examinations for Medical degrees if they have pursued equivalent courses at this University.

Graduates in Law of this University are admitted to the Bar of Nova Scotia without further examination and the Law School is on the registered list of the Courts of the State Board of New York.

On January 1, 1922, the Societies of Lincoln's Inn, The Middle Temple, The Inner Temple, and Gray's Inn agreed to admit Dalhousie Law graduates on certain conditions to any one of the four Inns of Court.

Graduates of this University in Medicine and Surgery who hold the License of the Provincial Medical Board may, on application be placed on the Colonial List of the British Medical Register. The Medical School was rated Class A by the Council on Medical Education and Hospitals of the American Medical Association and is also a member of the Association of American Medical Colleges. Graduates enjoy all the privileges which these affiliations confer.

AFFILIATED INSTITUTIONS**Pine Hill Divinity Hall**

Principal Rev. C. M. Nicholson, B.A.,LL.D.

The classes and examinations in Hebrew 1 and 2, and New Testament Greek I, conducted at this college are recognized as qualifying for the degree in Arts at the University. Arrangements have been made whereby students may reduce to six years the time required to take the degree of B.A. from the University and complete the Divinity course at the Pine Hill Divinity Hall.

Prince of Wales College

Principal G. D. Steel, M.A.,LL.D.

Students who have completed the regular four-year course at Prince of Wales College, Charlottetown, Prince Edward Island, and who have graduated with standing equivalent to a High Honour Diploma, are admitted to the Arts and Science course without further examination, and may receive credit in classes of the first and second years to a maximum of ten. See also page 29.

Memorial University College

President Albert G. Hatcher, M.A.,LL.D.

Students who have completed the regular course of Memorial University College, Newfoundland, are admitted to the Arts and Science course without further examination, and may receive credit in classes of the first and second years to a maximum of ten. Candidates for a degree are required to have complete matriculation.

EQUIPMENT**Halifax Conservatory of Music**

The University recognizes the teaching of the Conservatory as part of the qualification required for the degree of Bachelor of Music and for the Diploma of Licentiate of Music.

The Maritime College of Pharmacy

Dean (Acting) J. D. Walsh.

The University recognizes the teaching of the Maritime College of Pharmacy as part of the qualification required for the degree of Bachelor of Science (Pharmacy).

Halifax Ladies College

Principal Miss Marion B. Dauphinee, B.A.,M.A.

Students who have completed the regular course and received the Matriculation Diploma are admitted to the Arts or Science course without further examination.

Convent of the Sacred Heart

Mother Superior Reverend Mother Murphy.

Students who have completed the regular course and received the Diploma are admitted to the Arts course without further examination and may receive credit in classes of the first and second years for work done at the Convent.

EQUIPMENT**Libraries**

The University possesses a University Library, the Macdonald Memorial Library, open to all registered students, and the separate Law, Medical and Dental Libraries for the students and instructors in those Faculties.

The University Library was instituted in 1897, as the result of an appeal made by the Rev. George M. Grant at Convocation. It contains 70,571 catalogued volumes, and other books and manuscripts.

The Library of King's College, which is very valuable in several fields, is also accessible to Dalhousie University students.

The Law Library contains about 15,000 volumes, including all the law reports which a student will find it necessary to consult.

The Medical Library may be said to have begun with an endowment of £1,000 from Dr. C. Cogswell. For many years it has received all the leading medical periodicals published in Europe and America. The Library is in charge of a trained medical librarian, and is open to all registered students, and to the practicing physicians in the Maritime Provinces. The new Medical and Dental Library building completed in the spring of 1938 stands on the Forrest campus. It was built after consultation with several of the most eminent medical librarians in America and in every way is fitted for the purpose it serves.

Besides the libraries in the University, students may use, subject to certain conditions, the following libraries: The Provincial Science Library, housed in the Nova Scotia Technical College (about 90,000 volumes and pamphlets), the Legislative Library (44,000 volumes), the Library of Pine Hill Divinity Hall (23,000 volumes and, in addition, valuable records), the Nova Scotia Barristers' Society Library (14,000 volumes), and the Libraries of the Public Archives of Nova Scotia.

THE PUBLIC ARCHIVES OF NOVA SCOTIA

A building for the Public Archives of Nova Scotia was erected on the University grounds adjacent to the Macdonald Memorial Library in the autumn of 1930 through the generosity and public spirit of the late W. H. Chase, Esq., of Wolfville. It contains a large collection of public records dealing with the executive, legislative and judicial functions of government, and a wide range of supplementary material essential to historical research.

This subsidiary material includes letters, diaries and other personal or family papers; minute books of clubs and societies; and account books and correspondence of old business firms; as well as charts, maps and photographs, a historical museum and two libraries. The Atkins Library, which has been in custody of the Board of Trustees of the Archives since 1931, is a unique collection of more than 4000 volumes on early Colonial and Canadian history. The Archives Library was incorporated in the same year, and designs... complement the Atkins Library by holding all books and pamphlets related to Nova Scotia, or written by Nova Scotians, since the death of Dr. Atkins in 1891, now (1949) contains 8000 books and pamphlets and is constantly expanding. The facilities of the Archives are of special value to research students.

THE MUSEUM

The Museum consists chiefly of the Thomas McCulloch and the Honeyman Collections.

The Thomas McCulloch Collection was begun by Dr. McCulloch, first President of Dalhousie. The greater part of it was collected by his son, Thomas, who was Professor of Natural Philosophy from 1853 until his death in 1865. His brother, Rev. William McCulloch, D.D., of Truro, bequeathed it to the University along with a sum of \$1,000 to form a fund for its maintenance. It contains a large and valuable collection of birds, especially native species of the Maritime Province, besides many mineral, rock and fossil specimens, shells of molluscs, Indian implements, etc. The fossil specimens include a collection of European cretaceous fossils and of carbonaceous fossils, chiefly Nova Scotian. The collection of birds is supplemented by the valuable collection made by Col. T. J. Egerton, of Halifax, containing thirty cases of native birds.

The Honeyman Collection consists of the extensive geological collection made by the Rev. David Honeyman, D.C.L., F.S.A., for some years Professor of Geology in Dalhousie College, and was presented by Dr. Honeyman's relatives.

The collections of the Provincial Museum, illustrating the Geology, Mineralogy and Zoology of the Province, may be conveniently used by students.

LABORATORIES

The Science Building, Stanley, contains the laboratories conducted by the Departments of Physics and Chemistry.

The Engineering and Geology Building, Coburg Road and Oxford Street, houses the engineering drafting rooms and the geological laboratory.

The Farrest Building on Carleton Street contains the laboratories conducted by the departments of Biology, Zoology, Histology and Embryology, Anatomy, Dentistry and the Cancer Research Laboratory.

The Medical Sciences Building on College Street contains the laboratories of the departments of Physiology, Biochemistry, Pharmacology and the Maritime College of Pharmacy.

The Pathological Institute of the Provincial Department of Health houses the departments of Pathology, Bacteriology and Immunology.

GENERAL UNIVERSITY REGULATIONS[†]

Registration

All students of the University are required to enter their names in the Register annually, agreeing to obey all the regulations of the University already made or to be made, and to pay the required fees and deposits before entering any class or taking any examination. Students withdrawing from the University or intending to discontinue the work of any arts or science class must notify the Registrar of Dalhousie.

STUDENTS' HEALTH SERVICE

1. All students of the University are required to undergo an annual medical examination at the beginning of the session. Women students will be examined at Shirreff Hall; men students at the Dalhousie Public Health Clinic. For students in the Professional schools, lists indicating appointments will be posted on the notice boards, while those in other faculties will be notified by mail or by telephone. Failure to keep appointments promptly will be regarded as a breach of University discipline.

2. The Service provides for the following:
 - (a) A medical examination at the beginning of each session.
 - (b) X-ray examination of the chest each session.
 - (c) Medical service for minor ailments at the Dalhousie Public Health Clinic from twelve noon to one p.m. daily except Sundays.
 - (d) Such medicines (except antitoxic sera, insulin or other unusual preparations) and dressings as may be prescribed.
 - (e) A free clinic for immunization against diphtheria, scarlet fever and smallpox (vaccination) is held every Wednesday at 2.00 p.m. at the Dalhousie Public Health Clinic.
 - (f) A student who is too ill to attend the noon clinic, or, if taken ill in the afternoon or evening, may call any doctor practising in Halifax (or Dartmouth). If a

[†]It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this Calendar are intended for the current year only; and that the University does not hold itself bound to adhere absolutely to the curriculum and conditions laid down.

student wishes advice in the matter of selecting a doctor he should telephone the Students' Health Service, 3-8438 (9 a.m.-5 p.m. daily except Sunday) or the Dalhousie Public Health Clinic, 2-3363 (at any hour). He will be furnished with a list of doctors who are willing to attend students for the minimum fee suggested by the Medical Society of Nova Scotia. At the conclusion of the doctor's attendance, the student should pay the doctor, obtain a receipted bill stating the number of visits made and the diagnosis of the illness and then present the receipt to the Director of the Students' Health Service. The student will be reimbursed by the University Business Manager at the rate of two dollars per visit, with a limit of five dollars for each illness. Veterans enrolled in the University and receiving benefits from the Department of Veterans Affairs are entitled to medical care while in receipt of these benefits. The doctors attending them should render their accounts to the D.V.A.

- (g) Hospitalization:
If required to enter any hospital for observation or treatment a student, on discharge from the hospital, should present the receipted bill to the Director of the Students' Health Service who will forward it to the Business Manager. The student will be reimbursed at the rate of three dollars per diem for each day in hospital, to the extent of five days. Students are advised that the public ward rate at the Victoria General Hospital is three dollars per diem, which includes medical and surgical attendance, medicines, dressings, laboratory tests and X-rays, etc.
3. The Service does not provide for the following:
- Surgical operations.
 - Specialist's treatment.
 - Special nursing.
 - Dental treatment.
 - X-rays except the annual examination of the chest.
 - Physician's fee for attendance elsewhere than at the Dalhousie Public Health Clinic, except as stated in Section 2 (f) hereof.
 - Illnesses attributable to misconduct.
 - Hospitalization except as stated in Section 2 (g) hereof.
 - Any other service not specified in Section 2 hereof.

4. Arrangements for consultations during the session are to be made through the office of the Director, Students' Health Service, Dalhousie Public Health Clinic (Telephone 3-8438).

5. All students are expected to carry out the instructions of the physician to the fullest extent possible. Failure to do so will be regarded as a breach of University discipline.

6. All students entering the University who cannot submit certificates of having been successfully vaccinated against smallpox shall be required to submit to vaccination.

Physical Training

All students in their first year of attendance at the University are required to follow a prescribed course of Physical Training, unless they are exempted by a medical certificate or by satisfactory evidence that they have already completed a similar course of training at an approved institution.

Each new student on registration must report to the Director of the Gymnasium.

Tutors

For students whose proficiency in languages is not satisfactory, the department concerned will recommend accredited tutors.

Residence

All students are required to report their place of residence to the University Office on or before October 15. Subsequent changes in place of residence must be reported promptly.

Shirreff Hall, the Women's Building of the University, the gift of the late Mrs. Eddy, will accommodate about one hundred students. All women students not living with parents or close relatives must live in residence. In very exceptional circumstances, permission may be granted to a woman student to reside outside. Written application for exemption from this rule of residence may be made through the President's Office.

First year students may secure lodging in the University Men's Residence by making application to the Business Manager.

Applications for room and board in either Shirreff Hall or University Men's Residence are accepted by the University with the understanding that the student remains for the whole session, or, in the case of withdrawal during the session, that

he or she obtain a mutually satisfactory substitute resident. All residents will be charged with room for the complete session and no refund will be made to the resident on withdrawal unless or until a substitute has assumed obligation to the university for the balance of the session.

Board charges are subject to rebate of \$5.00 per week in case of illness or other serious cause necessitating absence of four weeks or more.

The dormitories of Pine Hill Divinity Hall are available for students of Dalhousie University to the extent of the accommodation not needed by Pine Hill. For information and reservations application should be made to the Matron.

Lists of approved boarding houses near the University are compiled in September and may be obtained by calling at the office of the Business Manager. Lists cannot be supplied by mail.

Church Attendance

All students not residing with parents or guardians are invited to report to the University Office on or before October 19 the churches which they intend to make their place of worship during the session. Intimation will be made to the various clergymen of the city of the names and addresses of the students who have chosen their respective places of worship.

Discipline

The Senate may use all means deemed necessary for maintaining discipline. Every professor or officer of the University is required to report cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the University during the session, may be fined, suspended, or expelled from the University. Since the formation of the Council of the Students in 1912, that body holds an investigation and reports its finding to the Senate for action and may recommend penalties to be inflicted.

Irregularity of attendance, except for approved reasons, or neglect or unsatisfactory progress in studies shall be regarded as sufficient cause for dismissal from one or more classes, or, in extreme cases, from the University. Any Faculty may, at its discretion, ask the Senate to dismiss from classes for the remainder of the session students whose progress in studies is unsatisfactory.

Students are expected to be in attendance on the first day of term, and to remain in attendance until the last day of term,

as set forth in the calendar. Wilful infraction of this rule is subject to the penalty of a fine to be determined by the nature and duration of absence.

No return of fees will be made to any student dismissed from classes or from the University.

Non-Academic Student Activities

Students representing the College in non-academic activities must be in good standing. Those who are ineligible for such representation (under intercollegiate rules) are as follows:

(a) Students on probation in any Faculty. (b) Students registered for fewer than ten lectures per week, a period of two laboratory hours being regarded for this purpose as equivalent to one lecture. (c) Students who have more than two failures in college subjects. (d) Students who have more than two deficiencies in matriculation subjects. No student is allowed more than three deficiencies in all, and all matriculation deficiencies must be removed before entering the Junior Year.

University Library

The Library is open during the session on every week-day except Saturday, from 8.30 a.m. till 5.30 p.m. and on Saturday till 12 m. and during the greater part of the session from 7.30 to 10.00 every evening except Saturday and Sunday.

Books other than those on the reserved lists may be taken out by instructors or students and kept for two weeks. They must then be returned to the library.

Books on the reserved lists may ordinarily be taken out at 4 p.m. on any day, and must be returned before 10 a.m. the following morning.

Students are allowed the privilege of borrowing books from the library for the summer. Students, not resident in Halifax, using this privilege are required to make a deposit with the University Office. This deposit is returned when the books are replaced in the library.

Loan Funds

A Students' Loan Fund was started by the gift of \$1,000 for the purpose from the Chronicle Publishing Co., Limited, of Halifax, in June, 1912, and has since been increased by other gifts and interest to about \$6,500.

An application for a loan should be made to "The Committee, Students' Loan Fund," and will be considered only from a student of Undergraduate standing in the Faculty of Arts and Science who has attended the University for at least one year.

has the approval of the Dean as to general academic standing, and is of good standing among his fellow students. The loan to any student shall not exceed \$100 in any one year, nor \$300 in total amount. A loan shall bear interest from the date of the student's graduation, or in case the student does not continue his course, from the date of his last attendance. A loan is repayable within one year from the time it begins to bear interest.

The Alumnae Association Loan Fund is available to women students who have attended the University for two years. A final year student may be granted a maximum of \$200, provided that a previous loan has not exceeded \$100. A total of all sums advanced to any student shall not exceed \$300. The terms of loan are subject to change. Applications should be sent in as early as possible. Apply to Mrs. F. H. Pond, 18 Oakland Road, Halifax.

A Loan Fund, available for studies at Dalhousie University of Irish descent, has been created by the Charitable Irish Society of Halifax. For further information apply to the President.

Student Employment

Dalhousie Personal Services, a student employment agency, endeavours to find part-time, vacation, or permanent employment for students of the University. In this it is assisted by the National Employment Service of Canada. Communications from both students and prospective employers are invited.

Caution Deposit

Each student on registration is required to deposit two dollars as caution money to cover damage done to furniture, apparatus, etc. This amount, less any deductions, will be returned at the close of the session. There shall be no deduction from the Caution Fund for damages which have been charged to or assumed by individuals.

Laboratory Deposits

A student taking a class involving laboratory work is required to make a deposit of ten dollars per class, with a maximum of twenty dollars, on registration. This amount, or what remains of it after deducting any charges which may have been incurred for breakage or materials used, is returned to the student at the end of the session.

Unclaimed Deposits

Balances of Caution and Laboratory Deposits left unclaimed three years will be applied to the purchase of books for the University Library.

Articles Lost and Found

Students are required to report promptly at the University Office the loss or finding of any article in or about the University buildings or grounds.

The University will not accept any responsibility whatever for books, clothing, etc., lost or removed from University premises.

Fees for Support of Student Organizations

At the request of the student body, as expressed by a ballot taken on the question and presented through the Council of the Students, a fee of \$16.00 is collected on registration from each student who takes more than two classes. This fee entitles the student to the privileges of any or all of the following student organizations: Dalhousie Amateur Athletic Club, Dalhousie Girls' Athletic Club, Delta Gamma Society (girls), Dalhousie Glee and Dramatic Club, Sodales Society, Dalhousie Band, and to a copy of the *Dalhousie Gazette* and the Year Book *Pharos*. This fee also entitles the student to participate in the general student activities sponsored directly by the Council of the Students.

A student taking fewer than three classes and desiring to take part in one or more of the above organizations must pay this fee.

Candidates for the degree of Master of Arts or Master of Science whose course will extend over more than one session are required to pay the regular Students' Council fee, during their second session, as for the first, if they wish to participate in the privileges outlined above. Fifth year Medical students are required to pay a reduced fee of \$8.00, which entitles them to all privileges of membership.

Academic Costume

Undergraduates, Matriarchs and Special Students attending more than one class, are entitled to wear gowns at lectures and all meetings of the University. The forms prescribed are the Oxford undergraduate gown of black stuff with sleeves, and a black tunic with tabs.

Graduates of the University shall be entitled to wear gowns and hoods of black stuff. The distinctive part of the costume is the lining of the hood, which for the various degrees is as follows:

- B.A.—White silk bordered with white fur.
- M.A.—Crimson silk.
- B.Sc.—White silk bordered with scarlet silk.
- M.Sc.—Scarlet silk.
- B.Com.—White silk bordered with light blue silk.
- B.Ed.—
- B.Mus.—White silk bordered with lavender silk.
- L.L.B.—White silk bordered with gold coloured silk.
- M.D., C.M.—Scarlet silk bordered with white silk.
- D.D.S.—Scarlet silk bordered with gold coloured silk.

Doctors of Laws (LL.D.) shall be entitled to wear for full dress a gown of scarlet cloth, with loose open sleeves, the facing down the front and around the shoulders covered with black silk and the sleeves lined with black silk. The hood shall be of scarlet cloth lined with black silk and of the Cambridge design. The biretum shall be the doctor's bonnet of black velvet with gold cord.

Conferring of Degrees

Successful candidates for degrees are required to appear at Convocation in the proper academic costume to have the degrees conferred upon them.

By special permission of the Senate degrees may be conferred, in exceptional cases, *in absentia*. Written application giving reasons for the request must be made well in advance to the Secretary of Senate. The additional fee for such degrees conferred at Convocation is \$10.00. (See p. 65).

ADMISSION TO VARIOUS FACULTIES

The attention of students entering the Faculty of Arts and Science for the first time, whether in the First or Second year, is called to the fact that registration for such students takes place on September 26 and 29.

No person under sixteen years of age is admitted to any class except by special permission of the Senate.

Graduate Students are students who hold a Bachelor's degree in Arts or Science and are pursuing a course towards a Master's degree.

Undergraduates are students who have completed the requirements for admission and are candidates for a Bachelor's degree or for a degree in a professional course.

For details of admission to the professional courses, see pages 25, 26.

Special Students are those who have not fulfilled the requirements for admission. They may be admitted, with the consent of the instructor, to classes in which they appear able to profit. Those who intend to complete matriculation, must include the required elementary classes in the first year. When matriculation is complete, university classes that have been taken by special students in their first year at the university, will be recognized as credits towards a degree. This concession applies to the first year only.

Entrance Requirements

To be admitted to a regular course leading to a degree in Arts or Science or Commerce, a student must have credit for seven subjects of Junior Matriculation (see pp. 00-00) in (1) English, (2) Algebra, (3) Geometry, (4) a foreign language, (5) a second foreign language, (6) and (7) any two from History, Physics, Chemistry, Biology, Geology, Trigonometry, Latin, Greek, French, German, Spanish, Russian.

Note: Since two foreign languages are required for all degree students should arrange, if at all possible, to include the two required languages in their High School course. Otherwise it will be necessary to include in the first year an elementary class in a foreign language in addition to the regular courses for a degree.

For B.A.:

One matriculation language must be Latin or Greek.

For B.Sc.:

One matriculation language must be French or German, or Spanish.

Students looking forward to Honours or Graduate work should confine their choice to FRENCH and GERMAN.

For B.N.Sc.:

As for B.Sc.

For B.Com.:

One matriculation language must be French or German or Spanish.

For B.Mus.:

(1) English; (2) French; (3) German; (4) Algebra; (5) Geometry; (6) ^tMusic; (7) One other subject.

For information regarding the Course in Music see page 41.

For LL.B.:

Complete matriculation in Arts, Science or Commerce and the completion of ten regular classes in Arts, Science or Commerce.

For further information, see pages 110 ff.

For M.D.C.M.:

Complete matriculation in Arts or Science, and the completion of the following ten University classes: English I, History 20, Mathematics I, Chemistry 1, 2, and 4, Physics I, Biology I, and Zoology 2, and an elective. German 3 is recommended.

For further information, see pages 123ff.

For D.D.S.:

As for M.D.C.M., see pages 146ff.

For B.Sc. (Pharmacy):

As for B.A. or B.Sc.

For B.Ed.:

As for Diploma in Education, see page 26.

Diploma Courses

Matriculation requirements for the Diploma Courses are as follows:

Diplomas in Engineering:

(1) English; (2) A foreign language; (3) Algebra; (4) Geometry; (5) Physics or Chemistry; (6 and 7) Two other Matriculation subjects, e.g., History and Chemistry or Physics or a second foreign language.

For information regarding the course in Engineering, see pages 48 and 49, and time table inside back cover.

Diploma of Licentiate of Music:

(1) English; (2) †Music; (3) French or German*; (4) One other subject. See page 42.

Diploma in Pharmacy:

Complete matriculation in Arts or Science. See page 25.

Diploma in Education:

Candidates for admission to a course leading to a University Diploma in Education must have received the B.A. or B.Sc. degree from a college or university recognized by the Senate. Students holding a degree from a university not recognized by the Senate may take a course and, if successful, qualify for the diploma issued by the Nova Scotia Department of Education.

Diploma in Food Technology:

This course is taken in conjunction with a B.Sc. degree but requires one extra year. For further information see pages 45 and 46.

^{*}See page 25.

*Candidates looking forward beyond the Licentiate of Music Diploma should be careful to include German as one of the languages for matriculation.

Subjects of Matriculation

The Matriculation examinations will be held at the University from September 24 to 28, 1949. For the time table of the examinations, see page vi. Papers of three hours each will be offered on request in the following subjects:

English	Trigonometry	Spanish
History (British, Ancient or Modern)	Greek	Physics
Ancient or Modern)	Latin	Chemistry
Algebra	French	Biology
Geometry	German	†Music

Note: Students who, by reason of race or training, are fluent in another foreign language may offer it in place of one of those specified above.

Students who intend to write any of these examinations must apply to the Registrar's Office before September 17, 1949.

Application for examination at an outside centre should be made one month earlier, and permission will be granted only in exceptional circumstances. (See p. 64).

Requirements in Various Subjects

Candidates are expected to be prepared in the following requirements:

English.—Language: Grammar, analysis, parsing. Composition: Essays will be set on a variety of subjects, in which a wide choice will be offered. Other tests of composition, such as letters, paraphrases, and summaries, may be included in the paper. There are no prescribed texts, and candidates must understand that they will be judged chiefly on their ability to express themselves.

British History.—General outlines, as in Ontario High School *History of England*; or, Toul: *History of England, from the earliest times to the death of Queen Victoria*; or, Hansen: *Short History of England*.

Ancient History.—General outlines, as in Webster: *Ancient History*; or Myers: *A Short History of Ancient Times*.

Modern History.—Seary and Patterson: *The Story of Civilization* (as taught in Grade XI in the Schools of Nova Scotia).

Algebra.—Equations of the first and second degrees, indices, ratios and proportion, theory of quadratic equations, factor theorem, cards, permutations, combinations, as discussed in any high school algebra.

Geometry.—The straight line, triangles, quadrilaterals and pentagons in their relation to circles, the subject matter of the first four books of Euclid, as discussed in any high school geometry.

[†]See page 25.

Students from outside the Maritime Provinces who wish to offer subjects other than those listed above should communicate with the Office of the Registrar.

Trigonometry.—Up to and including formulae relating to the sum and difference of two angles; the solution of equations and of right-angled triangles, as in any elementary trigonometry.

Greek.—As under Latin.

The book prescribed is Xenophon: *Anabasis*, Book I (Ch. 1-8).

Latin.—The paper will contain: (1) passages for translation from prescribed books with questions arising out of those books; (2) easy passages for translation from books not prescribed; (3) questions on grammar, audience and elementary syntax; (4) translation of easy sentences from English into Latin.

The book prescribed is: Wedekin: Third Year Latin; pp. 1-24 (Cicero: *First Oration against Catiline*); pp. 213-238 (Selections from Ovid); pp. 185-196 (Miscellaneous).

Equivalent work will be accepted for Matriculation though not for Scholarships.

French.—As for Grade XI Provincial Examinations in Nova Scotia. Texts at present prescribed are: M. Dondor: *Modern French Course*, Lessons 31 to 60; Forrest: *French Poetry*, Selections 36 to 70; Manley: *Eight French Stories* (omitting the eighth story); Morneau: *Les Deux Soeurs*; Bernard: *L'Amiral et qu'en parle*. Equivalent work will be accepted.

Candidates will be expected to show a knowledge of the fundamentals of French grammar including the full conjugation of regular verbs and of the principal irregular verbs and of the use of the principal parts of speech. Ability to translate simple texts from French into English will be required.

German.—B. J. Von: *Essentials of German*, Lessons 14-26; Rosding from Kastner: *Einführung und die Deklination*; and A. Wilhelmine: *Einer Mutter Heiraten*, complete. Equivalent work will be accepted.

Spanish.—Hills and Ford: *First Spanish Course* (Heath) to the end of Lesson XXXVII; Haan and Macmillan: *Curas de Modernes* (Heath). Equivalent work will be accepted.

Chemistry.—The extent of knowledge expected is such as may be gained from standard Grade XI High School text.

Physics.—The examination is intended to be of Grade XI standard. It will be set from such a text book as *The Ontario High School Physics and Laboratory Manual*.

Biology.—General outline as in L. L. Woodruff: *Fundamentals of Biology* or the equivalent.

Music.—The standard in Music is that of a Senior Grade Certificate (Theoretical and Practical) from institutions named as Class "A" by the Department of Education of the Province of Nova Scotia, or from a recognized examining body conducting local centre examinations in Canada accepted by that Department.

Certificates Exempting from Examination

Satisfactory marks in any of the subjects listed above will be accepted as credit toward the entrance requirements if such marks are granted by any of the following examining bodies:

(a) Certificates of the Common Examining Board of the Maritime Provinces and Newfoundland.

(b) High School Provincial or "Accredited" School Certificates of Grades XI or XII of Nova Scotia, issued by the Department of Education of the Province of Nova Scotia.

The pass mark on Grade XI is 50%. Marks of 40% or over on Grade XII subjects may be counted as equivalent to passes in corresponding Grade XI subjects.

