DR. HUGH P. BELL

Dr. Bell graduated from Dalhousie in the class of '12. His post-graduate work was done at Dalhousie and Toronto. After distinguished service in the First World War, and completion of his study at Toronto he joined the Department of Biology where he taught with great success until his retirement a few years ago. He had at all times a keen interest in research and he continued this activity to within a few days of his death.

Dr. Bell was able, like all great teachers, to attract students by bonds, not only of admiration for his skill, but also of affection for his person. He will be regarded as one of the great teachers in the history of Dalhousie by future generations of students for they will have heard their fathers and their grandfathers speak of him in terms of highest praise.

PROFESSOR WILFRED BERMAN

Professor Berman served as an Instructor with the Navy during the war after which he studied Commerce at McGill. He joined the Dalhousie Commerce Department in 1949, where in addition to a heavy teaching schedule he found time to undertake work in Adult Education, to serve on a Royal Commission, and to attend a course at Harvard University.

The Principle—"He who serves most, is loved most", was perfectly demonstrated in the life of Professor Berman. All students became convinced of his real interest in them as persons. The spontaneous expressions of regret on the occasion of his death, heard on all sides from present and former students, form the best possible tribute to his memory. The significance of a life lies in its quality, not its duration, and friends and family of Professor Berman find solace in recalling the kind of man he was.

The President's Message

I am happy to acknowledge the debt of the University to the editors of *Pharos* for the time and effort they have expended on this pictorial review of student activities in the year 1957-58. It will serve as a permanent reminder to all of us, and particularly to the students directly concerned, of some of the outstanding campus events of the year. It may also furnish prospective students who are still in high school with a true reflection of the lighter side of University life. Anyone who wishes to know how Dalhousie students employ their time must consult *Pharos* as well as the University Calendar.

The past year will be outstanding in the annals of the University for three things. The first was the creation of the office of Chancellor and the choice of a great Canadian statesman and former Dalhousie professor, the Right Honourable C. D. Howe, as the first incumbent. The second was the announcement by the Sir James Dunn Foundation of a gift to Dalhousie, by far the largest benefaction that the University has ever received, to finance the construction of the Sir James Dunn Science Building; Lady Dunn herself graciously came to Halifax and turned the first sod on the site in a simple but impressive ceremony. The third was the completion of the fine new Dental Building which stands on the corner of Robie Street and University Avenue, realizing a cherished dream. These developments show that Dalhousie is moving steadily forward, and are an earnest of other improvements yet to come.

The year will be remembered in history as the one in which man succeeded in launching the first Earth-satellite. There is no doubt in the minds of scholars that this is a momentous achievement in the progress of science. It has certainly disposed all thoughtful people to-day to believe that the possibilities of understanding and controlling the forces of nature and harnessing them for human ends are very far from exhausted. You, the graduates of 1958, will see many new things in your lifetime, things of which most of us have no pre-vision whatsoever. It is our earnest hope that you will both see and in due measure contribute to the progress of your generation along many lines especially its progress towards nobler living and international peace. Amid the splendid conquests of science may you yourselves be "more than conquerors" in the profound sense in which that phrase is used in the Holy Scriptures. God bless you all!

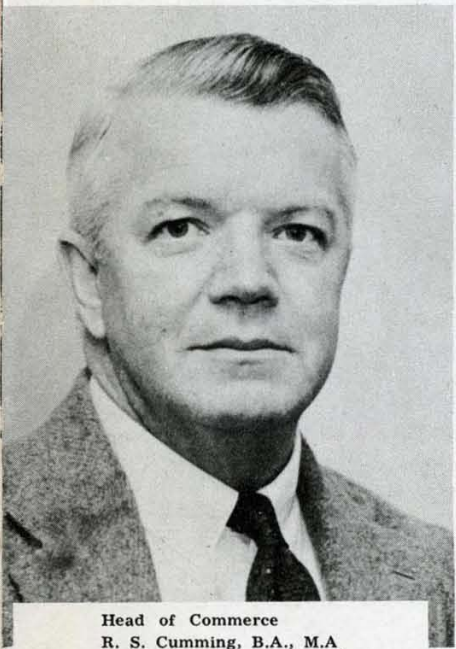

As Chancellor-elect of Dalhousie, I am honoured by the appointment and grateful to the members of the Faculty and Board of Governors for my selection. I came to Canada to teach at Dalhousie just fifty years ago, and to return as its Chancellor brings my career to a full circle. I will endeavour to carry out the duties of office in a way that will be approved by the student body.

I have always been proud of my association with Dalhousie. The new Science Building and the proposed new Students' Residence ensure that the steady growth of the University will continue. Dalhousie will not be the largest university in Canada, but we must be sure that it continues to be one of the best.

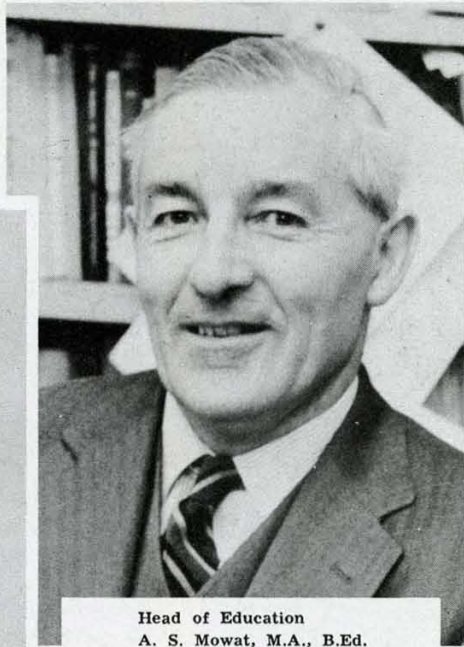

The demand in Canada for educated men and women will not lessen. Canada is a dynamic country, and its continued progress will depend upon the calibre of its young people. Just as I have confidence that Canada will continue to prosper, so I believe that Canadian universities will continue to provide the men and women capable of leadership. Dalhousie has a proud record for turning out leaders of men. That record must not be allowed to diminish.

I look forward to our better acquaintance.

FELLOW STUDENTS:

The past year has been an interesting and active one in the field of Student Government at Dalhousie.

The activities sponsored and directed by the Council are covered adequately elsewhere in Pharos. However, there are some subjects which I should like to mention briefly here.

I believe that the relationship between the students and the University improved greatly in 1957-1958. The students have been enjoying the use of the various libraries on Sunday afternoons for the first time this year, and the University is to be commended for its enlightened policy in this respect.

Of major importance was the paying off of the balance of the pledge, made by the students in 1950, toward the construction of the rink. I feel that the meeting of this moral obligation at this time will clear the way for future agreements with the University and that it leaves a feeling of satisfaction with all students.

The University Administration has taken the Vice-President and myself into its confidence and we are fully satisfied that a Men's Residence will be on the campus as soon as is humanly possible.

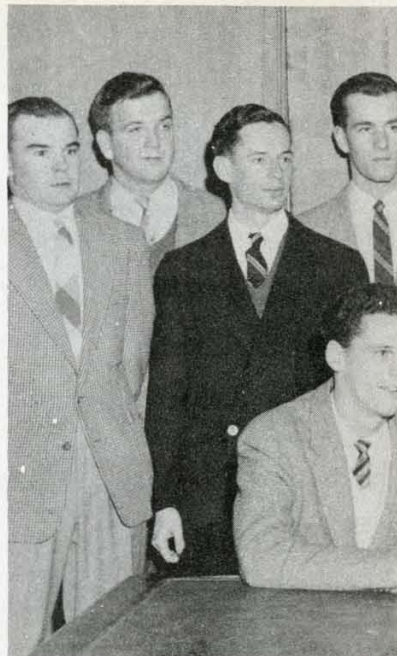

The next few years will present problems of extreme importance to the students. The possibilities of a Student Union Building being constructed are good. With a residence there will be further need for closer cooperation among all concerned.

I urge each and every one of you to take an active interest in some phase of student activity while you are here.

I would like to thank the members of the Council for the time and effort they have spent. In particular I feel that our new Secretary-Treasurer, Miss Bernice Robb, and the Vice-President, David Matheson, were in no small way responsible for what I believe was a successful year.

Personally, I would like to thank you for giving me the opportunity of serving in this capacity. It has been a wonderful experience which I have appreciated very much.

With best wishes for the future,
I am,
Yours sincerely,
MURRAY FRASER,
President,
Council of the Students

National Federation of Canadian University Students

The local NFCUS Committee began the year by distributing the Student Council cards at registration. First year students were in this way brought into early, direct contact with the committee. The contact aroused and maintained interest with the result that this year meetings have been attended by many new workers from the freshman class.

