HALIFAX, N.S.

G. FRED PEARSON, L.L.B.

UNIVERSITY OF MICHIGAN
LIBRARY

In Dedication

TO

G. FRED PEARSON

who during the past year announced his resignation from his post as Chairman of the Board of Governors.

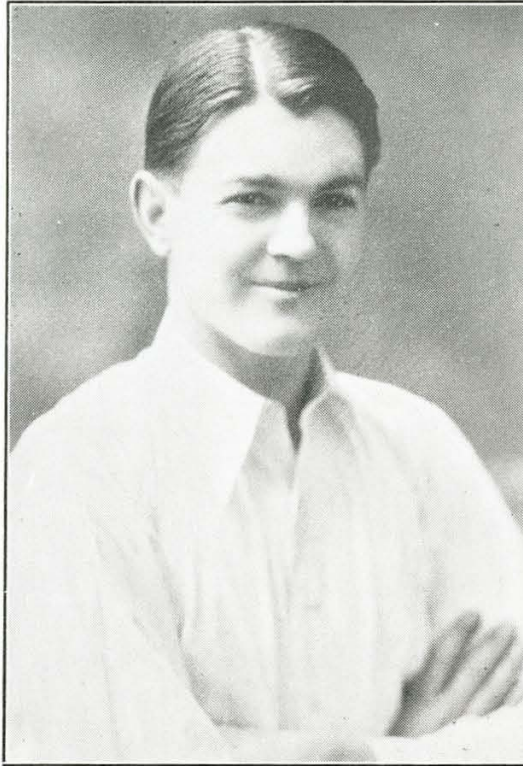

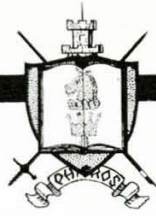

Mr. Pearson has been an untiring worker for Dalhousie since 1912; and it is to his successful completion of the campaign of 1920 that Dalhousie owes much of her rapid growth. His years of service and the new gymnasium, which was granted by the Board of Governors under his guidance, have established his place in the hearts of all Dalhousians as a "Friend of the Students."

LT.-COL. EDWARD VINCENT HOGAN, C.B.E.,
B.A., M.D., C.M., M.R.C.S., Eng., L.R.C.P.,
London, F.R.C.S., C.

Professor of Surgery and Clinical Surgery 1912 to 1932
Dalhousie Medical College.

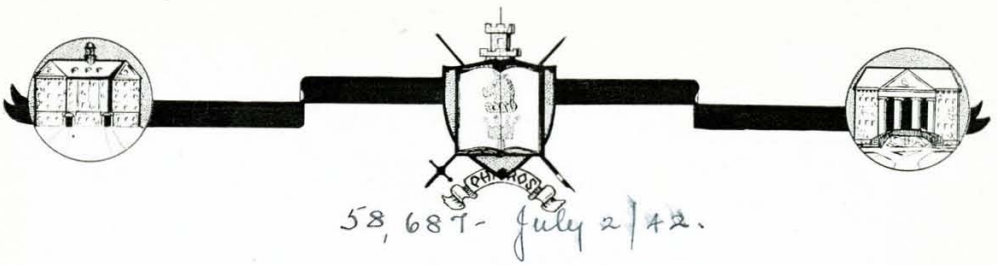

Died January 20th, 1933.

ARTHUR FULTON TUTTLE, MEDICINE, '35

Died January 15, 1933

"He fought a good fight"

Foreword

A Year Book is essentially a souvenir, so we submit this book to you as a souvenir of the 1932-33 term at Dalhousie. Upon its pages we have tried to capture for your future reminiscence a few of the bright spots of the college year, as they appeared while the sun still shone upon them and before time had interposed her mists. We hope that during the years of endeavor to come, it will be a source of many happy memories, and that, when the fireside years have arrived it may recall to you some of the youth and the romance that were "Dalhousie."

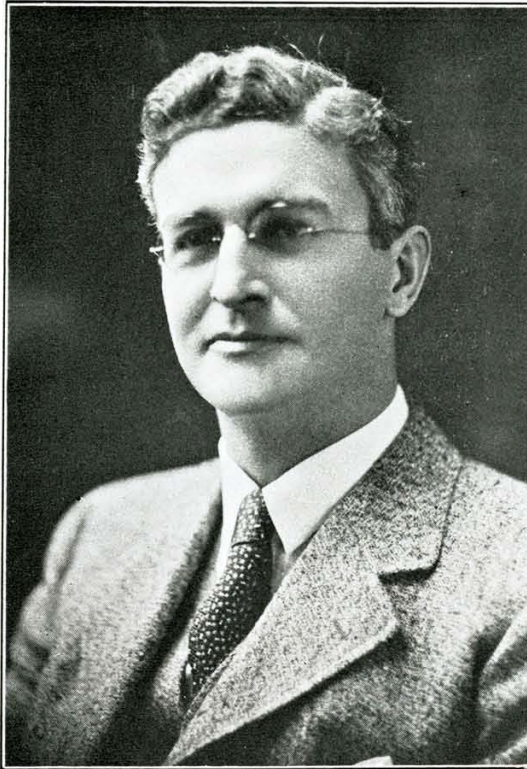

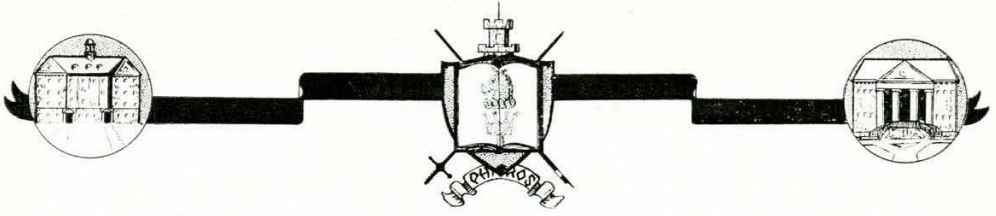

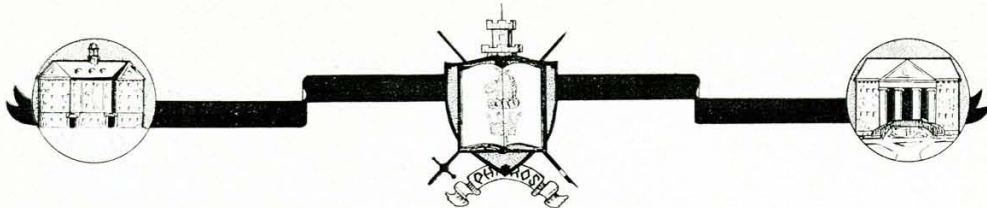

The Memorial Flower Bed

Down in the Carleton Campus, at the north-east corner of the old Forrest Hall, there is a flower bed, planted to keep fresh and living the memory of those Dalhousians who served their country in the Great War. In this beautiful plot there are fifty-nine plants in memory of those Dalhousians who did not return, one pays tribute to the Unknown Soldier, and the perennial border which encloses the plot is in honour of those who survived to begin the work of reconstruction.

At the head of the flower bed there was placed a tablet which bore the famous inscription "Dulce et decorum est pro patria mori." It was the suggestion of the late Dr. Howard Murray, to whom the living memorial made particular appeal, that the inscription be complete, so that it now reads in translation, "It is sweet and honourable to die for one's country, for by so doing one gains immortality." One may doubt the sweetness of dying for one's country in a horrible waste such as the Great War; but that the heroism of these Dalhousians should gain immortality, there can be no question. The garden remains to keep alive the memory of their nobility of purpose and of their valour in sacrifice.

PRESIDENT CARLETON STANLEY, M. A. (OXON.)

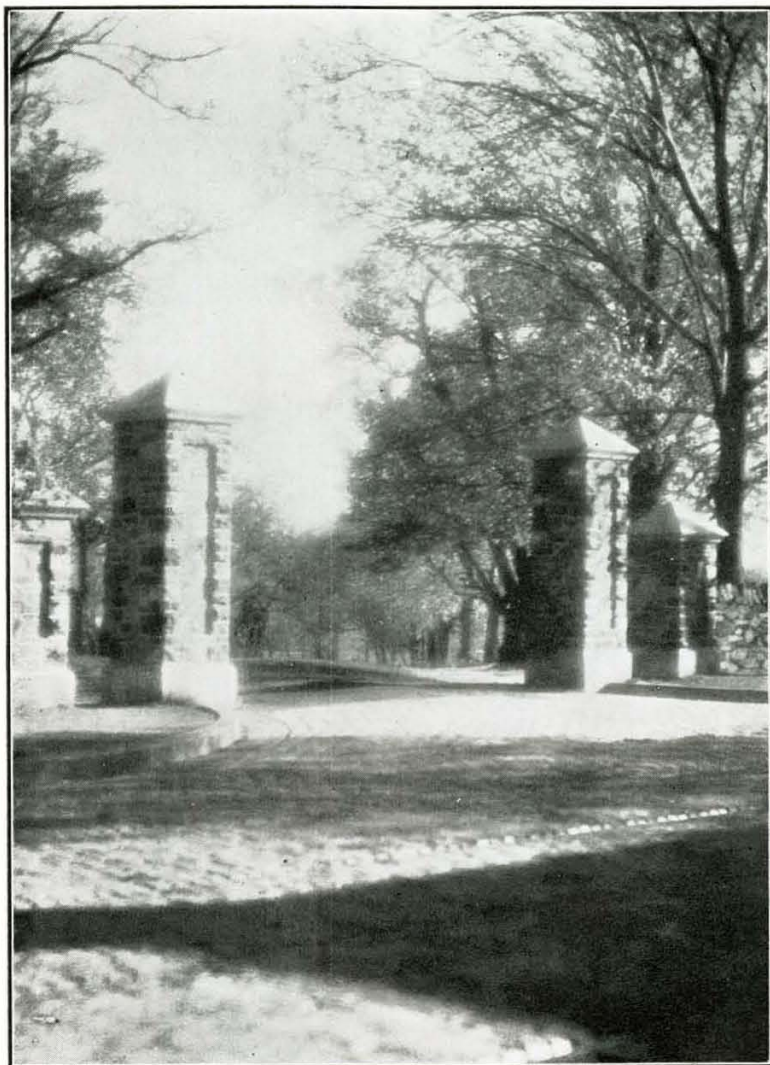

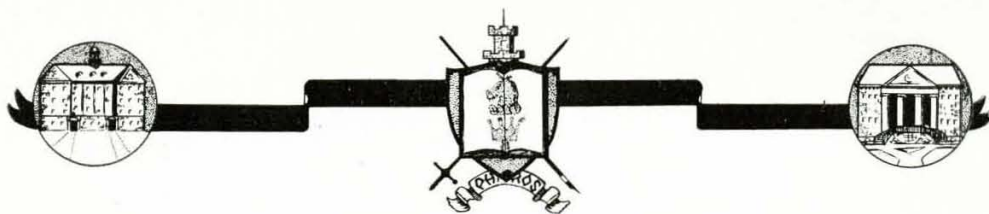

It is a pleasure to address a word of congratulation and encouragement to the graduating classes of 1933. It has been commonly remarked in the University that the students have this year shown an unwonted interest and application as students. A contributory cause, I believe, has been the sanity of the Senior class, with very many of whom it has been my good fortune to be acquainted.

I hope that you will be students still. The world needs, and will need, all the knowledge and disciplined thought which you can bring to bear upon its problems. The real test lies still before you. *La faiblesse c'est le seul défaut qu'on ne saurait corriger.* All good fortune attend you!

Carlton Stanley.

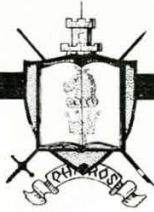

President.

February 28, 1933

ARTS BUILDING

GRADUATES

Bachelor of Arts

CHARLES DOUGLAS ALLEN

Doug. came to us from H. C. A. Entering as a freshie-soph he immediately turned his attention to mathematics and physics. He enjoys badminton and skating, and is a prominent and hard-working member of the S. C. A. We have calculated by means of the probability curve and other mathematical devices in which he delights that Doug will succeed in the actuarial work that he contemplates as his future occupation.

WILLIAM CHARLES ANDERSON

Charlie came to Dal. via Sydney Academy and Roosevelt High. Charlie has been particularly outstanding in athletics; in track, basketball, interfaculty football and as this year's President of the D. A. C. Not limiting himself to athletics he has participated in inter-class debating, and is on the Executive of the S. C. A. A good student and an especially pleasing personality complete the qualifications of the all-round man.

ELIAS ANDREWS

Elias came from Newfoundland in the fall of '29 and, a la Washington, speedily became the "Father" of Pine Hill. He has served on the Students' Council of the Residence and also on the staff of the "Pine Hill Messenger," and is this year the Hill's representative in the English Department. A solid scholar, an interesting personality, and a likeable chap, he will do well in his chosen profession, the Ministry.

WILLIAM JAMES ARCHIBALD

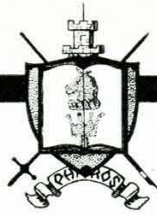

Bill was born and reared in Bridgetown, four miles from Paradise, that is probably why he is so full of the old nick. He lives at Pine Hill and intends to be a minister. He is a scholarship man, past President of the S. C. A. and the best musician at Pine Hill. To have him for a friend is to enjoy one of those rare pleasures of which life affords so few.

HELENA MARGARET SOPHIA BISHOP

Helena came to Dalhousie with the intention of taking up the profession of her forebears, Medicine, but although she gave up the idea in favour of an Arts course she retains an active interest in the Medical School. She has played on the Ice-hockey team for three years, while her other activities are badminton and bridge. Her sorority is Sigma Theta Pi.

JOHN FLINT CAHAN

Flint came to Dal. from Yarmouth High School and H. C. A. He has been an ardent student of Economics and Government and his knowledge of world affairs will splendidly equip him for an executive position in some future government. He has been particularly interested in social service work and the C. O. T. C. where he holds the position of Weapon Training Officer. Flint plans to continue his study of Economics at London University.

MARGARET BARTON CAMERON

Oh yea! Oh yea! The next case on the docket is that of Margaret Cameron vs. Dalhousie.

The Plaintiff: A product of Sydney, came to Dal. via H.C.A. Having learned all the Chemistry that Dal. could offer, Peggy hopped a train for McGill and there mastered the piano and organ, and became a member of Alpha Gamma Delta. After three years she decided that night clubs, flying fields, and red and white revues were not conducive to study so she returned to Dal. to woo the muse of Political Science—Quo Vadis.

LAURA CATHERINE CARROLL

Another goal—but it isn't only on the ice that Dolly makes her goal shots. Having led the graduating class at the Convent of the Sacred Heart, she came to Dal. in her junior year, and has consistently played a good game whether it's a puck or a pass she is chasing. As energetic Vice-President of the Newman Club, Secretary of the Sociology Club, active member of the French Club, left winger on the girls hockey team, she has chalked up a high score for herself.

PAULINE BERTHA CORRIGAN

Pauline took her first two years at Sacred Heart Convent, so she escaped the freshette distinctions. She has been a member of Newman Club and she has appeared in several of their Glee Club shows. She takes good old Education II with practical purposes in mind, and has come through without serious harm to her disposition. she should be a most influential teacher. Her sorority is Sigma Theta Pi.

GWYNN ABIGAIL CURRIE

A daughter of the gods,
Divinely tall and most divinely fair.
The Library and the Arts Building have been graced by her presence for four years. Gwynn can always be depended upon to wear the right thing at the right time. She is known as a gifted pianist. This year she is Vice-President of Kappa Beta Phi.

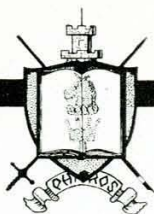

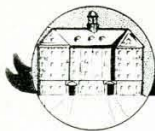

ELIZABETH ELAINE DARGIE

In the fall of '30 Beth entered Dal, as a Freshie-Soph from Annapolis Co. Academy with a brilliant scholastic record which she has maintained by winning a scholarship and graduating with distinction. Economics, Chemistry and Education 2 have been the highlights of her course. With her pleasing personality we predict that Beth will become a popular teacher. The Hallers hope, however that she will return for her M. A. next year.

KATHERINE DOUGLAS DENSMORE

We now introduce Katherine Densmore, Bathurst, the Rip Van Winkle of the Hall. Three alarm clocks have failed to awaken this year's President of Shirreff Hall, Sigma Theta sorority and Class '33 representative on the Council. Although Kay's early interests have been centered in the Medical school, her intentions are legal. She plans to study Law next year, and keep an eye on the Medical Science Building across the way.

MARGARET HELEN DOCKRILL

Margaret is another Bloomfield High School graduate. She has taken an active part in the Choral Society in its more flourishing days. Dancing, tennis and studying are her main pursuits. She goes quietly along her way.

"With gentle yet prevailing force
Intent upon her destined course
Graceful and useful in all she does."

NEIL LAYTON FERGUSON

Layton is keeping up the family traditions of a high scholastic record. His athletic abilities speak for themselves. He is star pitcher of the Reserve Baseball team, champions for Eastern Nova Scotia, he has played interfaculty football, softball and hockey. An outstanding member of the Effective Speaking Club.

DORIS LEVINIA FRENCH

Doris entered Dalhousie last year as a Freshie-soph from Memorial College, Newfoundland. History and English are her specialties, but it is rumoured that a good part of her time is taken up delving into the mysteries of Horace. Occasionally she can be persuaded to take time off to play badminton or see a show, in spite of good resolutions.

CECIL EARLE GORDON

Earl is better known to his fellow Pine Hillers as "Larigans". Entering Dal. in the fall of '29 as an Arts student he has shown himself to be a true Pietonian. Not only is he a brilliant student, but also an athlete. He has done much to give to the Pine Hill Theological softball and basketball teams. Larigans has chosen Theology as his profession and has already proved his ability as a preacher.

DOREEN MARY HARPER

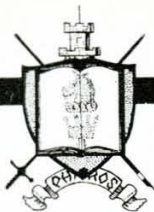

Past: Mt. Carmel Academy and Convent of the Sacred Heart.

Present: A member of the Student's Council, Delta Gamma and Alpha Delta Gamma executives, Vice-President of Shirreff Hall and Arts representative of the Newman Club, with a distinct liking for Latin and Math.

Future: A librarian and we prophesy a good one. Favorite Colour—Buff.

RONALD JAMES HILL

A Haligonian, he attended St. Patrick's boys school, entered St. Mary's College on a scholarship. In 1927 while playing hockey he met with an accident which resulted in the total loss of his sight. He then entered the School for the Blind and there made a thorough study of the use of Braille and the typewriter as a means of proceeding with his higher education. He entered Dal. in 1929.

ETHEL HANNA JACKSON

Ethel decided to complete her education at Dalhousie, and arrived here last year from Barnham College, Columbia. She is an enthusiastic biologist and has even struggled through the mysteries of histology and embryology. She is an excellent athlete, and has played on the Intercollegiate basketball team, in spite of all this she takes in all the parties.

WATSON LESTER JONES

A New Brunswicker, Watson attended school in his home town. At the age of thirteen he was in an explosion which resulted in a total loss of one eye and seriously impaired the use of the other. Four years later the sight of this left him also. He entered the School for the Blind in 1923 and matriculated at Dal. in 1929.

WINNIFRED BEVERLY KILLAM

Winnifred came to Dalhousie from Moncton and entered with a University scholarship. Winnie has maintained this record, excelling in English, she reveals her comprehensive knowledge of literary subjects at Midlothian Society to which she has belonged for three years. Living at the Hall and in the city she has acquired a wide range of friends.

GLADYS AMELIA LONGARD

Gladys is a Haligonian who came to Dal. from Bloomfield High School. Four medals were not enough, so she captured one of Sir William Young's entrance Scholarships. She has shown herself to be an excellent student, Latin and Math especially. She is a member of the Classical club and takes the wellknown Education 2. When not at the Murray Homestead she is likely to be found at Chocolate Lake indulging in her favourite sport.

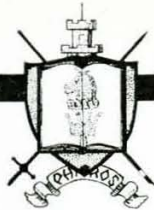

MURIEL MAUDE LUCAS

Muriel has the distinction of being the finest tennis player on the team. For two years she has represented Dalhousie in tennis and last year was Vice-President of the Tennis Club. In the winter she is forced to confine her efforts to badminton, and is Vice-President of the Club, and plays in the McCurdy Cup League. Her unselfish disposition will stand her in good stead in the teaching profession.

RAYMOND WILLIAM McCARTHY

Ray graduated from H.C.A. in '29 and talked himself into joining class '33. If you have a political question to solve, ask Ray. If you want an opinion of a book, ask Ray. If you want a good debator or someone to take up the cudgels of the C.O.T.C., find Ray.

DAVID LLOYD MacINTOSH

David is another one of those dark-haired, ruddy-checked boys with a smile for everybody. He came to Dal. from H.C.A. with an outstanding record of scholarship. Taking a keen interest in Economics he brilliantly upholds the principles of Mill and Ricardo in Maxwell's classes. Although a daily commuter from Bedford he finds time to take part in most extra-curricular activities. He will probably be back next year to take post-graduate work.

ROBERT WILLIAM MacLELLAN

Bob is another H.C.A. graduate, this fact speaks for itself. Bob always enjoys a good joke, but be sure he hasn't heard it before. He is the type of student that can attend all dances, and yet get a pass in Biology 2. Football, basketball, badminton and tennis are among his achievements. His inspiration is to study Medicine and we predict much for him in the "Art of Healing!"

LORNA MURRAY MacLEOD

Lorna has been a busy person since she came to Dal. in '31. She has debated, appeared in Glee Club shows, won a scholarship, interested herself in psychology and taken Education 1. For three years she has been an outstanding musician at the Hall. Dalhousie loses a good dancer, a good talker and a worthy member of Sigma Theta Pi.

DUNCAN DANIEL ALEXANDER McRAE

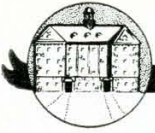

D. D. came to this seat of learning in '28 taking his A at Sydney Academy. He spent three years in teaching and travel, dropping out in '29, he returned in '30 and continued his enthusiasm for Dr. Smith. He is seldom absent from social functions. D. D.'s good humour and determination assures his success in whatever career he follows.

HELEN FRASER MacRAE

Helen was born in Korea and toured Europe on her way here. She is a staunch member of the Volunteer Band, Midlothian Society, Alpha Gamma Delta Sorority not to mention the Law School. She plans to return to Korea next year as a teacher, and we sincerely wish her a peaceful time.

SAMUEL MARGOLIAN

Sammy came to Dal. from the great "Western Gateway." From his first days at the University. Sam has realized the value of the "golden mean" and always mixes work with recreation. He is a keen student of philosophy, a prodigious reader, and few people have a better grasp of international affairs. He has been one of Dal's representatives on the Model League, prominent in the Effective Speaking Club, Associate Editor of the Gazette and Chancellor of his Fraternity. Sam has chosen Law as his future profession.

Laura Jane Marshall

Halifax County Academy sent Laura to Dalhousie to join class '33 in its four year journey. Her executive ability is well shown by the number of offices she has been elected to fill: Vice-President, twice Secretary, and now Life Vice-President of her class, she is this years treasurer of her sorority, Alpha Gamma Delta.

Lloyd George Marshall

England is not the only place that can produce a "Lloyd George." South Maitland shares the honor as well. "Marsh" came to Dalhousie in the fall of '29, his goal being a B. A. and a diploma in Theology. Lloyd studies hard and always comes out on top, even though he has carried as many as nine subjects in one year. He has distinguished himself as editor of Pine Hill's popular journal, "The Pepper Box," and, as a student missionary, he has made a name for himself as a preacher and pastor.

Mercedes Mary Marshall

Mary hails from Newfoundland. After three years spent at Saint Francis Xavier she changed her address to Dalhousie University. She first came into prominence when, one night when the phones were out of order, she sent a wire to Miss MacKeen from across the street. She is a talented musician, playing both violin and piano. She is also a good student, . . . and a bridge fiend.

Irene Margaret Matheson

Rene, a graduate of the Halifax Academy, has distinguished herself at Dalhousie both as a student and as an athlete. Leaving home at one minute to nine, dashing frantically up South Street, leaping over the wall, conditioned her for the Maritime running broad jump championship in 1931 and a track "D." Rene also includes skating, swimming, badminton, ground hockey, and the making of firsts in her repertoire. Halifax Ladies' College will possess her next as a student in Dietetics. Success Rene!

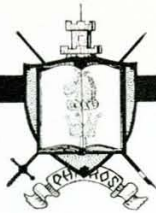

Aileen Althea Meagher

Dark eyes, infectious smile, and lots of dash—particularly in the 100 yards which won her a trip to the Tenth Olympiad at Los Angeles. Aileen graduated from the convent of the Sacred Heart in 1931 and entered Dal. as a Junior the same year. A Bennett Shield debater, Arts representative to the Newman Club, 2nd Vice-President of Delta Gamma, she is a member of Alpha Gamma Delta Fraternity. We wish her plain sailing in the teaching profession until a calm makes necessary the use of "oars".

Margaret Maitland Montgomerie

Marg. is the affirmative answer to the question, "do women want to be educated?" Her record of firsts is sufficient evidence. Aside from scholastic attainments she has aspired to many extra-curricular activities, among which is the Model League of Nations. Margaret's talent as an authoress, as seen through the columns of the Gazette, allow us to prophesy that she will go far in her chosen field of Journalism. Her sorority is Sigma Theta Pi.

MILDRED IOLA MOORS

Mildred is just about the most industrious girl in college and gets firsts in more classes than most people ever tried to take. She took her "A" at Bloomfield High, her teacher's training at Truro and is finishing her B. A. course this year with seven classes. An active member of the S. C. M., she was one of the delegates to the Buffalo convention last Christmas. Her industry and never failing good spirits have won her many firm friends.

MILDRED MORSON

Identification Card: Miss Mildred Morson.
Personality: Sparkling dark eyes, black curls.
Education: Dal. with Mt. St. Vincent as a good start.

Outstanding Characteristic: A friendly attitude to everyone.

MARION GERTRUDE MORTON

Attractive, capable, sincere, Marion has been prominent at Dalhousie. Executive positions which she has held include the Presidency of Alpha Gamma Delta, Secretary of the class for two years, and member of the Gazette staff. Received her "D" as center on the basketball team. In the capacity of Life Secretary of the class Marion's originality and co-operation are engaged on the convocation week committee. Popular and efficient, post graduate days will bring her into as much demand as have the years at college.

ERIC DAVID MURRAY

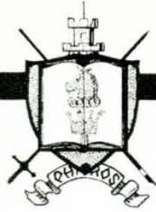

"Spec" entered Dal. in 1930 from Saint Mary's. He is well known on the campus as Lieutenant E. D. Murray, of A Company, C.O.T.C.; as an exceptionally good badminton player; as the star proof-reader of the Gazette; and as an ardent "scoop" chaser for the local press. "Spec" shows such energy and resourcefulness in everything, that we have no doubt of his success in his chosen profession, Law.

EVELYN OLIVE NICKERSON

Evelyn is ready for anything, whether it be dancing, skating, bridge, or what have you. A prize winner at Bloomfield, an active member of the exclusive Classical Club and of the famed Education 2 class she also plays a good game of badminton and tennis and is master of the violin and piano. Her cheery smile will be missed in the realms of Education and advanced Chemistry.

JOHN KING OLDFIELD

Jack spent his junior educational apprenticeship at Pictou Academy and Kings Collegiate. He arrived at Dal. in '29, registered at Kings, and settled down to learn how to fool the profs. Quick wittedness, keenness and a conscientious nature are a few of the qualities which have placed him on innumerable committees. His scholastic career is good, his popularity with the fair sex is enviable, and his presence at all social functions is a predetermined fact. His fraternity is Phi Kappa Pi.

WILLIAM KING PACE

Bill came from H. C. A. and has made his home for the past four years at Pine Hill. He has earned the reputation of being a steadfast friend and a consistent student; so that he is deservedly popular in the Residence. Well versed on current topics he is a strong admirer of R. B. Bennett. With a good mind and a big heart Bill will make a welcome recruit to the Ministry.

DOROTHY ELEANOR REDMOND

Lost: One scholar from Aberdeen High School, Moncton, efficient, practical and friendly.

Found: (Four years later). President of Delta Gamma, just as efficient, practical and friendly. Dot with a brilliant scholastic career had her worth recognised by winning a scholarship as a Freshette. She has debated on the intercollegiate team. She has displayed her executive ability in Delta Gamma, Midlothian Society, S. C. M. and as librarian of Shirreff Hall.

EVAN BENJAMIN ROGERS

Ben came to Dal. from Prince of Wales College with an entrance scholarship, and an outstanding record as a student, debater, and worker—a record which he has maintained. His efforts have been most fruitful in the Model League of Nations, the Gazette, the International Relations Club and the S. C. M. After graduation he plans to take post-graduate work in his favorite study—Political Science.

JOHN MARSHALL SPROULE

Marshall was a school teacher of no small standing before coming to Dal in the fall of '30 as a scholarship student and a married man. During his Arts course he had a weakness for Latin. Since Theology is his chosen profession he has been the Minister of Glen Margaret, where he has won the affections of his "flock." With a B. A., a wife and two baby boys Marshall has a good start in life.

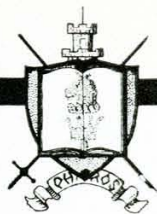

KENNETH GEORGE SULLIVAN

On graduating with the class of '29 from the Halifax Academy, Ken came to Dalhousie where he immediately began to make his presence known. Ken has been active, scholastically, athletically and socially during his stay at Dal. Last year's President of the Sociology Club and this year he is the mainstay of the Intermediate Basketball Team. His seat in the Library is seldom vacant and yet he often takes time out to attend frequent dances; this fact giving rise to the title "sporting theolog."

EVELYN MABEL FORRESTER THEAKSTON

Evelyn came to Dalhousie from Bloomfield High School. A very studious person, she can be found in the library any time of the day reading modern English, a subject in which she is keenly interested. She is a member of the famed Education 2 class, and aspires to being a High School teacher herself. The Choral Society has an enthusiastic supporter in Evelyn.

ARTHUR LOUIS THURLOW

Arthur first took to the bottle (milk bottle) in Lunenburg, where he received his early academic training. Travelling via the fast freight, Art joined the Class of '33. Since then he has given account of himself as a student and athlete. His forte is badminton. Good natured jovial and friendly, we predict that he will go far in his chosen profession, Law

EIRENE MARGARET WALKER

England is Eirene's native land. She excels in writing, acting, hiking and dancing. Her original ideas, interesting personality and fine sense of humour have combined to make her popular with Arts and Commerce. As Vice-President of the S. C. M., she visited Buffalo in '32. Last term she represented France in the Model League of Nations, and debated for her class in the Bennet Shield competition. She is Vice-President of Alpha Gamma Delta Sorority.

RHODA EVELINE WOLFE

Rhoda entered Dalhousie in the fall of '30, bringing with her an excellent record from Bloomfield High School. She has shown herself to be a very clever student, and has distinguished herself in Math. She is a member of the Education 2 class and next year will join the ranks of the teaching profession. Judging by her past record, she should meet with every success in the future.

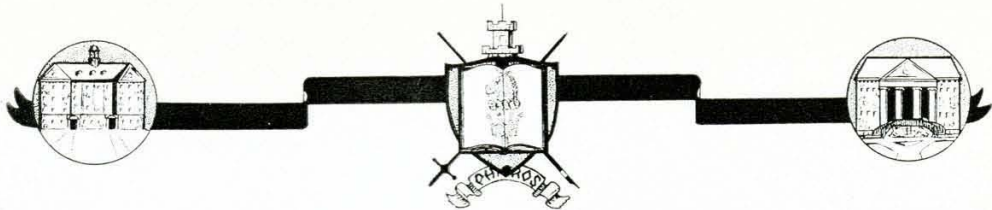

Master of Arts

JOHN BALDWIN CORSTON

Not satisfied with a B. A. with high honors in classics, John, after attending Pine Hill for one year, came back this year for his M. A. in Greek philosophy. With a distinguished career scattered with scholarships throughout his years at college, John hasn't neglected the lighter side of life and dancing claims no little of his attention. During the past year he has been the efficient president of the Classical club. Last summer he was student missionary in Cape Breton and next year he continues his theological studies at Pine Hill.

