University of King's College

(In Association with Dalhousie University.)

Historical Sketch.

King's College, established by Act of Legislature, in 1789, was founded at Windsor in 1790, and in 1802 a Royal Charter was granted by King George III in which the College is referred to as "the Mother of an University for the education and instruction of youth and students in Arts and Faculties to continue forever and to be called KING'S COLLEGE." It was the first University established in what is now Canada. The first President of the College, Dr. William Cochran, came from King's College, New York, which afterwards changed its name to Columbia, and two other King's Colleges, one at Fredericton and the other at Toronto, were subsequently founded; but King's College, Nova Scotia, is the only one which has survived. It has passed through many vicissitudes during the 146 years of its existence, and amongst its Alumni are many famous men who have won honourable distinction in Church and State. The burning of the old College residence at Windsor, February 5th, 1920, raised afresh the scheme of University Federation for the Maritime Provinces, which had long found favour among the patrons of higher education; and a generous offer from the Carnegie Corporation to give a sufficient sum to provide for the Arts course, if the College would move to Halifax and erect buildings there, seemed to the Governors an opportunity which they ought not to let pass. A basis of association was agreed upon. In 1923 the beautiful property on the North West Arm, known as University Hall, was leased from Dalhousie University as a temporary residence for students, the College moved from Windsor to Halifax, and the internal life of the College has gone on on exactly the same lines as in former years. In 1926 a successful campaign for funds enabled King's to establish herself permanently in Halifax in association with Dalhousie University. Through the generous financial support of the Alumni and friends of the College, commodious new buildings have been erected on a site deeded to King's by Dalhousie University. The session of 1930-31 opened in the new home of King's College, which provides residences for men and women students, under supervision of members of the staff, a President's house, administration offices, library, lecture rooms, dining hall, a chapel, and a large recreation hall. The buildings are of stone, of fire resistant construction, and modern in every respect, and are within a few minutes walk of the Dalhousie University buildings.

The association has been found to work with complete harmony. Students of Dalhousie have the privilege of attending lectures in Arts by the King's professors, and students at King's have the privilege of attending the lectures of the professors of Dalhousie

This means that instead of a staff of ten there is a staff of forty or more to supply the requirements of students in Arts and Science. Those students who enrol at King's enjoy the same facilities as those registered at Dalhousie; while they have at the same time the educative and humanizing influence of a residential College with the traditions of more than a century and a third behind it.

Dalhousie University grants all degrees in Arts and Science, the name of King's College appearing on the diploma where the student has been enrolled in King's.

Separate classes for their respective students are provided in King's and Dalhousie in English I, Latin I, French I, Mathematics I, and History I. All other classes are attended jointly by students of King's and Dalhousie and are given by Dalhousie professors or by professors on the King's Foundation, depending on the courses taken. The students of both institutions follow the same curriculum, take the same examinations and must at least the same academic standard.

King's holds in abeyance her degree conferring power in Arts & Science, but retains complete control of her Divinity School as well as of her present endowments, administration of residences, etc.

ORGANIZATION OF THE UNIVERSITY.

The Board of Governors is the supreme governing body of the University. As defined by the Acts of 1923, it consists of the Bishops of the Dioceses of Nova Scotia and Fredericton, and the President of the University, together with ten members elected by the Alumni Association and eight by each of the Synods of Nova Scotia and Fredericton. The Governors have the management of the funds and property of the College, the power of appointment of the President, professors and officials, determining their duties and salaries, and the general oversight of the work of the University. The Board appoints an executive committee.

All students entering King's College, in Arts or Science, besides registering at Dalhousie for the courses they purpose taking, must enrol at King's.

The residential system, which is an important feature of College life, is modelled on that of Oxford, and brings together students of different temperament and training, to their great benefit.

Students are required to reside in the College building, but in special circumstances permission may be granted to reside outside. All students are under the immediate charge of the Dean of Residence, but must report to the President at the beginning and end of each term.

Students must provide their own blankets, sheets, pillowslips and towels.

The residence will be open for students from the evening of September 23rd, 1935 until the evening of December 21st, 1935; and from the evening of January 4th, 1936 to the morning after Encaenia Day, 1936; (in case of students expecting to receive their degrees this time will be extended to May 13th, 1936). *Any students permitted to reside in the College at other times must pay at the rate of \$2.00 per night.*

All property belonging to students while in residence is held by them entirely at their own risk.

Caution Deposit.—On enrolment each resident student is required to make a deposit of fifteen dollars as caution money to cover damage done to furniture, etc. This amount less deductions, will be returned by mail three weeks after the close of the session.

