DALHOUSIE UNIVERSITY

HALIFAX, N. S.

The College by the Sea

FOREWORD

To the mariners of the ancient world, Pharos was an ever-clear and ever-shining beacon and guide. The waters of the Mediterranean were vast and wild and unknown, and over them he who had to travel travelled in fear and trembling. But brave them the sailor did, until he proved the monsters of the deep existed only in his imagination, until he overcame the terrors of the immense ocean, and until he opened a new world beyond the borders of the little world he had known, attaining courage after great fear, peace after great struggle, and a new world for an old.

To modern times a beacon is as necessary as it was to the sailors of the storm-tossed Mediterranean. We may have found ours in a college education: in these distressing days, that men and women can still cultivate their minds in comparative peace and seclusion may be the beacon-light to the future. The glimmer of that light yet unextinguished, although many lights have been dimmed, and the hope for that light when many hopes are dead, are signs that the future may be brighter than the past, and infinitely brighter than the present. If in a liberal education we have found our Pharos, it will be at once a tower of strength, and a guide to a brighter life. The ancient Pharos was a concrete reality, a light that storms could put out, and vandal hands destroy; this our modern Pharos is a light shining within each of us, burning inextinguishably while we give it fuel, and, for those who want it and cherish it, burning endlessly, burning steadily, and burning ever more brightly.

DEDICATED

To the memory of those Dalhousians whose death in The service of their country it is our sorrowful duty to record in this issue.

In Memoriam

Dr. Dixi Pelluet, Honorary President of Class of '44

To the Graduating Class of 1944

It is remarkable and gratifying that graduations can still take place in the traditional way, in the fifth year of war. You are a highly privileged group of people, because for four years you have had the freedom to form human friendships, and in addition the opportunity to find lasting pleasure in the ideas of the past and the present. Because of this opportunity, which is available to only a small part of the population, you are faced with a great responsibility, which does not devolve on people less fortunate than you. Your university training should be reflected in your intellectual integrity, tolerance and willingness to assume responsibility. These are qualities sadly lacking in a world which would be depressing to contemplate, were it not that one can expect people like you to contribute something to its improvement.

Au revoir. The best of luck!

Carleton W. Stanley, M.A., LL.D., Litt.D., F.R.S.C.
President of The University.

MESSAGE FROM THE PRESIDENT

Your period at the University has perhaps fallen more completely within the time of war than has been the case with any other graduating class. For the most part these of you who graduate this year have done so because you were under government orders to remain at certain special studies. The great diminution in numbers of students in Law and the Humanities is clear and even eloquent testimony to that fact. The irony of the situation is that it is for Law and the Humanities, in the last analysis, that we wage this war.

There is therefore some difficulty in addressing you a valedictory word. It has been a restive period in your lives, and often a very anxious one. You have not known, as others classes have, the full joys of college days. Almost every one of our buildings, almost every corner of the campus, have been crowded with military activities, and in this city which has up till now been the great funnel for the Canadian war effort, many of you have found it difficult to find a lodging, or to secure adequate meals.

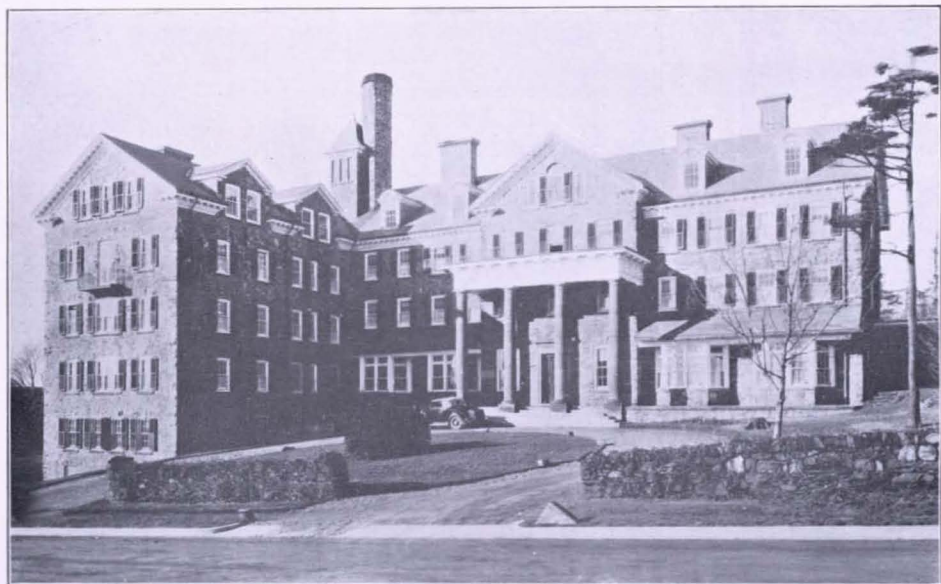

The other side to the medal is that seldom, if ever, has a class made so conscientious a use of opportunities as you have done. Not for decades has the tone of the students' newspaper been so high as in the last two years. And these observations lead me to believe that the resilience of youth has been asserting itself, and that in the days to come you will think you had as goodly a portion as most generations have. For the mates and friends you have lost in the great struggle, there can be no compensation. Yet their memory will be hallowed if each of you try as best you can to make good their loss. It does not follow that a medical practitioner is less interested in justice and public decency than a lawyer. An engineer, rigorously trained, as he must be, in mathematics, should be able to trace a **non sequitur** in a political statement, even though he lacks a training in history and logic. Unquestionably there will be a gap in our development—and this is true the world over—because of the gap, now a quinquennium long, in our education. If we are all sharply aware of this, we can help to make it good.

So much has to be done. Our schools, our newspapers, our municipal government, our public health, our amusements even, public libraries, music, art,—this sounds like a list of diverse interests, and diverse opportunities of service, on the part of educated men. But truly they are merely aspects of one thing: "the good life."

Speed you well! My best wishes to each one of you.

CARLETON STANLEY, President.

June 28, 1944.

SHIREFF HALL

ARTS and SCIENCE

Life Officers for Class of '44

JEAN MacDONALD LARRY SUTHERLAND SUSAN MORSE
Vice-President President Secretary-Treasurer

PHAROS

BACHELOR OF ARTS

BARBARA MARY ALLEN, Halifax, N. S.
"It's nice to be natural, when you're naturally nice."
Bobby is another graduate of H.C.A. who arrived at Dal. as a Sophomore. Her chief interest is French with Psychology a close second but she has found time to belong to Alpha Gamma Delta, Fraternity, to take part in the Frosh Show and play Badminton. Bobby is also devoted to collecting Pop Bottles—We'll miss you next year in the Gym Store, Bobby!

DONALD BECKLEY CORRINGHAM, St. John, N. B.
"The rule of my life is to make business a pleasure and pleasure is my business."

After two years at U.N.B. where the women adored him, Don came to Kings to combine Arts and Divinity. A brilliant student, he has won many scholarships and his prominence in extracurricular activities has won him his Gazette Gold "D" for his work as cartoonist, and his felt "D" for Badminton. In the Munroe Day Show, he collaborated on the script and took the male lead, in which he displayed his golden tenor voice. Another year will see the culmination of his Theological studies, and from there, who knows?

JOAN DUSTAN ARCHIBALD, Halifax, N. S.

*"She is just what a friend is, who better report,
A girl, a student, a friend, a good sport."*

"Archie," a graduate of H.L.C., arrived at Dal with her repertoire of songs and her leadership ability. She has been very much interested in the Glee Club, being Vice-Pres. this year, and having taken part in the Frosh Show and no less than three plays. She has been a member of Midlothian, on the Delta Gamma Executive and was Sect.-Treas. of Arts and Science. This year she was Pres. of Alpha Gamma Delta, and last but not least the very able Pres. of S.C.M. Archie's interests are indeed varied but you've ever heard her sing (and who hasn't) you can visualize no other field than—say, journalism.

KIRK LINCOLN FELTHAM, Deer Island, B.B. Nfld.

"Whatever the superior man seeks is in himself, what the small seeks is in others."

Before entering college, Kirk taught school for two years and preached on a mission field for another two. Two years of Kirks University work were done at the Memorial after which he came to Dal in '42. Kirk is of a mild amicable disposition which bids fair for his work as a minister of the United Church of Canada, for which he plans to study at Pine Hill. Good luck, Kirk.

PHILIP CHURCHILL BOWER, Upper Ohio

"He sits high in all the people's hearts"

Receiving his matriculation at H.C.A. Philip entered Dal, from which he received his B.A. this year. A conscientious student, Philip has reached his goal despite many obstacles.

KENNETH MARRYATT FINDLEY, Halifax, N. S.

"God offers to every mind its choice between truth and repose. Take which you please, you can never have both."

Pope Findley, a native Haligonian whose youthful wanderings took him far afield, has had an intermittent career at Pine Hill. His abilities were fittingly recognized by his election (by acclamation) to the Papal Chair of the Pine Hill Students Council, where he has become justly famous for his scintillating bulls beginning "Gentlemen, I wish to draw your attention to the following announcements: A likeable chap, an interesting personality, Ken will make a name for himself in his chosen profession, the Ministry.

DAVID FREDERICK COLDWELL, Hantsport, N. S.

"So much one man can do"

Since coming to Dal from Hantsport High, Dave has won an astounding array of honours, High Honours in English, a Regional Scholarship, Hector McInnes Memorial and MacKenzie Scholarships in '42. The Bruce Bursary in '42 and the I.O.D.E. Scholarship for two years. Besides these, Dave won a Gazette "D" in '43 when literary editor. He was Sect. of S.C.M. in '42 and '43 and Corr. Sect. in '44, belonged to the Halibut Club and last but not least to the C.O.T.C. With such an array of accomplishments, Dave indeed merits our prophecy of a successful career.

HOWARD SCOTT GORDON, Halifax, N. S.

"Some are and must be greater than the rest."

Scottie received his B.A. this year with Honours in Public Administration, Honouring in Economics, Scottie won the Muskrat Memorial Prize in '42. Taking great interest in debating, Scott was on The Intercollegiate Debating Team, and this year received his Sodales Gold "D". He was an active member of Tau Epsilon Phi Fraternity in which he was debating manager '42 and '43 and Pres. '43 and '44. A good start Scottie we expect big things of you.

LOUIS WILLIAM COLLINS, Halifax, N. S.

"He hath a natural wit sincerely."

Lou arrived at Dal. from H.C.A. to major in English and his interest in this field may be exemplified by the fact that he was literary editor of the Gazette this year. Lou is a Corporal in the C.O.T.C. but if you're looking for him, ten to one you'll find him in the Gazette office.

GEORGE STEWART HAWKINS, Milford Station, N. S.

*"Work and worry have killed many a man
So why should I take a chance."*

George, "The Hawk" sailed into Dal from Colchester Co. Academy in '41. His academic career has been concentrated in the realm of economics. His extra-curricular activities have ranged from debating to arranging the football trip to Acadia and being a member of the Convocation Committee. The Hawks dynamic personality have won him many friends, especially at Pine Hill.

PHAROS

LUDWIG ROBERT KAHN, Halifax, N. S.
"Much do I know but to know all is my ambition."
 Bob with his amazing intellectual ability came to Dal. from Leipzig where he attended the Gymnasium there. His brilliant scholastic record becomes even more worthy of admiration when you realize that two years ago he knew next to no English. He majored in Philosophy and History, and is most often seen in earnest consultation with Dr. Stewart. Bob plans to go on further in the field of literature and our best wishes go with him.

RUTH LEAH PATON, Halifax, N. S.
"A smile for all, a greeting glad."
"A lovable friendly way she had."
 Ruthie is an amazing little girl who came from Bloomfield High and ever since has been cramming her lively red head full of big words to do with Public Administration. She received The Public Administration Scholarship and has also got Honours in this subject. Liked and admired by both Profs and students, we know she's headed or big things in Ottawa—and later with Tommy.

FLORENCE MARY MACDERMID, Baddeck, N. S.
"For she was just the quiet kind."
"Whose natures never vary."
 Flossie is a gentle lass with more than a wee bit of C. B. humour. She came to us from Baddeck Academy and majored in English and History. During her stay she found time to be Senior Representative on Delta Gamma, Librarian, on Shireff Hall House Committee, Sec.-Treas. of Cercle Francais. Thought to be 'right nice' by everyone, Flossie is certain to do well in the future.

WILLIAM FRASER PROUDFOOT, Wabana, Newfoundland
"My way of joking is to tell the truth."
"It's the funniest joke in the world."
 Bill came to Dal after finishing two years Arts at Memorial. An open mind, a keen insight into the interplay of social forces combined with an understanding of the nature of man, has made Bill with his wide background of general reading an interesting personality in any focus. In another year Bill also graduates in Law.
"Good Hunting Bill."

SUSAN LONGLEY MORSE, Paradise, N. S.
"The brightest distinction is service to others."
 And in recognition of her service to Dalhousie, Sue this year received The Malcolm Honour Award. Entering Dal in '41 with a Regional, she kept a high scholastic record. Her contributions to Class and Campus Activities were many: Delta Gamma, Sec. Treas. '43 and Pres. '44, Pres. of Shireff Hall House Committee, Vice-Pres., and Treas. of Pi Beta Phi, Social Chairman of Midlothian, on Students Council. She was Vice-Pres. of her Class in '42 and is now the Life Sec.-Treas. A dependable member of the Glse Club, she took part in the 3 Act in '42 and in the Pi Phi one act in '43-'44. She received an Honorary Council "D" this year. To a gracious and gifted girl our most sincere wishes for a future as bright as her days with us.

THOMAS NORTON ROGERS, Charlottetown, P.E.I.
"His place we may not well supply"
"Though we among a thousand try."
 We could tell you a lot about Tommy's history; that he graduated from K.C.S. has won a King's Record K, that he has played interfaculty football, hockey and basketball. That he was a member of the Quinetian Society and Haliburton Club. That he was treas. of King's Student Body in '43, Class Representative in '44, took part in the Three act play in '42, was circulation manager of the Record for 3 years, was a Lieut. in the C.O.T.C. But these accomplishments do not tell the cheerful obliging conscientious person Tommy really is. This year he won The Bob Walter Award at Kings, a proof of the esteem in which he is held by his classmates.

STELLA LILLIAN MYERS, Dartmouth, N. S.
"A little mischief now and then."
"Is rebuked by the best of men."
 Stella came to Dal from Dartmouth High and there is no one on Studley who doesn't know her. She is an active member of the Classics Club although a Commerce Claims meet of her attention. She is a member of the Commerce Society and was Vice-Pres. this year. Stella's favorite haunt is the Gym store where her familiar screams of "Agony, Agony" will be missed.

ABRAHAM SCHWARTZ, Halifax, N. S.
"Malum in parvo."
 Abe came to Dal from Bloomfield High in '41 and is leaving here this Spring with a B.A. having majored in French. The Library is his hangout and "How's Everything" his way of saying "Hello."

EDWARD JOHN SHIELDS, Windsor, N. S.
"He hath wit and wisdom and a spark of spirit."
 Kings College was a staunch supporter when Ted arrived. Since then he has won the Stevenson Scholarship, Kiaki Exhibition, Welsford Testimonial, Bishop Binney Prize, a Kings Record 'K' and a Gazette 'D'. He was an active member of the 'Quinetian Society' and Classical Club, secretary of the Haliburton Club in '42 and '43 and a representative on the King's students Council. In the Gazette Staff, Ted was News Editor, Managing Editor and finally Editor in chief. The lad with the mischievous twinkle and dry humour—ladies and gentlemen—we present—Shields!

PHAROS

EDWIN CLIFTON STURGE, Gloverton, Bonavista Bay, Nfld.

"Silence is the counterfeit of Wisdom"

Cliff is another of the ubiquitous grads of Memorial University College and receives his B.A. from Dal this year after excellent work in Philosophy. He filled with great competency the office of scribe on the Pine Hill Council and is a prominent member of the Theological Society. Most of his days are devoted to the pursuit of knowledge; what he does with his nights is unknown.

FREDERICK SAVARY TAYLOR, Rothesay, N. B.