STUART MILLS DOCKERTY

Stuart graduated in Arts with the class of '31 leaving a brilliant record in his wake. The following year he returned to Dal. as a demonstrator in Physics with a two years Master course in view. When the spring of '32 rolled around he found himself the proud possessor of a National Research Council Scholarship, enabling him to complete his final year. He is a gymnast of repute, and plays badminton well. Your future, if as brilliant as your past—Yes he has a past—will indeed be worth while. Good luck Stew.

WILLIAM DONALD YORSTON DOYLE

Don, another product of that great metropolis, Truro, came to Dal. in 1929. He completed his Arts course in three years and leaves a high scholastic record in his wake. This year Don. returned to us to take his M. A. in English. He has spent this year in residence at King's, where his ability as a pianist and his all-round good-fellowship have won him many friends. He will probably continue in the teaching profession.

ESTHER ELIZABETH GWYNNETH ELLIOT

Dalhousie considered itself lucky when Esther returned for her M. A. She graduated in '32 as the Life Vice-President of her class having taken an active part in campus affairs. During her four years here she once spent a week in the Law School and signifies her intention of returning for the complete course. If she should do so we feel sure that she will be successful. She is a member of Sigma Theta Pi.

WILLIAM ROSS FRASER

Bill is one of Pictou County's native sons, who has graced Mount Allison with his presence for four years, and then felt the call of Halifax and Pine Hill. Besides finishing his theological work this year, he will obtain his Masters degree in Metaphysics and Psychology.

A man of real ability as a student, he has many other accomplishments. The name of W. R. Fraser is known all over the Maritimes as one of the outstanding checker players in the East. Bill is a lad with what we would call a bright future.

CATHERINE OLDING HEBB

Kay leaves Dalhousie with an M. A. in Physiology. She is extremely clever, managing to live in Dartmouth, attend one lecture a month and still acquire more scholarships than anyone in the University. Kay has efficiently filled many offices in her undergraduate days and now carries on just as efficient work in the Medical Science building. She intends to continue her work in Physiology at Toronto University for her Doctors degree.

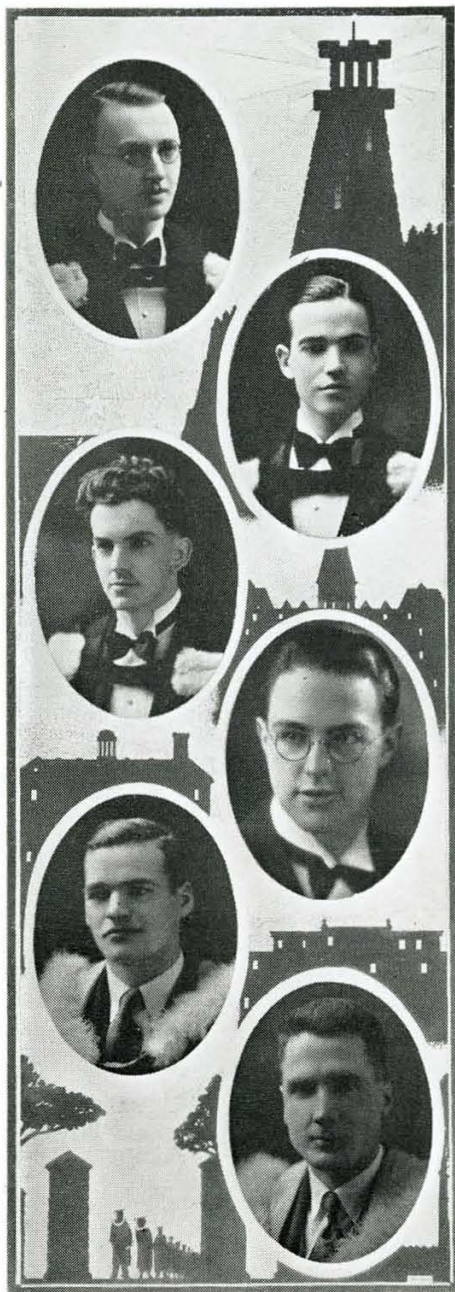

EDGAR WENDELL HEWSON

Born in Amherst, it seemed natural that he should attend Mount Allison where he received his B. A. degree with honors in Physics, along with an engineering certificate. He receives his M. A. in Physics. A cursory glance might lead one to think that Wendell is a confirmed bachelor, but this is far from the case—for Blind Cupid could not have struck his arrow deeper if he had possessed a thousand eyes—she lives in Amherst. Dalhousie will watch with interest your future, Wendell, so carry on.

EDWARD BERKELEY HIGGINS

Coming to us from the University of Western Ontario, where he was enrolled in Commerce, Ed. has taken a prominent part in activities on the campus. Having obtained an Arts degree last year, he is this year taking his M. A. in Economics and Political Science. Prominent in the C. O. T. C., pre-Xmas managing editor of the Gazette, and speaker at the inter-collegiate League of Nations meet, as well as a high scholastic record, Ed. has won the respect and admiration of his fellow students in the two years he has been with us.

EARL ERRINGTON LEWIS

There was a young disciple of Freud
With psychology, for years he had toyed
Till with serious intent,
His efforts he bent
To an M. A., with heart overjoyed.

On his thesis he wrote reams and reams—
Page and Herbie ne'er digested such themes,
Till his psycho-analysis
Gave them creeping paralysis—
"Step up girls and tell him your dreams!"

JAMES STUART MARTELL

Jimmy, the energetic and ebullient, guided Kings' class '32 for four years and was its valedictorian and life president. From K. C. S., he entered Kings on a scholarship and followed with three more. Vice-President of the K.C.A.A.A. and Editor of the Record, as well as winning the Governor-General's medal with high honors in political science and history were among his accomplishments. During the past year he has been working in the Archives while engaged in taking an M. A. in History. He has won the I. O. D. E. Overseas Scholarship and goes to London next year to continue his history studies.

ELDON PRINGLE RAY

A native of New Brunswick, but now of Halifax, Eldon entered Kings from the Halifax Academy. Of a quiet and retiring nature, he is a conscientious worker and leaves a good scholastic record behind him. He graduated from Kings with a B. A. last year and this year obtains his M. A. in History. He will probably end up with the fate of a teacher. His many friends join in wishing him well.

LIONEL GRAHAM TURNBULL

Born at Sydney, Graham's undergraduate work was done at Mount Allison, where he graduated in 1930 with a B. A. and engineering diploma. He spent one more year at Mount A. as student assistant in physics before coming to Dal., and completed the requirements for a B. Sc. degree which he received in '32. In 1931 he entered Dalhousie as demonstrator in physics, which position he has filled very competently for the past two years. He receives his M. A. this year as the result of two years brilliant work, which—certain ladies affirm—is not wholly academic.

DANIEL PHILIP WALLACE

Dan, is this year's Rhodes Scholar for Nova Scotia. Getting his B. A. from Dal in 1931 and his M. A. in English this year, he has had an outstanding scholastic career. An all-round man, he is one of Canada's leading scullers, a former Maritime Inter-collegiate Boxing Champion, and a member of Dal's senior rugby squad. Cheerful and sincere, Dan has won many friends who wish him well at Oxford.

HAROLD ALEXANDER WEIR

Harold may be seen any day of the week calmly surveying an unfinished Physics 19 problem on the physics lab. blackboard. He received his B. A. degree in 1931 and this spring will obtain the coveted M. A. in physics. He was a demonstrator in the physics lab. for four years, the last two holding the position of MacGregor Fellow. He is indeed a man of parts, expert photographer, schoolteacher, and physicist. He has as yet made no plans for the future but whatever he does he will do it well.

Music

FRANCES MORRISON

Cape Breton sent Frances to Halifax where she has remained for the last fifteen years. Halifax Academy gave her her early education. She is a talented musician and receives her Bachelor of Music this year. She received her training in voice from Halifax Conservatory of Music. She is a hard worker, but finds time for her favorite sports, swimming and tennis.

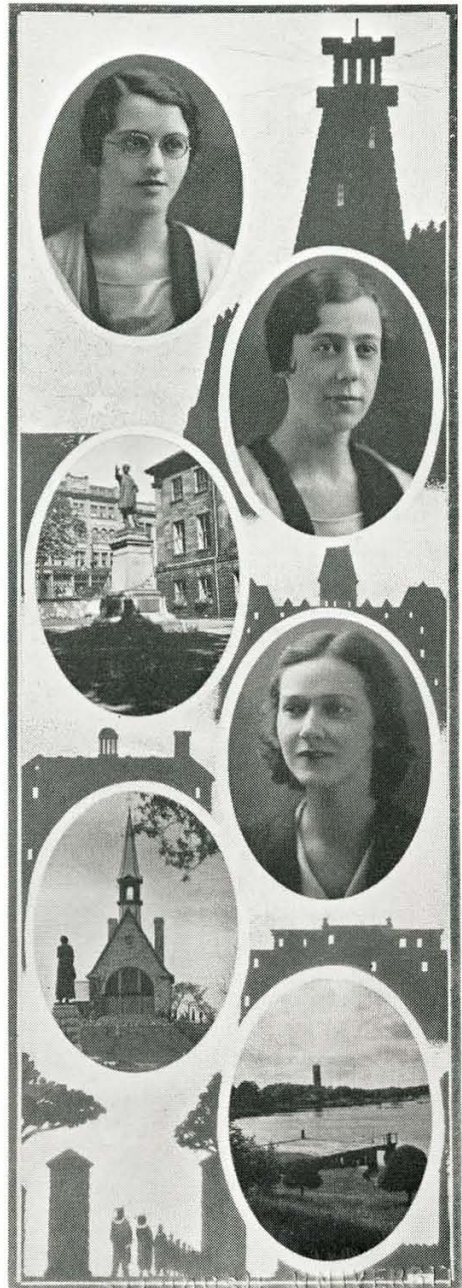

HELEN MARGARET TORREY

Helen received her early education at H. C. A. and has since then turned her attention to music. She has been studying at the Halifax Conservatory of Music, and at the same time taking classes at Dalhousie—aspiring to a Bachelor of Music degree. Organ has been her forte. She is extremely clever and her ready wit has proved a constant source of amusement to her many friends.

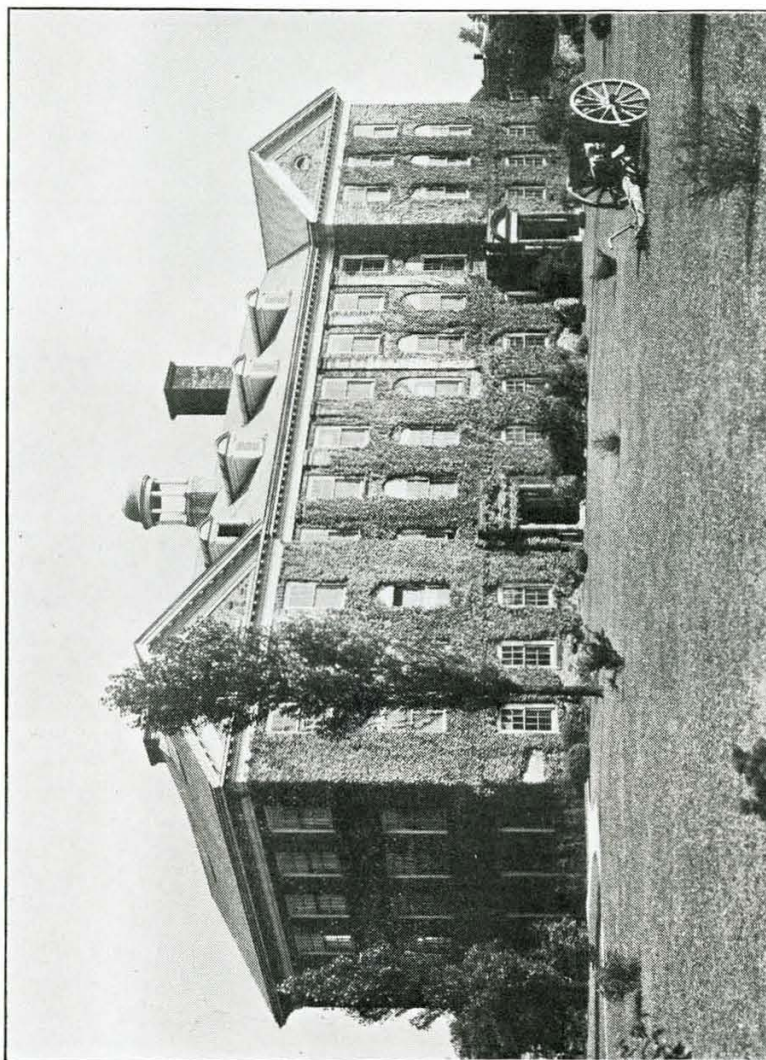

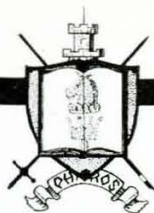

Household Science

NORMA CLARKE

Norma came to Dalhousie from Acadia in her Junior year. This year she completes her course in Household Science at Halifax Ladies' College and still finds time to take six classes at Dalhousie. She intends to return next year to take her B.Sc. We suspect that there is some attraction in Moncton because she goes home every week-end, but in spite of this she has been an excellent student.

LIBRARY
DALHOUSIE

SCIENCE BUILDING

Bachelor of Science

GEORGE CUTLER BEATEAY

George claims he came clean from St. John but on closer examination we find that he stopped off at U. N. B. to pick up a B. A. Not being satisfied with this, George migrated to Dalhousie in search of a B.Sc. in Chemistry. He is a very quiet unassuming chap until he plays the accordion and then he is the original street-singer. George is the big silent "Romanoff" of the Phi Kappa Pi.

JAMES ROBERT JOSEPH DONAHUE

Bobby entered Dal. from St. Mary's in 1930, and has made himself popular about the campus ever since. He has taken part in no less than nine Glee Club shows, starring in the Newman Club performances every year. President of the Newman Club this year and President of Glee Club for 1934. He has played Interfaculty basketball and hockey. Medicine sees him next year.

WILLIAM DRUMMOND EATON

Drum's first lungful of air was breathed at Truro where he stayed for sixteen years to conquer the curriculum of Colchester Co. Academy, and he now revels in the mysteries of first year Medicine. He has several life saving medals to his credit and is one of Dal's foremost swimmers. As Life Guard at Minaki one summer he rescued 3,629 gurgling damsels. He has acted for Glee Club and his secret vice is tooting the clarinet. His fraternity is Phi Rho Sigma.

AMOS LESLIE GEDDES

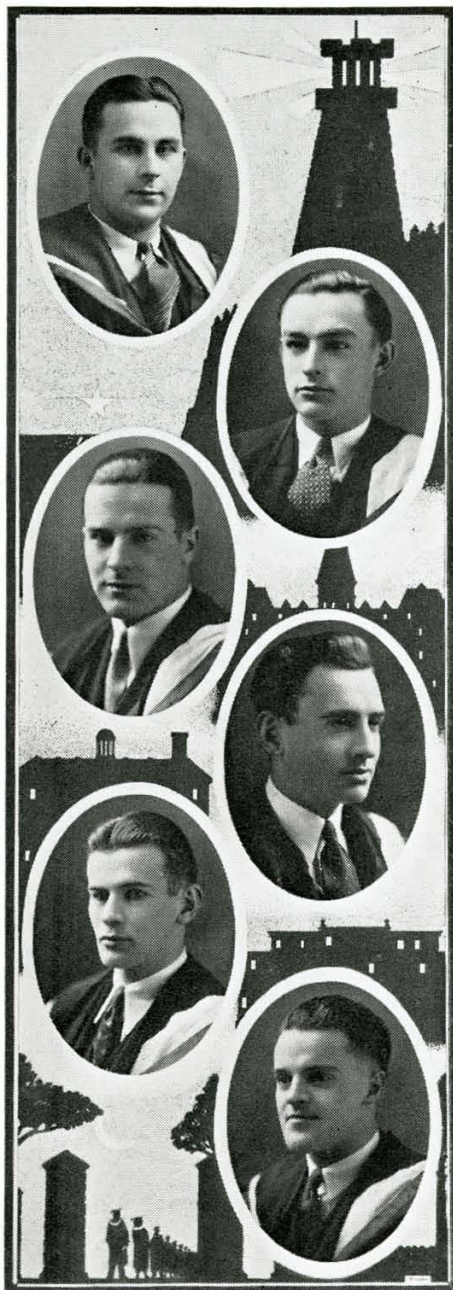

First opened his eyes in Great Village but managed to survive. He received his early education at the local emporium. He then hid himself to Dal, and began chasing the elusive atoms. He is an outstanding physical chemist. Adept with the gloves he held the featherweight title for '31 and the same year fought in the intercollegiate tournament. Next year he will probably return to do post graduate work. His fraternity is Phi Delta Theta.

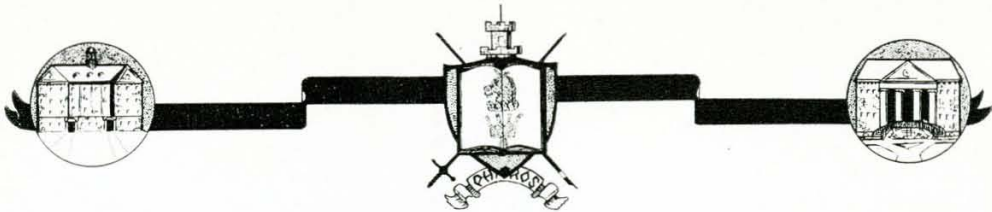

CLARENCE LLOYD GOSSE

Clarie came to Dal. in '29 from H.C.A. already a man of science. As a resident of King's he has taken an active part in their sports. He played Senior hockey at Dalhousie and his straight eye has scored many a point for the Rifle Team. He ranks high among the badminton and ping pong players. Arts and Science loses what Medicine gains, a scholar and a fine sportsman.

CHARLES ARTHUR HERALD

Charlie came to Dal. as a product of Sydney Academy in the fall of '29 with a scholarship standing that he has maintained throughout his chosen field of Maths. and Physics. Quiet, reticent he has cultural tastes in literature besides his vast knowledge of science. In the summer he may be found hiking around Cape Breton or vacationing at Myra. Practical and a thinker he will undoubtedly enjoy a successful career in his chosen work.

EDGAR GEORGE HOUSE

Ed. came to Dalhousie as a First Year Med. in '31 from Field and Memorial Colleges, carrying with him a brilliant record of scholastic, executive and athletic achievements which he has maintained. A member of King's hockey team and football teams, manager of Dal. soccer team and inter-faculty hockey, he has all firsts to his credit, is a regular attendant at the Hall.

JOSEPH GORDON HOWELL

Punch came to us from the "old Colony" having obtained his previous education at the United Church College and Memorial College. While there he excelled in athletics and is a mainstay of Dal's highly rated soccer team. A good student and an excellent chemist, he is planning a career in that branch of learning. We wish Gordon all possible success in the future.

CLAUDE KILBORN HOWSE

Claude acquired a reputation before coming to Dal., having been President of the Student's Council at the Memorial College, St. John's. He arrived at Dal in 1931 after various experiences; as a trapper and as a gang boss on surveys and electrical construction jobs. Graduating with honours in geology, he is this year's President of the Dawson Geology Club.

WILLIAM ROBERT INMAN

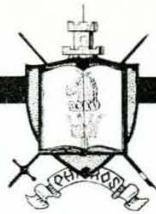

Professional accusation has labelled Bob one of the cleverest and at the same time one of the laziest men at Dal.; a paradoxical statement considering he has successfully undertaken all the science courses Studley can offer, and is now in first year Med. He has been instrumental in organising the Fencing Club at Dal. and has been active in the Biology Club. His fraternity is Phi Delta Theta.

STUART JOHNSTON

Stuart hails from Coldstream and is specialising in Chemistry, after having one year's experience as Instructor in Chemistry at Acadia and six years as an analyst at the Nova Scotia Technical College. His sideline is Geology, but with his experience at Acadia and Tech, it is unlikely that he will find himself "on the rocks."

ROBERT ORVILLE JONES

Bob came to us in '30 as one of the talented graduates of Bridgewater High "A". At Dal. he has upheld the honor of that school, balancing hard work with just enough social whirl. In the summer, on the Digby Pines Golf Course, he emulates his famous namesake. He is also owner of a seat at the Forum. Bob is an aspiring M. D. and member of Phi Rho Sigma. His future is bright.

CHARLES EDWARD KEARNEY

Charlie came to Dalhousie from Acadia to continue his study in Biology. He has gained experience as a teacher in the fishing colonies of Grand Manan and furthered his biological knowledge on a survey of the coast waters of Nova Scotia carried out by the Biological Board last summer. While at Dalhousie he was instructor in Biology 2. He is indeed well equipped for his chosen profession, teaching.

GERALD JERSEY LEBRUN

Jerry came to Dal. from Bridgetown, much to the regret of the feminine element of that growing and prospering metropolis. But, as they say in critiques, what the home town has lost Halifax has gained. Jerry is an excellent student and has played interfaculty football and basketball. He is at present studying in the Medical School so we will still have him with us for several years. His fraternity is Phi Chi.

SIDNEY CHARLES LEFKOVICS

Sid. started his college career at New York University. At Dal. he gained a reputation especially as a "Biology Wizard." Sid. has been with us a comparatively short time, but Dal. will see him for the next few years, since he has embarked on the stormy sea of Medicine. In spite of being a serious minded student Sid. always has a pleasant smile for the ladies, and do they like it.

GORDON CREELMAN MacDONALD

Cape Breton boasts many stalwart men among her sons but few so proud of her as our amiable "Doc." Now a worthy son of toil in second year Medicine the rest of the course will be just another strathspey and reel. Here is a steady worker, a careful student and a loyal friend. His affection and sympathy for the "fair" of this mundane world is undeniable but he discreetly refuses to disclose his intentions.

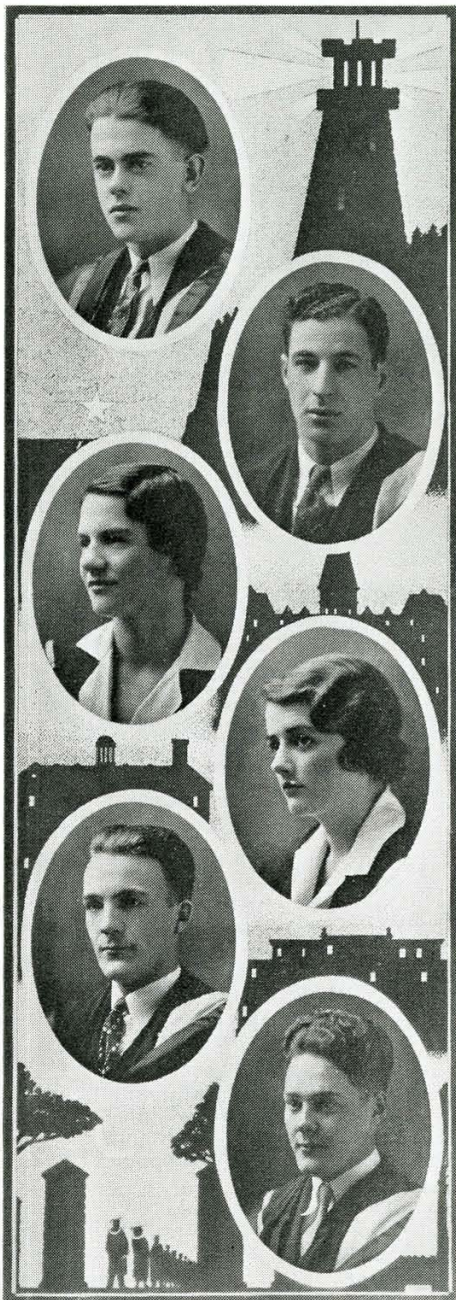

JOSEPH BAXTER MacDONALD

The Tiger from New Glasgow High came in quest of greater knowledge in 1930. Strong and silent, he struggled through the mysteries and worries of Pre-Med. For two years Joe trod the weary way between Studley and Pine Hill, and now, still strong and silent, makes his home at Phi Rho Sigma. Outstanding features, hair, fair sex and nocturnal meanderings.

DONALD EDWIN MacKENZIE

Don. is a native son of New Glasgow. After graduating from the home town High School the quest of higher education brought him to Dalhousie. During his four years he has risen from freshman insignificance to one of the foremost undergraduate chemists. Gregarious, he is usually among those present at the social functions and is renowned as a raconteur. He has held several offices in his frat, Phi Delta Theta, and may return next year for graduate work.

DONALD HOLDSWORTH MacNEIL

Don, a daily commuter on the Dartmouth Ferry, received his early High training in the Harbour town and the H.C.A. His temperament is even despite the colour of his hair. He is always ready and willing to do his fellow men a good turn. As for his association with the opposite sex, they are somewhat of a mystery, but one may rest assured that his "evening" trips to Halifax are not solitary sojourns. After receiving his B.Sc., he hopes to be an insurance actuary.

HYMAN MAGONET

Another Cape Bretoner! Hymie came to us from Glace Bay. He has been Treasurer of Class '32 for two years, President of the Wrestling Club and an active member of the Maccabean Society. He has represented Dal in boxing, wrestling, football and his exploits in track are well known. His ultimate goal is an M. D., C. M.

BETH MANUEL

Identification Card—Beth Manuel.
Personality—Tall, dark, vivacious.
Education—Memorial College, St. John's.
Official Capacity—Member of Shirreff Hall House, Committee, and executive of S. C. A.

Accomplishments—Spent several weeks at Wood's Hole, a member of the Biology Club, an efficient skater, an ardent lover of the great outdoors and an insane desire for Jig-Saw puzzles. Taking all in all a good sport.

MARY ELIZABETH MARCH

Betty came in as a freshie-soph from New Glasgow High School and during her first year won two scholarships. She is extremely clever and has wasted little energy in unnecessary study. She was a member of the intercollegiate debating team and 1st Vice-President of Delta Gamma. She represented Dal-housie on the N.F.C.U.S. debating team this year and covered herself with glory. For two years she has been on the Gazette staff, a member of the Biology Club a participant of Glee Club and a member of Kappa Beta Phi.

JAMES FLOYD MOORES

James received his early education at United Church College, then to St. John's Teachers Training School where he obtained his first class license. In 1920 he entered Memorial United college and graduated in Math. He came to Dal. in '31 and this year received a B.Sc.—quite a list to his credit. Skating, badminton and football are among his outside interests.

CHARLES NELSON MOREHOUSE

"As a man soweth, so shall he reap"—may rightly be applied to Charlie. Centreville, Digby Co. was the scene of his birth and early life. As a graduate of Annapolis Royal Academy, he came to Dal. in 1927, after a short absence he returned in 1932 to study Medicine where he is now to be found. Interested in all active sports we predict a bright future and say "Best of luck, Charlie."

JAMES ALEXANDER MUTR

Jimmie is among this year's outstanding graduates. He has given unceasingly of his time and energy for the good of the college—as a member of the Council in '30, Secty.-Treas. for the D.A.A.C., and the Students' Council in '31. He has been manager of the track team, and participated in the sport as well. His popularity and efficiency is shown by the fact that he has been elected Life Treasurer of Class '32.

JOHN FRASER NICHOLSON

Nick came to us in the fall of '30 from Glace Bay High with Medicine as his goal. He is a steady worker and judging from the exam. lists, we add clever. He makes his home at Pine Hill and lives with "Polly" the laundry-man—which no doubt accounts for some of his cleverness. Nick used to be the noisiest boy in the residence but the boys have cured that by making him a Deacon. We wish him every success in the Medical school.

ANNE MURIEL OLDING

Anne's destiny lies in the realms of Math. We prophesy that this tall, dark, distinguished young woman will be a great Mathematician. When interviewed, this prominent instructress will tell you of her home town, of New Glasgow High and Dal. She will recommend badminton as a delightful rest from figures. Dawson Club claims Anne as one of its outstanding members.

FREDERICK JUSTIN PHELAN

Fred attended Dal. some years ago, and returned to take his B.Sc. For some years he has been Principal of St. Patrick's Boys School—though naturally somewhat older than most of the boys he is a good mixer and easily overcame this breach. All who know him realize his worth.

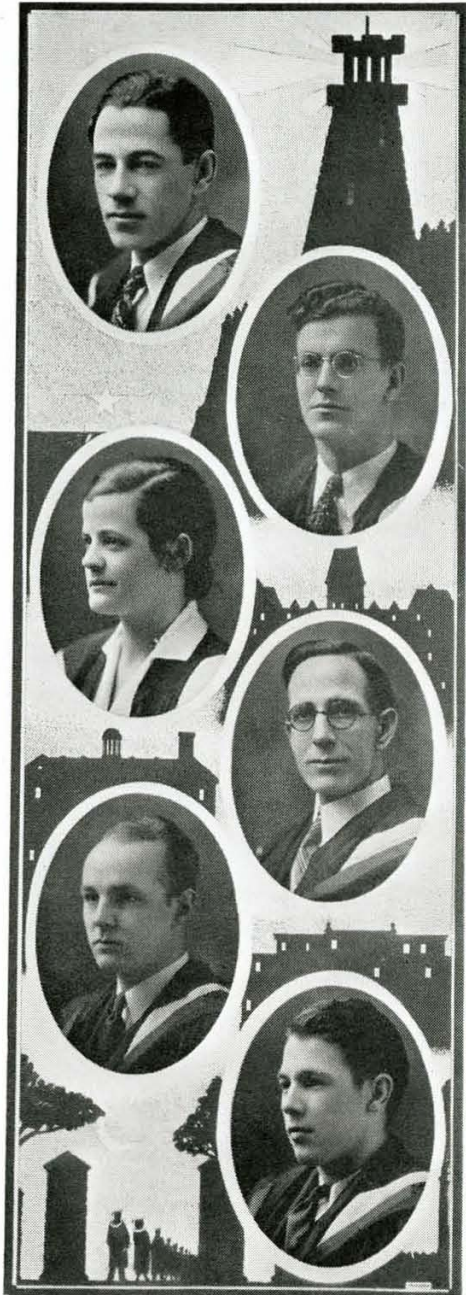

JAMES THOMAS KENNETH PURTILL

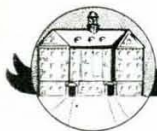

Ken came to Dalhousie from St. Mary's College and for the past four years has delved into the mysteries of engineering and chemistry. He has been a keen and successful scholar and no doubt will continue when he leaves to study chemical engineering next year. Proclaimed the best intercollegiate goalie in the Maritimes, he has served the hockey team for the last four years. His fraternity is Delta Tau.

LEWIS RAYMOND RYAN

Pop skated down from C.C.A. in '30 and hung up his skates in Pine Hill where they remained for two years. "Pretty sharp" quoth he. Although Pop denies any interest in the fair sex, we suspect the frequent trips to the Hub are not only for the ride. He is a consistent worker and we wish him every success in Medicine.

Favourite store—Pearl's.

ELIZABETH CAMPBELL SAUNDERSON

Lib. has done more in four years than most could do in eight. She has played ground-hockey, ice-hockey, badminton and tennis for the college. She has been a member of the Inter-collegiate basketball team for four years and successfully managed it for one. She appeared in Glee Club shows, has been Vice-President of her class and President of Kappa Beta Phi. She has attended all the parties, won a scholarship and taken all the hard courses available—crowning it with first year Medicine.

CARL CREELMAN STODDARD

Carl, in obtaining his B.Sc., leaves behind him an enviable record in the Arts and Science Faculty. Besides being a keen student, Carl has starred as Senior football player during '32 and '33. His deadly tackling has brought many a sigh of relief to the worried spectator. He has performed as an intermediate basketball player. This year he presides over first year Med. A member of Phi Kappa Pi he is without a doubt the "Beth" man at the Hall.

CONN HARKNESS SUTHERLAND

Conn is a full blown Haligonian, and came to Dal. in '29 from H. C. A. Since then he has proved his ability as a science student with a weakness for Geology. Although quiet and unassuming he has taken an interest in all campus activities, especially basketball where his prowess on the Interfaculty team is well known. Whenever the spirit moves him he honours the Hall with his presence.