Hours.—Every student is expected to be in his room after 11 p. m., and in bed before midnight; also to be in Commons Hall for breakfast not later than 8.15 a. m. on week days, and not later than 9.15 a. m. on Sundays.

Meals in Rooms.—No student can be furnished with breakfast or any other meal in his rooms, except by permission of the President and in such cases of illness as would render it imprudent that he should be present in the Hall, *and no student is allowed to take crockery or cutlery from the dining hall or the pantry.*

Intoxicants.—The introduction by or for any student of beer, wine, spirits, or any kind of intoxicating liquor into the College is strictly forbidden.

At gatherings of students, whether held in the College or elsewhere, intoxicating liquors are forbidden.

Chapel.—Students attend the daily morning and evening services in the College Chapel. Students belonging to other Communions are required to attend their own services on Sunday, and except in such cases, *all are required to attend Chapel service at eleven o'clock on Sunday morning unless specially excused by the President.*

Doors.—The doors are closed at 11 p. m. and all resident undergraduates are required to be in by that hour, but the President may, at his discretion, grant permission to students to be out till midnight. Permission to be out after midnight can only be granted by the College Board.

Guests.—No one who is not a resident student or a member of the staff may be in College after 11 p. m. except by permission of the President. Guests are expected to conform to the rules of the College and students will be held responsible for those whom they entertain.

Gowns.—Students are required to wear academical costume at meetings of Convocation, at all College lectures and examinations; and all students in residence are required to wear gowns in Chapel, at dinner in Commons Hall and on other occasions when so ordered. The academical habits shall be such as have been customarily worn in King's College in times past.

Behaviour.—Students are expected to preserve a quiet and orderly behaviour at all times in the halls and corridors of the College, especially during the hours of Lectures.

Radios.—Radios are not allowed in the College residences.

C. O. T. C. and Physical Training.—There is a company of the Canadian Officers Training Corps at King's College.

Regular classes in Physical Training are held in the King's College Gymnasium under an instructor.

Students who are not members of the C. O. T. C. and those who take no active part in athletics are required to attend Physical Training classes.

Expenses.—The charge to resident students for board, room, and light is from \$265 to \$290, depending on location of room, payable in two instalments, one at the beginning of each term.

Students whose accounts are unpaid after 30 days may be asked to leave the College, unless they have the written permission of the President, and interest at the rate of 6% per annum will be charged on these accounts from date of issue.

Women's Residence.

The residence for women students is conducted under practically the same regulations as the residence for men.

All residents are under the general superintendence of the Dean of Women.

Women students wishing to be out after evening chapel must notify the Dean and state where they are going. Permission must be obtained from the Dean to be out after 10 p. m. and a record will be kept of the hour of return of those who have received such permission.

Thursday evening from 8-10 and Sunday afternoon from 3.30 to 5.30 are the recognized times for receiving visitors.

Discipline.

The Board of Discipline may use all means deemed necessary for maintaining discipline in the residence and on the premises of the University. It is the duty of the Dean of Residence to see that order is maintained. Every professor or officer of the College is required to report cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the College during the session, may be fined, suspended or expelled.

Irregularity of attendance or unsatisfactory progress in studies shall be regarded as sufficient cause for dismissal from one or more classes or in extreme cases from the University.

Students are expected to be in attendance on the first day of term and to remain in attendance until the term's work is completed. A fine will be levied by the University for any infraction of this rule.

No return of fees will be made to any student dismissed from classes or from the University.

Fee for the Support of Students Organizations.

At the request of the King's student body, a fee of \$15 is collected on enrolment from each student who takes more than one class. This fee entitles the student to the privileges of the various student organizations and clubs, and to a copy of the King's College Record.

Students representing the College in non-academic activities must be in good standing. Those who are ineligible for such representation are as follows:*

(a) Students on probation in any Faculty. (b) Students registered for less than nine lectures per week, a period of two laboratory hours being regarded for this purpose as equivalent to one lecture. (c) Students who have failed to pass in at least half their classes in the last sessional or midsessional examinations. (d) Special students during their first term of attendance.

King's College Library.

The Library is open from 9 a. m. to 6 p. m., and on Saturday till 1 p. m., and during the session from 7 p. m. to 9 p. m.

Books, other than those on the reserved lists may be taken out by instructors or students and kept for one week.

Books on the reserved lists may be taken out immediately before the closing of the library on any day, and must be returned when it opens on the following day.