The 21st National Congress was held in Quebec City. We were represented by a large active delegation. The finished draft of the revised NFCUS constitution was submitted and approved by the Congress. We had undertaken this project on a mandate from the previous Congress. Pat Fownes, Dal Law '57, was elected President of the Atlantic region. Ed Harris, outstanding member of this year's graduating Law class was elected National Vice-President in charge of National Affairs.

Most outstanding among projects undertaken on the national level was a campaign to seek aid from the Federal Government for financial assistance for all students qualifying for admission to university. Great effort has been made to bring this proposal to the attention of government executives, members of parliament and the people of Canada.

The Canada Council has provided NFCUS with funds to organize a National Seminar of students in cooperation with the Canada Council. It will be held in September 1958 at the University of Western Ontario. Approximately forty-five students from all parts of Canada will be brought together to discuss the theme, "The Role of the University in National Development". Such action on the part of Canada Council is indeed heartening. It indicates that the voice of the Canadian student is being heard and heeded through NFCUS.

1957 was a year of growth. The number of students increased to about 51,000 with the joining of some 6,000 students from the University of Manitoba. The Federation now speaks the opinion of 85% of the Canadian University population.

Locally, we added to the list of merchants in the Halifax area permitting students discounts. Money for the NFCUS Atlantic Regional Scholarship Fund was raised through sale of tickets of the family of tigers. The "Daddy" of the family was raffled off on Munro Day. Publicizing the NFCUS Plan offered by the Canadian Premier Life Insurance Company was also a program to which a good deal of time was devoted. It is regretted that a student exchange weekend could not have been arranged with other Maritime Universities and some of the New England colleges, but it is a project well worth consideration for the following years.

What is a yearbook? It is for the future, a record of the past.

Each edition should, perforce, surpass its predecessors in technical achievement; but improvements in printing and material and innovations in binding are not in themselves an indication of better quality.

This quality, inspired by insight into the life of the times, can be achieved only by determining and expressing what it is that makes us what we are. Herein lies the challenge to each individual editorial board.

This edition, a little bit of everything, attempts to catch a glimpse of Dalhousie, 1957-1958. This was our era: ours to own; ours to enjoy; and in future, ours to relive — through memory.

The Dalhousie Glee and Dramatic Society staged three productions during the 1957-58 season. The first was J. M. Barrie's comedy, "The Admirable Crichton", presented at the end of October. Credit for its success goes to our competent director, Julia Gosling.

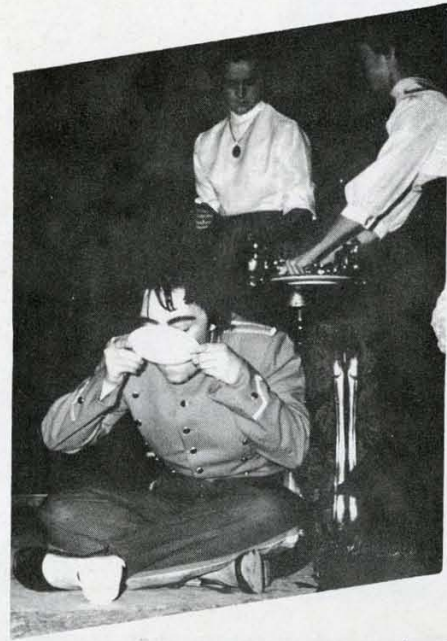

"Finian's Rainbow", by Harburg, Saidy and Lane made history as Dalhousie's first presentation of a modern musical. It played for three nights early in March, and was directed by Mr. Len Chappell and Dr. C. L. Lambertson.

The Connally Shield competition was also held early in the spring, with a record number of groups participating.

The revue was presented on Munro Day this year — with special skits and music for the occasion.

Dalhousie Nova Scotia Tech Newman Club

Lionel MacIsaac, John Curtiss, Father Robertson, David Fox

Due to the alertness, vigour and industry of a conscientious executive the Dalhousie - Nova Scotia Tech Newman Club has had another successful year. Our spiritual, intellectual and social programmes of Catholic Action have seen a year of much endeavour. A tangible means of expression of religion other than participation in church service is now the essence of the Newman Club.

With all ethical and practical means at our disposal we have striven to combat the modern trends toward spiritual and moral indifference and have sought the aid of our University authorities and the public to this end. On Sunday evenings at 38 Windsor Street excellent participation in our intellectual and social programmes have left little to be desired.

Canterbury Club

Bob Waterman, Molly Puxley, Mary Holm, Alice Hale, Art Davis

Every Sunday evening after Evensong in All Saint's Cathedral the Canterbury Club, the Anglican organization of the Dalhousie-Kings Campus met in the Cathedral Hall for a program of study, discussion and worship. Through this program we tried to foster among the students a better knowledge and understanding of the faith and practices of the Anglican Church and other religious denominations so that we might grow stronger and more tolerant in our own.

Canterburians, bound together by fellowship in the search for truth and the tolerant understanding of our fellows, welcomed students from every denomination, our policy being outlined around the Anglican faith. On the fourth Sunday in every month we worshipped at a corporate communion in the cathedral.

Hillel Foundation

This year the activities of the Hillel Foundation of Dalhousie University were somewhat restricted pending the appointment of a new advisor, a post vacated when Rabbi Isaac Mayefsky left Halifax. Nevertheless we had a successful year. We began the second term with a dance at the Shaar Shalom Synagogue. This was well attended and greatly enjoyed, and was followed by several cultural and social evenings, a supper, and a closing dance held at the end of the college year. Supported by the Halifax B'nai Brith Organization, which provide both funds and an advisor, our club held meetings in the Arts and Administration building, and was the organization which promoted Jewish education, culture and enjoyment among the Jewish students on the Dalhousie Campus.

Marilyn Medjuck, Harriet Epstein, Morton Brown (President)

The Student Christian Movement of Dalhousie University, a local unit of the Canadian Movement is based on the conviction that in Christ the revelation of God and the full realization of life are found. Our only "raison d'être" is to provide the kind of framework in which the intellectual, social and religious needs of all enquiring students on the campus can be met.

This year our intellectual programme evolved a round study groups and two lecture series. Socially we held "open houses", week-end camps, and chit-chats with Rhoda Palfrey, our temporary secretary, who, because of her organizing capabilities and interest in all aspects of campus life, has greatly widened the outlook of our movement.

Arts and Science Society

John Stewart (President), Al Ross, Phoebe Redpath, Barb Ferguson

This year has been deemed the most successful in the history of the Arts and Science Society. With the great upsurge in enthusiasm, participation in the interfaculty and social activities of our Society has increased tremendously.

The chief aim of the Society this year was to bring together its many members in order to try to make their stay at this university with respect to extra-curricular activities as pleasant and memorable as possible. The progressiveness witnessed in fulfilling this aim was due, to a large extent, to the many faces who readily took a keen interest in activities.

Dalhousie Commerce Company

The members of the Dalhousie Commerce Company were greatly saddened at the beginning of this year's school term by the death of Professor Berman, a man greatly admired and loved by the whole university but most especially by the Commerce students, who never hesitated to go to him for advice or help. It was Professor Berman who made Dalcom what it is today and news of his death came as a severe shock to us all.

To assist "Operation High School" this year, we sent representatives from the Commerce Company to speak at various high schools in the Maritime Provinces. These representatives spoke about the academic requirements and the intellectual and social aspects of Dalhousie. This project was looked upon very favourably by the administration of Dalhousie. The Commerce Ball and Commerce Week were our main social events of the year.

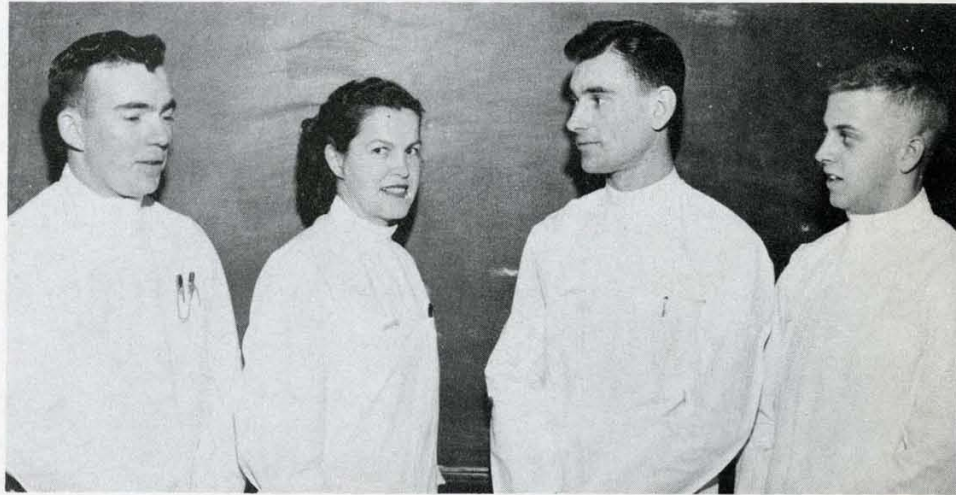

Peter Bennett, Dave Mann, Steve Thompson, Al Riggs (President), Dave Matheson, Joanne Diachuk, John Wood, Pete Crosby, David Fox.