"He's always good-natured, good humoured and free."

Rothesay Collegiate school sent Fred up to Kings with an Alumni Scholarship. Majoring in History he has continued his industrious academic career, winning the Bishop Binney Prize in '42 and the Crawford Memorial Prize in '43. He was an active member of Quintrilani, Treas. of the Haliburton Club, Senior of the Junior Class and business manager of the Kings College Record. It is fine work in these offices coupled with his genial personality has given him the admiration of a friendship of both Kingstons and Dalhousians. He hopes to return next year to the Law School.

INEZ SMITH SUNDERLAND, Regina, Saskatchewan

Inez came to the 'College by The Sea' from Lister Collegiate, Ottawa, and has been an outstanding figure on the Campus for a number of years. She won her Gold D for Basketball and for her work on the Gazette. She was Arts and Science Pres. in '40 and '41 and a member of the Students' Council for 3 years. She took part in the Frosh Show and wrote Arts and Science plays. She edited the '42 Year Book and the Students Directory in '44. We wonder how she found time but during her absence last year she was married. You leave us gasping Inez but we can still say "Best of luck."

FREDERICK THOMPSON, Sufield, England.

"Service to others pays its own reward in self-esteem."

From England, Fred came to Newfoundland where he completed two years Arts at Memorial. Arriving at Dal., he majored in History and will receive his degree this year. Our best wishes go with you Fred, in whatever you do next.

DANIEL LAWRENCE SUTHERLAND, Pietou, N. S.

"I am constant as the Northern Star."

Larry came to Dal from Pietou Academy bringing with him a Regional Scholarship and the Pietou Academy Scholarship. He was unanimously elected Life President of the Class of '44, a tribute to his popularity. He is also a member of Sodales, of Phi Rho Sigma and Senior Representative on the Students Council. He distinguished himself as Editor of the '43 Pharos and has been attached to that popular Pine Hill Journal, The Pepper Box. A student in first year medicine, his year he receives his B. A. and will go far in the art of healing.

ANNE ELIZABETH WALKER, Halifax, N. S.

"Her mind is like a sun-dial"

"It records only pleasantness."

Anne came to Dal from the Convent of the Sacred Heart as a Junior. Since she has come here she has been an active member of Pi Beta Phi Fraternity being Social Chairman '42-44. She has Social Manager of Delta Gamma '43-44 and was a member of Michigan. Perhaps Anne's most outstanding trait is her charming personality and her ability to get on with people. She was Editor of Pharos this year and also received an Honorary Council D. Best of luck, Anne.

GUY FRASER BELBIN, Grand Bank, Nfld.

"From the land of fish and fog—but nice anyway."

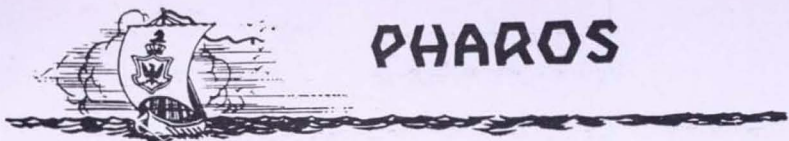

Guy came to us from Memorial University College, entering Dal as a Junior. He immediately turned his attention to Math, with a bit of harmonizing on the side, being this year an active member of the Pine Hill Quintette. We have calculated by means of the various mathematical devices in which he delights, that Guy will succeed in whatever he does.

ABRAHAM SHEFFMAN, St. John's, Nfld.

"A little work—a little play."

Memorial's loss was Dal's gain when in '42 Abe arrived with his cheery grin to get a B.A. A member of Tau Epsilon Phi Fraternity and active in the Glee Club, it is said he is most gleeful when fraternizing with his "Dottie"

BACHELOR OF SCIENCE

ARNOTT CARLOS AMOROSO, Aruba, S.A.

"A scholar and a gentleman"
With a fine record behind him at Manhattan College, N.Y.C., Arnott arrived at Dal and Pine Hill Residence in '43 to major in chem. At Manhattan, where he stayed at famous International House he was Pres. of the Cosmopolitan Club. Our best wishes go with you, Arnott!

RONALD DOUGLAS DRYSDALE, Halifax, N. S.

"A man not given to words or strife."
A quiet lad with a shy grin, Ron is another Bloomfield protégé. He entered Dal with a regional scholarship, won the North British Centennial Bursary and The Keeling Scholarship. He has entered the field of sport in badminton, basketball and interfaculty hockey. This year he is getting his B.Sc. affiliated with medicine. We know you'll make a wonderful Doctor, Ron.

MURIEL VICTORIA BARRY, Black's Harbour, N. B.

"A lot of joy, a lot of fun, In her we found that both these run."
Barry hails from Black's Harbour and has been termed by a lot of people as a good head. She is a permanent fixture of the Chem. Lab. and has taken part in Cercle Francais, Shireff Hall House Committee and has been a very active member of Delta Gamma War Work Committee. She has spent four years at Dal, each full of work and fun—a person well worth knowing. We wish her the best.

BORIS LIONEL FUNT, Halifax, N. S.

"Ambition hath no rest."
Boris entered Dal on a Regional Scholarship and promptly won another—The George H. Campbell Memorial. Besides being a diligent scholar, "Bo" also found time to work on The Gazette staff '42-'44 and this year won his Gazette Gold D. He is an active member of Tau Epsilon Phi Fraternity and was Bursar '42-'43. Boris has had a full college career—We expect you to go far "Bo"—good luck!

EWART CECIL BURKE, St. John's, Nfld.

"I came, I saw—and now I'm going."
Ewart came to Dal for his B.Sc. and majored in Physics and Chemistry. A conscientious student with a dry humor, Ewart will be missed on the Campus and especially at Pine Hill, where his dramatic ability was justly appreciated.

FREDA GARSON, St. John, N. B.

"Merry to talk with, merry to walk with, And a jolly good friend to all."
F. Garson came to Dal in her sophomore year from Queens to continue her work toward a B.Sc. degree. Understanding and a contagious laugh have endeared Freda to all her pals. She plans to join the A. W. R. (Army Wives Regiment) in the near future.

ELMER JOSEPH CAULE, St. John's, Nfld.

"Anything worth doing is worth doing well."
Elmer's quiet, easy-going manner belies his scholastic achievements. Since coming from Memorial in the fall of '42 he won The Ross Stewart Smith Scholarship. Although most often seen in the Chem 7 Lab., Elmer has taken time out to play Basketball for Arts and Sciences. We know we'll have reason to be proud of you Elmer, in your future as a physical chemist!

HARVEY HUNT TROTT GILBERT, Somerset, Bermuda.

"A scholar and a gentleman."
Harvey is a quiet lad who came from Somerset, Bermuda. A conscientious student and a loyal friend, we are sure that he will go far in his chosen profession and he takes with him our best wishes for a bright future!

ERIC JOSEPH CLEVELAND, Dartmouth, N. S.

"Only the idealist can contribute to that scientific progress which advances The greater idealism of mankind."
Eric has an M.A. in Classics, having won a matriculation scholarship in Classics, the Stevenson, Bishop Binney, Crawford, Crockett and McCawley Scholarships as well as the Governor General's Medal from Kings. All these Honours leave us breathless, and now Eric is contemplating a medical future.

ROBERT SILVER GRANT, Halifax, N. S.

"Given to sports, to laughter and much company."
"Deek" came to Dal from H.C.A. to get his B.Sc. and next year will see him back on the campus as a 2nd year Med. Deek has been a star in Dal sports, playing interfaculty football and last year being an invaluable member of the hockey team. He also plays golf and skis—usually with Kay. Best of luck to you Deek!

JOHN WINTERBOURN, Halifax, N. S.

"A darn good head."
Jack was the efficient secretary of the Engineering Society '43-'44. He has in his good-natured way earned a place for himself in the hearts of all-time campus Engineers. May the best of luck attend you Windy as you leave Studley.

ANNE MacLENNAN MacGILLIVRAY, Sydney, N. S.

"Fondest, carefree and without a loyal friend."
A little girl with a big heart, Annie has made her place in the life of the college by the way she was Press, of '42-'43, Basket, Ball manager, '41-'42, Co-ed, Editor of Phoros '43 and business manager, '44. Member of Shiref Hall House Committee '40-'42 and Delta Gamma Executive '41-'44. Well liked by all. Annie leaves us with sweet memories—best of luck in everything. Adios.

BARBARA LOUISE SIENKIEWICZ, St. John, N. B.

"I can't see a popular member of H.C.A., because she came to Dal to add a little more glory to the Studley Campus. She became interested in the Glee Club and in '40 she was Costume Mistress and in '41 Vice-Pres. In '43 and '44 she was in The Pi Beta Phi and in '45 she was in The Monroe Day Show. In '44 she was Secretary of the Glee Club. In '43 she was Rush Captain of Pi Beta Phi in '42. Our best wishes go with you Barb, in whatever you do.

LERRA MARIE MacKENZIE, Halifax, N. S.

"Her face it is the fairest that ever the sun shone on."
Lerra came to us from Glouce Bay with a Bachelor's Scholarship in Education immediately claimed her attention and she was manager of the girls' team in '43-'44. This year she received her B.A. in Dal and in '45 she was Secretary of the class, in '43 and '44 she was on the Students' Council. In '43 she was Secretary of Alldonian and in '44 she was awarded the Khaki Scholarship. She was on the Alldonian Honor Award Committee in '43 and Photographing Editor of Phoros in '44. Lerra plans to work in a bank. Best of luck, Lerra.

THEODORE SPIRO, New Glasgow, N. S.

"When in doubt, don't."
Ted, a New Glasgow boy, famous for having spent through a chain of exams, is getting his B.Sc. this year after trying Phoros, the Medal and Commendation. He has a Bachelor's Degree from Dal and good luck to you Ted in whatever you try next.

HELEN JEAN MacDONALD, Glouce Bay

"Love, goodness, sweetness in her person shined."
Jean came to us from Glouce Bay with a Bachelor's Scholarship in Education immediately claimed her attention and she was manager of the girls' team in '43-'44. This year she received her B.A. in Dal and in '45 she was Secretary of the class, in '43 and '44 she was on the Students' Council. In '43 she was awarded the Khaki Scholarship. She was on the Alldonian Honor Award Committee in '43 and Photographing Editor of Phoros in '44. Helen plans to work in a bank. Best of luck, Helen.

ANITA ROSENBLATT, Glouce Bay

"Her charms strike the sight, but her merit was the soul."
Anita came to Dal from Glouce Bay with a Bachelor's Scholarship in Education immediately claimed her attention and she was manager of the girls' team in '43-'44. This year she received her B.A. in Dal and in '45 she was Secretary of the class, in '43 and '44 she was on the Students' Council. In '43 she was awarded the Khaki Scholarship. She was on the Alldonian Honor Award Committee in '43 and Photographing Editor of Phoros in '44. Anita plans to work in a bank. Best of luck, Anita.

GERALD GORDON LANTZ, Fairview

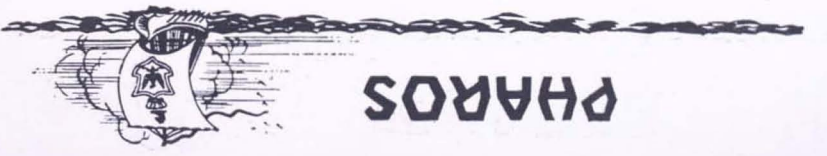

"Think what a man should be and he is that."
Gerald came to us from Fairview with a Bachelor's Scholarship in Education immediately claimed her attention and she was manager of the girls' team in '43-'44. This year she received her B.A. in Dal and in '45 she was Secretary of the class, in '43 and '44 she was on the Students' Council. In '43 she was awarded the Khaki Scholarship. She was on the Alldonian Honor Award Committee in '43 and Photographing Editor of Phoros in '44. Gerald plans to work in a bank. Best of luck, Gerald.

ANDREW ALORN MCKROE, Whycocomagh, C. B.

"Ah, why should I toil about her?"
From Mr. Alcorn comes Alcorn with a B.A. degree. This year he received his B.Sc. in Education. However there is fun in the air there seen "haunting" the Forrest Building.

MARY ELIZABETH KNAPP, Port-Aux-Basques, Nfld.

"How well I know what I mean to do."
Betty came to Dal from Memorial College and leaves this year with a B.Sc. Betty has a jovial nature, a sense of humor and good common sense. Most often seen tracing the Dal tennis courts.

PHAROS

WILLIAM DOBSON HAGEN, Halifax, N. S.

*"Life without music or life without laughter
Is never the life that I will be after."*

Bill, our burly campus hero, came to Dal from H.C.A. and is getting his B.Sc. and Diploma of Engineering this year. Bill has done inestimable work in the Glee Club, for which he has a gold "D." He was President of the Class of '43 and also the able Pres. of the Engineers. In Bill the C.O.T.C. has had an efficient and capable officer. If there is a rumpus in the Gym Store, Bill can be found in the midst of it but if not there, try Fader's.

MARY STERLING, Kensington, P. E. I.

"So much to do, so little time."

Mary receives her B.Sc. in Biology from Dal this year. She has attended Upsala College, Orange, New Jersey. Mary leaves with us an impression of happiness and good cheer which will stand her in good stead in her chosen work.

BACHELOR OF COMMERCE

RUTH MORRISON MacINNIS, Shubenacadie, N. S.

"Yours is a spirit like a may-day song."

Ruth is still the fun loving girl who came to us from Truro Academy and with her head in the clouds and her feet firmly planted on the ground, she is a leader wherever she goes. Ruth was Rec. Sec of Pi Beta Phi Fraternity in '43 and the capable Pres. in '44—on The Students Council and on The Muntze Day Committee of '44 and News Editor of Pharos in '44. She was a member of the Commerce Society, Sec. of Pan Hellenic and on The Convocation Committee this year. With her splendid executive ability and her charming personality we know that Ruth will have a very bright future and we wish her the best of luck.

PHAROS

Diploma of Engineering and Pharmacy

HARVEY HUNT TROTT GILBERT, Somerset, Bermuda

Harvey is a quiet lad who came to Dal from Somerset, Bermuda. A conscientious student and a loyal friend, we are sure that he will go far in his chosen profession and he takes with him our best wishes for a bright future.

DONALD THOMAS MATHESON, Halifax, N. S.

H.C.A. was a stepping stone for Don before coming to the Engineering faculty of Dal. Always cheerful and ambitious Don has been active in badminton, interfaculty basketball, football and hockey. Don also found time to toot his clarinet in the band, and to write T-square this year. Yours is a bright future Don!

GERALD GORDON LANTZ, Fairview, N. S.

Gerry hails from H.C.A. and has become one of the most popular and well-liked of the Engineers. He was this year awarded the highest honor an Engineer at Dal can be given "The Bob Walter Award. Besides taking part in Interfaculty Hockey, Gerry was a member of the Students' Council '43-'44. We are sure that he will receive all the success he so fully deserves. Best of luck Gerry!

GEORGE SMITH, Halifax, N. S.

George, besides being an active Engineer is a badminton and basketball enthusiast. He was manager of the basketball team this year and under his able leadership Badminton also came into its own. George can usually be found in the Gym but if not there, try Roy's.

FRANK ROLAND MacKAY, Tatamagouche, N. S.

Frank got off to a fine start in College with the Pietou Academy entrance scholarship and has worked hard to maintain that standard. He is on the Executive of the Engineering Society and is one of the most familiar faces on Studley. But now Frank has to lay aside that Engineers pipe dream of siphoning coke from Roy's to the drafting-room and we wish you loads of success from here on.

JOHN WINTERBOURNE, Halifax, N. S.

Jack was the efficient sec-treas. of the Engineering Society and in his good-natured way has earned a place for himself in the hearts of all time Campus Engineers. May the best of luck attend you 'Windy' as you leave Studley.

JOHN ROBERT MacQUARRIE, Egerton, N. S.

John is yet another Pietou County Academy grad. He came to Dal, became one of the famous Engineers and will receive his diploma this year. He represented the Engineers on The Student Council this year and we wish him the best of luck in his chosen field.