(c) Equivalent Certificates issued by Education Departments of other Provinces.

(d) Second Year Certificates issued by Prince of Wales College, Charlottetown, Prince Edward Island.

(e) Certificates of Matriculation Examinations taken at recognized Universities.

(f) Certificates similar to the above issued by University or other official examining bodies, when found adequate.

ADMISSION WITH ADVANCED STANDING

On Grade XII Certificates

Provided that a student has completed matriculation on Grade XI work or the equivalent, a mark of 50 per cent. or more in certain subjects of Grade XII examinations or the equivalent will give exemption from not more than five of the following University classes:

Greek 1, Latin 1, French 1, German 1, English 1,
History 1, Mathematics 1*.

The certificates to which these provisions apply are the following:

(a) High School or Accredited School Certificate** of Grade XII of Nova Scotia issued by the Department of Education;

(b) Third Year Certificate as issued by Prince of Wales College, Prince Edward Island;

(c) Certificate of the first year of Memorial University College, Newfoundland;

(d) Equivalent Senior Matriculation Certificates issued by Departments of Education of other Provinces, or approved by the Committee on Admission.

Students having credit for at least four of these classes will be given an opportunity to complete a course for a degree in three years, but it should be noted that only students of superior ability can do this. A candidate from Nova Scotia will be allowed supplemental examinations in the subjects required to complete five classes provided that the certificate shows a mark of at least 30 per cent in such subjects and that the candidate

*Grade XII Mathematics will not exempt student in Engineering from Mathematics.

**The standard required is 40 per cent. in each subject.

has credit for the corresponding matriculation subjects. No degree credit will be given for certificates obtained after a student has been registered in the University.

Admission ad Eundem Statum

Students from other Universities desiring to enter classes in this University may, on producing satisfactory certificates, be admitted with advanced standing and given credit for classes equivalent to those offered by Dalhousie University. Before proceeding to a degree they must have completed all required classes. No student shall be admitted to a degree in course in this University unless he has attended and passed in at least one year's work*** in the Faculty in question, and that the last year of the degree course.

Persons seeking admission *ad eundem statum*, in making application, must submit certificates of good character and standing, with duly certified statements of their Matriculation, and of the classes attended and passed, with the grades attained; and, if necessary, calendars of the institution from which they have come of such dates as to show the courses which they have followed.

Admission ad Eundem Gradum

A graduate of a University approved by the Senate, who has received his degree in course, may be admitted *ad eundem gradum* in this University on producing satisfactory evidence of good character and academic standing, and on payment of the required fee, provided that the applicant is pursuing a course of study or research in this University, or is associated with the academic work of the University.

***In the Faculty of Arts and Science "one year's work" is interpreted to mean at least five classes of college grade.

Faculty of Arts and Science

The Academic Year begins September 26, 1949, and ends May 16, 1950.

For General University Regulations
(V., p. 17, et seq.)

GENERAL FACULTY REGULATIONS

Admission to Classes

1. No Undergraduate shall be admitted to a class until he has satisfied the preliminary qualifications (see p. 25 et seq.).

2. The list of classes which a student may take should include all possible required classes, before any elective is added, but candidates for admission to Honour courses may have this rule modified on application to the Committee on Studies.

3. Five classes shall be regarded as constituting a normal year's work for a student in good standing.

4. Any student, who at the Christmas examinations has not shown reasonable proficiency, may, at the discretion of the Faculty, be required to discontinue attendance at the University for the remainder of the session. Fees will not be reimbursed to such students.

Class Work and Attendance

In order that their class work may be recognized as qualifying for a degree or diploma, candidates must conform to the following requirements:

1. All students are required to attend the classes of their prescribed courses regularly and punctually.

2. They must appear at all examinations, prepare such essays, exercises, reports, etc., as may be prescribed and, in case of a class involving field or laboratory work, complete such work satisfactorily.

3. In determining pass lists both the standing attained in prescribed class exercises and in field or laboratory work and that in the various examinations are taken into consideration. A candidate who fails to obtain a mark of at least 25 per cent on the work of the session in any class shall lose credit for attendance in such class.

4. When the work of a student becomes unsatisfactory or his attendance irregular he will be reported to the Committee on Studies who may require him to discontinue attendance in the class or classes concerned and to be excluded from the examinations.
5. A candidate taking classes in another Faculty as part of an affiliated course must conform to the regulations of that Faculty

Examinations

Sessional and Class Examinations

In all classes two examinations, at least, are held, the Christmas examinations at the end of the first term, immediately before the Christmas vacation, and the Spring examinations, after the close of lectures in the Spring. Other examinations in any class may be held at dates appointed by the instructor. The papers set at the Spring examination in any subject cover the work of the whole session in that subject, and not merely the work of the second term, and at least 25 per cent of the questions shall be set on the work covered before Christmas.

Class Lists

The names of candidates successful in the examinations are arranged in the published lists in three divisions: First Division 80-100; Second Division 65-79; Third Division 50-64.

Supplemental and Special Examinations

A student who fails to secure a position on the Pass List in a class, but who has otherwise fulfilled the requirements in class work stated on page 31, may be allowed the Supplemental examination in that class at the beginning of the next session of his attendance, on the day appointed in the University Almanac, provided that no student may write more than three supplemental examinations or an examination in any class in which he obtained a final mark below 25%. A student who fails to write or to pass the Supplemental examination can obtain credit for this class only by passing a Special* examination.

Supplemental or Special examinations in any class shall cover the whole work of the session in that class, and not merely the work of the first or second term.

*Students who have failed to pass in any class should carefully note that any examination taken subsequent to the Supplemental examination held in September of the next session of their attendance is a Special examination. The standard required to pass a Special examination is considerably higher than that required for other examinations.

Supplemental and Special examinations for registered students are held in September only.

A student wishing to appear as a candidate at a Supplemental or Special examination shall be required to give notice of his intention to the Secretary of the Committee on Studies and Attendance on or before August 15, the fee (see p. 64) to be remitted with the notice.

Degrees and Courses

Courses are prescribed leading to the degrees of Bachelor of Arts (B.A.), Master of Arts* (M.A.), Bachelor of Science (B.Sc.), Master of Sciences* (M.Sc.), Bachelor of Commerce (B.Com.), Bachelor of Music (B.Mus.), and Bachelor of Education (B.Ed.), and to the Diploma of Licentiate of Music (L.Mus.).

A course in Engineering, extending over three years, is prescribed for students who look forward to completing a course in Civil, Chemical, Mechanical, Electrical, Metallurgical or Mining Engineering at the Nova Scotia Technical College, or other technical institution. A diploma is given for successful completion of this course. The University provides courses required for the diplomas in Education, in Mining Geology, in Food Technology, and for the diploma in Pharmacy issued by the Maritime College of Pharmacy. (See p. 43).

The courses for the degrees of Bachelor of Arts and of Science extend over four years. Candidates for these degrees may either follow the corresponding Ordinary course, or, if they have obtained a sufficiently high standing in the work of the first two years, may in their third year enter upon a course leading to the degree of Bachelor of Arts or of Science with Honours. (See pp. 38-40).

The course of study for the degree of Bachelor of Science and for a diploma in Mining Geology extends over four years from Grade XII. (See pp. 38-37 and 45).

The degree of Bachelor of Science in Engineering Physics is granted on the successful completion of a five year course given in affiliation with the Nova Scotia Technical College.

The degree of Bachelor of Nursing Science is granted upon the completion of three years in the Faculty of Arts and Science with two summer courses intervening, and two years of training at the Victoria General Hospital, Halifax, or another hospital approved by the Senate.

The course of study for the degree of Bachelor of Commerce extends over four years. (See pp. 37-38).

The course of study for the diploma of Licentiate of Music extends over two years, and that for the degree of Bachelor of Music over four years. (See pp. 41-42).

*See separate Calendar, Faculty of Graduate Studies.

Ordinary Course for Bachelor of Arts

The Ordinary course of study prescribed for the degree of Bachelor of Arts consists of the following twenty classes:

- (i) Two classes in either Greek or Latin.
- (ii) One class in one, not already chosen, of the following languages: Greek, Latin, French, German, Spanish, Hebrew, Russian, Italian.
- (iii) Two classes in English.
- (iv) History 1, Mathematics 1.
- (v) One class in Physics, Chemistry, Geology, or Biology.
- (vi) Any two classes from: the second class of the language chosen in (ii) above; a second class in History, Economics 1, Political Science 1, Philosophy 1, Psychology 1, Mathematics 2, a Science Class.
- (vii) Seven classes which require a University class as prerequisite selected from not more than three of the following departments, and not more than seven such classes are included in any one department:
 - Botany (including Botany, Zoology, Histology, Embryology, and Physiology);
 - Chemistry (including Biochemistry);
 - Classics (including Greek and Latin);
 - Economics (including Sociology);
 - English Language and Literature (including Biblical Literature);
 - Geology;
 - History;
 - Mathematics;
 - Modern Languages (including French, German, Italian, Spanish and Russian);
 - Musics;
 - Philosophy (including Psychology);
 - Physics;
 - Political Science;
 - Psychology.
- (viii) Three elective classes.*

For details of classes in the above departments, see Classes of Instruction, page 67, et seq.

An Honour class may be taken as an elective by students who are not in an Honour course, if approved by the Department.

Lists of the classes chosen by students must be submitted to the Registrar's Office for approval not later than Wednesday, October 12, 1949.

* The Faculty strongly recommends that Philosophy 1, or Psychology 1, be included in the student's course.

All students contemplating entry to the teaching profession after graduation, are requested to consult the Professor of Education, concerning their programme of study, before registration.

Order of Classes

The following schedule in which the classes are arranged in years shows the order recommended for undergraduates; but students who intend to take one of the Affiliated Courses or to enter an Honour Course, or wish to be eligible for first or second year Scholarships, should consult the Registrar early in their course about the right order of classes for the purpose.

First Year

1. Greek 1 or Latin 1.
2. English 1.
3. Mathematics 1.
4. 5. Any two of: Another language, History 1, Physics 1 or 2, Chemistry 1, Geology 1, Biology 1.

Second Year

A normal second year consists of five classes* such that at the end of the year a student shall have completed not fewer than ten and not more than twelve of the classes required for the B.A. or B.Sc. degree; provided at the same time that at least nine of the required imperative classes be completed.

Note.—In those cases where a student is taking more than five classes, scholarship award shall be based on the standing reached in the best five classes, which must include any imperative subjects.

Third and Fourth Years

The remaining ten elective classes from the subjects specified on p. 34.

AFFILIATED COURSES

An Undergraduate looking forward to the study of Divinity, Law, Commerce or Medicine, may offer one of the following groups in place of the three electives of group viii above.

A. Divinity.—The classes in New Testament Greek and Hebrew conducted in Pine Hill Divinity Hall can be offered for the three electives referred to above by students intending to study Divinity there.

The class in New Testament Greek and two of the following three classes, Hebrew, Biblical Literature and Ecclesiastical History, conducted by the Divinity Faculty of King's College, can be offered for the three electives referred to above by students intending to study Divinity there.

B. Law.—The classes of the first year.

C. Commerce.—Four classes from the Department of Commerce.

Graduates who have passed in the classes of Group C may complete a subsequent Commerce course in this University in two years, or with the approval of the department and a proper selection of classes, in one year.

D. Medicine and Dentistry.—The classes of the first year.

*Students looking forward to securing a teacher's license should select Psychology.

Ordinary Course for Bachelor of Science

The Ordinary course of study prescribed for the degree of Bachelor of Science consists of the following twenty classes:

- (i) Two classes in English. Two classes in French or German, or Russian, or Spanish, or one in any two of them.
- (ii) One in each of the following: Mathematics, Physics, Chemistry, Geology or Biology.
- (iii) One class selected from the departments of English, Foreign Languages, History, Economics, Political Science, Philosophy and Psychology.
- (iv) Seven other classes, in not more than three of the departments of Science and Mathematics.
- (v) Four elective classes. Drawing 1 may be substituted for one of these classes, and any one of the affiliated groups* on page 37 may be substituted for any three.

Candidates taking at least four classes in Geology may offer Drawing 2 and Surveying 2 as two classes in this group.

Lists of the elective classes chosen by students must be submitted for approval not later than Wednesday, October 12, 1949.

Order of Classes

The following schedule in which the classes are arranged in years shows the order recommended for undergraduates; but students who intend to take one of the Affiliated Courses or to enter an Honour Course or wish to be eligible for first or second year Scholarships, should consult the Registrar early in their course about the right order of classes for the purpose.

First Year

1. English 1.
2. Mathematics 1.
3. French 1 or German 1.
4. Physics 1 or 2, or Chemistry 1, or Biology 1, or Geology 1.
5. A second Science class, or a second Foreign Language class.

*Students in Chemical Engineering may substitute two Engineering classes for one elective.

Second Year

1. English 2.
- 2 and 3. Two classes in Science or in Mathematics.
- 4 and 5. Two classes from the remaining imperatives which must include the Foreign Language imperative if such remains.

Third and Fourth Years

The remaining ten required classes and elective classes from the subjects specified above.

Affiliated Courses

- A. Engineering.—Drawing 2 and 3, Surveying 2, Mechanics 3 and 4.
- B. Medicine and Dentistry.—The classes of the first year.
- C. Pharmacy.—The classes in Pharmacy, Materia Medica and Dispensing given by the Maritime College of Pharmacy.

Course for Bachelor of Commerce*

The course of study prescribed for the degree of Bachelor of Commerce may be completed in four years and consists of the following twenty classes:

- (i) Two classes in English.
- (ii) History 1, Mathematics 1, a Science class, a class in a Modern Language.
- (iii) One class from the courses of instruction offered in the Faculty of Law.
- (iv) Economics 1, Economics 2 and Economics 9.
- (v) Commerce 1, Commerce 2 and Commerce 5.
- (vi) Seven other classes as directed by the Head of the Department of Commerce, selected mainly from the departments of Commerce, Economics and Mathematics.

Affiliated Courses

ARTS.—See page 35.

ENGINEERING.—An undergraduate looking forward to the study of Engineering should include English 1 under (i), Economics 1 under (iv), Chemistry 1 as the Science class under (ii), and Mathematics 2 and 34 among the classes selected under (vi) above. Such students are also reminded that in choosing their Arts elective they must include Commerce 5 and a foreign language.

LAW.—Students who have completed the first year of Law may count it as equivalent to three elective classes for the degree of Bachelor of Commerce, in which case a class in Arts or Commerce, approved by the Department, must be included instead of the class in Law required under (vi) above.

*See p. 37.

Order of Classes

Students looking forward to the study of Commerce should consult with the Head of the Department before registering for the first time in the University. They will be advised concerning the selection and order of classes. Admission to the classes of the third and fourth years will be conditional upon the completion, with a satisfactory record, of the work of the first two years. The following schedule shows the order recommended:

First year—English 1, Mathematics 1, Economics 1, French 1 or German 1 or Spanish 1, Commerce 5.

Second year—English 2, History 1, a Science Class, Commerce 1, one other class with Department's approval.

Third and Fourth years—The remaining compulsory and approved classes.

Honour Courses

Students of ability and ambition are urged to take a course leading to the Bachelor's degree with Honours. The course entails (a) a certain degree of concentration, (b) additional work in the subject chosen for Honours, (c) a higher quality of work than that for the ordinary Bachelor's degree. The following are the general rules for such a course:

1. A student may obtain Honours in four years from Grade XI if he spends all four years at the University. In certain departments, students who are well prepared may be allowed to obtain Honours in three years from Grade XII.

2. Honour students must be accepted by the department concerned. Their whole plan of study must be under the supervision of that department during the last two years of their course.

3. To obtain Honours, a student must:

- observe the rules for the ordinary B.A. or B.Sc. degree as laid down in the Calendar, (pp. 34, 36) except that in special cases, on recommendation of the department concerned, the Committee on Studies may allow the substitution of an advanced class in one of the sciences for the imperative in another.
- take at least five advanced classes prescribed by the department in which he is taking Honours;

- take two additional or special classes—one in the third year and one in the fourth year in the department in which he is doing his Honour work. (These classes shall be primarily for Honour students and may be given in any way that the department may decide). This means that twenty-two classes are needed for the B.A. degree with Honours;
- pass a comprehensive examination covering his Honour work at the end of his course;
- make an average of not less than 65 in all his Honour classes. (This includes the five advanced classes, the two additional classes and the comprehensive examination at the end).

4. In order to obtain *First Class Honours* a student must pass his Honour classes, as above in 3 (e), with an average of at least 80.

5. A degree with Honours may be obtained in the following departments:

Biology	Mathematics
Chemistry	Modern Languages
Classics	Philosophy
Economics	Physics
English Language and Literature	Political Science
Geology	Psychology
History	Public Administration

The following are special requirements for particular courses. None of these classes can be counted under 3 (b) above.

Biology. Preliminary Classes—Chemistry 1, Physics 1, Biology 1, Zoology 2 or Botany 2. French 1 and German 1 are recommended. An adequate knowledge of field conditions will be required. This may necessitate supervised work during the summer.

Chemistry. Preliminary Classes—Chemistry 1, 3 and 4, Physics 2, Mathematics 1 and 2. One class in German is recommended.

Classics. Preliminary Classes—Latin 1 and 2, or Greek 1 and 2.

Economics. Preliminary Classes—Economics 1, History 1. (Political Science 1 is recommended.)

English Language and Literature. Preliminary Classes—English 1 and 2 and preferably another class in English. Prospective Honour students in the second year of the regular course are advised to consult the Department concerning the election of classes that will provide a suitable foundation for the

Honour Course. Honour students should have or obtain a reading knowledge of German.

Geology. Preliminary Classes—Geology 1, Mathematics 2, Physics 1 or 2, Chemistry 1 and 2, Drawing 1 and 2, Surveying 1 and 2. Women students need take only Surveying 1, but will be required to take some field surveying around the campus. Students wishing to specialize in Palaeontology must take Biology 1.

History. Preliminary Classes—History 1, Economics 1. (Political Science 1 is recommended.)

Mathematics. Preliminary Classes—Mathematics 1, 2, Physics 2, 3. This may necessitate taking some of the imperative classes in the third year. All prospective Honour students ought to consult the department as early as possible in their course.

Modern Languages. Preliminary Classes—the first two years of two modern foreign languages. This will necessitate taking some of the imperative classes for the B.A. degree in the third year. All prospective Honour students ought to consult the department as early as possible in their course. If a student wishes to take Honours in German he must take Philosophy 1.

Philosophy. Preliminary Class—Philosophy 1.

Physics. Preliminary Classes—Physics 2 and 3, Mathematics 1 and 2, Chemistry 1 and 2 or 4. A class in French and German should be included.

Political Science. Preliminary Classes—Political Science 1, History 1. (Economics 1 is recommended.)

Psychology. Preliminary Class—Psychology 1.

Public Administration. Preliminary Classes—History 1 and either Political Science 1 or Economics 1.

The Honour Course in Public Administration is designed for two purposes: (1) To meet the needs of those students who are contemplating careers in the public service (federal, provincial or municipal), or vocations, such as journalism, which are largely concerned with public affairs; and (2) Education for citizenship in a modern democracy such as Canada.

The course will include classes from the related fields of History, Economics, Law and Political Science, as well as some special work in public administration.

Those interested should consult the Instructor in Public Administration.

OTHER COURSES

Course for Bachelor of Music

The course for the degree of Bachelor of Music may be completed in four years.

Candidates for the degree may be students of the piano-forte, organ, violin or voice.

The examinations in theory are the same for candidates in all branches of music.

First Year

1. Harmony in not more than four parts.
2. Analysis of Form.
3. Strict Counterpoint in two and three parts.
4. History of Music.
5. Practical Music.
6. English I.
7. French I.

Second Year

1. Harmony in not more than four parts, including writing for strings.
2. Strict Counterpoint in not more than four parts: Fugue (subject answer and counter subject).
3. History of Music.
4. Practical Music.
5. English II.
6. German I.

Third Year

1. Harmony in not more than five parts, including writing for strings.
2. Counterpoint in not more than five parts (Simple and Combined).
3. Double Counterpoint at the octave and fifteenth; Canon and Imitation in two parts; Fugue as far as Exposition.
4. Orchestration, elementary and Form.
5. Acoustics.
6. *Practical Music.

*Practical music may be completed either in the third or fourth year.

Fourth Year

1. Double Counterpoint; Canon and Imitation; Fugue is not more than four parts.
2. Form, including Analysis of at least two Full Scores of different type.
3. Orchestration.
4. Three Exercises composed by the candidate:
 - (a) A solo song with pianoforte accompaniment.
 - (b) A four-part vocal composition.
 - (c) An instrumental composition (other than a dance) for pianoforte, organ or a stringed or wind instrument with pianoforte accompaniment.

The Practical Tests are held only at the time of the corresponding examinations, and an application for examinations is considered as an application for the practical tests also.

The University provides instruction in English, French, German and Acoustics. Instruction in the professional subjects may be obtained at the Halifax Conservatory of Music, or other institutions recognized for this purpose by the Senate.

Owing to the affiliation of the Halifax Conservatory of Music with the University, the work and examinations in Theory and Practical Music taught at that institution will be accepted on the degree course.

Diploma of Licentiate of Music

The Diploma of Licentiate of Music in Pianoforte, or Organ or Violin or Voice will be granted to candidates who complete two years of the course for the degree of Bachelor of Music by passing the examinations and practical tests of the first and second years.

General Regulations for Courses in Music

Candidates presenting certificates from recognized institutions showing that they have completed satisfactorily the work, or the equivalent, of the first year at this University, may receive exemption from corresponding examinations and practical tests of that year.

Candidates for any examination must make application to the Secretary of the Faculty of Arts and Science not later than March 31, the application being accompanied by the proper fee (see p. 64) and by certificates of having attended approved courses of instruction in the professional subjects of the examinations and of having satisfactorily completed the work of such courses.

Courses in Pharmacy**Degree Course**

Students of Pharmacy may obtain the degree of B.Sc. (Pharmacy) by taking certain required classes in the Faculty of Arts and Science in addition to the classes in the purely professional subjects. (See p. 36). The Degree Course is particularly desirable for students preparing themselves for specialized pharmaceutical work or for post-graduate study.

Other Pharmacy Courses

The Maritime College of Pharmacy, with the co-operation of the University, offers two other courses in Pharmacy, an Elementary Course which is prerequisite to all other Pharmacy courses, and a Diploma Course. These courses are carried on in the University buildings and the students are subject to University regulations and discipline.

The Elementary Pharmacy Course also prepares the student for the Certified Clerks' Examinations of the New Brunswick and Nova Scotia Pharmaceutical Societies. This Course begins the first week in September, 1949.

The Diploma Course begins on Thursday, September 29, 1949, and ends with the University session. The matriculation requirements are the same as those for the B.A. or B.Sc. degree, including Latin. (See p. 7)

This course, which covers a minimum of two years and includes Chemistry, Physics, Biology, Materia Medica, Pharmacy, Prescriptions and Dispensing, leads to a Diploma in Pharmacy which is prerequisite to admission to the final licensing examination of the Pharmaceutical Societies and Associations of the Maritime Provinces.

For the calendar of the College and for all information, address the Maritime College of Pharmacy, Medical Sciences Building, College Street, Halifax, N. S.

Diploma in Education

Candidates for admission to the course leading to a Diploma in Education must have received the B.A. or B.Sc. degree from a College or University recognized by the Senate for the purpose.

By arrangement with the Nova Scotia Department of Education, graduates in Arts or Science who have completed the course leading to a Diploma in Education subsequent to receiving their degree in Arts or Science may receive a permanent High School Class Licensee to teach in any public school in Nova Scotia. This course, or its equivalent at another College or University recognized by the Provincial Department of Education, must be satisfactorily completed by any university graduate who wishes to teach in the public schools of Nova Scotia, and qualifies him for a position in any high school receiving government grants. Mastery of the content of this course is a necessary step toward securing the Academic Licence.

The following are the requirements for the award of a High School Class Licence to college or university graduates:

1. Full age of twenty years and certificate of moral character from a Minister of Religion or two Justices of the Peace.
2. A degree of B.A. or B.Sc. from a recognized University.
3. A High School Rank Teacher Training Course Diploma obtained in a full year of study following the receipt of the university degree.
4. The prescribed Physical Training Certificate.

Graduates with a degree as in (2) but who are awarded a University Teacher Training Course Diploma of the First Rank may be awarded a Teacher's Licence of the First Class and a High School Class Licence after one year of successful teaching as certified by an Inspector.

The First Rank Diploma is awarded to students who satisfy the examiners in the theoretical part but not in the practical part of the Diploma examination.

The required subjects for the High School Rank Diploma are the classes Education 1, 2, 3 and 4, together with at least one in an academic subject, which must be Psychology 1 if not already taken. Education 1 is the only class in Education for which undergraduates are permitted to register. Students who have secured credit for Education 1 in their undergraduate study must complete the equivalent of five full classes during their post-graduate year. Of these, three will be classes in Education, one an academic class, and one a second academic class, or, in the discretion of the Professor of Education, the completion of a piece of practical work in education. If a piece of

practical work is undertaken, full arrangements must be made with the Professor of Education before the beginning of the Autumn Term.

Degree of Bachelor of Education

Students who, after securing the Diploma in Education, have satisfactorily completed one year of teaching, and have submitted an acceptable thesis to the Professor of Education, may be awarded the degree of Bachelor of Education.

The candidate must be admitted and the subject of the thesis approved at least twelve months before the candidate presents himself for the degree.

Further information may be obtained from the Registrar or the Professor of Education.

Course in Mining Geology

The course in Mining Geology is designed to train those who desire to become mining geologists. It leads to the degree of Bachelor of Science and a Diploma in Mining Geology. The course is based on the fundamentals of Engineering with the maximum amount of Geology and Chemistry which time allows.

Those who wish to take the course will enter with Grade XII (the equivalent of five University classes), or the first year at the University.

The time-table for this prescribed course may be obtained from the Head of the Department or the Registrar's Office.

Course in Food Technology

The University, in cooperation with the Nova Scotia Technical College and the Fisheries Research Board, offers a five year course leading to the degree of Bachelor of Science with a Diploma in Food Technology. Graduates should be qualified to take up work in various branches of the food processing industry. The course is so arranged that students who have completed two of three years of general science can, in most cases, satisfy the requirements for the B.Sc. in Food Technology in three additional years. In addition to the classes listed below, the student must spend two summers, ordinarily those following the third and fourth years, gaining experience in a food plant. Summer projects require the approval of the Committee on Studies. The curriculum is as follows:

A. Required Classes

- (i) Two classes in English. Two classes in French or German, or one class in each.
- (ii) Mathematics 1 and 2.
- (iii) Physics 1 or 2, and 3.
- (iv) Chemistry 1, 2 or 3, and 4.
- (v) Biology 1.
- (vi) Biochemistry 1A and 4.
- (vii) Drawing 1, Mechanics 3 and 4.
- (viii) Bacteriology (at Fisheries Station).
- (ix) Thermodynamics 354 and 355 (at Nova Scotia Technical College), or Physics 5.7 (at Dalhousie).
- (x) One Elective selected from the departments of English, Foreign Languages, History, Economics, Political Science and Philosophy.

B. Six of the following classes or groups of classes, selection of which must be approved by the Committee on Studies.

Dalhousie Classes:

- (xi) Botany 3 or Zoology 2.
- (xii) Chemistry 7 or Biochemistry 2.
- (xiii) Another class in Science or Mathematics.

