Introduction.

KING'S COLLEGE owes its origin to the Loyalists. It was founded by an Act of the Legislature in the Province of Nova Scotia in the year 1789, through the exertions of Dr. Charles Inglis, the first colonial Bishop, and was opened in 1790. The corner-stone of the main College building was laid the next year by Governor Parr.

The College stands in ample grounds facing southward, and overlooking the King's Meadow, and a wood of spruce and fir separates it from the town. Between this wood and the College lies the cricket and football field.

The first President of the College was the Rev. William Cochran, a graduate of Trinity College, Dublin, who was formerly Professor of Classics at King's (now Columbia) College, New York.

A Royal Charter, conferring upon the College full University powers, was granted by King George III in 1802, which makes this the oldest colonial University in the British Empire.

The Board of Governors originally consisted of the Governor and Commander-in-Chief of the Province, the Lieut.-Governor, the Bishop, the Chief Justice, the Provincial Secretary and four other members of the Government. This Board was abolished and a new Board formed by an Act of 1853, of which the Bishop was the only *ex-officio* member, the others being elected by the Alumni. In 1895 the constitution of the Board was again altered, and it now consists of thirty-seven members: the Bishops of Nova Scotia and Fredericton, *ex-officio*, two elected by each Synod, one by each rural deanery in the two dioceses, three from Prince Edward Island, and twelve by the Alumni, as before.

The residential system, which is an important feature of

7

Calendar of the

College life, is modelled on that of English Colleges, and brings together men of different temperament and training, broadening their ideas and smoothing down individual peculiarities as nothing else can do.

While King's is essentially a Church College, it imposes no religious tests and welcomes students of all denominations. Daily services, according to the use of the Church of England, are held every morning and evening in the College Chapel, which is a substantial stone building erected in 1877, but students belonging to other religious bodies may obtain permission to attend their own services on Sundays.

The College building is heated with hot water, and in addition to this students may have fires in their rooms. The oldfashioned roomy studies are shared by two (and in some cases three) men, but each has his own separate bedroom. The Reading Room in the middle bay, serves a students' common room.

King's College was the pioneer of scientific training in the Province, and has a well equipped chemical laboratory and a valuable collection of philosophical instruments.

A handsome stone building which stands on the slope of the hill to the south of the College contains the Library and Convocation Hall. The Library is a large and extremely valuable one. The foundation of the Library was largely the work of John Inglis, afterward third Bishop of Nova Scotia, who was sent to England by the Governors in 1799 to collect books and subscriptions for that purpose. Many rare editions and bibliographical treasures are to be found here, such as the Boydell Shakespeare, the Marquis of Buckingham's Homer, Sowerby's Botany, an editio princeps of Paradise Lost, the publications of the Record Commission, eighteen volumes from the celebrated Aldine press, and twenty Elzevirs, Bryan Walton's Polyglott, and many others. The most important benefactions of recent years have been those of the late Dr. T. B. Akins, Rev. Dr. McCawley, for many years President of the College, Rev. G. W. Hodgson, Rev. Rupert Cochrane and Rev. E. Ansell. There is unfortunately

no Library fund and the keeping up of the Library depends almost entirely upon the fees of the students.

The aggregate outlay necessary for a student taking a College course varies of course according to the tastes and economy of the student, but it may be approximately set down at about \$250 a year.

Matriculation examinations are held during the first and the last weeks of the academical year. Arrangements may be made for holding these examinations elsewhere than at the College.

Boys are prepared for matriculation at the Collegiate School, which stands in the College grounds, and which although it is now in its one hundred and twenty-third year, is a wellequipped, modern boarding school.

A School of Law in connection with King's College was established in St. John, N. B., in 1892. Students passing the final examination of this School receive the degree of B. C. L. from King's College, and are admitted attorneys in the Province of New Brunswick without further examination.

Affiliation With Other Colleges and Universities.

Students who have taken the prescribed Science course and passed the required examinations are admitted to the third year of the course of the PROVINCIAL TECHNICAL COLLEGE at Halifax, and such students, upon presentation of a *Testamur* of having passed the final examination of the Technical College may be admitted to the degree of B. Sc.

Graduates in Arts who have attended lectures during their College course in Constitutional History, Contracts and Real Property, and have passed the required examinations in those subjects, are admitted to second year standing in the LAW SCHOOL OF DALHOUSIE COLLEGE and can graduate in two years from their entry into the Law School. The Board of Governors has approved of a scheme whereby students from the JAMAICA CHURCH THEOLOGICAL COLLEGE, after a residence of six terms at their own college and passing the required examinations in

б

the subjects of the Divinity Course at King's College, may receive the diploma of L. S. T.; and further that divinity students who have completed the required residence at the Jamaica Church Theological College and have passed the necessary examinations according to the requirements of King's College, may be admitted to the degree of B. A.

King's College is affiliated with the UNIVERSITIES OF OX-FORD, CAMBRIDGE AND DUBLIN, under conditions which allow an undergraduate who has taken at least two years' work, to pursue his studies and take his degree at either of those Universities on a reduced period of residence. Under the terms of affiliation with Oxford, candidates for the *Rhodes Scholarship*, who have taken the Arts Course at King's College, including Greek, are exempt from the qualifying examination.

The Rhodes Scholarship will be open to students from King's College in 1916.

Expenses.

The general charge to Resident Students for board, room, attendance, regular examinations, etc., is \$175 per annum, payable in two equal instalments of \$87.50 each.

Non-resident Students attending lectures are required to pay \$24 per annum for general dues, in instalments of \$12 each.

Whenever any of the above payments are made within one week after the issue of the Bursar's account, a discount of 10 per cent. will be allowed, thus reducing each payment for Resident Students to \$78.75; and that of Non-resident Students to \$10.80.

No student whose accounts are still unpaid after 30 days, unless he has the written permission of the President or the Secretary of the Board of Governors to defer the said payment for a limited time, can claim any reduction of fees or privileges of the University.

TUITION FEES.

Tuition Fees are \$12 per year for each subject or a maximum of \$48 for all subjects in which lectures are taken.

Students are charged a library fee of \$5 per annum.

Students.

Persons who are less than 16 years of age are not admitted as students of the College, except under special circumstances. "Undergraduates" are those who have duly matriculated. "Conditioned Students" are those who are pursuing the same course without having passed the whole of their matriculation examination; if they successfully pass at the end of the first year the examination in the work of the year, they may count their terms from the time they actually came into residence, providing they take, as subjects for their first year, all subjects required in Matriculation.

A registration Fee of \$2.00 will be charged to all students who enter without passing the Matriculation Examination.

Women are admitted on the same terms as men.

Undergraduates who have taken a partial course at any other University recognized by the Board of Governors, may upon presenting certificates of standing, be admitted *ad eundem statum* and complete their course at King's College, provided the certificates show at least as much work done as called for by equivalent examination at this University.

Students who have taken a partial course at King's College or some other recognized college, may complete their course and obtain the degree of B. A., under the following conditions :

1. They must have had at least two years of college residence, and have taken successfully during that time some regular course of study.

2. They must reside a sufficient time to make up four years of residence.

3. They must satisfy the College Board that they have done work equivalent to that prescribed for the first two years in Arts.

4. They must pass the required examinations, at the times appointed, in the subjects selected for the third and fourth years in Arts.

5. Those availing themselves of the above privileges must take their examination at Windsor and will be charged a fee of \$15 for each examination taken.

14

Calendar of the

Matriculation.

The President of the College must receive from each candidate for Matriculation before the day of Examination, a certificate of good moral conduct extending over a period of not less than eighteen months immediately preceding. In the case of candidates from a boarding-school, a certificate from the Head Master will suffice; but those candidates who have attended a day school must, in addition, produce a certificate from the minister of the church they have attended.