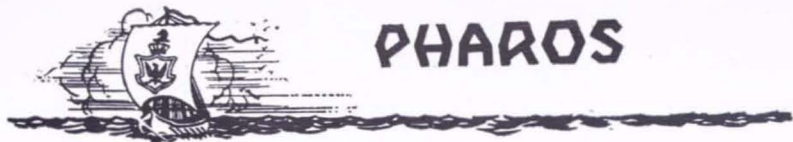

ANN ELIZABETH MARIE O'TOOLE, Baddeck, N. S.

The "mighty Midget" came to Dal from Baddeck Academy with a Regional Scholarship. She was treasurer of the Music Club and Social Manager of the Newman Club—she appeared in The Frosh show of '42, the Munroe Day show of '43 and the Munroe Day Musical Comedy of '44. In all these shows she had a humorous lead and will be remembered for all the laughs she gave us. This Irish lass hopes to be a hospital Dispenser and we know that wherever she may be she will be a source of happiness to her associates because of her happy disposition and splendid personality.

WILLIAM DOBSON HAGEN, Halifax, N. S.

Bill, our burly campus hero, came to Dal from H.C.A. and is getting his B.Sc. and Diploma of Engineering this year. Bill has done inestimable work in the Glee Club, for which he has a Gold D. He was President of the Class of '44 and also the able Pres. of the Engineers. In Bill the C.O.T.C. has had an efficient and capable officer. If there is a rumpus in the Gym Store, Bill can be found in the midst of it, but if not there, try Fader's.

DIPLOMA OF EDUCATION

MARGARET OLIVE CAMPBELL DRYSDALE, B.A.
Halifax, N. S.

"She was a lady from sole to crown."
Margaret attended Bloomfield High before coming to Dal to graduate with the Class of '43. She is quiet and reserved but a real friend to all who truly know her. We wish her the best of luck in her chosen profession.

MARGUERITE R. GRAVES, B.A., Halifax, N. S.

"Good nature and good sense must ever join."
Peggy is another member of the Class of '43. She came to Dal back in '40 from the Halifax Academy. Energetic and friendly we suspect she has other interests "off the campus." Good luck Peggy. We know you'll make a first-rate teacher.

LEONORE GRACE MacLEOD SHIELDS, B.A. Halifax, N.S.

"A quiet girl, unassuming in manner, pleasant to meet and to talk to."
Leonore came to Dal from H.C.A. to graduate in '43. Outside her studies her chief absorbing interest is music and she can generally be found at the Maritime Academy. She plans further work in that subject and we wish her the best of luck.

MARGARET JEAN FARQUHAR, B.A. Halifax, N. S.

*"A good sport, a true friend
What more could be sought for."*
Marg. came from H.C.A. to get a B.A. in '43 and to take an active part in Delta Gamma debating—winning her Gold D in '43. She was treas. of S.C.M. in '43 and took part in the I.S.S. campaign in '43. This year the Book Store flourished under her able direction. And we are sure that she will be just as successful as a teacher as she has been here as a student—Best of luck, Marg.

HERMOINE MARIE ERNST, B.A. (Mt. St. V.) Halifax, N. S.

"Learned we found her."
Hermoine came to Dal. by way of Mt. St. Vincent where she received her B.A. in '43. A newcomer to the Campus. She has not taken part in many activities but our best wishes go with her as she starts her teaching career!

EVELYN HILDA TYLER, B.A., Halifax, N. S.

"To be is better than to seem to be."
Evelyn is another Halifaxian who came to Dal. by way of H.C.A. She received her B.A. with Distinction last year and came back again to capture yet another diploma. Persevering and hard working, we know she will succeed.

LICENTIATE OF MUSIC

CARL MAURICE LITTLE, Campbellton, N. B.

*"So much one man can do
That does both see and know."*
Carl came from Campbellton High School with a Regional Scholarship and kept up the good work by winning the James L. Hall Scholarship. Besides this outstanding scholastic record, Carl has found time to take part in Campus activities. He won a "D" for his work in the band, played interfaculty football and hockey, and was on the Students Council this year. He was also on the Malcolm Honour Award Committee. A member of the Engineering Class, Carl will be back next year to get his Diploma. We'll all be glad to see you back, Carl.

ROSE ELLEN SULLIVAN, B.A., Armdale, N. S.

*"O music! sphere-descended maid
Friend of pleasure, wisdom's aid."*

MASTERS

MARY GEORGINA COMEAU, Springhill, N. S.

Mary leaves Dal with an impressive scholastic record and many friendships gained. A winner of The Governor General's Medal (K), she is receiving her M.A. in Latin this summer. Most often seen with Iris and running for The Dingle Car.

HAZEL IRIS MARTELL, Sydney, N. S.

Iris receives her M.A. in Latin this May. Active in intercollegiate debating (K), she is most often seen in the midst of an argument. Favorite pastime—telling fortunes over a teacup to avid listeners at Shireff Hall.

ALBERT WILANSKY, St. John's, Nfld.

Another degree for Newfie John's boy-wander. This time it's an M.A. in Math. "Tommy" already has a B.A. and a B.Sc. from Dal. His activities are varied—Interfaculty basketball, Dal Band (1939-43) Gazette Reporter '40-'41, Debating, Bennett Shield '39-'40. On the scholastic side, he has to his credit the Waverly Prize, instructorship in Physics '42-'44, and a Fellowship for Ph.D. work at Brown University, Providence, R.I. Tommy is also chancellor of Tau Epsilon Fraternity.

ARTHUR KENNETH ARCHIBALD, Halifax, N. S.

Ken is a well known figure on this campus, having received his B.Sc. in 1943. He has won a Regional Scholarship, The Bruce Scholarship and finally The National Research Council Bursary at varying points in a successful scholastic career at Summerside Acad., Queens University and Dalhousie. Ken is a member of Sigma Chi and has found his lifetime sweetheart. He was Ass. Business Manager of the Gazette in '40 and those that know him are sure that it will be no trouble for him to chalk up a new degree in the form of a Ph. D. at McGill.

JOHN CLARENCE DEVINS, Mahone Bay, N. S.

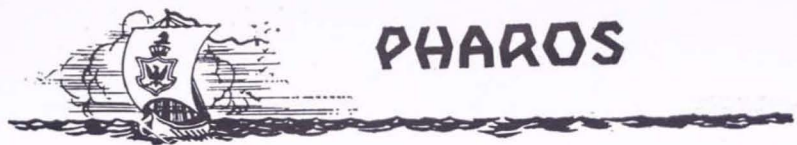

Johnny came to Dal from Bloemfield High and received his B.Sc. in '42. This year he gets his M.Sc. in Physical Chemistry. Johnny has been chief demonstrator in The Chemistry Department, during the past year and is headed for McGill University next year.

FRANCES ELIZABETH KEEPING

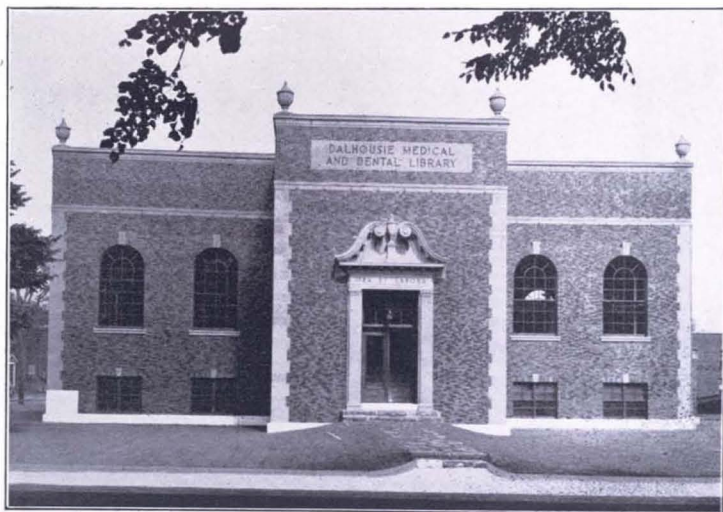

Frances came to Dal with a B.Sc. from Acadia and this year receives her M.Sc. in Biochemistry.

ALFRED GRAHAM WOOD, Dartmouth, N. S.

An instructor in organic chemistry, "Alfie" has endeared himself to Chem. 4 students. An able sportsman, he has played interfaculty hockey, football and basketball. He gets his M.Sc. in organic chemistry. Alfie will be remembered for his quiet humour and patience. Lots of luck to you, Alfie.

PHAROS

MEDICAL AND DENTAL LIBRARY

MEDICINE

A decorative graphic element consisting of two vertical lines of different lengths, positioned below the horizontal lines under the word 'MEDICINE'. The longer line is on the left and the shorter one is on the right, both extending downwards from the horizontal lines.

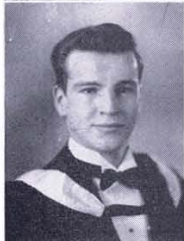

Doctor of Medicine and Master of Surgery

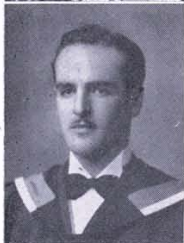

CARL RAYMOND ADAMS, Springhill, N. S.

Carl comes from that boisterous mining town, Springhill. He took his pre-med at Mt. A. coming to Dal in '40 and is a member of Phi Rho Sigma Fraternity. Best of luck, Carl.

GEORGE DONALD GASS, Sackville, N. B.

Coming from Mt. A. with his B. A. as well as his pre-med, George soon found a place at Dal playing interfaculty football, taking a part in the Munro Day show, along with executive responsibilities. He was Med. Representative for The Student's Council '42 '43 and also served as Vice-Pres. and Pres. of Phi Rho Sigma Fraternity. He knows the true meaning of "saved by The bell"—Future plans—R.C.A.M.C.

RALPH WILLIAM McKEEN BALLEM, Sydney, N. S.

Ralph is one of those able Cape Bretoners coming from Sydney Academy. While here, Ralph was on both the swimming and senior Rifle teams. He was a member of Phi Rho Sigma, holding the office of Ass. Treas. Besides all these achievements, Ralph has acquired a very nice Dalhousie wife (Cape Breton too). Best of luck, doctor.

CARROL BURNELL GREENE, Canning, N. S.

Carrol arrived at Dal. armed with a B.Sc. from Acadia. He was an active member of Phi Chi Fraternity and the Manager of the Dalhousie Medical Book Bureau—Best wishes for every success Doctor.

RONALD ELLSWORTH BRANNEN, Barrington Passage, N. S.

Ron received a B.Sc. from Acadia in '39 and after that did post-graduate work in Biology at The University of Western Ontario. He was an active member of Phi Rho, holding the envious position of House Manager in '43. Best of luck, Ron.

JUDAH LIONEL GURAVICH, Toronto, Ont.

Lionel took his Pre-Med at the University of Manitoba and since coming to Dal, has been an excellent student (or butcher) winning the anatomy prize in second year. He was musical director of the Dal. Music Club in '43 and The Pine Hill Boys will always remember him as a good deacon and the life of every party—Best of luck with both violin and scalpel, Lionel.

MURRAY McCULLOUGH DAVIS, Truro, N. S.

Murray entered Dal with a Regional and in his Freshman year was co-winner of The Bennett Shield for inter-class debating. He has played inter-class football and is a member of Phi Rho. While here Murray has gained not only his B.A. and M. D. degree, but the friendship of all his classmates who have recognized his ability and keen personality by electing him Class President (Medicine) 1940-44 Best of luck to a true Dalhousian.

HENRY KENNETH HALL, Vancouver, B. C.

Ken hails from Vancouver where he attended U.B.C. and was an active member of Alpha Delta Phi Fraternity. At Dal, Ken was an ardent Pine Hiller and will long be remembered for his genial personality and diligent pursuit of medical lore. Lots of luck, Ken.

ADELAIDE LOUISE FLEMMING, Halifax, N. S.

Adelaide attended H.L.C. and Mt. A. before starting Dal with her prowess in the medical field. She was Vice-Pres. of the Glee Club in '41 and received a Glee Club Gold D for her work both as an executive and as a performer. Adelaide was an active member of the Med. Society and also of Pi Beta Phi Fraternity being Social Manager in 40 and '42. She received her B.Sc. in '41 and in her career as a doctor we wish her every success—Best of luck Adelaide, you stuck to it.

FRANK CREAGHAN HAZEN, St. John, N. B.

After graduating from St. John High, Frank came to Dal. for his pre-med and Med. A member of Phi Delta Theta and Phi Chi Fraternities, he has made many friends at Dal who will miss seeing him at Joe's and hearing his familiar "My but you look peaked." Best of luck, Frank.

PHAROS

FRANCIS BENEDICT MacDONALD, Glace Bay, N. S.

Here is a graduate who hails from "The Bay, b'y." He attended St. F. X. where he received the degrees of B.A. and B. Sc., before coming to Dal' to study Medicine. He interned at the St. John General. Good luck to a humorous M.D.

ARTHUR HENRY MERCER, Halifax, N. S.

An ardent sportsman, a student of the humanities, Art paused for his B.A. on Studley before moving on to Forrest Campus. He was awarded a gold D for tennis and was also a member of interfaculty basketball and rugby teams. He was in the Freshman Show and wrote the sports column for the Gazette. He was sect. of Phi Chi and his matrimonial venture of last year ensures his future success.

JEAN MacDONALD, Moncton, N. B.

Possessor of a genial and friendly disposition, Jean has proved herself a clever and versatile student. Winner of the Bruce Memorial Scholarship in '37 The Avery Prize in '40, and the Anatomy Prize in '41, she received a B.A. in '40, B.Sc. in '42 and this year crowns all with an M.D.C.M. She still found time for the Symphony Orchestra '36-'38, The Bennet Shield Debates, '38-'39, as well as being a badminton and ping pong enthusiast. She was an efficient member of Shireff Hall House Committee and The Dal. Med. Society. With such a record at College, we know Jean will be equally outstanding in The Medical Profession, and we wish her the best of luck.

GORDON MacGREGOR MURRAY, Sydney, N. S.

Gordon hailed from Nova Scotia's icebreaker, bringing with him a Regional Scholarship. Although the wild Cape Breton blood has never been tamed, Gordon is constant in one thing, or should we say person. Proving the two can be combined, G. M. was awarded The Dr. Black Prize in surgery (4th year). Best of luck Gordon in The R.C.A.M.C.

WILLIAM DOUGLAS MacDONALD, Moncton, N. B.

Bill graduated from Moncton High and then wisely made his way to Dal. He is a member of Phi Chi Fraternity and we've heard it said that he has the largest collection of Med. Books in The Med. School. Sounds like the mark of a student and we wish him lots of luck.

IRWIN MacKAY MURRAY, Stellarton, N. S.

Kay is another M.I. A. man who "saw the light" as he stepped on Forrest Campus four years ago and since then he has shown constant improvement. He is a member of Phi Rho Sigma Fraternity and last year was awarded the 4th year Anatomy Prize. Future plans—R.C.A.M.C.

DONALD SELLERS MacKEIGAN, Halifax, N. S.

Don was famous at Studley long before he arrived on Forrest Campus. He was Pres. of Arts and Science '39-'40 and also was a member of The D.A.A.C. Management Committee. He played in the band '38-'39-'40 and with all these activities he received his B.A. in '40 and his B.Sc. '41. Don is a member of Phi Kappa Pi and Phi Rho Sigma Fraternities—He plans to join the R.C.A.M.P.C. Best of luck, Don.

MAX KENNETH PIERCE, Winnipeg, Man.

Though his home is Winnipeg and his B.Sc. from the University of Manitoba, Max soon saw the advantages of a med. degree from The College by the Sea. He is a member of Phi Delta Epsilon Fraternity and his subtle sense of humour and fine art of story telling will undoubtedly aid him in his medical future.

FRANK GORDON MACK, Halifax, N. W.

Gordie came from H.C.A. to take his Pre-Med. Course at Dal. This year he receives his M.D., C.M. degree and we wish him the best of luck.