MARGARET DOROTHY WEBSTER

Genus—Webster.

Species—Margaret Dorothy.

Description—Short, dark and characterized by a pair of dancing black eyes.

Favorite Haunts—Forrest Building, Thrum Cap, and across the Arm.

Uses—Vice-President of the Biology Club, and its last year's Secretary.

Characteristics—An aptitude for English, a brilliant intellect and a good friend.

A rare specimen indeed.

MARY ELIZABETH WEBSTER

Many surprises are hidden behind Betty's quiet exterior. Athletics are among her many achievements and she has played intercollegiate basketball for three years. Recently we hear that she has taken up walking. She is an ardent Biologist and member of the Biology Club. Regarding her character we cannot say more than that she returned from a trip to England last summer without an accent.

LEONARD EMANUEL WITKIN

Leonard entered Dalhousie this year after two years and a half at New York University where he was an active member and an officer of the Medical Club. Rather quiet, he is noted for his dry sense of humor. Specializing in biology, he still finds time for interfaculty sport, and is an active member of the Macca-bean Society. Leonard plans to continue in Medicine next year.

Master of Science

A. B. MacKAY

Baillie's smiling countenance is not a new one around Studley. Having graduated in Arts with the class of '31, he forsook the campus in favor of the principalship of the Port Hawkesbury school. Realizing his mistake after a year, he returned and is at present engaged in taking an M. A. in Physics.

His ready smile, enjoyment of chatting, and sincere friendship, along with a real capacity for work, will take him far.

Master of Science in Fisheries

ROBERT HOLLOWAY SQUIRES

Came to us from St. John's via Harrow and the Memorial University College. He is a member of Delta Tau. Taking an active interest in interfaculty rugby and the first soccer team, he entered Dalhousie C. O. T. C. with an "A" certificate from Harrow. Bob is blessed with an indifference to the opinion of others which often gets him into hot water. When on the trail or when the heavily laden canoe takes a lot of nursing or when the biting sting of a squally northeaster takes a level head at the tiller, we see the man. In his chosen profession, he is heir to a full blooded heritage.

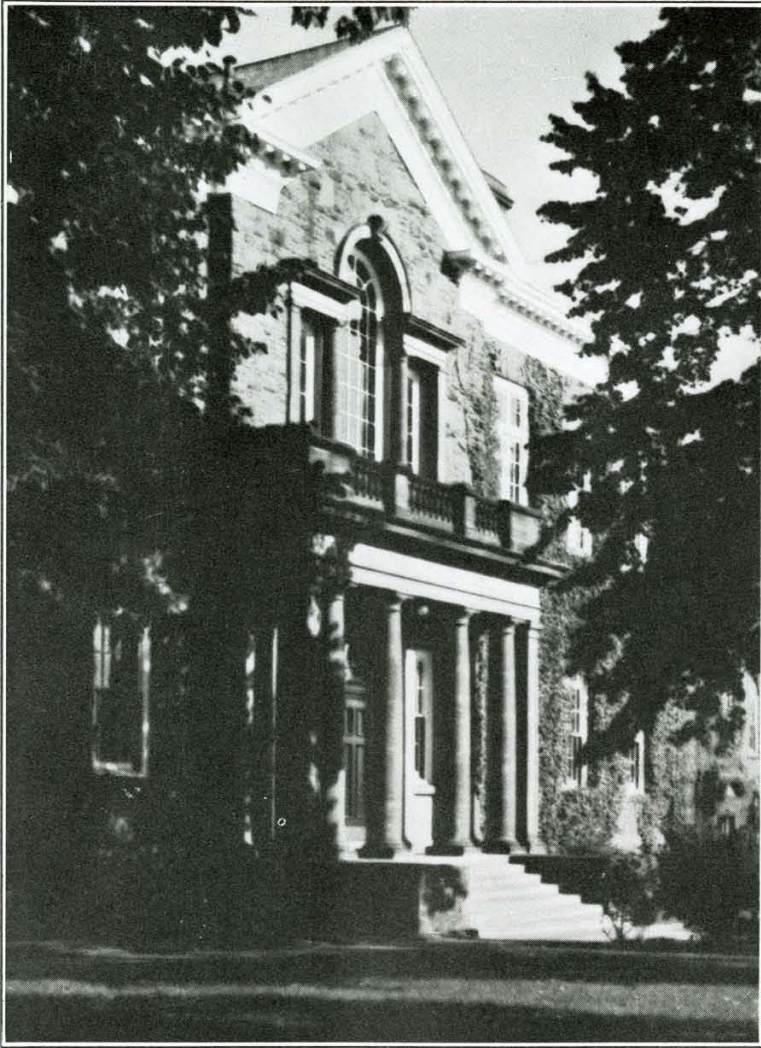

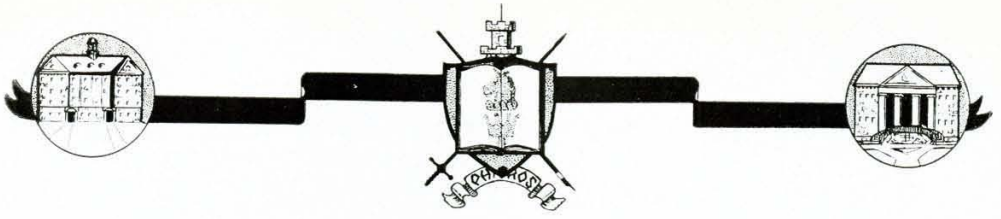

THORDUR THORBJARNARSON

Thor came from Bildudalur, Iceland, the first Icelander to come to this continent for a college education. He arrived in Canada in 1929 having been awarded a five year fellowship from the Icelandic Fisheries Association and was attracted to Dalhousie by the special course for the degree of B.Sc. in Fisheries. Thor seems to have the characteristic of his race in meeting opposition with nonchalant indifference. He is a tall handsome example of Nordic manhood and his presence will be missed at the University social functions particularly by members of the fair sex. He plans to spend a year in England before returning home.

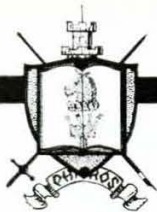

GARDAR THORSTEINSON

Gar came from Reykjavik, Iceland, following his countryman, Thor, to Dalhousie in 1930 and has managed to complete his course for the degree of B.Sc. in Fisheries in three years. He has held a scholarship given by the Icelandic government and plans to return home ready to show his people how to run their chief industry, the fisheries, scientifically and efficiently. Gar, like Thor, thinks that Iceland is the finest country "that ere the sun shone on" and is always ready to argue that the English language is derived from old Icelandic. The librarians, among others in the city will regret his departure.

LIBRARY

Bachelor of Commerce

EDITH LOUISE ALLEN, B.A.

Edie is another person who hasn't wasted much time since she came to Dal. She not only has made several firsts a year, but has found time to take an active part in outside affairs, e. g., Secretary of her Class, President of D. G. A. C., a member of Sigma Theta Pi and Captain of Girl's Ice-hockey—and Edie has never been known to miss a party.

MAY GLADYS ANDERSON, B.A.

May started her thirst for knowledge at Pietou Academy and apparently it is insatiable. Having already gained her Bachelor of Arts, and taking her Bachelor of Commerce this year, she is well on the way to becoming a lawyer, and has the distinction of being one of the two girls in first year Law.

ADAMS GORDON ARCHIBALD

A strong and well-built physique has given Gordon a place in Dal's Senior Rugby Team of '32 and a Boxing "D". Another asset is a cheerful disposition which has made him a favorite with his associates. His intellectual ability is shown by the fact that he has completed the Commerce course in three years without a pluck. His great ambition is to get a job, and we wish him luck! He is a member of Delta Sigma Pi.

ARTHUR ALEXANDER BAIRD

Art came from H. C. A. and believes that there is no sport like football. To prove this we find his name among the husky front-line of Dal's Senior Squad of '32, after several years of interfaculty play. Though usually a quiet chap, Art is naturally argumentative as several of the Prof's have found to their sorrow. His ambition, after he graduates, is to see as much of the fair sex as possible.

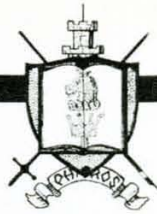

EVATT DECASTRO BISHOP

Don't be misled by the name, Evatt is not dark, nor yet mustachioed. During his four years he has religiously bought his pass on the substitute for the Halifax bridge—all for a B. Com. His duties as manager of the Book Store have taken up most of his time—along with Ice-hockey and Marg! His popularity and ability are shown by the fact that he is Life Treasurer of Class '33. His fraternity is Delta Sigma Pi.

JACK FRANCIS CANDOW

Jack came to us from Bloomfield High School with a high scholastic record which he has maintained throughout his college career. One of those versatile men that do not specialize yet do everything well, Jack has played Interfaculty basketball and softball. A fluent speaker, he can be depended upon for an argument at any time. A ready smile and a pleasing personality make him one of those chaps that it is a pleasure to know.

JOANNA PATRICIA CANN

Pat started life on St. Patrick's Day and the jolly old saint has kept his eye on her ever since. Her second year here, she won the Commercial Club Scholarship, her third, she was Vice-President of the Commerce Society, and this year sees her Secretary of Shirreff Hall. She has played on the Inter-collegiate Basketball team for two years and her next goal is a C. A. We hope that St. Patrick continues to watch over her, in her next venture.

HAROLD JAMES EGAN

Harold came from St. Mary's with a brilliant scholastic record which he has maintained throughout his course. He receives two degrees this year, and will become a Chartered Accountant in a short time, not to mention being Editor of the Gazette. His powers of expression will stand him in good stead in the Profession of Law, which he intends to take up next year. We feel sure that he will succeed in whatever he may undertake.

ROBERT FRASER HATFIELD

Bob comes from Cumberland Co. Academy and H. C. A. He is the Secretary-Treasurer of the Tennis Team and this year won his "D." incidentally, he plays an excellent game of badminton. He has been the very efficient Secretary-Treasurer of the Commerce Society for the last two years. Bob carries out whatever he undertakes, unselfishly and well, and we wish him every success.

ARLEIGH GEORGE HAVERSTOCK

Arleigh comes to us from that thriving centre of industry, Hammond's Plains, and as far as we know he plans to return there. He is one member of the Commerce group, at least, who sees no profit in loitering near that popular winter resort, Sherriff Hall. Arleigh has many friends among his class-mates and a successful career is predicted for him.

REX BIRDSALL LeCOCQ

Rex came to Dal from Fort William Collegiate and is an ardent supporter of anything Ontarian. His favorite pastimes are arguing and sleeping, and he is an adept at both. He somehow manages to do less obvious work and get more firsts than the majority of his class, and we'll give you a tip—if ever you want anything done ask Rex and it's done. His fraternity is Delta Sigma Pi.

MARY ISOBEL MACMILLAN, B.A.

Deposit (1910). In South Africa—one petite curly-haired maiden.

Transfer (1929). To Shirreff Hall, via Prince of Wales College, one curly-haired, and still petite maiden.

Changed City Branches (1932). Marie took up Housekeeping.

Accrued Interest (1933). A B.A., B.Com., a member of Alpha Gamma Delta executive—a tremendous interest in Commerce and a host of friends.

Remarks. Possibly Marie will be making out similar statements herself next year.

EDWIN ROBERT MACHUM

Bob comes from Daytona Beach High School and Mt. Allison Academy. He is a devotee of the sea and though he has visited several of the West Indian Islands, it was in Bermuda that he got his "Phyl" of the South. He is this year President of the Commerce Society and Editor of "Pharos." His fraternity is Delta Sigma Pi. Bob leaves for Montreal to commence his efforts in the commercial world, with the best wishes of his many friends.

DONALD ARTHUR MAHON

"Duke" is another H. C. A. graduate who became well known because of his pleasing personality and commercial ability. Placing the Gazette on a sound financial basis is his chief contribution to student life. "Duke" has represented Commerce on the Students' Council for the last two years. He plays in the nets for Commerce Hockey, while skiing, curling and dancing are among his outside interests. His fraternity is Phi Delta Theta. It is rumored that he will return to study Law next year.

DANIEL TURNER O'BRIEN

Turner arrived from C. C. A. and thinks that there's no place like Truro, except perhaps Shubenacadie. During his stay he has been an active participant in sport and in his senior year was a valuable member of the Tiger's Basketball team. In fact his performance as guard will be remembered as an outstanding feature in the City League play-offs. His fraternity is Delta Sigma Pi.

HAROLD DOUGLAS PYKE

A fisherman by nature, born and bred in Lunenburg. His college career has been somewhat varied and to him goes the credit of having more classes off than any two average graduates. During his senior year Doug, staggered under such a heavy course that he had to spend his Xmas vacation in Ottawa to restore his usual sanguinity. Delta Sigma Pi is his fraternity.

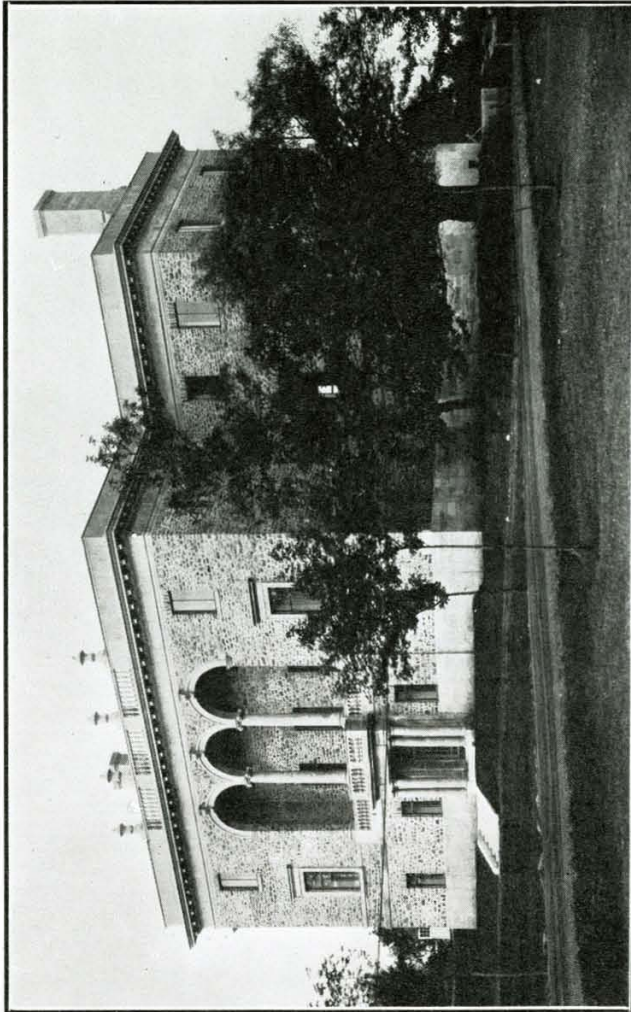

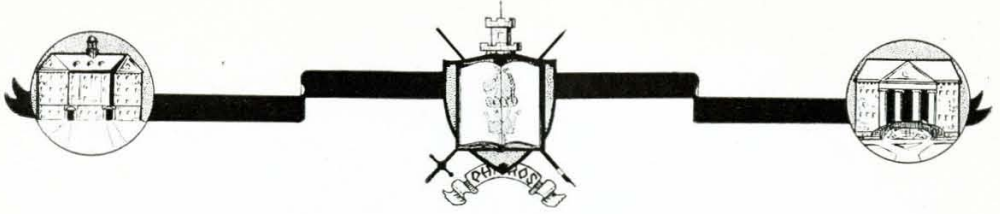

GEORGE CHRISTIE THOMPSON

George came from Bloomfield High School. For two years he represented his class on the Student's Council, last year was President of the Commerce Society, this year is President of his class and has been elected Life President. He starred in football, basketball and track. George has given unselfishly of his time and energy and everything that he has attempted has prospered under his leadership. He returns next year in first year Law and incidentally will be Freshman Representative on the Student's Council. Delta Sigma Pi claims him.

JAMES HENRY VOOGT

Jimmie is an ambassador of that much talked of island—Cape Breton. He is a noted tennis player, having represented Dal for two years—and this year won his "D". His executive ability has been well exemplified by his efficiency as Business Manager of this year's Pharos. Jimmie will probably return to the haven of Gaelic and Heather—but wherever he goes—Here's to his success.

ARCHIVES BUILDING

Engineering Diploma

ROBERT LOUIS CHRISTIE

Lou became a native of Truro, N. S., in the year 1912. He received his early education at Colchester County Academy from which he left in '29 to seek higher things. Presenting himself at the portals of Dalhousie in the same year, his keen mind turned to Engineering. He soon became a prominent and popular figure in all campus activities. Although deeply engrossed in campus activities and studies Lou still finds hours to devote to Shirreff Hall and is a prominent and graceful figure at all the big dances. Delta Tau is his Fraternity in which he is held with much esteem. He plans to continue in Mechanical Engineering at McGill University.

JOHN CHURCHILL CRITCHLEY

John received his early education in many parts of the world and finally came to Dalhousie in the autumn of 1930 from Yarmouth High School. During his residence at King's he has distinguished himself particularly as a sharpshooter and represented the C. O. T. C. on the rifle team in 1931. This year he is shooting for Dalhousie. If you have any old radio set to be fixed John will fix them. He is a keen student, and will undoubtedly make a successful engineer. N. S. Tech. College will welcome him next year, when he plans to specialize in electrical engineering.

JAMES BELL FERGUSON

Another product of Pictou County, Jim entered Dal. in the fall of '29 and has taken an active interest in all student activities. He has been a member of the Engineers Football, Softball and Hockey Teams. Captain of this year's Interfaculty Football team, Jim led the boys through to victory. Engineers representative on the Students Council this year and Secretary Treasurer of the Engineering Society in '33. Jim's Fraternity is Delta Tau and although a cradle snatcher he is well liked by everyone. He intends to finish his course in Mechanical Engineering, at McGill.

MAC FISHMAN

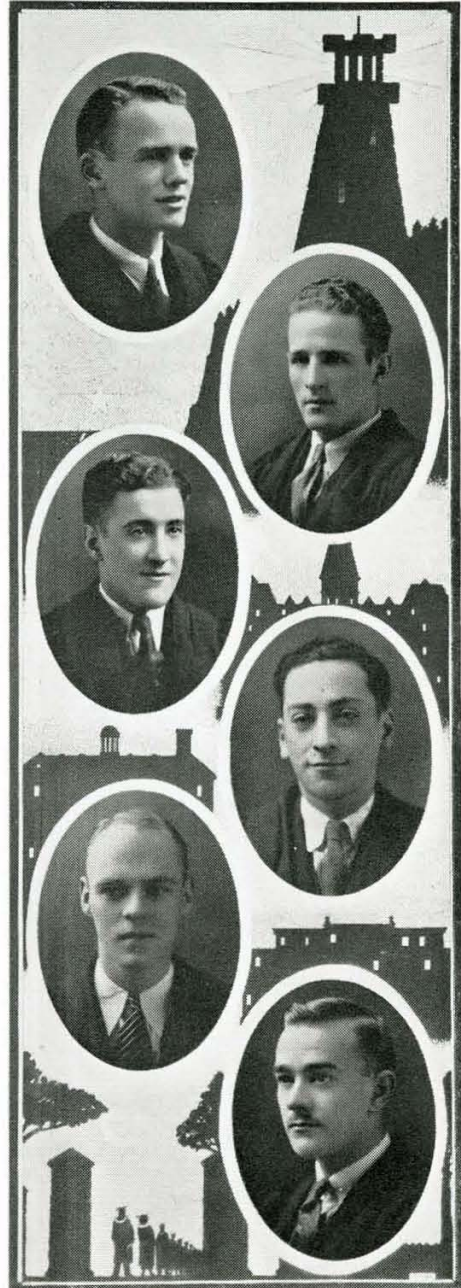

Born in the big city known as New York, Mac migrated to Nova Scotia in 1921. He continued his studies at Bloomfield High School and entered Dal. in '30. An ardent student, Max finds little time to devote to Sports but is always on hand to cheer the Engineers to victory. He is frequently late for Physics 3 class, due to the inefficiency of the tram service. He intends to enter N. S. Tech. to continue to study, engineering.

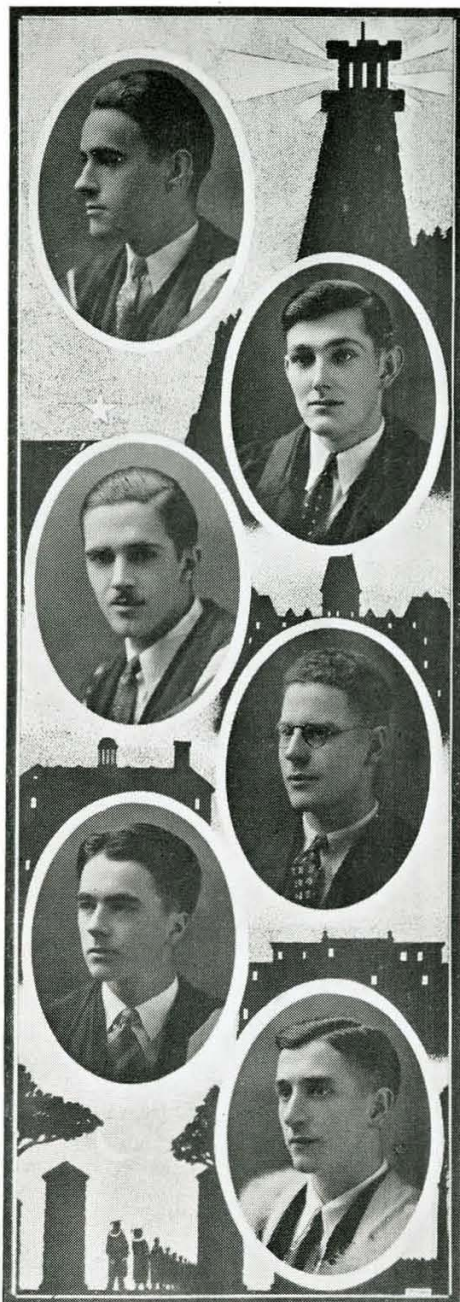

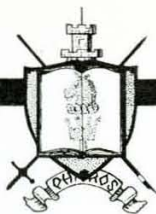

JOSEPH HOWE GRANT

Howie first saw the light of day in July, 1910. Graduating from New Glasgow High School in 1929 he went to Acadia. Fortunately he realized his mistake and came to Dal. in 1930. Although Howie does not dance, he is frequently seen with members of the weaker sex, — also Bill Simpson. Plays hockey for the Engineers and hookey from Physics Lab, now and then. He intends to grace N. S. Tech. with his presence next year to take Mechanical Engineering.

WILLIAM GARRISON HAMILTON

The other half of the Ras—Garry combine hail^s from Pictou County where he attained great success. Continuing his search for knowledge he entered Dal. in '29 intent on a Science degree but realizing his mistake he changed to Engineering. Although not a participant in many sports Garry was always on hand to pick his "winnahs". Delta Tau boasts him as a member. He plans to enter N. S. Tech. to study Engineering.

GOWER ANGUS LODGE

Gower entered Dalhousie in 1930, and soon won the esteem of his newly made friends by his unflinching good humor and strict reliability. His previous education was obtained in St. John's, Newfoundland, at United Church High and Memorial College. He played basketball, rugby, soccer and hockey for those schools, and he now lends his sturdy support to the Engineers teams in their bid for athletic supremacy. He is an excellent student and possesses a fine baritone voice which is much in demand. Gower intends to take up Sales Engineering.

PHILIP ALEXANDER MADER

Phil hails from Lunenburg and first presented himself before the Registrar in 1929. Phil has two hobbies, cribbage and Jig Saw Puzzles, but he still says that Physics II is a good class. A hard worker and a hard player, Phil has been a mainstay on Kings Hockey Team for two years, and the Boilermakers Team for one year. Softball is another sport in which Phil stars having managed the Engineers Team through their past season. He intends to complete his course in Mechanical Engineering at Nova Scotia Tech.

FREDERICK CHARLES MORRISON

Camp Borden may boast of many a noted flyer. New Waterford claims one of them "Dink," as he is commonly known, entered Dalhousie in '28 in search of a B. Sc. He has been prominent in interfaculty football, hockey, and softball. He was Secretary of Delta Tau Fraternity in '32 and of the Dawson Geology Club this year. He spends most of his summers in New Glasgow visiting a "friend." He intends to enter N. S. Tech. next year to study Engineering.

RONALD LEE NORMAN

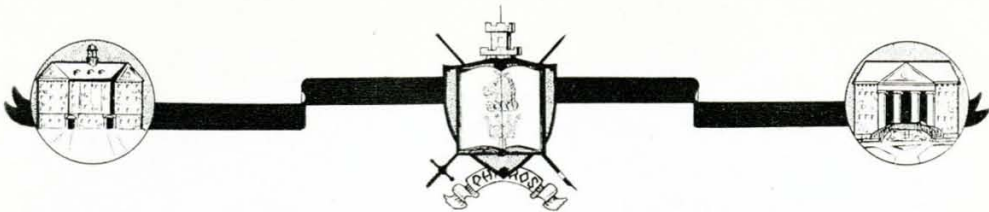

Norman was born in West LaHave in 1914, and came to Dalhousie from H. C. A. He is of good old Dutch Stock and always ready for an argument. He has the distinction of being Poet Laureate of the Draughting Room. He has a weakness for the Western Shore. Charlie Sargeant would like to know where Norman got the permanent wave. Ambition—To get nine subjects off in one year.

SELBY PARSONS

Another gift from Newfoundland to Dalhousie is Mr. S. Parsons who came to us in the fall of 1930. Quiet in nature he is seldom heard above the noise in the Draughting Room. He is an ardent Pine Hiller and a member of the Dalhousie Soccer Team and Engineers Rugby Team. Although small in stature he is a mighty atom on a football field. He expects to complete his course at N. S. Tech. during the next two years.

CHARLES CORBETT SARGEANT

Came to Dalhousie from the Halifax Academy, having previously attended Dartmouth High School. He returned to the University last year to resume his studies leading to a B. A. and an Engineering Diploma after an absence of two years during which time he did a little globe trotting. He visited England, the West Indies, Australia, and spent some time in the eastern cities of the United States. He has represented the Engineers in interfaculty football and basket ball. Best of luck Charlie.

RALPH GRANT SHATFORD

Another product of Colchester County, namely, Londonderry. Shad's early education was received at Colchester County Academy from which he graduated in '29. Entering Dal. in the same year Shad soon became known as an ardent student liked by all. Prominent in Interfaculty Football, Hockey and Softball, the Engineers will certainly miss him. His chief ambitions are to visit Lunenburg again and get up in time to catch the Dartmouth Ferry. He plans to enter N. S. Tech. to continue his study of Engineering and takes with him the best wishes of his fellow students.

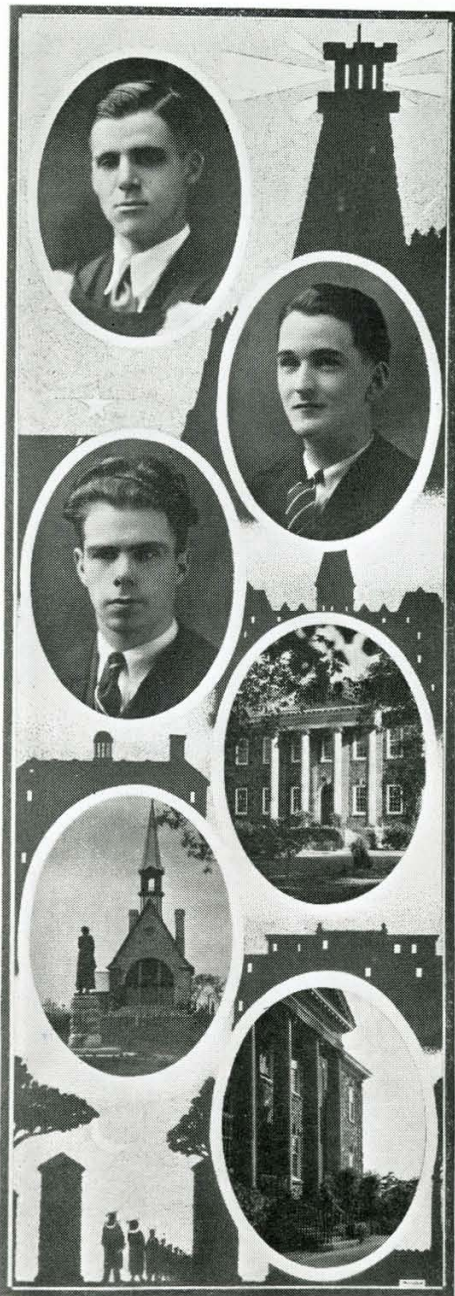

HOWARD HEARTZ WILLIAMSON

The mystery man of the draughting room claims Yarmouth as his birthplace, and received his early education there. "Doc's" chief hobby is cars and we expect him to beat Sir Malcolm Campbell's record in the very near future. His sport is confined to basketball in which he stars on the Boilermakers Team. "Doc's" mystery is still unsolved. What is the big attraction on Charles Street? We expect him back at N. S. Tech. next year.

CHARLES ABBOTT WRIGHT

"Abbott" is another product of H. C. A. coming to Dal. in the fall of 1930. He is of a quiet nature yet a frequent participant in dancing. Plays a game of badminton once in a while but studies are foremost in his mind. We expect to see him as Manager of C. G. E. within the next few years. He intends to continue in Electrical at N. S. Tech. next year.

Pharmacy

FREDERICK HAWBOLDT COLE

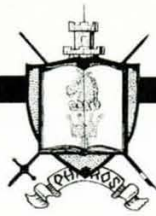

Chester sent Fred up to Kings five years ago. At first Fred was going to take a straight B.Sc., but the mortar and pestle called him and he decided to take up Pharmacy. He plays a good clean game of hockey and has been on the Kings team ever since his first year here. Fred can be found occasionally at dances. He plans to go into business next year in his home town. Best of luck.

JAMES, WALTER STEVENS

Another Pietou County man makes good! Walter has spent his time here most profitably—gaining high marks and a host of friends. His lab. technique is extremely good. He is a keen thinker and it will not be surprising to anyone to hear, in a few years, of the greatest success in his chosen walk of life.

GEORGE STANLEY JLOUDREY

George comes from Lunenburg County and in his two years here has walked off with all the high marks—Lunenburg County will be rivalling Pietou County for its men with brains. As well as having more than his share of brains, he is a good worker and is always ready to help anyone in the lab.—or elsewhere—who knows? George is going back to Bridgewater where he will in a short time, we think, own a thriving drug business and probably a soda fountain with it.

Scholarships

GORDON STEWART COWAN

Gordon Stewart Cowan, a graduate of the Dalhousie Law School in 1932, was awarded the Rhodes Scholarship for Newfoundland this year. Gordon received his early education at United College and Memorial College in the ancient colony, and came to Dalhousie in 1929. While at the University he held many executive positions and soon manifested the characteristics of a leader. He was the winner of the Cutswell Prize in his first year at the college; his efforts however, were not confined to scholastic pursuits—he was an athlete as well as a scholar. Mr. Cowan was admitted to the bar of the Supreme Court of Nova Scotia last August and is now practising with the Halifax law firm of Pearson and Rutledge.

JAMES STUART MARTELL

Another Dalhousie and King's student, in the person of Jimmy Martell, has received a well merited reward when the committee on selection chose him for the 1933 I.O.D.E. Scholarship for Nova Scotia. After a very active and successful career at Dalhousie and King's Jimmy graduated last year with a B. A. with high honors in History and Political Science. This year he receives his M. A. in History. The I. O. D. E. Scholarship was awarded as the result of a great deal of original research work in Nova Scotia History, which study he will continue in London. Jimmy's many friends will watch with interest the progress of this distinguished student along the road to even higher honors.