Nova Scotia Technical College Classes:

- (xiv) Electrical Engineering Practice and Laboratory 218, 219, 256 and 257.
- (xv) Strength of Materials and Elements of Structures 102, 103 and 105.
- (xvi) Machine Design Theory and Machine Shop 330, 331, 332 and 342.
- (xvii) Steam Power Plants and Heat Engines 303 and 367.
- (xviii) Heating and Ventilation 322 and 323.
- (xix) Physical Chemistry 701 and 702.

Course for Bachelor of Science in Engineering Physics

The University, in co-operation with the Nova Scotia Technical College, offers a five year course leading to the degree of Bachelor of Science in Engineering Physics. This course is designed to afford a greater training in Physics and Mathematics than is usual in the ordinary Engineering course. It gives a wider and more thorough acquaintance with these sciences and also provides some specialization in one or other of different fields, such as Communications, Geophysics, Illumination Engineering, etc. Graduates should be qualified for appointments to provincial, federal and industrial organizations in which there is a demand for men who have had training in Applied Physics.

The course is so arranged that students who have completed three years of work in Physics, Mathematics and pre-Engineering subjects will then spend two additional years in certain advanced classes in Physics together with selected Engineering subjects given at the Nova Scotia Technical College. The curriculum is as follows:

First Year—Chemistry 1, Mathematics 1, English 1, Drawing 1, Physics 2, Surveying 1, French 1.

Second Year—Chemistry 2, Mathematics 2, English 2, Economics 1, Geology 1, Physics 3.

Third Year—Mathematics 3, French 2 or German 3, Mathematics 4, Physics 4, Physics 14, Mechanics 3.

Fourth Year—Physics 5.7 or 7.10 or 7.9, Physics 6, a class in Physics or Mathematics, Electrical Machinery and Laboratory (N.S.T.C.), Engineering Thermodynamics (N.S.T.C.).

Fifth Year—

1. Physics 5.7 or 7.10 or 9.10.

2. AC Machinery and Laboratory (N.S.T.C.).

3, 4 and 5. Either 2 classes in Physics or Mathematics and one class at Nova Scotia Technical College,
OR 1 class in Physics or Mathematics and 2 classes at Nova Scotia Technical College.

A student who wishes to change from the B.Sc. course in Engineering Physics to the regular Engineering Diploma course, may do so at the end of his second year providing that he takes in the third year Drawing 2, Drawing 3, Surveying 2, Mathematics 34 and Mechanics 2, 4 and 5, in place of French 2, Physics 4, Mathematics 3, Mathematics 4 and Physics 14.

Course for Bachelor of Nursing Science

This course is designed for students looking forward to a career in Nursing. It includes all the imperative subjects and five additional classes of the ordinary course leading to the degree of Bachelor of Science. Between the first and second, and the second and third years, summer courses in Nursing will be given. On completion of three years the student may finish the work for the ordinary Science degree in one year, or enter a hospital approved by the Senate for two years of Nursing instruction to complete requirements for the degree in Nursing. Prospective students should write the Registrar for a special pamphlet giving this course in detail.

Course in Graduate Nursing

Graduate registered nurses who have completed matriculation requirements for a diploma course may register. On completion of a course of one year's duration a diploma will be granted in either Public Health Nursing or in Nursing Education, depending upon the course elected by the candidate. Nurses interested should write the Registrar for a special pamphlet outlining the course in detail.

Uniform Course in Engineering

This course is intended for students who look forward to taking a degree in Chemical, Civil, Electrical, Mechanical, Metallurgical or Mining Engineering. It covers the requirements prescribed for admission to the courses for a degree in Engineering from the Nova Scotia Technical College, or to entrance into the third year of other engineering institutions.* A Diploma is given for successful completion of the course.

For admission see Matriculation requirements, page 26.

The course is one requiring three years, namely:

First Year—English 1A, Mathematics 1, Chemistry 1, Drawing 1, Surveying 1, Mathematics Problems, an elective selected from the Humanities and Social Sciences. Commerce 5 is strongly recommended. This elective may be taken in the second year of the course.

Second Year—English 1 or 2, Mathematics 2, Physics 2, Drawing 2, Surveying 2, Chemistry 2 or 3**, Commerce 5, chosen as the elective.

*Students planning to complete their course at some college other than the Nova Scotia Technical College are to consult the Department of Engineering before drawing up their course. **Chemistry 3 is required for all students in Chemical or Metallurgical Engineering. Such students are urged to register in at least one additional Chemistry class, if they intend to take a fourth year at the University.

Third Year—Mathematics 34, Physics 3, Mechanics 2, 3, 4, 5, Drawing 3, Geology 1.†

Surveying Camp, of three weeks' duration, held in September, must be attended by all students who contemplate taking Surveying 2 during the following session.

Industrial or engineering experience of a practical nature for a total period of from three to six months is required by the Nova Scotia Technical College before the granting of a degree. This experience must be related to or associated with the branch of engineering which the student is pursuing in college. Machine shop practice at the Technical College is not considered as equivalent to any portion of the period of practical experience required.

Engineering students may obtain the degree of B.Sc. by taking certain Arts classes in addition to those specified above, see p. 36.

Faculty of Graduate Studies

Students looking forward to courses leading to the degrees of Master of Arts or Master of Science should apply for information and necessary forms of application to the Acting Secretary of the Faculty, Professor J. G. Adshead, Dalhousie University, Halifax, N. S.

Students in Chemical or Metallurgical Engineering are required to take Geology 2 in place of Geology 1. In special cases Biology 3 may be substituted.

SCHOLARSHIPS AND PRIZES

Scholarships are awarded strictly on merit.

The annual payment of any Scholarship or Bursary, when not otherwise stated, is made in two instalments, on October 15 and February 1, the latter payment being conditional on satisfactory progress.

Any Scholarship winner, who can afford to do so, is invited to resign all or part of the financial emoluments. He will still be styled the winner of the Scholarship during its tenure. This arrangement increases the value of the Scholarships Funds, as it would enable other students of scholarly attainments to attend the University.

OPEN TO STUDENTS IN ARTS AND SCIENCE ENTRANCE SCHOLARSHIPS

(To qualify for a scholarship, candidates must have complete matriculation for Arts or Science.)

1. Twenty-four scholarships, each of a maximum value of \$150. (\$150 per year) will be offered to properly qualified students who enter the University in 1949.
2. Selection of scholars shall be made on the following bases:
 - (a) The record of marks made in the Grade X quarterly and final examinations and the quarterly examinations of Grade XI which are available; in the case of Grade XIII students on the Grade XI certificate and the quarterly examinations during the Grade XII course. Candidates from a Junior College should submit an official transcript of their record.
 - (b) A letter of recommendation from the Principal of the school or college.
3. In order to hold a scholarship:
 - (a) Candidates must in the same year in which the selection is made, produce a complete matriculation certificate, which must show an average of 65% in the seven required subjects with no mark below 50%. (For matriculation requirements, see p. 3)
 - (b) All scholars shall register for the degree of B.A., B.Sc., or B.Com. in October, 1949.
 - (c) Scholarships shall be relinquished if the holder fails to achieve scholarship standing in the university classes taken in any year.

Applications must be made on the proper forms which can be obtained from the Principal of the High Schools, or from the Registrar, Dalhousie University, and are to be returned to the Registrar before May 13, 1950.

Full information regarding these scholarships may be obtained from the Registrar, Dalhousie University.

The following funds are among those available for Entrance Scholarships. Included in those awarded will be certain scholarships bearing the names of the funds from which they are drawn:

The O.E. Smith Trust.—Certain of the revenues derived by the University from the above fund have been set aside for scholarships.

Howard Murray Fund.—In 1941 the balance of the estate of the late Howard Murray, Professor of Classics, 1894-1939, consisting at that time of \$12,857, was left to the University for the benefit of the Department of Classics.

The Sir William Young Fund.—This fund was left by Sir William Young for the purpose of endowing Scholarships, and amounts to \$4,000.

The Mackenzie Bursary Fund.—Mrs. Harriet Mackenzie Morrison, of Stornoway, Scotland, daughter of Rev. Kenneth Mackenzie, of Pictou County, bequeathed £1,000 to the University in 1887 to be used as a Bursary Fund.

In the awarding of this scholarship, candidates of the name of Mackenzie, MacLean or Fraser will be given the preference.

The George H. Campbell Memorial Scholarships Fund.—In 1917 Mr. and Mrs. George S. Campbell gave the University the sum of \$25,000 to commemorate their only son, George Henderson Campbell, B.A., '15, who enlisted for overseas service during his senior year, and was killed while on duty at the front.

The Robert Bruce Fund.—The University receives one-seventh of the income from a bequest of \$37,500 by Robert Bruce of Quebec, to be used for Scholarships and Bursaries.

The Hector McInnes Memorial Scholarship Fund.—During the last year of his life, the late Hector McInnes was given \$10,000 by an anonymous donor to whom he had been describing the Dalhousie Entrance Scholarships. The money was to be used for that purpose.

After Mr. McInnes' death, in December, 1917, the same anonymous donor gave the University \$50,000 as a memorial to Mr. McInnes. The \$50,000 was invested as an endowment for this purpose, as was also the unexpended balance of the original \$10,000.

Arndale Chapter I.O.D.E. Bursary.—The Arndale Chapter of the I.O.D.E. offer a Bursary to be awarded to a candidate of sufficient ability entering the University for the first time from the Arndale district.

Merton R. Heinrich Memorial Scholarship.—This Scholarship of annual value of \$50 is offered in memory of Merton R. Heinrich, who lost his life while serving in the R.C.A.F. It is tenable by a student of the Queen Elizabeth High School, Halifax. Full information may be obtained from the Principal of the School, or from the Registrar, Dalhousie University.

Pictou Academy Scholarship.—In recognition of the common origin and close relation existing between Dalhousie University and Pictou Academy, the University, in 1917, on the occasion of the hundredth anniversary of the Academy, established a Scholarship of the value of \$100 to be held during the first year of attendance at this University by the winner of an Academy Scholarship recommended by the Academy for this purpose. If such person stands also highest among the Academy students in the Grade XII examinations, the scholarship will be increased to \$200.

Provincial Normal College Scholarship.—A Scholarship of the value of \$75 annually is available for award by the Faculty to a graduate of the Provincial Normal College of Nova Scotia recommended by the Principal.

Prince of Wales College Scholarship.—A Scholarship of \$200 annually has been established to be given to the student who stands highest in the fourth year examinations of Prince of Wales College, Charlottetown, and who enters the Faculty of Arts and Science of this University.

Memorial University College Scholarship.—A Scholarship of \$200 annually has been established to be given to the student who stands highest in the second year examinations of the Memorial University College, Newfoundland, and who enters the Faculty of Arts and Science of this University.

The I. C. Stewart Fund.—Under the will of the late Mr. I. C. Stewart of Halifax, funds have been made available "to establish an annual scholarship to be awarded to a boy or girl born and resident in the district of St. Mary's in the County of Guysborough, Nova Scotia, in order that he or she may attend Dalhousie University for the purpose of receiving a college education." "In considering applications for such scholarship, regard shall be had to the moral worthiness and strength of character of applicants as well as to their high academic qualifications." Applications from qualified students may be sent to the Registrar.

"In the awarding of this scholarship preference will be given to the students of Scotch extraction."

The Ross Miller Bursary.—Under the will of Dr. Ross Miller the sum of \$10,000 was bequeathed to the Board of Governors in trust to set up a bursary to be awarded annually at the spring Convocation. It is stipulated that "other things being equal the recipient shall be an Undergraduate in Arts or Letters who is qualifying himself for the Ministry of the Presbyterian Church in Canada by taking the Arts or Letters degree at Dalhousie." The Synod of the Presbyteries Church in the Maritime Provinces will present the names of candidates to the Board of Governors, and the necessary scholastic requirements will be decided either at the matriculation examinations or by ability as shown by the sessional examinations.

Cape Breton Hebrew Scholarship.—The sum of \$100 is contributed by the Hebrew community of the Sydney District, Cape Breton, towards the scholarship fund.

The Dalhousie Club of New York Scholarships.—A fund for this purpose, established by the Dalhousie Club of New York and placed in the hands of the Board of Governors of the University, endows a scholarship available to students entering this University in the Faculty of Arts and Science from the public schools of Nova Scotia, New Brunswick, Prince Edward Island, and Newfoundland. The scholarship, of a value of \$200 or more a year, is awarded primarily "upon the public school or entrance standing of the student," and is subject to renewal for the same candidate from year to year at the discretion of the Senate.

The I.O.D.E. Bursary.—As part of a War Memorial the I.O.D.E. offers annually, one in each province of Canada, a bursary for four years study in Canadian universities. For these bursaries, only the sons and daughters of deceased or permanently disabled men and women of the services (Army, Navy, Air Force) are eligible. The bursary shall be awarded to a candidate who meets the entrance requirements of the University of his or her choice. The bursary is of the value of \$1,000, i.e. \$400 a year for four years, provided that the holder passes the examinations of each year in the spring, or at latest, in the autumn of the same year. For further particulars communicate with the I.O.D.E. Provincial Educational Secretary, Mrs. G. D. Anderson, 17 Cosmothea Avenue, Halifax, N. S.

The Pi Beta Phi Fraternity Scholarship.—The Pi Beta Phi Fraternity offers a scholarship of the value of \$50, for the session 1949-50, to a woman student entering a university for the first time. Award will be based on scholarship, character and need.

First Year Scholarships and Prizes

These Scholarships are three in number, as follows:

I George H. Campbell Memorial Scholarship, of	\$200
II Mackenzie Scholarship, of	100
III Bruce Scholarship of \$50, tenable for three years.....	255

They are open only to Undergraduates who are just completing the first year of the course in Arts or Science, and who receive bonds for a year (except the Bruce Scholarship), the latter payment being conditional on the scholar having made satisfactory progress in his classes. They are awarded on the results of the Sessional Examination returns in courses recommended for first year students (see pages 35-36).

In case a sufficient number of qualified candidates is not eligible for these Scholarships, they may be awarded to other students who are of sufficient merit.

*In the awarding of this scholarship, candidates of the name of Mackenzie, MacLean or Fraser will be given the preference.

**In the awarding of this scholarship, preference will be given to students of Scottish extraction.

See page 32.

Second Year Scholarships and Prizes

The Allan Pollock Scholarship.—This Scholarship was instituted by the North British Society of Halifax, in memory of the Rev. Dr. Allan Pollock, and is of the value of \$200 and will be awarded annually, without restriction as to age or nationality, to the student attaining the highest standing in the five classes which constitute the "normal" second year course in Arts or Sciences. This Scholarship cannot be held along with the N.B.S. Centennial Bursary, or the Jotham Blanchard Bursary. It will be tenable in the third year of the Arts course.

The North British Society Centennial Bursary.***—A Bursary of the annual value of \$100, founded by the North British Society of Halifax, will be awarded biennially. Candidates must be undergraduates in a course in Arts or Sciences who are first coming to two years of residence, and must satisfy the test of racial eligibility for membership in the North British Society. The Bursary will be awarded to the candidate standing highest in the examinations in any five classes which constitute a "normal" second year course in Arts or Science. It is tenable for two years, namely, during the third and fourth years of residence. The next award will be made in May, 1930.

The Jotham Blanchard Bursary.*—This Bursary, being the interest of an endowment of \$1,000, founded by the New Glasgow Literary and Historical Society in memory of Jotham Blanchard, an honoured name in the annals of Pictou County, will be awarded biennially on the same academic conditions as the North British Society Centennial Bursary. It is tenable during two years, namely, during the third and fourth years of residence. The next award will be made in May, 1931.

The Bruce Bursary.—A Bursary of \$100 tenable during the third year of the Arts and Science course will be awarded to a student "of promising abilities but of straitened circumstances."

The Marion S. Morrow Chapter I.O.D.E. Scholarship (English) awarded to a student, recommended by the Department, whose work in English is deserving of special recognition.

The Howard Murray Scholarship in Latin.—This is of the value of \$100 and is awarded annually to the student standing highest in Latin 2 (provided that his stand is sufficiently high in the opinion of the Department of Classics), who proceeds to take at least one further Latin class in the following year. Preference will be given, if other things are equal, to the student taking two such Latin classes. It is awarded at the commencement of the regular third year. It cannot be held along with the Howard Murray Prize in Classics.

The Howard Murray Scholarship in Greek.—This is of the value of \$100 and is awarded annually to the student taking highest standing in a regular third year class in Greek (i.e. Greek 1 or 2), (provided that his stand is sufficiently high in the opinion of the Department of Classics), who proceeds to take at least one further Greek class in the following year. Preference will be given, if other things are equal, to the student taking two such Greek classes. It is awarded at the commencement of the regular third year. It cannot be held along with the Howard Murray Prize in Classics.

* See page 22.

** To hold the scholarship for more than one year the student must have made an average of sixty-five per cent in the classes taken in the preceding year.

* To hold the scholarship for more than one year the student must have made an average of sixty-five per cent in the classes taken in the preceding year.

*** For students who have been admitted by certificate to the second year read "one" for "two".

SCHOLARSHIPS AND PRIZES

The Howard Murray Prize in Classics.—This is of the value of \$250 and is awarded annually to the student of the highest standing who is admitted to an Honour Course in the Department of Classics at the commencement of the regular third year.

The O. E. Smith Scholarship.—This Scholarship of \$250 (\$125 annually for two years) is awarded to the best student entering on the Honours Course in Modern Languages, at the end of the second year.

Third Year Scholarships and Prizes

The Khaki University Scholarships.—From the Khaki University and Young Men's Christian Association Scholarship Fund, amounting to \$1,500, which was received from the trustees of the Khaki University Scholarships of the value of \$100 each, two in number, will be awarded, usually to third year students in Arts and Science, so to be held during their fourth year. The award is based on scholastic attainments but preference is given to children of men and women who served overseas.

The Hugh Graeme Fraser Memorial Prize in Advanced Chemistry.—This Award was founded by members of the Class of 1931 upon their graduation, with their graduate gifts to the University and in order to perpetuate the memory of their brilliant and highly respected teacher, Mr. Hugh Graeme Fraser, who lost his life while engaged in laboratory work in the final year of his Honour Course. The interest on a sum of money, presented by his class for this purpose, will be awarded annually, to the student who, at the end of the third year, has, in the opinion of the Department, shown such aptitude for Chemistry as to merit the award, which is tenable in the final year of the undergraduate course.

The H.M.S. "Good Hope" Chapter I.O.D.E. has offered a scholarship to be awarded to a student, preferably in the third year, whose work is deserving of special recognition.

The Howard Murray Scholarship in Latin.—This is of the value of \$100 and is awarded annually to the student standing highest in Latin 3 or 4 or other third year Latin class or classes (provided that his stand is sufficiently high in the opinion of the Department of Classics), who takes at least one further Latin class in the following year. Preference will be given, if other things are equal, to the student taking two such Latin classes. It is awarded at the commencement of the regular fourth year. It cannot be held along with the Howard Murray Prize in Classics.

The Howard Murray Scholarship in Greek.—This is of the value of \$100 and is awarded annually to the student standing highest in a regular third year class in Greek (i.e. Greek 2 or 3 or 4 or other third year Greek class or classes), who takes at least one further Greek class in the following year (provided that his stand is sufficiently high in the opinion of the Department of Classics). Preference will be given, if other things are equal, to the student taking two such Greek classes. It is awarded at the commencement of the regular fourth year. It cannot be held along with the Howard Murray Prize in Classics.

The Howard Murray Prize in Classics.—This is of the value of \$200 and is awarded annually to the student with the highest standing who has successfully completed one year of an Honour Course in the Department of Classics and is entering his last year of such an Honour Course.

The O. E. Smith Scholarship.—This Scholarship of \$500 is awarded to the student with the highest standing at the end of the first year of the Honour Course in Modern Languages to enable that student to study modern languages in Europe during the succeeding long vacation.

Third and Fourth Year Scholarships and Prizes

Public Administration.—Two scholarships of \$200 each are available to students in the last two years of the Honour Course in Public Administration.

The Archibald MacMechan Scholarship in English.—In 1939 the Archibald MacMechan Chapter of the I.O.D.E. offered the University a Scholarship from the interest on funds contributed by former students in memory of Dr. Archibald MacMechan (1862-1933), Head of the Department of English from 1889 to 1932. A capital sum was placed in the hands of the University in December, 1948, to permanently endow the scholarship, which will have an annual value of approximately \$200.

The scholarship is intended for students who have shown special ability in English and who are looking forward to further study in the field. Provided that suitable candidates offer, preference will be given to graduating students who are looking forward to the Master's degree in English.

Applications will be received by the Head of the Department of English before April 1 in any year.

The Dr. A. Stanley Mackenzie Scholarship in Physics.—This scholarship will be awarded, on recommendation of the Department of physics, to the most promising student who has completed Physics 1 or 2, Physics 3, Mathematics 1 and 2, and who intends to specialize in Physics in the third and fourth years of his course. Preference will be given to those students entering the Honours Course in Physics.

Other Undergraduate Scholarships and Prizes

The Waverley Prize.—This prize, being the interest of an endowment of \$1,000 for that purpose, will be awarded annually to the student standing highest in Mathematics 2.

The Katharine Buttershaw Prize.—This prize, being the interest of an endowment of \$1,000 for that purpose, will be awarded annually to the student standing highest in the advanced Mathematics classes.

The Ross Stewart Smith Scholarship.—This scholarship, of the value of \$30, contributed by Mrs. Eliza Cochrane Smith in furtherance of the wishes of herself and her late husband, Dr. James Ross Smith, as a memorial to their late son, Ross Stewart Smith, will be awarded to the student whose record in advanced classes shows the most distinct evidence of aptitude for scientific study, and who will remain an undergraduate at the University for the ensuing year.

The James L. Hall Book Prize in Geology.—This prize, of the annual value of \$15, contributed by Mrs. James L. Hall in memory of her husband who was a student at Dalhousie University in the years 1919-21, is awarded to the student who has completed the second year of the Engineering course with the highest standing. In order to receive this prize a student must register for one class in Geology in the third year of his course.

The Physics Scholarship Fund.—An anonymous donor has started a fund to be used to provide scholarships for advanced students in Physics. The awards shall be made on recommendation of the Head of the Department of Physics. The number and size of the scholarships may vary from year to year at the discretion of the Department of Physics.

Application must be made in writing to reach the Head of the Department of Physics before March 1 of any year.

The Sarah M. Lawson Scholarship in Botany.—This scholarship of approximately \$350 is offered annually to students who have shown special ability in Botany and intend to continue at Dalhousie with further study in the field. Preference will be given to graduating students who are

looking forward to the Master's degree or to those entering the final year of an Honour Course. Applications will be received by the Head of the Department of Biology before April 1.

The John Hamilton Barrett Prize is the gift of his widow, Mrs. Marjorie Barrett. It is offered annually at the end of the fourth year of the course to the student—being a son of a veteran who served in the Second World War or who himself served in the same war—who has shown exceptional ability in Chemistry or some other science.

I.O.D.E. Scholarships.—Through the generosity of various chapters of the I.O.D.E. scholarships awarded by the chapters have enabled students to enter the University or to continue their courses. Chapters whose awards have been made in consultation with the University include; Bedford, Sir Samuel Cunard, Robin Hood, John Stewart, Marion S. Morrow and Evangeline.

The Walter P. Copp Memorial Prize, from a grant made to the University by the Halifax South Civic Improvement Association, will be awarded to the student in Engineering, taking the regular three-year course, who has the highest average in two English classes, French 1 and Economics 1 or equivalent classes. A prize of \$50 will be offered for the sessions 1947-48, 1948-49, and 1949-50.

Honai B'ritsh Prizes.—Two prizes of \$25 each, one for the student standing highest in Biology 1, and one for the student standing highest in Zoology 2, provided the student is recommended by the Department.

The A. N. A. Club Scholarship.—Through the generosity of Mrs. F. H. M. Jones the cash surplus of the A. N. A. Club was given to the University to provide scholarships for ex-service women. A scholarship will be offered for the 1949-50 session.

The Chemical Institute of Canada Prize.—A prize of \$25 for books will be awarded to the student entering the fourth year who is recommended by the Department of Chemistry.

Graduation Medals and Prizes

The Governor-General's Gold Medal, offered by His Excellency the Governor-General of the Dominion of Canada, will be awarded to the student who is judged to be the leading First Class Honours graduate of the year. (Such a student is not eligible for a second medal.)

The Sir William Young Gold Medal, founded by bequest of the late Sir William Young, will be awarded on graduation to the student who stands first among those taking First Class Honours in Mathematics.

The Eric Dennis Gold Medal, founded by Senator William Dennis and Mrs. Dennis will be awarded on graduation to the student who stands first among those taking First Class Honours in Government and Political Sciences.

The French Government Medal.—This medal is offered by the French government (1938) through its Halifax Branch of the Alliance Française to the student who stands first among those graduating with First Class Honours in the Department of Modern Languages, provided that he has specialized in French.

University Gold Medals will be awarded in all other departments (i.e., in all except Mathematics, Political Science and the French section of Modern Languages) to the highest ranking First Class Honours graduate.

The Avery Prize.—This prize being the interest of the sum of \$500 bequeathed for this purpose by J. F. Avery, M.D., will be awarded on graduation to the student standing highest among those graduating in the pass course.

The Eric Dennis Foreign Scholarship, of a value not less than \$250, founded by Senator William Dennis and Mrs. Dennis, may be awarded on graduation to the student standing highest in the Department of Government and Political Science, provided he attains a sufficiently high standard and obligates himself to pursue at least one year of post-graduate study in the same department of another university approved by the Senate.

The Nova Scotia Headmasters' Association Prize.—A prize of \$25 annually has been established by the Nova Scotia Headmasters' Association for the student standing highest in the Education Diploma Course.

OPEN TO ALL STUDENTS

(Essays offered in competition must be submitted before March 31.)

W. H. Dennis Prizes for English Compositions

Two Prizes, known as the Joseph Howe Prizes are offered for Poems (in any style,—lyric, dramatic, narrative). The First Prize has a value of \$200 in cash. The Second Prize has a value of \$100 in cash.

Two Prizes, known as the James DeMille Prizes, are offered for Prose Compositions (which may take the form of short stories, essays, or narrative sketches). The First Prize has a value of \$200 in cash. The Second Prize has a value of \$100 in cash.

All the above Prizes are offered annually, through the generosity of Senator W. H. Dennis.

Mushkat Memorial Essay Prize.—From the interest on a bequest of \$1,000 provided by the will of the late Mr. William Mushkat of Halifax a prize will be awarded annually to students registered in the Faculty of Arts and Science. The subject of the essay and the conditions of award will be announced during the session.

The Overseas League Essay Prize.—This prize, being the interest of a fund of \$1,000 given by the Halifax Branch of the Overseas League, will be awarded annually. It will be offered for the best essay on some question, historical or critical, relating to the place of the Overseas Dominions in the British Commonwealth.

The Wings Club Scholarship.—Funds given to the University by the trustees of the Wings Club, Halifax, through Mrs. Forbes Angus of Montreal, will provide five scholarships open to former members of the H.C.A.F. in any faculty. Application should be made to the Dean of the Faculty.

The Rhodes Scholarships.—A Rhodes Scholarship is tenable at the University of Oxford and may be held for three years. Since, however, the majority of Rhodes Scholar obtain standing which enables them to take a degree in two years, appointments are made for two years in the first instance, and a Rhodes Scholar who may wish to remain for a third year must present a definite plan of study for that period satisfactory to his College and to the Rhodes Trustees.

Rhodes Scholars may be allowed, if conditions are approved by their own College and by the Oxford Secretary to the Rhodes Trustee, either to postpone their third year, returning to Oxford for it after a period of work in their own countries, or to spend their third year in post-graduate work at any University of Great Britain, and in special cases at any University on the continent of Europe, in its Overseas Dominions, or in the United States, but not in the country of their origin. This privilege of taking the work of the third year away from Oxford is, however, granted only in exceptional circumstances.

