INTRODUCTION.

By the Royal Charter granted in 1802, all the privileges of a University were conferred on King's College, which thus became the first University of British origin established in the Dominion.

A Provincial Act incorporating the Governors of King's College received the royal sanction in 1853. It provides that the Royal Charter of Incorporation shall not be affected by it further than is necessary to give effect to its own enactments.

The Patron of the University is the Archbishop of Canterbury, to whose approval "all Statutes, Rules and Ordinances" of the Board of Governors are subject, but King's College is open to students of all denominations, and imposes no religious test either on entrance or on graduation in any Faculty, with the exception of Divinity.

In 1871 a Curriculum was issued for a course of Civil Engineering, and the University has subsequently granted degrees and diplomas in that science, as well as in Arts, Law and Divinity.

During the past Academic Year most valuable donations have been made to the Science Department by A. R. C. Selwyn, Esq., L. L. D., F. R. S., Director-General of the Dominion Geological Survey, and by Professor S. F. Baird, L. L. D., Secretary of the Smithsonian Institute at Washington, U. S.; a detailed account of which will be found on page 51 of the Calendar.

A system of Local Examinations has been instituted for those who are not members of the University.

Candidates for matriculation may now be examined at distant centres, under special regulations, which will be found in the Calendar.

The aggregate outlay necessary for the three years' residence and study qualifying for a degree will of course depend much upon the tastes and economy of the student, but may be estimated at about \$300 to \$350 per year. The mere money payment demanded, need never, however, exclude a candidate really prepared to benefit by the course of instruction offered, inasmuch as many benefactors of the University possess the right of nomination. Each nominee is exempt from the payment of yearly fees, amounting to \$180 for the three years' course, besides the fee for a B. A. degree. There being some forty certificates conferring this privilege, it is easy for students to obtain it. If a scholarship is held besides, nearly the whole cost of the education will be covered. The Calendar supplies all necessary information with regard to these nominations.

The Examiners for the past Academical Year outside the Faculty were as follows: The Rev. Canon Maynard, D. D.; D. Allison, Esq., L. L. D.; Professor Liechti, M. A.; H. P. Scott, Esq., M. A.

COURSE OF STUDY.

The object aimed at is to secure a good general education for all matriculated students, while every facility is afforded for the prosecution of special studies. Accordingly every matriculated student, except under peculiar circumstances to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions, which is generally done in the sixth term of residence. After this he is at liberty to select three or more of the subjects lectured on to form the subjects of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination he can do so in any one of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the head of Examinations.

Students who do not intend to take the degree of B. A. are permitted to attend the lectures of any of the Professors, subject to all the usual Regulations, and can, moreover, under certain conditions, proceed to Degrees in Science and Engineering.

The schemes of Responsions and B. A. Examination will afford a general idea of the usual Curriculum, which, within certain limits, is varied as circumstances require.

Numerous Scholarships, Prizes, and Honorary Distinctions, (which are more fully referred to elsewhere in the Calendar), are open to be competed for by students in the several faculties, the principal of these being the following:—

<i>Scholarship or Prize.</i>	<i>Annual Value.</i>
One Cogswell Scholarship.....	£24 sterling.
Ten Divinity Scholarships.....	£30 sterling each.
One Binney Exhibition.....	£16 sterling.
One McCawley Hebrew Prize.....	£9 sterling.
One Bishop's Prize.....	\$20 in books.
One President's Prize.....	\$20.
One Divinity Prize.....	\$12 in books.
One Almon-Welsford Prize.....	Interest of Fund £100 Old Currency.
One Aikins Historical Prize.....	\$30.
Three General Williams Prizes....	\$60 each.
(a) For Mining and Mineralogical Sciences.	
(b) For Mechanics and Civil Engineering.	
(c) For Language of Modern (Europe.)	
Three Stevenson Scholarships....	\$80 each.
One McCawley Scholarship.....	Interest of Fund.

