

The Proceedings and Transactions of the Nova Scotian Institute of Science
Volume 16 Part 4

Proceedings	XXI-XXXIII
Notes on an esker in the interior of Digby county, Nova Scotia – <i>D.S. McIntosh</i>	139-141
Notes on the estimation of potassium as potassium platonic chloride – <i>Margaret McCurdy</i>	142-143
Notes on the devitrification of old glass – <i>H. Ritchie Chipman & Douglas McIntosh</i>	144-146
Examination of some tests for methyl alcohol - <i>E.W. Todd</i>	147-151
Hydrogen in electrolytic zinc – <i>W. Roy Elliot</i>	152-154
The negative geotropism of the periwinkle: A study in littoral ecology - <i>F.R. Hayes</i>	155-173
On the radium content of some Nova Scotian minerals – <i>Carl Kenty</i>	174-175
A note on a still for the preparation of pure water – <i>Harold S. King</i>	176-177
The removal of carbon-sulphur compounds from coal gas by washing the gas with oil – <i>K.L. Dawson</i>	178-179
The action of saline cathartics - <i>N.B. Dreyer</i>	180-182
The ratio of the electric units of charge - <i>George C. Laurence</i>	183-188
Liquid hydrogen sulphide as an ionizing medium - <i>H. Ritchie Chipman & Douglas McIntosh</i>	189-195
The augmented salivary secretion (Abstract of paper)- <i>B.P. Babkin & P.D. McLarren</i>	196
The digestibility of white of egg (Abstract of paper)- <i>I.G. MacDonald & E. Gordon Young</i>	197
Solubilities and molecular weight determinations in liquid chlorine - <i>K.H. Butler & D.S. McIntosh</i>	198
List of members, 1925-26	199-200
List of presidents	201