CLARENCE HERBERT POTTLE, Flatneck, Carbonear, Nfld.

Before coming to Dal, Clarence brandished the torch of learning for a few years in the land of fish and fog. Feeling there were greater things than teaching in store for him, he studied Pre-Med. at Memorial and then came to Dal. He belongs to Phi Chi and was Pres. of the Med. Society in '43. We understand his interests lie in the field of psychiatry and wish him every success.

PHAROS

JOHN BURRIS REID, Truro, N.S.

John wended his way from the "hub" of The Province, to Acadia for further education and finally arrived at Dal to study Medicine. While here he became a member of sigma Chi Fraternity and The Dal Medical Society. We wish him the best of luck as he continues on his way in his chosen work.

ALEXANDER KERR ROY, North Sydney, N. S.

To be remembered as coming from "God's Country" is Lex's misguided wish. He has his B.Sc. and in First Year Medicine was awarded The Professor R.J. Bean Prize. Lex took part in Inter-faculty football and hockey and acted on the Executive of the Student Medical Society. In Phi Rho Sigma he has served as Vice-Pres. and Treas. The Navy has next claim on Lex. Best of luck.

HARRY LESLIE STEWART, Belle River, P. E. I.

Les began College Life at Prince of Wales College and in '41 came to Dal to study Medicine. He is a member of Phi Rho Sigma Fraternity. Les' broadminded and unselfish disposition, coupled with a friendly and cheerful nature has won for him many friends both at Dal and The Infirmary where he interned.

CYRIL JOHN WALSH Corner Brook, Nfld.

'Skit' believes in combining pleasure with hard work. He studied Pre Med. at Memorial and then like so many of his countrymen, crossed the waters to Dal. Now an M.D. we wish him continued success and good luck.

ALLISON HOUSTON BARSS, Rose Bay, N. S.

'Al' came here from Rose Bay, having stopped at Acadia on the way for a B.Sc. 'Snippy' belongs to Phi Chi and has been an individualist—one boy who got married before the Dominion Councils. He is in the R.C.A.F.

DOUGLAS GORDON BLACK, Sackville, N. B.

Doug. left his home town of Sackville, N. B. to take Pre-Med at Prince of Wales College. Since coming to Dal he has made many friends by his affability and quiet friendliness. Phi Rho Sigma was his Medical Fraternity. He interned at the V. G. this year and now he is serving in the R.C.A.F.

CHARLES ALEXANDER GORDON, Campbellton, N. B.

Charlie hails from Campbellton, coming to Dal by way of Queens and King's. While at Dal he was a constant contributor to the Gazette. He is a member of Phi Delta Theta and Phi Chi Fraternities. We've heard he'll be a wonderful doctor, even if he was the laziest interne. Good luck Charlie.

JAMES GOUGH, Corner Brook, Nfld.

Jim came to Dal from The Big Island (not Cape Breton) having been previously groomed at Memorial College. The fact that he was well groomed is proved by The W.P.A. Scholarship he carried with him. Phi Chi votes him "quite a man" and the boys at the V. G. could add a chapter. He stands unique as the only doctor with a permanent "case."

GORDON MURRAY MacDONALD, Glace Bay

Gordon came to Dal via Mt. A. where he received his B.Sc. He interned at the Children's Hospital and we wish him the best of luck as a Doctor.

DONALD ALEXANDER McLEAN, Forest Hills, N.Y.

Don—"Duke" to his friends—is from Boston. He is known as a "good man," a good football player and a member of Phi Chi.

SAMUEL CLYDE STRICKLAND, New Glasgow

"Strick" left New Glasgow High to begin his career at Dal and Kings—Through his interest in football and hockey, he became a well-known figure on the Campus. He is a member of Phi Rho Sigma, was a V. G. interne and now he is serving in the R.C.A.M.C.

GORDON DANIEL TIMMINS, Fredericton, N. B.

Gordon, who hails from Fredericton, has been a popular member of Phi Chi. He came here from St. F. X. where he got his B.Sc. He interned at the V. G. Best of luck, Gordie.

BACHELOR OF LAWS

REUBEN COHEN, B.A., Moncton, N. B.

"If all the world were just, there would be no need of law yers."
Reuben, our only N. B. representative, was a student of some repute when he arrived at Law School. He took his B.A. with distinction at Dal and won numerous scholarships in the process. He is a member of Tau Epsilon Fraternity of which he is Chancellor and Scribe. In '42, he was literary editor of Pharos. In his 2nd year law he was The Carswell Prize winner. Rube is one of the few most often seen in the Library. Favorite expression: "Is there anyone in John's office now?"

M. LAWRENCE MacIVOR, Glace Bay, N. S.

"Much may be made of a Scotchman if he be caught young."
"Muck" is an outstanding athlete in any man's game. He has played Senior Football for 4 years and Interfaculty Basketball for 2. He won Gelf D's for football and D.A.A.C. Presidency. He is a member of Weldon Inn Legal Fraternity of which he was Sec. Treas. in '42-'43. Muck can be most often found in The Law Common Room. A 2nd Lt. in the O.T.C. he will be claimed by the Army. Favorite Expression: "Are you from The Bay, B'y?"

ERMINIE LORRAINE ELIZABETH JOHNSTON, B.A.
Vancouver, B. C.

"Cool unperturbed by stress or hurry."
Lorraine came to Dal from way out in B. C. — evidence of the Law School's widespread fame. She received her Arts Degree from U.B.C. and is a member of Alpha Delta Pi. Most often seen in The "Hell Hole" listening to the fantastic yarus of the Third Year Boys. Her favorite comment: "Well for goodness sakes."

JOHN CHARLES O'CONNELL, B.A. Sydney, N. S.

"None but himself can be his parallel."
Before coming to Dal., Charlie received his B.A. from St. F. X. Debater and actor "extraordinaire". He has represented Dal in debates against St. F.X. and St. Thomas. This year, he took part in the Spring play. He was Sec.-Treas. of The Law Society '42-'43 and Pres. in '43-'44. Law representative on The Council '43-'44 and Senior Librarian at The Law Library. Charlie is a seaman in the newly organized U.N.T.D. and will probably spend the next year or so as a "mess-deck lawyer."

MARY LOUISA KINLEY, B.A., Lunenburg, N. S.

*"Wearing all that weight of learning,
Lightly like a flower."*
Mary who came to the Law School in a blaze of glory from Studley continued her record by taking the MacDonal Prize in her 2nd year. She is a member of Pi Beta Phi and has been Vice Pres. of The Law society. Mary can be most often seen in The "Hell Hole." With her favorite expression "Jeepers," Mary can express the whole gamut of emotion from complete surprise to utter disgust.

RALPH AUSTIN PARSONS, St. John's, Nfld.

"When I have passed The Bar."
Austie took his Pre Law at Acadia and came to Dal in the fall of '41. His first year he won The Carswell Essay Prize. He is a member of the U.A.T.C. Austie's favorite occupation is study and he can nearly always be found in The Library. His favorite expression "So much to do, so little done" is typical of Austie.

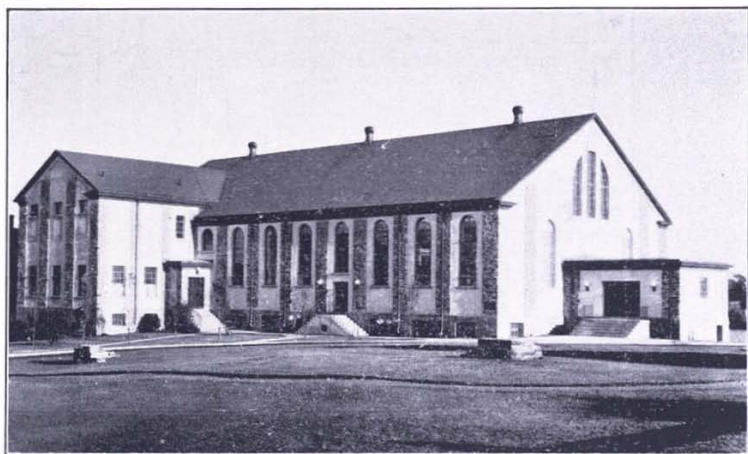

WILLIAM ROBERT LAWRENCE, Windsor, N. S.

"The heights of great men reached and kept, were not attained by sudden flight"
Bill was a Kings man before coming to Law School. His biography was much too modest for our purposes. He is rarely seen, has no favorite expressions—The only information divulged was that he is Law Reporter on The Gazette.

RALPH THOMAS VAUGHAN, B.A., Halifax, N. S.

"For some are born to do great deeds."
Arkie is a St. Mary's grad. He is without doubt our man of letters. In '42 he was Carswell Prize Winner. Numbered among his activities are debating, hockey team '44 and O.T.C. in which he was a 2nd Lt. He is a member of Newman Club and Weldon Inn. He was Law Representative on The D.A.A.C. '43-'44.

DOCTOR OF DENTAL SURGERY

RICHARD FRANCIS CAMERON, West Gore, Hants Co., N. S.

Dick got his early education in Halifax and then moved to West Gore, Hants Co. He came to Dal in '38 from Lawrencetown High. Is usually seen wending his way from the Forrest Building to The corner Drug Store. He is friendly, a good and conscientious worker and thoroughly enjoys a good argument. Dick hopes to carry off a D.D.S. degree in May, after which he will be commissioned in the C.D.C.

MILFORD ROSS JACKSON, North Sydney, N. S.

Milford fulfilled his Pre Dental requirements at Acadia and came to Dal in '41. Although a conscientious student, his greatest interest lies in outdoor life and on several occasions he has won prizes for record salmon catches on The Margaree. Being the home-loving type, Milford plans to get married soon and expects to be commissioned in the C.D.C.

ARTHUR HINES ERVIN, Stewiacke, N. S.

Art took his Pre-Med at Dal and proved himself a steady and competent student. However his homework never concerns him much and during the winter he can usually be found at the arena. Art has lately made known his intentions to get married soon after graduation when he has received his commission in the C.D.C.

IRVING NATHANSON, Halifax, N. S.

Irving came to Dal in '38 from H.C.A. Usually can be found in The Forrest Building surveying cavities or the passing crowds. Always amiable and friendly he was ever ready to advise and aid the younger men. Divided his time and attention between Dentistry and Tau Epsilon Phi in which he held the offices of Social chairman and Chancellor Emeritus. Will be commissioned in the C.D.C.

JAMES ISAAC GORDON, Halifax, N. S.

Ike came to Dal in '38 from Bloomfield High. He has always lived in Halifax and is proud of it. Can usually be seen walking north or south on Robie St., has held the offices of Vice-Chancellor, Warden and Historian in Tau Epsilon Phi Fraternity. Ike will be commissioned in the C.D.C. on graduation.

ROBERT NATHAN DEAN RICE, Petitedoiae, N. B.

Dean arrived at Dal in '41 from U.N.B. after a brilliant and successful career there. He is a good student and has a keen inventive mind. His whereabouts outside the college have been more or less of a mystery but he expects to join the rest of his class in the C.D.C. after graduation.

PHAROS

CLASS HISTORY

by

Susan Morse

It is hard to realize that we, the class of '44, are soon to leave Dalhousie behind forever. The time has passed very quickly, and yet it has been packed with new experiences, and must leave a host of memories imprinted on every mind—memories of happy days at Dalhousie, which we shall cherish, long after we cease to be seen on the campus or in the classroom.

As freshmen, in the fall of '40, we chose John MacLellan as Class President, Norie Douglas as Vice-President and Christine Arklie (Graham) as Secy-Treasurer.

The members of our class first showed their ability at the Frosh Show, when they presented "A Modern Cinderella." This musical production, which starred George Saunders, and Elinor Macpherson (Jones) was received by upperclassmen with loud applause. Anita Rosenblum and Jim Stevens again brought glory to the "Frosh," by winning the Bennett Shield for inter-class debating. At our final meeting, Bob Murphy, Ann Goodeve (Woods) and Christine Arklie (Graham) were chosen to form the new executive for the coming year.

On returning in the Fall of '41, several of the leading members of our class were missed, but the Executive, assisted by Don Oland, managed an efficient initiation, which was again confined to the campus.

We were unusually lenient at the Freshie-Soph, but in spite of, or perhaps because of this, the dance was a great success. Before college closed, Glen Hubley, Irma MacQuarrie and Joan Archibald were chosen as class officers for our Junior Year.

At our first meeting in the fall of '42, there was much discussion concerning the Junior Prom, due to high war-time prices. The committee appointed to assist the executive in putting on this dance, were Irma MacQuarrie, Laura MacKenzie, Don Oland and John MacLellan. The dance was held at the Lord Nelson, and although not financially a success, everyone had a wonderful time.

By this time, most of the individual members of Class '44 had made their names in one or more of the campus societies, and many were elected to prominent positions in their Senior year. The new class officers, chosen in the spring of '43, were Bill Hagen, Laura MacKenzie and Jean Macdonald.

Our final year has probably meant more to the members of the class than any previously, since it represents our last chance to take advantage of the many opportunities, which Dalhousie offers to her students. Our class is not a large one, since a number have left to join the forces, some of whom are now serving overseas. Nevertheless, those remaining have brought credit to the class by individual achievement. Some outstanding members merit special mention.

Jean Macdonald deserves credit for her organization of the Arts and Science Society, and Joan Archibald for her leadership as President of the Students Christian Movement. Larry Sutherland and Ann Walker have been the respective editors of *Pharos* in 1943 and 1944. Ted Shields edited the *Gazette* this year, and Scottie Gordon has been the efficient president of *Sodales*. Ann Mackley and Anita Rosenblum have been ardent workers on the Staff of *Pharos* in Delta Gamma and in the D.G.A.C. Lawrence MacIvor has been very active in the D.A.A.C., being president this year, while Laura MacKenzie has excelled as ladies' badminton champion for several years. Bill Hagen and Barbara Sieniewicz have worked untiringly for the Glee Club. Bill Hagen is also President of the Engineering Society and active in sports.

The final elections of Class '44 were held in January this year. Larry Sutherland was chosen as Life President, Jean Macdonald as Life Vice-President, and Susan Morse as Life Secretary-Treasurer. We are delighted to have Dr. Dixie Pellet, the popular choice of the class, for our Honorary President.

It is with great regret that we leave Dalhousie to take our places in the various walks of life; it is also with the firm belief that our life and studies here will remain not only as pleasant memories, but as an active influence on all our future actions and decisions. With this guiding influence, may each member of the Class of '44 bring honour to Dalhousie!

PHAROS

VALEDICTORY

by

Joan Archibald

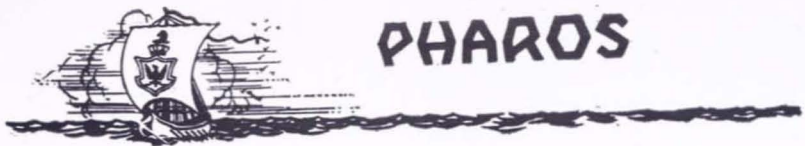

We, the class of '44, have reached the end of our college life and now we go out to face something far different from the life of these three or four years we have spent at Dalhousie. These years have been tremendously important ones in our lives, probably far more important than we have realized. We have had an opportunity which few of us will ever have again—the time to give fullest exercise to our minds, to study and discuss, above all, to learn to think. We have had these years to seriously weigh our own opinions and those of others, to decide for ourselves what is important. As we come to the end and look back, I imagine that few of us are satisfied with the way in which we have used this time. What we have done with it has depended on ourselves. We have been fortunate in our professors here at Dal—most of them have endeavoured to develop our minds, not to impose on us their patterns of thought. They have tried to show us the unity of human thought and the fact that what matters is seldom on the surface. We, however, have too often had an escapist complex—we have seen college as something cut off from reality, rather than our opportunity to approach reality. We have looked upon our degree as the aim and end of university, when actually it is such an unimportant part of what college should mean to us. As students in 1944 we have enjoyed a luxury which few of the men and women of our generation in the world today can enjoy—and it is the luxury of preparation. We have had these years to prepare ourselves to take our places in the world as intelligent thinking individuals.