The Faculty of the College are authorized to accept certificates from the Head Masters of approved schools in lieu of Matriculation.

The Junior Leaving Examination (Grade XI) of the High Schools of Nova Scotia or an equivalent examination of another province is accepted pro tanto as equivalent to the Matriculation Examination. Candidates will be required to pass in such of the required subjects (if any) as are not covered thereby.

SENIOR MATRICULATION.

(Admitting to Second Year.)

Subjects: I. Latin. II. Mathematics. III. English including History. IV. Chemistry. V. French or Greek or German.

The requirements in each of the above subjects will be the same as required in the first year of the Arts Course.

Any person holding the Grade "A" Nova Scotia Provin-2

Calendar of the

cial Certificate, (or an equivalent from another province) covering the subjects required, is also admitted to the second year.

It is therefore possible for a student (who is sufficiently advanced at entrance) to obtain his B. A. Degree after three years' residence at the College.

MATRICULATION IN SCIENCE.

Subjects :--

1. Arithmetic and Algebra.—Arithmetic complete. Algebra as in Hall and Knight's Elementary Algebra, excepting Chapter 41.

2. Geometry and Trigonometry.—Geometry, Euclid, books I—VI inclusive. Trigonometry.—As in Murray's Plane Trigonometry to Chapter VIII, or equivalent or Practical Mathematics as in Grade XI.

3. English.—As in Grade XI or equivalent.

4. French or German.-As in Grade XI or equivalent.

5. *History.*—As in Grade XI or an equivalent in English or Canadian History.

6. One of the following: -(a) Latin as in Grade XI or equivalent. (b) Greek as in Grade XI or equivalent. (c) Additional work equivalent to that required for Grade XII, in the language chosen as No. 4. (d) Mechanical Drawing, projection of points, lines, plane figures and simple solids, dimensioned sketches of machine parts and drawings therefrom, lettering of drawings neatly and accurately done.

The Junior leaving examination (Grade XI) of the High Schools of Nova Scotia (and equivalent examinations in other provinces) is accepted as equivalent to Matriculation Examination, in such subjects as are covered thereby and provided that the mark made in each subject be not less than 50.

Matriculated students who have completed the three years' course, as outlined below, to the satisfaction of the Faculty, will be granted certificates, which entitle them to enter the third year of the Provincial Technical College at Halifax.

Of Terms and Zesidence.

The Academical year begins in September, and contains two terms. Michaelmas Term extends from the first Wednesday after Sept. 21st, to December 22nd: Lent Term from the first Wednesday after 2nd day of January to the second Thursday in May.

Lectures are not given on the following days : Thanksgiving Day, Ash Wednesday, Thursday to Saturday in Holy Week, Easter Monday.

Students are required to pass examinations at the end of each Term in the subjects of their course. The examinations at the end of Lent Term of the third and fourth years will cover the work of the whole year. Any student failing to pass the Terminal Examination shall be required to pass a supplementary examination in the subject or subjects in which he has failed before presenting himself for the examinations of a subsequent term.

Supplementary examinations must be passed at the beginning of the following term, and the required fee must be sent in to the President before the examination.

No undergraduate shall be allowed to keep a term unless he has paid all his College dues and complied with all other regulations.

The standing of undergraduates is determined by the yearly examinations.

The College Board will, in their discretion, require a student who, from whatever cause, shall fail to keep up with the work of his year, to "degrade" *i. e.*, to go into a lower year, in which case such student shall lose the seniority of the year from which he degrades. Students shall rank according to the number of terms they have kept.

For particulars concerning affiliation with Oxford and with other Universities, see pages 8-9.

Calendar of the

Discipline.

All students are required to report to the President on the first Monday of each term.

The resident students are under the immediate charge of the President (or, in his absence, the Vice-President).

All students in residence are required to attend the services in the College Chapel. Students who are not members of the Church of England are permitted to attend the Sunday Services of their own Church.

Attendance at all Lectures in the course entered upon except those which are announced as optional, is compulsory upon all students, and no student is allowed to absent himself from the examinations in any subject in which he has taken Lectures, except by special permission of the Professor.

Students who have absented themselves from any Lectures without permission of the individual Professor and without proper excuse, will be reported to the weekly meeting of the Board of Discipline.

More than two unexcused absences from Lectures, or forfeiture of Lectures from disorderly conduct, will disqualify a student from examination and from keeping his term.

Students residing in the College are not to be out of it after 10 p. m., without the permission of the President (or, in his absence, the Vice-President) and permission to be out after midnight must be obtained from the College Board. The College authorities may enter the apartments of undergraduates at all hours of the day or night.

No visitor is allowed to remain in College after 10 p. m., unless by permission.

All noise is forbidden in College during Lecture hours. The President is authorized to impose fines for infraction of regulations, insubordination or disorderly conduct; matters of a more serious nature are referred to the Board of Discipline, which meets once a week, or oftener if required.

The Board of Discipline may deprive any Student of his Term for negligence of due preparation for Lectures.

In case of sickness a medical certificate must be produced, if required by the Board.

The introduction of intoxicating liquors into the College or their use therein is absolutely prohibited.

Students are forbidden by the Statutes to resort to any inn, tavern or public house, except for special cause approved by the President.

"A University is the most majestic embodiment of the idea that truth is the inheritance of the race—that only the learner can claim to be the teacher—and that the best and the noblest hospitality is the hospitality of the mind, joyfully welcoming all men into its temple of knowledge."

Calendar of the

Courses of Study.

There are at present in the University four schools open to matriculated students:----

Ι.	The	School	of	Arts.
II.	,,,	,,,	,,	Science.
III.	33	3 3	,,	Divinity.
IV.	,,,	,,,	,,	Law.

Students who do not intend proceeding to a degree may attend the Lectures of any of the Professors, subject to the usual regulations, and can obtain from the Registrar certificates of examinations passed.

I-School of Arts.

(The scheme of work as outlined below is subject to such changes as may be found expedient.)

The course extends over four years.

In the first year each student must take :

- I. Latin.
- II. Mathematics A.
- III. English.
- IV. Chemistry.
- V. French or Greek or German.
- VI. English Bible.
- VII. Mathematics B. or a language not taken in V.

In the second year :

- I. Latin.
- II. English.
- III. Mathematics or Greek or French or German.
- IV. Chemistry or Applied Mathematics.
- V. A language not chosen in III.
- VI. English Bible.

In the third year, not less than four subjects must be chosen from :

- I. Latin.
- II. Greek.
- III. French.
- IV. German.
- V. English, including Economics.
- VI. Mathematics.
- VII. Law.
- VIII. Divinity.
- IX. Philosophy and Ethics.

In the fourth year not less than 4 subjects must be chosen from :

- I. Latin.
- II. Greek.
- III. French.
- IV. German.
- V. English, including Economics.
- VI. Mathematics.
- VII. Law.
- VIII. Divinity.
- IX. Philosophy and Ethics.

Except in the cases of Law, Divinity and Philosophy any subject chosen must have been taken during the former years.

In the third and fourth years students must attend at least 12 lectures on an average each week.

Other subjects may be selected at will by the student so far as the hours of lecture will allow.

tion on them will be less detailed.

IV-Mathematics A.

ALGEBRA.

Ratio, Proportion and Variation; Progressions; Scales of Notation; Surds and Imaginary Quantities ; Theory of Quadratic Equations ; Permutations and Combinations; Mathematical Induction; Binomial Theorem; Logarithms.

Text Book-Hall and Knight's Higher Algebra. (Macmillan & Co.)

TRIGONOMETRY.

Measurement of Angles; Trigonometrical Ratios; Trigonometrical Ratios of certain Angles; Ratios of Angles of any Magnitude; Circular functions of Allied Angles, Compound Angles; Formulæ connecting Ratios when A+B+C=180°; Use of Logarithms; Solution of Triangles.

