Historical Sketch

The history of higher education in Canada began in 1789 with the founding at Windsor, Nova Scotia, of the University of King's College. At the time of its establishment it was with the exception of the fifteenth-century King's College in Cambridge and in Aberdeen, the only foundation of that name in existence. Although there had been a King's College, New York, chartered by George II in 1754, it did not survive the end of the colonial period in America and its re-organization in 1784 under the name of Columbia College was undertaken on an entirely different plan. The Loyalist political and religious principles upon which the New York seminary had been founded migrated, along with the Loyalists themselves, to Eastern Canada, and in 1802 a Royal Charter was granted by George III proclaiming King's College, Windsor, "The Mother of a University for the education and instruction of youth and students in Arts, to continue forever and to be called King's College."

Since that time, King's has maintained in Canada certain of the Oxford traditions. In 1920, when the original buildings were destroyed by fire, the University moved to Halifax, where, with the assistance of the Carnegie Corporation, new buildings were eventually erected on the campus of Dalhousie University. In 1930 it entered into partnership with Dalhousie which, with a Royal Charter dating from 1820, is the third of Canada's senior universities. This novel arrangement, by which the English and Scottish University traditions were united, is upheld by a special agreement under which the two have maintained joint faculties of Arts and Science, so that undergraduates of King's read for the B.A. and B.Sc. of Dalhousie, King's having left her own degree-granting powers in abeyance in these faculties.

In May, 1941, the King's College buildings were taken over by the Royal Canadian Navy as an Officer's Training Establishment, and during the next four years, until May, 1945, nearly 3100 officers were trained for sea duty with the R.C.N. The students and academic staff of King's carried on during this period through the kindness of Dalhousie University and Pine Hill Divinity Hall.

In July 1971, King's College entered into a partnership agreement with Pine Hill Divinity Hall (for the United Church of Canada) and the Corporation of the Roman Catholic Archdiocese of Halifax to found the Atlantic School of Theology. This unique institution provides ecumenical as well as denominational theological

education for candidates for the ministry and for laymen. During 1974 the School received incorporation as a degree granting institution of higher education; thus the work previously done by the Faculty of Divinity of King's College is now conducted by that School. King's continues to grant degrees in Divinity on the recommendation of the General Synod of the Anglican Church, but holds in abeyance its powers to grant degrees in Divinity in course. King's grants the honorary degree of D.D.

A significant development in King's history began in the 1972/73 academic year with the introduction of the Foundation Year Programme for first year undergraduates, an integrated and interdisciplinary approach to undergraduate studies which is unique in Canadian higher education.

The University of King's College having entered an association with Dalhousie University, the students registered in Arts and Science attend classes jointly with Dalhousie students. These classes are given by Dalhousie professors on the King's Foundation, depending on the course taken. *The students of both institutions follow the same curriculum, take the same examinations, and must attain the same academic standard.* The University of King's College Foundation Year Programme, however, is available only to students registered with the University of King's College.

King's College is residential, on the Oxford and Cambridge pattern, and, in addition to the day students who live out, 115 men and 110 women can be accommodated in residence. Dinner in Prince Hall is formal with Latin grace; the wearing of academic dress is required of all members of the College in *statu pupillari* and the emphasis is everywhere upon the corporate life. The inestimable benefits of life in a small residential college are, in England at least, an accepted part of the "Oxbridge" tradition, but this is certainly not so in North America, where universities have in general followed either the German policy of having no residential facilities at all, or the English provincial plan of housing a proportion of the student body in "halls of residence" entirely separated from the university itself. The corporate life in King's thus emerges as something rare on the North American continent, since it is designed to educate "the whole man" and not simply to train him for specific examinations.

In addition to its athletic activities, the College runs a Debating Society, known as the "Quintilian", and a Dramatic Society which stages two plays each year. Daily services are held in the

Chapel for those who wish to participate. Although the College is an Anglican foundation there is no denominational bar aimed at the exclusion of non-Anglicans from membership of the College, either as lecturers or students. Members of Faculty may themselves be resident and function in the traditional manner as "dons" for the staircase (i.e. "bays"). The bays are named Chapel Bay, Middle Bay, Radical Bay, North Pole Bay, Cochran Bay, and The Angel's Roost. Alexandra Hall is the residence for women.