The stipend of a Rhodes Scholarship is fixed at £600 per year. At most colleges, and for most men, this sum is not sufficient to meet a Rhodes Scholar's necessary expenses for term-time and vacations, and Scholars who can afford to supplement it by say £50 per year from their own resources will find it advantageous to do so.

Conditions of eligibility.—A candidate to be eligible must—

1. Be a British subject, with at least five years domicile in Canada and unmarried. He must have passed his nineteenth, but not his twenty-fifth birthday, on October 1 of the year for which he is elected.
2. Have reached such a stage in his course at one of the Universities of Canada that he will have completed at least two years at the University in question by October 1 of the year for which he is elected.

Candidates may apply either for the Province in which they have their ordinary private domicile, homes or residence, or for any Province in which they have received at least two years of their college education before applying.

Basis of Selection.—In that section of the Will in which he defined the general type of scholar he desired, Mr. Rhodes mentioned four groups of qualities, the first two of which he considered most important.

1. Literary and scholastic attainments;
2. Qualities of manhood, truth, courage, devotion to duty, sympathy, kindness, unselfishness and fellowship;
3. Exhibition of moral force of character and of instincts to lead and to take an interest in his schoolmates;
4. Physical vigour, as shown by interest in outdoor sports or in other ways.

Distinction both in character and personality and in intellect is the most important requirement for a Rhodes Scholarship, and it is upon this that Committees will insist. Success in being elected to office in student organizations may or may not be evidence of leadership in the true sense of the word. Mr. Rhodes evidently regarded leadership as consisting in moral courage and in interest in one's fellow men quite as much as in the more aggressive qualities. Physical vigour is an essential qualification for a Rhodes Scholarship, but athletic skill is of less importance than the moral qualities developed in playing outdoor games. Poverty does not give a special claim to a Scholarship. The strongest candidate should be appointed regardless of his financial circumstances.

Full particulars can be obtained from A. G. Cooper, 35 Bedford Row, Halifax, N. S., Secretary of the Selection Committee for the Province of Nova Scotia.

Each candidate for a Scholarship is required to make application to the Secretary of the Committee of Selection of the Province in which he wishes to compete not later than November 1.

Application forms may be obtained from the Registrar's Office.

1851 Exhibitions Science Research Scholarships.—These Scholarships of the value of £350 sterling a year (with a possible additional grant of up to £50 a year, for fees etc.), are tenable for two, or, in rare instances, three years. Additional allowances may be granted in certain cases. They are open to students who are British subjects. A candidate must have been a student of science in a University for a period of not less than three years and must have spent any one full academic year ending not more than twelve months prior to the date of recommendation at the University by which he is recommended. Candidates must have shown evidence of capacity for original research. The Scholarships are tenable at any university or other institution approved by the Commissioners. For particulars address the President.

A Science Scholarship, on the same basis as the 1851 Exhibition Scholarship, is to be offered in 1948 and ensuing years by the Royal Institution. The award will be made on the advice of the Science Scholarships Committee for the Royal Commission for the Exhibition of 1851, and no candidates will be considered except those who have been recommended to the Commissioners by Dominion Universities for 1851 Scholarships. Candidates for 1851 Overseas Scholarships who wish to be considered also for the Royal Institution's Scholarship, are requested to state this clearly in paragraph 15 of the Recommendation Form for the 1851 Scholarship. No further application to the Royal Institution will be necessary.

OPEN TO GRADUATES

The Eddy Resident Fellowship for Women.—This Fellowship, of the value of \$500, founded by the Board of Governors in memory of the late Mrs. E. H. Eddy, is offered annually to a graduate of Dalhousie University who shows distinct aptitude for scholarly work in any department of study. It shall be held at this University.

Canadian Federation of University Women Scholarships.—The Travelling Scholarship of the Canadian Federation of University Women, value \$1,250, available for study or research work, is open to any woman holding a degree from a Canadian university, who is not more than 35 years of age at the time of award. In general, preference will be given to those candidates who have completed one or more years of graduate study and have a definite course of study or research in view. The award is based on evidence of character, intellectual achievement, and promise of success in the subject to which the candidate is devoting herself.

The Junior Scholarship of the Canadian Federation of University Women. value \$850, is open to any woman holding a degree from a Canadian university, who is not more than 25 years of age at the time of award. Preference will be given to students who have studied in only one university and who desire to continue their studies in another.

The proposed place and plan of study or research must be approved by the Scholarship Committee.

Application blanks and further information may be obtained from the Convenor of the Scholarship Committee, Dr. Cecilia Krieger, University of Toronto, Toronto, Ont. Applications and recommendations must be received not later than February 1.

The James Gordon MacGregor Memorial Fellowship in Physics.—The Fellowship, of the value of \$600, is awarded annually to a graduate of this or other University. The holder of the Fellowship is required to give twelve hours per week to teaching work in the Department of Physics.

The Belle Crowe Fellowship.—The net income from a bequest to the University, under the will of the late Miss Belle Chisholm Crowe of Madison, Wisconsin, formerly of Truro, N. S., and a student in the University in 1885-86, is devoted to a fellowship in Inorganic Chemistry "to enable a deserving student on his graduation from the University to pursue post-graduate study in Inorganic Chemistry in Dalhousie or another university approved by the Senate or other academic governing body."

Public Administration.—Two scholarships, one of \$250 and one of \$200 may be offered for the year 1949-50 to graduates of Dalhousie or any other Canadian University for graduate study in the field of Public Administration.

I.O.D.E. Post-Graduate Overseas Scholarships.—As part of a War Memorial, the Imperial Order Daughters of the Empire offers annually in each province in Canada a scholarship for one year's post-graduate study in Great Britain. The value of the scholarship is \$1500.00 a year.

The conditions under which these scholarships are awarded are as follows:

- (1) Candidates may be men or women. They must be British subjects with at least five years residence in Canada, and unmarried. Each candidate must hold a degree from a recognized university or degree-granting college in Canada, and must have done or be doing post-graduate work.
- (2) In each province a Committee of Selection will award the scholarship. Other things being equal, preference will be given to a returned man, his sister, brother, son or daughter. The Committee of Selection will consider not only academic attainments and promise, but also personal character and physical fitness.
- (3) Applications for this scholarship should be sent before October 15, 1949, to Mrs. G. D. Anderson, Provincial Educational Secretary, I.O.D.E., 17 Connaught Avenue, Halifax, N. S., who will provide additional information about the scholarship.

A candidate shall be entitled to apply in the province in which the University from which he or she graduated is situated, irrespective of his or her place of residence in Canada. Candidates living in Prince Edward Island must apply for the scholarship in that Province, but they may attend a university anywhere in Canada.

National Research Council Scholarships.—Bursaries of the value of \$250 will be open to award to applicants who have graduated with high distinction in scientific study.

Scholarships of the value of \$650 will be open to award to applicants who have had experience in research work in science for at least one year following graduation.

Fellowships of the value of \$750 will be open to award to applicants who have given distinct evidence of capacity to conduct independent research in science.

The Research Council has instituted Special Scholarships of two classes, to be held at the National Research Council Laboratories in special fields of research in which facilities are not available elsewhere in Canada. Class (a) consists of four Special Scholarships and is open to applicants who have to their credit at least one year of post-graduate work leading to a Master's degree or equivalent, and whose applications are approved by Canadian university. They are of the value of \$750 and tenable for twelve months. Although other departments of science are not excluded, application in the field of engineering will receive preferred consideration. Class (b) consists of two Special Scholarships open to applicants who have completed the work of a Ph.D. and who desire to bridge the gap between their academic training and their employment in industry or elsewhere. They are of the value of \$1,000 and tenable for twelve months.

Applications for all National Research Council Scholarships must be made before March 1 in each year. Detailed information and application forms may be obtained from the Registrar.

Imperial Oil Graduates Research Fellowships.—The Imperial Oil Limited, in 1946, established for annual competition four research fellowships of the value of \$3,000.00 each (\$1,000.00 per year payable in Canadian funds for a maximum of three years), open to graduates of any approved university in Canada. These fellowships are offered for graduate work leading to a Doctor's or Master's degree in the fields of Petroleum Engineering, Petroleum Geology, Chemistry or Chemical Engineering, and Mechanical Engineering. Nomination of students for these fellowships is made by the University—and nominations being submitted to the Imperial Oil Scholarship Committee, Imperial Oil Limited, 55 Church Street, Toronto, not later than June 1st, each year. Nomination forms and information as to the terms of fellowships are available at the Registrar's office.

Aid Funds

The Elizabeth McKenna Scholarship Fund.—This Fund was instituted in 1928 by Mr. James D. McKenna, of Sussex, N. B., to commemorate the seventieth anniversary of the marriage of his parents, Peter and Elizabeth McKenna, of Dartmouth, N. S. For the present one Scholarship of the value of \$200 will be open to award. It is tenable for one year by a student intending to enter the Faculty of Arts and Science. Applicants must be bona fide residents of one of the Maritime Provinces and in need of financial assistance. Applications, accompanied by certificates showing worthiness, financial circumstances and academic qualifications, must be submitted before September 1, 1949.

University Aid Fund.—This Fund has been established to provide assistance toward the payment of tuition fees for meritorious students who are unable to attend the University without assistance. Applications accompanied by certificates showing worthiness, financial circumstances and academic qualifications, must be submitted before September 1, 1949.

Harry F. Bennett Educational Fund.—This Fund has been established by subscriptions from members of the Engineering Institute of Canada, in memory of the late Harry

F. Bennett, M.E.I.C. One purpose of the Fund is to make loans to deserving students in Engineering who need financial assistance and who have proved themselves by successfully completing their first year in Engineering. Further information and application blanks may be obtained at the office of the Head of the Department of Engineering.

The Leonard Foundation., created by Lieut.-Col. and Mrs. R. W. Leonard, of St. Catharines, Ont., has established a number of Scholarships, tenable at certain specified colleges, of which Dalhousie is one, for selected students of certain defined classes. Applications must be in the hands of the Foundation on or before March 31. For detailed information and application forms for either new grants or renewal of previous grants address the Registrar.

The Post-discharge Rehabilitation Grants.—Ex-service personnel seeking educational grants should submit entrance certificates and particulars of proposed courses and if accepted will be given a letter with which to support their applications to the Department of Veterans' Affairs.

Fees

All Fees and Deposits are payable in advance, and until these are paid, the student will not receive credit for attendance upon any class, nor be admitted to any examination.

For Registration*	
Payable by students taking only one class in the University (including Library Fee of \$5.00).	\$16.00
Payable by students doing thesis work for B. Ed. degree (including Library Fee of \$5.00).	16.00
Payable by students taking more than one class (including Library Fee of \$5.00).	21.00
Additional, payable by all students registering after 12 noon on last regular registration day, for each day.	2.00

CLASSES OF INSTRUCTION

Classes marked * are designed for those taking Honours Courses.

Biblical Literature

Lecturer..... Ellie Andrews.

Tu. and Th. at 3.30 p.m.

Prerequisite.—English 2 (which, with the consent of the Head of the Department and of the Lecturer, may be taken at the same time).

This course introduces the student to the origins, the sources, and the development of the literature both of the Old and New Testaments. The various types of Biblical literature are examined in the light of their religious and historical background, and an attempt is made to furnish an intelligent approach to the whole field of Biblical study.

For reference: J. A. Bevers: *The Literature of the Old Testament*; E. F. Scott: *The Literature of the New Testament*; T. W. Manson: *A Companion to the Bible*.

Biochemistry: see Chemistry
Biology

Students intending to major in Biology are advised to include Biology 1 and Chemistry 1 in their first year, and Zoology 2 or 3 or Botany 2 or 3 and Chemistry 4 in their second year.

1. **General Biology.**—*Lect.: Tu., Th., and S., at 9 a.m. Lab.: F., 2.30 to 5.30 p.m.; or Th., 10 a.m. to 1 p.m.* H. P. Bell, D. Pelletet.

An introductory class designed to illustrate the fundamental properties of living matter. The laboratory work consists of a study of representative plants and animals.

Botany

Professor Hugh P. Bell (*Head of Dept.*)
Assistant Professor

2. **General Botany.**—(1949-50). *Lect.: M. and W. at 2.30 p.m. Lab.: M. and W. 3.30 to 5.00 p.m.* H. P. Bell.

Prerequisite.—Biology 1.

3. **Economic Plants, Their Structure and Use.**—(1950-51). *Lect.: Tu. and Th., 2.30 to 3.30 p.m. Lab.: Tu. and Th., 3.30 to 5.30 p.m.* H. P. Bell.

Prerequisite.—Biology 1.

4. **The Flora of Nova Scotia.**—(1950-51). *Lect.: M. and W. at 6 a.m. Lab.: Three hours per week.* H. P. Bell.

Prerequisite.—Biology 1.

Students intending to enrol in this class should consult the instructor and arrange for assistance in summer collecting.

5. **Histology of Plant Growth.**—*Lect.: Two hours per week. Lab.: Four hours per week.* H. P. Bell.

Prerequisite.—Botany 2 or Botany 3.

Zoology

Associate Professors F. Ronald Hayes, D. Pelletet.
 2. **Comparative Vertebrate Anatomy.**—*Lect.: Tu. and Th., at 2.30 p.m. Lab.: Tu. and Th., 3.30 to 5.30 p.m.* F. R. Hayes.

Prerequisite.—Biology 1.

3. **Invertebrate Animals, Their Structure, Life History and Parasitic Relations to Man.**—(1950-51). *Lect.: M. and W. at 2.30 p.m. Lab.: M. and W., 3.30 to 5.30 p.m.* D. Pelletet.

Prerequisite.—Biology 1.

4. **Evolution, Genetics and Experimental Embryology.**—(1949-50). *Lect.: M., W., and F. at 12 m.* D. Pelletet.

Prerequisite.—Biology 1.

This class consists of lectures on modern biological theories. Oral and written reports will be required of all students.

5. **Experimental Zoology.**—(1949-50). *Lect.: Tu. and Th., at 9 a.m. Lab.: Tu. and Th., 10 a.m. to 12 m.* F. R. Hayes.

Prerequisite.—Biology 1, Chemistry 1.

This course deals with growth, the nervous system, sense organs and response to stimuli.

6. **Experimental Zoology.**—(1950-51). *Lect.: Tu. and Th., at 9 a.m. Lab.: Tu. and Th., 10 a.m. to 12 m.* F. R. Hayes.

Prerequisite.—Biology 1, Chemistry 1.

A discussion of such topics as temperature, respiration and osmotic relations.

7. **Cytology and Histological Techniques.**—(1949-50). *Lect.: M. and W. at 2.30 p.m. Lab.: M. and W., 3.30 to 5.30 p.m.* D. Pelletet.

This class is limited to six students.

8. **Advanced Cytology.**—(1950-51). *Lect.: Two hours per week. Lab.: Four hours per week.* D. Pelletet.

This class deals with methods of investigating the properties of protoplasm, cells and tissues.

9. **Human Physiology.**—*Lect.: M. and F. at 9 a.m. Lab.: M. 10 a.m. to 1 p.m.* C. H. Weld.

Prerequisite.—Biology 1, Chemistry 1.

This course is given by the Medical Faculty but it is separate from the Medical course.

Biological Seminar

Lectures and presentation of papers by members of the staff and senior students. All Honour and Graduate Students must participate.

Summer Courses

Students who complete creditably any of the courses on the curriculum of the Marine Biological Laboratory, Woods Hole, Massachusetts, may, on the recommendation of the Department of Biology, present these courses for credit towards a degree.

Histology and Embryology

The classes in Histology and Embryology given in the Medical Faculty may be offered as one elective for the Arts and Science degrees by those who offer a group in Biology, and for that purpose they are regarded as classes in Biology.

Anatomy

Anatomy IA, given in the Medical Faculty but not qualifying for Medical degree, may be offered as an elective in Biology. It is a course (nine hours per week) in biometry and statistical methods applied chiefly to morphological problems.

Only students intending to specialize in Biology, are proficient in Mathematics, and look forward to research, should elect this course, and only after consultation with the Head of the Department.

Prerequisites.—Biology 1, Mathematics 1 (or their equivalents), and the consent of the instructor. Mathematics 2 is desirable.

Chemistry

Professors..... C. C. Coffin (*Head of Dept.*),
W. J. Chute (*Director of Laboratories*).
Assistant Professors: C. A. Reilly, W. R. Trout.
Laboratory Assistants (1948-49)..... Rosemary Blouin, J. A. Brothers,
Athens Costas, E. H. S. Henderson, A. R. Reid, J. S. Rose, W. D. L.
Sherron, W. S. A. Singh, D. G. Smith, D. K. R. Stewart, I. I. Tingley,
R. V. Webber, S. G. Whiteway.

Students who have taken Grade XII Chemistry and who wish to specializing in Chemistry should consult the department before registering.

1. **General Chemistry.**—*Lect.*: M., W., and F. at 9 a.m., *Lab.*: Tu., W., or Th. at 2.30 to 5.30 p.m. W. R. Trout.

Prerequisite.—Mathematics Chemistry or Physics or Mathematics.

This class may be offered as a science elective for an Arts degree and must be taken by those planning to enter a science or professional course.

2. **Elementary Physical and Analytical Chemistry.**—*Lect.*: Tu. and Th. at 10 a.m. *Lab.*: M., or F., 2.30 to 5.30 p.m. C. C. Coffin.

Prerequisite.—Chemistry 1.

Text Books: Bray and Luttmann: *A Course in General Chemistry*. Chapin and Steiner: *Second Year College Chemistry*. Welch: *Intermediate Quantitative Analysis*.

¶ This laboratory work of this class is a continuation of that of Chemistry I plus qualitative analysis and exercises in quantitative analysis. It is designed for those planning to enter professional courses. Those intending to continue with advanced Chemistry classes are required to take Chemistry 3.

3. **Elementary Physical and Inorganic Chemistry.**—*Lect.*: Tu., Th. and S. at 10 a.m. *Lab.*: two afternoons per week. C. C. Coffin, C. A. Reilly.

Prerequisite.—Chemistry 1, Mathematics 1.

Text Books: Chapman and Steiner. Supplementary texts to be announced.

CLASSES OF INSTRUCTION

This class is designed for those who expect to continue with advanced classes in Chemistry and must be elected by those who intend to take an Honours course in Chemistry. (See Preliminary Courses, p. 39).

4. **Organic Chemistry.**—*Lect.*: M. and W. at 10 a.m. *Lab.*: W. or F., 2.30 to 5.30 p.m. W. J. Chute.

Prerequisite.—Chemistry 1.

Text Books: Wertheimer: *Text Book of Organic Chemistry*. Adams and Johnson: *Laboratory Experiments in Organic Chemistry*.

5. **Physical Chemistry.**—*Lect.*: M. and W. at 9 a.m. *Lab.*: Tu., C. C. Coffin periods per week.

Prerequisite.—Chemistry 2, Physics 1 or 3, Mathematics 2.

Books Recommended: Daniels: *Theoretical Chemistry*. Daniels, Mathews and Williams: *Experimental Physical Chemistry*. Handbook of Chemistry and Physics.

6. **Qualitative Organic Analysis.**—*Lect.*: Th. and S. at 10 a.m., *Lab.*: M., 2.30 to 5.30 p.m. W. J. Chute.

Prerequisite.—Chemistry 3, 4 and 7. Chemistry 7 may be taken concurrently.

This class is a continuation of Chemistry 4. The laboratory work will consist of the identification of organic compounds.

Text Books: Wertheimer: *Textbook of Organic Chemistry*. Stetler and Fouts: *Identification of Organic Compounds*.

7. **Inorganic Chemistry and Quantitative Analysis.**—*Lect.*: M. and W. at 11 a.m. *Lab.*: Six hours per week. C. A. Reilly.

Prerequisite.—Chemistry 3.

Text Books: Kekulé and Gundlach. Supplementary text books to be announced.

8. **Advanced Quantitative Analysis.**—Conferences and *Lab.*: 9 hrs. per week. C. A. Reilly.

Prerequisite.—Chemistry 5, 6 and 7. Chemistry 6 may be taken concurrently.

The following classes are for Honours or Graduate students in Chemistry and others who satisfy the instructor that they are qualified. They are offered in alternate years and will be given only if sufficient number register. Each consists of two lectures or seminars and three hours of laboratory or problem work per week. The department notice boards should be consulted for details regarding the content of these classes.

111. (1950-51)—**Organic Stereochemistry, Electronic Theory and Reaction Mechanisms.** W. J. Chute.

112. (1949-50)—**Carbohydrates and Naturally Occurring Substances.** W. J. Chute.

113. (1949-50)—**Chemical Kinetics and Photochemistry.** W. R. Trout.

114. (1950-51)—**Electrochemistry Thermodynamics and Poase Rule.** W. R. Trout.

115. (1949-50)—**Introduction to Chemical Physics I.** C. A. Reilly.

116. (1950-51)—**Introduction to Chemical Physics II.** C. A. Reilly.

117. (1949-50)—**Nuclear and Radiation Chemistry.** C. C. Coffin.

118. (1950-51)—**The States and Structures of Matter.** C. C. Coffin.

Research

The work of these classes will consist of original investigation by students who have shown themselves qualified.

119. Undergraduate research for Honour students.**200. Graduate research.****Biochemistry**

The class Biochemistry IA given in the Faculty of Arts and Science may be offered as an undergraduate elective. (See page 135).

Play for specific study: King Richard III; Twelfth Night; Macbeth; *The Winter's Tale*; *Twelfth Night*; *A Midsummer Night's Dream*; King Henry IV, pt. 1; King Lear; *The Taming of the Shrew*. An essay to be submitted by the instructor.

Composition: Twenty exercises in expository writing based on the work of the class. Reference book for theme-correction: Rivers and Sturzow: *Writing and Thinking*.

In this class all students will be required to show that they have read in the first term one of the following novels: Romeo and Juliet; *The Cloister and the Hearth*; or, George Eliot: *Romeola*.

3. Middle English.—(1900-51). *Hours to be arranged.* C. L. Lambertson.

Prerequisite.—English 2. Primarily for Honour and Graduate Students.

English Language and Literature from 1100 to 1500, with emphasis on the poetry of Chaucer.

Texts: Chaucer (ed. Robinson); *Foxe's Book of Martyrs* (B. Text); ed. Sleath; Selected readings from assigned Middle English texts.

*Changes or additions may be announced before the beginning of the term.

4. Nineteenth Century Literature.—(1950-51). Tu. and Th. at 11 a.m.

Prerequisite.—English 2.

An historical and analytical introduction to Romantic poetry and literary criticism.

The Pro-Romantic Poets; Wordsworth; Coleridge; Shelley; Keats; Byron; Scott; Hazlitt; Lamb; deQuincey.

Texts and Test Book: *Poetry and Prose of the Romantic Movement* (Woods); or, *English Romantic Poets* (Stephens, Beck and Bowes).

For Distinction: An essay on a subject assigned by the instructor.

5. Nineteenth Century Literature.—(1949-50). Tu. and Th. at 11 a.m. C. L. Bennett.

Prerequisite.—English 2.

Carlyle; Tennyson; Browning; Arnold; Dickens; Thackeray; Ruskin; Newman.

Text Books: *Carlyle: Senior Reader* (ed. MacMechan); *Poetry of the Victorian Period* (ed. Woods), or *Victorian and Later Poets*, ed. Stephens, Beck and Bowes.

Reference Books: *Survey of Nineteenth Century Literature*. Chesterton; *Victorian Literature*. Elton; *Survey of English Literature*, 1830-1880.

For Distinction, as in English 4.

6. Old English.—(1949-50). Hours to be arranged. C. L. Lamberton.

For Honour and Graduate students, and others by special permission.

Students intending to take this class must arrange for preparatory reading during the summer.

Texts: Wyatt: *An Anglo-Saxon Reader*; South: *An Old English Grammar and Reader*. Eight translation from easy texts.

7. Elizabethan Drama.—(1950-51). M. and W. at 9 a.m. Burns Martin.

Prerequisite.—English 2.

Summer reading is required, for which direction must be obtained from the instructor.

Text Books: Marston: *Elizabethan Plays* (Beach). A complete Shakespeare; the Katherina edition is highly recommended.

8. Canadian and American Literature.—(1949-50). Tu., Th. and S. at 9 a.m. Burns Martin.

Prerequisite.—English 2.

This is a survey course in English-Canadian and American literature.

Texts: Eliot, Pound and Spivak: *A College Book of American Literature, Brief Course*. (In Canada, W. J. Craig & Co., Toronto); and A. J. M. Smith: *The School of Creative Poetry*. (Gage & Co.).

For Distinction: A detailed study of one author or of a movement.

9. Drama.—(Not given in 1949-50). C. L. Bennett.

Prerequisite.—English 2.

An historical survey of the development of Drama, with emphasis on Modern Drama.

For Distinction: A special study of a selected author, or an investigation of specified topics illustrating the development of drama.

10. Advanced English Composition.—(Not given unless a sufficient number of qualified students shall apply.)

11. Modern Poetry.—(1950-51). M. and W. at 11 a.m. C. L. Lamberton.

Prerequisite.—English 2.

English Poetry from Swinburne to Massfield. Modern American Poetry. Canadian Poetry.

Texts: *Uncommon: Modern British and Modern American Poetry* (two-volume set).

12. The History, Theory and Methods of Literary Criticism.—(1950-51). Hours to be arranged. C. L. Bennet.

Prerequisite.—English 2.

For Honour and M.A. students: others by special permission only. Text Books: *Salinity: History of English Criticism*. Const. *The Theory of Poetry in England*. Richards: *The Principles of Literary Criticism: Practical Criticism*.

Text: *English Critical Essays*, "World's Classics," 248, 266, 405.

13. The History of the English Language.—(1949-50). M. and W. at 11 a.m. C. L. Lamberton.

Prerequisite.—English 2.

An introduction to the historical study of the sounds, words and forms of English, with emphasis on modern semantics and the language of literature. Texts and Readings to be assigned. This class is suitable for those who expect to offer English as one of the requirements for the Academic Licence issued by the Department of Education of the Province of Nova Scotia.

Text: Baugh: *History of the English Language*.

For Reference: To be assigned.

14. Poetry and Prose of the English Renaissance.—(1949-50). M., W., and Fri. at 9 a.m. Burns Martin.

Prerequisite.—English 2.

Text Books: To be announced.

15. English Literature in the Eighteenth Century.—(1950-51). Tu. and Th. at 9 a.m. Burns Martin.

Students intending to take this course are strongly advised to consult the instructor for summer reading.

Text Books: Shepard and Woods: *English Prose and Poetry, 1660-1800* (Houghton, Mifflin). Needs and places of the period.

16. The English Novel since 1800. Burns Martin.

***17. Advanced Seminar.**—Members of the department are prepared to offer, to properly qualified students, the opportunity to make a special study of the works of a single author of whom a sufficient introductory knowledge has already been obtained. Admissions will be strictly limited. The following may be elected: Chaucer; Spenser; Shakespeare; Milton; Dryden; Wordsworth; Arnold; Browning.

***18. Old Norse.**—Hours to be arranged.

Text Book: Gordon: *Introduction to Old Norse*.

***19. Middle Scots.**—Hours to be arranged. Burns Martin.

***20. Restoration and Early Eighteenth Century (Seminar).** A. R. Bevan.

21. Elective Undergraduate Class.—(To be announced). A. R. Bevan.

Fine Arts

Lecturer Donald C. Mackay.