Not more than two books may be borrowed at one time by a student not in an Honour course, nor more than four by a student taking Honours.

University Caution Deposit.

Each student on registration is required to deposit two dollars as caution money to cover damage done to furniture, apparatus, etc. This amount, less deductions, if any, will be returned at the close of the session. There shall be no deduction from the Caution Fund for damages which have been charged to or assumed by individuals.

Laboratory Deposit.

A student taking a class involving laboratory work is required to make a deposit of ten dollars per class, with a maximum of \$20, on registration. This amount, or what remains of it after deducting any charges which may have been incurred for breakage or materials used, is returned to the student at the end of the session.

Unclaimed Deposits.

Balances of Caution and Laboratory Deposits left unclaimed three years will be applied to the purchase of books for the University Library.

Conferring of Degrees.

Successful candidates for degrees are required to appear at Convocation in the proper academic costume to have the degrees conferred upon them.

The University of London exempts Bachelors of this University from the Preliminary Examination leading to the LL. B. degree of that University.

ADMISSION

The attention of students entering the Faculty of Arts and Science for the first time, whether in the First or Second year, is called to the fact that registration for such students takes place on September 25th and 26th.

Women are admitted to classes on the same conditions as men.

No person under sixteen years of age is admitted to any class except by special action of the Senate.

Students are classified as Graduate Students, Undergraduates, and Special Students.

Graduate Students are students who hold a Bachelor's degree in Arts or Science and are pursuing a course in Divinity.

Undergraduates are students who have completed Matriculation and are candidates for a Bachelor's degree in Arts or Science or a degree in a professional course.

Special Students are all those not included in one of the preceding groups. The classes attended by a Special Student are not recognized as qualifying for a degree.

Persons of good moral character may be admitted to certain classes as Special Students without formal examination, provided they are deemed qualified by the Committee on Admission to profit by the work of the class or classes selected. A person seeking admission as a Special Student must submit evidence, such

as a certificate from the school last attended, that he has a satisfactory knowledge of English and that his other requirements and habits of study are such as should qualify him to profit by the work of the class or classes he wishes to enter.

Matriculation.

All candidates for a degree must satisfy the requirements for Matriculation, either by passing the Matriculation examinations of this University or by presenting certificates acceptable as equivalents.

The Matriculation examinations will be held at the University, and at such other places as the Senate may appoint, on September 24th to 27th, 1935. For the time-table of the examinations see the University Almanac.

Candidates for the Matriculation examinations must make application on a form to be obtained from the University Office.

The last day for receiving applications for the examinations held at the University for the session of 1935-36 is Saturday, Sept. 21st, 1935. Applications for examinations at an outside centre should be made one month earlier.

The Matriculation examinations are held in the following subjects, one paper each:

English	Geometry	German
History (British,	Latin	Physics†
Ancient or	Greek	Chemistry†
Modern)	French	Trigonometry
Algebra.		

Subjects Required for each Degree.

The subjects of matriculation common to all degrees are:

- (1) English, (2) History, (3) Algebra, (4) Geometry.

†For B. A. and B. Sc. degrees either Physics or Chemistry counts to a degree whereas intending students of Medicine or Dentistry are required to have both.

The remaining subjects are:

For the B. A. degree, (5) Physics or Chemistry, (6) Latin or Greek, (7) another foreign language.

For the B. Sc. degree, (5) Physics or Chemistry, (6) and (7) two foreign languages.

Requirements in each subject.

The requirements in each of the subjects specified above are as follows:

English.—*Language:* Grammar, analysis, parsing. *Composition:* Essays will be set on a variety of subjects, in which a wide choice will be offered. Some of the subjects may be chosen from texts set for study in Grades XI and XII or the equivalent in the Maritime Provinces, but candidates must understand that they will be judged by their ability to express themselves and not to repeat a set form of words. Other tests of composition, such as letters, paraphrases, and summaries, may be included in the paper to test the candidate's power of expressing himself.

British History.—General outlines as in *Ontario High School History of England*; or Tout: *History of England, from the earliest times to the death of Queen Victoria*; or Ransome: *Short History of England*.

Ancient History.—General outlines, as in Webster: *Ancient History*; or Myers: *A short History of Ancient Times*.

Modern History.—West: *Modern Progress* (as taught in Grade XI in the Schools of Nova Scotia.)

Algebra.—Equations of the first and second degrees, indices ratio and proportion, theory of quadratic equations, factor theorem, surds, progressions, permutations and combinations, as discussed in any high school algebra.