Text Book-Hall & Knight's Elementary Trigonometry. (Macmillan & Co.)

GEOMETRY.

Euclid Books IV and VI with supplementary matter. Text Book-Hall and Stephen's Euclid.

V-Mathematics B.

ALGEBRA.-Binomial Theorem, any index, Exponential and Logarithmic Series.

Text Book--Hall & Knight's Higher Algebra.

TRIGONOMETRY .- Examples on the Solution of Triangles with Logarithms; Circumscribed, Inscribed and Escribed Circles of a Triangle.

Text Book .- Hall and Knight's Elementary Trigonometry.

GEOMETRY.-Euclid Book XI with supplementary matter. Text Book .- Hall & Stephen's Euclid.

VI-French.

Only candidates who have passed the Matriculation Examination in French (or an equivalent examination) can enter this class. Students not taking a full course may enter this class with the consent of the Professor.

THREE LECTURES A WEEK.

Proper pronunciation in reading and speaking; easy conversational exercises, based on a general review of a Grammar printed in French; rapid sight translation of French texts, but with a special consideration of French idioms appearing therein, easy composition and the History of France up to Charlemagne, are the aims of the first year.

Text Books required and Names of Publishers.

FACULTY OF SCIENCE.

THE PRESIDENT.

J. B. MCCARTHY, B. A., M. SC., Professor of Chemistry and Geology.

H. LOTHAR BOBER, M. A., Professor of Modern Languages.

REV. A. W. M. HARLEY, M. A., Professor of English.

J. S. TURNER, B. A., (Cantab.) Professor of Mathematics.

E. HOWARTH, M. Sc., (Univ. of Manchester.) Professor in Physics and Engineering.

COURSE OF STUDY.

The course of study extends over four years, but the fourth year is intended only for those desiring to take a B. A. from the University of King's College.

In the first year each student must take :

- I. Mathematics A. & B.
- II. Chemistry.
- III. French or German.
- IV. English.
- V. Engineering Drawing.
- VII. English Bible.

In the second year :

- I. Pure Mathematics.
- II. Applied Mathematics.
- III. Chemistry.
- IV. German.
- V. English Composition-24 hours.
- VI. Engineering Drawing.
- VII. Shopwork.
- VIII. Surveying.
- IX. English Bible.

In the third year :

- I. Mathematics.
- II. Physics.
- III. Descriptive Geometry (Machine Design.)
- IV. English Composition.
- V. Shopwork.
- VI. Geology.
- VII. Surveying.
- VIII. Kinematics and Dynamics of Machinery.
- IX. English Literature or French or German. (For Degree Students.)

In the fourth year :

20

- I. Pure Mathematics.
- II. Applied Mathematics.
- III. Physics.
- IV. Geology or Engineering Drawing.
- V. English Literature or French or German.

(Any one chosen in the third year.)

It has been thought advisable by the Board of Governors of King's College to extend to all Science Students the fullest privileges in connection with their chosen work, for two reasons:—Ist, because a University must be broad in sympathy, liberal in view, and helpful to all those desiring an education ; 2nd, because the course of instruction provided by the Professors and Lecturers of the various Faculties should not only be cultural in tone, but also to a large extent utilitarian in effect.

The Provinces whose sons and daughters are attracted to King's College are rich in vast and abundant natural resources. These only wait the touch of the trained hand and the educated

Calendar of the

mind to yield their wealth for the material prosperity of the the people as a whole.

The development of the material wealth of the Dominion of Canada is a reliable barometer indicating the remarkable growth of the study and investigation of Science in our Universities. Years ago it was felt that a great injustice would be done to our young men if we did not make ample provision for such research as would enable them to have a thorough training in Science, and as a result of this feeling King's College became the pioneer of Scientific training in Nova Scotia. Up to the present a preliminary course of two years has been thought sufficient, but, as competition becomes more keen on account of the large numbers from outside our own country attracted here by our natural wealth, it has been found necessary to raise the standard; this raising of the standard makes the extension of the course to three years imperative if the preliminary work is to be thoroughly mastered. We purpose adding to this three year course such special features in a fourth year as will enable the student to take his B. A. degree from this University. While no student in Science will be asked to select the suggested four year course, yet the Faculty strongly recommends it as an excellent basis for further scientific research. When a student has completed the three year course in Science at King's College he may proceed to the Provincial Technical College in Halifax, and fully complete his Scientific course in two years. This will entitle him to his degree of B. Sc. in either Civil, Mechanical, Electrical or Mining Engineering from that institution or King's College.

Students may enter the School of Science at King's College by either Junior Matriculation, admitting to the first year, or by Senior Matriculation admitting to the second year.

JUNIOR MATRICULATION.

Subjects :-- I. Mathematics. II. English. III. Latin or German. IV. Greek or French.

For particulars see Arts Matriculation.

Those who do not intend to proceed to an Arts degree, and

have not matriculated in two languages, must add the course in German, as outlined for first and second year Arts.

SENIOR MATRICULATION.

Students who hold Grade A. Nova Scotia Provincial certificate, (or an equivalent from another Province) covering the subjects required, are admitted to the second year.

FIRST YEAR.

I-Mathematics A.

ALGEBRA.

Ratio, Proportion and Variation; Progressions; Scales of Notation; Surds and Imaginary Quantities; Theory of Quadratic Equations; Permutations and Combinations; Mathematical Induction; Binomial Theorem; Logarithms.

Text Book—Hall and Knight's Higher Algebra. (Macmillan & Co.) TRIGONOMETRY.

Measurement of Angles; Trigonometrical Ratios; Trigonometrical Ratios of certain Angles; Ratios of Angles of any Magnitude; Circular functions of Allied Angles, Compound Angles; Formulæ connecting Ratios when $A+B+C=180^{\circ}$; Use of Logarithms; Solution of Triangles.

Text Book—Hall & Knight's Elementary Trigonometry. (Macmillan & Co.)

GEOMETRY.

Sulphur and its Compounds, The Periodic Law, Nitrogen, Ammonia, Phosphorus, Carbon and the oxides of Carbon, The Atmosphere, Silicon, Boron, The Metallic Elements of the Alkalies, The Metallic Elements of the Alkaline Earths.

(b) Arithmetic of Chemistry :-- Chapter I-VI of Waddel's Arithmetic of Chemistry.

(c) Laboratory work of 4 or 5 hours per week, where students are trained into correct habits of manipulation, problems solved by experiment and common bases and acids determined.

Text Books :--

"General Chemistry for Colleges" by Alexander Smith. (The Century Co., New York.)

"Waddel's Arithmetic of Chemistry." (Macmillan Co., Toronto.)

IV-French.

Only candidates who have passed the Matriculation Examination in French (or an equivalent examination) can enter this class. Students not taking a full course may enter this class with the consent of the Professor.

THREE LECTURES A WEEK.

Proper pronunciation in reading and speaking; easy conversational exercises, based on a general review of a Grammar printed in French; rapid sight translation of French texts, but with a special consideration of French idioms appearing therein, easy composition and the History of Frauce up to Charlemagne, are the aims of the first year.

Text Books required and Names of Publishers.

"Grammaire française" par M. S. Bruce, (D. C. Heath & Co., Boston.)

"La cagnotte," by Labiche & Delacourt. (D. C. Heath & Co., Boston.) "Advanced French Prose Composition," by François. (American

Book Co.) "Histoire de France," par O. B. Super. (Henry Holt & Co., New

Discovery and History of the New World.

Throughout the course each student will be required to write two essays each term on subjects selected by the Professor.

VII-Engineering Drawing.

LECTURE AND DRAWING COURSE OF 5 HOURS PER WEEK.

Subjects :- Practical Plane Geometry ; Elementary Descriptive Geometry; Elementary Machine Drawings and Design.