The following resolutions, passed at a special meeting of the Board of Governors of the College, are here ordered for insertion:

"That gentlemen representing different schools of thought in the Church be appointed to lecture on Theological subjects in King's College, the attendance on which shall form part of the regular course."

And—

"That every opportunity be given to persons to contribute to the support or establishment of any chair in the University, and that such contributions be scrupulously confined to the purposes specified by the contributors."

TERMINAL EXAMINATIONS.

Every student will be required to undergo an examination at the end of each term in all the subjects in which he has attended lectures.

Every Undergraduate, previous to presenting himself for any Terminal Examination, will have to obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the Term, are recorded against the applicant, or if his conduct shall have been in any way reprehensible.

Such certificate will then be handed in by the Undergraduate to the Vice-President previous to the beginning of the examination, and no Undergraduate shall be allowed to present himself at any Terminal Examination, unless he shall have complied with these regulations.

The list of candidates who shall have passed the Terminal Examination shall be published in the hall after the close of the examination. The names shall be arranged in the order of merit. Any student whose name does not appear in this list shall forfeit his examination.

RESPONSIONS.

Every matriculated student is required to pass a public examination called Responisions, for which he cannot offer himself until he has completed his fourth term, and no term after the sixth can be reckoned until it has been passed. This examination is

The University Library.

The foundation of the Library is due to the efforts of the first Bishop of Nova Scotia, and may be placed in the year 1780. Several contributions in money had previously been received, but it was not till that year that efforts were made to obtain books.

The original fund at the disposal of the Governors was not more than £250 sterling, and was intrusted to Mr. John Inglis (afterwards Bishop), son of the Bishop, and a graduate of the University, who repaired to England in 1800, for the purpose of purchasing books. The names of Dr. Moore, Archbishop of Canterbury, Dr. Porteous, Bishop of Rochester, Wm. Wilberforce, Sir S. Bernard Morland, John Eardley-Wilmot, M. P., and others, thus became connected with the early history of the Library.

Munificent gifts from the University of Oxford continued to increase the value of the collection, which was further enriched by gifts from various English gentlemen, and from others settled in Nova Scotia.

The room in the College building set apart for many years for a Library Hall, was completed in 1810 at the expense of Sir Thomas Strange and the Archbishop of Canterbury.

Subsequently valuable works were presented by Drs. Bayard and McCulloch, and by the Society for Promoting Christian Knowledge.

Among later benefactors may be mentioned Dr. Greswell, of Worcester College, Oxford; The Smithsonian Institute; The British and Foreign Bible Society; The Dean and Chapter of Westminster; T. B. Akins, Esq., D. C. L.; The Society of Incorporated Alumni of King's College; E. Binney, Esq.; C. Cogswell, Esq., M. D.; The Dominion Government; The Secretary of the Interior, United States; The Institution of Civil Engineers; the Society of Engineers; the Royal Society; The

Rev. G. McCawley, D. D.; The Rev. Canon Hensley, D. D.; General Sir W. F. Williams, K. C. B.; the present Bishop of Nova Scotia; and Her Majesty the Queen.

This large collection of books, now numbering about 7000 volumes, contained till the year 1870 in a single room in the College building, was then removed to the new Hall specially built for the purpose and presented to the University by the Incorporated Alumni. It contains a large number of standard works of reference in Theology, which is by far the richest department in the Library, and a fair selection of the great Greek and Latin classics.

In Modern History and Belles-Letters it is very poorly supplied.

In Science some recent standard works have from time to time been added, and, next to Théology and Classics, this is the largest department. The languages of Modern Europe are not so well represented.

In spite of many blanks, the Library is one of the largest in the Province, and contains all the elements requisite for making it a thoroughly well appointed and efficient Reference Library.

There is no special Library fund except the fee from students, and the collection can only be increased by grants of money from the Governors, the occasional lapsing of the General Williams and Welsford prize moneys, and the benefactions of friends of the University.