Geometry.—The straight line, triangles, quadrilaterals and pentagons in their relation to circles, the subject matter of the first four books of Euclid, as discussed in any high school geometry.

Trigonometry.—Up to and including formulae relating to the sum and difference of two angles, the solution of equations and of right-angled triangles, as in any elementary trigonometry.

Latin.—The paper will contain (1) passages for translation from prescribed books with questions arising out of those books; (2) easy passages for translation from books not prescribed; (3) questions on grammar, accidence and elementary syntax; (4) translation of easy sentences from English into Latin.

The books prescribed are: Caesar: *Gallic War*, Book 1; and Vergil: *Aeneid*, Book 1.

Greek.—As under Latin.

The book prescribed is Xenophon: *Anabasis*, Book 1 (Ch. 1-8).

French.—*Ontario High School French Grammar*, to the end of Lesson LXXXIII. Manley: *Eight French Stories* (Allyn & Bacon). Easy sight translation from French into English and from English into French.

Chemistry.—The extent of knowledge expected is such as may be gained from Evans *Elementary Chemistry for High Schools* or other text book of similar grade.

Physics.—Such text-books as *The Ontario High School Physics and Laboratory Manual*, Gage's *Introduction to Physical Science*, and Mann and Twiss *Physics* will indicate the grade of instruction required.

Instead of the authors and books in languages given above, a candidate if he so desires, may be examined on others recognized as equivalent; but application for this privilege must be made at least two weeks in advance.

Candidates who pass in four or more subjects, but not in all, on any one occasion, will be given credit for such subjects; and must satisfy the requirements in other subjects before entering the University*; and must complete the requirements for the degree concerned by passing all obligatory subjects before the end of the second year.

Certificates Exempting from Examination.

Candidates who hold one or more of the following diplomas, licenses or certificates will be exempted from the above examinations in such of the above subjects as were included in the examinations by which such diploma, licence or certificate was obtained, provided a sufficiently high standard was reached, and provided this standard was reached in four or more of the subjects required for Matriculation:*

*Students cannot enter the University (except as Special Students) unless they have completed English, Algebra, a Foreign Language, and four other subjects of matriculation or equivalent examinations.

A minimum mark of 40 per cent in a subject made in an examination for a certificate of Grade XII standard will exempt from Matriculation in that subject. (B) Ordinary Course with Distinction.

Students who show special excellence in the classes for the Ordinary degree and secure Class Distinctions will be awarded their degree with Distinction.

No distinction work is offered in the classes usual to the first year.

Students taking more than 25 hours per week (lectures and laboratory) will not be allowed to read for Distinction.

*The standard required is 50 per cent. in each subject. For Mathematics an aggregate of 150 is required in the three subjects of Algebra, Geometry and Trigonometry with a mark of at least 30 per cent. in any one subject.

Candidates for Distinction are advised to consult the Registrar with respect to selection of classes.

(C) Degree with Honours.

An undergraduate who has passed in at least *nine* of the Required classes of the Ordinary course with sufficient credit is allowed to enter an Honours course.

OTHER COURSES.**Master of Arts and Master of Science.**

In accordance with the Terms of Association a graduate cannot take a Master's degree while enrolled at King's; but the attention of students is especially drawn to the regulation requiring that at least three undergraduate classes must already have been taken in the main subject to be offered and Distinction must have been obtained in the last two classes so taken before application is made to take Master's work in that subject at Dalhousie University.

An undergraduate with fewer than five classes to complete for the Bachelor's degree may be permitted, with the approval of the Faculty, to take not more than two advanced classes, with a view to including such class or classes in a subsequent course for the Master's degree.

Diploma in Education.

Dalhousie University provides a course leading to a Diploma in Education. King's College graduates are eligible for this course.

By arrangement with the Nova Scotia Department of Education, graduates in Arts and Science who have completed the course at Dalhousie University leading to a Diploma in Education subsequent to receiving their degree in Arts or Science may receive a permanent Superior First Class License to teach in any public school in Nova Scotia. This course, or its equivalent at another College or University recognized by the Provincial Department of Education, must be satisfactorily completed by any university graduate who wishes to teach in the public schools of Nova Scotia, and qualifies him for a position in any high school receiving government grants. Mastery of the content of this course is a necessary step toward securing the Academic License.