The world we are going to enter is not a pretty thing to contemplate. The end of a war is in sight. We may compare ourselves with the students who graduated in 1918 who could also see the end of a war near. Their day too was filled with post-war plans and blueprints for the future. They however were very different from us—they believed in the efficacy of treaties and were full of dreams of an everlasting peace. We of 1944 are young, but how many of us believe in a peaceful future? How many of us really believe that these post war plans can work? This is the tragedy of our generation we have lost hope. We saw too much in the years between wars to keep our faith in the innate goodness of men or nations. This is not the usual kind of valedictory which should be given, urging students to go out and build a brave new world, but these are times when the old standards and beliefs are crumbling. We must open our eyes and look around us and realize that the men of 1918 tried to build a new world and failed. We see death and suffering and horror, and worst of all, hatred poisoning and blinding men. I believe we have come to a crucial stage in our history—we have come to realize the impotence of human beings in planning, we have seen the result of the growing spirit of materialism in this world. It is at this stage when men are forced back to solid rock, when they reach the limits of human sufficiency, then men see that they can no longer put their trust in chariots or in horses, in elaborate defense lines or man-made social security plans, and then men turn to God. It is only when man realizes his own absolute fallibility, his need of a firm basis of living not constructed by man—it is only then that he seeks God's purpose and does his new world building in accordance with the will of God. If we look on the world as it is today with complete honesty we must of necessity come to the conclusion that lasting and effective building cannot be done by man, alone.

We are leaving Dalhousie and as college graduates we will be expected to take responsibility, to give leadership in our communities. This is as it should be if our education has been a true one. To be able to see clearly, beyond the boundaries of prejudice, of propaganda, of nationalism, involves responsibility. We must not shirk that responsibility.

Let us be faithful—to the truth as we see it, willing to follow wherever it may lead. Let us be humble—a college degree is such a very small thing; it just opens the door to wisdom; and those of us who have gone to college in these war years are at a disadvantage in that we have not known suffering—our education, merely academic, is so far from complete. Above all, let us be always growing, never stagnating, ready ever to learn and develop, that this process of education begun at Dalhousie may be a life long thing.

ARTS AND SCIENCE SOCIETY

The Arts and Science Society began a successful year in October 1943, with a very well-attended meeting. The Secretary, Jo Robertson, was elected from the freshman class. At this meeting we made plans for the year—these plans have been carried out as follows.

Our major venture in the field of college activities this year was staging a dance in the gymnasium, January 14th. This received enthusiastic support from the Society as a whole. Despite the short time we had to sell tickets because of the lengthened vacation, arrangements were completed, and everyone present enjoyed themselves. Dr. and Mrs. Archibald, Dr. Bell and his daughter Janet were the chaperons. We anticipate the Arts and Science hops becoming annual events.

However, college life has become more serious during wartime, and when an appeal was made for blood donors from Dalhousie, it was answered immediately. It was decided that the girls in Arts and Science would come under Delta Gamma, the male students under the Arts and Science Society itself. Gordon Hart, chairman of this committee, has made it possible that each member be asked to contribute Dalhousie night at the Red Cross clinic. The response was very satisfactory, many going for the third, fourth and even ninth time. All in all approximately sixty members have donated blood.

Entering interfaculty sport, Sports manager, Reg McCollough, has chosen football, hockey and basketball teams which have met both Engineers and Meds. The Society's D.A.A.C. representative was Arthur Hartling.

Our representatives on the Dalhousie Council of Students were Larry Sutherland, Barbara White, Eileen Phinney, Carl Little, and Jean Macdonald. Because Barb White became Vice-President of the Council, Joan Vaughan was elected to fill the position of Junior Class representative. All of the Arts and Science representatives have been active on Council Committees and have represented their society energetically and well.

Under the direction of Dramatics Manager, Art Hartling the play "Five Minutes" was presented February twenty-third, in competition for the Connolly Shield. Although we were not successful in winning the shield the play was enjoyed by all those who turned out despite the storm, and received a desirable commendation from Prof. Bennet.

Launching into the sacred precincts of Gazette publication, with co-editor Connie Archibald in the chair, Arts and Science edited part of Gazette issue on February 11th. A large part of the success of this issue was due to the untiring efforts of the co-editor and to the splendid support given by several members of the Society.

At the end of 1943-44 the Arts and Science Society is in a stable financial condition with a bank balance of seventy-nine dollars.

Directly from the beginning of term when an enthusiastic freshman asked just what he could do in the Arts and Science Society, we have had the right kind of spirit shown in order that the Society should be a success.

The Executive: Vice-President—Drummond Fraser; Treasurer: Marg Macpherson; Secretary: Jo Robertson; Dramatics Manager: Art Hartling; Activities Manager, Irma MacQuarrie, have given unfailingly of their time and energy in making the Arts and Science Society a power at Dalhousie. Each one deserves special credit. The future of the Society lies in the hands of the new Executive—to them we wish every success. With the concentrated efforts of each and every member, the Arts and Science Society will take its rightful place on the campus and within the university.

1st Row: J. McLaren, M. Morriscen, T. Shields, B. Atkins, K. Barry.

GAZETTE

As the first bells of the new college year 1943-44 sent freshmen scurrying along the corridors of the Arts Building, three dusty but determined figures pushed their way through a summer's accumulation of Censorship Notices (Files XIA3DR a to refiles W7NYR9x) and unanswered C.U.P. telegrams marked "Urgent" in the cubbyhole to the right of Lester's office, called in affectionate terms the Gazette office. Typewriters, after a preliminary groan or two, rattled into action, and the Gazette was away on its 75th year.

Editorship of the Gazette was placed, with suitable admonitions, in the hands of Ted Shields, '44, who came to the editorial chair via the Halifax Herald and a chequered career as News, Feature, and Managing Editor at various times of the previous year's Gazette. Ex-Ed-in-Chief Bob McCleave remained with the paper as Feature Editor, very successfully directing the third page by remote control from Law School. A newcomer to the staff, but not to newspaper work, Jim MacLaren stepped out of the city staff of the Halifax Chronicle into the post of News editor, and promotion to Managing Editor followed in the second term. Unsuspected journalistic talents came to light when star basketball and ping-pong player Bill Pope undertook the editorship of the Sports Page, a difficult job for which he soon proved his competency.

A paper is only as good as its reporters, and among the top-notch news hounds this year were Studleyites Boris Funt, leading campus politics coverage, Jack Quigley and Marg Merrison correspondents on the sports front, and Neil McKelvey, equally at home in all repterial fields. On Forrest news scoops were handled by Bill Lawrence, and Meds hit the news and feature page regularly under the pen-pushing of Jim Campbell. Women's features were handled by Eileen Phinney, and the new post of editorial secretary, filing clerk, and general censor to the rest of the staff was firmly handled by Betty Atkins.

The unexciting but vital and painstaking work of Business Manager fell to Kevin Barry, who handled it with clear-headed mastery.

The cultural side of the Gazette, the Literary Column, was delicately edited, and in large part written, by Lou Collins, English student, satirist of note, and master of the bon mot.

This was a record year for special editions of the Gazette, and whatever other criticisms readers could find in the paper, they could never accuse it of monotony. Besides the regular Delta Gamma edition in Sadie Hawkin's Week (edited by Eileen Phinney), Arts and Science flashed forth with their own special number, under the editorship of newcomer Connie Archibald, who produced a Gazette which gave credit both to herself and the Society. Best of the faculty issues, however, was the Boilermaker's Bulletin, the Engineer's Edition of the Gazette. Backed by the funds of the Engineering Society and the support of the entire Draughting Room, the 40-Beer men proved accusations of their lack of culture and literary ability entirely false.

Other "specials" included the 75th Anniversary Edition, complete with full-size reproduction of the very first Gazette, history of the students paper from its founding in 1869, and a birthday message from the President. Final issue of the year startled both campuses, and brought both enthusiastic laughter and indignant protests upon the editors, but all in all, the former outweighed the latter, and the April Fool Edition, containing articles on everything from a Ph.D. for Dr. Martin's dog to a visit by Benny Goodman for the Con Ball, was judged a success.

Gazette D's went to MacLaren, Pope, cartoonist Don Corringham, and Boris Funt.

Striving always for the best interests of the students, presenting its readers with something interesting, something amusing, something new providing its staff with a lot of fun and a lot of hard work, attempting to remain worthy of the University it represents—that was the Gazette of 1943-44.

PHAROS

DALHOUSIE MUSIC CLUB

Most students who had faithfully sponsored the Music Club during the previous year having left college, there did not seem to be enough demand for such a club at the beginning of this session. The Club therefore did not hold any meetings during the first term.

Professor Bennett kindly acting as liaison officer for the Club was very fortunate in securing the support of Mr. R. C. Bedford, pianist and Head of the piano department at the Hfx. Conservatory of Music, who, in the capacity of the Director of the Club arranged the most enjoyable weekly meetings which the Club held during the second term. Harry Zappler was elected Assistant-Director, Harry Aikens Secretary and Betty O'Toole Treasurer of the Club.

Mr. Bedford selected the program numbers according to the taste of the members of the club and introduced the various numbers by short informal and yet very interesting remarks which generally resulted in a very lively discussion about music, composers, and the times they were living in.

A new feature in the activities of the Club was the production of "Masquerade," a musical comedy in two acts written and produced by Dalhousie students and presented on Munro Day under the joint auspices of the Glee Club and Music Club. The play starred such musical talents as Kay Archibald, June Grant and Theresa Monaghan as sopranos, D. Hamilton contralto, Don Corringham tenor, and Edith Greek pianist with Irene Spence and Sgt. H. LeFrois as guest artists and Betty O'Toole as comedian. The play was under the musical direction of Harry Zappler. A second performance was generally requested and it was greatly regretted that such another performance proved technically impossible in view of the approaching spring exams.

For the remaining five evenings the Club had one evening of All-Modern-Music, three evenings with recitals by Dalhousie talents and one with guest artists, such as Miss Portia White, soprano; Miss Jean Fraser, violinist and Mr. R. C. Bedford and Sgt. N. LeFrois, pianists.

The officers of the Club sincerely hope to have helped in kindling more interest for music on the campus and wish their successors best success.

CERCLE FRANCAIS

The Cercle Francais was begun two years ago under the leadership of Mlle. La Feuille and Professor Mercer. The meetings are held about once a month at Shirreff hall. The purpose of the Circle is to stimulate interest in French culture, and to improve our conversational French, in a social rather than a class-room atmosphere. The programs are interesting and varied. We have listened to records of French operas, enjoyed folk songs and games. John Hibbitts, Pres. gave some interesting readings about Trois Pistoles, Quebec, where he attended the summer School last year.

The first season the students presented a selection from "L'Avare," by Molière. This season Marivaux's "Le Jeu de l'Amour et du Hasard" was received with a great deal of enjoyment by the members.

Another manifestation of interest in French is "L'Epitre"—a student publication which has appeared in six editions of six pages each. This year James MacLaren was editor and many students contributed to the paper.

We wish to thank Mlle. La Feuille for her active support of both these endeavors and hope that in future years student participation will increase.

NEWMAN CLUB

The Newman Club of Dalhousie was established in 1919 and all Catholic students attending the University are members. The first Newman Club was formed by five students of The University of Pennsylvania in 1893 but since then Newman Clubs have been organized in every non-denominational college in the United States and Canada. There is now an international organization known as The Newman Club Federation. The officers for 1943-44 were: President, Tom Feeney, Vice-Pres., Theresa Monaghan, Sect-Treas., Laurie Smith.

KEN MacKINNON
President

THE STUDENT'S COUNCIL

Dalhousie's Students' Council has had a long and worthy history. Although we seldom realize it, such benefits as the Book Store and the telephone in the gym are direct results of Student Council backing and initiative. It is the duty of the council to supervise all undergraduate activity, and control all funds contributed by the students for their own ventures. It is also a court before which any student may be called in case of misdemeanour. D.A.A.C., D.G.A.C., the Gazette, Glee Club and Sodales come under its direct supervision, and grants are given to each after a careful examination of the budgets submitted.

This year the council was faced with serious problems, due in one respect to a decrease in enrolment, with a consequent serious drop in funds, and an unusually late presentation of budgets. It was found necessary to make cuts in most of the budgets. As a result the council was the butt of much rash criticism. Actually, congratulations are due to Ken MacKinnon, who, after the resignation of Tom Patterson, took over the important, job of president after a by-election in November. This meant that it was not until very late in the year that the council was in full working order.

It was decided not to hold a Red Cross Dance this year, but an energetic and successful drive was made to enlist volunteers as blood donors at the Red Cross Clinic.

The Student Council Dance was an unusually fine success.

One of the more important matters brought before the council had to do with the publication of *Pharos*. The decision as to whether or not the year book should be brought out or not lay in the hands of the students. It was decided that if an editor was forthcoming, the book should be published. Co-operation was forthcoming, chiefly from members of the graduating class, and work was started almost immediately.

The Arts and Science Society had its most vigorous year in a long time, and chief among its achievements was the Arts and Science Dance. Much enthusiasm was evidenced in the field of athletics, and the council saw to it that hockey, for which Dal. has been famous, was revived, and the King's rink was made available to the team. Members of Sodales were successful in a radio debate with members of the debating team of U.N.B.

The events of the year were climaxed by the program presented on Munro Day. This included supper in the gym, a square dance, and the usual presentation of awards. The Glee Club, in conjunction with the Music Club, presented a musical play, written and produced by Dal. talent. It was vastly appreciated by the largest crowd seen in the gym for a number of years. It is to be hoped that such enthusiasm as was shown by the students will not die easily.

All in all, the council, facing great handicaps, has this year fostered a display of Dal. spirit that proves that such a thing actually does exist, provided with the proper backing.

DAVID CHURCHILL-SMITH
President

COMMERCE SOCIETY

The Commerce Society carried on this year although under increasing difficulties and with a membership smaller than the year before.

Most of the senior members left to join the Services. The President Don Smith, who was elected for the year 1944, joined the Army; subsequently, at the first meeting of the current year, the Secretary-Treasurer, Dave Churchill-Smith, was elected President, Bill Pearce was appointed Secretary-Treasurer and Stella Myers retained her position as Vice-President.

Ruth MacInnes was the Commerce Council representative.

The following new members were welcomed into the Society—Norma Sherman, Norma Bryant, Barbara Campbell, Neil McKelvey and Bill Pearce. A great deal of credit must be extended to them for their effective help and cooperation in putting on the Society's dance.

It was decided to hold the annual Millionaire's Ball again this year. The date agreed upon was January 7th but owing to the Christmas holidays being extended, it had to be postponed until February 18th. Unfortunately there was not enough income to meet the expenses of the orchestra! However those who did attend said the dance was a success.

For the second year, the Society did not take any part in inter-faculty sport. However some of the members distinguished themselves in inter-collegiate sport. Norma Sherman played for the Girl's Senior Basketball team for the second year running. Neil McKelvey played football and Senior Basketball. Dave Churchill-Smith played on the hockey team.

It is hoped that a Commerce Society will continue to function next year even against increasing difficulties, because we hope there will soon come a day when it will regain its old pre-war status.

L'Épître Wins Laurels In Second Year of Publication

Great interest and enthusiasm on the part of the Dalhousie Student Body has accompanied the undergraduate French newspaper, L'Épître in its second year of publication at the University. Multi-paged editions of the paper rolled periodically off the mimeograph machine bearing material gleaned by the proletariat from all available sources of supply on Studley.

Compositions of serious and humorous vein, a column of jokes, an editorial and other interesting features comprise the various editions, the content of which flows from the spirited pens of undergraduate students taking one or more French classes at the University.

In L'Épître, Dalhousie can boast of a novel and highly successful venture which has proven interesting and instructive since its inception in November, 1942. Should the favourable response and cooperation of the student body continue, L'Épître can hope for many more years of health and happiness.

Editor again this year was J. C. McLaren, although greatest credit must go to Mlle LaFeuille—the "imprimeur-correcteur"—who is to be congratulated on her industry and patience in correcting faulty French and mimeographing the results.