Working drawings are made from sketches, models, or actual parts of machines, engines, hydraulic and electric machines, boilers, roof trusses and bridges.

Text Books-Machine Drawing and Design by H. S. Spooner. (Longmans, Green & Co., New York.) Practical Plane and Solid Geometry by Harrison & Baxandall. (Macmillan & Co.)

VIII-Shop Work.

3 HOURS PER WEEK.

This work is under the supervision of a graduate of Mechanical Engineering. Students have the privilege of using the Windsor Foundry and Machine Co.'s workshops. There such work as chipping, filing, machine work, carpentry, pattern making, etc., is taken up.

IX-English Bible.

A general knowledge of the Historical books of the Old Testament and of Old Testament History from its beginning to the close of the Canon.

SECOND YEAR.

I-Mathematics.

Algebra :-- Limiting Values, Convergency and Divergency of Series, Undetermined Coefficients, Partial Fractions, Summation of Series, Determinants, Theory of Equations.

Text Book : Hall & Knight's Higher Algebra.

Trigonometry :--Examples on the Solution of Triangles, with Logarithms; Area of Quadrilaterals; Circular Areas; Properties of Regular Polygons.

Text Book : Hall & Knight's Elementary Trigonometry.

Geometrical Conics :- Parabola, Ellipse, and Hyperbola.

Text Books : Smith's Geometrical Conics. (Macmillan & Co.)

Analytic Geometry :--Straight Line, Circle.

DYNAMICS.

Velocity; Acceleration; Laws for Uniformly Accelerated Motion; Vertical Motion under Gravity; Motion on Smooth Inclined Plane; Newton's Laws of Motion; Momentum; Impulse; Uniform Motion in a Circle; Simple Pendulum.

HYDROSTATICS.

Pressure at a Point ; Bramah's Press ; Pressure at different points of a Fluid ; Pressure on a Plane Surface ; Equilibrium of a Floating Body ; Specific Gravity; Mechanical Properties of Gases; Thermometer; Barometer; Siphon; Diving Bell; Pumps.

Text Book-Glazebrook's Mechanics and Hydrostatics. (Camb. Univ. Press.)

(b) LABORATORY COURSE.

III-Chemistry.

(a) Inorganic Chemistry :--Metallic Elements; Coppers, Silver, Gold, Magnesium, Zinc, Cadmium, Mercury, Aluminium, Tin, Lead, Arsenic, Antimony, Bismuth, Chromium, Manganese, Iron, Cobalt, Nickel, The Platinum Metals. Also notes on the rarer Elements.

(b) Organic Chemistry :--Flame and Illuminants; some Carbon Compounds; the Paraffins and their chief derivatives; Methane; Ethylene; Acetylene; Benzine and its chief derivatives.

(c) Laboratory Work :--Qualitative Chemical Analysis; Detection and separation of metals; Detection of the inorganic and more common organic acids.

Text Books—Qualitative Analysis, by Arthur A. Noyes. (The Macmillan Co.) Compounds of Carbon, by I. Remsen. (D. C. Heath & Co.)

IV-German.

THREE LECTURES A WEEK.

Conversational Exercises on ordinary topics as in Pope's German Composition; as immediate repetition of German anecdotes and translation of easy English anecdotes without books, exercises on German Syntax, reading in class of a German comedy with special attention to idioms appearing therein, some of the most famous ballads.

Text Books Required and Names of Publishers.

V- English.

Rhetoric and Composition, 24 hours.

VI-Engineering Drawing-Machine Design.

Lecture and drawing course 3 hours per week.

Complete designs are worked out of details of machines, engines, boilers, roof trusses and plate girders.

Text Book—Machine Design, Construction and Drawing, by Spooner. (Longmans & Co., New York.)

VII-Descriptive Geometry.

Lecture and drawing course of 3 hours per week.

Advanced Descriptive Geometry with problems on points, lines and

Calendar of the

planes; single and double curved and warped surfaces; intersections; tangencies; developments; shadows; isometric projection; perspective.

Text Book—Practical Plane and Solid Geometry by Harrison & Baxandall. (Macmillan & Co.)

VIII-Shopwork.

3 hours per week.

Pattern making, machine, forge and foundry work, etc.

IX-Surveying.

COURSE I.

Lecture Course of I hour per week.

Laboratory or Drawing Course of 2 hours per week.

Syllabus of Lecture Course :--

The use and adjustment of the following instruments:—the chain, tapes, rods for ranging, rods and tapes for measuring offsets, cross-staff, box sextant, compass, level, transit, theodolite.

The precautions necessary for the accurate measurement of base lines.

The methods employed in making a Survey.

Obstacles to Surveying.

Compass Surveying ; Transit Surveying.

Leveling.

The determination of ground areas and of the volumes of banks and cuttings.

Syllabus of Laboratory and Drawing Course :-

The adjustment of the Surveying instruments.

Plotting and purveys from notes taken in the field.

X-English Bible.

History of the period between the Old and New Testaments, and a general knowledge of the Historical Books of the New Testament.

THIRD YEAR.

I-Mathematics.

(a) Analytical Geometry.--Parabola, Ellipse, Hyperbola, General Equation of the Second Degree.

Smith's Conics-Chap. V-IX.

(b) Solid Geometry.—Straight line and Plane; Conicoids referred to their axes.

Smith's Solid Geometry-Chap. I-IV.

(c) Differential Calculus.—Leibnitz's Theorem; Partial Differentiation.

Asymptotes ; Curve Tracing ; Curvature ; Envelopes ; Undetermined Forms ; Maxima and Minima.

Text Book.—Nichol's Diff. and Integ. Calculus. (D. C. Heath & Co., Boston.)

(d) Integral Calculus.—Integration of well known forms; Reduction formulæ; Rectification and Quadrature; Volumes of Solids.

Text Book .- Nichol's Diff. and Integ. Calculus.

II-Physics.

(a) Lecture course, three hours per week.

Heat ; Light ; Sound, Magnetism and Electricity.

Experiments illustrating the fundamental principles of Physics will be performed.

(b) Laboratory work, two hours per week, covering the subjects of the lecture course.

Heat.—Determination of the fixed points of Thermometers, correction of Thermometers.

Determination of the specific heats of Solids and Liquids. Determination of the coefficients of expansion of solids and liquids.

Experiments on the properties of Vapours.

III-Engineering Drawing-A. Machine Design.

Lecture and drawing course 3 hours per week.

Complete designs are worked out of details of machines, engines, boilers, roof trusses and plate girders.

Text Book—Machine Design, Construction and Drawing by Spooner. (Longmans & Co., New York.)

B. Descriptive Geometry.

Lecture and drawing course of 3 hours per week.

Advanced Descriptive Geometry with problems on points, lines and planes; single and double curved and warped surfaces; intersections; tangencies; developments; shadows; isometric protection; perspective.

Text Book—Practical Plane and Solid Geometry by Harrison & Baxandall. (Macmillan & Co.)

IV-Rhetoric and Composition. 24 hours.

V.-Shopwork.

3 hours per week.

VI-Geology.

(a) General Geology :- The Processes now at work modifying and changing the globe internally and on the surface ; Earthquakes, Volcanoes, The Atmosphere, Running Water, Snow, Ice, Lakes, Animals and Plants,

Calendar of the

Swamp, River, Marine and Estuarine Deposits. Classification and Structure of Rocks Masses; Igneous Rocks, Sedimentary Rocks, Stratified Rocks, Fractures, Dislocations, Joints, Metamorphism.

Physiography; The Geographical Cycle, Land Sculpture, Adjustment of Rivers, Sea Coasts, Mountain Ranges.

Historical Geology.

(b) Field and Laboratory Work :-Geological excursions on fine Saturdays in the Michaelmas Term. Windsor and the vicinity offer excellent opportunities for studying in situ many and varied geological processes.