Education 1 is the only course for which undergraduates are permitted to register. Students who have secured credit for Education 1 in their undergraduate study may register for two Academic courses in their Diploma Course. Arts and Science students who are planning to teach are urged to include Education 1 in their last year of undergraduate study; they are also advised to include courses in History, Political Science and Economics in the courses offered for their Bachelor's degree. All students expecting to return to Dalhousie for their professional training in teaching are invited to consult the Professor of Education as early in their course as possible; they are urged to consult him in the Spring of their last undergraduate year.

GENERAL FACULTY REGULATIONS.

Admission to Classes.

1. Candidates for a degree must pass the Matriculation examinations (p.) 17. Only those classes which a student attends as an Undergraduate are recognized as qualifying for a degree in Arts or Science.
2. A Matriculant deficient in one of the required foreign languages, whose preparation in this language has not covered any considerable part of the work prescribed for Matriculation, shall not be admitted to more than three undergraduate classes.
3. No undergraduate shall be admitted to a class until he has passed the preliminary class or classes or other preliminary qualifications required.
4. The list of classes which a student may take shall include all required classes, before any elective is added, but candidates for admission to Honour courses may have this rule modified on application to the Committee on Honours.
5. Five classes shall be regarded as constituting a normal year's work for a student in good standing. Students seeking admission to six classes must make written application to the Committee on Studies, fur-

nishing reasons in support of their application. No student who has failed in any class of his course in the preceding year of his attendance shall be admitted to more than five classes.

6. Any student, who at the Christmas examinations has not shown reasonable proficiency, may, at the discretion of the Faculty, be required to discontinue attendance at the University for the remainder of the session. Fees will not be reimbursed to such students.

Class Work and Attendance.

In order that their class work may be recognized as qualifying for a degree or diploma, candidates must conform to the following requirements:

1. All students are required to attend the classes of their prescribed course regularly and punctually.
2. They must appear at all examinations, prepare such essays, exercises, reports, etc., as may be prescribed and, in case of a class involving field or laboratory work, complete such work satisfactorily.
3. They must secure positions on the Pass List. In determining this list both the standing attained in prescribed class exercises and in field or laboratory work and that in the various examinations are taken into consideration. A candidate who fails to obtain a mark of at least 20 per cent on the work of the session in any class shall lose credit for attendance in such class.
4. When the work of a student becomes unsatisfactory or his attendance irregular he will be reported to the Committee on Studies who may require him to discontinue attendance in the class or classes concerned and to be excluded from the examinations.
5. A candidate taking an affiliated course must, in the case of classes taken in another Faculty, conform to the regulations of such Faculty and must secure a position on the pass list in accordance with such regulations.

Examinations.

Sessional and Class Examinations.

For the purpose of examination the session is divided into two terms, the separation occurring at the Christmas vacation.

In all classes other than purely laboratory classes, two examinations, at least, are held, the Christmas examinations at the end of the first term, immediately before the Christmas vacation, and the Spring examinations, after the close of lectures in the Spring. Other examinations in any class may be held at dates appointed by the instructor. The papers set at the Spring examination in any subject cover the work of the whole session in that subject, and not merely the work of the second term, and at least 25 per cent. of the questions shall be set on the ground covered before Christmas.

Ordinary and Distinction Class Lists.

The names of candidates successful in the ordinary examinations are arranged in the published lists in order of merit in each class. In some classes additional work consisting of private reading, essays, reports, field or laboratory work, is prescribed for students who aim at Class Distinction. In such classes extra examinations are held in this additional work at the end of the session, and the award of Distinction is based upon the ordinary and the additional work of the class.

Class Distinctions are of two grades, First and Second Class; but candidates who attain a standing considerably above that required for First Class will be indicated as having obtained a High First Class.

Names are arranged in the lists in order of merit in each grade.

Supplementary and Special Examinations.

A student who fails to secure a position on the Pass List in a class, but who has passed in at least half of his classes and has otherwise fulfilled the require-

ments in class work stated on p. 33, may be allowed the Supplementary examination in such class at the beginning of the next session of his attendance, on the day appointed in the University Almanac. A student who fails to appear at or to pass the Supplementary examination can only get credit for that class by passing a *Special examination therein.

Supplementary or Special examinations in any class shall in all cases cover the whole work of the session in that class, and not merely the work of the first or second term.

Supplementary and Special Examinations are held in September only.

No award of Class Distinction is made on the results of a Supplementary or Special examination.

A student wishing to appear as a candidate at a Supplementary or Special examination shall be required to give notice of his intention to the Secretary of the Committee on Studies and Attendance on or before August 15th, the fee (see p. 36) to be remitted with the notice.
