Schooner Beer

There's a moment on the ocean when everything has to be right. Nature sets the rules: if you do your best, you make it...if you try to get by with something less, you don't.

We stick to those rules making beer. We make Schooner Beer. And we can praise it no more highly than this: it's the best lager beer we know how to make.

Our Christmas give-away contest was received so enthusiastically, we've decided to try again. This time you can't win anything as exciting as James Brown's hotpants or Alice Cooper's fights, but to compensate, this challenging contest involves more than filling out a name-and-address coupon.

On this and the following two pages are many old pictures of some of our favorite people, then and now. Some of the personalities pictured have gone to that big in the sky. Others have merely hung up their hats. Many are still active, on- or off. A couple will be instantly identified by everyone, some will be recognized by only the most die-hard

freaks, and others may stump everyone. To help you along, the harder ones have hints.

How to enter? Find a sheet of paper and jot down your selections next to the corresponding numbers. As some of your old teachers might have told you: guessing counts. Don't be discouraged if you can't get them all—no one will score 100% (will they?)

Finally, winners will receive gift year deal; 2nd, one-year; 3rd, 6 months. (And if the winners already we'll extend their current arrangements.) And maybe we'll have some surprise prizes too. But the fun's in the contest itself, so take out your pen and paper . . . ready . . . begin!

As you held your hands full of
sand to the sun,
The wind gently came and blew
it softly through your fingers
and away,
Yet you were left with a
few grains and the knowledge
that you held it for awhile
And it gave you a feeling
of contentment and pleasure.

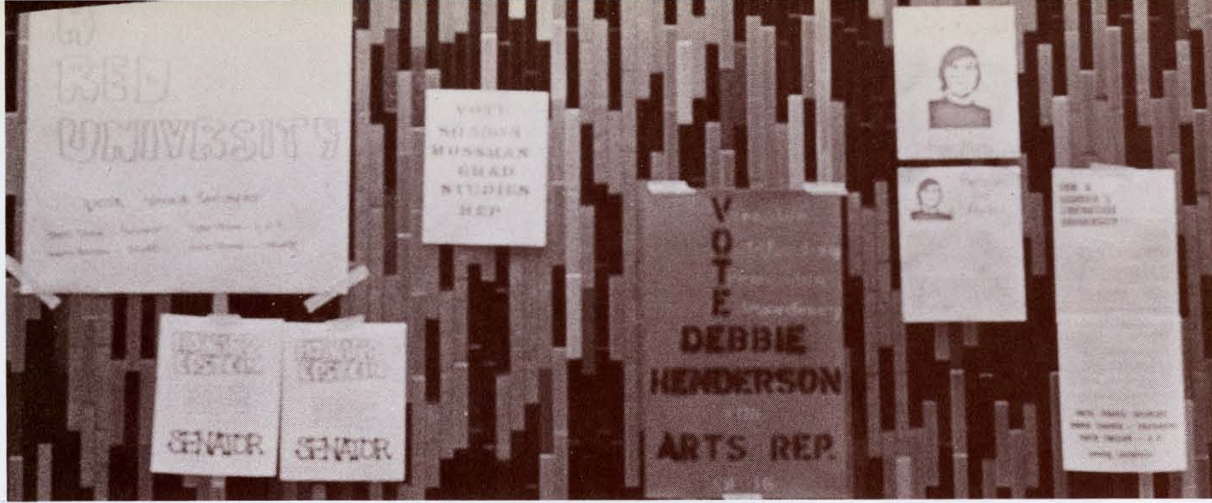

AND the bird turned

a creature of depth, too beautiful to be false
yet soundless in it's dipping wake.

two void-black bars
lifted from chest to throat, touched clear
eyes of a sunrise blue that could have
risen with Ra three thousand ages ago.

then banking on wings spanning
the shore -to-zenith arc
swinging to the south, passing over the patient blinking
that marked the line between sea and the sky
another animal left with a peace it didn't have to understand .

Shyly disturbing, do I bother you?

I only ask because it's there, you know.

And what you don't know won't clean you.

Do your own dirty work.

You'RE not even sure of how to live,

TAKE in the new and obscure, or even

How to talk to SOMEONE ELSE.

You've done a few years learning bits and scraps.