Now that there are many large overcrowded universities which find it difficult if not impossible to concentrate upon anything not strictly connected with a student's graduation at the earliest possible time, there is all the more reason for the encouragement of the small residential university wherein the future leaders of society may be educated towards the acceptance of social and moral responsibility. The education of such people must be conducted on an individual, not a mass, basis.

King's tries to be a miniature of the Christian ideal of the larger community. It is this, rather than any more superficial resemblance, which links King's with the older universities of Britain and makes it unusual in Canada.

Constitution

The Board of Governors is the Supreme Governing Body of the University. It consists of the Bishops of the Diocese of Nova Scotia and Fredericton, the President of the University, the Vice-President, the Treasurer, four members elected by the Faculty, together with eight members elected by the Alumni Association, four members by the Students' Union, six by each of the Synods of Nova Scotia and Fredericton, and not more than eight co-opted members. The Governors have the management of the funds and property of the College, and the power of appointment of the President, professors and officials. The Board appoints an Executive Committee.

Convocation consists of the Chancellor and the Vice-Chancellor, together with all Bachelors of Divinity and Masters and Doctors of the University; Members of the Board of Governors and of the Faculty of Arts and Science who hold the degree of Master or Doctor from any recognized University; Fellows of the University and Bachelors of the University of five years' standing who are recognized by the Clerk of Convocation. All degrees are conferred by Convocation.

Chapel

Regular Chapel services are an integral part of the community life afforded by the University, and all students are invited to attend them. The Chapel is an active part of campus life and students take a large responsibility for its operation. The times of service are announced at the beginning of each session and there is a wide variety of liturgical expression ranging from traditional forms to the contemporary. While the Anglican Book of Common Prayer is the standard usage, all students, regardless of denomination are welcome and encouraged to attend. There is a weekday Morning Prayer service, and an Evening Prayer service, conducted by the students as well as a daily Eucharist celebrated by the Chaplain and assisting clergy. There are special services throughout the year such as a Folk and Rock Mass.

The Chapel has a very active choir which sings at two of the main services of the week. There is a special emphasis on the singing of Gregorian Chant and liturgical hymns.

The University Chaplain is available to all students and faculty.

General Discipline

The maintenance of discipline is in the hands of the College Board which is composed of the President, the Dean of Residence, President of the Students' Union, Chairman of the Men's Residence Council, Women's House President, three professors on the King's Foundation chosen annually by the Faculty. The students exercise a large measure of self-government in maintaining good order and discipline in the residences. Students conducting themselves in an unbecoming manner, within the precincts of the college, may be fined, suspended or expelled. When a student is expelled from residence there is no return of fees.

In keeping with the traditions of the College, students are expected to wear gowns when attending chapel, when seated for formal meals, and when calling upon the President of the

University. Gowns may be obtained from the Dean of Residence.

Students are expected to attend lectures and laboratories regularly and punctually and to perform all exercises assigned by the Faculty.

Dons in the Bays, the Dean of Residence, the Chaplain, the Registrar, the Bursar, the Faculty, and the President are willing to help, counsel, and advise any student at any time, and will act as much as is within their power in the best interest of the students and the College.

King's College Library

King's College Library was founded in 1789. Just after the Royal Charter was granted to the College in 1802, Bishop Inglis sent his son to England with £250 to begin the purchase of books. The library grew steadily during the 19th century and was probably one of the best libraries in English-speaking Canada of the time. There were various benefactors over the years, chief of whom was Thomas Beamish Akins. From Mr. Akins the library received many items in its rare collection of some 40 incunabula (books printed before 1500, that is, during the first fifty years since the invention of printing with movable type). This is a remarkable number of these very rare books to be found in such a small library.

King's Library is very rich in the field of English literature. Much of the credit for the development of this field must go to the late Professor Burns Martin. The Professor Burns Martin Memorial Fund continues to aid the library's growth in this area.

With the help of the William Inglis Morse Endowment for Canadiana, this important area of study is growing steadily as more and more works are being published about our country.

The largest proportion of books, however, is found in the field of Theology. This collection is large and comprehensive and is being kept up to date constantly. The John Haskell Laing Memorial Bequest helps with the purchase of books in this field.

Book purchases in the general field are aided by memorial funds to the following persons: the Hon. William Johnston Almon, Frances Hannah Haskell, James Stuart Martell, and Thomas Henry Hunt (Alumni Memorial).