The Dalhousie Dental Students' Society, an organization comprising all of the Dental Students of Dalhousie has again had a successful year. Highlights of the year's activities have been: a First Year Party, the most successful Dental Ball ever, the Annual Graduation Banquet and several other parties, one of which was sponsored by the newly organized Married Students' Wives Association. This year in the line of sports we placed second in the cross-country road race and won the championship in the Touch Football League. We also entered basketball and volleyball teams in the various Inter-Faculty Competitions.

The most momentous event for us has been the opening of the beautiful new Dental Building, which is one of the most modern and extensively equipped Dental Schools in Canada.

Dalhousie Dental Students' Society

Fred Bullock (President), Dana Naikuskas, Frank Lovely, Greg Booth

Pharmacy Society

Hugh Gorham, Doug. Colquhoun (President)

The Pharmacy Society again enjoyed a spirited and prosperous year. We held a Society Coffee Party to enable all the members to become better acquainted. In January the annual Banquet and Dance held at the Nova Scotian Ballroom was a very successful event because the executive and members of the Society had constantly advertised it. Our members shared in the sportsmanship of Dalhousie by entering teams in Interfac Hockey and Curling Competitions. We again experienced the wonders of pharmaceutical equipment and administration, when Cooke's Tour took us to the United States. Our males will have many memories of the annual smoker held on their behalf.

Society of Graduate Studies

All members of the faculty of Arts and Science, Education and the School of Nursing Science enrolled at the university are included in the Society of Graduate Studies. We are content to sponsor a very few events each year because of the heterogeneous nature of this organization does not lend itself to frequent meetings. This year these meetings were in the form of illustrated lectures, movies and symposia. Our final meeting of the year was an annual banquet.

John Keyston, Don Ross, Burpee Hallett, Joan Oberholtzer, Florence Hubley

Dalhousie Engineering Society

This year the Dalhousie Engineering Society, consisting of approximately one hundred and eighty members, engaged in numerous activities, both campus wide and internal. At the beginning of the college season we had a Smoker for the Freshmen. This enabled the upper classmen to meet the incoming students on a social level. We sponsored the Hayloft Jamboree and as in past years, it met with great success.

During the second term we visited the steel works in Trenton, N. S., and organized a home and home series in basketball and hockey with the Acadia Engineers. We staged the biggest annual dance on the campus, the Engineer's Ball, and ended the year with a Society Banquet.

Deke Liddell, Mac Sinclair (President), Ken Muir, Bob Smith

During the past year the activities of the members of the Dalhousie Medical Student's Society have been many and varied. On the campus we have left our mark in Varsity Football and Hockey. On the national scale we sent delegates to the Conference of the Canadian Association of Medical Students and Internes and with the inception of National Hospitalization we are eagerly attempting to effect a plan unique in the world that will greatly benefit post-graduate medical training.

The Jubilee Boat Club will hold many pleasant memories for the majority of us as many of our ranks have answered the peel of the wedding bells and indeed, many more are answering the "call" for the two o'clock feedings.

Law Society

Mike Carty, Paul Rouleau, president; Bill Charles.

Dalhousie Medical Students' Society

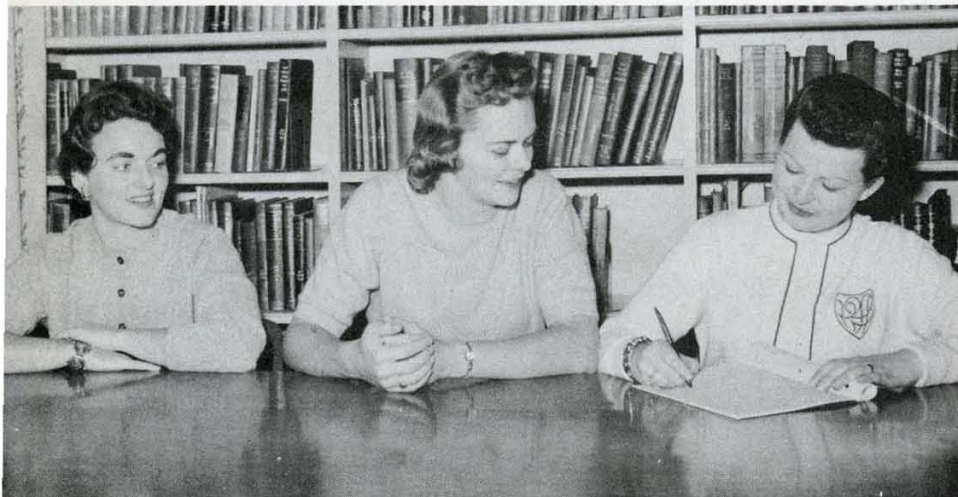

Gerald Berry, president; Jim Saunders, Lalia Dauphinee, Don Nicholson, Archie Somerville.

Members of this year's Law Society held leading offices in student government and participated in Varsity Sports and inter faculty competitions. Our Law Ball this year was a tremendous success, thanks to the efforts of our energetic committee.

The "Moot Court Room" was the scene of a host of mock litigation in which senior counselors composed of second year students aided by junior counsellors from first year, acted as solicitors for the plaintiff and defendant and pleaded their cases with great enthusiasm before able triumvirates from third year. The most proficient of the second year became eligible for competition next year for the coveted Smith Shield, which now includes semi-finals permitting wider participation.

Post Graduate Nursing Society

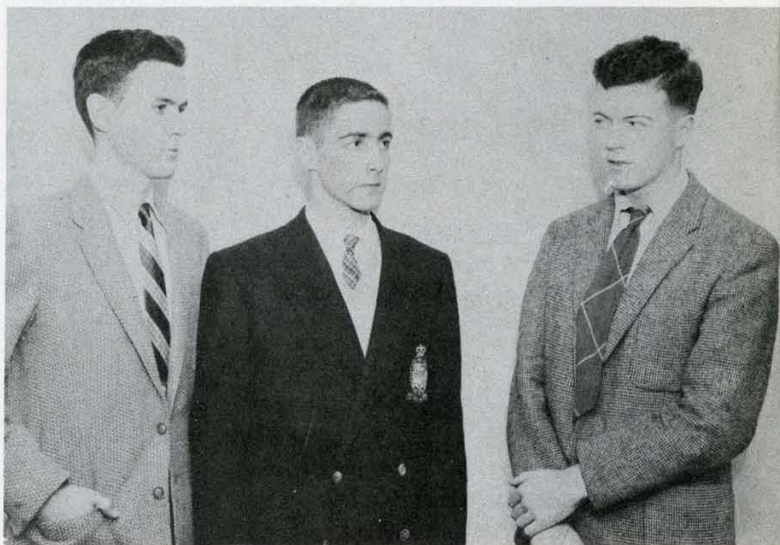

Florence Hubley, Barbara Miller, Joanne Walsh

During the first term of this year the Post Graduate Nursing Society came into being, after discussion and approval by both the Council of Students and the Senate. Our Society's aim is to bring into closer contact and co-ordination the different groups which exist in the School of Nursing. Under the competent Presidency of Barbara Miller with able assistance from the Secretary-Treasurer Joanne Walsh and helpful advice from the Director of the School of Nursing the society has already done much to achieve this aim.

