### Course of Study.

The object aimed at in the Arts Course is to impart a good general education, while every facility is afforded for the prosecution of special studies. Accordingly, every Resident matriculated student, except under peculiar circumstances, to be approved of by the College Board, is required to attend the Lectures of all the Professors until he has passed his Responsions. After this he is at liberty to select three or more of the subjects lectured on to form the subject of his B. A. Examination. If the student be desirous of taking Honours at his B. A. Examination, he can do so in any one or more of the subjects lectured on after passing the ordinary Examinations. The precise regulations will be found under the heading of Examinations.

There are at present in the University six schools open to matriculated students:—

### TERMINAL EXAMINATIONS.

Every student is required to undergo an examination at the end of Michaelmas and Easter Terms in all the subjects in which he has attended lectures. Any Professor may, at his discretion, dispense with examination in optional subjects.

Every undergraduate, previous to presenting himself for any Terminal Examination, must obtain from each Professor whose lectures he has attended during the term, a certificate of attendance and good conduct.

No Professor will grant such certificate if more than two absences without leave, during the course of the term, are recorded against the applicant, or if his conduct has been in any way reprehensible.

Such certificate must then be handed in by the Senior of each class to the President, who shall post in the Commons' Hall a list of eligible candidates, previous to the beginning of the examination, and no undergraduate is allowed to present himself at any Terminal Examination unless he has complied with these regulations.

The list of candidates who have passed the Terminal Examination is published in the hall after the final meeting of the College Board for that term. Any student whose name does not appear in the list is allowed a \*supplementary examination at the beginning of the term, in those subjects in which he has failed.

It was reported that the following gentlemen had been elected members, during the year, by the Executive Committee, under No. 9 of "Rules passed at Different Times" :—

J. R. Findlay, Halifax, N. S.

Joseph B. McCarthy, Halifax, N. S.

W. Simms Lee, Halifax, N. S.

The Report of the Executive Committee (including the Treasurer's account) was submitted, considered clause by clause, slightly amended, and adopted as follows :—

## REPORT OF THE EXECUTIVE COMMITTEE OF THE ALUMNI.

## COLLEGE.

1. For several years past your Committee has drawn attention to the fact that, notwithstanding the efficiency of the work done, there was no increase in the number of students at the college. The year just closed shows, instead of an increase, a slight decrease. No doubt there are various causes which contribute to this; but your Committee feel that, in spite of the disadvantages to which they have before drawn attention, if a more active interest in the College were taken by the graduates and members of the College throughout the country generally than is at present manifested, many students might be influenced to come here who now go elsewhere because they have never had the advantages of King's College adequately set before them.

## STUDENTS' EXPENSES; FOUR YEARS COURSE.

2. It has been recognized that the greater expense attaching to residence at King's College has been one of the chief obstacles to its growth; but the governors have not seen their way clear to affording any relief in this respect, nor to carrying out the recommendation of the Alumni as to the adoption of the Four Years Course in Arts. This, your Committee regret, and would again bring the matter to the attention of the Board of Governors, and urge upon that body, their further and favorable consideration of the recommendation of last year.

## COLLEGIATE TRAINING OF PUBLIC SCHOOL TEACHERS.

3. The Faculty, on their part, have fully considered the suggestion of last year's report concerning the training of public school teachers, and every possible assistance will be given to those students who desire to qualify for the grade "A" license.

## CALENDAR.

4. Your Committee are pleased to learn that their recommendation of last year relative to the earlier issue of the Calendar has been adopted.

## EXTRA-COLLEGIATE WORK.

5. Your Committee expresses its appreciation of the efforts made during the past two years on the part of the Professor of English Literature to popularize the work of his department by courses of public lectures delivered in the town. The excellent reputation which the Professor of Modern Languages has established for himself, through his classes in Halifax, is also noted with satisfaction.

## COLLEGIATE SCHOOL.

6. The number of pupils at the Collegiate School continues to increase steadily, and the *morale* of the school is excellent. It is now a source of income, but it must be admitted that it acts only in a very small degree as a feeder to the College. One of the chief reasons for this is, that the College has the disadvantage of having to compete with a Dominion Government Institution in the Military College at Kingston, which, since the reduction of its fees and the shortening of its course, has drawn many boys away who might otherwise have taken a course at King's College.

## CHURCH SCHOOL FOR GIRLS.

7. The Church School for Girls is now so well and favourably known that little need be said concerning it. Both in the number of the pupils, and the efficiency of the work done, it is most satisfactory. The arrangement by which senior pupils may continue to enjoy the privilege of residence in the school and instruction in special subjects, while attending lectures at the college as undergraduates, is found to work well; and it is hoped that an increasing number of girls may avail themselves of it.

## LAW SCHOOL.

8. It has been brought to the attention of your Committee, that the B. C. L. degree of King's College is not recognized by the Legislature of Nova Scotia to the same extent as the corresponding degree of Dalhousie College; and your Committee recommend that the Board of Governors of King's College be requested to take such steps as will bring about the full recognition of the degree in question.

## FURTHER EFFORTS.

9. Your Committee has been informed by a communication that, "at an informal meeting of some friends and Alumni of King's College, held on the evening of May 20th," the necessity for more energetic efforts in the administration of the affairs of the College was freely discussed; and your Committee was, at the same time, requested to embody this statement in their annual report.

## VACANCIES BY ROTATION.

10. Under Sec. 3, Cap. 66, Acts of 1853, Dr. C. J. Gossip and Mr. H. H. Pickett, retire from the Board of Governors, and their successors are to be elected at this meeting.

The President of the Alumni, together with Messrs C. Hensley, R. J. Wilson, and Dr. M. A. B. Smith retire from the Executive

Committee of the Alumni, under by-law IV, and it devolves on this meeting to fill the vacancies.

The meeting is also to "nominate" five members of the Board of Governors to serve on the Executive Committee of that Board, under Sub-sec. (c), Sec. I, of the amended Constitution of that Committee.

#### NECROLOGY.

II. Your Committee regret to note the death, during the year, of the following members of the University :—