CONSTANCE IDA MacFARLANE

Miss Constance MacFarlane, of Charlottetown, P. E. I., won the coveted award this year offered by the Canadian Federation of University Women. The scholarship is valued at \$1,250 and was awarded to Miss MacFarlane for her work in marine biology. Connie graduated from Dal. in 1929 winning the Governor-Generals gold medal, and got her M. A. last spring. She plans to continue her work at the Marine Biological Station in Liverpool, England.

DANIEL PHILIP WALLACE

Daniel Philip Wallace is the Nova Scotia Rhodes Scholar for this year. This outstanding achievement provides a fitting climax to his brilliant career at the University. Besides an outstanding scholastic record Dan has attained great honors in the field of sport. One of Canada's premier scullers, winner of the Inter-collegiate Light Heavyweight Boxing title, rugby player—such has he attained prominence in the realm of sport. Dan is at present attending the University and will receive his M. A. degree this spring.

History of Class '33

1929-1930

Late September, 1929, will we ever forget it? Now it furnishes us with a good laugh, but we were very serious about it then. First we met Murray Macneill, then George Mahon. We didn't know whether to believe Murray when he said we should work very, very hard all the time, or "Hoot" when he told us that we should turn out for C. O. T. C. or rugby.

After a conducted tour of the campus under the able guidance of George, Walter and "Archie," we met in the Chem. Theatre to choose our first executive. We showed our wisdom by choosing Rolph Grant, President; Lib. Saunderson, Vice-Pres.; Marion West, Secretary, and Allan Cook, Treasurer. It is worthy of note that only one of our first officials is still with us. Rolph and Marion left long ago for parts unknown. Allan is in the ranks of the employed. Only Lib. remains, but she has been a real asset both to her class, and to the University as a whole.

We were shortly initiated in the time-honoured manner, but we were stronger than the Sophs., and there were several battles royal. But we patched up our quarrels at the Freshie-Soph dance in the old Gym. under a canopy of black and gold paper and to the haunting tune of *Among My Souvenirs*.

Class '33 did well in sport in its freshman year. Rolph Grant made the Senior Football Team. The Frosh (Verdants as Kelly called us) won the Inter-faculty Football championship, and were runners-up for the basketball championship. Speaking about football, Acadia came down five-hundred strong to watch their team being trounced by the Tigers. Afterwards, the whole student body paraded down town. We had a real Pep Rally before that game—possibly that is why we won.

We also put up a good fight for the Bennett Shield, being represented by Dorothy Redmond and Mike Greenberg. Dorothy can still talk pretty well, and Mike has taken up debating as a profession; but he comes from Ottawa, so that is natural.

Nobody criticised the Glee Club in 1929-30. We had three orchestras and band, under the direction of the one and only Sina S. Singer. "Baldy" Armstrong was the Freshman mascot. The record of good shows put on by the Glee Club that year has never been surpassed. Has anyone forgotten Moran and Mackie? They are still paired.

We showed some *Class Spirit* in our Freshman year—it seems of late to be sadly lacking. This was evidenced by the fun which we managed to have at our class parties—one at Laura Marshall's and one at the Yacht Squadron.

Short skirts were still short in 1929 and appeared to be going up; but they came down with International Nickel. While they lasted, they formed material for much discussion and debate on the campus. So did a letter, alleged to have originated in the Chemistry Dept., about necking in the woods behind the Hall.

Class '33 made a lot of mistakes that year, but our greatest mistake was the First Annual Freshman Ball. The grandiloquent title of this shindig should have been "*The Last Annual Financial Ruin of the Freshman Class.*" Those were the days of prosperity, but we did not have to wait for Britain's abandonment of the Gold Standard to see the error of our ways.

In the spring, we elected Bob Brown as our representative on the Student's Council, and the following officers: Dick Squires, Pres.; Lib. Saunderson Vice-Pres.; Polly Burris, Secretary, and George Thompson, Treasurer.

1930-1931

The first important gathering of Class '33 was held on October 5th, for the laudable purpose of humbling the Freshmen. This was done in the approved fashion with the aid of the Brandram-Henderson Co., Ltd. For ten days, no Sophomore carried a match. This initiation was done so thoroughly that it discouraged our successors, and the process now seems to be indefinitely suspended. Two days later we raised the Junior's ante by adopting a \$2.00 class fee—this was eventually paid by about 20 per cent. of the members.

The Christmas Exams. were very hard on us in our Sophomore year. Many of us were forced to realize, for the first time, the inherent difficulties in such classes as Philosophy 1, English 2, and Latin 2. Many of us took Geology 1 that year, and many more have since regretted that they did not. It has really degenerated frightfully under the baneful influence of Miss Pelluet, and Prof. Douglas.

Class '33 made an excellent showing in debating. Marie Ferguson, and Dick Squires won the Bennett Shield for us, and Dorothy Redmond was on the Women's Intercollegiate Debating Team.

On January 21st, was held the famous combined class party which was largely attended by eighteen couples. But this was forgotten by Friday, March 31st when we held a most enjoyable party at Shirreff Hall.

Doreen Harper, and George Thompson were chosen to represent us on the Students' Council. The following officers were elected for the next year: Laurie Hart, President; Laura Marshall, Vice-President; Marion Morton, Secretary, and Murray Marven, Treasurer.

The grand climax was reached on May 7th when the Gymnasium was destroyed by fire.

1931-1932

This year was begun under a new manager. Carleton W. Stanley, M.A., assumed the post of President amid the thunderous applause of the multitudes. With the resignation of President MacKenzie, the only "Old Contemptible" still on active service is Murray Macneill. With the new President came Medical Examinations. These formed an admirable topic for discussion and debate for many weeks.

Several other contentious questions arose during the year. One was a malicious agitation begun by Tom Goudge for the abolition of the C. O. T. C. "Observer" managed to keep most students in constant fear that their nefarious activities might be bared before the world in the columns of the *Gazette*. It has been said that this was of great moral benefit to the college.

Socially, Class '33 did very little in its Junior year. There was one class party at Shirreff Hall, and, in the spring, we were forced to entertain our friends, Class '32, in the new gymnasium.

This, the latest addition to the campus buildings, was officially completed on March 1st. It caused, and still causes the Board of Governors many sleepless nights; but it was an immeasurable boon to the students.

We were well represented in all athletic activities. Among the boys, we had George Thompson, Carl Stoddard, and Charlie Anderson, to mention only a few. While Lib. Saunderson, Aileen Meagher, Pat Cann, and Betty Webster represented the girls.

Ray MacCarthy represented us in the Men's Intercollegiate Debating Team. Betty March became famous in three Universities for her gift of satire, and Aileen Meagher and Ben Rogers represented us in the Bennett Shield Debate.

At the end of the term, Don Mahon was re-elected as Commerce representative on the Students' Council, while Kay Densmore and George Thompson were elected for Class '33. Class officers were named as follows: George Thompson, President; Laura Marshall, Vice-President; Marion Morton, Secretary; and Murray Marvin, Treasurer. (Murray was unable to return for his final year, and Don Mahon was elected to take his place).

1932-1933

Class '33 opened its final year's activities by holding a delightful party at Shirreff Hall. This was largely attended by Sophmores and Freshettes, nevertheless, a good time was had by all.

The most noticeable feature of the pre-Christmas term was the great increase in attendance in the Library. The natural outcome of this was seen on December 31st when the pass lists were announced. Class '33 received fewer plucks than ever before in its history. It has been reported that this sudden desire for knowledge is one of the several beneficial results of the GREAT ECONOMIC DEPRESSION.

In sport, the class has been ably represented. Aileen Meagher has made a speed record that it will take a long time to beat. In basketball, we have Charlie Anderson and George Thompson, the latter being also prominent in rugby. Carl Stoddard has made a name for himself both in sport and at Shirreff Hall.

In debating, the class is represented by Betty March, Eirene Walker, Ray MacCarthy, and Flint Cahan. Betty has already won her laurels, and, at the time of going to press, it is very likely that the others will do so too.

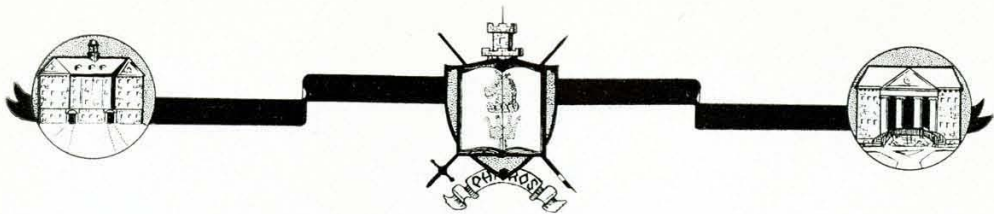

The *Gazette* has been the subject of much controversy this year; but there has been somewhat less since the elevation of a Senior, Harold Egan, to the post of Editor-in-Chief. "Egbert" and "Whiskey Jake" have risen and fallen, as also the Aspiring President of the Anti-Feminist League. The Book of Bunk is the best feature.

We held a *class* party at the Lord Nelson on February 10th. There was a larger percentage of Seniors present than ever before.

We met recently and again showed our wisdom and judgment in choosing the following Life Officers: George Thompson, Life President; Laura Marshall, Life Vice-President; Marion Morton, Life Secretary, and Evatt Bishop, Life Treasurer.

Such is the history of Class '33. With the exception of the first thirty-five days, the whole period was spent in the economic doldrums. It is now our duty and our privilege to give all our ability and energy to the alleviation of the world's present plight.

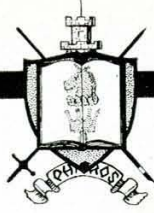

"Play up! Play up! And play the game."

Adios

Lectures, dances, quizzes, fraternities, debates, plucks, ball-games, parties, money, essays, glee-club, teas, sup's, dates, committee meetings, exams, Gazettes, class-meetings, gymnasium, picture shows, lab's, books, debts, Shirreff Hall, more exams, cigarettes, professors,

sandwiches, etc., etc., etc.—Vivid memories. These have made up your whole life:—but now an abrupt change. Before you realize it other interests will force themselves in. Other things will occupy the important places. The memories of college life will fade and become a part of the past. You will remember them only to wonder why you considered certain things so important. Then someday you will be going somewhere to do something; you will be passing through Halifax enroute; your thoughts will be about the business on hand; and your only desire to get quickly to your ultimate destination. Then "HALIFAX—HALIFAX—". "How soon shall I be able to get a train out?" "What is that on the horizon?" "I don't know." "Oh THAT, My—it's OLD DALHOUSIE." Then like a flood the memories will come back. When that time comes, don't take the next train out. You will be one who makes a professor's work worth while. Stop over for a day. Pay us a visit. We shall be here, and we shall be waiting to see you.

WALTER CAMPBELL
MACKENZIE

Born in Baddeck, Cape Breton, Walter C. MacKenzie has spent a goodly portion of his years at Dalhousie in completing the eight-year combined Arts and Medical courses. He has engaged in innumerable activities from the beginning and is known to all who come to Dalhousie. A lover of people, he is always interested in their activities—ever ready to lend a helping hand. His duties he has performed conscientiously and well, few having served the University so wholeheartedly and in such full measure. Proficient in his profession, itself as sublime as any task given to humanity, he is well worthy of the honour conferred upon him by his fellow students.

GEORGE CHRISTIE
THOMPSON

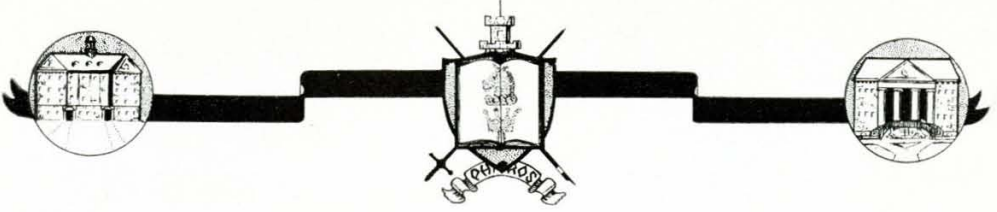

George Thompson is one of Halifax's sons who has had a most active career at our University. Strong, manly, and energetic, with the ability to plan and execute, he has been outstanding in the life of the college as a football player and all-round athlete, class leader, and committeeman—always willing to place his time and help at the disposal of his fellows. The admiration and respect of the student body, which he has won in serving Dalhousie, are evidenced by this, the Malcolm Honour Award, the highest tribute to his worth that we can bestow.

WILLIAM CHARLES
ANDERSON

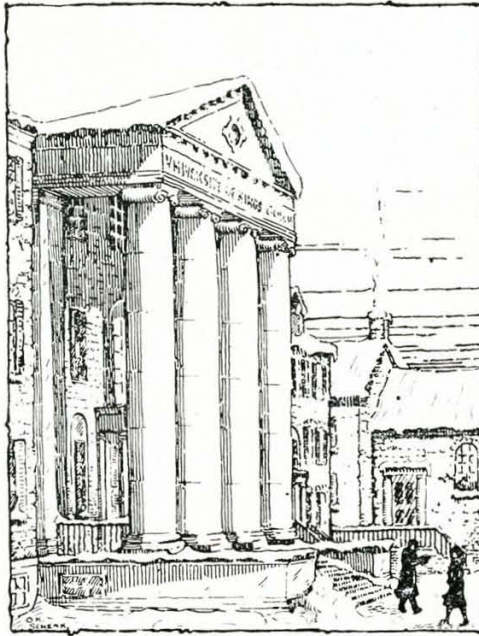

Charles Anderson is a native of Sydney, Cape Breton, who, in his undergraduate years at Dalhousie, has won the kindest feelings of the entire student body. He is respected by all who know him as a man with high ideals, definite purposes, and the courage to follow his convictions. An excellent athlete, a hard-working student, and a genuine man among men, he has chosen the study of theology as his life work. In the years to come, if he displays the same spirit, the same steadfastness of conduct, the same desire to serve, that his years at Dalhousie have revealed, the world will know a true gentleman.

The Malcolm Honour Society

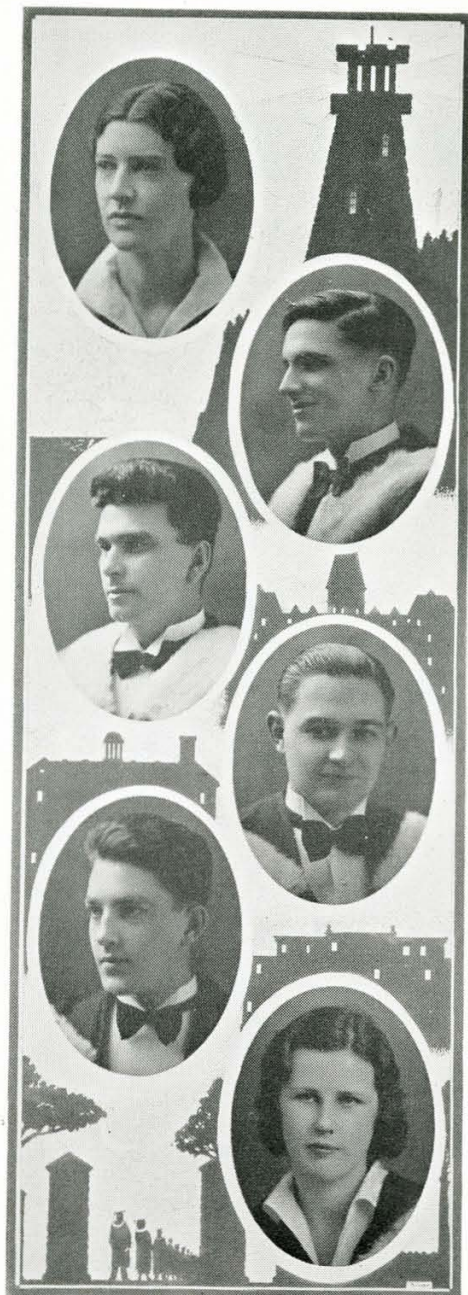

Following graduation from Dalhousie in 1903, the culmination of a life of unselfish service to his fellow men came with Jimmy Malcom's heroic sacrifice of his own life in an attempt to save a chum from drowning. To commemorate these attributes, certain students from the graduating class of each year receive election to the Malcolm Honour Society. Their award is a small gold key and parchment and is the highest tribute that can be paid to Dalhousie students by their fellows at the University. It comes only to those who, in their years at Dalhousie, have exemplified in the highest degree the spirit and character of Jimmy Malcom.

University of King's College

Graduates

King's

ANNE HAMILTON ALLISON

Two years of Swiss scenery preceded Anne's coming to King's, and she still prefers the heights, complaining that the College should never have moved from Windsor. Plenty of poise, pep, and personality have won her a host of friends at college. Although standing well up in studies, she has been Captain of the Co-eds' basketball team for two years, starred in English and French plays, and been a member of Kappa Beta Phi. Best of success, Anne.

GEORGE FREDERICK BUTLER

Came to Kings from Bloomfield High, Halifax, where he had them worried trying to pose him. This reputation has since been augmented by brilliant showing in his classes. His favorite saying is: "If he's a professor, he's my pal." Quiet and unassuming, he has not yet had his name linked with the fair sex, but when it is we wish him success in his chosen pursuit. Coming in as a Freshie-Soph, he feels the need of another year of college, via the M. A. route Here's to you!

CHESLEY WILLIAM CARTER

A Freshie-Junior, "Ches" entered King's on a scholarship from Memorial College, Newfoundland. As Lieutenant in the C.O.T.C. he is indefatigable. This year he has decided to try his stentorian voice in the realm of oratory, and to let his commanding way persuade the audience at the Intercollegiate Debate with Mount Allison. The only B.Sc. of the class, he carefully analyses all foodstuffs passing through the Tuck-Shop, of which he is joint proprietor. He also been fullback on Buckshee Basketball team—'nuff said.

JOHN HARRISON CLEVELAND

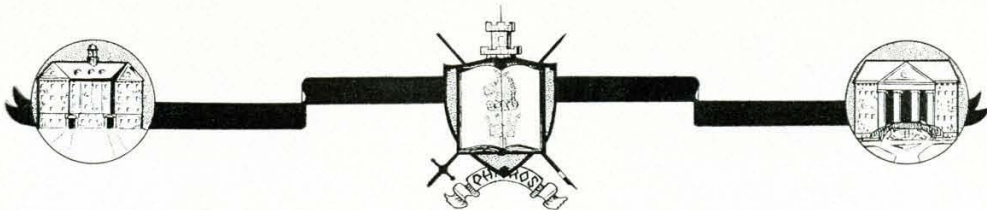

One of the "originals" of Class '33, came from the Halifax Academy, picking up the Harris Medal on the way. Has since won four scholarships, and is looking for Honours in English and Latin. Member of four intercollegiate debating teams, as well as interclass teams. Has been Historian and Treasurer of Halifaxburton, Secretary of the Classical Club, and taken part in French and Latin plays. Star defense of the Senior Buckshee Basketball team. Favorite diversions: Golf and women.

HUGH HARVEY WILDING COLE

Another energetic Newfie, Harvey entered King's from K.C.S., and has completed the requirements for a B. A. in three years. Captain of the football team, and member of the hockey and basketball squads, he is also on the executive of the K.C.A.A.A. Been to England once—saw it twice. (No boasting). Honorary member of 17 sororities. Nickname: Venus. Occupation: Dancing and contract bridge. Looking forward to law.

CECILY CONYERS KIRBY

Station KINGS broadcasting! We are about to introduce a dainty brunette. Name: Cecily. Can be relied upon to wear the right costume at the right time and place. Member Kappa Beta Phi, badminton player of note, not to mention riding and tennis. A graduate of Netherwood, 1929 vintage, has since been vice-president of Quintillian, treasurer of Co-eds' Student Body, president of Co-eds Club, starred in dramatics, and member of interclass debating team. No doubt of your success, Cec.

MELBA JOYCE LEWIS

Fair and petite member of Class '33, "Mel" received a tough break in hurting her knee. A first-string basketball player, she has had to watch the matches for several years from the sidelines. A hard-working student, she makes a specialty of French and Education, among other lines of endeavour. No sketch of Mel's career is complete without a mention of "Mickey" Mouse Cartoon, of which she is a great admirer.

MARY ROSINA LYONS

"Yes, but that is not the way to teach children. Now, according to Dr. Wilson Smith . . ." so Rosie enters an animated discussion with the world. Rosie came to King's on an I.O.D.E. Scholarship from the "biggest town" in Canada, and can't understand founding a college on the mainland. Has played first team basketball for King's, and was runner-up for Dal. badminton singles. Takes jokes on her name in good part—though her prospects are rosy, she always is Rosie.

ELIZABETH GREEN OWEN

A New Yorker by birth, a Haligonian by everything else, Elizabeth came to us from Edgehill in '27, and was one of those fortunate ones who plan a five year B. A. with an interim trip abroad. During eight months we lost sight of her, while she enjoyed foreign lands, but she has now returned and settled down again. Her plans for life after graduation are undetermined, but we wish success and happiness.

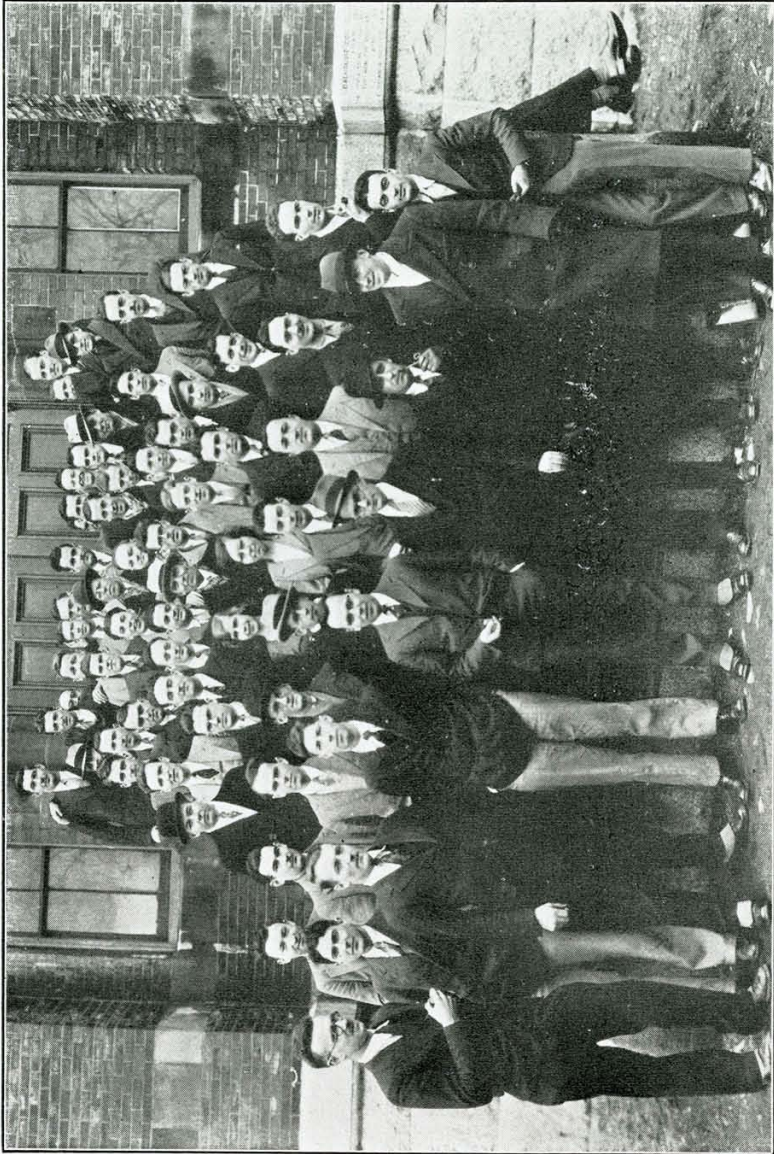

VICTOR MARSHALL REGAN

An "original" of Class '33, hails from St. John. Won a scholarship in his Sophomore year. Regimental Sergeant-Major in the C.O.T.C., and won last year's efficiency cup. Director of physical training, and choir leader. Can sing, and is a first-rate impersonator. Chief sports are basketball and football, with ladies and badminton as a sideline. Vice-President of K.C.A.A.A., and Senior of Class '33. Is on his way to Divinity.

BEATRICE EUPHEMIA WILSON

So this is Willie! That sweet and demure freshette, now a stately senior. Coming from St. John High in '29, she has shown an unflinching persistence which bodes well for the future. Takes a keen interest in athletics, and was manager of the basketball team last year. As Senior Co-ed this year Willie has won the admiration and devotion of all, and we feel sure that she will go through life making more and more friends, just because—she is Willie.

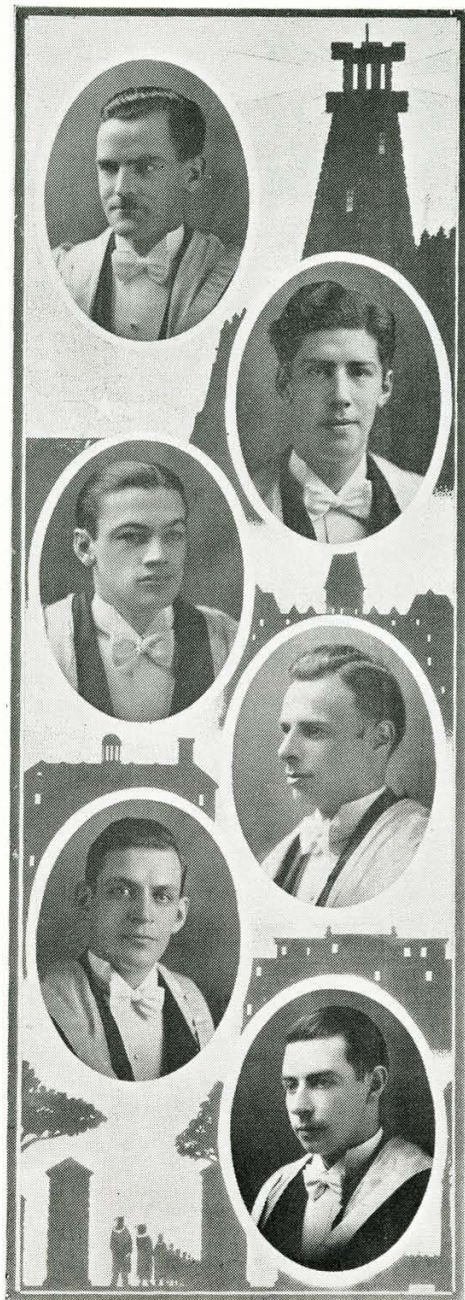

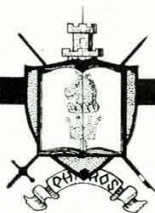

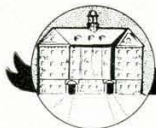

LAW CLASSES

LAW

Law

ALICK WHITCOMB CAMERON, B.A.

Whit came to Dal. in 1930 with a B. A. from Mount A. and a store of experience in extra-curricular activities. At Mt. A., Whit ably occupied every available office and at Dal. this interest and activity has been maintained. A member of the Law Executive, he is Law's executive on the Students' Council. No matter what branch of Law Whit may enter his ability and general personality will bring success. His fraternity is Phi Delta Phi.

CHARLES WILLISTON CLARK, B.A.

One of the bright lights of Dal. for many years and an especial favorite with the other half of humanity Charlie's departure will be felt as a great loss. His business and executive ability has been evident in the many offices that he has held. He has been Ass't-Mgr. of the Gazette for three years and for two years has been President of badminton and Ass't-Mgr. of basketball as well as playing on the intermediate team. The Bar of Ontario will, no doubt, soon find that a worthy member has been added to its numbers.

GERALD PATRICK COLEMAN, B.A.

Jerry took his B. A. at St. F. X., where he was an outstanding hockey star and has naturally been a valuable member of the Dal. team. He has also played interfaculty football for the past three years. Possessor of a remarkably astute mind his grasp of law is not to be wondered at, and his ability as a speaker is well known. As a member of the Law Executive his easy manner of overcoming difficulties has made him one of the mainstays of the Law School. Phi Delta Phi is his fraternity.

JOHN LOGAN CROWE

Jack began his college career at King's and completed his law course at Dal. this year. At King's he took an active interest in debating, and was prominent in the Model League of Nations. He was Liberal leader in the King's mock parliament for the past three years, and a lieutenant in the C.O.T.C. Punster deluxe, the quality of his wit has only been exceeded by the quantity of his puns. He intends to follow up his chosen profession. A member of Phi Delta Phi.

ROBERT THOMAS DONALD

Bob has the distinction of almost invariably leading his classes but this by no means exhausts his capabilities. He has been secretary of the Round Table Club and of Sodales. This year he is among the contestants for the Smith Shield. He possesses great executive ability and combined with a character such as his, is certain to attain success wherever he goes. He is magister of his fraternity, Phi Delta Phi.

JAMES OXLEY FAIRBANKS

Jim entered the university in the fall of '28. After two years of Commerce, in keeping with his inherent foresight he entered the labyrinth of a jealous mistress from whence he emerges this spring equipped, amongst other things, to save peoples' reputations and fortunes. An ardent officer of the C.O.T.C. and a member of the Weldon Inn chapter of Phi Delta Phi, he leaves with the trite but genuine good wishes of his friends.

ALBERT JAMES HASLAM

Jim came to Dalhousie from "Spud" Island, of which fact he is justly proud. Maybe you've heard about it! He is a conscientious worker but knows how to combine business with pleasure, having, among other things, played on the Law football team. He is a prominent member of Phi Delta Phi and holds the office of treasurer in that fraternity. Wherever he takes up his calling—probably in the Far East—the well wishes of the Law School go with him.

EDWARD CLAIR HICKS

Clair entered Dal. in the fall of '27, while yet a mere infant, and proceeded to romp away with a B.Sc. degree in '30. He has been a member of the Law football team for three years, has played inter-faculty hockey and managed the Law team. He is an ardent curler and last year won the Roper Cup. A prominent member of Phi Delta Phi, he has all those qualities of character, personality and ability which make the truly successful lawyer. What more can one say?

ROBERT ABE KANIGSBERG, B.A.

As the original Campus Observer, Bob proved himself a veritable sleuth for ferreting out the intricacies of campus life. From that to the Canadian Bar Review and the Toronto Saturday Night seems a vicarious move, but not to those who are acquainted with this versatile young man. Among his activities are included his membership on the Debating Team, on the Law football and bowling teams. An ever brilliant student, he usually stands among the leaders of his class. His fraternity is Tau Epsilon Phi of which he is the Scribe. He intends to practise in the city.

JAMES EDWARD McCLEAVE

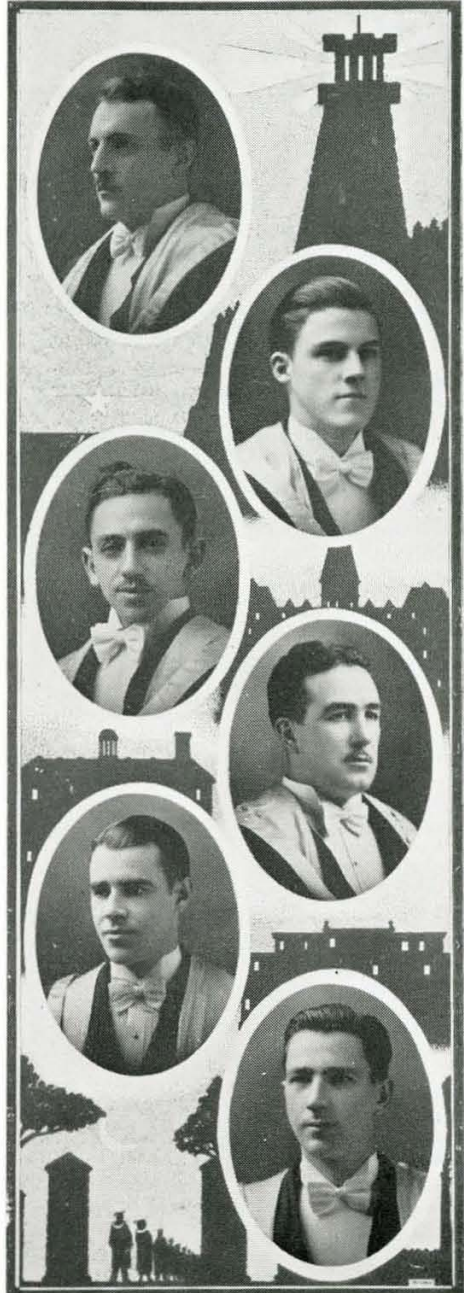

Ed. comes from Shubenacadie and during his college career has achieved great popularity among his fellow students. He received honorable mention when this year's Smith Shield contestants were chosen, being named as fifth contestant. During the summers he has been a successful salesman and has also gained a good deal of experience by teaching school. Ed. has a fine control of language and linked with his other accomplishments, it will aid him in his profession.