CLASSICS CLUB

The Dalhousie Classics Club took its place among the most active campus societies, this year, through a series of entertaining evenings well-attended by senior students in Classics at the University.

Papers read by Dr. Roebuck, Miss Iris Martell and Miss Beryl Anderson, promoted considerable interest and encouraged periods of lively discussion and debate. Faculty hosts at the gatherings were Dr. A. K. Griffin, Major Logan and Dr. Roebuck, the last two meetings being held at the home of Mrs. Margaret Cornell, Henry Street.

The highly successful get-to-gathers of the Classics Club, this year, speaks well of the enthusiasm and cooperation displayed by its members, old and new. The fact that meetings begun at 8 p.m. generally continued 'til midnight testifies to the entertaining and profitable time had by one and all.

The meetings were under the chairmanship of J. C. McLaren, President of the Classics Club.

PHAROS

Donald Smith Ainsley Atkins Philip MacDonald
Claude Keays Richard Fraser

THE MEDICAL SOCIETY

At the first meeting of the Medical Society held early in October the following officers were elected: President—Claude F. Keays, Vice-President—J. Philip MacDonald, Secretary—Ainsley Atkins, Treasurer—Donald F. Smith, 1st yr. representative—Richard Fraser.

The business of the Book Bureau has been carried out under the management of C.F. Keays and H. P. Stewart. Due to war time difficulties it has been difficult to secure books, but in spite of this the year has been financially successful.

The last graduation took place Sept. 1st when 36 received their degrees. Of this number all but five are now on active service. The summer of 1943 witnessed the 2nd year of the accelerated course. It is reported that the accelerated course will be discontinued after this coming summer.

Meetings of the society have been held regularly since the beginning of the college year in September with a good attendance. The society is presenting a series of films on various subjects to be shown during the remainder of this term. It is hoped that these will prove instructive to all.

The present 4th year class joined the army in May, 1943 and will be the only class attending college this coming summer.

The Med ball is scheduled for March 10th and much more enthusiasm is being shown than has been in previous years. We are anticipating a successful dance.

Congratulations and good wishes to the next graduating class which will graduate at the regular convocation in May.

JOAN ARCHIBALD BLAIR COLBORNE ALEX MacDONALD
President *Vice-Pres.* *Sect.*

STUDENT CHRISTIAN MOVEMENT

<i>President</i>	Joan Archibald
<i>Vice-president</i>	Blair Colborne
<i>Secretary</i>	Alex MacDonald
<i>Treasurer</i>	Margaret Farquhar
<i>Social Convener</i>	Marion Moore
<i>Librarian</i>	David Coldwell
<i>Graduate Representative</i>	Beth Littlejohns
<i>Members at large</i>	Robert MacDonald, John Stewart.

BASIS AND AIM

The Student Christian Movement of Canada is a fellowship of students based on the conviction that in Jesus Christ are found the supreme revelation of God and the means to the full realization of life.

The Movement seeks through study, prayer and practice to know and follow Jesus Christ and to unite in its fellowship all students in the colleges of Canada who share the above conviction, together with all students who are willing to test the truth of the conviction upon which the Movement is founded.

The Movement desires to share with others the values discovered in Jesus Christ, and to join with those of like mind in all lands and of every race and rank in the creation of a world-wide order of society in harmony with the mind and purpose of God as revealed in Jesus Christ.

The Dalhousie S.C.M. conducts a number of study groups which constitute the main part of its program. Dr. H. L. Bronson leads first and second year groups in a study of the life of Jesus and Dr. W. J. Archibald conducts a third. Dr. G. E. Wilson leads a group in the study of Christianity in great men of literature. A group, "Understanding Ourselves" is led by Dr. O. R. Jones, and Dr. H. B. Collier leads a group on the World Mission of the Church. Informal student groups meet together on Tuesday afternoons for Bible study.

Delegates are sent to the National Council of the Student Christian Movement of Canada held each fall at Lake Couchiching, Ontario, where questions of national importance to the movement are decided. This year Joan Archibald and Blair Colborne represented Dalhousie.

At the beginning of the year a Maritime Planning conference was held at Sackville. Present was Rev. Gerald Hutchinson, National Secretary of the S.C.M., who visited the Dalhousie campus the following week.

A petition of the Canadian National Committee on Refugees was sponsored by the S.C.M.

Two delegates, Joan Archibald and Margaret Farquhar represented Dalhousie at a conference of North American Students, whose theme was Christian World Mission, held at Wooster, Ohio, during the holidays. During Federation Week in February, Helen Morton, of the World Student Christian Federation, George Tuttle of the United Church of Canada, and Surfitt Singh, an Indian student visited the Dal Campus to follow up the Wooster Conference.

Among S.C.M. visitors to the campus this year were Dr. James Endicott, Dr. A. J. Brace, Dale Brown of European Student Relief, and Rev. E. H. Johnson.

Plans are now being made for a bible study seminar of Maritime university students, to be held at Mount Allison in the Spring.

THE GLEE CLUB

Executive

President: Barbara White.

Vice-President: Joan Archibald

Business Manager: Arthur Hartling.

Stage Manager: William Hagen.

Faculty Member: Miss Marjorie Leonard.

Student Member: Elaine Hopewell.

BARBARA WHITE
President

This year, despite war time restrictions, the Dalhousie Glee Club presented an exceedingly varied program with much more student enthusiasm and participation than ever before.

The first presentation was that of the Frosh Show. This show was to be a complete musical comedy, with the age-old battle of Frosh v.s. Upper Classmen as the underlying theme. However, due to the illness of the president, it was discarded and a musical revue, was worked up by Bunny Levitz. To him we extend our thanks for taking over at the last minute and for making this show as successful as those of the past.

Because of the very keen interest in dramatics this year it was felt that a series of lectures on platform appearance, poise and personality would meet with universal campus approval. They were held weekly, during the first term, by Mrs. Karl Clarke and were well attended.

During the second week in February, two of the one-act plays, in competition for the Connolly Shield were presented. These were "When the Whirlwind Blows," directed by Mr. Robertson for Delta Gamma and "Happy Returns," directed by Mrs. Karl Clarke for Pi Beta Phi. They were an outstanding success and provided an entertaining contrast, one being purely comedy while the other was a political drama. During the last week of this month the Arts and Science Society presented the remaining one-act play under the direction of Art Hartling. This play was held during one of the worst snow storms in the history of Halifax. Instead of hindering the presentation, the eerie wailing of the wind afforded a suitable background for this play, which was a murder. Both the cast and the Glee Club appreciate the large number who donned ski clothes and ploughed their way to the gymnasium. On Monroe Day, Prof. C. L. Bennett awarded the Connolly Shield to Pi Beta Phi, with an interesting discussion on the relative merits and demerits of the three competing plays.

Our next show was the three-act play, "Return Engagement" by Laurence Riley. Under the professional direction of Mrs. Karl Clarke this play was acclaimed a great success. As we were unable to procure the gymnasium for a special performance in aid of the Red Cross, a collection was taken at the first performance and the proceeds of over \$100 turned over to the Red Cross Drive.

On Monroe Day, a musical comedy in 4 acts was presented under the direction of Harry Zappler, Dentistry '46. This was the first performance of its kind in 10 years and was written, produced, directed and staged by Dalhousie students with the assistance of Mlle. Lafeuille and Miss Leonard of the Dalhousie faculty, Mr. Bedford of the Halifax Conservatory of Music and Sgt. Le Frois of the American Army. This production lasted 2 hours and was thoroughly enjoyed from start to finish. To the 65 students who took part in its presentation we humbly say thank you. As the Gazette stated "This comedy put glee into the Glee Club."

Having wound up this year in such a gigantic manner we wish to extend sincerest greetings to next year's executive and hope that we have set them a precedent they will follow and improve upon.

MARY KINLEY
Vice-Pres.

CHARLIE O'CONNELL
President

TED KING
Sec.-Treas.

The 1943-44 session of the Law School commenced with twenty-four enthusiastic students. Charles O'Connell as president of the Law Society, was capably assisted by Mary Kinley, Vice-President, and Ted King, Secretary-Treasurer.

Owing to the absence of Dean MacDonald, who is now Assistant Deputy Minister of Labour at Ottawa, three practising Halifax barristers have been added to the Faculty as lecturers. They are Mr. Gordon Cowan of the firm of **Stewart, Smith, MacKeen and Rogers**, and Mr. John MacQuarrie and Mr. Arthur Pattillo of the firm of **Macdonald, McInnes, MacQuarrie and Pattillo**.

This year saw many innovations in the curriculum of the third year. During the first term a number of outstanding lawyers lectured on practical problems which daily confront the legal practitioner. The various topics were dealt with by Mr. H. P. MacKean, Mr. Leonard Fraser, Mr. H. C. Oxley, Mr. Clyde Sperry, and Mr. Arthur Meagher and Mr. F. W. Bissatt. In the second term these lectures were replaced by a course in Taxation given by the Mayor of Halifax, Mr. John Lloyd, C.A. The course will prove of great benefit to the future lawyers who are about to take their place in the tax-burdened world of to-day.

In student affairs, the Law School played its usual role. It was ably represented on the Student Council by the President of the Law Society, Charles O'Connell; and in the field of sport, Lawrence "Mucker" MacIvor, who through his entire University career has been an ardent athlete, was president of the D.A.A.C.

Because of the small enrollment, the Law Ball, which is the most outstanding University function during the first term, had to be forfeited. However, as the spring term draws nigh, the Society is anticipating with much pleasure our annual Law Banquet.

After Graduation, many of the law students, and particularly those of the Graduating Class, will enter the Armed Forces. It is the heartfelt hope and sincere wish of all the students that they will be able to take their rightful place in their chosen profession in the not too distant future.

DELTA GAMMA

SUSAN MORSE
President

The past year has been an active and successful one for Delta Gamma, the Society of all Dalhousie girls. The girls have been successful not only socially and financially, but also in the accomplishment of their greatest project, war-work.

Since our first meeting in October, when many Delta Gamma girls were enrolled in The Women's Voluntary Service, we have been working steadily through this organization. During the Autumn Term, girls did knitting, canteen work, and answered many special calls, while in the winter term, our work was far more widely extended. Delta Gamma girls helped in canteens three or four days every week, and at the Magazine Exchange one day each week. Other volunteers took a course in Play Therapy at The Children's Hospital, sold War-Saving Stamps in the lobbies of theatres, attended a dancing class for Service men at the North End Canteen, knit for the forces, and answered special calls. Muriel Barry, Joyce Nicholson, Margaret Morrison and Laura MacKenzie, deserve great credit for organizing this work.

Girls not enlisted in the W.V.S. found other ways in which to do their bit. Some attended First Aid and Home Nursing classes given at Shirreff Hall; others knit for the Red Cross under Miss Mackeen's supervision; still others helped in the Red Cross Motor Transport Corps, and at The Canadian War Services Library. The Delta Gamma girls of Shirreff Hall made a large contribution of clothes to the Greek Relief.

In the campaign for Blood Donors this year, Delta Gamma again came to the fore. Fifty girls gave their blood in the autumn Term, and fifty-seven in the winter term.

On February 7th, the girls of Delta Gamma gave a dance at Shirreff Hall for eighty sailors off motor launches. There were refreshments at intermission and a floor show which met with loud applause. The boys seemed to have a wonderful time, and their captain afterwards wrote, "The dance was proclaimed an outstanding event, by all who were fortunate enough to attend."

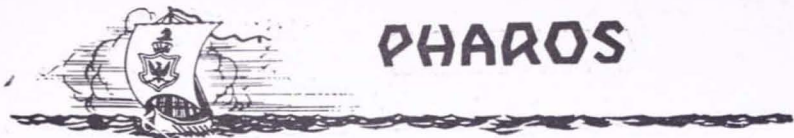

The Delta Gamma Open Houses, and Sadie Hawkins Dance were equally successful. There was a large crowd at both the first Open House on October 16th, and the second one on January 22nd. The profits from these two evenings, helped to pay for the Service Dance. A third Open House is scheduled for March 11th. On February 25th, the gym was filled with an uproarious crowd at The Sadie Hawkins Dance, whose pictures in this book best show the success of the dance. The profit of over fifty dollars will be turned over to a war project.

With Eileen Phinney as Editor, Delta Gamma again put out an issue of the Gazette, and was complimented on this issue by the regular staff. Eileen Phinney also managed the Delta Gamma one-act play, entered in the competition for the Connelly Shield.

Debating was under the capable management of Anita Resenblum this year. Due to sickness, both debates were held after Christmas, the first with Acadia and the second with Mount St. Vincent. Both debates were lost but not without a good fight.

This year has been an exceptionally good one for women's sports at Dalhousie. There has been far more interest in all sports, especially basketball. Accounts of the various games and trips will be found elsewhere. The president of the D.G.A.C., Ann Saunderson, deserves great credit for her organization of this society, which is responsible to Delta Gamma.

The success of Delta Gamma this year has been largely due to the conscientious work of the Executive, and of the various committees for war-work and social activities. The president wishes to thank these girls for their co-operation, and wish the society every success in the coming year.

PHAROS

SCOTT GORDON
President

SODALES

1943-44 was the most successful year for Sodales Debating Society for quite some time. Members of the society took part in three inter-collegiate debates during the year and won two of them.

The first debate was with St. Thomas College, the Dalhousie debaters being Donald Harris, Pre Med, and Neil McKelvey, Pre Law. The topic was that Canada should annex herself to the United States and the Sodales team was successful in upholding the negative contention.

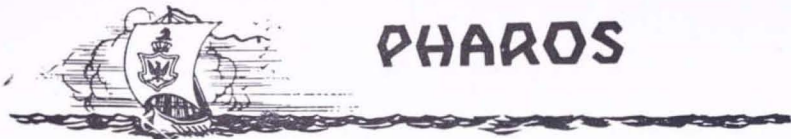

The second debate, a radio presentation, was the first program of its kind to be heard over C.H.N.S. for many years. The Sodales team was made up of Bob MacCleave, Law, and Jim MacLaren, Arts. The subject was the same as that of the St. Thomas debate, Dal upheld the same side but this time Dalhousie was the host and the opposing team was from the University of New Brunswick. An unexpected snow storm prevented the program from being presented at the scheduled time, but it was recorded and was heard at a later date. Dalhousie was the winning team in this debate also.

The third debate, with St. Mary's College, was also presented over C.H.N.S. The subject had to do with the partition of Germany upon the conclusion of the present war, the Dal. team upholding that contention. The sodales debaters this time were Allan Blakeney, Pre Law, and George Hawkins, Arts, who presented very convincing arguments in favor of their side but the decision was awarded to St. Mary's.

A great deal of interest was engendered by the two radio debates, not only on the campus but in other parts of the city. One result was that more interest is now being shown in debating at Dalhousie.

Officers of Sodales for the year were: Scott Gordon, Pres., Ted King, Vice Pres., and Allan Blakeney, Secretary. The only award given by the society during the year was a gold "D" to Scott Gordon.

PHAROS

MIDLOTHIAN

Midlothian Society has been active on the campus for seventeen years. It is named for the county in Scotland from which the Earl of Dalhousie came, and had its beginning as a discussion group on a variety of subjects. But before long it became purely literary in its interests, and a book, usually contemporary, is reviewed each week by one of the members.

The meetings are held every Monday afternoon at four-thirty, in the ground floor sitting-room at Shireff Hall. Refreshments are served before the review begins. Miss McKeen is the honorary president, and each year has kindly consented to review a book, usually at the last meeting before Christmas. This year she read **Grand Parade** by G. B. Lancaster. The book was thoroughly enjoyed, more especially because of Miss MacKeen's interest in, and knowledge of, Halifax and its history.

The enthusiasm that has been shown for Midlothian by its members has ensured for it a long history, and a bright future.

President—JOAN VAUGHAN,

Secretary-Treasurer—LAURA MACKENZIE

Social Convener—SUE MORSE

THE ENGINEERING SOCIETY

The year 1943-1944 has been a successful one for the Engineering Society under the capable direction of President Bill Hagen.