NATURAL HISTORY.

GEOLOGY AND MINERALOGY.

The Geological Specimens, many of which are very fine, illustrate the most prominent features of general Geology, but the majority have been collected in Nova Scotia and are especially adapted to show the characters of the Fossil Flora and Fauna of the Province. There are several collections, which may be discriminated as follows:—

1. The W. B. Almon Collection, presented over forty years ago by Mrs. W. B. Almon, of Halifax, contains, with many minerals and a few shells, a considerable number of rock specimens and a few fossils, chiefly from Scotland, collected by the late W. B. Almon, M. D.

2. The Governors' Collection consists of coal fossils obtained in 1860, at the expense of the Governors of the College; these were collected by Professor How with the valuable assistance of a party headed by Richard Brown, Sr., Esq., then agent at the Sydney Mines, who from long study was familiar with the district. Many of the specimens are exceedingly fine, and some are of large size.

3. The Alumni Collection consists of Silurian and Devonian Fossils, chiefly from Arisaig, N. S., collected, named and arranged stratigraphically by Dr. Honeyman; purchased and presented in 1861 by the Alumni of King's College.

4. The Australian Collection consists of specimens obtained through Col. Nelson, in 1863, from Sir William Denison, then Governor of New South Wales, in exchange for Nova Scotian specimens from the College Cabinet, sent by Professor How. It contains some beautiful fossils, and is arranged stratigraphically;

its value is increased by an accompanying large detailed colored section made by the Government Examiner of Coal Fields under instructions from Sir W. Denison.

5. A collection of British Fossils, chiefly Silurian and Devonian, obtained through Dr. McCawley in exchange for Nova Scotian specimens sent by Professor How from the College Cabinet, in 1860, to Captain, now Sir James Anderson.

6. A collection from Europe, illustrating chiefly the nature of crystalline and sedimentary rocks, purchased by the Governors.

7. Several collections, some of which are unnamed, and single specimens, given and obtained by exchange at various times; of these it will suffice to name: Reptilian Tracks of great geological interest, presented by the widow of their discoverer, the late Dr. Harding; valuable Fossils, chiefly carboniferous, presented by H. Poole, Esq.; Silurian Fossils From Arisaig, presented by H. Hill, Esq., Sheriff of Antigonish; Coal Plants from Cumberland County, presented by Rev. Mr. Townshend, Rector of Amherst; Cretaceous Fossils from England, presented by C. B. Bowman, Esq., and Dr. Honeyman; Silurian and Carboniferous Fossils of Nova Scotia from Professor How; Devonian Corals of Ontario and Canadian Rocks from Professor Spencer.

The mineralogical specimens represent the most important species of minerals,—some of them are of great beauty. They consist of those in the Almon Collection, of Zeolites collected at the expense of the Governors, and of various others obtained by gifts and exchange, as mentioned with regard to the geological department. Sir Rupert George; Rev. Dr. Robertson, Rector of Wilnot; H. Brown, Esq., Director of the Geological Survey of Victoria, formerly a distinguished student in science at this College; Rev. Mr. Ambrose; Rev. J. C. Cochran; C. B. Bowman, Esq.; J. Bowman, Esq.; Rev. D. W. Picket; Hon. W. Odell, and Professor How, have presented interesting specimens.

ZOOLOGY.

The Willis Collection consists of specimens fully illustrating Nova Scotia Mollusca, named, arranged, and presented by J. R. Willis, Esq.

The department is further illustrated by a collection of foreign shells, some interesting skulls and skins, and a limited number of preserved animals.

BOTANY.

The Cogswell Herbarium, bound in five Imperial folio volumes, contains a fine systematically arranged collection of Phanogamous and Cryptogamous Plants of Great Britain, presented by Dr. Cogswell.

The Gossip Herbarium consists of a small number of Scottish Plants, presented by Dr. Gossip.

The Willis Herbarium consists of Nova Scotia Algae and Terrestrial Plants, presented by J. R. Willis, Esq.