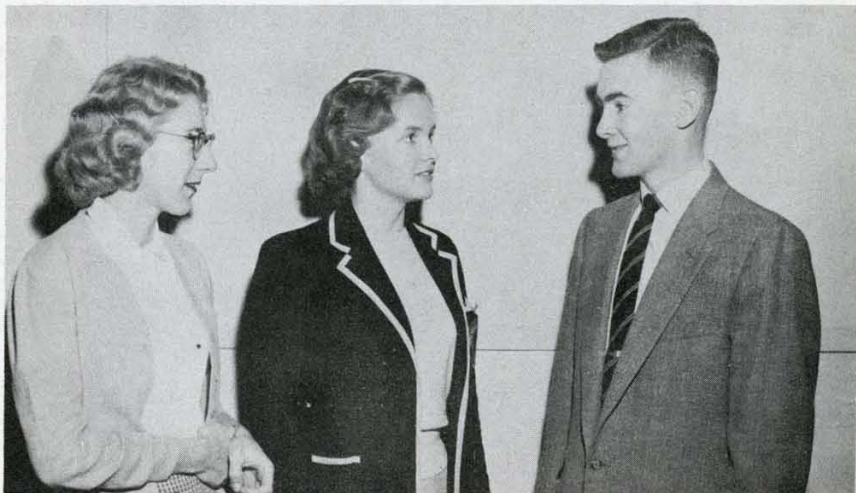

The Dawson Club

Although one of the oldest organizations on the Dalhousie Campus, the Dawson Club is represented for the first time in the Dalhousie Yearbook. We try to foster interest in science in general and geology in particular. This year we organized field trips to Scotsburn, Malagash and Spring Hill Mines. During the spring term the bi-weekly meetings featured guest speakers who gave specialized talks on geology, meteorology and petroleum refining. At the annual symposium, which was our big event of the year Canon Puxley, Dr. Archibald, Dr. Hoogstraten, Dr. Morrison and others debated about education. During the last meeting of the year, student's night, the best year essays of Geology I were read.

The Co-ordination Committee underwent successfully their second year in existence as a working body, correlating the student activities of Studely, Forest and King's campii. Notification of such is given by means of the Bulletin Board in the Gazette. Those clubs and societies who wished to be mentioned in this schedule were required to report their meeting one week in advance. Under any conditions, twenty - four hours notice was required. Not only infrequent meetings but also regular sessions held at regular intervals throughout the academic year were arranged. This year, steps were taken to assure that the committee was notified of all events held on the campus by the prevention of publicity concerning those of which no notice was received.

Campus Co-ordination Committee

Libby Mayall, Carol Clark, chairman, Avery McCordick.

Dalhousie Advertising Bureau

Gordon Hubley, Peter Bennett (Managing Director), Wayne Smith, Dave Moon.

The Dalhousie Advertising Bureau was established by motion of the Student Council in conjunction with the Dalhousie Commerce Company, the parent firm of the Bureau. This year DAB's purpose was to co-ordinate the solicitation of advertising for all student publications and to provide training for Commerce students in the field of advertising.

We enjoyed a fairly prosperous, yet stormy career in this our first year of operation, but despite a change in the Federal Government and a tight money situation, we have increased revenue slightly. We were responsible for the publication of Dalhousie's first hockey program and co-operated with the executive of DGDS in producing a bigger and better program for the first modern musical comedy presented on the Dal stage.

Friendly Relations With Overseas Students

Brian Fleming, John Jay, Patty Henderson, Carolyn Potter (President)

Although F.R.O.S. (Friendly Relations with Overseas Students) is a new organization locally, a national framework was formed in 1950 to begin active work on behalf of the overseas students. Our purpose is to welcome to Canada students from other countries, to provide opportunities for mutual understanding and appreciation and to exchange ideas and cultural traditions. Our local district consists of representatives from Dalhousie, Mount Saint Vincent, St. Mary's, Nova Scotia Tech, King's, Pine Hill, the Rotary Club and the I.O.D.E. Each university representative set up a committee on his own campus.

Our location committee extended invitations from Halifax residents to all overseas students who remained in the city during the Christmas recess. We also gave assistance to all those seeking summer employment in Halifax.

World University Service of Canada

Pat Walsh, Ed Harris (President), June Nudelman, Dave Hilton, Roy Wellman

This has been a successful year for the World University Service of Canada. In November, the Treasure Van, an excellent opportunity for students and local residents to do their Christmas shopping early, gave very pleasing results to our committee. In the second term, the money raised by our SHARE campaign and the very successful Fashion Show enabled WUSC to maintain two Hungarian students at Dal and also send our representative to the 1958 summer seminar in Yugoslavia. On his return from the 1957 summer seminar to Ghana, Matt Epstein, our representative, gave a showing of slides and an informal talk on his impressions of the country. Six Dalhousians attended the National WUSC Assembly in Fredericton and in early February we played host to the Atlantic Regional Conference.

Inter-Varsity Christian Fellowship

The Inter-Varsity Christian Fellowship was organized for the purpose of providing a means whereby Christian students might meet together for Bible study and fellowship. Our group met every week throughout the school year. We used as a study guide a book called "Basic Christianity". From time to time we were assisted by the visits of the I.V.C.F. Staff Representative for Eastern Canada, Tony Tyndale. A highlight of the year was the fifth Triennial International Missionary Conference held at the University of Illinois during the Christmas holidays. This was attended by the President and Secretary.

In November 1953 the West Indian Society of Dalhousie University was instituted, our main object being to safeguard truth, promote the principles and liberties which unite West Indian Societies, foster co-operation, toleration and understanding among students, faculty and other authorities and preserve and communicate West Indian culture to the end that better relationships be established between Canada and the West Indies. This year we co-operated with other campus organizations, disseminated information concerning our country and cemented relations among our students. Our society, incorporating West Indian students from all Halifax universities and non-West Indian Dalhousians heard informal talks given by professors, clergy, politicians, members of FROS, SCM, and the Foreign Students' Society of Nova Scotia. We held open parties for these societies and a banquet celebrating the opening of the federal capitol in Trinidad, B.W.I., was given.

The *Midlothian Society*, which derives its name from the former place of residence of the Earl of Dalhousie, was founded in 1941. This organization is composed of the female students of Dalhousie-Kings who are interested in current literature. Our meetings were held every second Monday in the reception room of Shirreff Hall. At each of these meetings, after refreshments of coffee and cookies, a member gave a report on some current book, which might have been fiction, non-fiction, drama, or poetry. The report was always well illustrated by excerpts from the book and followed by keen and lively discussion. During the year we had two guest speakers who discussed works of their own choice.

Midlothian Society

Sandra Cushing, Margaret Doody, Jane Oland (President), Heidi Reibling

Delta Gamma is an organization to which all women students on the Dalhousie Campus belong. This year was a very successful one. One of our activities in January was an Open House. We entered a team in the Maritime Intercollegiate Debating League and prepared a play for the Connolly Shield Competition. This year our organization has accepted the responsibility of a part of the work formerly carried on by the Rink Rats in the rink canteen. Co-ed week was again successful. The boys of the Kings, Dalhousie and Pine Hill Men's Residences were serenaded and there was a heated campaign for the election of a Campus King who was crowned during the Sadie Hawkins dance which climaxed the week.

Shirreff Hall House Committee

"House Committee" at Shirreff Hall is the democratic society which takes in hand the punishment of all those wayward girls who in any way violate the rules of the House. The observance of these rules is on the honour system and no grudges are held against those who watch so carefully over the inmates of the Hall.

The popular Hall Formal, which had a Chinese theme this year, was the best ever and the Christmas Party will hold many fond memories for us all.

House Committee Men's Residence

W. L. MacKenzie King, Roy Wellman (President), Brian MacPherson

With the advent of an enthusiastic and very responsible House Committee this year, the Dalhousie Men's Residence has already witnessed many improvements. Among these were better water facilities, new furniture, a daily milk delivery and an almost exclusive use of the West Common Room. Dr. Chute and Professor L. Clarke were of great help to us in achieving these facilities. In the activity line, we planned a Residence Party which provided an opportunity for close understanding among our residents. The West Indian residents were noted for their week-end Calypso Parties, their Christmas Party and Floor Show. Other activities included a Latin American candle dance and Harmonica rendition by Chinese students.

Athletics

D. A. A. C.

Al Thomas, Murray Dewis, president; Wiff Dargie.

Standing: Graham Conrad, Don King, Stu McInnes, Carl Day, Steve Thompson.