W. and *F.* at 4.30 p.m.

This class, consisting of about fifty illustrated lectures, will give an outline of the development of sculpture, painting, architecture and the minor arts, with an analysis of their structure and function. The introductory lectures will be related to Archaeology and the study of ancient art. The latter part of the term will be devoted chiefly to the evolution of creative art from medieval to modern times. A well-equipped library and many valuable photographs, colour prints and engravings have been presented by the Carnegie Foundation for the use of members of this class.

Ten Books. *Gardner's Art through the Ages* (Harcourt, Brace).

Geology and Mineralogy

Professor G. Vibert Douglas.
Special Lecturer Alan E. Cameron.
Student Assistants W. L. Davison, J. W. D. Johnston.

1. General Geology.—*Lect.*: *M.*, *W.* and *F.* at 10 a.m. *Field work and Lab.*: *Tu.* and *F.* afternoons beginning at 2.30 p.m. *Field work commences at 2 p.m.* (One afternoon a week is the full requirement.)

2. Mineralogy.—*Lect.*: *Tu.* and *Th.* at 10 a.m. *Lab.*: *Two periods to be arranged.*

3. Petrology.—*Lectures and colloquium*: *Tu.*, 10 a.m. to 1 p.m. *Lab.*: *W.* a.m. and/or p.m.

Prerequisite.—Geology 1 and 2.

4. Ore-deposits.—*Colloquium*: *Th.*, 2.30 to 5.30 p.m.

Prerequisite.—Geology 1.

Senior Classes

5. Field Geology.—*Conference*: *M.*, p.m. *Lab.*: *Th.*, a.m. and p.m.
Prerequisite.—Geology 1, 2 and 3.

6. Advanced Ore-deposits.—*Conferences and Lab.*: *M.*, a.m. and *Tu.*, a.m. and p.m.

Prerequisite.—Geology 1, 2, 3, 4 and 5.

7. Special Problems.—*Hours to be arranged.*

Prerequisite.—Geology 1, 2, 3, 4, 5 and 6

8. Experimental Geology.—*Hours to be arranged.*

Prerequisite.—Geology 1.

9. Metallurgy and Geology.—*Hours to be arranged*. Alan E. Cameron.

History

Professors G. E. Wilson (*Head of Dept.*), A. Stanley Walker.
Special Lecturers D. C. Harvey.
Lecturer John P. Heisler.

1. History of Europe since the Fall of the Roman Empire.—
M., W., and F., at 9 a.m. G. E. Wilson.

2. Ancient History.—(1949-50, and in alternate years). *M., W., and F., at 10 a.m.*

Prerequisite.—History 1.

3. Modern England.—(1950-51, and in alternate years). *M., W., and F., at 10 a.m.* A. S. Walker.

Prerequisite.—History 1.

4. History of Europe since 1815.—(1950-51, and in alternate years)
Tu., and Th., at 2.30 p.m. G. E. Wilson

Prerequisite.—Two classes in History.

This class will be conducted partly by the seminar method, no text book being set, but readings will be assigned on various topics. Some knowledge of the bibliography of the period will be required.

5. History of Europe, 1715-1815.—(1949-50, and in alternate years).
Tu., and Th., at 2.30 p.m. G. E. Wilson.

Prerequisite.—Two classes in History.

This class will be conducted like History 4, readings being assigned on selected topics. The chief subjects for study will be the French Revolution and the career of Napoleon.

If possible students ought to read a narrative account of the period before taking the class. For this purpose the following books are recommended.

J. M. Thompson: *The French Revolution*, and either A. Fournier:
Napoleon I or J. H. Ross: *The Life of Napoleon I*.

6. England under the Tudors.—(1949-50, and in alternate years).
M., and W., at 2.30 p.m. A. S. Walker.

Prerequisite.—Two classes in History.

7. The Fourteenth Century.—(1950-51, and in alternate years).
M., and W., at 2.30 p.m. A. S. Walker.

Prerequisite.—Two classes in History.

8. History of Canada.—(1949-50). *Tu., Th., and S., at 10 a.m.* J. P. Heisler.

Prerequisite.—History 1.

9. A Period in Modern History.—(1949-50). *Hours to be arranged.* G. E. Wilson.

For Honour and M.A. students.

***10. Seminar Course on Canadian History with special reference to Nova Scotia.** D. C. Harvey

For Honour and M.A. students. All others must obtain the consent of the Instructor.

Prerequisite.—History 8 or 9.

11. History of the United States to 1865.—(1950-51). *M., W., and F., at 10 a.m.* J. P. Heisler.

Prerequisite.—History 1.

12. History of the United States since 1865.—(1949-50). *M., W., and F., at 10 a.m.* J. P. Heisler.

Prerequisite.—History 1.

13. History of the Early Aegean: Its Art and Civilisation. J. P. Heisler.

14. Renaissance and Reformation.—(1949-50). *M., W., and F., at 2.30 p.m.* J. P. Heisler.

Prerequisite.—Two classes in History.

15. English Constitutional History.—*Tu., Th., and S., at 9 a.m.*

Prerequisite.—History 1.

16. For pre-medical and pre-dental students.—*M., W., and F., at 11 a.m.* A. S. Walker.

A lecture course, with collateral reading and exercises on the history of thought and the influence of science on civilization.

LAW

Certain classes conducted by the Faculty of Law in the first year of the curriculum, and the examinations conducted in these subjects by the Faculty, are recognized as qualifying for a degree in Arts when offered by a student taking the affiliated course in Law.

Students seeking the degree of Bachelor of Commerce are required to take one class in Law.

Mathematical Physics: see *Physics*

Mathematics

Professor: J. G. Adshead, Charles Walmsley.
Associate Professors: H. Edwards-Davies, I. A. MacLeanan.
Lecturers: H. Edwards-Davies, I. A. MacLeanan.

1. Elementary Mathematical Analysis:—*M.*, *W.*, and *F.* at 10 a.m.; *M.*, *W.*, and *F.* at 11 a.m.; *Tu.*, *Th.*, and *S.* at 10 a.m.
 J. G. Adshead, H. Edwards-Davies, I. A. MacLeanan.

Prerequisite:—Matriculation Algebra and Geometry.

Algebra, including coordinates, graphs, logarithms, the binomial theorem, introduction to limits, simple infinite series, derivatives and maxima and minima of the simplest functions. Geometry of similar triangles. Plane Trigonometry, including the addition theorems and solution of triangles. Elementary Solid Geometry and Spherical Trigonometry.

Text Book: *Matriculation Maths.*

2. Calculus:—(1) *M.*, *W.*, and *F.* at 11 a.m.; (2) *M.*, *W.*, and *F.* at 9 a.m.; (3) *M.*, *W.*, and *F.* at 10 a.m.
 C. Walmsley, I. A. MacLeanan.

Prerequisite:—Mathematics 1.

Coordinates in two and three dimensions, including revision of plane and spherical trigonometry. Conics. Differential and integral calculus.
Text Books: Graville, Smith and Longley: *Differential and Integral Calculus* (1941), Chapters I-XV.

3. Analysis:—*Tu.*, and *Th.* at 11 a.m. C. Walmsley.

Prerequisite:—Mathematics 2.

The analytical aspects of Infinitesimal Calculus, including real and complex numbers, series, exponential and hyperbolic functions, power series, Taylor's theorem, elementary Fourier series, properties of functions, systematic integration, approximate integration, gamma integrals and elementary differential equations.

Text Books: Graville, Smith and Longley: *Differential and Integral Calculus* (1941), Chapters XVI-XXII. Walmsley: *Mathematical Analysis*.

4. Geometry:—*M.*, and *W.*, at 10 a.m.

Prerequisite:—Mathematics 2.

The geometrical aspects of Calculus, with particular reference to three-dimensional ideas and applications to Geometry, Mechanics and Physics, and including quadric surfaces, partial differentiation, multiple and line integrals, Green's theorem, etc.

Text Books: Graville, Smith and Longley: *Differential and Integral Calculus*. Osgood: *Advanced Calculus*. Boole, and Terence: *Higher Mathematics*.

34. Tu., Th. and S. at 11 a.m.

J. G. Adshead.

Prerequisite:—Mathematics 2.

This course will contain a revision and amplification of previous work but it will also include some work that is given in Mathematics 3 and Mathematics 4, such as partial derivatives, multiple integrals, Taylor's theorem, approximate integration, etc. It is arranged for candidates for the Diplomas in Engineering.

Text Book: Graville, Smith and Longley: *Differential and Integral Calculus*.

Senior Classes

These classes are intended for candidates for Honours in Mathematics, candidates for Honours in allied subjects (e.g., Physics), and for those wishing to take mathematical work in their third or fourth year in the ordinary course in Arts or Science. They are also designed to serve as introductory courses for those who may afterwards undertake post-graduate work in Mathematics. Mathematics 3 and 4 are prerequisite. Each class meets two hours per week, at times to be arranged.

5. Theory of Functions of a Complex Variable.—(1949-51).

C. Walsley.

Conformal representation, conjugate functions, Laplace's equation in two dimensions, Cauchy's theorem on contour integration, theory of residues, singularities, expansions of functions, elements of the theory of doubly periodic functions, multi-valued functions.

Books: Titchmarsh: *Theory of Functions*, Volume I; *Theory of Functions*, General Course. Advanced, E. C. Titchmarsh: *Theory and Application of Infinite Series*; Functions of a Complex Variable. Works by Osgood, Carathéodory, Whittaker and Watson, Pierpont, Riemann-Betti.

7. Theory of Functions of a Real Variable.—(1949-50).

C. Walsley.

Elements of sets of points, convergence of double and simple series, summation of divergent series, Fourier series, Lebesgue integration.

Books: Titchmarsh: *Theory of Functions*, Volume II; *Theory des Fonctions*, Knopp: *Unendliche Reihen*; Hardy and Littlewood: *Fourier Series*, Taussky: *Notes Diophantini*. Works by Hobson, Boole, Eymond, Lebesgue, Saks, Hardy, Neumann, Goursat.

12. Differential Equations.—(1949-50).

J. G. Adshead.

This course will take up the work of differential equations as begun in Mathematics 3 and will mainly discuss ordinary differential equations, and, in particular, linear equations. Surface and volume integrals will be treated in more detail than in Mathematics 4. Laplace's equation will be discussed and solutions found of the equations of Bessel and Legendre.

Text Books: Phillips: *Differential Equations*, Iser: *Ordinary Differential Equations*, Peano: *Linear Differential Equations*, Agnew: *Differential Equations*, Macdonald: *Calculus of Functions*, Hobson: *Spherical and Ellipsoidal Harmonics*. Gray and Mathews: *Treatise on Bessel Functions*.

"3 and "4. These are the third and fourth year classes presented on page 40 for Honours students in Mathematics.

If required, other classes may be arranged, such as Mathematics 8, 9 and 10 below. Students wishing to attend any class of this nature should consult the Department of Mathematics.

6. Projective Geometry.

J. G. Adshead.

Text Book: Geometry: *Introduction to Higher Geometry*. Books by Young, Verblis and Young.

8. Differential Geometry of Curves and Surfaces.

Text Book: Geometry: *Differential Geometry*, Books of reference by Veblen-Peano, Goursat, Darboux, Eisenhart.

9. Selected topics in Modern Analysis.**10. Non-Euclidean Geometry.****Seminar.**—*F. or 3.30 p.m., or time to be arranged.*

Special consideration of topics suggested in advanced courses, or in independent reading, including the reading of papers by students. The Seminar should be attended by all students taking any of the above Senior classes.

Mechanics: see **Engineering Medicine**

Certain classes conducted by the Faculty of Medicine in the first year of the curriculum, and the examinations conducted in these subjects by the Faculty, are recognized as qualifying for a degree in Arts when offered by a student taking the affiliated course in Medicine.

Modern Languages

<i>Professor.</i>	Germaine Lafeuille.
<i>Associate Professor.</i>	C. H. Mercer.
<i>Lecturer.</i>	
<i>Special Lecturer.</i>	Johanna Richter.
<i>Instructor in French.</i>	H. F. Aikens.

French

For students who require it the Department will recommend accredited tutors.

To those who have had no opportunity to acquire a correct pronunciation, the following book is recommended: William A. Nitze and Ernest H. Wilkins: *A Handbook of French Phonetics* (Henry Holt and Co., New York).

Elementary French.—*Tu., Th., and S.* at 12 m. (provisionally).

For students who have not had an opportunity to complete their preparatory study of French at school.

Text Books: To be announced.

1. (1) *Tu., Th., and S.* at 9 a.m.; (2) *Tu., Th., and S.* at 10 a.m.; (3) *Tu., Th., and S.* at 11 a.m.
H. F. Aikens.

Prerequisite.—Matriculation French.

Text Books: To be announced.

2. **General Introduction to Literary and Daily French.**—(1) *M., W., and F.* at 10 a.m.; (2) *Tu., Th., and S.* at 9 a.m.
G. Lafeuille.

Prerequisite.—French 1.

This course is designed to develop ability to speak, understand and read French. Attention will be given to both practical and literary aspects of French.

3. **Oral and Written Self-expression and practice.**—*Tu. and Th.* at 3.30 p.m.

This course should be the next step for the students of French 2 who wish to carry on with oral and practical use of French as an ultimate objective.

Questions discussed in class: France: country, people and life; penitential philosophy and attitude of the French. Convenient books and material will be chosen at the beginning of the year.

4. **General Survey of French Thought and Literature.**—*Tu., and Th.* at 10 a.m.
G. Lafeuille.

This course is recommended to students interested in literature as a useful introduction to more specialized classes. A comprehensive anthology of French texts will be used.

7. **Twentieth Century French Literature.**—*W., and F.* at 10 a. m.
8. **Old French.**—*Hours to be arranged.*
G. Lafeuille.

This class will be offered only for five or more students.

N.B.—French, 3, 6, 7 will be conducted entirely in French. French 2 will be partly in English, partly in French.

9. **The Renaissance in France. History of French Literature during the 16th Century.**—*W., and F.* at 9 a.m.
G. Lafeuille.

This class will be offered only for five or more students.

- General Phonetics.**—Two lectures a week. *Hours to be arranged.*
H. F. Aikens.

Prerequisites.—University classes in two modern languages (a class in English dealing with linguistic problems may be offered as part of this requirement).

Of interest to those wishing to specialize in problems of pronunciation, particularly those who plan to teach a language. The course includes a study of the vocal organs; description and classification of speech sounds in general, with special attention, if desired, to certain sounds peculiar to French, Spanish, German and English; and familiarization with the use of phonetic symbols.

German

- A.**—(1) *M., W. and F.*, at 11 a.m.; (2) *Tu., Th. and S.*, at 11 a.m.
J. Richter.

For students who have not had an opportunity to complete Matriculation German in school. Students who enter this class with credit for complete matriculation including two foreign languages may count a pass as a credit towards a degree.

1.—*Hours to be arranged.*

Prerequisite.—Matriculation German.

This course is designed to familiarize the students with spoken and written German. Short pieces of German Literature will be read.

2.—*M., W. and F.*, at 9 a.m. J. Richter.

Prerequisite.—German A or L.

This course is meant to develop facility in reading, writing and speaking German. A general introduction to German Literature will be given.

3. **Science Reading.**—*Tu., and Th.*, at 12 a.m.

Prerequisite.—German A or I or equivalent reading knowledge of German.

This course is designed to enable science and pre-medical students to use scientific texts.

4.—*M., W. and F.*, at 10 a.m., or *hours to be arranged.* J. Richter.

The aim of this course is to familiarize the students with the artistic qualities of German literary prose. A collection of short stories as examples of literary movements will be read and their composition and style analysed. Short essays will be written. This course should be taken as an introduction to more specialized classes in German literature.

Students intending to take this course are advised to see the instructor for summer reading.

B. German Literature and Thought in the Eighteenth Century.—(1949-50). *Tu. and Th.*, at 10 a.m., or *hours to be arranged.* J. Richter.

Special emphasis will be placed on Goethe's Thought. Poetry, prose and drama will be read.

Students intending to take this class must arrange for summer reading.

C. German Literature and Thought in the Nineteenth Century.—(1951-52). *Tu. and Th.*, at 10 a.m., or *hours to be arranged.* J. Richter.

Of the dramatists of that period Kleist and Hebbel will be read, and of the novelists and lyricists, Stifter, Storm, Gottfried Keller, Fontane,

Sammler reading is required.

D. German Literature and Thought in the Twentieth Century.—(1950-51). *Tu. and Th.*, at 10 a.m., or *hours to be arranged.* J. Richter.

Gerhart Hauptmann, Thomas Mann,—Rainer Maria Rilke—Hermann Hesse will be read.

Preparatory reading during the summer necessary.

E. German Mediaeval Literature.—(1951-52). *Hours to be arranged.* J. Richter.

This course will not be given unless a sufficient number of students offer.

F. History of the German Language.—*Hours to be arranged.*

N.B.—German 5, 6, 7, 8 will be conducted entirely in German. German 1, 2 and 4 will be partly in English and partly in German.

All prospective Honour students ought to consult the department as early as possible in their course.

Italian

1. *Three hours a week.* *M., W.*, at 2:30 p.m.

Prerequisite.—Elementary Latin or Latin I and one Romance Language (French or Spanish).

Books to be arranged.

Russian

Elementary Russian.—*Three hours a week, times to be arranged, plus a half hour's conversation.* I. Coffin, A. K. Griffin.

This class is intended for those beginning the study of the Russian language. It may be counted as a credit towards a degree by those students who enter it with complete matriculation standing.

Text Books: Semenoff, *A New Russian Grammar, A First Russian Reader* (J. M. Dent & Sons, London, and E. P. Dutton & Co., New York); G. T. Partridge, *An Elementary Russian Reader, An Intermediate Russian Reader*, (Sir Isaac Pitman & Sons (Canada) Ltd.).

Russian I.—*Three hours a week, times to be arranged.*

Prerequisite.—Elementary Russian.

Selections from Russian Authors, Russian Grammar, Russian Composition, Russian Conversation.

Text Books: Semenoff, *A New Russian Grammar, A First Russian Reader* (J. M. Dent & Sons, London, and E. P. Dutton & Co., New York); G. T. Partridge, *An Elementary Russian Reader, An Intermediate Russian Reader*, (Sir Isaac Pitman & Sons (Canada) Ltd.).

Scientific Russian.—*Three hours a week, times to be arranged.*

This class is intended for those beginning the study of Russian, who wish to read scientific articles as quickly as possible. It is expected that with steady application they will be able to do so, with the aid of a dictionary, in a single academic year.

Text Books: A grammar to be provided, *Elementary Scientific Russian Reader* (Zaslawsky Sir Isaac Pitman & Sons (Canada) Ltd.).

Higher work in Russian may be arranged by consultation with the instructor.

Spanish

Spanish Matriculation.—*Tu., Th., and S.* at 10 a.m. C. H. Mercer.

Text Books: House and Major: *Short Spanish Grammar* (Ginn). Farnham and John: *Castile & Leonor* (Heath). Camille and Sparkman: *Sigmar Leende* (Heath). Spanish Work Book.

Spanish 1A.—(1) *M., W., and F.* of 9 a.m. C. H. Mercer.
(2) *M., W., and F.* of 10 a.m.

Prerequisite.—Complete matriculation standing including two foreign languages. Spanish 1A covers matriculation Spanish with sufficient additional work to give credit for a University class towards a degree.

Text Books: *Louis Spanish for Conversation* (Ginn). *Spanish Leende* (Heath). *Barnasen* (Heath). *Spanish American Short Stories* (Macmillan). Spanish Work Book.

I. *Tu., Th., and S.* at 9 a.m. C. H. Mercer.

Prerequisite.—Matriculation Spanish.

Text Books: *Louis Spanish for Conversation* (Ginn). *Spanish American Short Stories* (Macmillan). Spanish Work Book.

2. *Tu., Th., and S.* of 11 a.m. C. H. Mercer.

Prerequisite.—Spanish 1A or Spanish 1.

Text Books: *Louis Spanish for Conversation* (Ginn). *Castile La Reina Tuñer* (Heath). *Cuentos Andaluces* (Heath). Spanish Work Book. *Lingraphone Conversational Course*.

3. (1950-51). *W. and F.* at 4.30 p.m. C. H. Mercer.

Prerequisite.—Spanish 2.

Text Books: Crawford: *Un Viaje por Espana*. Luria: *Correspondencia Comercial* (Silver, Burdett). William: *An Outline of Modern Spanish Prose*. Lingraphone Conversational Course. *Le Prese* (Spanish newspaper).

4. (1949-50). *W. and F.* of 4.30 p.m. C. H. Mercer.

Prerequisite.—Spanish 2.

Text Books: Rivera: *Lectura de Temas Castellanos* (Heath). Luria: *Correspondencia Comercial* (Silver, Burdett). Lauchert: *Lecturas de Mar* (Crotchet). William: *Antología de Cuentos Americanos* (Heath).

5. History of the Spanish Language.—Hours to be arranged. C. H. Mercer.

Text Books: R. Minguiles Pidal: *Manual de gramática histórica española. Poemas de mis padres* (Ed. Clásicos castellanos, Madrid, 1914). Bocón: *Manzanares de naciones americanas*. Clásicos castellanos, Madrid, 1912.

Additional for Distinction: C. H. Granger: *An Introduction to Vulgar Latin. Old Spanish Readings* (G. D. M. Ford).

Music

Lecturer..... Harry Dean.

Music 1.—Harmony and Analysis of Musical Form 1—Lecture periods by arrangement.

Music 2.—History of Music, Appreciation of Music, Public School Music. Sight-singing and Ear-training.—M., W. and F., 12 a.m. to 1 p.m.

These classes are given only if a sufficient number of students apply for them.

Philosophy

Associate Professor Acting (Head of Dept.), G. P. Grant (on leave),
Professor (Part Time), H. L. Stewart.

1. **Introduction to Philosophy.**—Tu., Th. and S. at 9 a.m.
 Prerequisite.—*Philosophy 1.*
 2. **Early Greek Philosophy and the Philosophy of Plato.**—Hours to be arranged.
 J. A. Doull.
 Prerequisite.—*Philosophy 1.*
 3. **The Philosophy of Aristotle.**
 Prerequisite.—*Philosophy 1.*
 4. **Ancient Philosophy from Aristotle to St. Augustine.**—(1949-50). M. and W. of 4:30 p.m.
 F. H. Page.
 Prerequisite.—*Philosophy 1.*
 5. **Mediaeval and Renaissance Philosophy.**—(1949-50). Hours to be arranged.
 H. L. Stewart.
 Prerequisite.—*Philosophy 1.*
 6. **Modern Philosophy.**—(1949-50). Hours to be arranged.
 Prerequisite.—*Philosophy 1.*
 7. **English Philosophy in the 17th and 18th Centuries.**—(1949-50). M. and W. at 4:30 p.m.
 F. H. Page.
 Prerequisite.—*Philosophy 1.*
 8. **Philosophy of History.**—(1949-50). W. and F. at 12 m.

Physics

Professors, J. H. J. Johnston (Head of Dept.), G. H. Henderson.
Associate Professors, E. W. Guptill.
Assistant Professors, L. G. Stephens-Newsham.
MacGregor Teaching Fellow, A. T. Crotty, A. Gibson.
Observators, C. K. Hart, E. S. Warren, R. E. Banks, D. H. Rogers, D. Wylie, A. Melanson, C. Piggott, W. G. Bailey, G. B. Crawford.

Physics 1 and 2 are first courses in Physics, and no student is permitted to include both for a degree. Physics 1 is intended for Arts and Science students, and for those intending to proceed to the study of Medicine and Dentistry. Physics 2 must be taken by all Engineering students. It should be taken by students in Arts and Sciences who intend to major in Mathematics, Physics or Chemistry.

1. **General Physics.**—*Lect.*: M., W. and F. at 11 a.m. *Labs.*: *Three hours per week.* W. J. Archibald.

Prerequisite.—Matriculation Trigonometry or Mathematics 1, which may, however, be taken at the same time.

Text Book: Stewart: *Physics*, 4th Edition.

2. **Mechanics, Hydrostatics, Heat, Light and Sound.**—*Lect.*: M., W. and F. at 10 a.m. *Lect.*: W. or F., 2:30 to 5:30 p.m. J. H. J. Johnston.

Text Book: Sons: *Zemansky: College Physics*.

Prerequisite.—Matriculation Trigonometry or Mathematics 1, which however, may be taken at the same time.

3. **Electricity and Magnetism.**—*Lect.*: Tu., Th. and S. at 9 a.m. *Labs.*: W. or F., 2:30 to 5:30 p.m. J. H. J. Johnston.

Prerequisite.—Physics 1 or 2, and Mathematics 2, which may, however be taken at the same time.

Text Book: Kiessell: *College Physics*, 4th Edition. Brown: *Electricity and Magnetism*.

4. **Heat and Light.**—*Lect.*: M., W. and F. at 9 a.m. *Labs.*: Tu., 2:30 to 5:30 p.m. E. W. Guptill.

Prerequisite.—Physics 1 or 2 and Mathematics 2, which may, however, be taken at the same time.

5. **Optics.**—*Lect.*: M. and W. at 11 a.m. J. H. L. Johnstone.

6. **Electricity and Magnetism.**—*Lect.*: Tu. and Th. at 10 a.m. *Labs.*: M., 2:30 to 5:30 p.m., or to be arranged. G. H. Henderson†.

Prerequisite.—Mathematics 2, Physics 3.

7. **Thermodynamics.**—*Lect.*: M. and W. at 11 a.m. J. H. L. Johnstone.

Prerequisite.—Mathematics 2 and Physics 4.

† Died June, 1949.

8. Modern Physics.—*Two hours lectures.*

Prerequisite.—Two classes in Physics. L. G. Stephens-Newsham.
Book Recommended: *Strauman: Particles of Modern Physics.*

An introductory course, treating from the experimental side such topics as electrons, radio activity, X-rays and the structure of matter.

9. Wave Propagation.—*Two hours lectures.* E. W. Guppill.
Prerequisite.—Mathematics 3. Physics 3 and 4.**10. Acoustics.**—*Two hours lectures* W. J. Archibald.
Prerequisite.—Mathematics 3; Physics 3 and 4.**11A. Advanced Physics Laboratory.**—*Six hours per week.*
Prerequisites.—Physics 1 or 2 and 3.**11B. Advanced Physics Laboratory.**—*Six hours per week.*
Prerequisites.—Physics 11A.**12. Research Course.**—*At least ten hours per week.*

The work will consist of new investigations conducted by students who show sufficient ability and are otherwise qualified to undertake it.

Mathematical Physics**Professor.**..... W. J. Archibald.**14. Mechanics.**..... W. J. Archibald.

Prerequisite.—Mathematics 2 and Physics 2.

A general class in statics and dynamics applied to particles and rigid bodies, conducted chiefly by problem work.

Books Recommended: *Lusk: Statics; Dynamics.*

15. Advanced Mechanics...... W. J. Archibald.

Prerequisite.—Physics 14.

A continuation of the previous class.

16. Introduction to Mathematical Physics...... G. H. Henderson.†

Prerequisite.—Mathematics 3 and Physics 6.

17. Mathematical Physics...... G. H. Henderson.†

Prerequisite.—Physics 16.

Books Recommended: *Sister and Frank: Introduction to Theoretical Physics.*

18. Quantum Theory...... G. H. Henderson.†

Prerequisite.—Physics 7 and 14.

19. Advanced Electricity and Magnetism...... G. H. Henderson.†

Prerequisite.—Physics 16.

Books Recommended: *Jones: Electricity and Magnetism.*

Seminar and Journal Club.—Tu. of 12 noon.

Lectures on recent developments in Physics and Chemistry; presentation of papers by science students; reviews of current journals. All Honour, and Graduate students are required to attend.