During the winter months Saturday mornings are given over to examing more closely and determining if possible the rocks and fossils collected during the excursions. Some instruction is also given in the use of geological maps and the method of mapping work done in the field.

Text Book.—"An Introduction to Geology" by W. B. Scott. (The Macmillan Co.)

VII—Surveying.

COURSE II.

Lecture Course of one hour per week.

Drawing Course of one hour per week.

Field work in Surveying for three weeks, immediately preceding the opening of the Session in September.

Syllabus of Lecture Course :--

Traverse Surveying. The methods employed in finding the meridian, the latitude and the longitude of a place. The effect of the earth's curvature on the measurement of long distances.

The carrying out of preliminary surveys.

The manner in which large triangular surveys are carried out.

Trigonometric Leveling.

Topography.

Syllabus of Drawing Course :-

This includes the mapping of the Survey from the notes taken in the field.

VIII-Kinematics and Dynamics of Machinery.

Lecture Course of 3 hours per week.

Laboratory and Drawing Course of 2 hours per week.

Lecture Course :--

The application of the principles of Mechanics to machines. Study of elementary machine parts. Kinematic chains, Mechanisms. Virtual Centres. Relative velocities in Mechanisms.
Velocity and Acceleration diagrams.
Wheel trains and teeth. Bevel, epicyclic, worm and helical gearing.
Forces in a machine, brank effort diagrams.
Inertia of reciprocating parts.
Governors. Fly-wheels.
Friction and efficiency. Lubrication.

Valve gears and valve diagrams. Principles of balancing with applications. Balancing of Engines and Locomotives.

Laboratory and Drawing Course :--

The necessary drawings in connection with the above course in Kinematics will be worked out.

Experiments on the Friction of Sliding Surfaces. Experiments on the Friction of Ropes and Belts. Experiments on cams and their velocity diagrams. Simple periodic motion. Vibrations. Experimental methods of determining Moments of Inertia.

(For students proceeding to an Arts degree.) English Literature or

French or

German, as in the Arts course of the third year.

FOURTH YEAR.

I-Pure Mathematics.

DIFFERENTIAL AND INTEGRAL CALCULUS.—Singular Points; Polar Curves; Plücker's Equations; Curve Tracing; Beta and Gamma Functions; Rectification and Quadrature; Volumes and Surfaces of Solids; Dirichlet's Theorem; Differential Equations; Standard Forms of Equations of the First Order; Equations of Second Order; General Linear Equation with constant coefficients.

Text Books-Edwards' Integral Calculus for Beginners. (Macmillan & Co.) Williamson, Integral Calculus. (Longmans, Green & Co.)

SPHERICAL TRIGONOMETRY. — Relations between Trigonometric Functions of the sides and angles of a Spherical Triangle; Solution of Right Angled Triangles; Circumscribed and Inscribed Circles; Area of Spherical Triangle.

Text Book—Todhunter & Leathem's Spherical Trigonometry. (Macmillan & Co.)

STATICS.—Analytic treatment of Coplanar Forces; Reactions at Joints; Forces in Three Dimensions; Poirsot's Central Axis; Centre of Gravity; Virtual Work; Strings; Simple cases of Attraction and Potential.

Text Book-Routh's Statics Vol. I. (Camb. Univ. Press.)

PARTICLE DVNAMICS.—Expressions for Velocity and Acceleration; Determination of Central Orbits under given Laws of Acceleration; Equations of Motion in certain simple cases; Work Function; Potential Function; Apses; Disturbed Elliptic Motion; Simple cases of motion under Constraints and Resistances.

Text Book-Love's Mechanics. (Camb. Univ. Press.)

ASTRONOMY.--Definitions; Rotation of Earth; Instruments; Latitude; The Ecliptic; the Seasons; Form of Earth's Orbit; Equation of Time; Longitude; The Moon; Eclipses.

Godfray's Astronomy.

III-Physics.

Lecture Course of 3 hours per week.

Laboratory Course of 2 hours per week.

(a) Properties of Matter :- Elasticity; Stresses and Strains; Torsion; Bending of Rods and Beams; Compressibility of Liquids; Pressure and Volume of Gases; Capillarity; Surface Tension; Viscosity of Liquids.

(b) Heat: -Expansion of Solids and Liquids; Elasticity and Thermal Expansion of Gases; Calarimetry; Latent Heat of Fusion and Vaporisation; Change of State; Continuity of State; Properties of Vapours; The Kinetic Theory of Gases; Thermodynamics; Convection, Conduction and Radiation of Heat.

(c) Light:—Applications of the Laws of Reflection and Refraction; Dispersion and Chromatic Aberration; Optical Constants of Mirrors and Lenses; The Wave Theory of Light; The Spectrum, Radiation, Absorbtion and Dispersion of Light; Interference; Diffraction; Polarisation and Double Refraction; Theories of Reflection and Refraction.

(d) Sound :- The Velocity of Sound in Air and other Media; Reflection and Refraction of Sound; Frequency and Pitch of Notes; Resonance and Forced Vibrations; Analysis of Vibrations; Vibrations of strings, wires, air columns, rods, etc.; The Superposition of Waves.

(e) Magnetism and Electricity:—Advanced Electrostatics; Electromagnetics Thermo Electricity; Chemical Effects of Currents; Electric Waves; Atmospheric Electricity.

IV-Geology.

Geology.—General Geology with especial reference to the geology of the Province and Dominion. Students will be required to present a report at the end of the year upon some local geological problem. Economic Geology.—As in Kemp's Ore Deposits.

Mineralogy.—Crystallography and Determinative, Blow-pipe Analysis, Dana's manual.

Ample opportunity is given the student to gain practical familiarity with minerals and rocks by reference to the specimens in the College museum and the large teaching collection in the lecture room.

III—School of Divinity.

FACULTY OF DIVINITY. Rev. Canon Thomas W. Powell, M. A., (*Ex-officio.*)

REV. GANON VROOM, M. A., D. C. L., D. D., Professor of Divinity, including Pastoral Theology.

> REV. T. H. HUNT, M. A., D. D., Alexandra Professor of Divinity.

REV. G. R. MARTELL, M. A., Lecturer in Pastoral Theology.

Such persons as have been accepted by the Bishop of Nova Scotia, or another Bishop may become students in Divinity under any of the following conditions:

I. Undergraduates in Arts who have matriculated in Greek, may, after the end of their second year, take the first year of the Divinity Course concurrently with the third year's work in Arts (making Divinity one of the options for Degree) and the second year of the Divinity Course concurrently with the fourth year of the Arts Course, and complete the third and fourth years of the Divinity Course after graduation in Arts.

Students who take honours in Divinity may however complete their Divinity Course one year after graduation.

2. Graduates in Arts who have not taken Divinity as a Degree option, are required to take three years of Divinity work, combining the work of the first and second years of the Divinity Course in their first year of residence, and subsequently taking the work of the third and fourth years in order.

3. Candidates not required by the Bishop to take an Arts Course may, after passing a qualifying examination, take the four years of the Divinity Course, filling in the first and second years with Arts Lectures in English Literature.

With consent of the Bishop concerned, and upon the re-

commendation of the Faculty of Divinity, the first two years of the Divinity Course may be taken in one.

Unless special instructions to the contrary have been received by the Faculty from the Bishop concerned, all Divinity students are required to attend the prescribed lectures of the Divinity course, and such others as may, from time to time, be arranged, and to pass satisfactory examinations in all subjects. A report of each student will be sent to the Bishop at the end of each term, concerning attendance at lectures, examinations, attendance at Chapel and general conduct.

The course of instruction qualifies candidates for the "Voluntary Preliminary" or First B. D. Examination of the Board of Examiners for Degrees in Divinity appointed under the Canon of the Provincial Synod.

Scholarships and Prizes.