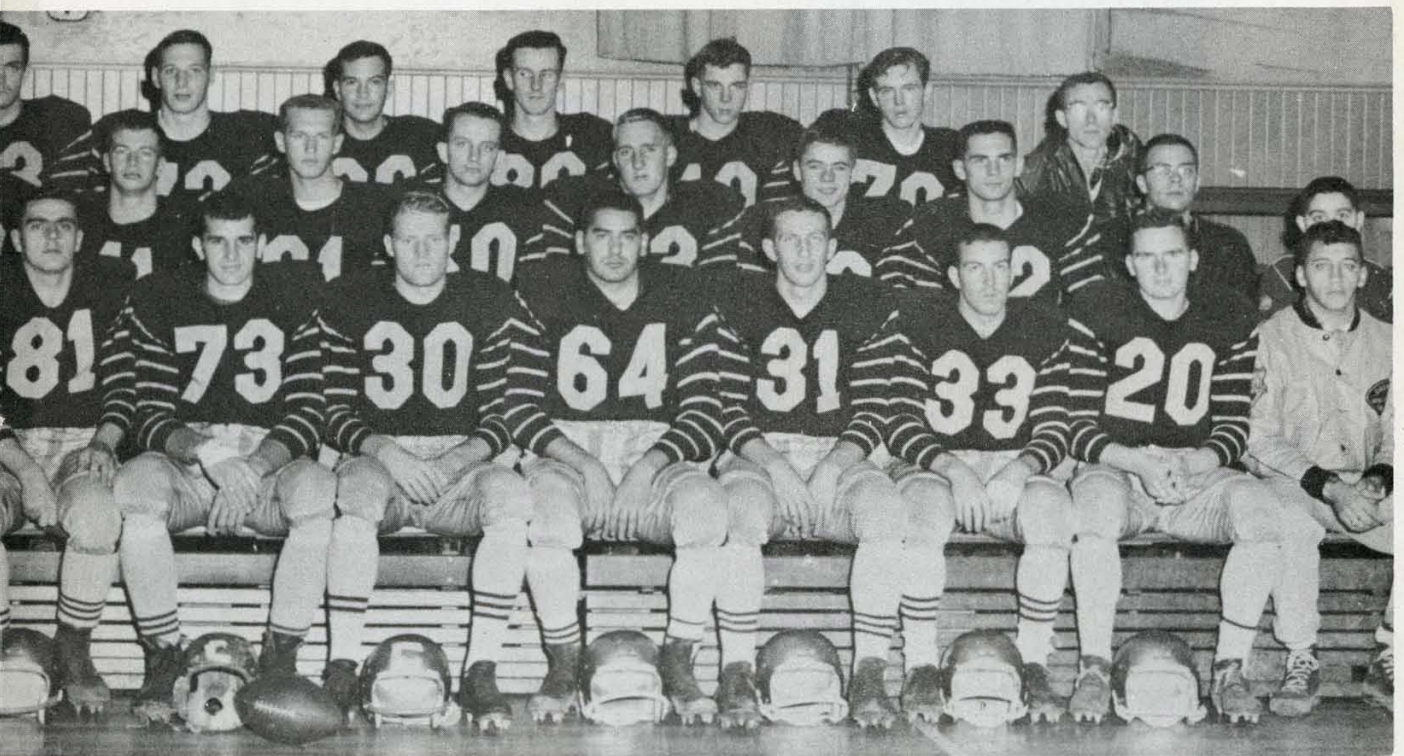

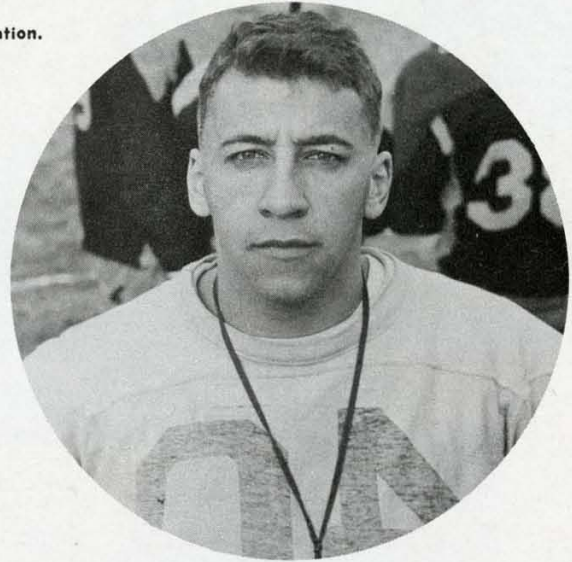

This year's 1957 Tigers were a vastly improved team over the 1956 edition, as they concluded the season with 3 wins, one tie, and 4 losses. This enabled them to tie with St. F.X. for second place in the final standings, both finishing behind Shearwater.

Dal triumphed twice over Greenwood, last year's N.S.F.L. winners, but the most satisfactory victory was a 27-7 drubbing of St. F.X. at Studley. This was the Tigers' best game of the season, and it provided them with sweet revenge for the 21-7 loss handed them by the Xaverians at the beginning of the season. From all indications, it should be a banner year in 1958.

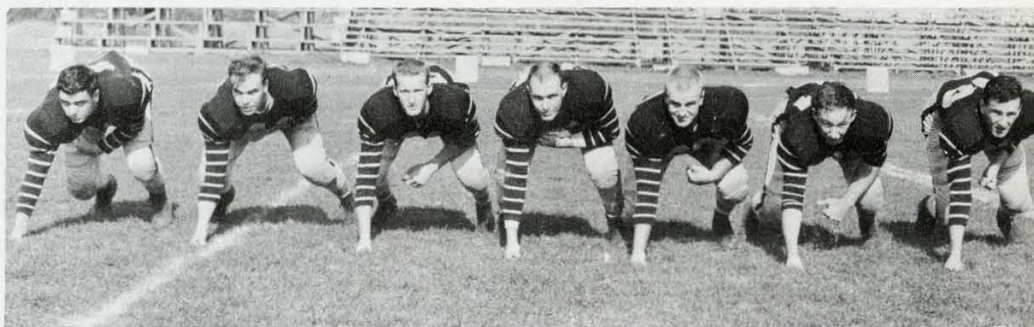

Individual congratulations must be given to Peter Corkum, who was voted the league's rookie of the year, to Al Millman, who won the Neil MacKinnon Trophy for integrity and sportsmanship, and to Mel Young who won the Little Trophy, as the team's outstanding player.

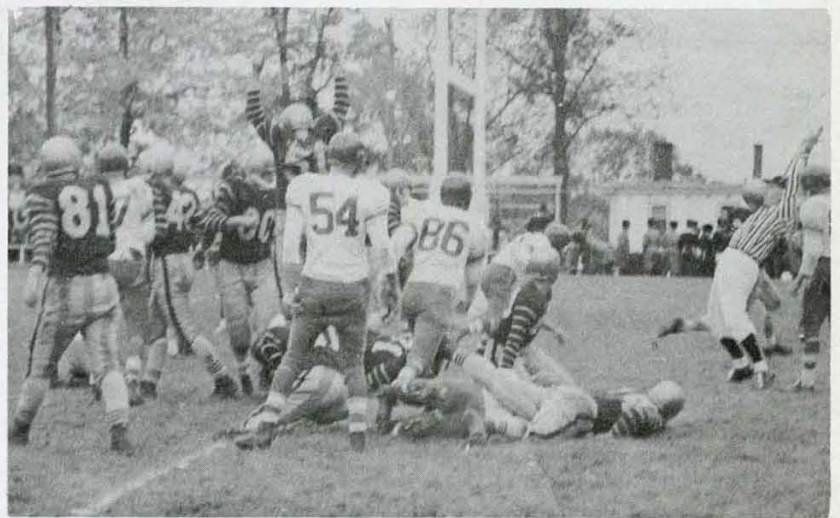

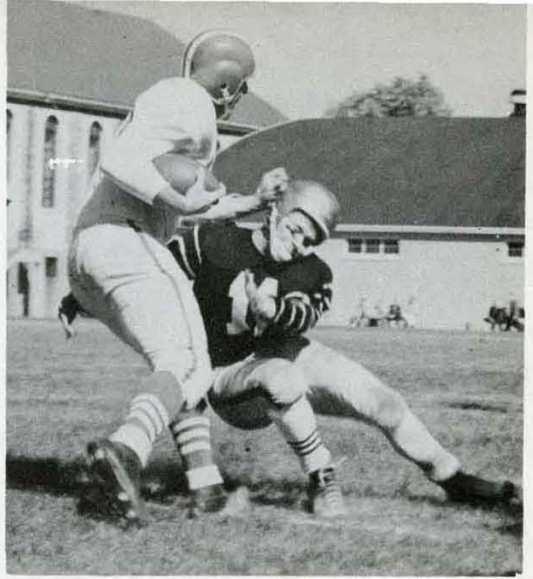

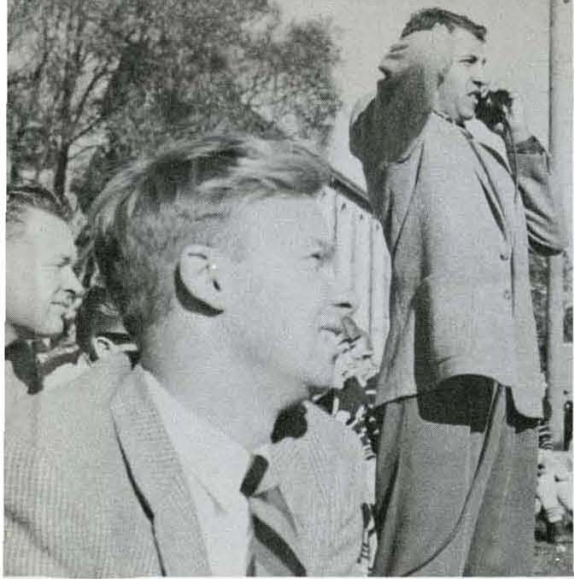

Al Thomas.....Director of Physical Education.