The Strange Herbarium consists of a considerable number of East India Plants, presented, in 1805, by Sir T. Strange.

The Ball Herbarium of Nova Scotia, consisting of about 250 species, presented by Rev. E. H. Ball.

There are also a few woods, barks, leaves, and fruits—from various sources—presented by C. B. Bowman, Esq., Hon. W. J. Almon, M. D., and other benefactors.

THE GENERAL COLLECTION.

The General Collection consists of various curiosities from different parts of the world, and a small but choice cabinet of coins. Other interesting curiosities are the beautiful Indian Pipe from Queen Charlotte's Island, the models of the leaning Tower and the Baptistery at Pisa, and the memorials of Gen. Williams and Inglis, which include the sword worn by the former throughout the siege of Kars, and that used by the latter during the defence of Lucknow. There is also a model of the Cawnpore Memorial Cross, formed of wool from the house in the court-yard of which the women and children were massacred.

The College possesses also a number of autographs of royal and distinguished personages; one of Thomas Moore, the poet, inscribed in a copy of Lucian, presented by him on the occasion of his visit.

The Coins illustrate the Numismatics of Rome, and most of the countries of the modern world.

The different departments of the museum are arranged in twenty-four flat cases, supported by the balustrade surrounding the gallery, and five large table cases, all glazed and provided with lock and key. The large specimens which could not be conveniently placed in cases are arranged on shelves, or distributed in different parts of the Hall.

The friends of Science in Nova Scotia and elsewhere are respectfully requested to contribute specimens to the Museum of King's College. The steps which have been lately taken by the Governors to provide suitable cases for the arrangement and display of the contents of the Museum in the fine Hall erected at the expense of the Alumni, offer a guarantee that the liberality of donors will be carefully recognized and fully recorded.

It is particularly requested that donors will send their contributions of Books, Coins and Curiosities, addressed to the *Librarian*, and of Natural History specimens to the *Natural History Curator*, King's College Museum, Windsor, N. S., in order that the receipt may be duly acknowledged, and the donations acknowledged in the yearly Calendars as heretofore.

A superb collection of Loyalist China, over three hundred pieces, arranged in three cases, was presented by Judge and Mrs. Weldon, on the 97th anniversary of the landing of the Loyalists in New Brunswick.

REPORT.

The Executive Committee of the Associated Alumni of King's College, Windsor, on their Thirty-sixth Anniversary, beg leave to present their customary report.

All hope of the renewal of the Government grant having been abandoned, it has become necessary for members of the Church of England in this and the adjoining Diocese, and others more immediately interested in the welfare of the University, to bestir themselves in endeavouring to place the College on a more permanent basis, by means of an ample Endowment Fund, in order to ensure present and future usefulness.

With this end in view, your Committee have endeavoured from time to time to do their part by soliciting persons to become members, more especially since the passage of the Act reducing the rates of Annual Subscription and Life Membership. In consequence of the first step which they took in the matter a large number of persons came in, and the hopes of the more sanguine members were more than realized by the increased interest in the affairs of the College; but we regret to state that the subsequent appeal to the several Parishes throughout this Diocese, consequent on the Rev. Mr. Harris' resolution,

"That the Secretary of the Alumni obtain from every Clergyman in the Dioceses of Nova Scotia and New Brunswick a list of the names of persons in his Parish or Mission who ought to be Members of the Associated Alumni, and that the Secretary send a written invitation to each person whose name is received, inviting him to become a member of the Association,"

and the subsequent action of the Diocesan Synod has had little or no result, but very few persons having responded to several hundred postal cards issued under authority of the Clergy who furnished the lists.*

We feel, however, that a personal appeal to the several Parishes is certain to have a better result, and hope that at the termination of the canvass just instituted in behalf of the Endowment Fund, a larger

* The Committee decided not to appeal to New Brunswick until after a fuller response from the Parishes in this Diocese.

number may feel it to be their duty to enrol themselves as Members of the Association, by annual subscription or otherwise; while the Committee beg to suggest that those among the present members, or who may hereafter become members, who can afford a larger subscription, may be induced to pay something in addition to their annual allowance or commutation than is fixed by law.