Faculty of Law**Preliminary Statement**

The Faculty of Law was organized in 1883. A curriculum was then prescribed extending over three years and leading to the degree of Bachelor of Laws. The curriculum has been modified from time to time and at present closely corresponds to the Standard Curriculum recommended by the Canadian Bar Association.

A Chair of Constitutional and International Law was endowed by George Munro, of New York, in 1883, as one of his many generous benefactions to the University. Richard Chapman Weldon, Ph.D., was appointed to this Chair in the same year and was made Dean of the Faculty, and held this position until his retirement from teaching in 1914. In 1931 there was established, in memory of the late Dean Weldon, a Chair, the holder of which is called the "Weldon Memorial Professor of Law". The professorship of Contracts was held continuously from the beginning by Dr. Benjamin Russell, lately one of the Justices of the Supreme Court of Nova Scotia until 1921. In 1932, there was established in his honour a Chair, the holder of which is called the "Russell Professor of Law". In 1944 Viscount Bennett, LL.B. 1893, gave \$725,000 to the University, part of which sum provided for the endowment of a new Chair, the holder of which is to be known as "The Viscount Bennett Professor of Law," and for the completion of the endowment of the Weldon Chair, henceforth to be held by the Dean of Law under the title of "The Dean Weldon Professor of Law." An additional full-time member of the staff was added in 1920, another in 1921, and a fourth in 1930. Besides the full-time teachers, various members of the Bench and Bar of the Province give their services as voluntary lecturers in various courses at the School and others lecture on special other topics.

The Law School occupies the first two floors of the north wing of the Forrest Building on Carleton Street. A new building was erected on the Studley Campus in 1921, which is designed for the use of the Law School as soon as a new building can be erected for Arts. The Library of the Law School contains over 16,000 volumes, including all the English and Canadian Reports, a number of reports of the United States, and various sets of legal periodicals. The Library also includes a special collection of works dealing with the subjects of Legal History, Jurisprudence and Political Theory, known as the Bennett Collection. It also contains books known as the Alexander Ross Collection, purchased out of the income of a fund provided by the late Alexander Ross.

Affiliated Courses

Certain classes taken in this Faculty may be accepted as part of the requirements for the degree of Bachelor of Arts or Bachelor of Commerce. See pages 35 and 37.

Regulations of the Nova Scotia Barristers' Society

The Nova Scotia Barristers' Society will exempt from its Preliminary Examinations students who have completed Matriculation into Dalhousie or any other approved College or University, and (1) have passed in the subjects required by the Faculty of Law of Dalhousie University as prerequisites for the admission of students to the said Faculty, (see 1(a)(a)) or in subjects deemed to be equivalent thereto by the Society; or (2) who hold the degree of Bachelor of Arts, Science or Commerce from Dalhousie or any other approved College or University.

By virtue of an arrangement between Dalhousie University and the Society, whereby the Society appoints conjoint examiners to act with the examiners of the Faculty of Law in the consideration of examination papers, the Society exempts from its Professional Examinations holders of the degrees of Bachelor of Laws from Dalhousie University, thereby enabling them to proceed to the Nova Scotia Bar without further examination.

By a recent amendment to the Rules and Regulations of the Nova Scotia Barristers' Society a student desiring admission to the Bar of Nova Scotia must serve either one year of clerkship with a practising solicitor for a period of nine months after he has received his degree in Law from Dalhousie or any other approved University or, in the alternative, for a period of not less than two months or more than three months between the second and third year of his course in Law and for such a further period after he has received his degree in Law as shall be necessary to bring his total period of service up to nine months. N. B.—An amendment in 1944 further provides that "a person who has served in His Majesty's Forces during the present war may complete the required service under articles by service for three months after the sessions of the first and second years respectively of his course in law and for a further period of three months after he has received that degree."

General University Regulations

University regulations applicable to the students of all Faculties and relating to registration, residence, church attendance, discipline, etc., will be found on p. 17 *c. seq.*

The University, in recognition of its responsibility to the public, and for its own reputation, reserves the right to terminate the attendance of any student at any time should it appear that he is unlikely to reach such a standard, in the judgment of the Senate, as would warrant his admission to the practice of Law. Fees cannot be refunded to students who have been dismissed for any cause.

Degree

The only degree conferred in the Faculty of Law is that of Bachelor of Laws (LL.B.).

ADMISSION

Academic Year

The Academic Year consists of one session of two terms covering a period of about thirty-six weeks. The first term of the session of 1949-50 will begin on Tuesday, September 13, 1949, and end on Saturday, December 17, 1949. The second term of the session of 1949-50 will begin on Wednesday, January 4, 1950, and end on Tuesday, May 16, 1950. The last day on which students can register for the work of this session is Monday, September 19, at noon. Students are registered for the whole session only and not for one or other of the two terms.

Admission

Students are admitted to classes either as Special students without formal examination, or as Undergraduates in Arts taking the affiliated subjects in Law for the degree of Bachelor of Arts, or as Regular Undergraduates in Law.

Application must be made before August 15 on a form to be obtained from the Registrar. Upon notice of acceptance to any class in the Faculty of Law prospective students are required to deposit immediately with the Registrar the sum of \$20.00 towards fees.

Special Students.—Subject to the University regulations for the admission of students (p. 24), a student may be admitted to classes in this Faculty as a Special student, but his attendance is not recognized as qualifying for a degree.

Undergraduates in Arts.—An undergraduate in Arts looking forward to the study of Law may take the classes of the first year of the Law course and have them count in place of three of the ten electives required for the degree of Bachelor of Arts (see p. 34). Such undergraduate should arrange his Arts course so as to take along with it the remaining subjects of the first year of the Law course and thus be able to complete this course in two more years. For this purpose he should consult the Registrar early in his Arts course.

Students who have Grade XII certificates and enter the Arts Faculty with credits are advised that they cannot in general expect to complete the combined courses in Arts and Law in less than six years.

Regular Undergraduates in Law.—The requirements for admission vary accordingly as the candidate does or does not hold the degree of Bachelor of Arts, Science or Commerce from a recognized College or University. In detail these requirements are as follows:

(1) Candidates for admission must have completed Matriculation in Arts, Science or Commerce and must also present satis-

factory certificates of having attended and passed at some degree-granting College or University recognized by the Senate for the purpose at least ten regular and approved classes of the course for the degree of Bachelor of Arts or Science or Commerce, comprising two classes in English, one class in a Classical or Modern language, one class in Mathematics, two classes chosen from History, Economics or Political Science, and four other classes satisfactory to the Registrar and to the Dean of Law. (Students with credit in the Faculty of Arts for Grade XII or equivalent standing may be exempted from any of the foregoing classes, not exceeding five in number, for which they have received credit upon admission and the aforesaid number of ten classes may be reduced accordingly.) Students who have completed Matriculation, and have passed in all of the required classes above mentioned except one may, in exceptional cases, be admitted into the Faculty of Law and allowed to take that class during their First Year; but no student will be admitted as a regular student in Second Year Law unless he has complied with all of the above requirements.

(2) Candidates for admission who present satisfactory certificates of having received the degree of Bachelor of Arts or of Science or of Commerce in course at some degree-granting College or University recognized by the Senate for the purpose may be admitted as regular undergraduates in Law whether or not their course for that degree has included the above specified subjects.

Ex-service Men and Women

The foregoing requirements for admission as regular undergraduates in Law have been modified for ex-service men and women, who will be admitted on presentation of satisfactory evidence that they have completed Junior Matriculation in Arts, Science or Commerce, and five university classes, or the equivalent thereof, on a Senior Matriculation certificate.

Students presenting themselves for the first time to register in the Faculty of Law must submit to the Registrar their diplomas or certificates to establish their qualifications and *these must prove acceptable before the student can be registered*. Students are consequently advised to mail such certificates to the Registrar for appraisal as far in advance as possible.

Students presenting themselves for the first time to register in the University and who are looking forward to the study of Law should at the earliest possible opportunity consult the Dean of the Faculty of Law.

Undergraduates of other approved law schools may, on producing satisfactory certificates, be admitted *as eundem status* in this Law School (p. 30).

Matriculation

For details of the requirements for Matriculation, see pp. 25-28.

Curriculum*

First Year.—

Contracts, History of English Law, Property I, Crimes, Torts.

These classes will be preceded by a short course on the Elements of the Legal System.

Second Year.—

Bills and Notes, Insurance, Agency and Partnership, Property II, Corporations, Procedure I, Equity I, Legislation.

Third Year.—

International Law, Mortgages, Administrative Law, Equity II, Taxation, Constitutional Law, Shipping, Conflict of Laws, Procedure II, Evidence.

The foregoing schedule is subject to modification either by transposition of subjects from one term to the other, or otherwise.

Detailed information regarding the classes included in these courses will be found under Classes of Instruction, p. 116 *et seq.*

In addition to the work given in the regular subjects of the curriculum, special lectures will be given by members of the Bench and Bar. Attendance at these will be required.

No student shall be allowed to take a class belonging to a year in advance of his own year without special permission from the Faculty.

*It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this calendar are intended for the current year only. Not does the University hold itself bound to adhere absolutely to the curriculum and conditions laid down.

No student shall be allowed to take classes in other faculties of the University, without special permission from the Faculty of Law.

Mock Parliament

This is conducted on the model of the House of Commons of Canada with strict regard to the rules of parliamentary procedure.

Moot Court

Each student is expected to participate each year in at least one argument in the Moot Court. The final argument each year takes place before a Bench of Supreme Court Justices.

Attendance

In order to be permitted to write an examination, a student must have credit for attendance in 90 per cent. of the lectures or other meetings of the class in question.

Examinations

Final examinations in some subjects will be held immediately before the Christmas vacation. Examinations in the remaining subjects will be held after the close of lectures in the spring.

Supplemental Examinations

A student who has failed in more than two subjects of any year, or who has made an average mark of less than 55 per cent. in the regular examinations of any year, must repeat the whole of the work of that year.

A student failing to pass in one or two subjects of any year at the regular examinations must pass a supplemental examination in such subject or subjects. For admission to the Second or Third Year a student must have completed all requirements for admission and must have passed the examinations in all subjects of the First and Second Years respectively, unless in exceptional cases special permission is given by the Faculty.

Supplemental examinations are held in the autumn on the dates specified in the University Almanac, and during the regular examinations in the spring, but at no other times.

Application for admission to a Supplemental examination must be made on or before the date set in the University Almanac for receiving applications, on a form to be obtained from the Registrar's Office, and must be accompanied by the proper fee.

Medals and Prizes

For Scholarships and Prizes open to all students of the University see pp. 58-62.

University Medal in Law.—This medal may be awarded on graduation to the student standing highest among those taking the full regular third year curriculum, provided he reaches a very high standard of excellence, and obtains First Class Distinction in at least all but three of the subjects of examination.

Carswell Prizes.—Books to the value of \$30 will be awarded to each of the students making the highest aggregates in the second and third year examinations respectively.

Sir Joseph Chisholm Prize.—A prize of \$50 will be awarded to the third year student who submits the best thesis on a legal subject. The award to be approved by the Faculty of Law.

Class of 1910 Prize.—A prize of \$50 will be awarded to the student making the highest marks in the class on Constitutional Law. In any year in which the class on Constitutional Law is not given, the prize may be awarded to the third year student making the highest marks in any class selected by the Faculty.

Class of 1911 Prize.—A prize of \$50 will be awarded to the student making the highest aggregate in the first year.

Vincent MacDonald Prize.—Books to the value of approximately \$20 will be awarded to the student of the second year, who, in the opinion of the Faculty, has shown the most satisfactory progress during that year and has attained at least second-class standing.

F. L. Milner Prize.—A prize of \$25.00 will be awarded to the student making the highest mark in History of English Law provided he attains First Class distinction therein.

Stuart Clark Lane Memorial Prize.—A prize of \$25.00 will be awarded to the student making the highest mark in Administrative Law. This prize is donated by the Class of 1940 in memory of their classmate killed in action.

Viscount Bennett Trust Fund Scholarships.—Under the terms of a deed of gift to the Canadian Bar Association from The Right Honourable Viscount Bennett, P.C., K.C., LL.D., D.C.L., Honorary Life President of the Association, a trust fund known as the Viscount Bennett Trust Fund has been established. The annual income from the Fund or the sum of \$1000, whichever is the less, will be paid annually as a scholarship for post-

graduate study in law at an institute of higher learning to be approved by a Scholarship Committee. The Scholarship is open to a person of either sex who has graduated from an approved law school in Canada or who, at the time of application, is pursuing his or her final year of studies as an undergraduate student. The award is to be made at a meeting of the Committee to be held at the time of the Mid-Winter Meeting of the Council of the Association (usually in February). The Faculty of Law of Dalhousie University has been approved by the Committee. Full information as to qualifications of applicants and the necessary forms may be had on application to the Dean of Law.

Loan Fund

The Nova Scotia Barristers' Society has set aside \$1000 as a Fund from which loans may be made to students registered in the Faculty of Law, upon terms contained in the Regulations of the Society.

Fees

All fees and deposits are payable in advance, and until these are paid the student will neither receive credit for attendance upon any class, nor be admitted to any examination.

For Registration*

Students departing from the prescribed curriculum will be charged for each class singly; but the maximum charge for three years shall be.....	300.00
*For each Supplemental examination.....	15.00

*Students who register only for the purpose of taking examinations are exempt from the payment of this fee.

*If application for refund of supplemental examination fees is not made within 30 days of the respective examination date, the fee will be forfeited.

For Certificates and Diplomas

An application for a Certificate or Diploma must be accompanied by the proper fee.

Certificate of Standing: first copy—no charge; additional copies—each..... \$.50

For LL.B. diploma (payable before the Third Year of final examinations, and returnable in case of failure)..... 20.00

Additional fee when a degree is conferred *in absentia* at the Spring Convocation 10.00

No reduction will be made in tuition fees payable to a student repeating the regular courses of any one year of the curriculum.

The student must pay the fees for the full year whether the classes are attended for all or part of the course, except in the case where he is compelled to withdraw from the University through illness or for some other equally valid and accepted reason.

If such withdrawal takes place previous to December 1 one-half of the annual tuition fee will be refunded and if between December 1 and February 1 the student will be allowed to repeat his year at one-half the usual tuition fee.

No return of fees will be made to any student dismissed from classes or from the University.

See pages 22 and 23 for Caution Deposit and Fee for support of Student Organizations.

The class includes a study of the leading principles of Private International Law.

Taxation

Lecturer..... J. R. Milner.

Three hours per week, one term.

This class includes a general introduction to the principles of accounting having special relevance to income taxation problems; an examination of legal problems arising out of legislation relating to the taxation of income and succession; and some reference to municipal assessment.

Mortgages II

Lecturer..... Moffatt Hancock.

Three lectures per week, one term.

The class includes a study of the law governing Mortgages of Real Estate.

Text Book: Falconbridge: *Law of Mortgages*.

Equity II

Lecturer..... A. G. Cooper.

Three lectures per week, one term.

The class includes a study of the law governing Trusts and Trustees.

Text Books: Smith: *Cases on Trusts*. Huskisson: *Equity*.

Procedure II

Lecturer..... J. E. Rutledge, Dessevretiere.

R. T. Donald, E. F. Cragg.

Two lectures per week, both terms.

This course is a continuation of Procedure I. In both of these courses an attempt is made to give some training in the preparation of documents used in litigation and in the making of motions in a Practice Court.

Evidence

Lecturer..... Mr. Justice Doall.

Two lectures per week, both terms.

The course includes a study of the law of Evidence generally and of the Dominion and Provincial legislation thereon.

Text Books: Wigmore: *Evidence*. Bent: *Evidence*. Phillips: *Evidence*. Cooke: *Cases on Evidence*.

Note.—The following works are used for the purpose of reference in the classes of the curriculum generally: *Corpus Juris*; *Corpus Juris Secundum*; *The Laws of England* (Hailsham edition); *The Canadian Abridgement*.

**May not be given in 1949-50.

Faculty of Medicine

Preliminary Statement

By an arrangement between Dalhousie University and the Provincial Medical Board of Nova Scotia, the final Professional Examinations at the end of the fourth and fifth years are conducted conjointly by the University and the Board, and hence candidates may qualify at the same time for the academic degree and the licence of the Board.

Provincial Regulations

Students who look forward to practising in some other provinces are reminded that they must conform to the regulations prescribed by the Medical Board or Council of that province. Official information relative to the regulations for licence to practise in the various provinces may be obtained from the Registrars of the Provincial Medical Boards or Councils. Inasmuch as some licensing boards require that applicants for the licence to practise must have been registered as medical students for five years before taking their final professional examinations, students are advised to register with the licensing board of the province or state to which they belong on commencing their medical studies. For details of these examinations and relative fees as well as fees for Medical Registration the student is advised to consult the Registrar of the Board. The names and addresses of the Registrars of the Medical Boards for the Maritime Provinces including Newfoundland are as follows:

Nova Scotia. Dr. H. L. Scammon, Halifax.

New Brunswick. Dr. J. M. Barry, Saint John.

Prince Edward Island. Dr. H. D. Johnson, Charlottetown.

Newfoundland. Dr. Cluny Macpherson, St. John's.

Privileges

The General Medical Council of the United Kingdom admits graduates in Medicine of Dalhousie University who have passed the professional examinations conducted jointly by the University and the Provincial Medical Board, and have been licensed by the Board, to registration in the Colonial List of the British Medical Register. This confers precisely the same privileges as registration on the British List, viz., the right to obtain, without further examination, the licence to practise medicine in nearly every part of the British Empire.

For information relative to registration in the Colonial List of the British Register application should be made to the Registrar of the Provincial Medical Board of Nova Scotia.

The Medical Buildings

A group of buildings situated on the Forrest Campus are used in whole or in part by the Medical Faculty. They, with the teaching hospitals, form a compact and a well integrated group. All are modern and well designed for teaching and research. The newest of the buildings is the Medical-Dental Library. The oldest is the Forrest Building which contains the Departments of Anatomy and of Histology and Embryology. The Medical Sciences Building houses the Departments of Physiology, of Biochemistry, and of Pharmacology. The Dalhousie Public Health Clinic, a gift of the Rockefeller Foundation, provides excellent facilities for the study of Preventive Medicine and an Out-Patient Department. This building houses the offices of the City Health Department nurses, the Dalhousie Students' Health Service, the secretarial offices of the Faculty and of the Medical Society of Nova Scotia and it forms the centre of many health activities. Through the courtesy of the Department of Health of the Province of Nova Scotia, the Pathological Institute is used for teaching Pathology, Bacteriology and Immunology. Through the courtesy of the several Boards of Directors, the hospitals named in the following paragraphs are made available for teaching purposes.

The Laboratories

The laboratories of Anatomy, Biochemistry, Histology and Embryology, Pathology and Bacteriology, Pharmacology, and Physiology are commodious, well lighted and well equipped. Space and special equipment is available for advanced work and for research.

Medical Museums

The Department consists of the Anatomy Museum, housed on the top floor of the Forrest Building, and of the Medical Museum on the ground floor of the Pathological Institute, and their attendant offices.

The Medical and Dental Library

In the spring of 1939 the new building for the Medical and Dental libraries was completed. This modern building was made possible through the gift of the Carnegie Corporation (\$50,000) "for library development," and through gifts received from the Honourable J. C. Tory, J. McG. Stewart, Esq., K.C., Dr. W. Inglis Morse, A. B. Wiswell, Esq., the Honourable W. H.

Dennis, A. H. Buckley, Esq., Dr. John Cameron and Peter R. Jack, Esq. The library building is on the Forrest Campus convenient to the medical buildings and to the hospitals. It has a spacious reading room accommodating eighty readers. The system of open stacks is used. There is a collection of over 20,000 volumes and most of the medical periodicals of the world are subscribed to. It is in charge of a trained medical librarian.

During 1941 the Provincial Medical Board established a Library to be known as the Dr. John George MacDougall Library in recognition of the many years of service to the profession by Dr. MacDougall as a member and later as President of this body. Arrangements have been made to house the collection in the Dalhousie Medical Library where it will be available to medical students and the members of the profession in the Province.

The Hospitals

The hospitals used for teaching are as follows: The Victoria General Hospital (585 beds), The Halifax Infirmary (275 beds and 60 bassinets), The Children's Hospital (120 beds), The Halifax Tuberculosis Hospital (126 beds), The Grace Maternity Hospital (60 beds and 62 bassinets), and The Halifax Hospital for Communicable Diseases (50 beds and 16 cribs). Camp Hill Military Hospital (326 beds). Instruction in mental diseases is given at the Nova Scotian Hospital, Dartmouth (450 beds).

All of these hospitals are well equipped and provide ample clinical material for teaching purposes. The main teaching hospital is the Victoria General Hospital. It was built as a teaching hospital and has every facility for that purpose. The students attend out-patients at the Victoria General Hospital and the Dalhousie Public Health Clinic.

General University Regulations

University regulations applicable to the students of all Faculties and relating to registration, residence, church attendance, discipline, etc., will be found on p. 17 *et seq.*

Medical students must further observe the regulations of the hospitals relative to students and student internes, and any violation of such regulations will be dealt with in the same way as if a University regulation were violated.

The Faculty of Medicine, in recognition of its responsibility to the public, reserves the right to retire any student from the study of medicine at any time should it appear that he is unlikely

to reach such a standard as would warrant his admission to the practice of medicine. Fees will not be refunded to students who have been dismissed for any cause.

Affiliated Courses

There is an affiliated course of Arts or Science and Medicine, in which the classes of the first year in Medicine are accepted for the degree of Bachelor of Arts or Science. The details of the course are given on pp. 36-37.

Academic Year

The Academic Year for the first four years of the course begins early in September. The first three extend until about the middle of May, the fourth year ending late in April. The exact dates will be found in the University Almanac, p. vi. The fifth year is a twelve month internship extending from May 1st.

Degree

The Degree conferred by the University is Doctor of Medicine and Master of Surgery (M.D.,C.M.).

Admission and Grading

All persons who have satisfied the Entrance Requirements (p. 26) in Medicine are eligible for admission but the number of those who will be admitted in any one year is limited. Primary consideration is given to British subjects, especially residents of the Maritime Provinces including Newfoundland. Application must be made on a form to be obtained from the Registrar. Upon notice of acceptance to any class in the Medical School prospective students are required to deposit immediately with the Registrar the sum of \$25.00 towards fees.

For admission to any subsequent year an undergraduate must have passed the examinations required in all subjects of the preceding year, unless in exceptional cases special permission is given by the Faculty. Students who fail in the spring examinations may be allowed to come up for supplemental examinations in the autumn under the following conditions:

(a) Supplemental examinations will not be allowed in more than two subjects.

(b) Those who fail to pass in all the subjects of their year at the spring examinations, or at the next ensuing supplemental

examination, must repeat attendance on all the courses of the year before again coming up for examination, unless a different course is prescribed by the Faculty. Such students will be on probation until Christmas, and may be required to withdraw if their showing at that time is not satisfactory.

Subject to the University regulations for the admission of students, a Special student may be admitted to classes in this Faculty, but his attendance is not recognized as qualifying for a degree.

No person under sixteen years of age is admitted to any class.

Entrance Requirements

Complete matriculation in Arts and Science followed by a minimum of two years at an accepted College of Arts and Science. The Courses required by Dalhousie University (see page 26) may be taken as a guide.

Curriculum*

The course for the degree of Doctor of Medicine and Master of Surgery extends over five years. Detailed information regarding the classes included in it will be found under "Classes of Instruction," p. 133 *et seq.*

The following arrangement of the curriculum into years will be followed as closely as possible, but some modifications may be found necessary.

First Year. Anatomy; Histology; Embryology; Physiology; Biochemistry; Hygiene; Psychobiology.

Second Year. Structural Neurology; Physiology; Biochemistry; Pathology; Bacteriology; Pharmacology and Materia Medica; Physical Diagnosis; Psychiatry; Introduction to Clinical Medicine and Clinical Surgery.

Third Year. Pathology; Laboratory Medicine; Pharmacology; Physical Diagnosis; Preventive Medicine; Medicine; Clinical Physiology; Psychiatry; Surgery; Applied Anatomy; Ophthalmology and Otolaryngology; Radiology; Obstetrics and Gynaecology; Paediatrics; Therapeutics.

Fourth Year. Preventive Medicine; Medicine; Medical Jurisprudence and Toxicology; Autopsies; Psychiatry; Surgery; Neuro-Surgery; Anesthesia; Urology and Dermatology; Ophthalmology, Laryngology and Otology; Radiology; Obstetrics and Gynaecology; Clinico-Pathological Conferences; Paediatrics, Medical Ethics.

*It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this calendar are intended for the current year only. No part of the University holds itself bound to adhere absolutely to the curriculum and conditions laid down.

Fifth Year. The final year is one of twelve months rotat-ing internship. All of our internships have been approved by the Committee on Internes of the Canadian Medical Association. They are held at the Victoria General Hospital at Halifax, and the Saint John General Hospital, in Saint John, N. B., or at hospitals affiliated with these two hospitals.

Regulations for Degrees

In addition to the entrance requirements, candidates for degrees are required to pass five Professional Examinations. The requirements in each subject are covered by the work of the class or classes in that subject specified under "Classes of Instruction" (p. 133 *et seq.*). In all subjects the marks obtained at sessional tests or at Christmas examinations or in oral or practical examinations will be considered in computing the marks allowed in each subject at the regular professional examinations. The examinations in the various subjects will be held within the dates set in the University Almanac, and as posted on the Notice Boards, and are arranged as follows:

First Professional Examination

Anatomy, Histology, Embryology, Physiology and Bio-chemistry.

Second Professional Examination

Structural Neurology, Physiology, Biochemistry, Pathology, Bacteriology, Psychobiology, Preventive Medicine, Pharmacology and Materia Medica.

Third Professional Examination

Surgery, Medicine, Pathology, Applied Anatomy, Laboratory Medicine and Preventive Medicine.

Fourth Professional Examination

Medicine including Therapeutics; Medical Jurisprudence and Toxicology; Psychiatry; Surgery; Obstetrics and Gynaecology; Paediatrics. The written examinations in Medicine, Surgery and Obstetrics and Gynaecology, are conducted jointly by the University and the Provincial Medical Board of Nova Scotia.

Fifth Professional Examination

An oral examination in each of the following subjects. Medicine including Therapeutics; Surgery including Surgical Anatomy; Obstetrics and Gynaecology; also a practical clinical examination in each of Medicine, Surgery, and Obstetrics and Gynaecology. All these are conjoint examinations conducted by the University and the Provincial Medical Board of Nova Scotia.

Pass and Distinction Lists

The names of candidates successful in the examinations are arranged in the published lists in two divisions, the Pass and Distinction divisions. To pass, a candidate must obtain a minimum mark of 50 per cent in each subject; for Distinction he must obtain a mark of 75 per cent or over. The names in the Pass division of the list are arranged in alphabetical order; those in the Distinction list are in order of merit.

Admission to Examinations

Candidates for admission to Degree examinations must conform to the following requirements:

1. They must have satisfied the Entrance requirements (p. 26).
2. They must have attended the prescribed classes regularly and punctually. Attendance of at least 80 per cent at any class is required.
3. They must have prepared such exercises, reports, etc., as may have been prescribed, and, in the case of classes involving laboratory or practical work, they must have completed such work satisfactorily.
4. For admission to the examinations of the second or any higher year they must have passed the examinations of all previous years. (Except as stated on p. 123).

5. Candidates for the Final Professional examination must have fulfilled satisfactorily the following requirements:

(1) Attendance at clinics or as clinical clerks in the third and fourth years at the Victoria General Hospital, the Children's Hospital, the Halifax Tuberculosis Hospital, Camp Hill Hospital, the Dalhousie Public Health Clinic, the Grace Maternity Hospital and the City Hospital for Communicable Diseases.