Front: R. Cluney, J. Hoogskaten, B. Chandler, P. MacDonald, M. Young, D. Nicholson, O. Horrelt, B. Auld, R. Simmons, S. Thompson, Al Thomas, coach.

Basketball

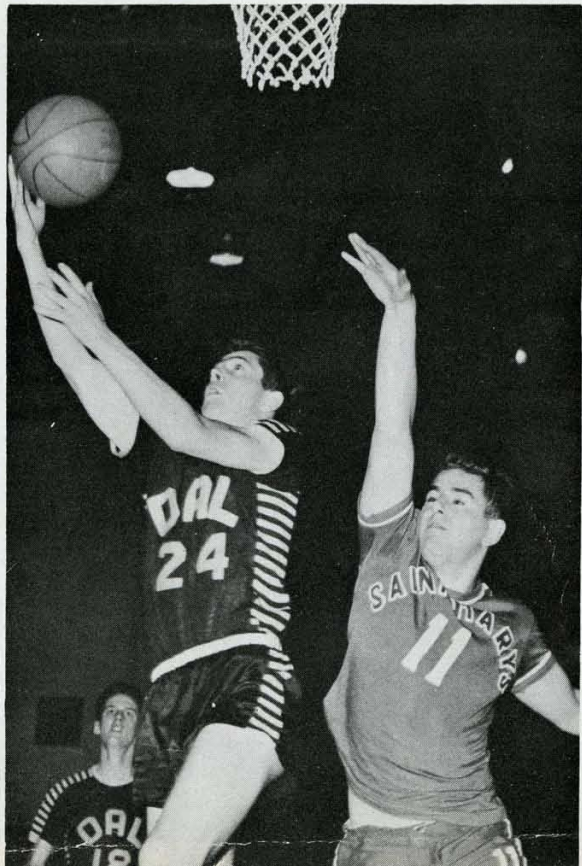

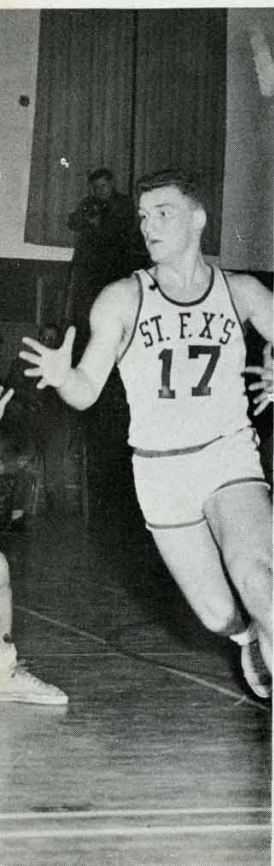

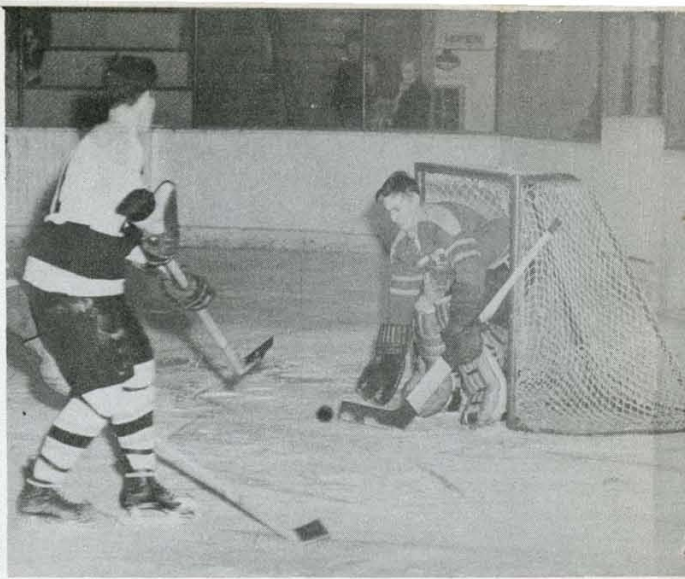

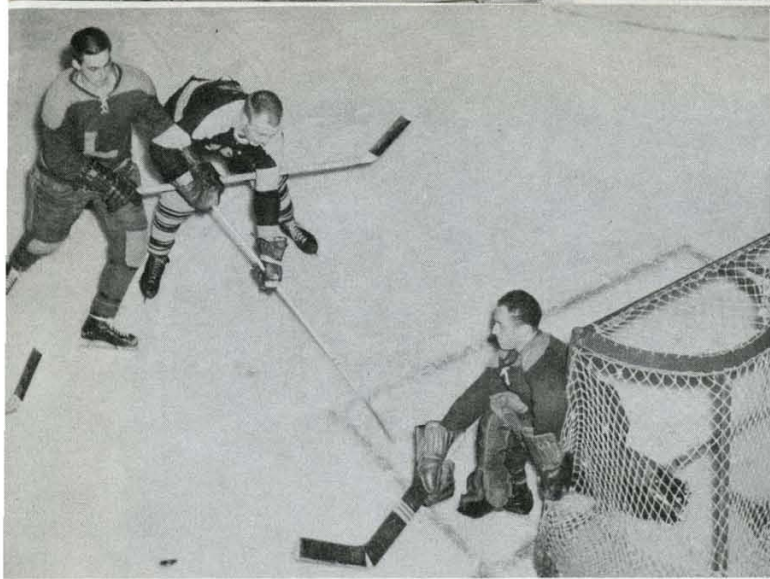

Basketball

Dalhousie's Varsity Basketball squad completed a moderately successful season as they wound up the regular schedule of the Nova Scotia Intercollegiate Basketball League with a creditable 6-2 record. The Studley boys had little trouble as they swept both games of home and home series with Acadia, St. Mary's and N. S. Tech. Their record was good enough to give them undisputed second place behind the St. F. X. team.

In the play-off semi-finals the Dalhousians pushed past the St. Mary's aggregation by taking two games out of three, and thus advancing to the loop finals. Here Al Thomas' boys ran into a stone wall as the X-men from Antigonish won over the short-handed Dal crew in two straight games.

Other highlights of the season included a successful exhibition tour in Maine and New Brunswick, and a record-breaking 42 point performance by Ted Wickwire against St. Mary's.

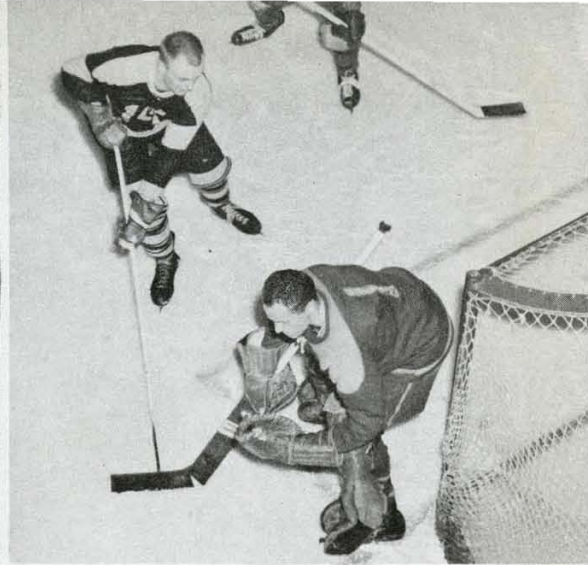

Hockey

Front: F. Sim, G. Clarke, D. Hill, A captain; L. Brown, D. Dargie, coach; M. Dewis, captain; D. Snow, A captain; S. McInnes.

2nd Row: Ellis Ross, manager; D. Gardner, J. Lemay, J. Graham, P. Corkum, B. Auld, G. Rainnie, B. Buntain, E. Reid, manager.