The Cogswell Scholarship.

[£24 sterling per annum. Open to candidates for Holy Orders, under the direction of the Trustees.]

The Gospel of St. Mark in the Greek Testament; Bible History, that portion included within the reigns of the Kings of Israel. The Thirty-nine Articles generally, and particularly the first division, viz. : Arts I—V.

"The successful candidate must have attained the full age of nineteen years, and bring satisfactory testimonials of his moral conduct and religious principles for the preceding last three years. He must be a communicant of the Church, and if not on the Matricula, prepared to enter College; he must be distinguished for talent and literary attainments, and above all for piety, and fervent belief in the fundamental doctrines of the Gospel; and be sincere in his attachment to the doctrines and principles of the Church as expressed in her authorized Formularies; viz. : her Articles, Homilies and Liturgy."

The Divinity Scholarships.

[Open to Students for Holy Orders actually requiring assistance, and subject to the control of the Bishop of Diocese.]

Six in number. \$100.00 per annum.

Two of these Scholarships are awarded each year, and are tenable for four years. They are awarded to those only who matriculate and take an Arts Course. In order to obtain a Scholarship a candidate must make an average of not less than fifty per cent. in the Matriculation Examination, and be not less than nineteen years of age. The Scholarships are awarded according to the rank obtained in the Matriculation Examination, without excluding some consideration of the character and circumstances of the candidates. Scholarships shall be

forfeited for serious misconduct, of which the Board of Discipline shall be the judges (the Board to report to the Bishop for his action,) and any student failing to keep his terms, unless prevented by illness or other urgent reason, shall *ipso facto* forfeit his Scholarship, and the Scholarship thus forfeited may, upon the recommendation of the President and Professor of Divinity, be given by the Bishop to a Divinity student of the same Academical standing as the one who forfeits the Scholarship.

Every student before receiving a Divinity Scholarship is required to sign an agreement in which he binds himself to serve in the Diocese of Nova Scotia after ordination for as many years as he has held the Scholarship.

Divinity Scholars are required to reside in the College Building.

The Binney Exhibition.

\$50 PER ANNUM.

In the year 1858, Miss Binney, sister of the late Visitor, and daughter of the late Rev. Hibbert Binney, in the name and on behalf of her father's executor, handed over to the Governors certain stock amounting to \$1,000, to found an exhibition at King's College, to be called "The Binney Exhibition," in memory of her said father.

The design of this Scholarship is to assist students who may require assistance, and who shall have commended themselves by their exemplary conduct, although their abilities and acquirements may not qualify them to be successful competitors for an open Scholarship.

TERMS.—On or before the 15th day of April in each year, the College Board shall nominate two students, in their second term at the least, whom they may deem best qualified, having regard to their straitened means and the excellence of their character; and the President shall forthwith transmit their names, together with a brief statement of their claims, to the Visitor, who shall select one of them to be the exhibitioner, and to receive the interest accruing for the following year, commencing July 1st. Or, at his discretion, if he considers the claims of the two nominees to be equal, or nearly so, the Visitor may adjudge that the amount be divided between them.

The McCawley Hebrew Prize.

[£9 Sterling. Open to all members of the University who are below the standing of M. A., and who have not already gained the first premium in Hebrew.]

This prize is given out of the interest of a Trust Fund in the hands of the Society for the Propagation of the Gospel in Foreign Parts. The fund and the conditions of the prize are thus stated in the Report of the Society :---

"This Fund arises from a gift of £150 sterling, in the British North American Bank, made by the Rev. George McCawley, D. D., Falmouth, Nova Scotia, the interest to be paid to the student of King's College, Windsor, N. S., who shall pass the best examination in Hebrew Bible and Greek Testament; the examination being under the direction of the Visitor and President."

Subjects for 1911 :--

*

HEBREW : *Ruth* ; *Psalms* I—XII inclusive ; *Haggai*. GREEK : The Epistles to the Ephesians and Philippians. (Hebrew counts 300 and Greek 100.)

The Almon-Welsford Testimonial.

WILLIAM J. ALMON, ESQ., M. D., endowed King's College with \$400, the interest of which is appropriated as a prize to be competed for by the matriculated students in their first year of residence. The prize shall be presented by the President, in the College Hall, at the beginning of the next Academical year, and the successful candidate shall in a Latin oration, commemorate the gallant and loyal deeds of Major Welsford.

The Stevenson Scholarship.

THREE, OF \$60 EACH.

THE REV. J. STEVENSON, M. A., (sometime Professor of Mathematics in King's College,) left a sum of money for the purpose of founding three scholarships, tenable for two

Calendar of the

years, and open to matriculated students in their second year of residence.

REGULATIONS.

I. These scholarships shall be competed for in the month of September, and are open to all matriculated students in their second year of residence.

2. No student shall hold more than one of these scholarships; and in the event of two being vacant at the same time, they shall be awarded to the first and second candidates on the list who shall have attained the proper number of marks.

3. Candidates must select from the following list subjects aggregating not less than 600 and not more than 700 marks:

Greek	100
Latin	100
English Literature	100
Divinity	100
Mathematics	
Chemistry	
French	
German	100

The marks of any paper shall not count in the total unless they are at least 50 per cent. of the maximum.

The McCawley Classical Scholarship.

This scholarship is given out of the interest of a fund by subscription for a testimonial to the Rev. G. McCawley, D. D., on his retirement from the office of President.

1. The competition shall be confined to matriculated undergraduates who have completed their first year of residence.

2. The examination shall be conducted by the President, assisted by such other person as the Governors shall appoint for the time being, either within or without the University, as assessor.

3. The examination shall be confined principally to such classical works as the President shall have appointed at the beginning of Michaelmas Term preceding, and shall include the translation, grammatical construction and relation to the context of the passages selected, together with such critical papers in prose and verse as may be set at the examination.

4. The examination shall be subject, in respect of the number of marks required, to the general regulations of the University with reference to prizes and scholarships.

5. In the event of there being no competition, or on failure in the examination, the year's interest shall be expended in the purchase of classical books for the Library from a list selected by the President, having in view, in the first instance, the completion of a collection of the works of all the classical authors, and of the best editions of the respective works, whether English or foreign, and also of books illustrative of the same at the discretion of the President.

6. This scholarship shall be competed for in the Lent Term.

The Akins' Historical Prize.

T. B. AKINS, ESQ., D. C. L., Barrister-at-Law, and Commissioner of Public Records, vested in the Governors, as Trustees, a sum of money sufficient to found a prize of thirty dollars annually for the best Paper or Essay on the County History of Nova Scotia, embracing matters derived from all local records and traditions relating to the early and progressive history of each county. The Essays must be given in to the Secretary of the Governors, on or before the first day of April.

The decision on the merits of the Essays to rest with the Governors, or such persons as they may appoint, and to be announced at the Encaenia.

Each Essay to be distinguished by a motto and to be accompanied by a *sealed* paper, bearing the same motto on the outside, and containing the name of the writer.

The Essays, when handed in, are the property of the College.

Subject for 1912 :---

Work and Influence of King's College Men in Halifax City and County.

Calendar of the

Bishop Binney Prize.

(\$20.00.)

This prize, which was founded by Mrs. Binney in memory of her husband, the late Bishop Binney, is given to the undergraduate who passes the best examination at the end of the second year.

The McDonald Prizes for General Biblical Knowledge.

Two prizes for General Bible Knowledge are presented annually by His Honor, Judge McDonald, D. C. L., of Brockville, Ontario; of the value of \$15 and \$10 respectively. These prizes are open to all years of the Divinity Class, but the same prize is not to be awarded to the same student twice, nor in any case if the marks fall below 66 per cent. The paper will be set on General Bible Knowledge with optional questions on the particular Bible Study for each year, as part of the annual examinations in May.