The officers of the Society included John MacQuarrie (Vice-President), Jack Winterbourne (Sec.-Treas), Frank MacKay, and Gus Oakley.

The annual trip was held at the Halifax Shipyards, due to wartime travelling restrictions, and proved to be of great interest and value.

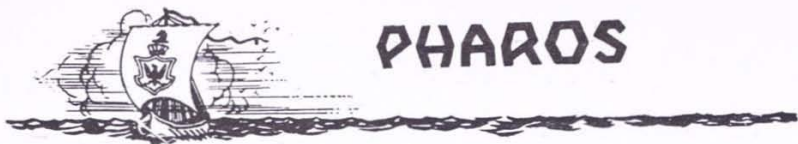

The two other highlights of the year were the "Boilermaker's Ball" and the Engineers Banquet, both of which were highly successful.

The Society extends to the graduating class congratulations and best wishes for success.

THE DENTS

PHAROS

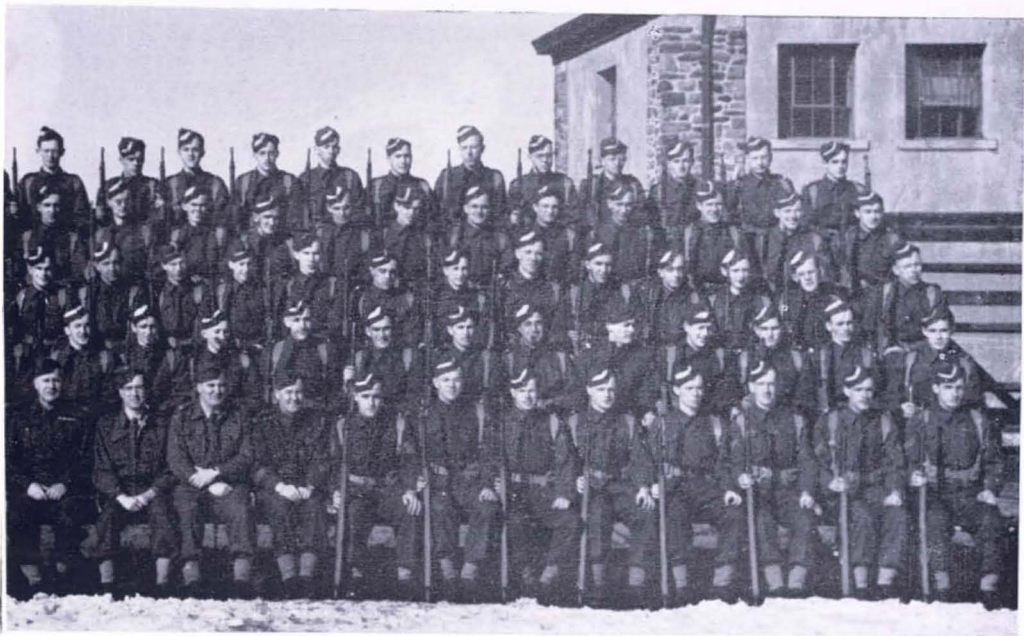

CANADIAN OFFICERS

The Canadian Officers Training Corps is one of the largest and most enthusiastic organizations on the campus. While others are bewailing the fewness of their members and the lamentable disinclination of those few to take an active part in meetings, this is able to attract more than half the student body, not only to large meetings over the weekends on the football field, but also to smaller and more intimate sessions on week nights in the gymnasium. The unkind say this is because a certain compulsion keeps attendance high.

The unit at the first of the year saw a number of changes in command. Lt.-Col. C. B. Smith, M.C., and Major R. V. Hogan were replaced as commanding officer and chief instructor by Lt.-Col. Jones and Major R. E. Faulkner. Major Hogan, whom many had known more or less intimately throughout their college careers, left to become Liaison Officer at Headquarters between the active and reserve armies. The two departing officers had become well-known campus figures, and the two new officers are fast coming to occupy a similar place. Their attitude of sympathy, co-operation and understanding has won for them the respect and admiration of all the men in their corps.

PHAROS

TRAINING CORPS---COTC

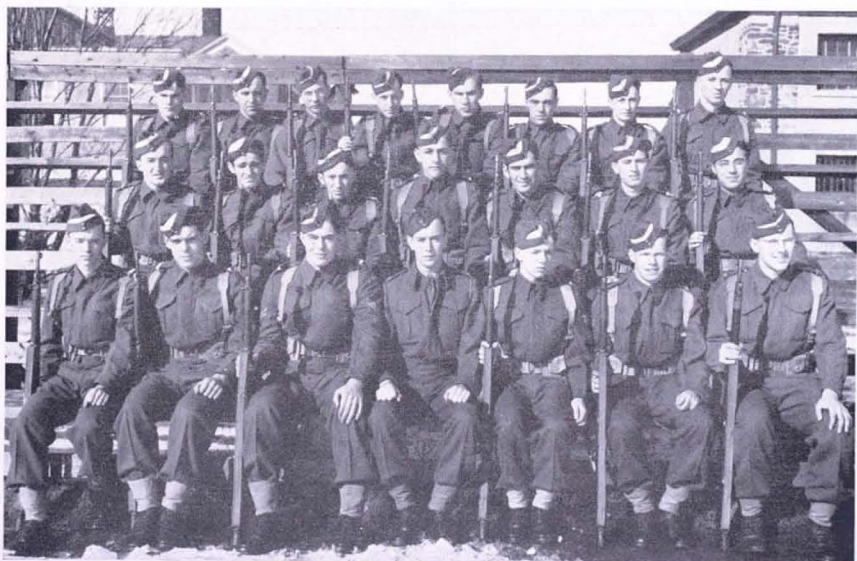

For purposes of training, the unit is divided into seven platoons, with the division based on the number of years men have gone through the work. That is, men in number one platoon have taken the drill for three or four years, while the men in numbers six and seven are just starting, and will take their drill next year in four or five. Platoons two and three are medical platoons with a special syllabus adapted to the needs and interests of medical students.

The syllabus of training during the year was enlarged with a view towards making it more interesting and more attractive. An attempt has been made to show how Canada's active army really works, how it is organized, and how it is an efficient fighting weapon. Motion pictures have shown such phases of training that cannot well be carried out or demonstrated with the facilities the COTC has at its disposal.

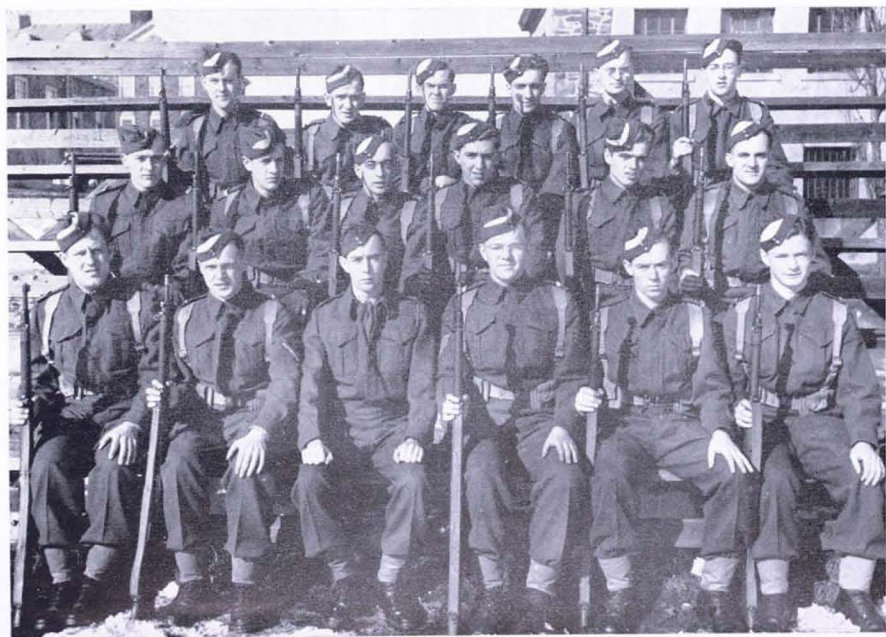

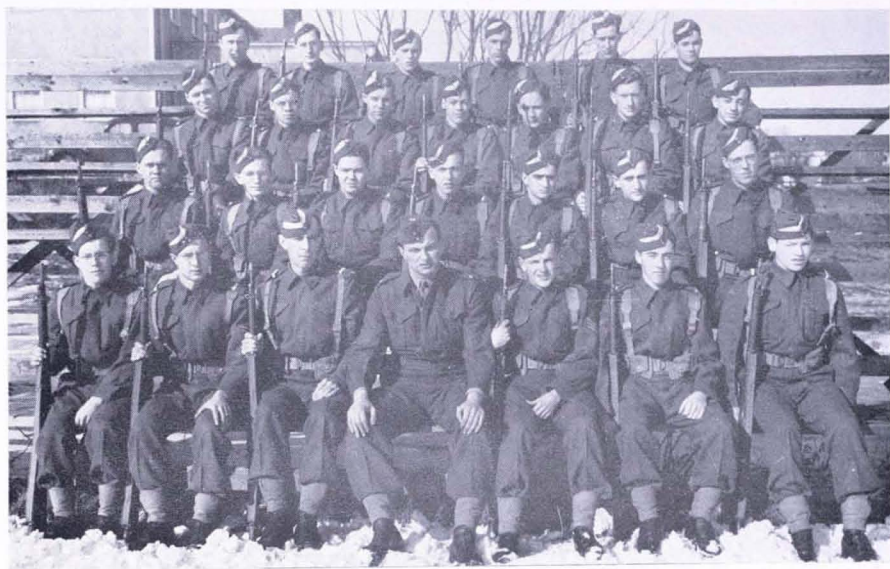

The six hours weekly training during the winter are but the prelude to the more intensive two weeks at Aldershot Military Camp immediately after Convocation. This marks the high point of the year's military activities.

UNIVERSITY NAVAL TRAINING DIVISION U. N. T. D.

The scholastic year 1943-44 witnessed the arrival of the Navy on the Dalhousie Campus, with the formation of a University Naval Training Division.

Students who join the U.N.T.D. are a Divisional strength and when they finish their courses will be called into active service by the Navy.

The course, designed for students contemplating eventual active service with the navy, consists of six hours per week stretched over a sixteen week period plus a two-week-camp in the early summer. Members of the U.N.T.D. parade every Thursday in the Munro Room, at the Forrest Building from 7.30 p.m. to 9.30 p.m. and on Saturday afternoon they journey to H.M.C.S. Stadacona and parade from two until six o'clock.

Dalhousie, Kings and Nova Scotia Tech are all represented in the division. Headquarters have been set up at the Forrest Building, because it is a convenient commuting point. All faculties of the university with the exception of Medicine and Dentistry are represented in the U.N.T.D. Technicians and Engineering students enlist as second class stokers, while Arts, Science, Commerce and Law students follow the prescribed syllabus for ordinary seamen.

What type of training does a student receive in the U.N.T.D.? Along with a minimum of rifle and squad drill, instruction is given by competent instructors in the following subjects: Compass and Helm, Knots, Naval Law, Morse and Semaphore signalling, Rank Badges, Lead and Line, Parts of a Ship, Flags, Types of Ships, Boats, General Organization of the Navy, Kit, Duties of a Ships Company, Service Customs etc. The members of the division find these courses interesting, realistic and practical.

Commanding Officer of the U.N.T.D. is Prof. F. R. Hayes with the rank of Lieutenant-Commander (S.B.) Lieutenant W. E. Flavelle (R.C.N.V.R.) is Divisional Officer of the U.N.T.D. The other full-time member is Leading Seaman Kinch (R.C.N.) who is the instructor for the Division.

There are fourteen Dalhousie students in the U.N.T.D.—eight stokers and six ordinary seamen.

What benefit does a student derive from the U.N.T.D.? It is intended, as we have already said, to benefit primarily those students who will eventually join the navy. It helps make the transition from civilian to naval life easier. The policy in the Royal Canadian Navy at the present time is that all commissioned officers must serve a certain time on the "Lower Deck." The U.N.T.D. gives all its members an opportunity to appear before an Officers Selection Board. If a member is selected, he takes a special course which eventually leads to a Commission. The training or background he has received in the U.N.T.D. will serve him in good stead while he is on this course and will enable him to compete successfully with personnel who came from the "Lower Deck".

Twelve members of the U.N.T.D. from Nova Scotia Tech have spent a day at sea. They said it was an interesting experience. Arrangements have been made whereby the remaining members of the U.N.T.D. will spend a day at sea before the school term ends. Members of the division will also be given a chance to go "Active" during the summer vacation if they so desire.

PHAROS

UNIVERSITY AIR TRAINING CORPS U. A. T. C.

No. 16 Squadron of the University Air Training Corps started off the year with vim abounding. A large number of new members joined the unit and a second flight was formed for these first year men. No. 1 flight consists of students who were in the corps last year and who proudly call themselves ACI's. No. 2 flight contains the new men of the unit. Total strength of Dalhousie's U.A.T.C. now stands at 64, the unit having lost several members to the R.C.A.F. Special Reserve during the term.

The University Air Training Corps is a branch of the R.C.A.F. which is constituted to give training in advance to those college students who might be interested in joining the Special Reserve of the Air Force at a later date. Candidates for Ground Crew find that the familiarization with the Air Force they gain in U.A.T.C. is a definite advantage. It is, however, those who intend to be Air Crew that gain the greatest advantages. Personell who have successfully completed the full two years training examinations in the U.A.T.C. are exempted a period of basic training at Manning Depot and may be available for immediate posting to Initial Training School. Best of all, the time at I.T.S. is cut down from approximately 2½ months to about 3 weeks.

One year of U.A.T.C. training means 125 hours through the college term and two weeks at summer camp which last year was held at No. 8 Service Flying Training School at Moncton, New Brunswick. Along with a minimum of drill, instruction is given in the following subjects: Aircraft Recognition, Navigation, Mathematics, Airmanship, Signals, Law and Administration, Meteorology, Health and Sanitation Anti-gas, and Practical Flight. These courses are taught by competent, full time members of the R.C.A.F. from nearby stations of Eastern Air Command.

The Commanding Officer of the Unit is Squadron Leader Theakston of the University Faculty. Our popular administrative Officer is Flight Lieutenant Comeau who is highly respected both as a leader and as a man by all the members of the squadron. Our drill master is Sergeant Rogul. Defying all the principles of cartoon sergeants, our 'sarge' is a friend of everyone in the unit. Flight Sergeant Cochrane, the administrative N.C.O. is the third full time member of the squadron. 'Flight' recently flew into the unknown skies of matrimony. We wish him and his new co-pilot all the best. Each flight now has its own student N.C.O.'s. Those of No. 1 flight are Sgts. Harvey and R. Jeffrey, and Cpls. K. Jeffrey and Johnston. Sgts. Ernst and Steward and Cpls. Ritchie and Mingo are those of No. 2 flight.

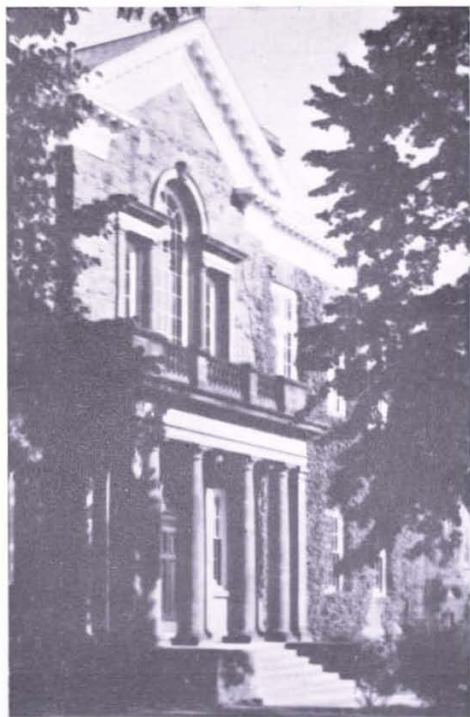

In November Kol Antoft, a member of the unit last year and now in the R.C.A.F. told us of the great help U.A.T.C. training had been to him. He especially impressed us by telling us of the weeks of drill from which it had spared him.