We hope also that the Synod having evinced an interest in the affairs of the University by the election of two members to the Board of Governors, confirmed by a recent Act of the Legislature, will be the means of increasing the interest in the respective Parishes.

This year your Committee have to record with much regret the decease of several of their oldest and most respected members, who in past years took a very warm interest in the affairs of the University:

Lewis Bliss, Esq., of London.

Joseph B. Bond, Esq., of Barton, Digby Co.

Richard H. Brown, Esq., of London, for many years Manager of the Sydney Mines, C. B.

Samuel Prescott Fairbanks, Esq., many years Commissioner of Crown Lands for this Province, and who matriculated in 1810.

The Treasurer's Account for the past year is herewith submitted, shewing a satisfactory balance at the Bank, which your Committee would like to see still further augmented, with a view, next year, to a permanent investment, though they feel at liberty to suggest that the sum of \$200 might with propriety be voted for the present emergency.

In addition to the other business of the day you are required to elect two Governors in place of Thomas B. Akins, Esquire, D. C. L., and Jedediah A. Shaw, Esquire, whose terms have expired; the election of a President in place of Thomas Trenaman, Esq., M. D., and three members of the Executive Committee in place of Edward P. Archbold, Esq., Hon. S. L. Shannon, and the Secretary.

By order,

CHARLES H. CARMAN,

Secretary.

Halifax, June 12th, 1883.

An Act to Incorporate the Alumni of King's College, Windsor.

(Passed the 30th Day of March, A. D. 1848.)

WHEREAS, a number of persons having associated themselves under the name of the Alumni of King's College, Windsor, for the promotion of education, and have raised by private contribution sums of money which they are desirous to expend in aid of the funds of the said College, and the Collegiate School, at Windsor, connected therewith, in or towards the maintenance and support of the teachers therein, or in such other way as may best conduce to the end which they have in view, and they are desirous of obtaining assistance from the Legislature, by the passing of an Act of Incorporation for enabling them to hold property, and to manage their affairs with greater ease and convenience.

I. Be it therefore enacted by the Lieutenant-Governor, Council and Assembly: That John T. Twining, James B. Uniacke, Henry Pryor, Hugh Hartshorne, and all and every such other person and persons as now are members of, or in the said Society, and their successors, shall be and are hereby appointed a body, politic and corporate, in deed and in name, by the name of "The Alumni of King's College, Windsor," and by that name have succession and a common seal, and by that name shall sue and be sued, plead and be impleaded, at law and in equity, and in all courts and places, and be able and capable in law to have, hold, purchase, get, receive, take, possess and enjoy, lands, tenements, hereditaments and rents, in fee simple or otherwise, and also goods and chattels, and all other things, real, personal and mixed, and also to give, grant, sell, let, assign or convey the same or any part thereof, and to do and execute all other things in and about the same, as shall or may be thought necessary or proper; and also shall have from time to time and at all times full power, authority and license to constitute, make and

establish such bye-laws, rules and ordinances, as may be thought necessary for the rule and good management of said Society, the establishing of officers proper for the management of its affairs, and declaring the extent, duration and authority of the offices and officers of the Society, and their mode of appointment, and generally for promoting the objects of the Society, provided such bye-laws, rules and ordinances be not contrary and repugnant to the laws and statutes of this Province, or those in force within the same, or to the laws and statutes of King's College, Windsor, respectively, at the time such bye-laws, rules and ordinances may be constituted and established, or to the provisions of this Act; and provided, also, that the said Society shall not hold at any time lands, tenements, hereditaments, goods, chattels, property or effects, of greater value than ten thousand pounds.