The Library hours are:

Monday to Friday	9:00 a.m. - 5:00 p.m. 7:00 p.m. - 11:00 p.m.
Saturday	9:00 a.m. - 12:00 noon 1:00 p.m. - 5:00 p.m.
Sunday	2:00 p.m. - 5:00 p.m. 6:00 p.m. - 10:00 p.m.

The student loan period for all books except those on reserve is one week.

Fines are charged for overdue books at the rate of twenty-five cents a day for seven day books.

Students are given the privilege of borrowing books for the summer.

Degrees

The degrees of Doctor of Divinity and Doctor of Civil Law, may be conferred *honoris causa* in recognition of eminent literary, scientific, professional or public service.

The dignity and honour of Fellow may be conferred by the vote of Convocation upon any friend of the University for noteworthy services rendered on its behalf.

Convocation confers a Bachelor of Divinity and Associate of Theology (on recommendation of the Board of Examiners of the General Synod of the Anglican Church of Canada), and the Master of Sacred Theology in Pastoral Care on recommendation of the Graduate Studies Committee of the Institute of Pastoral Training. Convocation also awards the diploma of Associate of King's College (Nova Scotia).

Pre-professional work in Arts and Science by students intending to enter one of the Dalhousie professional schools may be taken as a student of King's College.

King's College Library

University Regulations

All students are required to report their local address while attending the University, to the Office of the Registrar, on or before October 11. Subsequent changes must be reported promptly.

Place of Residence of Students

For the purpose of admission to the University the place of residence of a student is the place where he is domiciled. This is normally presumed to be the place (country, province, etc.) where the home of his parents or guardian is located. That place remains unchanged unless he takes steps that satisfy the Registrar that he has established a place of residence elsewhere.

Admission

No person under sixteen years of age is admitted to any class except by special permission of the Senate.

Special Cases: The University will consider for admission students who are lacking the normal high school preparation, provided that the applicant can show (by record, interviews, or possibly by taking additional tests) that his qualifications in other respects are acceptable.

Admission Ad Eundem Statum: Students from other universities desiring to study at King's University may, on producing satisfactory certificates, be admitted with advanced standing and given credit for classes equivalent to those offered by Dalhousie-King's.

Successful candidates for degrees in this University ordinarily are required to complete a substantial portion of their work, including the final year, in the Faculty in question.

Registration

All registered students are required to agree to obey all the regulations of the University already made or to be made, and to pay the required fees and deposits before entering any class or taking any examination.

Under no circumstances may a student register unless all previous accounts, including fees, library fines, and other fines, to the university have been paid.

Late Registration

Late registration in the Faculty of Arts and Science requires the approval of the Registrar.

Withdrawal

See the individual faculty regulations, and the Fee Section.

Transcript: A student may receive only an unofficial transcript. Official transcripts will be sent at a student's request to other universities, or to business organizations.

If a student so requests a copy of a medical certificate will be enclosed with the transcript.

Academic Discipline

The University reserves the right to suspend or dismiss a student and require him to withdraw from the University at any time if he fails to attain prescribed academic standards or if he has conducted himself in a manner that shows he is unfit, for a serious non-academic reason, to continue in attendance.

The Senate is charged with the internal regulations of the University, including authority over all matters relating to academic affairs and discipline, subject to the approval of the Governors.

No student shall be required to terminate his attendance or be subjected to disciplinary action by the Senate without being given an opportunity to answer charges or complaints against him, by writing or by appearing at a meeting of Senate.

In all matters that have been delegated to the Faculties an appeal from a faculty decision may be taken to the Senate.

Every professor or officer of the University is required to report cases of improper conduct that may come under his notice. Students conducting themselves in an unbecoming manner on or beyond the premises of the University during the session may be subject to reprimand or a fine, or may be suspended or expelled from the University.

On report of a serious breach of discipline a student may be temporarily suspended and denied admission to all classes by the President, or in the absence of the President, by the Academic Vice-President or the Dean of his faculty, but such suspension shall be reported to the Senate together with the reasons for it.

If a student is required by a faculty to discontinue attendance in the faculty solely because he has failed to maintain the required academic standing, he is not regarded as dismissed on grounds of general discipline and his right to be considered for admission to another faculty is unaffected.

When the work of a student is unsatisfactory, or his attendance is irregular without sufficient reason, he may be dismissed from one or more classes by the faculty concerned or from the University by the Senate.

