COVER: Detail of the rear elevation of the Peter Redpath Museum at McGill University,  
Montreal, designed by Hutchison & Steele and built in 1880-82. (Brian Merrett, 1989)  
See page 68.

The Society for the Study of Architecture in Canada is a learned society devoted to the examination of the role of the built environment in Canadian society. Its membership includes structural and landscape architects, architectural historians, urban historians and planners, sociologists, folklorists, and specialists in such fields as heritage conservation and landscape history. Founded in 1974, the Society is currently the sole national society whose focus of interest is Canada's built environment in all of its manifestations.