II. And be it enacted, that all persons paying an annual subscription of twenty shillings or upwards, or making at one time a donation of twenty pounds or upwards, shall be entitled to be members of the said Society, having been duly admitted, pursuant to the bye-laws thereof, provided that such annual subscription or donation be actually paid into the funds of the Society, and provided that no person now a member of the said Society, or who, hereafter, may become a member of the same, shall at any time hereafter continue a member of the same, unless he shall have heretofore paid, or shall hereafter pay at one time into the funds of the said Society a donation of at least twenty pounds, or shall hereafter annually, and from year to year, pay into the said funds the sum of twenty shillings or upwards; and if such annual subscription, or payment of any such annual member, shall not be paid on the first day of May in each year, such member shall thereupon cease to be a member of the said Society, until such annual subscription or payment shall be actually paid, or until such person shall otherwise become a member of the said Society, or under some bye-law or rule thereof.

III. And be it enacted that the said Society shall be governed, and its affairs managed by a Committee of nine, comprising a President, Vice-President, and seven other members, a Secretary and Treasurer, the said Committee to be henceforth called the Executive Committee, and such other officers as the said Society may from time to time think proper.

IV. And provided, and be it enacted, that John T. Twining, D. D., now the President of the said Society, shall, after the passing of this

said Act, be the President of the said Society; that the Hon. Henry Hezekiah Cogswell, now the Vice-President of the said Society, be the Vice-President of the said Society after the passing of this Act; that Samuel L. Shannon, Esquire, now the Secretary and Treasurer of the said Society, be the Secretary and Treasurer thereof after the passing of this Act; and Samuel P. Fairbanks, Henry Pryor and James B. Uniacke, William J. Almon, Robert Fitzgerald Uniacke, Mather B. Almon and Charles Twining, now the Managing Committee of the said Society, shall, after the passing of this Act, be the Executive Committee of the said incorporated Society, until an Executive Committee be elected under this Act.

V. 5. For the better management of the College, and for more completely executing the purposes of this Act, the Governors appointed, and to be appointed from time to time by virtue hereof, shall be a body politic and corporate in deed and in name, and have a common seal and succession for ever, by the name of Governors of King's College, Windsor, and by that name shall make bye-laws and ordinances for the regulation and management of the College, and shall also have, hold and enjoy, for the use and benefit of the College and the purpose of this Act, all the goods and chattels, and all the lands which are now had, held, occupied, or enjoyed by "the Governors of King's College, of Nova Scotia," or by "the Governors, President and Fellows of King's College, at Windsor, in the Province of Nova Scotia," or by any person in trust for them or in their behalf, in the same manner as if the same had been duly conveyed and transferred to the Governors hereby incorporated, by virtue of a statute of this Province, authorizing the conveyance and transfer thereof, also shall have the power to purchase, receive, take, hold, and enjoy for the use and benefit of the said College, and the purpose of this Act, and other goods, chattels, or lands, so as the said last mentioned lands shall not exceed in value ten thousand pounds, and also at all times hereafter shall have power to sell, lease, mortgage, or otherwise dispose of the lands belonging to the College, or any part thereof, for the benefit of the said College, as to the Governors, thereby incorporated, may seem proper, any law to the contrary notwithstanding.

9. All academical honors and degrees, all rights, powers, privileges and authorities now had, held, or exercised by any person, by virtue of the Act hereby repealed, or of the charter hereinbefore referred to, except so far as they may be necessarily taken away, altered, abridged or affected by, or in consequence of this Act, shall be had, held, and exercised, in relation to the College hereby incorporated, as fully as now had, held, or exercised.

VI. That the funds of the Association will be appropriated for the payment of one or more professors or lectures, and one or more scholarships at the University of King's College, or one or more teachers or exhibitions in the Collegiate School at Windsor, to be denominated the Alumni Professorships and scholarships, respectively.

VII. That the Association will scrupulously apply such donations as may be made to them to such specific objects in aid of King's College as may be directed by the donors respectively.