Early in December we were favored with a visit from Flight Lieutenant Chisholm who was received back from overseas. He told us about Air Force training and about his actual experiences on the war front. In a humorous way F/L Chisholm told us of the not-so-humorous job to be done.

Training now is progressing well and in the near future will be featured by visits to near-by operational bases of the R.C.A.F. The boys tell of the fine time they had at camp last year and everyone is looking forward to the coming camp. We are assured of a really good experience.

THE MacDONALD MEMORIAL LIBRARY

ATHLETICS

1st Row: Joan Silver, Jo Robertson.
2nd Row: Laurie Bissett, Mary Bissett, Miss Leonard, Anita Rosenblum, Marg Morrisson, Mgr.

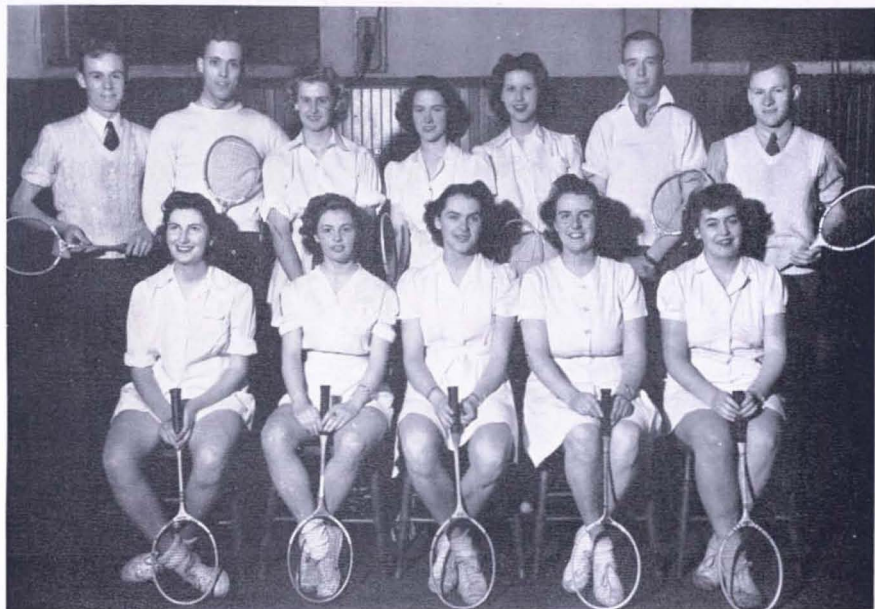

1st Row: Sirlol Lewis, Marg Morrisson, Joyce Hart.
2nd Row: Miss Leonard, Marg MacPherson, Virginia Phillips, Connie Archibald.

GIRLS BASKETBALL

Girls' Basketball has been very successful this year. The turnouts have been large and the standard of playing very good. Practices were held Tuesday nights and Thursdays at 5.30 but no suppers were given as the budget was cut this year. Nevertheless the first team had a very enjoyable trip to Mount A, bringing back a victory of 22-13. The return game was played in Halifax when Mount A won 24-10. Dal also had a game with the Wrens from Stadacona which we lost and one with Acadia, in Halifax which we won 28-15. A friendly game has been arranged with Edgehill, when Dal will go there to play. We wish them all luck because they have played well this year, so far with 2 wins and 2 losses. Two teams have been picked this year consisting of the following: Ann Sanderson, Kay Cox, Anita Rosenblum, Jo Robertson, Joan Silver, Laurie Bissett (first team), Mary MacDonald, Virginia Phillips, Joyce Hart, Norma Sherman, Sirlol Lewis, Mary Bissett, Connie Archibald and Marg Morrisson (second team and subs) most of whom will receive Felt D's.

Manager—MARGIE MORRISON

PHAROS

1st row: Connie Archibald, Norma Sherman, Laura MacKenzie, Pat Hollis, Virginia Phillips. 2nd row: Gordon Hart, Jimmy Bell, Jo Robertson, Kay Cox, Janell McDonald, Dave Churchill-Smith, Bill Pope.

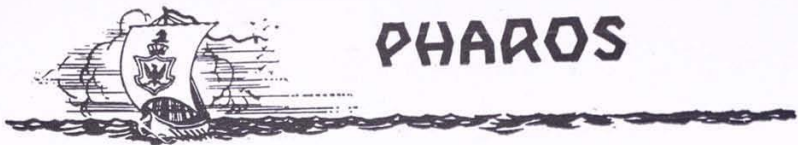

BADMINTON

Under the leadership of Laura MacKenzie and George Smith the Dalhousie students had a most successful badminton year. Unfortunately we were unable to arrange a league and for this reason lost touch with our professors and to a certain extent our alumni. Every Monday night, however, there was a good turn out of both experts and beginners who had good practice and a lot of fun.

We arranged to play the following outside teams:—H.M.C.S. Kings, Queen Elizabeth High School and the Royal Canadian Air Force. We are indebted to Professor Maxwell for helping to arrange and conduct these tournaments. We would also like to thank Marjorie Lennard for her interest in the badminton team.

The annual tournaments to decide the University Champions were played during the week of February twenty-eighth. The winners of the various events being as follows: Men's singles, George Smith; Ladies' Singles, Virginia Phillips; Men's Doubles, George Smith and Bill Pope; Ladies' Doubles, Virginia Phillips and Kay Cox and Mixed Doubles, Virginia Phillips and George Smith.

It is now three years since badminton was considered a major sport, and for the first time in the History of Dalhousie eligible players have been awarded Gold D's.

1st Row: Eric McKenzie, Art Burgess, Bob Wade, Ken MacLennan, Gordie Hart.
 2nd Row: Dick Currie, Dave Churchill-Smith, Alex Farquhar, Pete Flynn, Ray Liberson (Capt.) Nat Epstein, Neil MacKelvey, Jimmy Bell.
 3rd Row: Les MacLean, Mgr. Sigger Roy, Jim MacDonald, Jim Ruse, Jim Henderson, Lloyd Allan, Eric Jardine, Art Marshall, Coach Ralston.

FOOTBALL

Manager - Les MacLean

In spite of increased difficulties imposed by a rigorous wartime schedule, the Fighting Tigers of 43-44 upheld the honor of their name. This was not an easy task, as only a few of last year's lineup remained to form the nucleus around which the new team was built. The majority of the players on both the Senior and the Intermediate team consisted of freshmen and men coming in from our sister Universities, the latter forming the mainstay of the Senior scrum.

After losing the first game to Army and the second to Acadia the Tigers began to hit their stride, scoring three glorious victories over Navy, Army, and Navy again, the scores being 14-3, 8-5, and 10-3 respectively.

The game at Wclville proved to be the highlight of the season. Dal lead her ancient rival through a mire of mud and rain to be on the high side of a 5-3 score, until with three minutes to go, the desperate Axemen dribbled across the line to rob the Gold and Black of what seemed to be a certain victory. This was a heartbreaking climax for the players and for their enthusiastic supporters, however, when it is considered that Dalhousie won 50% of the total games played, the season may be remembered as having been fairly successful.

The Senior and Intermediate teams each had players, who are already outstanding, and players with definite possibilities, whom we hope to have with us in future years. These men, under the skilled guidance of Coach Ralston, should be well equipped to regain some of Dalhousie's past glories, and even add fresh laurels to her revered name.

PHAROS

1st Row: Zen Graves, Pete Flynn, Gordon Ruse, Gerry Lantz, Dick Currie.
2nd Row: "Red" Payne, Ken MacKinnon, Ken Wilson, Bob MacDonald, Marty MacDonald, Bobby Wade, Dave Churchill-Smith, Ed Crowell, Doug Clarke.

HOCKEY 1943-44

There was no Dalhousie Hockey team during the 1942-43 season due to lack of finance and interest. There was, however, a number of young enthusiastic hockeyists, many of whom are at the University this year. Once again the factor of cost of operating a team, and the formation of a league faced the Dal hockey players. Bob Saeley was appointed Manager, but before the season got under way, Bob joined the R.C.A.F. and Doug Clark, Asst. Man., was appointed to the position of Manager with D. Churchill-Smith as Assistant Manager.

January saw the formation of an Inter-Services League consisting of the C.O.T.C. units of Dalhousie, St. Mary's College and Nova Scotia Technical College and H.M.C.S. Kings. It was decided to play a home and home series with the three top teams entering in a play-down series. I am sorry to have to report that except for the Dalhousie players, there was very little interest taken in the support of this athletic sport, and this is inexcusable as Hockey should be one of the biggest attractions of any University.

We were very fortunate in obtaining the coaching services of that well-known Halifax Crescent star of a few years ago, in the person of Vincent Ferguson. "Vince," as he is known to the boys, built up a fine team from high-school material and succeeded in defeating H.M.C.S. Kings, who had previously lost only one game for the season to the Halifax Navy of Senior League Hockey.

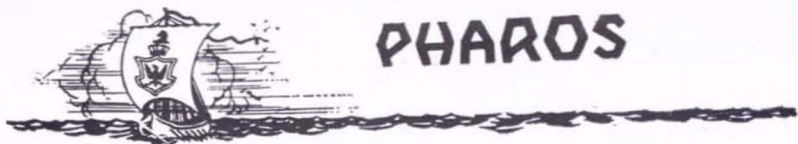

At time of writing Dalhousie stands near the top of the league having won three out of five games played. It would be unfair not to mention the brilliant goal-tending of Ken MacMinnon, Pres. of Student Council, who saved the day for his team when defeat would seem apparent. The forwards Dick Currie, Dave Churchill-Smith, Gerald Lantz, Martin MacDonald, Ken Wilson, Bob MacDonald, Peter Flynn and Eddie Crowell did credit to the Dalhousie uniform in every game and deserve much more enthusiasm and support from the student body in the future Dalhousie games. The two mighty, but small, defence-men Bobbie Wade and Zen Graves performed excellent team work and used every ounce of their 140 pounds to great advantage in body-checking the heavier opponents of the other teams.

Congratulations to Dalhousie Hockey team 1943-44 best of luck for the future in the hope that once again Dalhousie will occupy the Maritime Hockey Throne.

INTER-FACULTY HOCKEY

Much interest was shown in Inter-faculty Hockey this year with entries from Medicine, Engineering, Arts and Science, Freshmen and Pine Hill. The use of King's out-door rink was obtained for the playing of games, but mild weather with a couple of snowstorms has withheld the playing of most of the games scheduled.

At time of writing, only three games have been played. Engineers defeated Medicine and Arts and Science, and Medicine tied with Pine Hill. It is hoped that the series may be completed at the arena when the Senior teams have finished with their practice hours.

PHAROS

1st Row: Carl Giffen, Doug MacKenzie, Saul Greene (Capt.) Alex Farquhar, Hank Votan.

2nd Row: Burnie Ralston (Coach), Bill Pope, Bob Knight, Neil MacKelvie, Blair Dunlop, Vic Clarke, George Smith, Mgr.

DALHOUSIE BASKETBALL TEAM

This year's basketball team has suffered many defeats. The team, though not the worst in the league is the unluckiest. Of the games lost, many have been lost by one or two points. To wind up the year, the Tigers have finally struck their pace, and are starting to win, but this has come too late in the season.

The team consists of S. Green (Captain), C. Giffen, N. McKelvey, and Voutour, Guards; A. Farquhar, R. Knight, W. Pope, B. Dunlop, and G. Hart, Forwards; Burnie Ralston, Coach, and G. Smith Manager. The team is almost entirely composed of players new to Dalhousie, only S. Green, G. Hart and W. Pope being from last year's squad. So, let's hope for better things next year.

1st Row: Marg Morrison, Barbara Hendry.
2nd Row: Laurie Bissett, Mary Bissett, Joyce Hart, Lois Burns.
3rd Row: Charlotte Studd, Elaine Dalaps, Miss Leonard (Coach), Kay Wiswell, Joan Silver.

GROUND HOCKEY REPORT

Manager Joyce Hart

This year many star players from Edgehill and H.L.C. arrived at Dalhousie to set off a new enthusiasm for ground hockey. Despite the usual mud and fall weather, the enthusiasm lasted throughout the season. Two heated games were played with outside teams, the first with Edgehill and the second with H.L.C.

The game with Edgehill was on Nov. 6th. Much to our amazement, we all managed to catch the ten to eight train, arrived in Windsor and had lunch at Edgehill. Our first glimpse of the field displayed a sea of mud and puddles. However we stepped forth to put up a good fight and lost 2-1.

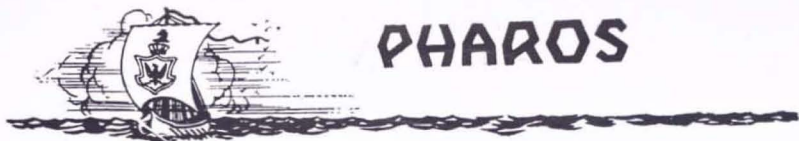

Our last match was with H.L.C., which we played on our own field. It was another hard fought match which ended in a tie—3 all.

Our annual game with the boys finished up the season. Although the score was too high to mention in favour of the boys, their victory ended an active and enthusiastic year.

AWARDS

THE MALCOLM HONOR AWARD

As an appreciation of her unselfish and efficient service to the University, the students of Dalhousie are proud to present The Malcolm Honour Award to Susan Morse; The highest honour which can be conferred upon a graduating student. As House President of Shireff Hall, President of Delta Gamma, Life Secretary-Treasurer of Class of '44, clever scholar and active campus leader, Sue has always personified those fine qualities set before us as a shining example by Jimmie Malcolm.

Susan Morse

Constance Archibald

PAN HELLENIC AWARD

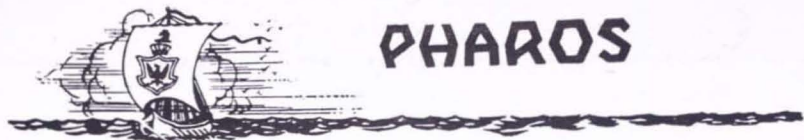

This award was instituted five years ago and is presented by the two women's fraternities on this campus, Alpha Gamma Delta and Pi Beta Phi. The award is made to the most outstanding Freshette in scholarship, extra-curricular activities, personality and character. Miss Constance Archibald of Truro, has been chosen Panhellenic Award winner for 1944. Connie's activities have included badminton and basketball, Glee Club and Gazette. She has made a real contribution to campus life and we wish her additional success in her future years at Dalhousie.

THE BOB WALTER MEMORIAL AWARD

The Bob Walter Award was instituted three years ago in remembrance of Bob Walter, an outstanding Engineering student, who lost his life in a hunting accident. Each year the award is given to a graduating student, who best exemplifies the qualities which Bob Walter himself possessed—The qualities of fellowship, sportsmanship and scholarship—This year the Engineering Society bestowed this high honour on Gerald Lantz—Congratulations, Gerry!

In Our 1944 advertising, we at Swift's are happy to support the Canadian government's campaign for food conservation. In doing so, we urge housewives to make meat go as far as possible, at the same time pointing out the importance of meat in the diet. Below we print Martha Logan's 5 cardinal points of meat conservation:—

1. Buy Wisely: Plan your meals well ahead but be open-minded when you shop. Buy only what you need.

2. Store Carefully: Don't risk spoilage. Wrap uncooked meat loosely and store in coldest part of refrigerator. Remember ground meat should be cooked as soon as possible.

3. Cook Correctly: You can save $\frac{1}{2}$ lb. on 4 lbs. roast by cooking slowly at 325° instead of the conventional 450° and the meat is juicier too!

4. Carve Properly: Particularly in larger families where roasts and pot roasts are an economical buy, proper carving with a sharp knife may give you an extra meal from your roast.

5. Use up Completely: Here is the test of a good cook. Famous French chefs owe their fame to savoury ragouts and fricasses (in plain English, stews), because the French have learned never to waste food.