The President's Prizes for Reading and Elocution.

Two prizes for Reading and Elocution are presented annually by the President; of the value of \sharp_{12} and \$8 respectively. These prizes are open to all the years of the Divinity Class. The marks will be awarded as follows: 50 per cent. for reading in Chapel during the year, and 50 per cent. for a competitive examination to be held as part of the annual examinations in May.

The James Edmund Jones Prize for Hymnology.

Mr. Jas. Edmund Jones, B. A., of Toronto, has offered a prize of \$15 for the coming year, open to all students attending lectures. The prize will be awarded to the student obtaining the highest mark, above 66 per cent, on a paper, set on the article on Hymns in the Ninth Edition of the Encyclopedia Britannica, and Mr. Jones' annotated Book of Common Prayer.

S. P. C. K. Studentships.

The Society for Promoting Christian Knowledge offers fifty Studentships of about \$145 each, tenable for three years to students, who, after taking a Divinity Course at King's College or some other approved College, promise to devote five years to pastoral work in the North-West.

The Governor-General's Medal.

Given to the candidate who obtains the highest standing in the examinations for degrees.

The Austen Mosher Prize.

A prize of \$20.00, given annually to the student who makes the most progress in French during the first three years of the course.

The Cogswell Cricket Prize.

CHARLES COGSWELL, ESQ., M. D., made a donation of \$200 to the Governors of King's College, the interest of which is to be expended in the purchase of a set of Cricket Bats, etc., to be given to the best player among the winners of a cricket match to be played annually on the College grounds. "The object of the donation is to promote the health of the students and encourage them in the prosecution of their studies."

School Scholarships.

A scholarship of Fifty Dollars to be given to one pupil each from the Collegiate School, Windsor, Rothesay Collegiate School and the Kings County Academy, Kentville, on matriculation into and remaining in residence at King's College for one year—the amount in each case to be deducted from tuition fees.

Calendar of the

Societies Connected with the College.

The Alumni of King's College.

Under the regime of the old political Board of Governors no share in the management of the College was given to graduates and others who were deeply interested in its welfare. With a view to altering this state of affairs legislation was sought and obtained by certain members of the University for the incorporation of a body to be known as "The Alumni of King's College, Windsor." The Act was passed in 1847, and the society soon made its influence felt. Its expressed object was "The promotion of Education in the said College, and the Collegiate School at Windsor, connected therewith." The first President of the society was the Rev. John T. Twining, D. D. The Hon. H. H. Cogswell was Vice President, and S. L. Shannon, Esq., Secretary and Treasurer. Six years later the original Act of 1789 was repealed and a new Board of Governors constituted, consisting of certain life members, (of whom the last survivor was the late Mr. Justice L. M. Wilkins) and eight members elected by the Alumni.

It was through the Alumni that the Chair of Natural Science was endowed, and a liberal amount was also granted annually towards the salary of the Professor of Modern Languages. Another important work of the society was the building of the Library and Convocation Hall.

While those whose names appear in the Act were all members, and most of them graduates of the University, the terms of membership were very liberal, and "all persons paying an annual subscription of Twenty Shillings or upwards, or making at one time a donation of Twenty Pounds, or upwards," were eligible for election. The amount of the annual subscription was fixed by by-law in 1882 at two dollars.

The annual meeting of the Society is held the day before Encænia.

The present officers of the Society are : THOS. TRENAMAN, M. D., President. REV. CANON F. W. VROOM, D. D., Vice President.

> EXECUTIVE COMMITTEE. The President. The Vice President. R. J. Wilson, M. A. W. Bruce Almon, M. D. R. V. Harris, B. A. W. L. Payzant, M. A. Thomas Brown. M. A. B. Smith, M. D. Rev. C. W. Vernon, B. D.

The Alexandra Society of King's College, which has branches all over the Maritime Provinces, was organized by the energy of Rev. S. Weston Jones, as a valuable supplement to the work of the Alumni. It has already succeeded in founding the Alexandra Professorship, and has helped in furnishing the College rooms and in other ways. Its work in diffusing a broader interest in the College is becoming more and more important.

Officers for the year :--

Patronesses-Mrs. C. L. Worrell, Halifax.

Mrs. J. Richardson, Fredericton.

President-Mrs. H. B. Tremain, Windsor.

Vice-Presidents-Mrs. H. G. Moody, Yarmouth;

This society was founded in 1890. Its object is to promote interest in missionary work, and to further the missionary work of the Church, especially in the Maritime Provinces. Memberbership is open to all members of the College. Amount of fees and subscriptions is voluntary. Regular meetings are held at least once each month, and also at such other times as may be from time to time arranged during the College year. The annual meeting is held on St. Andrew's Day, or as near to it as possible.

The King's College Glee Club.

President......Rev. D. C. Haviland, B. A. Secretary.....E. P. Brown.

This club was organized in October, 1909. It is one of the youngest of the College societies and is yet but in early stages of development. The object of the Club is to develop any musical talent among the students, and to add as much as possible

Calendar of the

to the joy of college life. Membership is open to all members of the College.

The King's College Chess Club.

Honorary President	Rev.	T. W.	Powell, M. A.	
President	J. S.	Turner	; B. A.	
Secretary	С. н	. Bould	en, B. A.	

This is the youngest Club in connection with the Student Body of the University. Meetings are held once in every week during the scholastic year. There is no membership fee, but expenses are met by a collection from the members.

The Finance Committee.

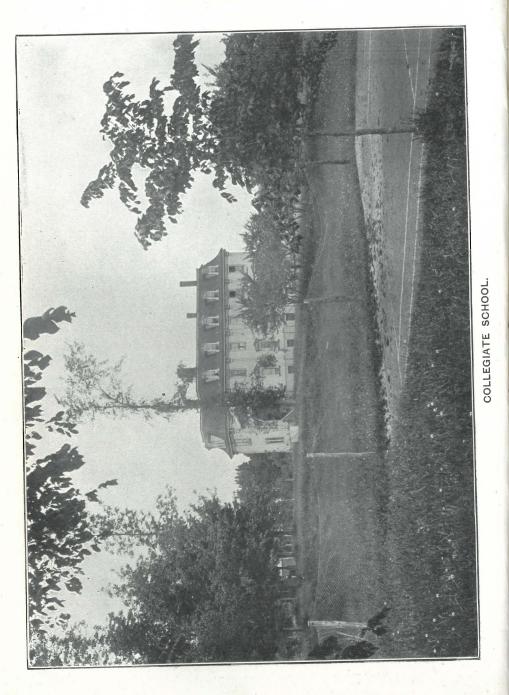

This committee consists of the Senior Student and of two other members elected by the Student Body. This committee has a general supervision over the financial affairs of the principal college societies. This committee shall receive and be responsible for the annual levy of \$5.00 per student for the maintenance of the Reading Room, sports, etc.

King's College Reading Room Association.

This association was founded in 1876. Its object is to provide for its members a good supply of the best English, Canadian and American papers, periodicals and reviews. Membership is open to all members of the College.

King's College Amateur Athletic Association. Honorary President......Rev. T. W. Powell, M. A. President.....C. H. Boulden, B. A. Secretary.....G. R. Harrison.

The object of this association is the promotion of amateur sport of all kinds including Hockey, Football, Baseball, Cricket, Tennis, etc. Gymnasium classes are held regularly under the direction of Sergt. Cunningham. The K. C. A. A. A. is affiliated with the Maritime Provinces Amateur Athletic Association, and is governed according to the rules of that association. Membership is open to all members of the College.

Collegiate School.

(Established 1788.)

The School for some years shared the College building. Subsequently it occupied premises out at Tonge's Hill. Afterwards a stone building, the cost of which was defrayed by money from the Castine Fund, was erected within the College grounds. This was destroyed by fire in 1873. The present buildings are situated on the beautiful College campus. They are all, including the Gymnasium, provided with electric light and hot water heating.