(2) Attendance on at least 20 maternity cases and, in addition, the delivery under supervision of 10 cases. These cases do not necessarily have to be attended at the Grace Maternity Hospital, but may be attended at any hospital at which a student is an intern or on the out-patient service.

(3) Attendance on the post-mortem examinations conducted at the Pathological Institute over a period of at least eight months, during which instruction shall have been received in the methods of making such examination and in framing reports.

(4) Submission of satisfactory reports on investigations of domiciliary and occupational conditions in relation to the illnesses of an assigned number of patients of the Public Health Clinic.

(5) Service for twelve months on rotating internships approved by the Canadian Medical Association.

Supplemental Examinations

The conditions under which supplemental examinations are allowed are set forth under "Admission and Grading" (p. 123).

Regular supplemental examinations are held in the autumn on the dates specified in the University Almanac, but at no other times.

Application for admission to a supplemental examination must be made on or before the date set in the University Almanac for receiving applications, on a form to be obtained from the Registrar's Office, and must be accompanied by the proper fee (p. 132).

Exemptions

Candidates may be exempted from attendance on one or more subjects of the first three years of the medical curriculum on presenting certificates.

- (a) of having satisfied the requirements for admission to the Faculty of Medicine (see page 26); and
- (b) of having attended and performed at any recognized medical school or college the equivalent of the work required at this University.

Candidates may be exempted from examination in one or more subjects of the first three Professional examinations on presenting, in addition to the certificates specified under (a) and (b) above, certificates of having passed equivalent examinations at any recognized medical school or college. Every such candidate must take all the other examinations of the year to which he is admitted.

The Oath

Before admission to his degree, a candidate shall be required to sign the following oath or affirmation:

As one about to receive the Degree of Doctor of Medicine and Master of Surgery, I solemnly affirm in the presence of Almighty God, the Searcher of Hearts:

That I shall ever remember Dalhousie University and faithfully fulfil the obligations of gratitude for my training;

That with constant care and scrupulous integrity, so far as lies in my power, I shall render professional service to the sick and to the injured;

That I shall not undertake to perform tasks beyond my ability and competence;

That I shall constantly strive by all reasonable means to add to my knowledge and skill;

That I shall abstain from all acts that might cast discredit upon my high and noble calling;

And that in the practice of my profession I shall at all times, to the utmost degree consistent with public duty, preserve inviolate the confidences of my patients.

So help me God to keep this Pledge.

Medals and Prizes

For Scholarships and Prizes open to all students of the University see pp. 58-62.

University Medal in Medicine.—This medal will be awarded on graduation to the student with the highest standing provided he has reached the high standard set by the Faculty for that purpose.

The Dr. A. F. Miller Prize.—A prize of \$25, presented by Dr. A. F. Miller of Kentville, will be awarded to the final year student who stands highest in his knowledge of Tuberculosis. Special examinations will be set for this prize.

Colonel Murray MacLaren Memorial Award.—A prize of \$100, presented by the Saint John General Hospital, Saint John, N. B., awarded each year to the interne demonstrating the highest increase in practical knowledge and the best record of service to the hospital, its patients and to his profession.

Halifax Infirmary Award.—A prize of \$100, presented by the Halifax Infirmary, Halifax, N. S., awarded each year to the interne having the best record.

The Victoria General Hospital Prize.—A prize of \$100, awarded by the Victoria General Hospital to the best interne resident at the hospital during the current interne year.

Anonymous Prize.—A prize of \$100, from an anonymous donor, will be awarded at the end of the session 1949-50, the object being to promote the interest of senior medical students in Anatomy as a subject of value to the physician and general practitioner. The prize is open to fourth year students. The course of study and examinations are to be set by the Anatomy Department. The award will only be made if the candidate is to remain a member of Dalhousie University in his final year. The Department is to have the right to withhold the award if no candidate produces results of a sufficiently high standard.

If the objects of the prize appear to be attained in the session 1949-50, the offer may be renewed in a subsequent session.

Applications are to be lodged with the Anatomy Department at the commencement of the session.

The Dr. Clara Olding Prize.—This prize, the interest of an endowment of \$1,000 given by Dr. A. M. Hebb, of Dartmouth, as memorial to his deceased wife, will be awarded annually to the student making the highest aggregate in the examinations of the fourth year, character and previous scholarship being taken into consideration.

The Dr. John F. Black Prize.—This prize, of the value of \$50, from the income of a bequest by the late Dr. John F. Black, a former Professor of Surgery, to be used by the Department of Surgery in the promotion of surgical teaching, will be awarded at the completion of the fourth year to the student who reaches the highest standing in Surgery.

The Andrew James Cowie, M.D., Memorial Medal.—This medal, founded by the late Miss Florence J. Cowie in memory of her father, will be awarded each year to the member of the fourth year class having the highest standing in Obstetrics, provided his standing in other subjects is sufficiently high to justify an award.

The Charles E. Frost Bursary.—A bursary of \$250, contributed by the Charles E. Frost and Company, of Montreal, to be awarded annually at the completion of the fourth year to a student entering the fifth year who has shown general proficiency throughout the course, character and need to be considered.

The Ross Stewart Smith Prize.—This prize, of the value of \$75, contributed by Mrs. Eliza Cochran Smith in furtherance of the wishes of herself and her late husband, Dr. James Ross Smith, as a memorial to their late son, Ross Stewart Smith, will be awarded at the completion of the third year to the student

who has carried on the most creditable advanced work in one or more of the preclinical subjects.

Prize in Pathology.—This prize of \$100 is given by the Hebrew community of western Nova Scotia and sections of New Brunswick.

The I.O.D.E. John Stewart Chapter Prize.—A prize of \$100, awarded to the student who at the completion of his second year shows proper academic standing and need for financial assistance.

The Professor John Cameron Prize in Anatomy.—This prize, the interest of an endowment of \$500, given by Dr. John Cameron, former Professor of Anatomy, will be awarded to the student of the first year who makes the highest marks in Anatomy.

Anonymous Prize.—A cash prize of \$25, from an anonymous donor, will be awarded to the student of the first year Anatomy class who has gained high distinction in that class, the attainments of the student in Practical Anatomy to be chiefly considered; the Department of Anatomy having the right to set special tests before it recommends any student for the award.

The Professor R. J. Bean Prize.—Awarded to the student who makes the highest aggregate in the first professional examinations in Histology and Embryology.

The A. B. Wiswell Scholarship in Medicine.—This Scholarship, the interest of an endowment of \$3,000, given by Mr. A. B. Wiswell, of Halifax, is to be awarded to a student completing the first year of the regular medical class. Character and financial need are to be considered, but the standing of the candidate in his class is the primary consideration.

The Dr. Clarence Francis ("Dennis") Moriarty Bursary—A bursary in Medicine will be awarded annually from 1949 to 1959 in memory of Dr. Moriarty, a graduate in the Class of 1925 of the Faculty of Medicine.

Entrance Scholarships

Five scholarships of the value of \$300.00 each will be awarded to students beginning the study of Medicine in September, 1949 as follows:

One to a resident of Cape Breton Island.

Two to residents of the Mainland of Nova Scotia.

One to a resident of New Brunswick.

One to a resident of either Prince Edward Island or Newfoundland.

Application should be made to the Dean of Medicine together with transcripts of matriculation and pre-medical records. Three letters of recommendation dealing with the candidate's truthfulness, unselfishness, idealism, and other qualities likely to produce a good physician should accompany the application.

The Kellogg Foundation Loan Fund

A scholarship and loan fund, established through the generosity of the W. K. Kellogg Foundation in 1942, who gave a total of \$16,500.00 to the Medical School to help medical students. Most of this gift was used for scholarships, but approximately \$1,000.00 was set aside as a loan fund. Loans will bear interest at the rate of 2½% and will mature one year after graduation of the student's class.

Any student in need may apply for help from this fund. Applications should be made in writing to the Dean of Medicine.

Fees

All fees and deposits are payable in advance, and until these are paid, the student will not receive credit for attendance upon any class nor will he be admitted to any examination.

For Registration*

Payable by students taking only one class in the University (including Library Fee of \$5.00).....	\$ 16.00
Payable by students taking more than one class (including Library Fee of \$5.00).....	21.00
Additional payable by all students registering after 12 noon on last regular registration day, for each day.....	2.00

For Tuition

For each class (other than Practical Anatomy) attended, when taken singly.....	\$ 60.00
Practical Anatomy.....	65.00
Payable by those taking the regular prescribed curriculae each year.....	325.00

This includes tuition, hospitals, clinics, laboratory work and the regular sessional examinations, but does not include registration, caution and laboratory deposits, and the fee for the support of student organizations.

No reduction will be made in the tuition fees payable by a student repeating the regular courses of any one year of the curriculum.

The student must pay the fees for the full year whether the classes are attended for all or part of the course, except in the case where he is compelled to withdraw from the University through illness or for some other equally valid and accepted reason. If such withdrawal takes place previous to December 1 one-half of the annual tuition fee will be refunded and if between December 1 and February 1, the student will be allowed to repeat his year at one-half the usual tuition fee.

No return of fees will be made to any student dismissed from classes or from the University.

*Students who register only for the purpose of taking examinations are exempt from the payment of this fee.

Microscopes

Previous to the war each student on registering for the first time in the Faculty of Medicine was required to provide himself with a microscope of a design and quality approved by the Faculty. Such instruments were for the most part purchased through the University. On account of the difficulty of obtaining a continuing supply of suitable microscopes, the University in keeping with its policy of assisting students as far as possible, has been obliged to change its practice. Until such time as microscopes are again available at a price within the means of the average student, the University will rent to each student requiring an instrument a suitable microscope at \$30.00 per session. The rental charge will be treated in the same manner as tuition and other fees and will be payable at the same time. Students who have rented a microscope from the University and who at a later date wish to buy an instrument elsewhere, must complete arrangements with Professor Bean for the return of the rented instrument not later than two (2) weeks from the assignment of the microscope. No refund of rental money will be made after that period. Each student will be held responsible for all damage to the instrument rented to him, ordinary tear and wear excepted. At the end of each session microscopes under rental will be turned in to the custody of Professor R. J. Bean, Department of Histology, promptly on the date set.

Diagnostic Sets

Each student on entering the fourth year Medicine must provide himself with a Diagnostic Set approved by the Faculty (the set shall include ophthalmoscope, otoscope and laryngoscope). Other necessary accessories are—stethoscope, flashlight, skin pencil, oral and rectal thermometers, haemocytometer, and hammer for eliciting reflexes. Two three-quarter length coats to be worn in the Hospital Wards are also required.

For Examinations

An application for an examination must be accompanied by the proper fee.
**Supplemental examinations, each subject.....\$ 15.00

For Certificates and Diplomas

An application for a Certificate or Diploma must be accompanied by the proper fee.
Certificate of Standing; first copy—no charge; additional copies—each.....\$.50
For M.D., C.M. Diploma (payable before the fifth year or final examinations and returnable in case of failure).....20.00
Diploma, payable by those attending less than 4 years.....40.00
Additional fee when a degree is conferred in absentia at the Spring Convocation.....10.00

See pages 21 to 23 for

Loan Funds.

Caution Deposit.

Laboratory Deposits.

Fee for Support of Student Organizations.

*If application for refund of supplemental examination fees is not made within 30 days of the relative examination date, the fee will be forfeited.

CLASSES OF INSTRUCTION

I. Anatomy

Professor.....	Donald Mairland.....
Assistant Professor.....	L. M. Murray.....
Instructor.....	Robert Bond Nichols.....
Demonstrators.....	J. V. Graham (Applied Anatomy), B. K. Cody, Jean Macdonald.

The course (ten hours per week) is conducted in the first year, and comprises the study of the naked-eye anatomy of the living human body, aided by dissection, radiography, and fluoroscopy. Special emphasis is laid on function, correlation with microscopic anatomy, accurate observation and description, and the correct evaluation of data. All information is selected with a view to its clinical value, and details of topographical relationships are given only when they are likely to be needed by the general practitioner. Lecture-demonstrations are held when required to elucidate current difficulties, but small-group teaching is preferred to a formal course of lectures. Students, with an instructor for each group of ten, practise on a living subject (two half-hour periods per student per week).

Besides daily inspection of X-ray films illustrating the parts that are being studied in the laboratory, groups under the guidance of instructors examine specially selected radiographs in numerous books on radiology. The Department's X-ray equipment provides films for student use as well as for research, and a fluoroscope is employed for demonstration, on the students themselves, of joint movements, thoracic organs and abdominal viscera (by opaque meal).

Dental students take part in the work on general anatomy, including fluoroscopy, to provide a basis for physiology and pathology; and they receive instruction on the head and neck specially designed for their future needs.

The Anatomy Department shares with the Department of Preventive Medicine in the instruction on the application of quantitative methods.

Encouragement is given to senior students and graduates to return for review and research, and facilities are made available to candidates for post-graduate examinations.

Books Required: Mairland: *Anatomy as a Basis for Medical and Dental Practice*; Grant: *An Atlas of Anatomy*. *An Anatomy* is an extension of pre-medical and pre-dental Biology, students are advised to retain and use their Biology texts and notes.)

Reference Books: Medical Dictionary—Dorland or Stedman. Atlas—Squibb's, Test Book—Cunningham; Morris Gray; Jamieson: *Companion to Manuals of Practical Anatomy*; General Anatomy—Locardi, Clark, Pennington, the Study, Child Growth and Development—H. H. Smith, C. G. Estabrook, Part I and II, Foundations of Anatomy—A. G. Thompson and Stenwig; and books examined in class (see above). Muscle Function—Wright; Medical Research Council Way, Myerowandt, No. 7; Aids to the Preparation of Peripheral Nerve Surveys. Surgical Anatomy—Boddy and Johnson; McGregor; Tressell.

Anatomical Museum. This provides the undergraduate and graduate with clinically helpful dissections. See Department of Medical Museums.

Applied Anatomy.—See under Surgery.

Anatomy IA.—This course qualifies for an Arts or Science degree, but not for medical degrees. See under Faculty of Arts and Science.

Histology and Embryology

Professor.....	Raymond J. Bean.
Instructor.....	Elizabeth S. Bean.
Demonstrator.....	Ruth Schachter.

Histology.—This course consists essentially of laboratory work and is intended to meet the requirements of medical students of the first year. It deals with the minute structure of the tissues and organs of the human body, their development and primary functions. Extensive use is made of movie films, Kotochromes and Medierrome slides as well as special preparation work which are set up as Demonstrations.

Text Books: Schaefer: *Essentials of Histology*, Second; *Normal Histology* (Addison). Marshall and Sloane: *Microscopy*. Bailey: *Text of Histology*.

Embryology.—This course is intended primarily for medical students of the first year. It consists essentially of laboratory work supplemented by one didactic lecture per week. The problems of fertilization, segmentation, the development of the embryo and its protective membranes, are worked out in the laboratory by dissections and intensive study of slides. The materials used include the chick, rabbit, pig and human.

Both medierrome and black and white projection slides are used to illustrate the work, and these are supplemented by a careful selection of motion picture films.

A close relationship is maintained between Embryology and Histology, and the laboratory work in Embryology will occasionally be extended so as to include a portion of the time allotted to the course in Histology.

Text Book: Avery: *Developmental Anatomy*.

Structural Neurology

Professor.....	E. J. Bean, Donald Mainland.
Clinical Demonstrator.....	J. W. MacIntosh.

This course is primarily for medical students of the second year. It consists of a series of lectures and demonstrations by the Professors of Anatomy and Histology on the gross anatomy and microscopic structure of the nervous system. Clinics are conducted at the Dalhousie Public Health Clinic.

Text Books: Roman: *Anatomy of the Nervous System*. Rasmussen: *The Principal Nerves Pathways*. Looney: *Anatomy of the Brain and Spinal Cord*. Kring: *Functional Neuro-Anatomy* (G. Blakiston).

II. Physiology

Professor.....	C. Beecher Weld.
Assistant Professor.....	Melville Schachter.
Research Assistant Professor (Physic).....	L. G. Stephen-Newsham.
Demonstrators (Part Time).....	Jean Pratt Milner, Carl Tupper.

Physiology for Medical Students.—The course is a study in lecture and laboratory of the mechanisms of the human body. It involves a review of physico-chemical laws affecting the tissues and their function under both normal and abnormal conditions. Included among the topics studied are: the nervous system, the senses, muscular activity, the blood, circulation, respiration, digestion and nutrition, excretion, and the endocrine. The

course consists of two lectures a week throughout the first year and the first term of the second year, and six hours of laboratory work per week during the second term of the first year and the first term of the second year.

The department co-operates with the clinical departments in arranging clinical-physiological conferences and symposia in the more advanced years of the medical curriculum.

Physiology for Dental Students.—This course consists of most of the lectures given in Medical Physiology but the laboratory work is modified and consists of one period a week from Christmas of the first year to Christmas of the second year.

Human Physiology for Arts and Science students.—A special course of lectures and laboratory work. Zoology 9.

Text Books: Cattell and Johnson: *The Machinery of the Body*. Bent and Taylor: *The Physical Basis of Medicine*. Fawcett: *Modern Physiology*. Gaddum: *Principles of Medical Physiology*.

Reference Books: Harris: *Experimental Physiology*. Lister and Sherrington: *Neurophysiology*. Meltzer: *General Physiology*. White and Simmonds: *The Autonomic Nervous System*. Fawcett: *The Physiology of the Nervous System*. Morgan: *Physiological Psychology*. Danforth: *Emotions and Bodily Changes*. Wolf and Wolff: *Human Gestalt Function*.

III. Biochemistry

Professor.....	E. Gordon Young.
Associate Professor (Research).....	R. W. Biagi.
Associate Professor.....	J. A. McCarter-Demonstrators.....

1. A course of lectures, conferences and laboratory work given to students of the first year, inclusive of the chemistry of the carbohydrates, fats, proteins and related substances, and their physico-chemical relationships in living matter.

IA. This is a more extended course with special laboratory work designed for students in the Faculty of Arts and Science.

2. A course of lectures and laboratory work given to students of the second year in the biochemistry of nutrition, digestion, metabolism and excretion in physiological and pathological aspects.

2A. This is a more extensive course given to students in the Faculty of Arts and Sciences.

3. A course of lectures and laboratory work given to students in the Faculty of Dentistry, presenting briefly the whole field of Biochemistry.

4. A course of lectures and laboratory work on foods in relation to nutrition and processing.
Prerequisite.—Biochemistry 1 or 1A.

5. An advanced course given to graduate students only, on modern aspects of biochemical research.

Seminar.—Graduate students must attend the Biological Seminar and participate in the presentation of papers on recent topics of research.

The Department shares in the course in Laboratory Medicine described on page 137.

Text Books: (1) Hank, Gray and Sommerville: *Practical Physiological Chemistry*, 12th. ed. Gorham: *Outline of Biochemistry*, 2nd. ed.
(2) Murray: *Outline of Biochemistry*.
(3) Klenk: *Biochemical Laboratory Methods*.
(4) Harrow: *Treatise of Biochemistry*, 4th. ed.

IV. Medical Museums

Director.....	R. L. de C. H. Saunders.
Associate.....	S. C. Saunders.

In the Anatomy Museum dissections of the human body are grouped regionally under appropriate headings, and each dissection is accompanied by a diagrammatic representation or a note on the salient features. Prepared bony specimens and Spalteholz cleared specimens are also on display.

The Pathological Museum is being reorganized as a Medical Museum, which aims to correlate the field of Pathology with Medicine, Surgery and Gynaecology.

Display specimens, grouped under systems, will have extracts from the clinical records and pathological report, as well as diagrams calling attention to the principal features. When facilities for medical photography and illustration are developed, coloured pictures of specimens will also be shown. Where relevant, radiographs, blood films and histological slides will be made available.

The cupboards below the display specimen house study specimen. In this way clinical material of value for class demonstrations or research purposes can be collected. The clinical histories of these specimens will be on file.

V. Pathology, Bacteriology and Parasitology

Professor.....	Ralph P. Smith.
Assistant Professors.....	J. W. Abbott, J. H. Foden, C. M. Harlow.
Demonstrator in Bacteriology.....	Dr. Alice Kite.

Pathology

1. A course of elementary lectures, two hours a week, on the general principles of Pathology, is given in the second term of the second year. One lecture is followed by a laboratory period.

2. A course of lectures, five hours per week before Christmas and four hours per week in the second term, is given in the third year, in which general principles of Pathology are applied to diseases of the several anatomical systems. The laboratory work is designed to be complementary to the lectures.

A short special course on pathological conditions of the mouth is given to students of Dentistry only.

3. Demonstrations are given frequently of fresh and preserved specimens illustrating morbid conditions of the several organs.

Students of the third and fourth years are required to assist at autopsies and to prepare and report upon specimens.

4. Conferences of clinicians and pathologists are held on Wednesday afternoons from 4.30 to 6 p.m., at which advanced students attend and are expected to take part in the discussions.

Bacteriology

A course of lectures covering the general field of Bacteriology, Immunology and Parasitology is given in the second year.

CLASSES OF INSTRUCTION

A short course on the bacteria of the oral cavity is given to students of Dentistry only. Dental students are not required to take the lectures on Parasitology.

The laboratory work is designed to familiarize the student with the biological reactions and activities of bacteria, and their relationship to disease.

The Department shares in the course in Laboratory Medicine described below.

Text Books: Pathology; Boyd, Muir or Moore. Bacteriology; Mair and Ritchie or Fairbrother. Practical Bacteriology; Mackie and McCartney. Parasitology; Boiling. Clinical Diagnosis; Todd and Sanford, or Stitt.

VI. Laboratory Medicine

A course of lectures and laboratory work, in the second term of the third year, is given conjointly by the Departments of Biochemistry and Pathology on the examination of sputum, stomach contents, faeces, blood, urine, exudates and transudates, etc.

Each student is required to provide himself with a haemocytometer for this course.

Text Books: Todd and Sanford, or Stitt: Clinical Diagnosis.

VII. Pharmacology and Materia Medica

Professor.....	A. M. Fraser.
Associate Professor.....	J. G. Abbott.
Assistant Professor.....	
Demonstrators in Materia Medica.....	J. E. Cooke, Jessie I. MacKnight.

The primary aim of the course is to elucidate the fundamental actions of drugs, and thus to lay a sound foundation for rational drug therapy. Considerable time is spent, nevertheless, in discussing their use in medicines, in the hope of facilitating the application of the student's pharmaceutical knowledge in the clinic. The actions of the most useful types of drugs are studied in the laboratory, and the students themselves act as subjects when the drug action can be well, and safely, demonstrated in humans.

The course commences with a brief introduction to materia medica and prescriptions, but most of the time is spent on the study of drug action. The students are occasionally required to write prescriptions throughout the course, incorporating drugs which are being currently studied.

The course is given during the second term of second year medicine and consists of three lectures, one conference and two laboratory periods per week.

A shorter specially designed course, comprising two lectures and one laboratory period weekly is given to second year dental students during the first term.

Lectures and laboratory periods covering the basic principles of materia medica and prescription writing are given as an introduction to therapeutics in the first term of third year medicine.

A short course in Toxicology is also given to fourth year medical students.

Text Books: 1. *Fundamentals of Pharmacology* by Thibaut (Hooper, 1945).
2. *Course in Pharmacology and Therapeutics* by Goldstein and Shattock (Lea & Febiger, 1942).
3. *Syneresis of Medical Medicine, Toxicology and Pharmacology* by Davies (Moore, 1944).

Reference Books: 1. *The Pharmacological Basis of Therapeutics* by Goodman and Gilman (Pergamon, 1948).
2. *Manual of Pharmacology* by Sofman (1946).
3. *The British Pharmacopoeia* (1945).
4. *Pharmacopoeia of the United States* (1942).
5. *Food and Non-Food Toxicants* (1946).
6. *Treatment in General Practice* by Beckman (1946).

VIII. Preventive Medicine

Professor of Preventive Medicine..... H. G. Grant.

Professor of Epidemiology..... C. B. Stewart.

Assistant Professors..... P. S. Campbell, A. R. Morton, D. J. MacKenzie.

Lecturer..... C. J. W. Beckwith.

Statistical Assistant..... Jean A. Peabody.

Administrator..... Jane M. Hubley.

Lectures are given in the first year on the history of medicine, scope and trends of modern medicine, inter-relations of medical sciences and specialized disciplines, socio-economic factors related to problems of disease, medical care, and the application of quantitative methods to medicine. In the second year lectures are given on the general principles of epidemiology and disease control, environmental sanitation, statistics, public health administration, school hygiene and other aspects of public health. Field work consists of supervised visits to public water supplies, milk pasteurization plants, restaurants and other food handling establishments, public schools and the Provincial Department of Health laboratories. In the third year lectures, clinics and seminar discussions are held on clinical preventive medicine as related to control of acute communicable diseases, venereal diseases, tuberculosis and other chronic diseases, maternal and child care, mental hygiene, industrial hygiene, nutrition and dental hygiene. Seminars are also held on medical economics and systems of medical practice. Field work during the summer includes a survey of the student's home district with regard to sanitation, public health and welfare organizations, medical and hospital care.

In the fourth year clinics in preventive medicine are held in cooperation with the Departments of Medicine, Pediatrics and Obstetrics. Visits are made to the homes of out-patients of these clinics to study the effects of socio-economic factors on the etiology and treatment of disease. Other clinics are held on immunizations and other preventive procedures.

Text Books: *British Preventive Medicine and Public Health*, Norman; *Principles of Preventive Medicine and Hygiene*, American Public Health Association; *The Control of Communicable Diseases*.

IX. Physical Diagnosis and Methods of Clinical Investigation

This course is given to students of the second year. The class is divided into groups, which are assigned to individual instructors and by a system of rotating, receive instruction in the examination of the various systems in the adult and child.

Text Books: Hopkins and Hunter: *Clinical Medicine, Emergency Physical Diagnosis*; Calot and Adair: *Differential Diagnosis*. Major: *Physical Diagnosis*. Chamberlain: *Symptoms and Syndromes of Clinical Medicine*.

X. Medicine

Professor..... C. W. Holland (Head of Dept.).
Associate Professors..... J. W. Reid, C. S. Marshall (Neurology),
J. W. MacIntosh, T. M. Siesmayer.

Assistant Professors..... D. J. Tonning, R. M. MacDonald,
L. C. Steeves, C. J. W. Beckwith.
Lecturers..... H. L. Semmens, A. R. Morton, R. L. Adams.

1. A course of lectures and recitations three hours each week, dealing with disease of the digestive, circulatory, respiratory and nervous systems is given in the third year.

2. A course of lectures and recitations one hour each week, dealing with infectious and constitutional diseases, the blood, ductless glands, diabetes, and diseases affecting the kidneys and liver, is given in the fourth year.

Text Books: *Medicine Practice of Medicine*, Odell and Macrae; *Principles & Practice of Medicine*, J. C. Cooper; *Principles and Practice of Medicine*, Cade; *Text Book of Medicine*, *Principles of Medicine*, Siesmayer; *Practitioner of Medicine*.

Reference Books: *Text Practice of Medicine*, Robert P. McCandless; *Internal Medicine in General Practice*, Church and Petersen; *Keynote and Mental Diseases*, Oxford Monographs; Sir Thomas Lewis; *Glossary of the Heart*, Beckman; *Practical in General Practice*, Housington; *Practical Medicine*, *Principles of Internal Medicine*, Harrison; *Principles of Internal Medicine*, White; *Basic Disease*, Beckman; *General Pathology*, Glenny; *Heart Diseases*, White; *Basic Disease*, Beckman; *Cardio-angiology*, Wilson; *Neurology*, Vaquez; *The Fundamentals of Internal Medicine*.