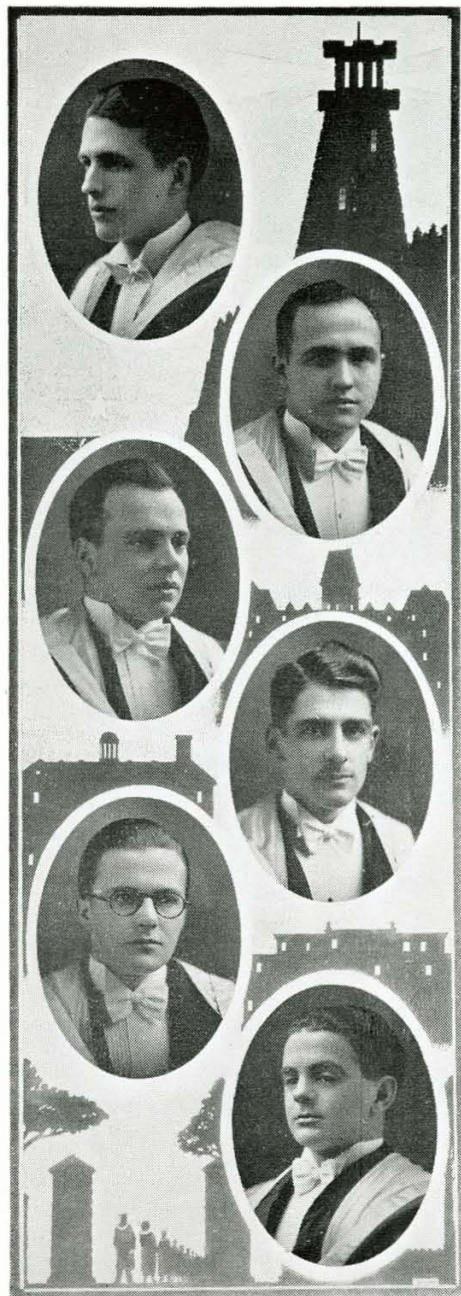

JOHN ALEXANDER YOUNG MacDONALD

John has been prominent in Dalhousie life for a number of years. He has debated for Dalhousie, is secretary of the Law Society and a Smith Shield contestant. A member of the Round Table Club, he is well versed in Imperial political relations. He is a clever speaker and was valedictorian of his class. For the past year he was lecturer in Latin. An excellent student, he is always among the leaders of his class, and a distinguished career in the legal profession is predicted for him. His fraternity is Phi Delta Phi.

THOMAS DANIEL MacDONALD

Tom is, without doubt, one who will rise to great heights both in his profession and in the life of his country. He has attained fame as a debater, having twice represented Dalhousie, as Editor of the Gazette, and as President of the Round Table Club. As a proof of his ability, he has been chosen to represent Canada on an N.F.C. U.S. debating team to tour England and Wales. The Dalhousie Law School is proud to name him among its graduates.

KENNETH WILLIAM MATHESON, B.A.

Ken bails from Edmunston, N. B. After finishing his Arts course, he decided to study Law and this Spring will be the proud possessor of an LL.B. Ken has taken an active part in Interfaculty sport, supporting the Law School in football, hockey and basketball. He is rather retiring, but he is a valuable friend indeed. Solid as the Rock of Gibraltar, he is always to be depended upon—he should travel far in either Law or business. His fraternity is Phi Delta Theta.

ALBERT RUTHERFORD MURRAY, B.A.

Al took his B. A. at the University of New Brunswick in his home city of Fredericton. He is quite a man of the world having travelled with Chataouqua for two summers through the United States and Canada. He has also the distinction of being one of the very few who during their college years, has been able to take unto themselves a wife to console them in their weary hours of study. Rumor has it that he will return to Fredericton to enter the Dry Goods business. He is a member of Phi Delta Theta.

HAROLD ABRAHAM NICHOLS

"Nick" after spending a couple of years at Acadia, where the women adored him, came to Dalhousie for Arts and in due course ascended to the very important adjunct of the university—the Law School. During his Law course Nick's activities have been varied—basketball occupying a major position. He ably filled the position of assistant manager for two years and manager for one. "Nick" intends to practise at Digby and it is safe to say that success will crown his efforts.

ARTHUR SYDNEY PATTILLO, B.A.

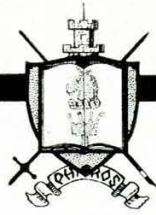

"Bridgewater's gift to Dalhousie." Thus Art is described by the local papers and what better description can be given. It is inevitable that he will be a successful lawyer. His path is strewn with innumerable enterprises of various kinds. He has proved himself a clever business man, a brilliant student, an able speaker, an efficient manager, a capable editor and an ardent politician. These assets only serve to assure his future. His fraternity is Phi Kappa Pi.

MAXWELL JAMES PRATT

Max is a product of St. John's, Newfoundland, and of Memorial College. He entered Dalhousie Law School in the autumn of '29 and joined the class of '33 after staying out last year. During his first two years he stayed at Pine Hill. In his second year Law he was winner of the MacDonalld Prize. His scholastic standing, always of the highest, has never wavered. His extracurricular activities include Interfaculty football, and basketball—and watching for the Newfoundland mail. He is a member of Phi Delta Phi.

JULIUS ROSENBLIOM

The law school has lost a clever student, and Julius' name will lead the examination lists no longer. As a member of 1932 debating team, of the Effective Speaking Club, of the Liberal Cabinet in Dalhousie's Mock Parliament, his wit and knowledge are admired by all. He was a member of the Gazette staff in 1930, has played interfaculty football and softball, and is a prominent member of Tau Epsilon Phi.

PAUL HANS STEHELIN

Paul came to us from Church Point, where he attended St. Annes. He is a good law student, and was awarded the MacDonald prize in his second year. This year he is taking part in the Smith Shield Debate. Paul is a consistent worker and his intimate knowledge of law will become apparent when he begins to practice. He is an active member of the Newman Club. Wherever he intends to practice his ability will carry him far.

ROBERT DUGALD CALDWELL STEWART

Col hails from Dalhousie N. B., where he received his early training and trained others. In search of higher learning he went to Mount Allison in '26, where he distinguished himself in the class room and on the campus. He entered the Faculty of Law in '30. During his three years here he played senior football and took part in the track activities. He was vice-president of the D.A.A.C. and manager of Interfaculty sport. In the Law Society Col holds the office of president and is a member of the Smith Shield debating team.

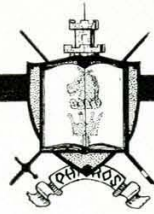

JOHN WILLIAM WHALEN, B.A.

Jack's ready smile and good humor are the foundation for the spirit of fellowship at the Law School. After completing his high school education at St. Mary's College, he came to Dalhousie where he took his B. A. degree. In '28 he was awarded his "D" for good work on the Gazette as Sports Editor. The Newman Club owes much of its success to his efforts. He has been a consistent and successful student and without a doubt will prove a bulwark in upholding the high reputation of Dalhousie lawyers.

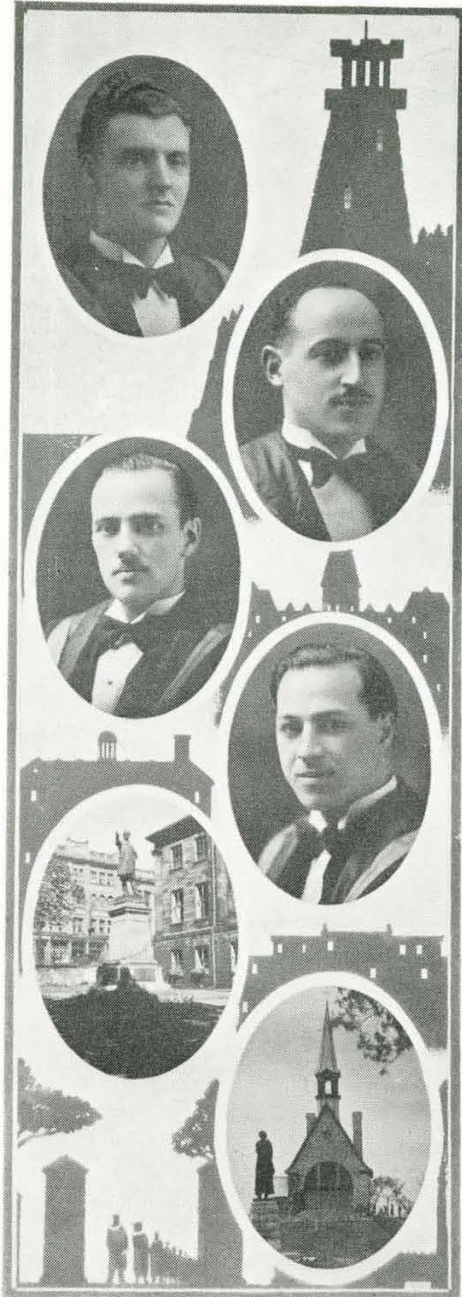

AARON ZIVE, B.Sc.

Aaron came to the study of Law from Medicine. He took his B.Sc. at Studley. Aaron is a hard worker and spends much of his time in the Law Library. He has the distinction of being a former president of the Sociology Club. He was a member of the Rifle Team and has also represented Dalhousie in track. He intends to practise in Halifax. His fraternity is Tau Epsilon Phi in which he held the office of Exchequer last year.

DENTISTRY

Dentistry

LEA FERGUSON ALLANACH

Moncton High School is in ashes. Mt. Allison Academy is still smouldering and Dal. is struggling valiantly to withstand the heat wave as Lea blazes his way across the Maritimes. Witty, capable, and presenting a likeable smile and easy manner toward man, maid and life, Lea has made many friends. Vice-President of Phi Kappa Pi, Students Council, Secretary of the Dental Society, D. A. A. C. executive and several games of senior hockey are listed among his extra curricular activities. With a D. D. S. tucked under his arm Lea will next year continue his work in Med. and we expect our "oral surgeon" to make his place in the sun.

LOUIS HENRY GOLDMAN

Lou first saw the light of day in the village of Riverhead, Long Island. He was drawn to the study of Dentistry; spending two years at the New York University, he graduated from the University of Virginia. He decided to complete his education as a swimmer and diver and is a star forward of the Dental basketball team. He is a good worker and should do well in his profession. He is an Alpha Omega.

LOUIS PHILIPPE JEANOTTE, B.A.

Amateur, actor, singer, crack tennis, badminton and ping-pong player. Prominent in activities of the Dental Society, Newman Club, and French Club. Phil came to us in his Senior year to perfect his English while completing his course in Dentistry. He proved himself to be a good operator and clever technician, a sportsman and true gentleman. We believe that Phil intends to practise in his native city, Montreal. Good luck Phil. The boys will miss your ready wit and cheerful smile.

LEON ROBERT LIEBERMAN

Lee hails from U. S. A. and came to Dalhousie to finish his dental course, having previously studied in Boston. A good mixer, with a pleasing personality and a friendly disposition, he soon became a favourite with the boys. He has the reputation of having been quite an actor in his earlier days, but has forsaken the spotlight for sterner stuff. He is a star forward on the Dent. basketball team. A good worker and skilful operator he also excels in wit. Lee returns to New York to practice. His fraternity is Alpha Omega.

IRVING POSS

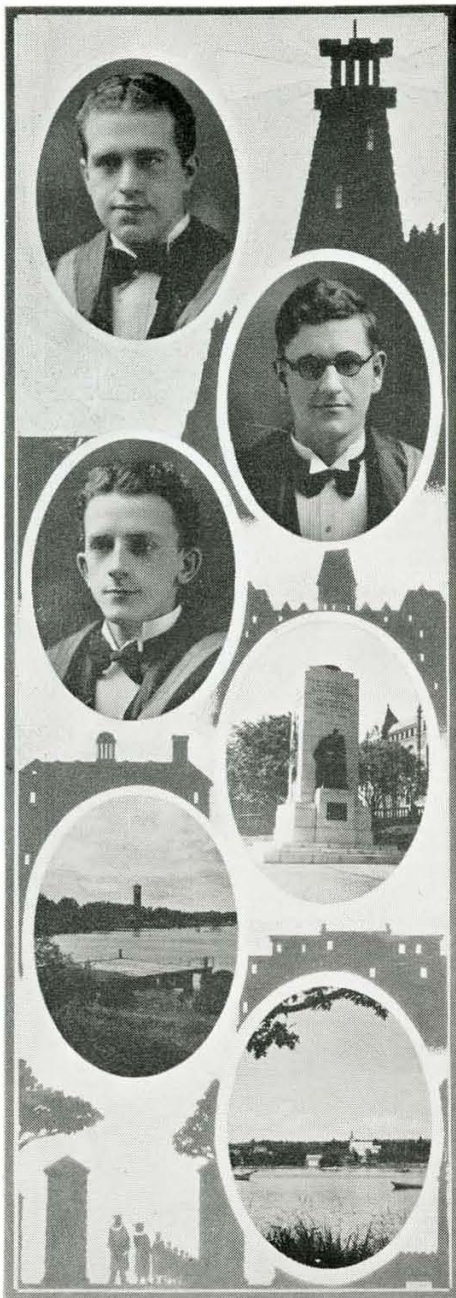

Irving arrived as a more or less blessed event beneath the bright lights of Manhattan, without even Winchell getting in on it. He received his earlier education, as it is laughingly called, in New York and Boston. He came to Dal. to complete his course in dentistry. A member of the Dents' winning basketball team, and his social activities kept things from getting too dull away from the big city. Not much on the crowns, but extremely proficient in his bridge work.

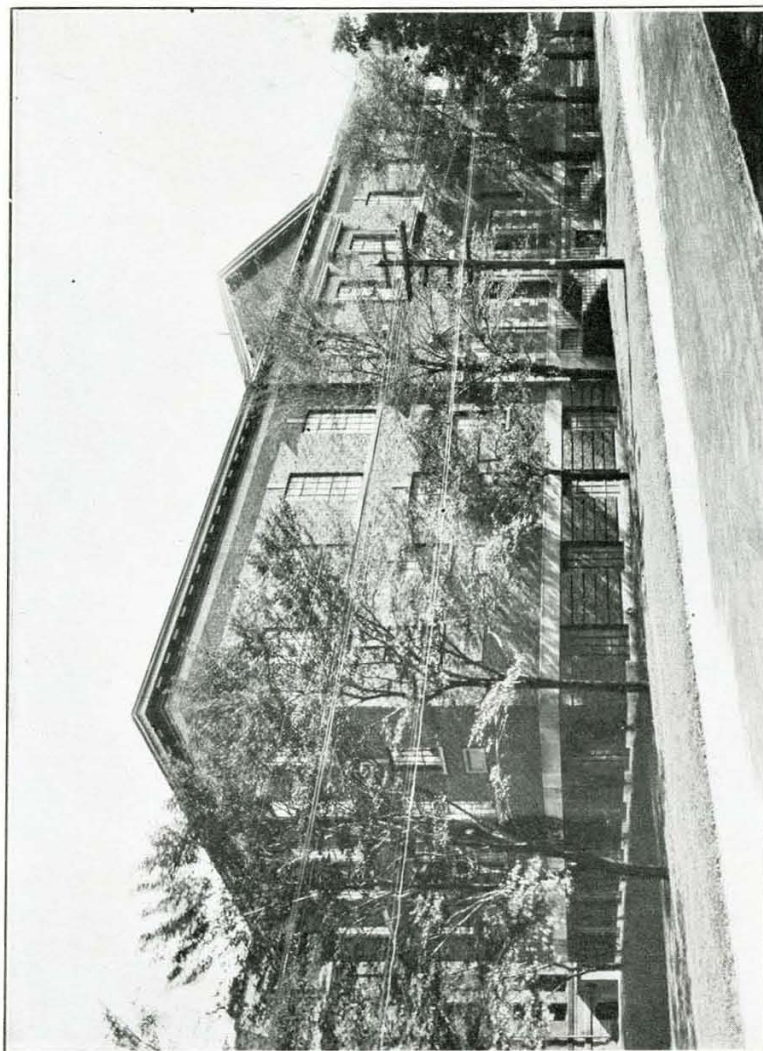

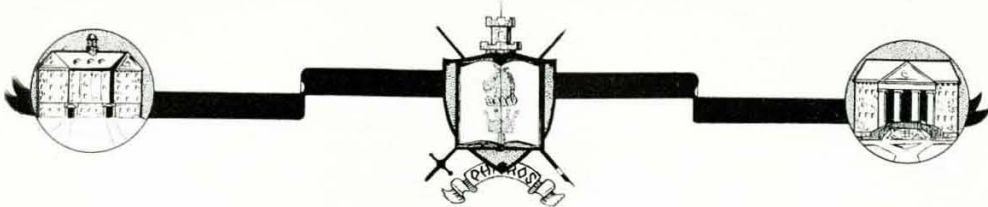

JAMES DICKSON REDDIN

Jim hails from the "Garden of the Gulf." He came to Dalhousie in 1929 from St. Dunstan's and St. Francis Xavier Universities. As President of the Dental Society and a member of the executive of the Newman Club he proved a diplomatic president and a capable executive. There is no doubt that the dental profession will find in Jim a skilful technician and a devoted practitioner. Your Alma Mater wishes you all success in your profession.

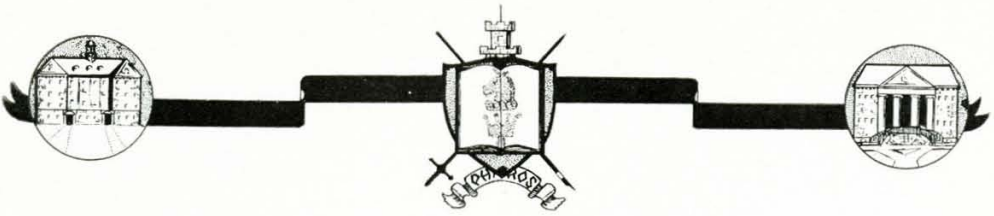

WILLIAM ALEXANDER SINCLAIR

Strong in his convictions, steady in his habits, with a strength and ability eminently capable of carrying both to their successful conclusion we find Bill on the threshold of a Dental degree. Nurtured in the border town of Saint Stephen, he obtained his pre-professional training at Mount Allison. At Dalhousie Bill has been particularly successful with the Dental Course and each year has been a prize winner. Bill goes back to his native province with capabilities that are unique.

MEDICAL SCIENCE BUILDING

MEDICINE

Medicine

ROBERT DOUGLAS BAIRD

Studied at Chipman, N. B. Normal School, and U. N. B. and had a year or two at teaching before coming to Dal. A sturdy, athletic, even-tempered, good-natured and studious chap, Bob has a wide popularity and has been prominent in sport, in executive capacities and in student affairs generally. Phi Kappa Pi claims him. In his final year he interned at Camp Hill Hospital and the Public Health Centre. Bob will proceed next year to the Saint John General

WILLIAM WINDSOR BENNETT

A dauntless Newfoundlander with a piercing eye and a military gait; born in Bonavista and nurtured by the tang of a salt sea breeze. He clicked his heels along the corridors of Pine Hill and interned one summer in the Glace Bay General Hospital, in the years preceding his entrance to the Victoria General Hospital for his internship. Bill is a good student and has a word to say on most medical subjects. A budding surgeon, next year will find him on the staff of the Charity Hospital, Cleveland.

JOHN HENRY BUDD, B. A.

The direction in which education starts a man will determine his future life. John leaves Dalhousie unusually well equipped to attain a high place in his profession, clever, cool, calculating, observant and kind. His talents and versatility have been in demand in many phases of university life. His musical ability par excellence. His ability to think clearly and express concisely no doubt aided largely in his winning Dr. Atlee's Essay Prize in his fourth year. He is deservedly popular, and he and Peggy wear his Phi Rho Sigma and Phi Delta Theta Pins. Interned at the Victoria General and he leaves next year for Charity Hospital, Cleveland.

ANDREW STUART COWIE, B.A., ACADIA

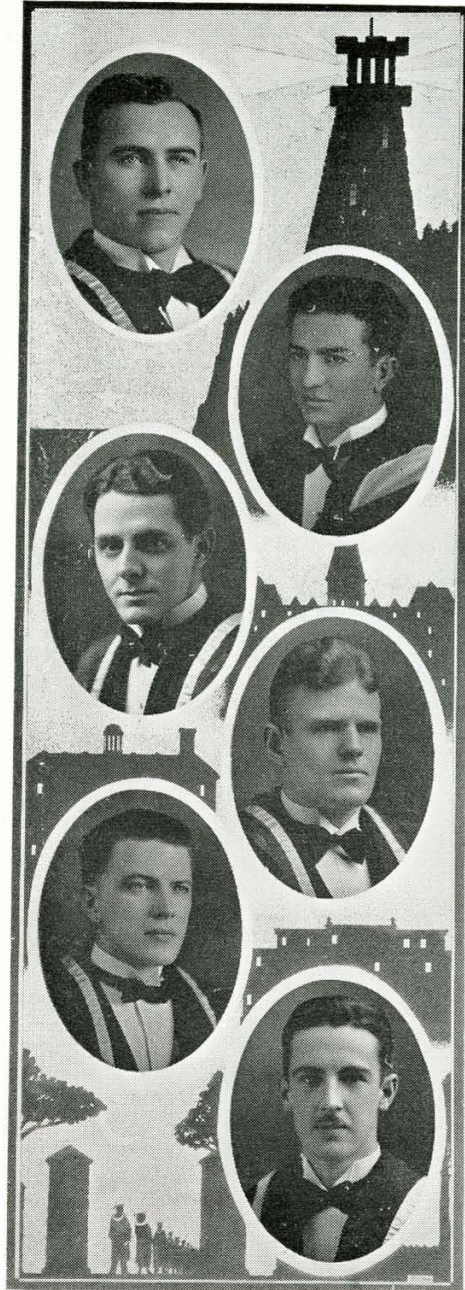

Clever and happy go lucky youth from Wolfville. Distinctions and friends come to him easily. A tennis player of tournament rank and a keen bridge player. Stuart interned at Aberdeen Grace and Victoria General Hospitals, but has a wariness for the Children's. Is much attached to his pipe, and the boys of Phi Chi Fraternity. He plans further hospital work before entering practise.

PETER JOHN DOWD

A musical minded Med. from Moncton. He is a former member of the famous Singer's Symphony, a faithful Glee Club artist for many years, and a staunch supporter of the Newman Club. Peter has been a diligent student and interned in his fourth year at the Coburg Road Infirmary. He was one of those to blaze the trail of undergraduate interne to Saint John and completed his internship at the Camp Hill Hospital. Phi Rho Sigma has been glad to claim him. Next year he is slated for the Saint John General.

ARTHUR DOUGLAS GIBBON

Long ago someone said that men are born great, others have it thrust upon them and at the same time prophesied that one great man should come from St. John. Some one told Gibbon this after he came to Dalhousie. Doug. has contributed much to College Life most unselfishly. 'Pharos' fared happily in his hands and the Glee Club benefited by his diligence. The happy owner of a most cheerful temperament, a contagious humour, an irresistible urge to pun a disarming manner which quickly wins confidence. All omens point to his success in the profession in which he has qualified highly. A member of Phi Rho Sigma.

FREDERICK JOSEPH GRANVILLE, B.A.

Fred has been a consistently good scholar and is following in the lead of his brother towards a successful practice. He is of a high character and is a staunch disciple of his church. His manner, which is attended with certain reserve, has brought him many friends and will no doubt aid him well in a professional capacity. He capably filled the office of president of Newman Club in 1931. Appreciates an argument and a game of bridge. He interned one summer at the Public Health Clinic, and in final year at the Victoria General, Saint Martha's and Grace Hospitals.

CHAMPION HOLLAND

Champ, swooped down upon us with a super-recommendation from Mount A., and has amazed us all throughout the years. He has been a tireless worker, and is possessed of a kind heart and charitable nature. His weaknesses are photography and babies. He has a sense of values of his own, and served as instructor of anaesthetics in his final year. He interned at Children's, Aberdeen and Morris Street Tuberculosis hospitals. Next year will find him practicing on the island.

GEORGE THOMAS IRVINE

Hails from Plaster Rock, and attached himself to U. N. B. for his pre-med work. While at Dalhousie, George distinguished himself as a miler and a marathoner, and, incidentally, ran around with quite a few of the fair sex. He is characterized by an industrious nature and a congenial manner, and is a popular member of Phi Chi. Interned one summer at Fredericton City Hospital and spent his final year in the Saint John General and Morris Street Tuberculosis Hospitals. George plans to intern at the Saint John General next year.

GORDON ALEXANDER McCURDY

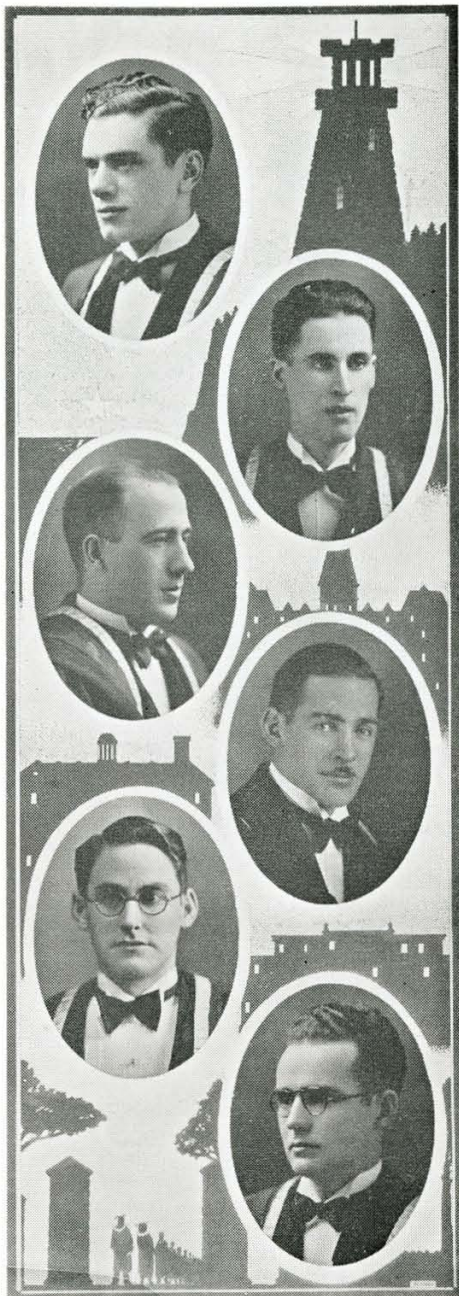

As president of his medical class for three consecutive years, Gordon proved himself as a very fine conscientious type of fellow, with no small measure of ability. He took an active interest in the college activities and captained the medical football team in 1931. He may be distinguished by a small moustache, and a genuine blush on occasions. Though his main study lies in Pathology, he has an indirect but very material interest in music. His fraternity is Phi Kappa Pi. He interned at Camp Hill and the Victoria General. Next year he will continue his work in Pathology under Professor Muir at Glasgow.

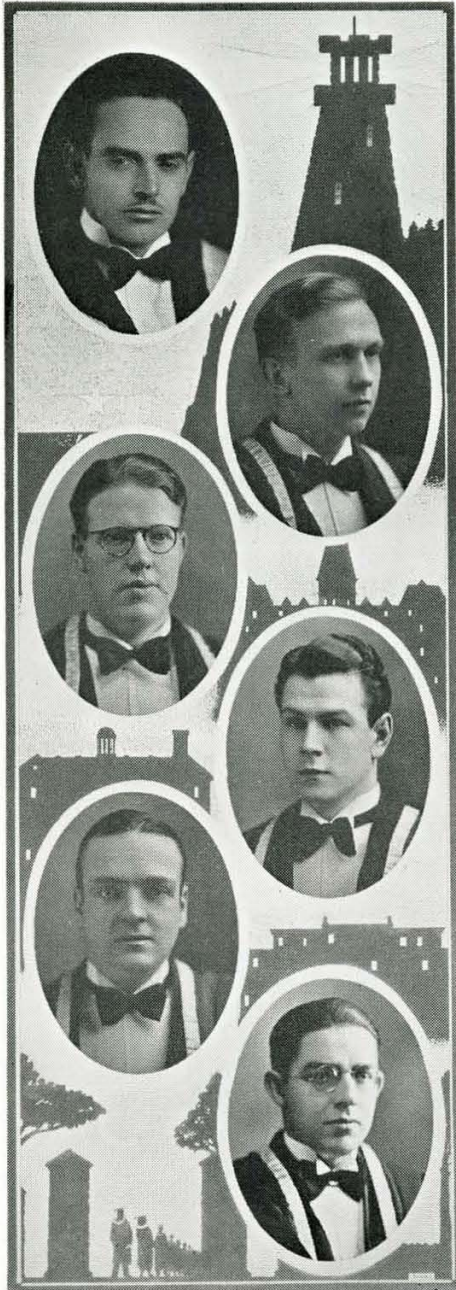

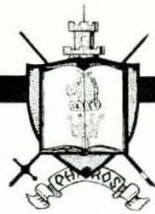

ANGUS JAMES MacDONALD

A solemn Cape Bretoner with a deep sense of humour. Angus appreciates a good book, a smoke, and a discussion on any general topic. He is very well read, has a hearty disdain for any vain show, and a high regard for ability and scholarship. He is possessed of a philosophic manner and a host of genuine Cape Breton stories. He will make a good doctor, but his spiritual inclinations cause him to regret that he may have missed his calling. He interned at the Halifax Infirmary and Kentville Sanatorium in his final year.

JOSEPH ALLAN McDONALD, B.A. (St. F.X.)

A clever reasoning mind, a loquacious manner, and a lot of reading have given Joe the capabilities for arguing anything from war debts to religion. He has a bent for science and did research work in biochemistry, sharing the Ross Stewart Smith Scholarship in his third year. He likes "contract," badminton and basketball and has played Big Six in tennis. Joe has been one of the leaders in class activities throughout his course, and is certainly well thought of by his confreres. He interned in the Victoria General in his final year, and it is thought that he will go into practice next year.

JOHN MALCOLM MacGOWAN, B.Sc.

A highly ambitious and consistently zealous worker, Jack has led many classes and won many prizes, and this year has been awarded a three year fellowship in Surgery to the Mayo Clinic. He has also attained distinction in his association with the Royal School of Cavalry and P. E. I. Light Horse. Friendliness and willingness to help others are the keystones of his character. We will long remember his prize collection of anecdotes and labor-saving devices. Phi Chi proudly claims him.

ALEXANDER MILLER MacKAY, B.A.

The blonde and brainy bad lad from New Glasgow. "Monk" has a quiet way of getting many distinctions and leading many classes. He shared the Ross Stewart Scholarship following research in biochemistry, and won second prize for his gynaecology thesis. He was undoubtedly the best stage and property manager Glee Club ever had, and served in similar capacities for the Little Theatre Movement. He devoted much time to the medical society on various committees and as Assistant Treasurer and Assistant Chairman of the Book Bureau. Interned one summer in Aberdeen Hospital, and in his final year at the Victoria General. Surgery is his forte and Montreal General is his goal for the coming year. His fraternity is Phi Rho Sigma.

WALTER CAMPBELL MacKENZIE, B.Sc.