The School provides a good general education, and pupils are prepared for matriculation at King's and other Universities, for the entrance examination Royal Military College, Kingston, Ont., for Army and Navy, and for commercial pursuits.

Pupils who are members of the Church of England attend the Sunday Services in the College Chapel. Careful attention is given to moral training and religious instruction. Brief reports of Boys' progress and conduct are sent home at mid-term and detailed reports at the end of each term. Pupils are required to pay strict observance to the rules and regulations of the School.

STAFF.

HEAD MASTER.—Mr. F. T. HANDSOMBODV, B. A., Trinity College, Dublin; M. A., King's College, Windsor; late Assistant and House Master at Sir W. Borlase's Endowed School, Great Marlow, England.
RESIDENT SENIOR ASSISTANT.—Mr. F. BUCKLE, B. A., Trinity Hall, Cambridge, also Scholar of Brighton College.

RESIDENT JUNIOR ASSISTANTS .- To be appointed.

Calendar of the

MODERN LANGUAGES.—PROF. H. LOTHAR BOBER, M. A., Professor of Modern Languages, King's College.

LADY MATRON.-MRS. HANDSOMBODY.

ASSISTANT MATRON AND NURSE .- Miss M. Ogilvy.

DRILL AND GYMNASTICS.—SERGEANT CUNNINGHAM, formerly Chief Instructor, Military Gymnasium, Halifax.

MUSIC, SHORTHAND, TYPEWRITING, ETC.-To be announced, when required.

The School Year.

Michaelmas Term will begin on Monday, Sept. 11th, 1911. Lent Term """ Monday, Jan. 15th, 1912. Easter Term """ Monday, April 1st, 1912.

There are six Exhibitions for the sons of clergymen, and the Board of Governors have placed at the disposal of the School two nominations at King's College, which exempt those who hold them from certain annual College fees.

Money prizes of \$40.00, \$20.00, and four at \$5.00 each are presented annually by the Alumni of King's College.

FEES.

Reductions in the General Fee for Board and Tuition are made for brothers, sons of clergymen, and boys under twelve years of age.

ALL FEES ARE PAYABLE STRICTLY IN ADVANCE.

Pupils are expected to return punctually to the day, and no permission is given for absence during the term.

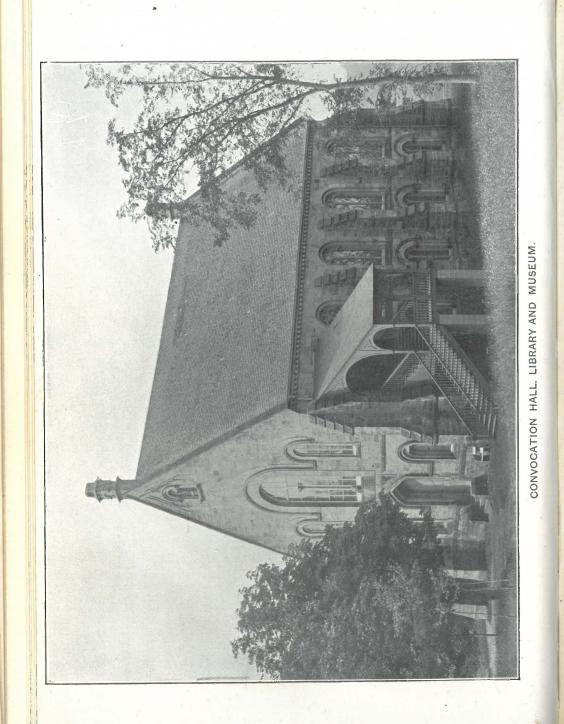

One-half term's notice must be given in writing, or one-half term's fee paid previous to the removal of a pupil.

All correspondence should be addressed to the Head Master.

Further information is contained in the Collegiate School Calendar, which may be obtained from the Head Master.

I EDWARD VII., CAP. XVII.

An Act Relating to the Admission of Attorneys.

Sec.

Sec.

Preamble.

I Hon. Attorney General and President of the Barristers' Society and another member of said Society to be *ex-officio* members of the Board of Examiners of King's College Law School. 2 Graduate of said school to be admitted an Attorney without further examination.

> 3 Sec. 3 of Chap. 33, Con. Stat. amended.

> > Passed 3rd April, 1901.

Whereas the University of King's College, Windsor, in the Province of Nova Scotia, has established a School of Law in the City of St. John, in this Province, and has appointed a Dean and Law Faculty and Board of Examiners in connection therewith;

And Whereas a Student at Law in this Province, who is a Student in such School, must undergo and pass the Examination prescribed by said Faculty and Board of Examiners before being qualified for the Degree of Bachelor of Civil Law of said University;

Be it therefore enacted by the Lieutenant Governor and Legislative Assembly, as follows:—

I. The Honorable the Attorney General and President of the Barristers' Society of this Province for the time being, and such other member of the Council of the Barristers' Society as may be designated by said Council shall be *ex-officio* members of the Board of Examiners of said School of Law.

2. From and after the passing of this Act any Student at Law, making application for admission as an Attorney of the Supreme Court of this Province, on presentation of a Diploma from the said University of King's College, conferring on him the Degree of Bachelor of Civil Law, and a certificate signed by the Dean of the said School of Law and countersigned by the Attorney General or the President of the said Barristers' Society, of his having there satisfactorily passed the examination prescribed by said Faculty and Board of Examiners, and recommending him for admission as an Attorney of said Supreme Court, and on said Student conforming with the requisites of the by-laws of the Barristers' Society in all other respects, shall be entitled to be admitted as such Attorney without undergoing or passing any other examination.

3. Section 3 of Chapter 33, of Consolidated Statutes is hereby amended by inserting after the word "Laws" in line three, the words "or Bachelor of Civil Law."

DEGREES IN LAW.

BACHELOR OF CIVIL LAW.

I. MATRICULATION.

(1) The candidate for this degree must be a matriculated student in Arts of King's College, except in cases hereinafter provided for. (Particulars of the University Matriculation Examination will be found in the General Calendar; this examination is held at the College at Windsor, and the following centres: St. John, N. B., Charlottetown, P. E. I., St. John's, Newfoundland, and Bermuda.) If he be an Attorney-at-Law or a Student-at-Law who has been matriculated by any Law Society, or duly entered according to the law and practice of the Courts of any one of the Provinces of Canada he shall be admitted to matriculation in the University without further examination. These shall be termed undergraduates.

(2) The candidate will be required to pass three examinations, separated by intervals of not less than a year, to be called the first, second and final examinations in law.

(3) A Barrister of three years standing, who is a graduate in law of any recognized University, may be admitted to the degree of B. C. L., on passing the examination in Roman Law provided for the second year.

(4) A Barrister of not less than seven years standing, who shall have been a lecturer in the Faculty of Law for three years, may be admitted to the standing of an undergraduate of the third year.

(5) A graduate in law of any recognized University may be admitted as an undergraduate of the third year, and shall be entitled to the degree of B. C. L., on passing the examination for the third year, including an examination in Roman Law. (6) General students (being those who are not undergraduates) may be admitted to attend the Lectures on producing certificates of good moral character. Partial courses may also be taken.

II. REGISTERING.

All undergraduates must sign the matriculation register, and general and partial students the register provided for the purpose.

III. TRANSFER OF STUDENTS.

Undergraduates of other Law Schools may be admitted to an *ad eundem* standing in this School if, on examination, they shall be found qualified. Any person duly matriculated may, at the end of the first year, (though he has not attended the lectures of the School) matriculate as a student of the second year on passing the same examination as is provided for students at the close of the first year, and the same provisions shall apply to the third year.

IV. FEES.

(1) The following fees and dues are payable *in advance* to the Treasurer:
