The Society for the Study of Architecture in Canada

is a learned society devoted to the examination of

the role of the built environment in Canadian society.

Its membership includes structural and landscape

architects, architectural historians, urban historians

and planners, sociologists, folklorists, and specialists

in such fields as heritage conservation and landscape

history. Founded in 1974, the Society is currently the

sole national society whose focus of interest is

Canada's built environment in all of its

manifestations.

La Société pour l'étude de l'architecture au Canada

est une société savante qui se consacre à l'examen

du rôle que joue l'environnement bâti dans la société

canadienne. Parmi ses membres, on retrouve des

ingénieurs en structure, des architectes de paysage,

des historiens en architecture et en urbanisme, puis

des urbanistes, des sociologues, des folkloristes et

des spécialistes dans des domaines tels la

préservation du patrimoine et l'histoire du paysage.

Fondée en 1974, la Société est présentement la seule

association nationale dont l'intérêt se concentre sur

l'environnement bâti du Canada sous toutes ses formes.