No return of fees will be made to any student dismissed from classes or from the University.

Dalhousie Libraries

King's students enjoy the same privileges in the Dalhousie Libraries as Dalhousie students. For

regulations and hours see the current Dalhousie calendar.

Conferring of Degrees

Successful candidates for degrees are ordinarily required to appear at Convocation in the proper academic costume to have the degree conferred upon them. However, any student may elect to have his degree conferred in absentia by giving formal notice to the Registrars of Dalhousie and King's before May 5.

Exemptions Granted by Other Institutions

Oxford University exempts from Responsions an undergraduate in Arts of this University who has passed in the subjects of the second or a higher year. A Bachelor of Arts with Honours is further exempted from four terms of residence. The Trustees of Rhodes Scholarships exempt from the qualifying examination candidates who are exempt from Responsions by Oxford University.

STUDENT SERVICES AND STUDENT AFFAIRS

Student Employment

The Department of Manpower and Immigration Manpower Division, in co-operation with the University, maintains a year-round Canada Manpower Centre on campus. (Student Union Building, Dalhousie). This is done to assist students in obtaining employment.

All students wishing assistance in obtaining part-time and summer work, or graduates seeking permanent employment, are urged to contact the Canada Manpower Centre early in the academic year.

There are opportunities for students to earn part of their college expenses by working in the Library, Gymnasium, Dining Hall, or as Campus Police.

Student Counselling Service

Students concerned about any matter, whether personal or learning problem, are invited to visit the Student Counselling Centre at Dalhousie fourth floor of the Student Union Building. Counsellors with broad experience in assisting with problems offer a free confidential service to students.

Tutors

The student body has an academic committee which arranges tutorial services for students.

University Health Service

The university (Dalhousie) operates an out-patient service and in-patient infirmary in Howe Hall, at Coburg and LeMarchant Streets.

Further specialist services in a fully accredited medical centre are available when indicated.

Medical Care — Hospital Insurance

Students must be able to provide proof that they are properly enrolled in any Hospital-Medicare scheme in their home province in order to qualify for service. This applies particularly to residents of any province requiring a premium for Medicare Insurance.

Canadian students remaining in Nova Scotia less than twelve months have their hospitalization paid by their home province. For residents of Saskatchewan and Ontario (and any other provinces with similar regulations) this requires that the student's premium for hospitalization Medicare be paid at home while they are absent to study.

If another province refuses continued coverage for students temporarily studying in Nova Scotia, they should contact the MSI office and include a copy of the refusal letter. MSI will then review the request for medical coverage.

Non-Canadian students who have resided in Nova Scotia for more than three months and show intention of remaining more than twelve months are regarded as residents of Nova Scotia and hence qualify for N.S. Hospitalization and Medical Services Insurance.

Any student who is not covered by any of the above insurance, private insurance must be obtained. Advice and applications at special rates are available through the Health Clinic.

Registration Requirements

1. Any student who has had a serious illness in the previous 12 month period will be required to submit a statement from his family doctor.

2. All returning students are required to complete an annual medical questionnaire at the time of registration.

3. Students from overseas are required to submit a recent certificate of health.

All information gained about a student by the Health Service is confidential and may not be released to anyone without signed permission by the student.

Tuberculin Tests

The tuberculin tests and reading is a requirement for registration for all students attending King's.

Emergency Treatment

In the event of a medical emergency students should telephone the University Health Service, 424-2172 or appear at the clinic in person.

Exclusions

The University Health Service does not provide the following:

- Medical or Surgical care other than that provided by, or arranged through, the University Health Service.
- X-ray or Laboratory service, except as authorized by the University Health Service.
- Medications. (Prescriptions, drugs, etc.)
- Dental treatment.
- Treatment for illness attributable to misconduct.
- Eyeglasses and examinations for same.
- Costs arising as a result of pre-existing condition.

Note:

The University Health Service will not pay accounts for hospital or medical service, including x-ray, laboratory service, rendered off-campus except in emergency cases or where prior approval was received.

Prescriptions

Medications prescribed by Health Service physicians or consultants to whom the student is referred by the Health Service are paid by a prepaid drug plan operated by the Student Union (Dalhousie). All other prescriptions are at the student's expense.

Athletic Programme

All students in their first year of attendance at the University are encouraged to participate in some form of physical activity. Activities offered include field hockey, basketball, fencing, soccer, badminton, volleyball, swimming and hockey.

