Cheapest and Quickest

Station - to - Station Long Distance Calls

It's cheaper and faster to use Station-to-Station Service on your Long Distance Telephone calls. A Station-to-Station Call is one where you ask for a **telephone number**, and not for a particular person.

The saving through using this class of service amounts to as much as thirty per cent on calls during the day. On calls after six p.m. the average saving is larger still. Besides, your call goes through much more quickly—usually while you hold the line.

Save yourself money and get quicker service by using Station-to-Station Service whenever possible. Remember it especially on Sundays, as Night Rates are effective all day then and your saving is still greater.

KNOWLEDGE imposes responsibilities. At least we have found it so in our chosen field, the manufacture and distribution of electrical apparatus. Knowledge is the goad that never lets us stop at the barrier of ignorance or half truth. Knowledge is the torch that lights the way to greater accomplishments. Its responsibility is not a burden. Though a task-master, knowledge brings a joy which only comes with the inner satisfaction of a job well done.