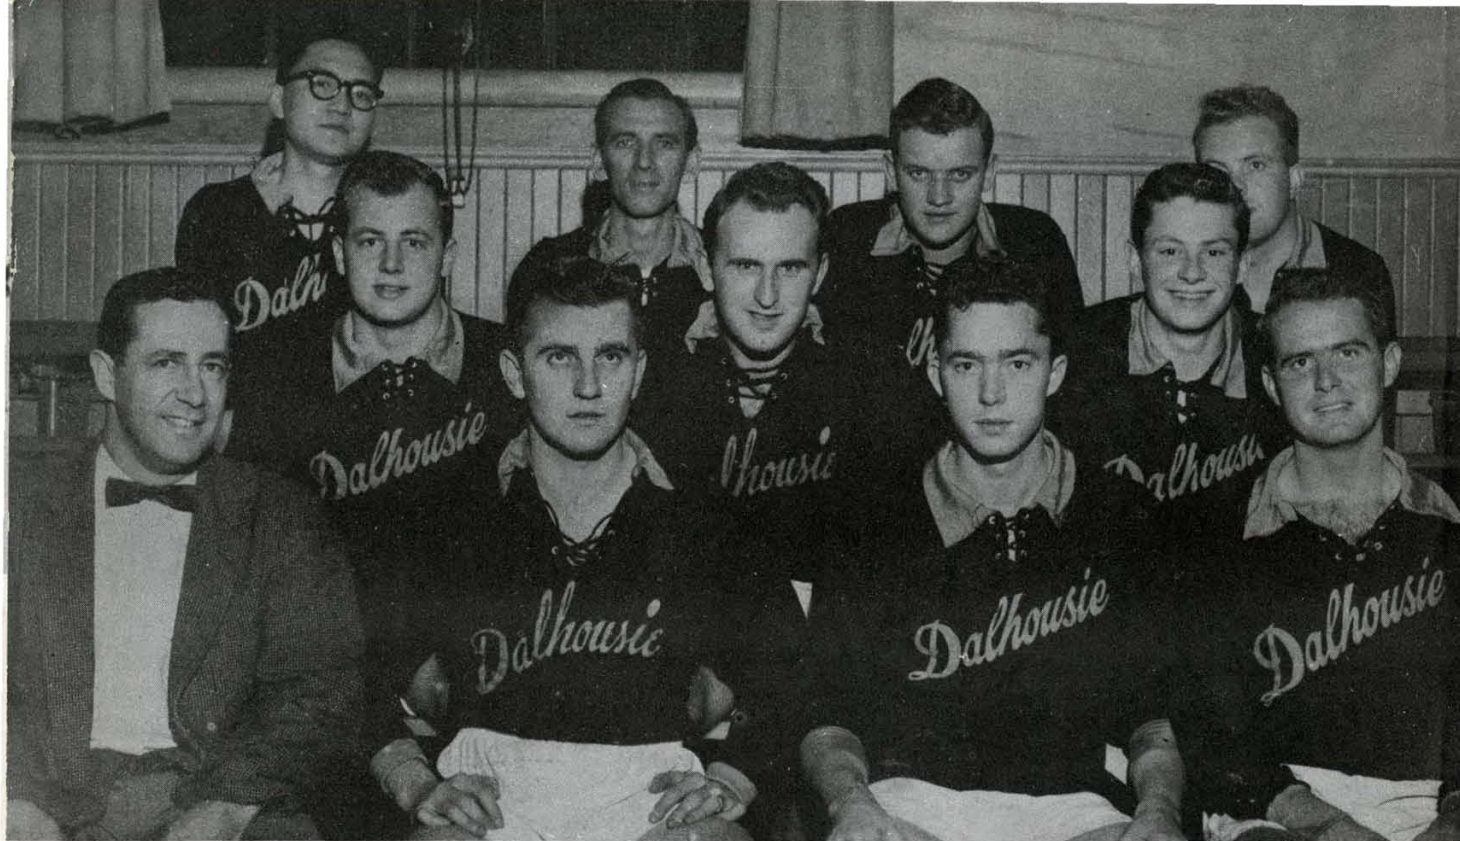

Although slipping somewhat from the previous year, the Dal Varsity Tigers again came up with a fine team and a strong contender for intercollegiate Hockey League with a commendable 5-3 record, which gave for sole possession of second place. In the playoffs, the Tigers swept by N. S. Tech in two straight games, but lost the title to St. F. X. in a home and home series. Coach Witt Dargie handled the team well as he mixed veterans and promising rookies to the best advantage.

A highlight in the year's activities came during the Munro Day celebrations when Dalhousie played host to Laval University's hockey team. After dropping the opening game, the Tigers came on to take the finals 6-5 in a thrilling contest which closed out the season. Congratulations are extended to Donnie Hill, playing his last season of intercollegiate hockey, for which he received the Climo Award, emblematic of Dalhousie's outstanding athlete.

Witt Dargie, coach.

First Row: D. Dargie, coach; A. Tucker, co-captain; L. King, co-captain; A. Burns.

Second Row: C. Kempe, G. Anthony, H. Fraser.

Third Row: S. Wong, P. Dolan, H. Brogan, R. Crosby.

Soccer

For the first time in several seasons, Dal placed an entry in the Maritime Intercollegiate Soccer League. The Tigers went through the regular season without a loss, thus establishing themselves as Nova Scotia champions.

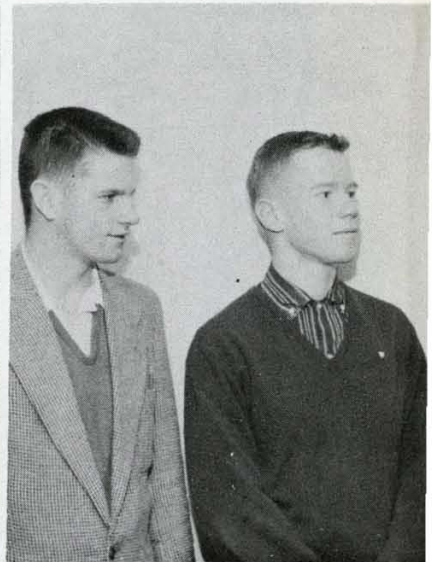

Badminton

L. to R.: B. White, N. Weatherstone, R. MacDonald.

Tennis

L. to R.: N. Weatherstone, B. Rankin, B. White.

L. to R.: H. Stevenson, D. Moon, Al Beattie, R. McClellan.

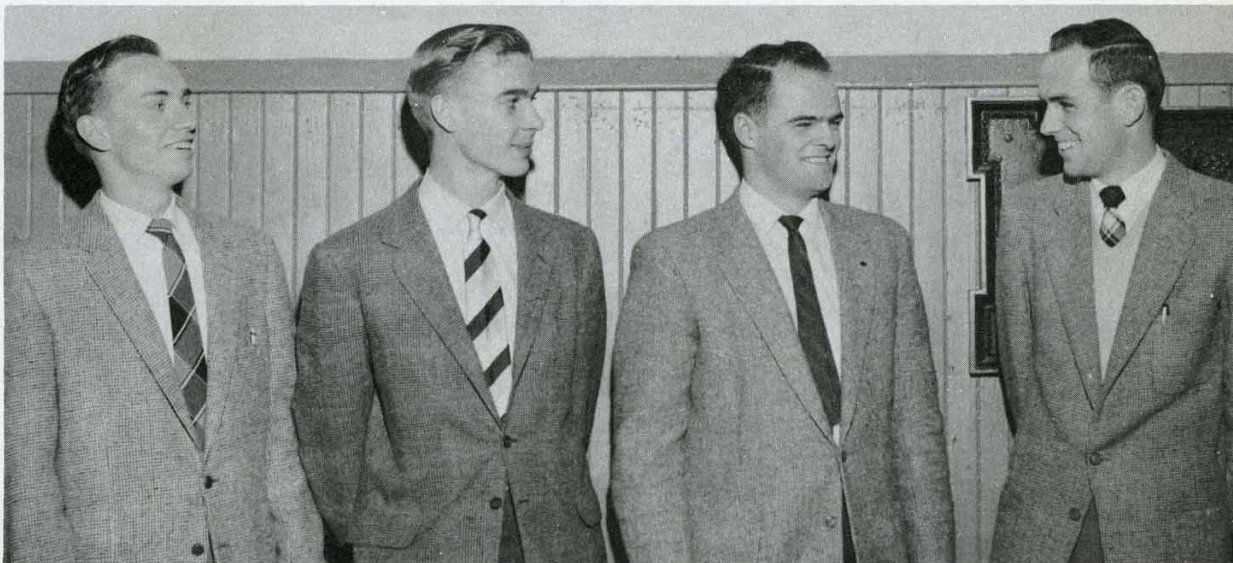

Curling

On the Intercollegiate curling scene this year the Dalhousie foursome copped all the honours as they marched away from the Maritime Intercollegiate Bonspiel with the first place trophy. It was the first time since the championships were inaugurated that a Dalhousie rink had emerged as Maritime champs in this event. Skip Harry Stevenson was backed by mate Dave Moon, second stone Al Beattie, and lead Rod MacLennon. The team emerged with a record of 5 wins, one loss for the bonspiel held at the Sackville Curling Club.