A Man's activities are the expression of his ego, varied as the ego is adaptable, successful as it is great, progressive as its norm is high, benevolent as it is sensitive. Consequently "Fat" is known from Baddeck to the land of the setting sun and his pursuits are legion. Almost every student body enterprise has at some time been carried further by his enthusiasm. A perfect politic, an interesting companion, a loyal friend, he will be a trusted physician. Interned in his final year at St. Marthas and Halifax Infirmary. A member of Phi Rho Sigma and Phi Delta Theta.

FREDERICK CLAIR McLELLAN, B.A.

A native of Tatamagouche, his mind runs to medicine, music and a maiden. Freddie's saxophone and clarinet have graced many Dalhousie bands and symphonies, and Glee Club audiences have often applauded him. Appreciates radio artists, a bit of harmony and a game of cribbage, and in former days was a basketball enthusiast. Wears Phi Rho Sigma and Phi Delta Theta pins. Interned at the Kentville Sanatorium, and Camp Hill and Victoria General Hospitals, taking time off for occasional trips to Chatham, N. B.

ARTHUR BRITTON MADDEN, B.A. (Houghton)

The Mark Twain of the class and 100% American Art has won fame among us for his spontaneous wit. He has a capacity for making friends easily, and in association with him we will always remember his curious words and ingenious rhymes as aids to his memory of medical lore, and his repeated appeals to Darrell to "get that all down!" Interned at the Morris Street Tuberculosis and Saint Martha's hospitals and the Public Health Centre.

HAROLD LESTER MELLISH, B.Sc.

An earnest worker and an excellent student, this son of P. E. I. may look back on an unusually good college record. Good living, clever, conscientious and with surgical inclinations, he may well look forward to even more successful years in practice. Harold has devoted much energy and interest to church work and student religious groups. Appreciates many sports and took great delight in trimming Champ at tennis. Interned in his final year at the Victoria General.

RALPH EDWARD MITCHELL, B.A.

A consistently hard worker, with an infallible knowledge of botany, bugs and biochemistry. "Mitch" has a kind word for everyone, and his reassuring and universal expression "Gawd, you know your stuff" has helped many of us. His languid manner and droll speeches contrast strangely with a spontaneous laugh and a cheerful personality. He holds an ardent affection for his pipe and the old established church. Interned at the Kentville Sanatorium and the Children's, Victoria General and Grace Hospitals. He plans to take special study in X-ray next year at the Royal Victoria Hospital.

RICHARD OSBORNE MONAHAN, B.Sc. (Sr. F.X.)

Good-natured, humourous, well-liked by his confreres and much sought after by the fair sex. Began life in South Nelson, N. B., acquired a B.Sc. from Saint F. X. and then decided to major in physics at Dal. Dick was demonstrator in physics for a term and then his insatiable thirst for knowledge and scientific leanings lured him on to Medicine. He is an inveterate reader, has an independent type of mind and is much given to discussion and argument. He likes to go out at nights, and has acquired quite a professional build in the last few years. He interned at the Victoria General and Children's hospitals and the Kentville Sanatorium.

CLARENCE NORMAN MORRISON

Marked by a professional and diplomatic manner, an influential looking swagger and in infectious grin, this Haligonian lad will soon be following the footsteps of his Dad to a successful practice. Clarence occupied his summers as a business man and his winters as a medical student and gained fame in both. A conscientious worker and well read in many subjects, he admits to having majored in biochemistry. He interned at the Grace and Camp Hill Hospitals and the Kentville Sanatorium.

HENRY WALTER MOYSE

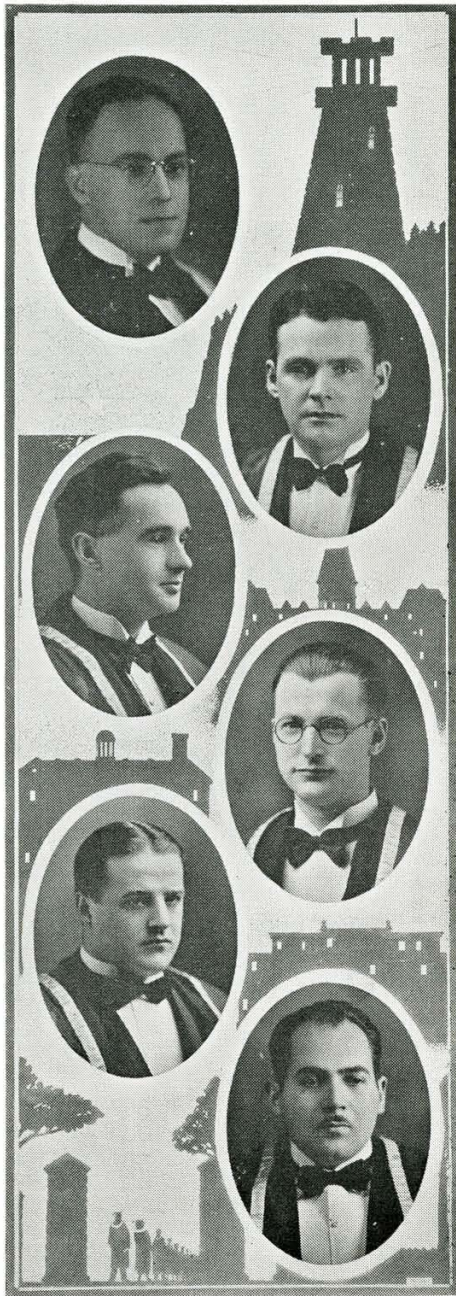

An industrious worker with a resolute desire to learn. Henry has leanings towards medical missionary work, and while at Dal. he interested himself in religious undertakings and the Student Volunteer Movement. He has had a continually good scholastic record throughout his course, and has been a devotee of the wards and the medical library. He has a quiet way of making many friends. As Murray Macneill would say "Our best men come from the Island."

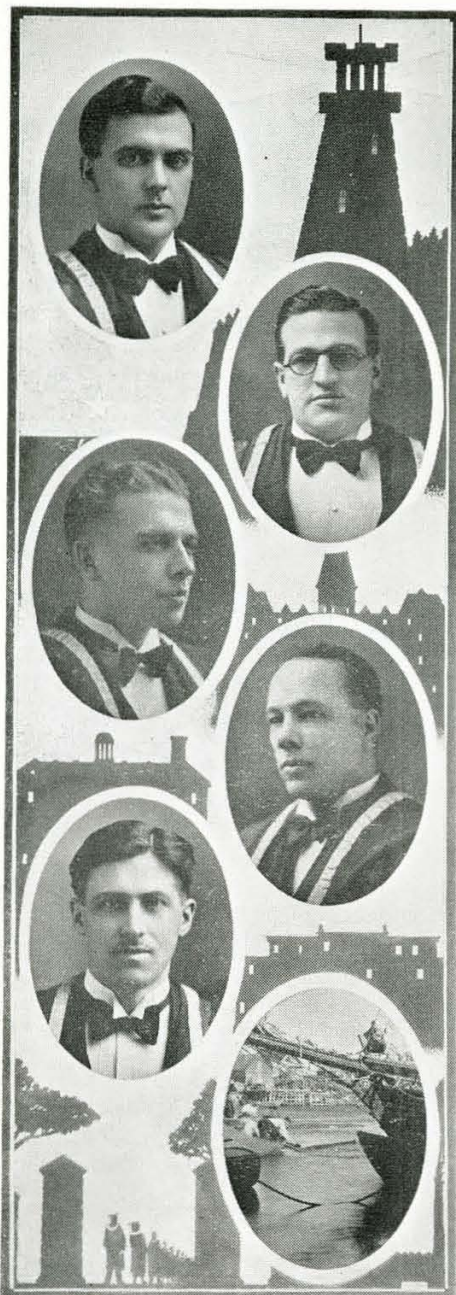

DARRELL DELANCY OUTHOUSE, B.A. (ACADIA)

A husky, free-and-easy Med., who spent his early years on the shores of the Bay of Fundy. Darrell will always argue politics and is an ardent defender of the cause of the Nova Scotia fishermen. Studious and shrewd, he has gained many distinctions. Interned during his fourth year at the Coburg Road Infirmary and in his final year at the Victoria General Hospital. His outside interests are interfaculty sport, the nursing profession and the Phi Chi brotherhood. He will spend next year at the General Hospital of Syracuse, N. Y.

LOUIS REINHARD

Of rotund and robust mien, Louis always took a big place in the class. A quick intellect and a genial nature characterize him, and his quiet, easy-going manner have made him one of the most well-liked men in the class. An authority on Hollywood and United States politics, and with a knowledge of "contract" that would put Lenz and Culbertson to shame. He drives a coupe and keeps a fiction library. He has made good marks throughout his course and interned in his final year at the Victoria General. His home is in Brooklyn and his fraternity is Phi Delta Epsilon.

NIGEL FRANCIS SCARTH RUSTED, B. Sc.

The iron man from the banks of Newfoundland. Carbonear first knew his steely eye and vice-like grip; Memorial School first endured his practical jokes and pugnacious outbursts; while Dalhousie found in him a fundamentally fine chap and good student. Nigel could be relied upon to be the first at every lecture. In a quiet way he took a keen interest in and supported many student enterprises. He interned one summer in the Saint John's Hospital and held a rotating internship in his final year at Aberdeen and Victoria General Hospitals and the Kentville Sanatorium.

HARVEY FRANCIS SUTHERLAND, B.Sc.

Sydney Academy, St. F. N. and Dal. have heard him. Harvey successfully combines a very likeable manner with a medical air, a whimsical line and a Cape Breton accent. Harvey's football career has been somewhat sensational. His fighting spirit and scathing vocabulary have offset his scorn of training rules. Football has been his forte in the day-time; he also went to several classes. He is a member of Phi Kappa Pi. Interned at the Infirmary in his final year. He hasn't decided yet whether to become an Osler or a Moynihan.

DONALD ARTHUR THOMPSON, B.A. (M.T.A.)

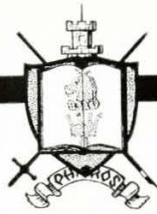

"Thompv," the boy wonder, romped through Medicine at Dal., taking part in many athletic and social activities, finding time for a great deal of executive work, winning many prizes, and capping his scholastic attainments in his fourth year by leading his class and winning appointment to the senior internship of the Victoria General Hospital. Thompy is marked by a crescendo exhort, and a wealth of good nature which is oddly masked sometimes. He is highly regarded by his fellows and has been president of Phi Rho Sigma. Montreal General will see him next year.

ALFRED ERNEST WADDELL

A native of Trinidad, with a quiet and pleasing manner. Alfred has a good knowledge of both the classical and modern languages, and is the champion chess player of the class. Of a conscientious and studious nature, he has devoted most of his time to medical interests while at Dalhousie and plans to return home next year, there to practice the healing art. He interned in his final year and the Morris Street Tuberculosis and Children's Hospitals and the Public Health Centre.

WILLIAM STEWART WOOLNER, B. Sc.

Famous on track, field and gridiron, a walking encyclopaedia of the works of Kipling and Service, Stewart is a worthy son of the "Garden of the Gulf." Great in heart and towering in build, he is known and liked by town and gown. Much interested in the militia, he holds a captain's commission in artillery. With an alert mind he assimilates knowledge rapidly, and has had a very creditable college record. An influential member of Phi Chi. Interned at the Grace, Saint Martha's and Victoria General Hospitals. Next year he joins the staff of the Saint John General.

Council of the Students

In 1912, a group of representative Dalhousians met in a class room in the old Forrest Building to consider a means of furthering the interests of the Student Body and of coping with the problems which were continually facing it. The result was the organization of an active student governing body—the original Council of the Students. Like all innovations, it was fated to be regarded with skepticism and even with indifference by many of the students whom it endeavoured to serve, but it steadily gained strength and developed into a truly representative body which was not only elected by, but was accorded the support of the Student Body. Under the stimulus of this pervading spirit of cooperation, it gradually welded the various student organizations into a harmonious group with the one central governing body. In 1927, the membership of the Council was reduced from 28 to a less unwieldy body of 12, a change which greatly increased its efficiency. To this number was added, in 1931, a non-voting Permanent Secretary-Treasurer as a feature of a new system of Finance Control which was inaugurated in that year. In this form, the Council carries on at the present time.

The year which has just come to an end has seen a continuation of the progress made during preceding periods. The greatest problem which has confronted Councils in the past, has been that of proper control of expenditure. The present system of Finance Control, in force for only two years, has shown most gratifying results. Although receipts from extracurricular activities have been at a bare minimum, the annual deficits of the past have been supplanted by substantial balances in the form of cash and other assets. A more even distribution of funds has made possible the subsidizing of seven new activities in the past two years and the enlarging of several others. One of the most recent institutions which deserves special mention is the Munro Day Programme in which the Council has taken the lead in inaugurating a fitting annual celebration in honour of Dalhousie's gracious benefactor.

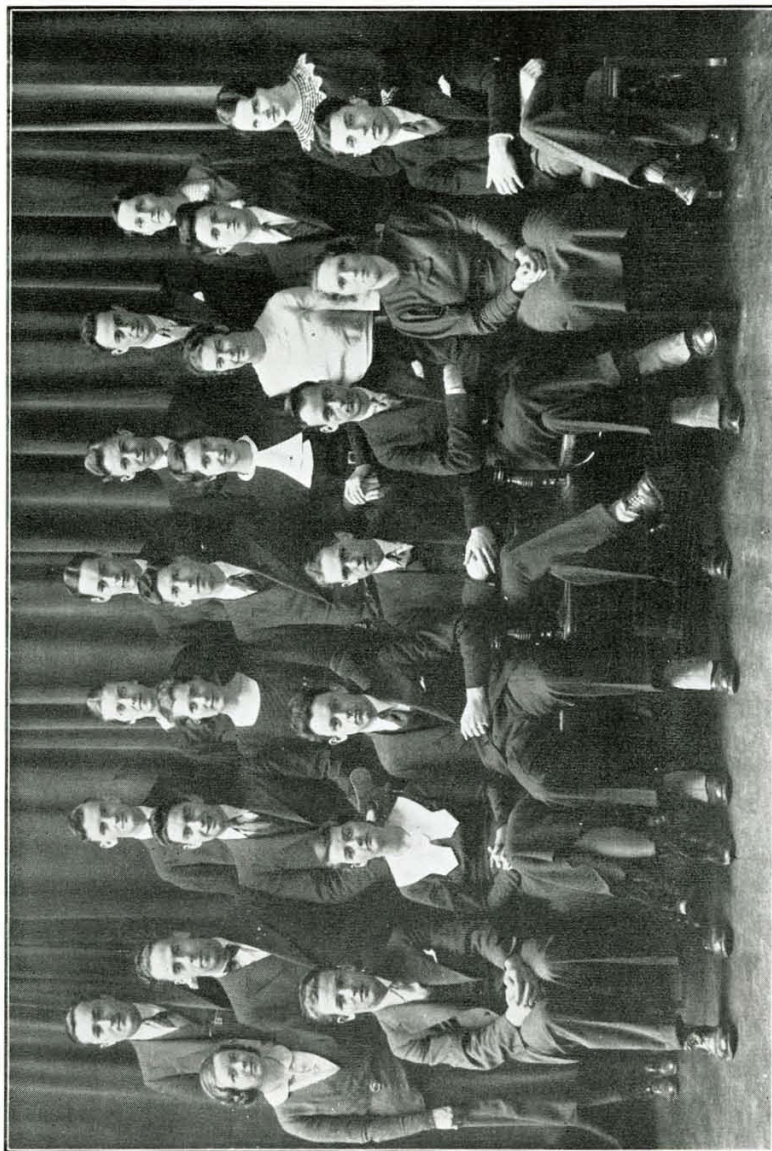

The Council has budgeted to clear the Student Body of a debt to the Board of Governors, known as the Athletic Field Account and amounting to \$554.43, which is the amount of a fluctuating liability incurred since 1923. It has succeeded in the collection of athletic equipment beyond the fondest expectations of the Councils of a few years ago. In this way, and by direct purchase, it has added materially to the permanent and semi-permanent assets of the Student Body. Committees have effected substantial savings in the cost of publishing the Year Book and, at the request of the Students' Council of King's College, have under consideration possible improvements in the present agreement defining the relations of the two student bodies.

Under the N. F. C. U. S. programme, the Council has sponsored two debates with visiting teams—a team of men from England and one of girls from Western Canada—and has sent one representative on an Eastern Canada ladies team to debate against the universities of Central Canada. Under the Exchange of Undergraduates plan, Dalhousie has received one student from McGill and one from Queen's University.

The social side of the students' activities has not been neglected. The Annual Council Dance opened the term very enjoyably while two skating sessions at the Forum have provided a pleasant change from the more common pastimes. Athletic competition with other universities has been encouraged resulting in more intercollegiate games in the various branches of sport.

In one case only, did the Council misinterpret the feelings of the body which it represented. It moved a recommendation, after careful consideration, that all major student dances be held in the Gymnasium. The recommendation was not favoured by the students and the Council bowed to the will of the majority by rescinding its motion.

Though subject to frequent criticism, the Council has always tried to do what it has considered in the best interest of the students. If future Councils apply themselves to this end with the same diligence and honest conviction, the Utopia which is the aim of all well-meaning critics will approach continually nearer.

Middle Row—Montgomerie, Lloy, Dorman, Morton, Clarke, Simmonds, Vernon, Stoddard, Gray,
Front Row—Fisher, March, Mahon, Egan, Allen, Crandall, Margolian.

The Dalhousie Gazette

The Dalhousie Gazette, "the oldest college paper in America," has completed its sixty-third year of publication, and on the whole it has been a most successful year. Especially worthy of note is the fact that it called forth expressions of opinion from large numbers of the student body. Great interest was taken in the Dance question, Egbert, Whiskey Jake, and the Anti-Feminist League in particular. The Gazette this year has attempted to give an efficient news service with pertinent comment on student affairs.

A change of Editors was made necessary at Christmas when Mr. D. Spry left Dalhousie to enter journalism. He was succeeded by Mr. H. J. Egan. Mr. E. B. Higgins, the pre-Christmas Managing Editor also resigned so that he might devote more attention to his heavy course. He was succeeded by Mr. D. R. Allan. Although carrying an unusually large staff this year, everybody worked well together and the success of the paper is due in no small measure to the spirit of co-operation which prevailed.

Glee and Dramatic Club

The Dalhousie Glee and Dramatic Club has played a more important part than ever in the life of Dalhousie this year. It has not only stimulated interest and aroused comment but it has provided entertainment, sought talent, and laid a firm foundation for future productions. Our president Doug Murray through his untiring efforts and the co-operation of many students has accomplished much in this particular direction.

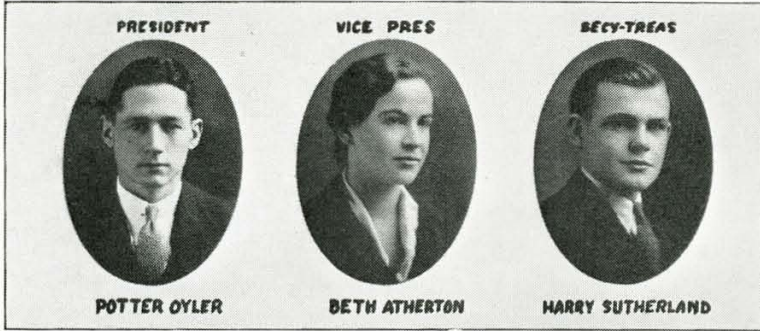

The supreme triumph of the year was the Glee Club's presentation on Munroe Day. Two one act plays "The Glittering Gates" and "Action" with twelve musical chorus numbers made a very bright programme. This performance was perhaps the most ambitious show ever attempted by Glee Club the cast itself including fifty-five students. We are greatly indebted to the directors Dr. Arthur Murphy, Mr. Jeffrey Marshall, Mr. J. P. Connolly and Bob Weitz. A good variety show long to be remembered.

The "Minstrel Show" under the direction of Doug Murray and Bob Weitz provided something new and interesting and was received by a most enthusiastic audience. Doug Murray, Bob Weitz, Art Benjamin, Mort Goldberg, Ruth Crandall, Dolly Gray and Connie Jost had some of the principal roles but everybody in the company is worthy of the highest praise for their splendid work.

The Newman Club are to be thanked for their kind co-operation in presenting a performance of much merit under the direction of Mr. J. P. Connolly. Mary Duggan, Victor Oland and George Murphy took the leading parts in the one act play "The Point of View." Bob Donahue excelled himself in "Brothers in Arms" on the same evening.

A Freshman Evening of Entertainment was presented early in the year by the new class of '36. "Atlanta in Wimbelton" was ably handled and the skits and musical numbers carried off the programme in a surprisingly successful manner. Charlotte Lyle, George Murphy, Pat MacDonald and Neil Higgins were principal characters. We are indebted to Dr. Ronald Hayes who acted as director.

The formation of a College Band this year helped to liven things up at the Rugby Games, and as a result the teams got better support than ever before. With this as a start we hope for greater things next fall. The history for the year was a history of success. The most worthwhile point of the success is the number of new performers who were presented at Glee Club.

Sodales Debating Society

PRESIDENT, - - - - P. A. OYLER
 VICE-PRESIDENT, - - - - BETH ATHERTON
 SECRETARY-TREASURER, - - - HARRY SUTHERLAND

Sodales Debating Society has enjoyed somewhat of a revival of interest in debating this year.

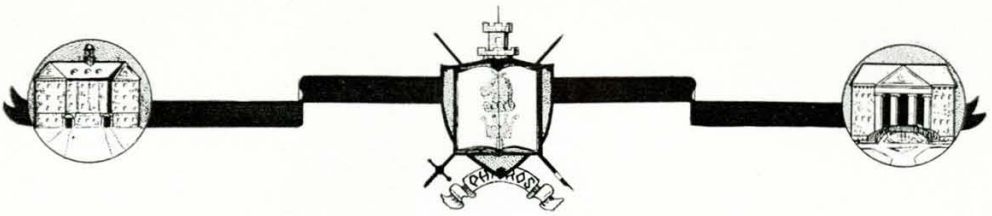

A very welcome impetus was given to the activities of the organization by the visit of a British Debating Team during October. This "British Debate" has proved to be the high light of the year in so far as Sodales is concerned.

The British Team was composed of Ivor Jones of University College, Wales, and Hector McNeil of Glasgow University, Scotland. Dalhousie's representatives were Leonard Hawco and Richard Squires.

A somewhat novel feature was introduced when it was decided to "split" the teams for the debate; Mr. Jones and Mr. Squires debating against Mr. Hawco and Mr. McNeil. The experiment proved highly successful and in addition, enabled the audience to render an impartial decision.

One of the features most pleasing to the executive of Sodales was the fact that the attendance at this debate was well over the 500 mark.

(Continued on page 88)

Sodales Debating Society

(Continued from page 87)

This year Dalhousie's Intercollegiate Team journeys to Wolfville to meet Acadia University.

Dalhousie will be represented by Raymond McCarthy, leader; Donald Archibald and Ernest Richardson.

It is fitting to mention that there were more than twice as many candidates for this year's team than for that of last year.

At the time of writing, the date of the final Bennett Shield Debate is still some two weeks away.

In the first of these inter-class debates the Seniors won from the Juniors; while in the next debate the Freshmen team triumphed over the Sophomores.

A very interesting debate is anticipated when the Seniors meet the Freshmen in the final debate for the Bennett Shield.

Both of these Bennett Shield Debates have been of a very high order, and the judges have declared that with regard both to material and presentation a decided improvement has been shown over former years.

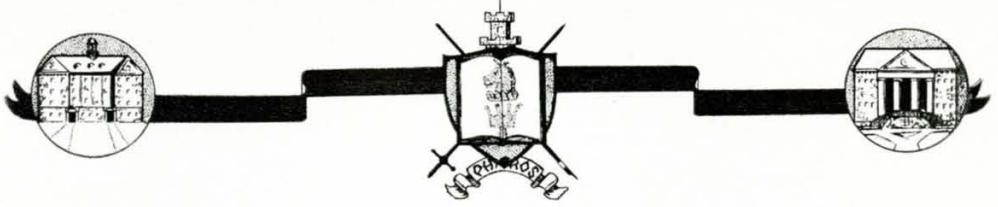

Regular "Sodales" Debates have been held throughout the year, and the society has again encouraged extemporaneous speaking.

The executive of Sodales organized a "Public Speaking and Parliamentary Procedure Club" as it was felt that the training which the student received from such a group would further his interest in debating and equip him for a more active participation in the activities of the University's Debating Society.

This Club is now firmly entrenched as one of the most enthusiastic groups at Dalhousie, and the executive of Sodales feel well repaid for any effort they may have expended in organizing the club.

The faculty have once again given unselfishly of their time and efforts both in judging debates and selecting members to represent Dalhousie on her various debating teams. Mr. Dougald Macgillivray also has once again helped us on every possible occasion.

In closing we would like to extend to them all, our sincere appreciation for their co-operation with us in our endeavour to make Sodales Debating Society a better, if not bigger, organization.

The National Federation of Canadian University Students

WILLIAM JOST, B.A.

The National Federation of Canadian University Students is, as its name implies, a central organization of students in the Canadian Universities. Its members are the individual students themselves rather than the student governing organizations in each college. The Federation does not concern itself directly with the internal management of student affairs in the separate colleges, except in so far as it offers facilities for the interchange of information on problems of student life and government. It exists for the purpose of promoting and maintaining on a national scale such services as the separate university organizations operating singly would find it difficult or impossible to supply. Beyond this the Federation has an international aspect in that it contacts with similar organizations in other countries and seeks to cooperate with them. The Federation has operated with signal success in its allotted field so that now, in its seventh year of service, it may be said to occupy a truly important place in Canadian student life.

In four fields in particular the work of the N. F. C. U. S. has been valuable. Several debating tours, national and international, have been organized, and on each occasion the teams have been met with general acclaim. These tours have unquestionably been of value in sustaining interest in an important university activity. The Exchange of Undergraduates Scheme is an N. F. C. U. S. project in which Dalhousie has played a prominent part. The purpose of this scheme is the promotion of exchanges of students as between the Eastern, Central, and Western groups of Universities. By the Scheme undergraduates are afforded the opportunity of taking a year of study in another part of the country without extra expense to themselves. In the field of athletics the work of the Federation has so far been confined to two matters. A plan for the cooperative purchasing of athletic equipment at reduced rates has been put into operation, and the formation of an all-Canadian Intercollegiate Athletic Union is now in contemplation. Lastly the Federation has been active in promoting facilities for student travel. This has taken form in the organization of overseas tours, in the reception of students on tour from other countries, and in negotiations with passenger carriers in Canada for reductions in rates for students.

The N. F. C. U. S. maintains a permanent office in Edmonton from which contact is maintained with the several student bodies through a local representative in each. In addition there is an annual conference at which the whole business of the Federation is given extensive consideration.

Students Christian Movement

<i>President</i>	A. W. MUTCH
<i>Vice-President</i>	DOROTHY REDMOND
<i>Secretary-Treasurer</i>	HARVEY BISHOP
<i>Maritime Secretary</i>	DR. GEORGE S. PATTERSON

The Student Christian Movement at Dalhousie has been one of the most active organizations in the University this year. It was fortunate enough in having the help of Dr. George S. Patterson, Maritime Secretary, who has been with the Dalhousie Group the past session. In addition to the annual At Home for the Freshmen, the S. C. M. has conducted regular Sunday night sing songs, two church services with special speakers, and a lecture by Dr. Munroe.

Groups have been organized under the leadership of Dr. Bronson, Dr. MacKay, Prof. A. Stanley Walker, Mrs. Nichols and Dr. Patterson. A conference with Acadia and Mount Allison was held at Saekville under the leadership of Dr. Patterson. Dalhousie was ably represented at this conference.

As a unit of the Student Christian Movement of Canada, and thus of the World Christian Federation, the Dalhousie group has endeavoured to build up a spirit of good fellowship among the students at Dal., and by means of studying religious, social and political problems, members of the group have endeavoured to gain an intelligent understanding of some world problems, and the possibilities of the Christian religion in their solution.

Newman Club

<i>President</i>	BOB DONAHUE
<i>Vice-President</i>	CATHERINE CARROLL
<i>Secretary-Treasurer</i>	MAC BRENNAN

Newman Club activities opened with the time-honored "Bean Supper," and was followed by several other social functions.

The Club was addressed on different occasions by Rev. John Burns, Prof. James McDonald, Prof. Gautheron.

The Newman Club put on their usual successful Glee Club under the able direction of Mr. J. P. Connolly, a former member of the Club.

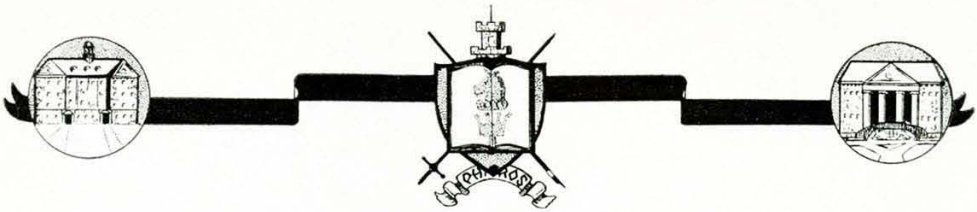

Maccabean Society

<i>President</i>	PHILIP MAGONET
<i>Vice-President</i>	TORIAS BEERER
<i>Secretary</i>	MILDRED MORRISON
<i>Treasurer</i>	ARE GAUM

Once again the Maccabean Society has enjoyed a most successful year, the big event being the Annual Dance held at the Lord Nelson Hotel. Most of the credit of the success of this function goes to J. Louis Dubinsky, Chairman of the Dance Committee. Mr. Dubinsky was president for the first term of the college year. Phil Magonet succeeded him for the latter term.

Several new books and magazines have been added to the splendid collection that have been presented to the Dalhousie Library by the Society.

The social programmes presented this year were of the same high standing as of previous years. Some of the topics were "Psycho-analysis," "Technocracy," "The Sino-Japanese Conflict." A debate, "Resolved that Education Leads to Happiness," was also sponsored.

Commerce Society

PRESIDENT,	- - - - -	E. ROBERT MACHUM
VICE-PRESIDENT	- - - - -	MISS JEAN BEGG
SECRETARY-TREASURER	- - - - -	ROBERT F. HATFIELD
EXECUTIVE MEMBERS	- - - - -	GEORGE C. THOMPSON DONALD B. STEWART

The active support of all the Commerce students has resulted in a very successful year for the Commerce Society. At informal evening meetings, members have been treated to very informative addresses by the following prominent business men of the city: Mr. J. Ralph Machum, Mr. W. I. MacDougall, Mr. A. T. Smith, Mr. P. H. Scott, Mr. F. C. Cornell and Mr. F. H. Goucher. The Commerce interfaculty teams were well supported, and premier honours were again captured in track and field sports. This year the annual Millionaires' Ball was carried out in conjunction with the Boilermakers' Ball. Another enjoyable social function was an informal dance held at the Lord Nelson.

Fishers of the Deep

The first settlers on these shores were "men who went down to the sea in ships" to reap the harvest of the deep.

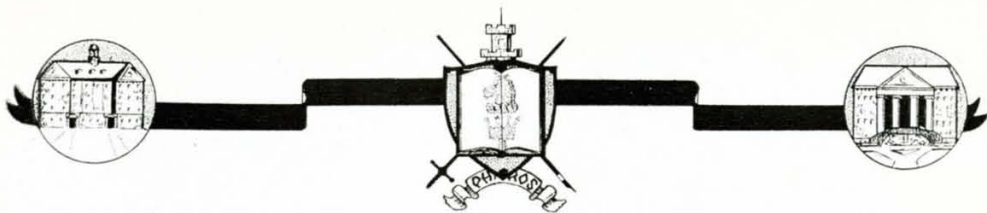

With the growth of cities came the expansion of learning; education became a necessity; the arts were refined; science has grown to unfretted heights—but the fisherman still casts his net hopefully into the sea and prays for a good return.

Science scoffs at him when it sees his antique ways; for he cures his fish as his forefathers did; and he sells his fish as his forefathers did; and there seems no help for him—but Dalhousie has come to his aid. She is training men to go forth as "pioneers into an antique land," men who can, and will, bring strength back into our livelihood, and thus rebuild and fortify the foundations of our maritime life.