VIII. That all meetings of the Incorporated Society shall be opened with prayer.

IX. (*Passed at general meeting of June 21st, 1849.*) That the election of members of the Incorporation shall be by ballot.

RULES PASSED AT DIFFERENT TIMES.

1. That no resolution or proceeding inconsistent with or modifying any resolution or proceeding adopted by a general meeting be entertained by the Executive Committee in Halifax, except upon a month's notice to the Committee being given by the person proposing the same, and that no such resolution or proceeding be carried into effect until the same shall have been confirmed by a general meeting to be summoned for the consideration thereof, if necessary to be arranged before the annual general meeting.

2. A month's notice shall be given of all resolutions affecting the rights of members, or creating new offices or salaries.

3. No individual shall be entitled to vote under a parochial certificate unless he be authorized by a parish meeting.

4. All annual general meetings of this Association shall be holden at Windsor.

5. That the Treasurer make up his annual account to the 30th of April in each and every year.

6. In the election of Governors all the names proposed shall be put on the same ballot, out of whom those having the highest number shall be declared elected; provided that no person shall be declared elected as Governor unless he have a majority of votes cast.

7. That in the election of Governors the order of names be such as to place the name of the candidate obtaining the smallest number of votes at the head of the list, and so on in succession.

8. That the ballot be not sent round for any officer of this Association, or of the Board of Governors, whose name has not been previously proposed and seconded by some member of the Association; and that the ballot be not taken until all the names of all persons intended to be proposed for any office be given.

9. That the Executive Committee of the Associate Alumni be empowered at their monthly meetings, during the interval between one annual general meeting and the next, to elect members of the Incorporation, provided that no black beans be cast against them.

10. That honorary certificates be granted in the several departments instead of the prizes as heretofore.

11. That any member of this Society whose annual subscription shall remain and be unpaid for three years shall cease to be a member of this Society, and can only be admitted as a new member by being proposed and seconded and duly elected pursuant to the bye-laws.

That the Alumni adopt for Life Members donors of \$200 and upwards to the Endowment Fund.

That a statement be made to the Alumni at their annual meetings of the funds and appropriations of the College.

That efforts be made to increase the number of Alumni, and that Graduates and Students be solicited to become members.

That Graduates of the College be *ipso facto* members of the Association, on payment of subscription, without election.

That the annual subscription be Two Dollars, and that the payment of the sum of Twenty-five Dollars by any person at any one time entitle him to life membership.

RESOLUTIONS PASSED AT ANNUAL MEETING, JUNE 27, 1883.

"That while the payment of Two Dollars annually confers every privilege of membership, all are earnestly requested to remember the urgent need of the College, the important work the Alumni are associated to advance, and that they need not necessarily limit their amount to the sum above named."

"That no member be permitted to hold more than one proxy."

"That in the opinion of this meeting, the best interests of this University would be furthered by the development of the Faculty of Music, and the meeting therefore respectfully request the Board of Governors to take the matter into their consideration."

NOTICE OF MOTION.

"That with the consent of the Governors, a circular to the following effect be sent to the holders of Nomination Certificates now in force:—

"In consequence of the withdrawal of the Government grant, and the evident inability of the additional endowment now being raised meeting the present necessities of the College and maintaining the staff of Professors absolutely necessary to its efficiency, the Associated Alumni earnestly request all future nominations be made conditional, upon payment by the nominee of Ten Dollars in the first week of December of each year into the general funds of the College, in addition to Five Dollars given to the Library."

NOTICE OF MOTION.

"Whereas, It is most important at the present time that nothing should be allowed to interfere with the 'prosperity of the Alumni Association, and, whereas, some have maintained that 'proxy' voting has been among the causes which have operated to prevent a larger attendance at the meetings and a more general interest being taken in the Association by Clergy and Laity; be it therefore resolved: That the Executive Committee be requested to take the whole subject of proxy voting into consideration, with a view to the most practical way of abolishing it."