(DEFENSE)—L. to R.: P. Baker, J. Sinclair, P. Smith, P. Dewis, F. Boston, H. MacIntosh, E. Cogswell.

The Dalhousie Ground Hockey team was very successful during the '57-'58 season, placing second in the league which included King's, Mount A and Acadia. Dal defeated Mount A by a score of 1-0 both times the teams met. The two games played with King's ended in a scoreless tie. Dal however lost the games played with Acadia by a score of 2-1. Three exhibition games were also played, with Halifax Ladies' College and Edgehill.

L. to R.: G. Porter, manager; Mrs. Thomas, coach; P. Baker, J. Jackson, J. Sinclair, P. Smith, B. Murray, P. Dewis, E. Cogswell, N. Lane, F. Boston, P. Campbell, M. Sinclair, L. Rood, H. McIntosh.

Varsity

Basketball

Under the coaching of Mrs. Thomas, the Dal team played home and home games with U.N.B., Mount A and Acadia. At the close of the season, Dal was in a three-way tie with Mount A and U.N.B. The play-offs were held in Moncton with Mount A becoming the final victors of the Maritime Intercollegiate crown.

However the Dal team later defeated the "Mighty Martlets" by a score of 35-27 to become the proud possessor of the Women's Nova Scotia Basketball Championship.

INTERMEDIATE BASKETBALL

In Intercollegiate play this year, the Intermediate Basketball team ended in a three-way tie with Mount A and Mt. St. Bernard, each having won three and lost one. Dalhousie had defeated King's, Acadia and Mount A, but in the playoff game lost to Mt. St. Bernard by a score of 33-23.

Left to Right: Joan Potter, Mary Girvan, Joan Hennesey, Heather MacIntosh, Libby Macrae, Gail Mattinson, Janet Matheson, Vivian Boniuk, Joan Miller, manager.

L. to R.: Mrs. Thomas, coach; J. Herman, M. Hawkins, E. Cogswell, G. Oxner, Captain; B. Murray, L. Rood, P. Dewis, J. Bennett (Mgr.)

Volleyball

The 1957 Intercollegiate Volleyball Tournament was held in the Dalhousie gym on November 29 and 30. A double round robin tournament was played with four teams participating. This year Mount A came out on top with six wins, no losses and a total of twelve points. Acadia, Dalhousie and Kings followed up in second, third and fourth positions respectively. Only three players from last year's team were playing again this year—Glenda Oxner, Carolyn Potter and Joan Herman. The rest of the team was made up of Freshettes—Pam Dewis, Linda Rood, Liz Cogswell, Marg Hawkins and Bonnie Murray.

L. to R.: Joanne Easton, Betty Willet, Janice Hurlburt and Jean MacPhee.

Archery

This year, for the first time, D.G.A.C. entered an archery team in the Intercollegiate Telegraphic Archery Tournament. Dalhousie placed seventh, and top scorer for the team was Janice Hurlburt.

The Interclass Competition was won by the Freshettes.

Badminton

During '57-'58 there was keen interest in badminton, one of the minor sports of D.G.A.C. Both the singles and doubles tournaments were run off, and as a result of these, Pat MacCallum, Judy Wilson, and Lorraine Wells represented Dal at the Intercollegiate tournament held at U.N.B.

(L. to R.): J. Wilson, P. MacCallum, L. Wells, A. Cooke, Mgr.

Tennis

The Tennis team was chosen to represent Dalhousie at the Intercollegiate tournament held at U.N.B. in October. However, due to the plane's engine trouble, the team was unable to make the trip in time for the tournament.

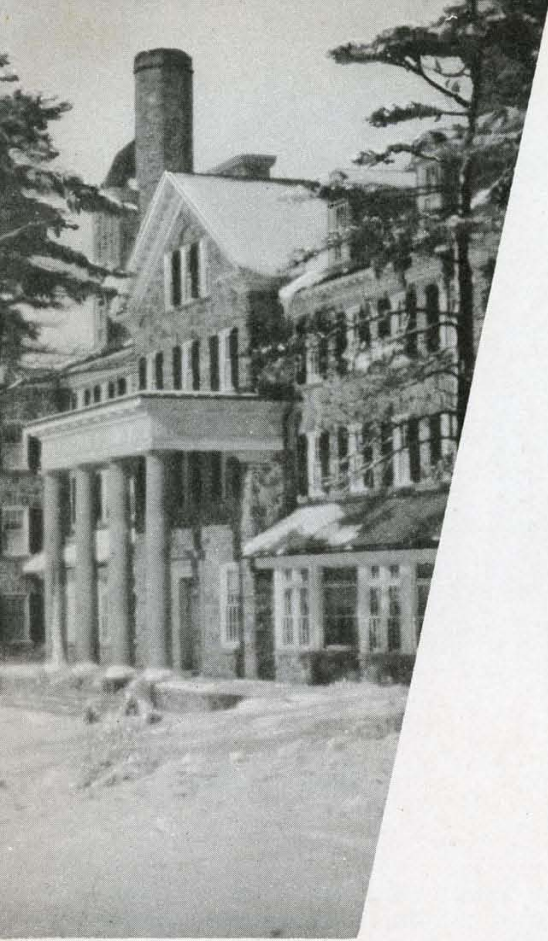

(L. to R.): P. Dewis, P. Baker.

Swimming

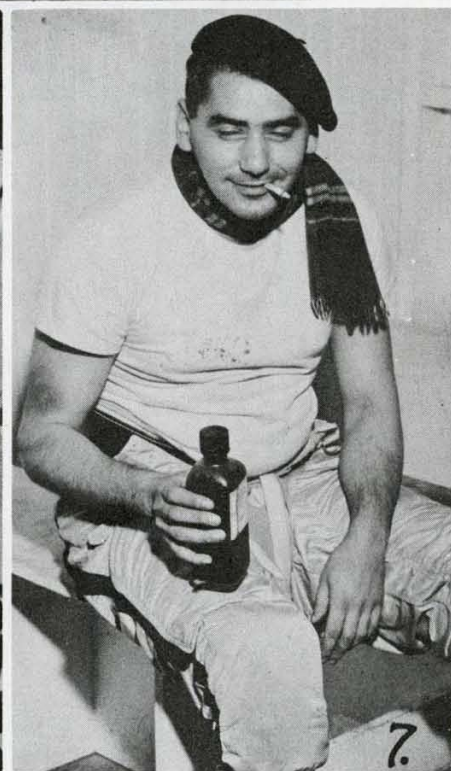

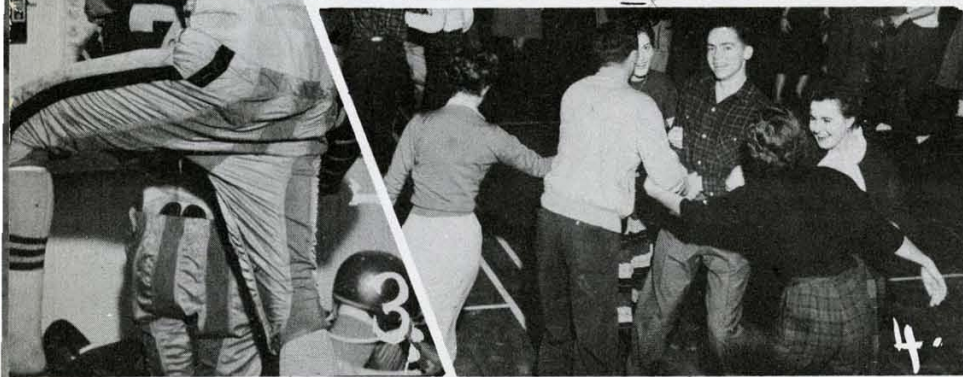

The Intercollegiate meet was held at Wolfville, March 5 and 6, with Acadia as hosts. For the first time a boys' team failed to participate in the meet. The girls placed third against Acadia and U.N.B.

(L. to R.: — C. Young, M. Hawkins, C. MacCreedy, L. Grant, L. Laurence, Mgr., B. Machan.