Engineering Society

PRESIDENT,	- - - - -	R. LOUIS CHRISTIE
VICE-PRESIDENT,	- - - - -	BRUCE KELL
SECRETARY-TREASURER,	- - - - -	JAMES B. FERGUSON
EXECUTIVE MEMBERS,	- - - - -	R. L. B. COVERT DOUG. W. BENT

The Dalhousie Engineering Society is an organization conducted by the students in Engineering with the purpose of promoting an interest among Engineering students in problems in engineering. The Society sponsors its own Interfaculty Teams and holds several social functions throughout the year. An added feature this year was an inspection tour of the plant of the Mersey Pulp and Paper Company at Liverpool, N. S. The Society also acts as an exchange through which the Engineering Students may purchase their text books and instruments at reduced prices.

The Moot Court

The Moot Court session of 1932-33 was of unusual interest. The cases before the Court presented some very interesting and intricate problems which called forth much preparation on the part of the counsel. The Second Year students, the group from which the counsel were chosen, were particularly capable, and discharged their tasks in a most commendable fashion. The members of the First Year, acting in the capacity of junior counsel, showed great promise and everything points to a successful session next year. The Tribunal was composed of the Third Year students who took exceptional interest in the cases of the litigants to which the carefully written decisions bear adequate testimony.

Probably the outstanding activity conducted by the Law Society each year is the competition in the Moot Court for the Smith Shield. The Shield was donated in 1925 by Mr. Sydney E. Smith, then an associate professor in Law, and now Dean of the Law School. The contestants this year are Messrs. R. D. C. Stewart and P. H. Stehelin, appellants, and Messrs. John A. Y. MacDonald and R. T. Donald, respondents. At this date the case has not been argued in the Court.

Medical Society

PRESIDENT,	-	-	-	-	-	-	THOS. B. MURPHY
VICE-PRESIDENT,	-	-	-	-	-	-	J. P. ROBERTSON
SECRETARY,	-	-	-	-	-	-	FRED H. WIGMORE
TREASURER,	-	-	-	-	-	-	J. HOWARD BUNTAIN
EXECUTIVE MEMBER,-	-	-	-	-	-	-	CHAS. E. STEWART

This organization has several objects in its functioning. It strives to provide a common meeting ground for the medical students, to give the individual an opportunity to voice his opinions, to attain the greatest possible advantage in the system of instruction, and finally to secure the best rotation internships for the final year men. There has been a gradual apathy towards its meetings by the faculty, but late signs show more interest. The annual banquet closed its activities for the year. To F. L. Whitehead the society owes its appreciation for the successful management of this highlight of the year.

Dental Society

PRESIDENT,	-	-	-	-	-	-	J. M. REDDIN
VICE-PRESIDENT,	-	-	-	-	-	-	JAMES MACLEOD
SECRETARY-TREASURER,	-	-	-	-	-	-	ERSKINE CAMPBELL

The Dental Society is the official organization of the Dental Students at Dalhousie. Student problems are brought before the Society, which, through its executive, brings them before the faculty.

Dental banquets and smokers have always been a decided success. They serve to increase the friendly companionship between the members of the different classes and also between the members of the Faculty and the students.

Dalhousie Law Society

PRESIDENT,	-	-	-	-	-	-	R. D. C. STEWART
VICE-PRESIDENT,	-	-	-	-	-	-	WILLIAM JOST
SECRETARY,	-	-	-	-	-	-	JOHN A. Y. MACDONALD
EXECUTIVE MEMBER,	-	-	-	-	-	-	E. A. PAYZANT

The Dalhousie Law Society as constituted and carried on is the only student law organization permitted within the Law School. This exclusiveness is due to several factors, the chief of which being that as our members are necessarily limited, and separate organizations, such as a division by classes would seriously effect if not impair our excellent esprit de corps and prevent the excellent cooperation between the staff and students which now exists.

The outstanding activities of this society during the past year are already a matter of record but a brief reference for this purpose seems justifiable.

The crowning social achievement of the academic year from the standpoint of the Law School and the campus in general was the "Budding Barrister's Ball." The work necessary to achieve such momentous success coupled with interfaculty sport and law dinners provided ample extra-curricular activity for the boys in Law.

Midlothian Society

OFFICERS

<i>President</i>	CATHERINE O. HEBB
<i>Secretary</i>	DOROTHY REDMOND
<i>Treasurer</i>	WINNIFRED KILLAM
<i>Chairman of Refreshment Committee</i>	DOROTHY WEBSTER

Midlothian Society which is a girls' club founded by those who wished to discuss the works of modern authors, has enjoyed a successful year. Meetings have been held weekly, and the programme has consisted chiefly of modern novels, poetry and biography. Several new members have been admitted by election. All of the members have taken an active part in the meetings by preparing and reading papers which are afterwards discussed. Professor Jewett and President Stanley have very kindly assisted the club by giving interesting talks, and Miss MacKeen has been very thoughtful with her hospitality.

The Round Table Club

<i>President</i>	T. A. GOUDGE
<i>Secretary-Treasurer</i>	R. T. DONALD
	PROF. R. A. MACKAY
<i>Executive Members</i>	T. D. MACDONALD
	T. W. CRAWFORD

The Round Table Club was established five years ago by a group of students in the Faculty of Law and the Department of Economics and Political Science. Its purpose is to provide a forum for the discussion of social and political problems which have national or international significance. Membership is limited to sixteen students drawn from the male undergraduates of Dalhousie and Kings who have completed at least two years of university study. These and three honorary members from the professorial staff make up the complete roster of the Club. In 1930, the Carnegie Institute on International Relations invited the Club to become affiliated with similar groups under its sponsorship, and as a result of this association a small library is being formed. Numerous guest speakers have been entertained by the Club since its inception, among the more prominent being Rt. Hon. Arthur Meighan, and Rt. Hon. W. I. MacKenzie King. Fortnightly meetings are held during the college term.

Cercle Francais

<i>President-Honoraire</i>	M. RENE GAUTHERON, AG. DES LETTRES
<i>President</i>	M. BURNS ADAMS, B.A.
<i>Vice-President</i>	Mlle. DOROTHY VERNON
<i>Secrétaire-Tresorier</i>	M. JACQUES BERENGER

Pendant le terme present, le Cercle Francais avait un succes considerable, en depot de ce que la plupart de nos meilleurs étudiants de francais, comptant parmi les membres les plus actifs de l'annee passee, ont ou gradue ou quitte l'universite pour raisons personnelles.

Cette annee les membres etaient moins nombreux, mais tous ceux qui assistaient aux reunions, etaient reellement interesses aux activites, et y ont pris beaucoup de plaisir et de bien.

Les programmes qui formaient la partie principale de chaque soiree comprenaient—causeries par M. Gautheron traitant de sujets interessants et instructifs, chansons francaises, recitations, lectures, et scenes choisies des oeuvres de Moliere, Nadeau, Labiche, et autres écrivains francais. Les morceaux dramatiques ont ete joues d'une maniere creditable par certains étudiants, et goutes avec beaucoup d'interet par les autres membres du cercle.

Les energies du Cercle, plus meme que l'an dernier, ont ete consacrees au cote theatre. On a prepare plusieurs pieces completes, sur la demande de M. Gautheron, on les a jouees en ville devant la chapite local de la societe internationale, l'Ailliance Francaise.

Delta Gamma

The Delta Gamma began its activities with the usual informal initiation of the Freshettes. The formal initiation followed at the next meeting and the Freshettes were received and welcomed as new members.

The 2nd annual tea-dance, which was very successful, was held at Sherriff Hall to raise money for the Community Chest.

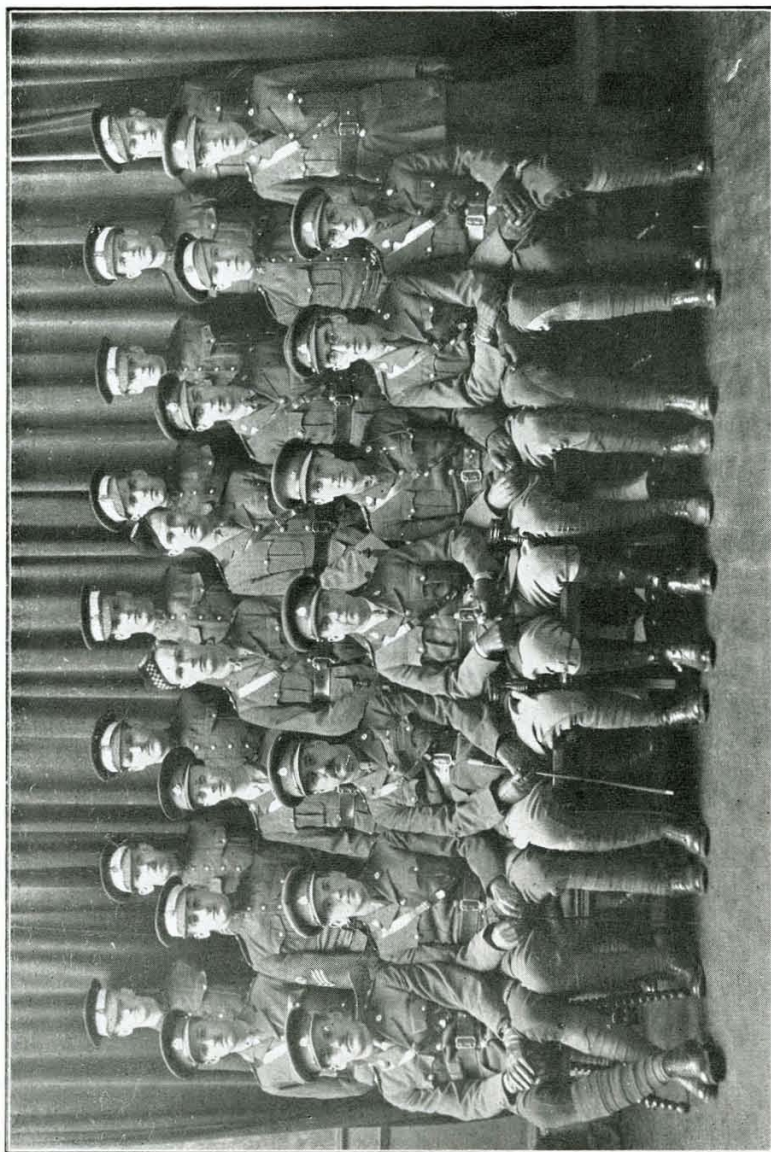

After Christmas the usual programs were put on at the meetings; and thanks to the kindness of several professors, some very interesting talks were provided. As usual the girls themselves displayed their talent in acting.

This year Delta Gamma had the pleasure of entertaining two N.F.C.U.S. debaters from Ontario. As usual the big event of the year was the Delta Gamma Dance held at the Nova Scotian on Feb. 27th. Succeeding years will find it difficult to emulate the success which attended it.

Although the second vice-president of Delta Gamma still serves as president of D.G.A.C., yet Delta Gamma and D.G.A.C. are now two separate organizations. The first vice-president of Delta Gamma still holds the position of manager of the Inter-Collegiate Debating Team.

ATHLETICS

THE EXECUTIVE

ANDERSON

MACKENZIE

CONNOR

D. A. A. C.

Dalhousie has had a very successful season in athletics. The new gymnasium has fulfilled all expectations and is being utilized to its full capacity.

The football team, taking a long time to get started, showed their real worth when they defeated their old rivals, the "Wanderers." They played off with Caledonia at Glace Bay in the semi-finals for the McCurdy Cup but were defeated.

Dalhousie has entered a new era in its Hockey history. Playing a strictly intercollegiate team they came within an ace of winning the City League. With the influx of such good material as we had this year, we are hoping that the days of Haslam, Bates, and Duke MacIsaac will be revived.

Basketball began with what seemed an overwhelming handicap. MacRae, Davidson and Handler were out of the line-up and the team had to be composed of the younger and less experienced players. But already they have made an excellent showing. Besides beating Mount A. and giving Acadia the worst trimming in history they are now playing off for the City Championship.

Boxing and wrestling are being patronized as never before. The boxing team is now getting ready for the Intercollegiate Championships.

Interfaculty sport, operating under a new system—that of having an interfaculty manager for each individual sport, has had a very successful season. The D. A. A. C. feels that more time, more money, and more energy should be given to promote interfaculty sport.

A few words are necessary to explain the great interest that is being taken in Badminton. This fine sport has spread like wild-fire; not only the students but the professors as well are making full use of the Badminton courts.

Coaches

PROFESSOR RALPH W. ELLS

The past season has been one of the most successful in the history of Dalhousie basketball, mainly due to the efforts of Professor Ells. Both senior and intermediate teams have benefited greatly under his able direction. In addition he has aided Miss Harris materially with the girls' team. Ralph took a comparatively young and inexperienced group of players and whipped them into a strong team. Each man on the squad was given equal attention and opportunity and all join in wishing the "Coach" the best of luck.

FLORENCE RITCHIE HARRIS

Ritchie came from the Montreal School of Physical Education to be Dalhousie's first "Physical Ed." Instructress. During her three years here she has done her utmost to increase the enthusiasm for sports among the girls and has faithfully coached the girls' Hockey and Basketball teams. She organized the skiing and swimming clubs and she has been instrumental in organizing a troop of Rangers, of which she is the leader.

PROFESSOR C. H. MERCER

The Tennis and Badminton Clubs of Dalhousie owe a debt of gratitude to Professor Mercer for his generous services during the term just ending. He holds the office of Honorary President of both clubs and serves as coach for both teams. His efforts during the past year have resulted in the reorganization of the Intercollegiate Tennis League on a more definite basis and the formation of the McCurdy Cup Badminton League.

ALBERT M. SMITH, Jr.

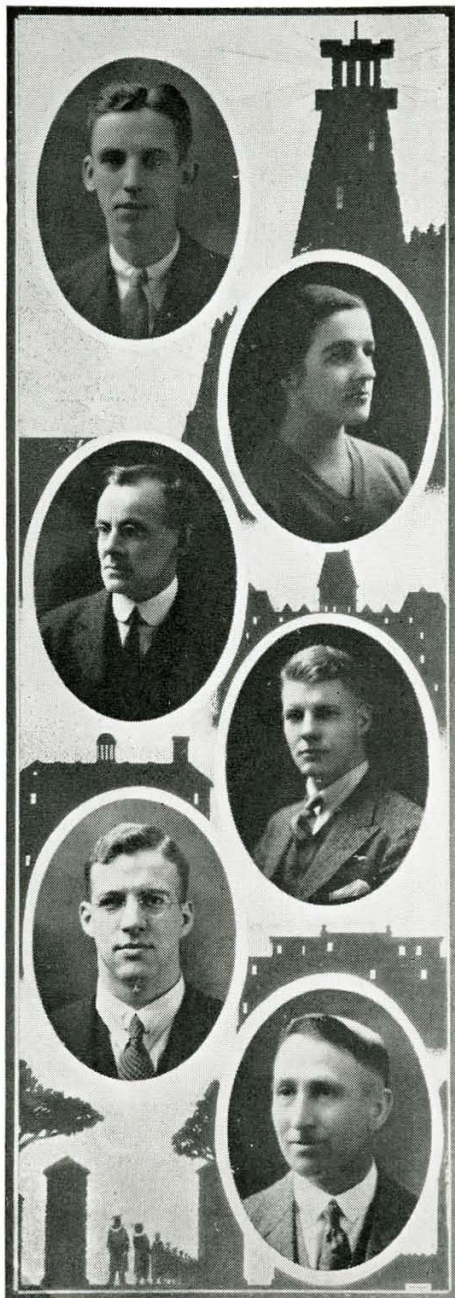

Ab, the Head Football Coach, has been helping the Tigers, for the past three seasons. Formerly he devoted his time to looking after the forwards but this year he was in complete charge. Ab is a former star of Dalhousie and made the trip to the Coast in 1927. In his playing days he had the reputation of "always being in there fighting" and anyone who saw the Tigers play during the past season will realize that Ab instilled the same spirit in his charges.

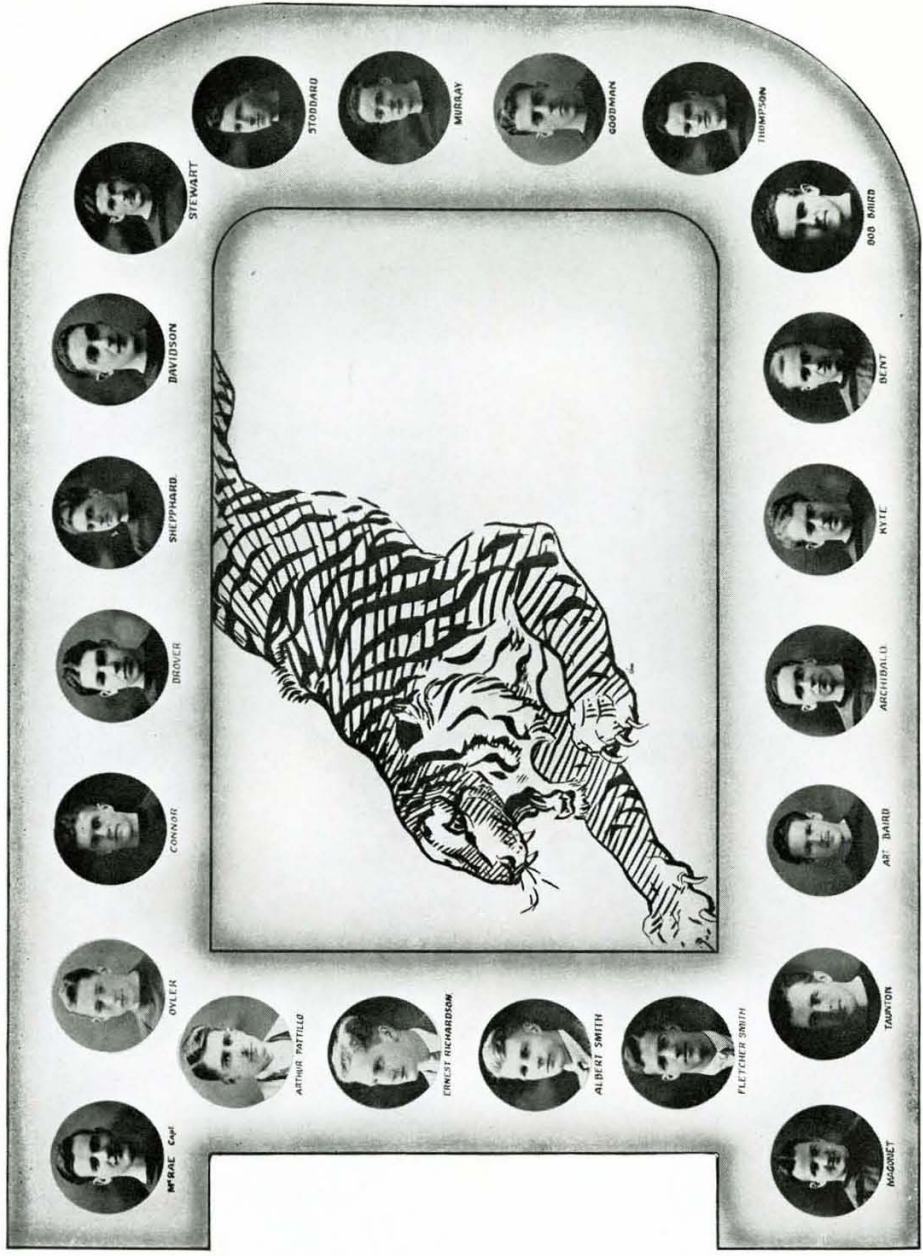

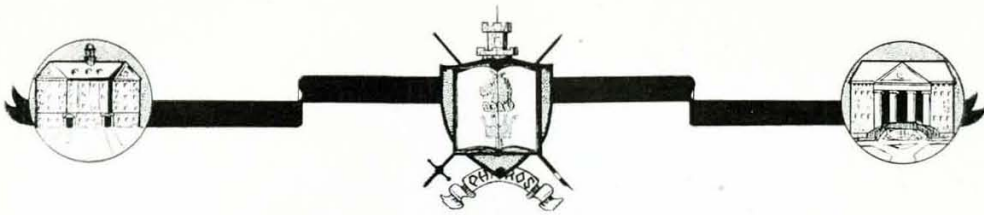

FLETCHER S. SMITH

Fletcher, the younger brother, is also a former Dalhousie star and after graduating played for our old rivals, the Wanderers, for three years. This year he returned to Studley to help Ab build up a championship team. Fletcher's activities were linked up particularly with the forwards to whom he taught the fine points of scrimmage work. The new players, in particular, found him a very patient and tactful coach.

W. EDGAR STERLING

One often wonders how Mr. Sterling so capably handles the great variety of activities in his care. Physical training for the football players and coaching the wrestling and boxing teams are only a few of the athletic activities which he directs. Our physical director has this year begun a general class in physical training and three evenings of each week he may be seen in the lower gym directing physical drill. Mr. Sterling has completed another year of valuable service to Dalhousie athletics.

Football

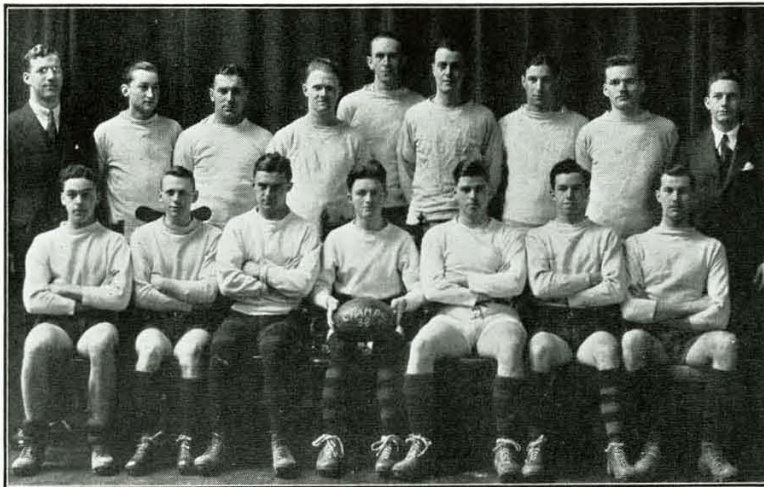

For the first time since 1929, Dalhousie won the City Senior Football Title—and for the first time in many years the Wanderers suffered two successive defeats from the claws of the Tigers. Much of the credit for this splendid showing is due to the Smith brothers—Ab and Fletcher, who were tireless in their efforts to develop a championship team.

Practices began early in September, and a pre-season trip to Mount Allison and Fredericton put the team in far better condition to start the City League than in seasons past. Injuries received in the initial game almost ruined our chances for the title. For over three-quarters of the game Dalhousie suffered the loss of one of its best players. But the final score of 3-0 was in favour of Dalhousie, much to the chagrin of the Wanderers. Two weeks later the Tigers again defeated their Redland opponents 3-0. A penalty kick by Davidson in the dying minutes of the game brought victory to Dalhousie.

The return of Acadia to the League, after an absence of a year, did much to stimulate greater interest. However, it was most unfortunate that the final play-off game was forfeited by the Wolfville squad because of their decision to participate in the Intercollegiate play downs.

Having been awarded the Championship of the City League, Dalhousie journeyed to Cape Breton to play Caledonia for the Provincial title. Much to our sorrow the Cape Bretoners were too much for the Tigers.

The season saw the development of several new players, and the prospects for a championship team, as the curtain came down on the 1932 season, never looked brighter.

RICHARDSON, T. CREASE, FORBES, McLELLAN, STODDARD (*Capt.*),
DUFFUS, D. CREASE, ROWLEY

Intermediate Football

The CUBS came into their old glory again this season by winning the Halifax Intermediate League without a loss. At the beginning of the season it looked as if the team would not come up to previous standards because of the small number that turned out to practice. With the excellent facilities now available at Dalhousie it is hoped that many more will turn out next season. Coach Fletcher Smith gave unsparingly of his time and ability. Despite the fact that the team was broken up several times, because of the casualties of the Senior Team, the splendid spirit of the team, together with the coaching, brought another Intermediate title to Dalhousie.

(Physical Director)
R. COUSINS-HIX, L. PETRIE, G. HOWSE (Mgr.), E. HOUSE (Capt.),
R. SCQUIRES, S. PARSONS, R. WALTON

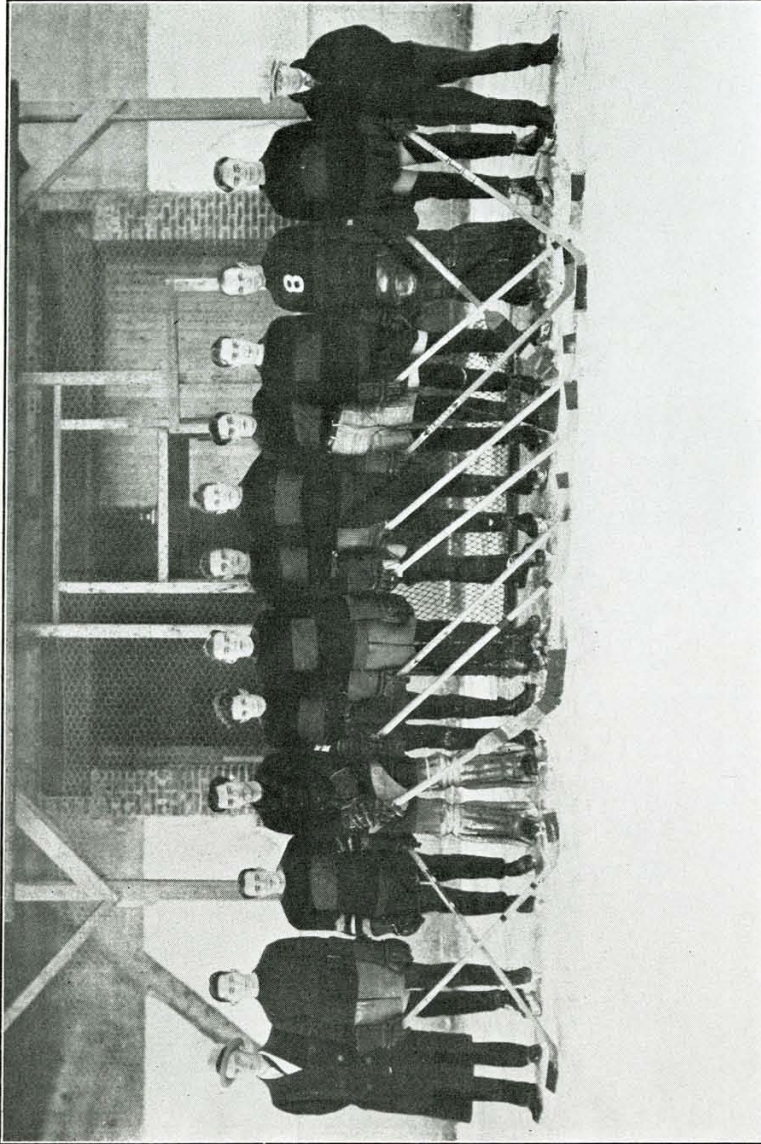

Soccer

A number of students interested in Soccer met at an early date in the Fall term to discuss the possibilities of forming a Soccer Union. Supported by Charlie Anderson, the President of the D. A. A. C., and Mr. Stirling, Physical Director, they made application to the Students' Council for financial backing. The Council agreed, in consideration of this request, to furnish sufficient funds for the formation of a team. Admission to the Halifax City Soccer League was sought and obtained.

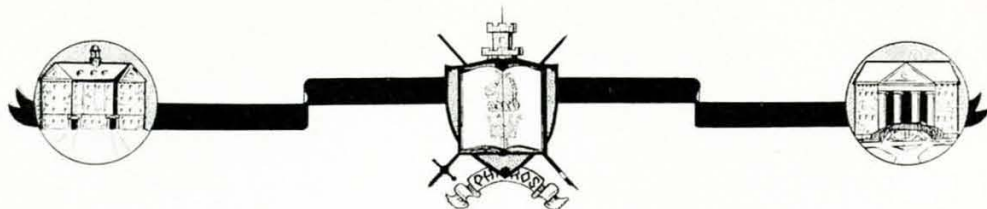

Many difficulties immediately presented themselves. All satisfactory hours for practice had long since been taken by the Rugger teams from Dal. and King's. Nothing daunted, the boys turned out for training from seven to eight in the morning. Another serious handicap was the absence of regulation goal posts from the campus. This was not only a serious drawback in the practices but also meant that all games had to be played on inferior and less favourably situated fields.

The series was never completed owing to the inclement weather conditions which prevailed in the Fall. Out of six games played, the Dal. eleven went down to defeat but once, when in their first game, after but little practice, they were nosed out of victory by the St. George's Aces, which team they later defeated in the second round. Apart from this defeat and one scoreless draw—the result of a game played with the R.C.N.V.R. in a literal hurricane—the Dal. eleven won very decisively.

This was but a beginning. With further support from the Council they hope next year to begin earlier and to form an Inter-Collegiate League with Acadia and Mt. A. and also to aim at the Maritime championship.

Left to Right—Teasdale (Manager), Oxler (Coach), Cook, Pistone, Bryant, Stanfield, Brennan, Connor, Ellis, Smith, Purtil, Bent, Payne (Trainer)

Hockey

Hockey at Dal. this year had a very successful season—due in a large extent to the fact that the college was represented by a team composed entirely of undergraduate players. This change was brought about as a result of the decision of the executive of the D. A. A. C.—that a team eligible for intercollegiate hockey should be formed. The season has shown the wisdom of this decision—the college being represented by one of the strongest teams in recent years.

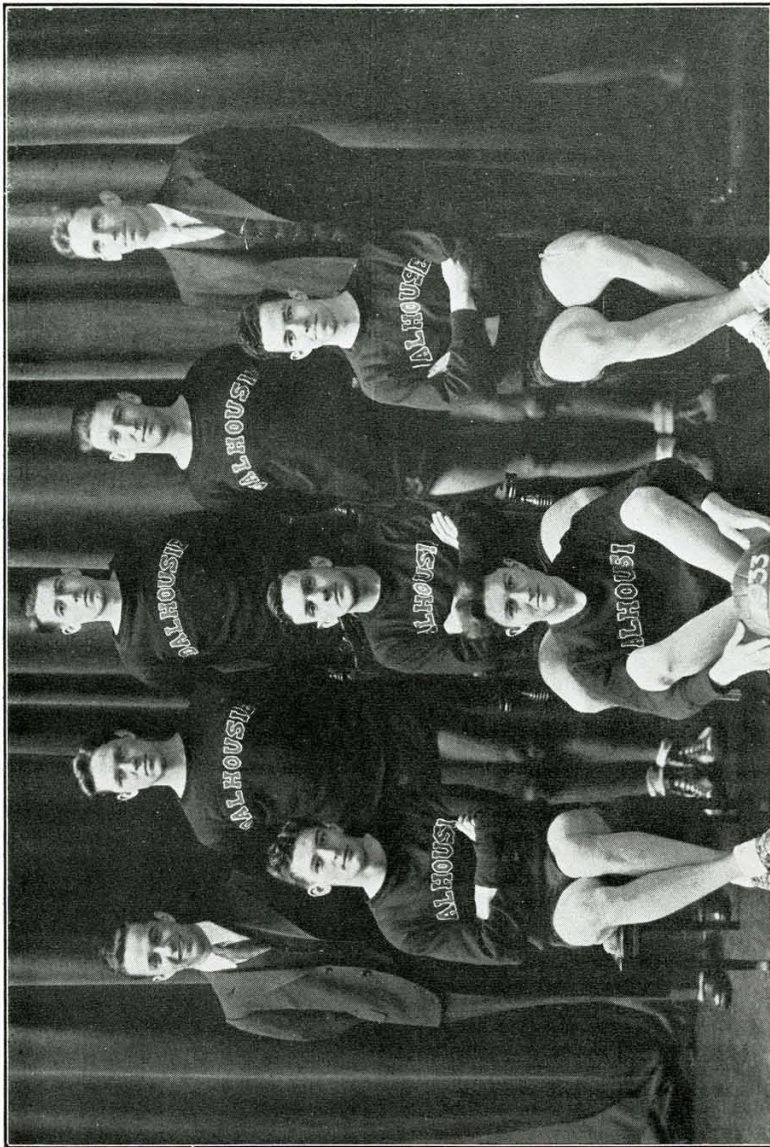

The season started with only four of the previous years squad available, Ken Pur-till, Max Brennan, Doug. Ben: and Hal. Connor—with these players and the new additions to the squad, a team was developed which was beaten only in the closing minutes of the play-off game for the city intercollegiate title.