XI. Clinical Medicine

Professor..... C. W. Holland (Head of Dept.).
Associate Professors..... C. S. Marshall, J. W. Reid, J. W. MacIntosh,

T. M. Siesmayer.

Assistant Professors..... D. J. Tonning, R. M. MacDonald, L. C. Steeves,
C. J. W. Beckwith.
Clinical Instructors..... H. C. Read, G. A. Black, R. L. Adams.
Demonstrators..... W. J. Dyer, Margaret Gosse.

An introductory course in Clinical Medicine with applied anatomy, physiology and biochemistry is given to second year students.

In the third year the students are divided into small groups and receive clinical instruction at the Victoria General Hospital, the Halifax Tuberculosis Hospital, the Dalhousie Public Health Clinic, the Children's Hospital and Camp Hill Hospital.

In the fourth year the students serve as clinical clerks at the Victoria General Hospital, the Halifax Tuberculosis Hospital, the Dalhousie Public Health Clinic, the Children's Hospital, Camp Hill Hospital and the Grace Maternity Hospital. Clinical conferences and lectures are conducted at the Victoria General Hospital. Out-patient Clinics are attended in small groups at the Victoria General Hospital and the Dalhousie Public Health Clinic. Students attend in small groups at the Halifax Hospital for Communicable Diseases.

Clinical Physiology: A course designed to show the students the application of physiology, biochemistry and pharmacology to clinical medicine is given in the third year.

XII. Therapeutics

Clinical Therapeutics is taken up in the regular course in Medicine. Once a week the third and fourth year students attend a conference devoted

to the subject of Therapeutics, illustrated by appropriate cases. Instruction in prescription writing is also given. This work is supplemented by a series of demonstrations in Physiotherapy, occupational therapy and clinical dietetics.

XIII. Medical Jurisprudence and Toxicology

Lecturer A. H. Murray.

A short course of lectures, in the fourth year, is devoted to the consideration of the more common medico-legal problems, and the class attends (in groups) at autopsies on medico-legal cases. Instruction in Toxicology is given by the Professor of Pharmacology during the fourth year.

Text Books: Gisler: *Text Book of Medical Jurisprudence and Toxicology*. Thibault: *Clinical Toxicology*.

XIV. Psychiatry

Professor R. O. Jones.
Assistant Professor R. W. M. Mackay.
Clinical Instructor Jessie M. Lawrence, F. R. Dunsworth.
Instructors W. Leslie, M. C. Wellman.
Lecturers

The course consists of a series of lectures in Psychobiology in the First Year, during which each student is required to write a study of his own personality, designed to give a grasp of normal personality function, important factors in personality development and the importance of psychological concepts in all medical work.

A course of didactic lectures covering fundamental considerations in psychopathology, with a description of the various reaction types and instruction in methods of psychiatric examination is given in the Second Year. Throughout, emphasis is laid on the psychiatric aspect of general medicine, psychosomatic illnesses, and commonly occurring problems of child behavior.

In the Third Year, lecture courses in clinical psychiatry are given, covering the various reaction types with special reference to those most commonly met in general medicine. Problems of the neurosis, psychosomatic medicine and the application of psychiatric principles in general medical practice are especially considered.

In the Fourth Year students receive individual instruction, actually examining and treating neuropsychiatric cases at the Dalhousie Public Health Clinic. The students also attend Camp Hill hospital where they have the opportunity to see cases on the neuropsychiatric ward.

Demonstrations are arranged during the year, including visits to the Nova Scotia Hospital and the City Home, Halifax.

Post-Graduate instruction leading to certification in Psychiatry is carried out in conjunction with residences at the Victoria General Hospital, the Nova Scotia Hospital and Camp Hill Hospital.

Text Books: Munch: *Psychobiology and Psychiatry*. Stoeker and Elshout: *Practical Psychiatry*. Brückner: *Handbook of Psychiatry*. Neafle: *Modern Clinical Psychiatry*.

XV. Surgery

Professors W. Alan Curry (Head of Dept.)
Associate Professors C. E. Kinley
Assistant Professors V. O. Major, N. H. Gosse, J. V. Graham,
 A. Nobis, J. W. Merritt, T. B. Acker, J. C. Acker, W. D. Stevenson
 (Neuro-Surgery).

A course of lectures, two hours a week, on the general principles of Surgery, is given during the third year. Dental students are not required to take lectures on fractures of limbs.

A course of lectures, one hour a week, on Regional Surgery, is given during the fourth year.

Surgico-pathological conferences are held weekly during the fourth year at which the student has the privilege of hearing surgical cases discussed from the standpoint of diagnosis, operative procedure, and pathological findings.

The Victoria General Hospital and Medical College offer a two-year post-graduate course in general surgery and the basic medical sciences. This course is planned to enable graduates to qualify for specialists' examinations in general surgery and the F.R.C.S. (Canada).

Applied Anatomy.—A course in Anatomy is given in the third year dealing with those parts of the body subject frequently to surgical interference.

Text Books: Rose and Carline, Thomas and Miles, Homans and Christopher.

XVI. Clinical Surgery

Professor W. Alan Curry (Head of Dept.).
Associate Professors C. E. Kinley, V. O. Major, N. H. Gosse, J. V. Graham.
Assistant Professors B. F. Miller (Orthopaedics), E. F. Ross, A. L. Murphy,
 H. D. O'Brien, J. A. Nobis, J. W. Merritt, T. B. Acker, J. C. Acker,
 W. D. Stevenson (Neuro-Surgery).
Clinical Instructors A. M. Marshall, C. C. Stoddard.
Lecturers W. E. Pollett, B. K. Coady.
Demonstrators E. P. Nonnemaker, J. H. Charman, G. W. Bethune.

A short course of clinical demonstrations is given in the second year.

In the third year clinical lectures are held three times weekly. The students also receive clinical instruction in small groups at the Victoria General Hospital, the Children's Hospital, Camp Hill Hospital and at the Dalhousie Public Health Clinic. A course demonstrating the application of bandages, splints and other surgical appliances, the treatment of emergencies and minor surgery is also given.

In the fourth year the students serve as clinical clerks at the Victoria General Hospital, the Children's Hospital and at the Dalhousie Public Health Clinic. Through the courtesy of D.V.A. our students attend Camp Hill Hospital, in small groups, for instruction in Clinical Surgery. They also attend clinical lectures and conferences. Orthopaedic Clinics are held at the Children's Hospital and at the Victoria General Hospital.

XVII. Urology and Dermatology

<i>Professor</i>	Frank G. Mack.
<i>Associate Professor</i>	C. L. Gosse.
<i>Demonstrators in Clinical Urology</i>	H. G. Quigley.
J. F. L. Woodbury, C. H. Beardson, Ian H. MacGregor.	

In the third year a brief course of lectures is given in Urology.

In the fourth year about fifteen clinical lectures and demonstrations are given in Urology and an equal number in Dermatology and Syphilology. For these the class attends at the Victoria General Hospital. The class is divided into groups for clinical instruction in these subjects at the outpatient department of the Victoria General Hospital.

Text Books: *Lovell and Kirwin: Clinical Urology*, 2nd Ed., G. H. Festisol: *An Introduction to Dermatology*.

XVIII. Eye, Ear, Nose and Throat Diseases

<i>Professor</i>	H. W. Schwartz (Head of Dept.).
<i>Associate Professor</i>	R. H. Stedman.
<i>Assistant Professors</i>	H. W. Kirkpatrick, A. E. Dougall Jr.
<i>Demonstrators</i>	D. M. MacRae, L. G. Holland.

The third year students are divided into groups of four to six and each group is taken twice a week for six weeks and instructed in the technique of examination of the ear, nose and throat and once a week for six weeks for the eye. Emphasis is on the normal and its variations rather than on the pathological and the making of a diagnosis. At the conclusion of such courses the student is at ease with the head mirror and ophthalmoscope and is familiar with the appearance of ear drum, larynx and fundus oculi.

The Out-Patient Department, consisting of two ear, nose and throat clinics and one eye clinic, gives assigned students and attached interns an introduction to some of the conditions and problems they may expect to meet in their future practice.

Throughout the session lectures are given to the fourth year students once a week—fourteen on the ear, nose and throat, and eleven on the eye. These presentations are illustrated by wet and dry specimens—both anatomical and pathological and lantern slides—and the whole enriched by case reports and clinical experience. It is ever kept in mind that the student is being prepared for general practice.

Text Books: *Adler, Gifford: Text Book of Ophthalmology*. *Baldeserri: Otolaryngology, Rhinology and Laryngology*. *Perry: May's Diseases of the Eye*. *Lyman Turner: Diseases of the Nose, Throat and Ear*. *Sisson-Hill: Diseases of the Ear, Nose and Throat*.

XIX. Radiology

Lecturer..... S. R. Johnston (in charge of Department), R. L. Smith.

A short course of lectures on X-ray diagnosis and the therapeutics of X-ray and Radium is given in the fourth year.

The students of the fourth year in groups of two receive personal instruction in fluoroscopic demonstration, examination of films and the principles of radio-therapeutics.

XX. Obstetrics and Gynaecology

<i>Professor</i>	H. B. Atlee (Head of Dept.).
<i>Associate Professor</i>	W. G. Colwell.
<i>Lecturer</i>	K. M. Grant.
<i>Demonstrator in Obstetrics and Gynaecology</i>	Dr. Jean Macdonald.
<i>Demonstrator of Practical Obstetrics</i>	P. A. Macdonald, (Chief of Clinic).

Obstetrics: A course of lantern and mannikin demonstrations two hours per week until Christmas is given to the third year. In addition groups in the fourth year are given mannikin demonstrations.

In the third and fourth years instruction is given in prenatal care at the Dalhousie Public Health Clinic and at the Grace Maternity Hospital, and students attend in rotation at the Grace Maternity Hospital for clinical instruction in Obstetrics. Students who have acquired proficiency are attached, in rotation, to the "obstetrical" unit for attendance on obstetrical patients at their homes. Fourth year groups attend the Grace Hospital three times a week for rounds.

Gynaecology: A course of preliminary clinical instruction is given in the third year before Christmas at the Victoria General Hospital, after which they attend the general weekly clinic at that institution.

In the fourth year students attend the weekly general clinic and take daily group instruction at the Victoria General Hospital. Groups from this year also attend the Gynaecological clinic at the Dalhousie Public Health Clinic.

Text Books: *Obstetrics: Two Teachers: Midwives*. *Books: Obstetrical Practice*. *Grants: Text Teacher: Diseases of Women*. *Carrie: Textbook of Gynaecology*.

More Advanced Reading: *Obstetric Delot: Principles and Practice of Obstetrics*.

XXI. Paediatrics

<i>Professor</i>	G. B. Wiswell (Head of Dept.).
<i>Associate Professor</i>	M. J. Carney.
<i>Lecturer</i>	N. B. Coward.

Lectures begin in the second year on Physical Diagnosis and growth development and practical demonstrations are given to groups of students. This is continued in the third year. In the fourth year, theatre clinics are held twice weekly at the Children's Hospital. Group clinical teaching is carried on daily in the wards of the Children's and Grace Maternity Hospitals and in the out-patient department of the Public Health Clinic and students are assigned to cases as clinical clerks. In the fifth year, the internes receive instruction in the more frequent procedures of the diagnosis and treatment of diseases in children.

Text Books: (1) Mitchell-Nelson: *Text Book of Pediatrics*. (2) Petersen and Mecrieff: *2 vols. Diseases of Children*. (3) Davies: *The Complete Paediatrician*. *Reference Books:* *Reynaud's Practice of Pediatrics*, 4 vols. Holt and McEwan: *Primer of Diseases of Infants and Children*. Stone: *The New Born Infant*.

Faculty of Dentistry

Preliminary Statement

An agreement was consummated in 1911 between the Board of Governors of Dalhousie University and the Provincial Dental Board of Nova Scotia, whereby the Maritime Dental College was merged into the Faculty of Dentistry of the University.

The instruction in the purely scientific subjects and in the professional subjects common to Dentistry and Medicine is taken by Dental students in common with the students of the Faculties of Arts and Science and of Medicine. Instruction in the Dental subjects is given in the Dental Apartments, in the south wing of the Forrest Building; these include the Infirmary and the Dental Laboratories. Abundant dental infirmary practice is available, and all operations are supervised by practitioners in active dental practice with many years' experience in teaching. The Victoria General Hospital is near by, and affords an ample surgical clinic. The Public Health Clinic contains a group of medical, surgical and dental clinics and laboratories, all in close proximity. In it are carried on adult, school and pre-school-age dental clinics, under the supervision of experienced practitioners, and excellent opportunities are thereby afforded for the study of Preventive Dentistry, Exodontia, Anesthesia, Diagnosis, etc. The clinics are available to medical as well as dental students, thus promoting the closer association of the two professions. The laboratory of Pathology and Bacteriology which has been erected and equipped by the Hospital Commission in connection with the Victoria General Hospital affords superior facilities for both elementary and advanced study of these subjects.

Provincial Regulations

Students are reminded that the Dental degree does not necessarily qualify for admission to practise in any province, each province having its own regulations for admission, to which a candidate must conform. Particulars regarding these regulations in each of the Maritime Provinces and in Newfoundland may be obtained from the respective Dental Registrars.

Dominion Dental Council

The Dominion Dental Council of Canada is a central organization under the control of the dental profession of Canada. Its object is to erect and maintain a standard of education and ethics for the dental profession, and to conduct professional examinations and issue Certificates of Qualification which will be accepted without further examination by the provinces.* These Certificates are now accepted in all the provinces except Quebec.

Dental students who comply with the Council's Matriculation or Preliminary education requirements and term of studentship, and who graduate from an accepted Canadian dental college, and pass the examination of the Council, may be registered in any province in Canada without further examination (Quebec excepted). This privilege is enjoyed by the graduates in Dentistry of this University, as its Matriculation regulations meet the requirements of the Council, and the Faculty of Dentistry is on the accepted list of Canadian Colleges. Graduates are also eligible for admission to the licensing examination in Newfoundland, all the provinces of Canada, and many States, including New York, Massachusetts, Rhode Island and Maryland.

Dental students and graduates are eligible for the examinations of the National Board of Dental Examiners of the United States.

Graduates are exempted from Part I and admitted to Part II of Examinations of the Royal College of Surgeons, London, England, on completion of six months' hospital experience in that country.

General University Regulations

University regulations applicable to the students of all Faculties and relating to residence, church attendance, discipline, etc., will be found on p. 17 *et seq.*

The University, in recognition of its responsibility to the public, and for its own reputation, reserves the right to terminate the attendance of any student at any time should it appear that he is unlikely to reach such a standard, in the judgment of the Senate, as would warrant his admission to the practice of Dentistry. Fees cannot be refunded to students who have been dismissed for any cause.

*For information address Dr. A. J. Smit, Secretary of the Dominion Dental Council, Regina, Saskatchewan.

Affiliated Courses

A Bachelor of Arts or of Science of this University who has during his Arts or Science course taken the classes of the first year in Dentistry may complete a subsequent Dental course in the University in three years. See p. 35,37.

Academic Year

The Academic Year consists of one session of eight months' duration. The session of 1949-50 will begin on Tuesday, September 13, 1949, (except for the First Year and Second Year which will begin on Tuesday, September 6), and end on Tuesday, May 16, 1950.

No students will be admitted after noon of Monday, September 12 for First and Second Year students, or Monday, September 19, for other Dental students.

Degree

The degree conferred in the Faculty of Dentistry is that of Doctor of Dental Surgery (D.D.S.).

Admission of Students

A student will not be admitted to the classes of any year, unless he has passed in all the subjects of the previous year.

Students intending to practise in any province of the Dominion or in another country are reminded that they must conform to all the regulations of that province or country.

No person under seventeen years of age is admitted to any class of the Dental Course.

Entrance Requirements

Full details of the requirements for Entrance will be found on p. 25 et seq.

Curriculum*

The course for the degree of Doctor of Dental Surgery extends over four years. The course is as follows:

First Year

Anatomy 1 and Practical Anatomy; Biochemistry 3; Dental and Comparative Dental Anatomy; Embryology; Histology; Physiology 1.

*It is to be distinctly understood that the regulations regarding courses of study, examinations, fees, etc., contained in this calendar are intended for the current year only. Nor does the University hold itself bound to adhere absolutely to the curriculum and conditions laid down.

Second Year

Bacteriology 1; Pharmacology and Materia Medica; Operative Dentistry; Pathology 1; Physiology 2; Prosthetic Dentistry and Metallurgy.

Third Year

Crown and Bridge Work; Dental Infirmary; Dental Pathology and Therapeutics; Exodontia I; Hospital; Operative Dentistry; Orthodontics; Pathology 2; Prosthetic Dentistry; Radiology; General Surgery.

Fourth Year

Crown and Bridge Work and Ceramics; Dental Infirmary; Hygiene, Preventive and Clinical Dentistry; History, Jurisprudence, Ethics and Economics; Hospital; Operative Dentistry; Oral Surgery, Anaesthesia and Physical Diagnosis; Orthodontics; Prosthetic Dentistry; Exodontia 2.

Regulations for Degree

In addition to the Matriculation or Preliminary examination, candidates for degrees are required to pass four Professional examinations, one at the end of each year of the course, on the dates set in the University Almanac. The examinations are arranged as follows:

First Professional Examination

One paper in each of the following subjects: Dental and Comparative Dental Anatomy; Embryology; one paper and a practical examination in Histology; one paper and an oral and a practical examination in Anatomy, Biochemistry 3 and Physiology 1.

Second Professional Examination

One paper in each of the following: Pharmacology and Materia Medica; Operative Dentistry; Pathology; Prosthetic Dentistry and Metallurgy; one paper and an oral examination in Bacteriology and Physiology 2.

Third Professional Examination

One paper in each of the following: Crown and Bridge Work; Dental Pathology and Therapeutics; Operative Dentistry; Orthodontics; Prosthetic Dentistry; Radiology; one paper and an oral and a practical examination in Pathology; a practical

examination in Crown and Bridge Work and Ceramics, Operative and Prosthetic Dentistry; and Orthodontics.

Fourth or Final Professional Examination

One paper in History, Jurisprudence, Ethics and Economics; one paper in each of the following: Crown and Bridge Work and Ceramics; Exodontia; Operative Dentistry; Oral Surgery, Anaesthetics and Physical Diagnosis; Orthodontics; Prosthetic Dentistry; a practical examination in Crown and Bridge Work and Ceramics; Operative and Prosthetic Dentistry, Orthodontics, Radiology.

Pass and Distinction Lists

The names of candidates successful in the examinations are arranged in the published lists in two divisions, the Pass and Distinction divisions. To pass a candidate must obtain a minimum mark of 50 per cent in each subject.

For Distinction in any subject he must obtain a mark of 75 per cent or over in that subject. The names in the Pass division of the list are arranged in alphabetical order; those in the Distinction list are in order of merit.

Admission to Examinations

Candidates must conform to the following requirements in order to qualify for admission to the Professional examinations:

1. They must attend the prescribed classes of the curriculum regularly and punctually. Certificates indicating less than 90 per cent of attendance upon any class will not in ordinary circumstances be accepted.

2. They must prepare such exercises, reports, etc., as may be prescribed, and in the case of classes involving laboratory or practical work they must complete such work satisfactorily. The practical requirements in Crown and Bridge Work and Ceramics, Operative and Prosthetic Dentistry, and Orthodontics, in the second, third and fourth years must be fulfilled before the theoretical examinations are written.

3. Candidates for the Final Professional examination will be required to subscribe to the following declaration with regard to their age:

Halifax, N. S. _____ 19____

I, the undersigned, being desirous of obtaining the Degree of Doctor of Dental Surgery, do hereby declare that I have attained the age of twenty-one years (or, if the case be otherwise, that, shall have attained the age of twenty-one years before the next graduation day).

(Signed) _____

Supplemental Examinations

A candidate who has failed to pass in not more than two subjects of the Professional examination of any year shall be entitled to supplemental examinations in such subjects, provided he is qualified in attendance and class work for admission to examination.

A candidate who has failed to pass in more than two subjects of any Professional examination shall not receive any credit for work done in that year.

Supplemental examinations are held on the dates specified in the University Almanac in September and during the regular Professional Examinations in the spring, but at no other times.

Application for admission to a supplemental examination must be made on or before the date set in the University Almanac for receiving applications, on a form to be obtained from the Registrar's Office, and must be accompanied by the proper fee (See p. 152).

Exemptions

Candidates may be exempted from examination in one or more subjects of the first three Professional examinations on presenting certificates of having taken equivalent classes and passed equivalent examinations at any dental college recognized by the Senate for the purpose, and complying with the regulations of the University.

Instruments and Appliances

All the heavier appliances are supplied by the University. The student must provide all other instruments, tools and material for his technic and operative work in both Laboratory and Infirmary. Students are warned not to procure operating instruments until entering College. Each student must have the instruments prescribed and of the particular make selected by the Faculty. Arrangements have been made whereby these may be procured to the best financial advantage. The borrowing of instruments is absolutely forbidden.

Medals and Prizes

For Scholarships and Prizes open to all students of the University see pp. 58-62.

University Medal in Dentistry.—This medal will be awarded on graduation to the student who stands highest in the Final Professional examination, provided he shall obtain Distinction in at least four of the five major subjects of that examination, and shall have reached an exceptionally high standing in the whole four years of his course.

The Dr. Frank Woodbury Memorial Prizes.—These prizes are awarded to students of the final year.

1st—Book Prize to the value of \$20 for the best thesis on an approved dental subject.

2nd—Book Prize to the value of \$15 for the best prosthetic and crown and bridge technic.

3rd—Book Prize to the value of \$15 for the student obtaining highest marks in the infirmary.

The Dr. W. C. Oxner Prize.—This prize will be awarded to the student of the final year showing the highest proficiency in crown and bridge procedure.

The Nova Scotia Dental Association Prizes.—Books to the value of \$25 are divided between the two students who make the best two general averages in all subjects of the Third Professional examination, provided the required standard is reached.

The Dr. W. H. H. Beckwith Prize.—This prize will be awarded to the student showing the highest proficiency in Operative Dentistry in his second and third years.

The Charles Bell Memorial Prizes.—Books to the value of \$25 to be divided between the two students who make the best two general averages in all subjects of the First Professional examination, provided the required standard is reached.

Similar prizes will be awarded for the Second Professional examination.

CLASSES OF INSTRUCTION

For the details of Classes in—

Anatomy, and Histology and Embryology,	
Physiology,	
Biochemistry,	
Pathology and Bacteriology,	
Pharmacology,	

See p. 133 *et seq.*

Dental Anatomy and Comparative Dental Anatomy Lecturer.....	J. P. McGuigan.
--	-----------------

Dental Anatomy.—This course includes a study of the contents of the buccal cavity from a dental standpoint. A practical course in tooth saving and dissection of the natural teeth will be carried on in the laboratory.

Comparative Dental Anatomy.—The lectures and demonstrations in this course are designed to be a study in the classification of dental types and theories of evolution of the dental organs from simple to complex forms.

Hygiene, Preventive and Clinical Dentistry

Professor, Demonstrator in Pre-School-Age Public Health Clinic.....	J. S. Bagnall,
	L. S. Goldberg.

This series of lectures given in the final term of the fourth year is designed to emphasize the place of dentistry as a health service. It includes a review of recent research and a discussion of the correlation between dental and systemic disease conditions. The lectures are supplemented by demonstrations in the Victoria General Hospital and in the Pre-School-Age clinic of the Public Health Centre.

Operative Dentistry

Professor.....	John W. Dobson,
Lecturer.....	D. C. Eaton.

The instruction in this subject begins in the second year. Students in the last two years will be engaged in Infirmary practice daily under the supervision of experienced demonstrators. The work of the final year is designed to instruct the student in the details of Operative practice.

Dental Pathology and Therapeutics.

Lecturer..... A. Berden Haverschoek.

The lectures will be given in the third year, with practical demonstrations in the Infirmary throughout the last two years. Special reference will be made to the pathology of Pyorrhoea Alveolaris.

Pharmacology and Materia Medica

Lecturer..... J. W. Dobson.

This course is given in the second year. In the first term, in the department of Pharmacology, by means of lectures and laboratory work the student becomes familiar with the principles of drug action. After Christmas the therapeutic application of drugs used in dentistry is presented in detail.

Orthodontics

Professor..... Wm. W. Woodbury.
Demonstrator..... P. S. Christie.

This subject will be presented in a course of lectures and clinical demonstrations during the last two years.

Oral Surgery, Anaesthesia and Physical Diagnosis

Associate Professor..... J. Arnold Nobla.
Lecturer..... G. MacKinnon.

A course of lectures on General Surgery given during the second term of the third year.

Surgery.—A course on Oral Surgery, to be given during the final year, embracing operations which the dental surgeon should be able to perform.

Anaesthesia.—General Anaesthesia will be taught along with Oral Surgery, ample opportunity being given for practical demonstrations.

Physical Diagnosis.—A short course of lectures on systemic diseases related to Medicine.

Exodontia and Anaesthesia

Professor..... O. L. Croft.
Demonstrators in the Adult Public Health Clinic..... O. L. Croft.
L. K. Lubotsky, A. G. Nutley, F. C. Fenoll.

Exodontia.—A course of weekly lectures and demonstrations in the third and fourth years, which will include the study of local and general anaesthesia. This course is supplemented by Infirmary practice in the third and fourth years, and by practical work in administration of local anaesthetics and nitrous oxide in the exodontia clinic of the Public Health Centre in the final year.

Text Book: Winsor, *Barker*.
Reference Books: Reid, Thomas, *Bennett*, *Dodson*.

Radiology

Professor..... H. M. Eaton.

A course of lectures and demonstrations weekly during the third year followed by practical work in the Infirmary.

Text Book: Ringer, 3rd edition.
Reference Books: McCoy, Thomas, *Osgood*.

Prosthetic Dentistry

Professors..... W. G. Dawson, J. S. Bagnall.

This course continues throughout the last three years. The instruction is didactic and practical.

Text Book: American Text Book of Prosthetic Dentistry. Kennedy: *Partial Dentures*. Reference Books: Prothero, Winsor, Campbell, Nichols.

Crown and Bridge Work and Ceramics

Professor..... G. A. Chudleigh.
Assistant Professor..... G. M. Davis.
Lecturer..... J. E. Merritt.

This subject will be presented by lectures, demonstrations and laboratory technique. It will continue throughout the last two years, with Infirmary practice.

Gold and Porcelains, Crown, Bridge and Inlay Construction will receive proper attention. Students who may desire to use their own electrical furnaces will be supplied with electric connections. Precious metals must be supplied by the students for all technic.

Text Book: Dorset.
Reference Books: Evans: *Crown and Bridge*. Price: *Crown and Bridge*. Gedde: *Crown and Bridge*. Legge: *Ceramic*. Capon: *Ceramics*. Horwood: *Ceramics*.

Metallurgy

Lecturer..... J. S. Blagall.

A course of lectures during the second year, on the construction, properties and treatment of metals and alloys used in Dentistry. A series of laboratory demonstrations in working and soldering metals.

Reference Books: Ray, Rosenthal, Gibbs.

Dental History, Jurisprudence, Ethics and Economics

Lecturers.....

G. M. Davis,
F. W. Bisbett, W. W. Woodbury, H. S. Crosby.

History.—History and development of Dentistry.

Reference Book: Taylor.

Ethics.—A brief statement of the important principles of morals and obligations of professional men to their patients, other practitioners and the public.

Reference Book: Neper.