A trip was made to Wolfville during the season and although the team met with defeat it was felt that on a good sheet of ice there would be little difference in the strength of the two teams. A return game in Halifax with Acadia unfortunately could not be arranged due to the play-off schedule.

Prospects for an intercollegiate hockey title next season are exceedingly good since the team will remain practically intact.

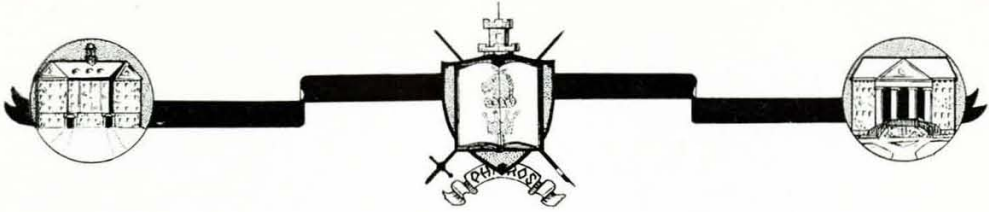

Great praise is due to Potter Oyler who coached the team and much of its success was due to his untiring efforts. The following games were played:

St. Marys	5	Dalhousie	4
St. Marys	3	"	1
Kings	1	"	2
Tech.	1	"	2
Acadia	4	"	1

Stewart, *Mgr.*, Green, Ells, *Coach*
 O'Brien, Fairstein, *Captain*, Crease,
 Musgrave, Anderson,
 Stoddard.

Absent—Mandelstam.

Senior Basketball

Although the Tigers did not annex the City League title, a most successful season has been concluded. Dalhousie and Wanderers were tied for first place at the end of the regular schedule but the Tigers lost out in the play-off series by a comparatively small margin.

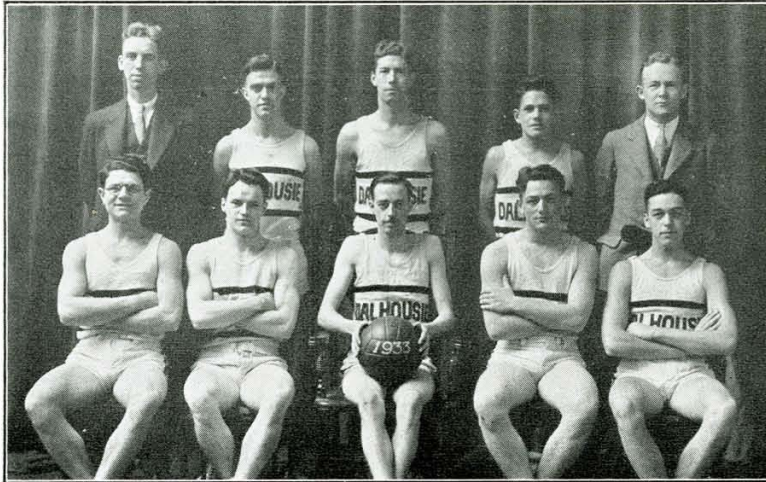

During the season Dal. lost but five of the seventeen games played and was defeated only once on their home floor.

The season began with only three of last year's squad as a nucleus but it was not long until a smooth working team was organized. With seven of this year's team returning to Dal. next fall a most successful season is predicted for basketball next year.

The success of this years squad was due in no small way to the work of Professor Ralph W. Ells who spent considerable time coaching the team.

THE SEASON AT A GLANCE

Dal. vs. Kings	D.	23-16	Dal. vs. Mt. A.	D.	35-29
" Tech.	D.	31-24	" Wanderers	W.	35-44
" Y.M.C.A.	D.	33-21	" Tech.	D.	55-7
" Kings	D.	42-21	" Y.M.C.A.	D.	34-28
" Tech.	D.	49-23	" Acadia	D.	54-31
" Mt. A.	Mt. A.	30-46	" Tech.	D.	40-31
" Wanderers	D.	29-24	" Acadia	A.	43-50
" Y.M.C.A.	Y.	31-35	" Wanderers	D.	38-32
			Dal. vs. Wanderers	W.	27-41

ELLS (*Coach*), SULLIVAN, CLARKE, MCINTOSH, ELKIN (*Mgr.*), DUBILIER, THOMPSON,
MACDONALD (*Captain*), GAUM, CREASE *Absent:* McRAE, RICHARDSON

Intermediate Basketball

The Tigers, undefeated on their own gymnasium floor, have this year captured the City Intermediate championship.

At the beginning of the season indications did not point to a championship team but, due to the untiring efforts of Coach Ells together with the cooperation of every one of the players, the team came through with a good margin.

The only games lost by the Dal. team were two games played in the Y. M. C. A. gymnasium. One was lost to the Y. M. C. A. intermediate team and one to the hard fighting St John's team, the runners-up to the Tigers in the league. The team is now entered in the provincial playdowns and the Acadia Intermediates are our next opponents.

BEGG ARCHIBALD EPSTEIN CONNOR SEELY THOMPSON MAGONET
MUIR, *Mgr.*

Track and Field

Track and Field activities have experienced a very quiet season. Unfortunately, the usual series of indoor meets in neighboring towns were not held this year. In past years these meets served to keep an organized team in condition. However, excellent material is available and interest is keen; so it is expected that Dalhousie will be represented by a strong team in the Spring Intercollegiate Championships.

The annual Interfaculty Meet was won again by Commerce. Honors for highest individual score went to George Thompson of Commerce; while Hymie Magoney shattered the long standing record for the quarter mile event.

No track D's were awarded this year.

VOOGHT, SAUNDERSON, MUSGRAVE, HATFIELD, SINCLAIR, MERCER, *Coach*
FRASER SAUNDERSON LUCAS SPURR
Absent—BAULD, CRICHTON

Tennis

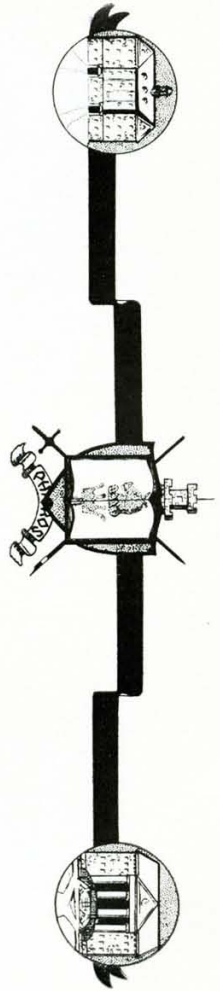

Tennis is now a major sport at Dalhousie. Little by little we are overcoming the difficulties which must befall a summer game played in October and November. We failed for the second time to complete the college tournament, and the return game with Acadia at Halifax was unplayed; but we did get together with representatives of other Maritime Universities and draw up a schedule for 1933 which definitely settles the Intercollegiate Championship on the second Saturday in October.

Dalhousie was successful in winning, for the second consecutive year, the Maritime Intercollegiate title. The final matches were played under trying conditions and it is earnestly hoped, that with the new arrangement for the fall of 1933, playing conditions will be greatly improved for our next tournament.

Tennis "D's" were awarded by the D.A.A.C. to Milton Musgrave, James Vooght, Donald Saunderson and Robert Hatfield.

Back Row: ERIC MURRAY, MRS. J. W. REID, MRS. H. L. BRONSON, MISS B. SMITH, DR. R. DREYER, BOB HATFIELD, MISS B. PELLUET,
 MRS. W. NICHOLS,
 Second Row: MURIEL LUCAS, ALLEN FINLAY, MARGARET KERR, CONNIE JOST, CHAS. CLARK, GEO. COVERT, DR. B. K. OLDFIELD,
 MISS L. HENRY, ELIZABETH SAUNDERSON,
 First Row: ROBERT MCLELLAN, MARY LEDINGHAM, LILLIAN FRASER, PROF. C. H. MERCER, MARION FINLAY, MRS. C. H. MERCER,
 ARTHUR THURLOW. Absent: VICTOR OLAND, WILLIAM HART, DR. JOHN DOBSON, MISS F. HARRIS, MISS B. WILLETTS.

Physical Department

The new gymnasium has served the student body at Dalhousie more this year than ever before. The physical and medical departments are co-operating this year whereby, following medical examination, corrective exercises are given when necessary.

Activity and interest have been evident in all branches of the department—in wrestling, boxing, fencing, gymnastics, basketball, softball, badminton, etc.

Boxing and wrestling classes are attended regularly and championships were held in both classes. Physical training classes are held Tuesdays and Thursdays with large turnouts.

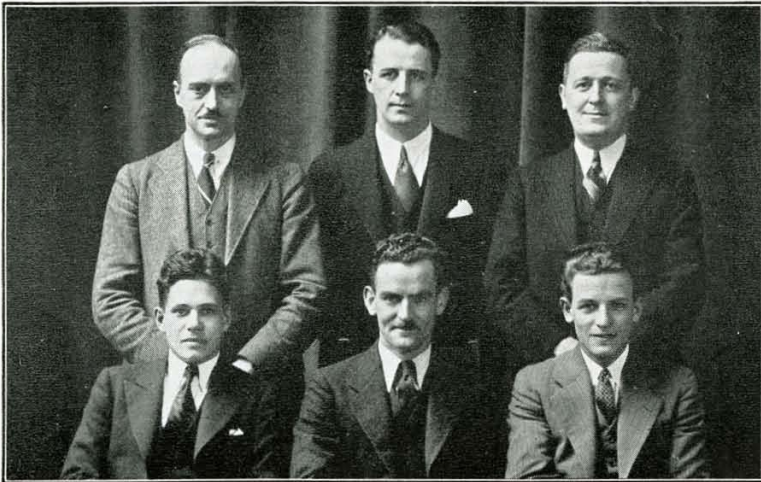

Badminton has become the recognized activity and all day the courts are filled. With teams entered in the City League for the McCurdy Cup, Dalhousie is well to the fore in Badminton.

Ping pong was introduced this year for the first time, and a strong team entered in the City League, finished well up with the leaders.

Soccer was another new and successful venture. Dalhousie were leading the uncompleted schedule for the Dennis Cup at the end of the season.

The year now drawing to a close completes one of the most successful seasons ever enjoyed by the physical department.

Interfaculty Sport

It is necessary that those who are unable to participate in the time-taking training of senior and intermediate athletics, should have some means of getting exercise. For the past few years this object has been successfully carried out through the medium of interfaculty sport.

This year there were five very keenly contested branches of sport: Football, Basketball, Softball, Hockey and Track. In the early autumn the annual interfaculty track meet was held, and proved a great success. Commerce ran away with the meet, scoring an overwhelming number of points.

In football Medicine and Engineers each won their respective sections, and after a final hectic battle the Engineers won the title.

Softball, dropped last year because of the absence of a gym., was resumed again this year. Medicine with a splendid team romped through the league without a single defeat.

Basketball has been very strongly supported, and although the league is not completed as yet, the betting seems to be on Theology.

Arts and Science in the play-off game of the hockey league upset the applectart by beating the Meds. 2-0.

MISS AILEEN MEAGHER

MARITIME AND CANADIAN CHAMPION

Miss Aileen Meagher, known Dominion wide as "the dark eyed Dalhousie Coed" and the only Maritime girl to qualify for the Canadian Olympic team. First noticed at the interfaculty track meet, she was then coached at Dalhousie, making her public debut at the Maritime championships held in July, where she won 60 metres and 100 metres in world record time.

At the Canadian championships and Canadian Olympic trials, running against the best in Canada, Aileen won the 200 metre title, and finished fifth (in a blanket finish) in the 100 metres, winning a place on the Canadian Olympic team. A leg injury obtained in practice prevented her from competing at Los Angeles.

If given an opportunity to compete at the next Canadian championships, Aileen should bring greater honors to Dalhousie.

Dalhousie Girls Athletic Club

Since the completion of the new gymnasium, enthusiasm in girls sports has greatly increased. In addition to ground hockey, badminton, basketball and ice hockey, the Dalhousie Coeds have taken up ping pong and fencing.

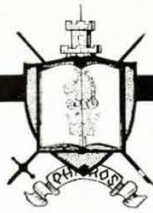

Badminton received the greatest number of enthusiasts, and many of the girls competed in the tournament held in the gymnasium in March.

Ground hockey, the only outdoor sport in which the girls participated, attracted a large number of players this year. Games were played with the Halifax Ladies College and Edgehill.

Basketball, under the direction of Miss Florence Harris and the coaching of Professor Ralph W. Ells, has made considerable progress during the past season. Dalhousie is making a strong bid for the Maritime Intercollegiate Title, and at the time of writing are tied with Acadia for first place. In this league Dalhousie plays home and home games with Mount Allison and Acadia.

The Ice Hockey team have suffered this year because of the lack of teams with which to compete or arrange games. Under the coaching of Ken Purtill, the team has shown much improvement.

The Dalhousie Coeds have taken up ping pong with a vengeance. The enthusiasm has been so great that the girls have secured a table for the Hall.

S. WINFIELD, M. KENISTON, M. WOOLAVER, B. WALKER, F. CAHAN, E. HUNT, M. SAWLER,
F. HARRIS (*Coach*), J. MCKAY, M. KERR, F. KENISTON, E. ATHERTON, M. DAVIDSON,
I. MATHESON, E. CAMPBELL, G. MILNE, M. LEDINGHAM

Ground Hockey

This year's Ground Hockey season opened, despite adverse weather conditions, with very favorable prospects. The new and adequate equipment purchased from last year, together with greater enthusiasm being shown by the old players and a growing interest in the sport on the part of the new students raised the hopes and ambitions of both players and coach. That these hopes and desires did not quite materialize was due to no fault of the girls.

Early in the season the girls made an unsuccessful invasion on the Edgehill Camp at Windsor. The defeat was due to the condition of the field and the earliness of the season. In the return game the ladies were successful in defeating their old rivals. Two games with Halifax Ladies' College completed a successful season.

Looking back over the past year the highlights are, briefly, excellent coaching, splendid cooperation between the individual players and the players and Miss Harris, and renewed interest among the students in general. These factors augur well for future success.

Girls' Ice Hockey

The girls' Ice Hockey Team completed its fourth successful year.

A game was planned with the Abbie Sisters, but unfortunately no night was available for the game.

Practices were held every Thursday from 12 to 1. A good number turned out—such enthusiasm producing a strong team.

The team wishes to thank Ken Purtil, who greatly helped them to improve by his efficient coaching.

Basketball

The girls' basketball team, owing to the reluctance of some of the players to turn out and for various other reasons, started the 1932-33 basketball season under a very severe handicap.

After a limited number of practices the Halifax City League, consisting of the Y. M. C. A., H. L. A. C., and Dal., was opened. Dal. was not successful in winning any of the games played.

In the Intercollegiate League, consisting of Acadia, Mount Allison and Dal. the fair co-eds were much more successful and succeeded in winning one game from Mount Allison, last year's champions, tying one with Acadia, and later losing by a small margin to the same team who were then leading the league. One more game remains to be played with Mount Allison at Sackville.

FRED C. PAYNE

“Red”

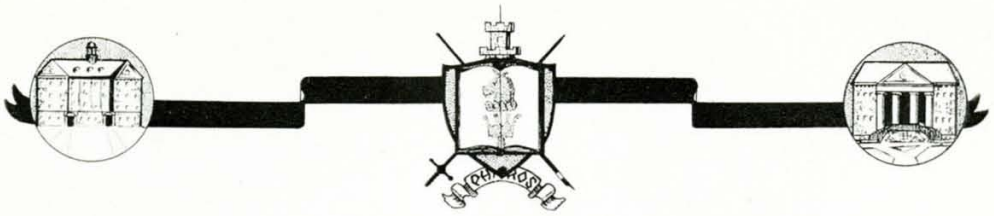

“Who is Red anyway?” comes the question and a startled upper-classman turns in amazement at such youthful ignorance of a subject as familiar to Dalhousians as Herbie’s Scotch jokes or Archie’s traditional aversion to “sweatahs.”

“See here! young fellow,” is the reply, “it is time your education was begun, “Red” is an institution of today—a tradition of to-morrow. His name is Fred C. Payne, but few would recognize him by it. A picture is necessary for identification—Take a look at this one and don’t forget it. Red received his early education at Le-Marchant Street School, and at that time began his association with Dalhousie. Many graduates of the past decade will remember a red-haired boy who used to frequent the

gymnasium and who was never too busy with his own problems to lend a hand whenever or for whatever purpose it was needed. During that period, he has grown up with Dalhousie and has become almost as much a part of it as “Mussolini” of the Forrest Building.

“Red is invaluable to the athletic managers on the campus and has taken a great burden of detail off their shoulders. His conscientious care of equipment and perseverance in its collection has made him an important cog in the Council’s system of financial control. At the same time, his friendly smile and ready wit robs this persistence of any offence.

“Whatever Red has done, he has done with no thought of personal reward, but for love of his adopted Alma Mater. Though never enrolled in our University, he has truly caught the spirit of Jimmie Malcolm—than that, a Dalhousian can pay no greater compliment. Did all Dalhousians possess the “college spirit” in the same degree as their foster-brother, our University life would be richer and fuller.”

Dalhousie University

HALIFAX, NOVA SCOTIA

Faculty of Arts and Science (founded 1818).

Undergraduate Courses leading to degrees or diplomas in

Arts	Science	Commerce
Music	Pharmacy	Fisheries
Engineering	Household Science	Education

Graduate Courses leading to Master's degree in Arts and in Science.

Has the **Professional Schools** of the Maritime Provinces, as follows:

Faculty of Law (established 1883)

Faculty of Medicine (established 1868)

Faculty of Dentistry (established 1908)

Each of these schools requires a specified preliminary course extending over two years in the Faculty of Arts and Science.

Entrance Scholarships in Classics and Mathematics.

Classics: One scholarship of \$600; one scholarship of \$400.

Mathematics: One scholarship of \$600; one scholarship of \$400.

These scholarships are open to boys only who have attended any school in the Maritime Provinces or Newfoundland, who have completed creditably Grade XII or equivalent instruction. Full particulars on request.

Other Entrance Scholarships.

Nine scholarships varying from \$300 to \$100, awarded on results of the matriculation examinations held in September of each year; one is reserved for Halifax County, Cape Breton Island, New Brunswick and Prince Edward Island.

Special Scholarships awarded to Pictou Academy, Prince of Wales College, and Memorial University College, St. John's, Newfoundland.

First, Second and Third Year Scholarships.

These Scholarships vary from \$255 to \$100, and are awarded on the results of the University examinations of the respective years.

Graduate Fellowships.

Also **University Aid** and **Loan Funds.**

Residence: Shirreff Hall, accommodates all out-of-town women students of the University.

For full information and calendar apply in person or by letter to the Registrar.

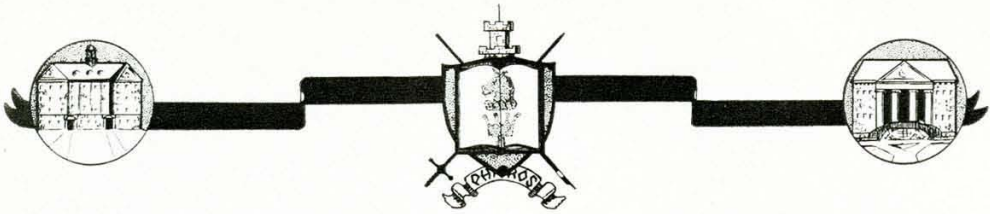

A CENTURY of
TECHNOCRACY
Beginning 1933

Oh Seer, Seer, wise and old
What does the coming century hold ?
Canst in thy magic crystal see
The future University ?

I see it all ; I see it all
'Tis clear within my crystal ball -
That by two thousand thirty-three
Will reign at Dal -Technocracy.

The glass grows clear, the mists subside
As to and fro the figures glide,
And by a magic incantation
I conjure up a Convocation.

Of Interest to
COLLEGE ATHLETES

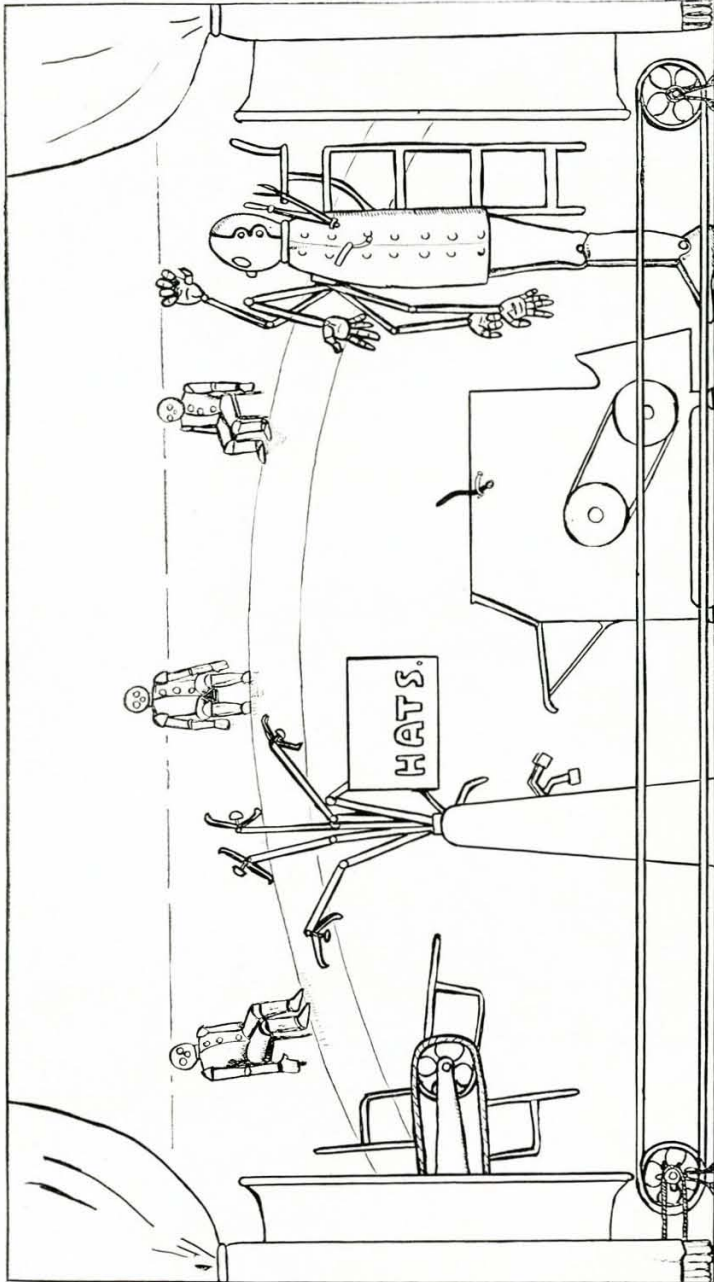

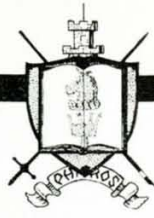

—is the fact that we carry a line of Sport-
ing Goods that is really complete.

No matter what athletic game
you may wish to equip your-
self for, it is a foregone con-
clusion that you will find all the
requisite paraphernalia here, . .
and it is GOOD equipment.

We carry the products of the World's
most famous makers.

Triumph

I thought, there is no darkness, no despair,
Unless the heart consents to let them be:
No shadows in the night, no broken dawns,
In all the years that wait ahead of me
Unless my heart consents to let them be.

One vision of the truth to keep my mind—
The truth that no man knows but all men
dream,

The sanctity of some one nameless thing
To paint the winter with an April gleam,
Love, beauty, God—the truth that all
men dream.

And grief shall be no fit defeated ghost
Before the High Illusion that I hold.
And death shall never touch the things I
love
Immortalized in the reflected gold
Of High Illusion that my mind shall hold.

MUNRO DAY IMPRESSIONS

Munro Day

A feature of this year that deserves more than passing remark is the innovation that has been made in the celebration of Dalhousie's annual Munro Day. The program of sport, dancing and Glee Club presentations that was sponsored by the Council of the Students and carried into effect through the efforts of Freddy Wigmore, Walter MacKenzie, Doug. Murray, Bob Weitz, Mr. Joe Connolly, and their many able supporters has won the unqualified approval of the student body. We dedicate this page of the Year Book to the new Munro Day in the hopes that the precedent established in 1933 will be minded and followed by the student executive in the years to come.

The Second Book of Bunc

(Wherein the Chronicler reviews the high spots of the year)

1. And the chronicler Bunc did cast his eyes in retrospect over the passing year; then did he pick up his manuscript and writ the following, yea verily.

2. Behold, these are the doings of the people of Dal in the second year of the reign of King Karel of the House of Ztanlee. And these are written in great detail in the kolumz of the Gazziett, from week unto week.

3. Karel is king; and the noble Hekktor is Doyen of the men of state, yea the Govers of the land; and behold these are but some of the princes, Gerrhant of the strong tribe of Med and with him the chieftain of Histol, Beeyehen; Seed-Nie of the learned Law tribe and with him the Scribe Hor-yiss; Jeekaye of Thomp and the son of Bagnall amongst the men of Dent; the Beeg Jeeyim of the tribe of Comm; and Mur-ree of the Makkneel clan who picketh the many subjects out of the air and throws fear into the hearts of the Frosh and each year casts the people into the power of the Harper. Woe unto them whose shekels are not forthcoming for saddened will be their dwelling in the land.

4. And the beloved Howard is no more and Arch the strong-hearted Macmech has drifted from the people. But there is still there the son of Bennyett of the English domain whose flowing words bewilder the people unto apathy and sleep, yea in the Kemistree amphitheatre; and in the halls of Edd-Ukk-Ashen, which meaneth in the vernacular emptiness and disappointment there rules another great Smeet, this one who is known as Seeweelsin; and is there not at Stud too the mighty Herbyee and in the rescesses of the Forrest, Ronyeld, youthful son of Haze, captain of the ranks of the Premeds. Forsooth there are many more princes but are they not to be found in the kolumz of the Gazziett, yea, in the Book of Bunc.

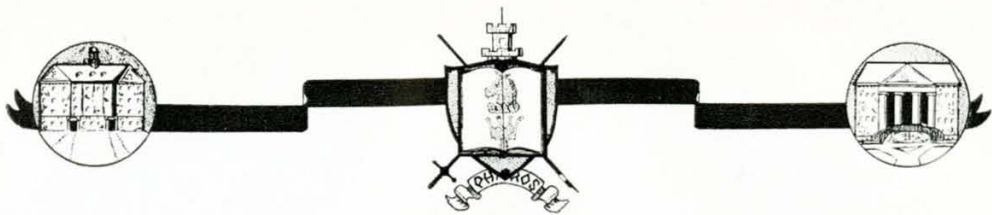

5. And the Frosh came up into the land. And the king said unto them, Welcome, oh youths of Dal. And Walter the Fat, ruler of the Council of Studes cried, Welcome. And behold Duhugg of the Glee Kloob and Potter of Zodal and other leaders in Dal came up and welcomed the Frosh and there was rejoicing in the geem.

6. But a struggle soon arose between the ranks of the Frosh and they of the Soffes and there was a huge paddling in the geem and shouting unto the heavens and a throwing of fruits and streaming of 'Paper' in the Garhick and lo, many of the people of Dal were wroth indeed and he of the Macmech tribe wailed, alas what has come unto the land of Dal.

7. And the warriors of the Grid brought fame unto their people and they destroyed the heroes of the Wand. Yea, there were among the warriors Davey, and Gore and Potter and Koll and Drover and the Stodd-Yard and many others and lo, the land of Dal was proud of them and the king came to them in the geem and spoke unto their hearts and Pattyllow the chieftain rejoiced.

8. And among the debaters of Dal during the many months of the year were Reechyerd the Zkwire and the youth Hawkkow, both from the frosty regions of Newfo; and there was the Makkartee who speaks ceaselessly, both knowingly and alas otherwise also; and the females Bettyee of Mah-Retz and the singer Krandeeyall. And there were others but of them it is writ elsewhere.

(Continued on page 170)

The WOOD BROS. Co., Ltd.

The Second Book of Bunc

(Continued from page 168)

9. Behold the contests at Kreensmiss resulted in great slaughter amongst the men of Dal and alas the pruning sword of the Profess fell mightily amongst the people and there was a wailing and a tearing of hair and a clattering of letters from the Komteece of Studyeez.

10. But great happiness came this year to the dwellers of the fortress of Shee-Reff-Yawl, for lo, there came an end to the Heyash and the steaks that were served unto them of the Breyish navy and Deeyiksen was defeated forever more, yea verily.

11. And the king ordained that there shall be lectures in the geem. Therefore when the halls of the Sturrleng were not used by Zammee and his men of the Bask or by the wise Mursare and his followers of the Badmin, then was the voice of learning, yea of the sciences and the arts and laws heard in the geem.

12. And the people flocked in great numbers to the forum and cried aloud give us a show, we wish a Glee Kloob show for behold we have not had one since they of the Noominn performed for the people. Then arose Duhugg and Bobbie the Whyitche and they called together the minstrels of the land and a mighty production was given unto the people and there was revelry and sounds of Minnie the Mootcher and Brudder, can ye spare a dyemm with Boddeeyensole by the singer Krandeyall.

13. For fame came this year unto the Daniel of the Wall-yiss clan who is a mighty son of Dal and behold he will journey unto the far away shores and become a Rowdez Skollyir. And Gordyin of Kowhen who lived with the men of law, he too will don the attire of the Rowdez Skollyir.

14. And the giant forces of the Toryeez who were led in battle by Pattyllow, the disciple of Be-Net were defeated by the Leeberalls under the guidance of Teecee of the Makkdonald clan. Behold there was great rejoicing amongst the people and Pattyllow will be silenced for evermore.

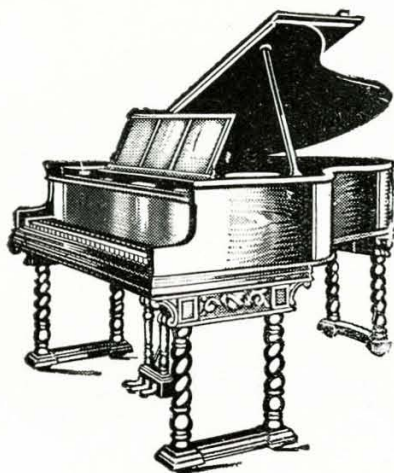

15. And the angry voice of Walter the Fat came upon the people and he cried, there shall no longer be smoking within the halls of the land of Dal, and the people muttered amongst themselves but went to the recesses of the Forrest.

16. And there came forth many in the kolumz of the Gazziett and said to the people put me in office and behold I shall do this and that, yea verily, but the chronicler said unto himself is all bunc, year in and year out.

17. Lo, there come up from the hills of Stud the youths of a year or two in the land and say unto themselves, we can govern the people. Behold it is mockery. Let there be many from the tribes of law and med in the council of studes and less of the childishness in the government of the people. Behold the rule of Stud has lasted too long.

18. And now the contests with the Profess are with us again and verily the time has expired. Thus did the chronicler lay aside his pen and manuscript * * *

(As told to J. Louis Dubinsky)

Good luck in your stars who have read these pages
And come at last to the story's end,
Good hope in your heart, good wealth in your pocket,
A happy love and a loyal friend.

And when the years, in their happy passing,
Have brought you their wealth of sun and rain,
May you find a quiet hour for turning
Back to this tale of youth again!

Appreciation

Some years ago we offered the students of Dalhousie University a special service at a special price. It has been a source of gratification to us to note the number who have used this service each year while attending University.