Non-Academic Student Activities

Students representing the College in non-academic activities must be in good standing. Those who are ineligible for such representation are as follows:

- Students on probation in any Faculty.
- Students registered for fewer than ten lectures per week, a period of two laboratory hours being regarded for this purpose as equivalent to one lecture.
- Students who have more than two failures in college subjects.

Canadian Armed Forces

Subsidization Plans

The Regular Officer Training Plan (ROTP), Medical Officer Training Plan (MOTP) and the Dental Officer Training Plan (DOTP) are completely subsidized university plans covering tuition, books, medical services, monthly pay and summer employment for up to four years of undergraduate study. Successful applicants serve as commissioned officers in the Canadian Armed Forces for varying compulsory periods after graduation.

For further information on above plans, students should contact the

Canadian Forces Recruiting Centre
Sir John Thompson Building,
1256 Barrington Street,
Halifax, Nova Scotia.
Phone: 422-5956 or 423-6945.

Children of War Dead (Education Assistance).

Children of War Dead (Education Assistance Act) provides fees and monthly allowances for children of veterans whose death was attributable to military service. Enquiries should be directed to the nearest District office of the Department of Veterans' Affairs.

Definitions

(a) *Undergraduates* are students who are candidates for a Bachelor's degree, for a degree in a professional course, or for a diploma. (For details of admission to professional courses, see entries in the calendars of the faculties concerned).

(b) *Part-time students* are students registered for three full credit classes or less. (students registered for more than three full credit classes are *full-time students*).

(c) *Special students* are students who are not candidates for a degree or diploma but who wish to take one or more university classes. Such students may be admitted if qualified. There are two categories of special students: *no degree students*, who may receive credit for classes taken; and *auditors or audit students*, who receive no credit and to whom no official transcript is issued.

(d) *Matriculation standing: Senior matriculation* designates the level of studies attained by students who have successfully completed Grade XII in a public high school in Nova Scotia.

(e) *Credits: See General Faculty Regulations 2.*

Special Cases

See the University regulations in the preliminary pages of this calendar and Section 5 below, *Admission of Mature Students and Those Lacking Normal Admissions Requirements.*

2. Admission from High Schools in Nova Scotia, New Brunswick and Prince Edward Island

General

The normal minimum requirement for admission to King's College is completion of Grade XII examinations in the University Preparatory Programme, or the equivalent. In past years an average of 60% in Grade XII high school examinations, or the equivalent, was required. The same standard will apply in the current year. However, the Admissions Office does not apply criteria mechanically. It has discretionary power to admit students who do not meet the normal requirements, but who appear acceptable on other grounds. Any student who submits the documents described in Application Section below will be considered for admission.

Early Admission

Students who have been receiving good marks (a general average of 65% or more) may be considered for admission while still in their Senior Matriculation year. Such students are encouraged to apply early in their last year at school.

Application Procedure

Candidates for admission to the Faculty of Arts and Science must submit a completed Application Form (available from the Admissions Office, or from most high schools) to the Registrar, King's College, as soon as possible after January 1st, and normally not later than August 15th. To complete the application, a candidate must provide:

(a) evidence of successful completion of Grades XI and XII in the University Preparatory Programme (senior Matriculation standing) from a public high school in Nova Scotia, or the equivalent, as shown in a certified high-school record-transcript, Provincial Examination Certificate, or Principal's report;

(b) recommendations from teachers and principal;

Decisions on admission will be made known to applicants as soon as possible after their credentials have been received and studied.

Preparation for Admission

Students wishing to study at King's College should choose their high-school subjects from a University Preparatory Programme. They should read the sections of the Calendar headed *Degree Programmes and Programmes of Study*, and in particular, the description of the first-year programmes. Many departments make suggestions about high school preparation in the descriptions of their own introductory programmes. (These are found in the section entitled *Programmes of*

Study). Students who lack preparation (in Grade XI and Grade XII) in Mathematics, English, and at least one other language may find themselves initially cut off from certain programmes. Guidance counsellors in high schools can also offer advice on the suitability of individual high school programmes. Another source of advice is the Registrar's Office, which will arrange interviews, whenever possible, between prospective students and members of the Faculty.

3. Admission from Outside the Maritime Provinces at Senior Matriculation Level

Deadlines for Receipt of Applications

Applications for admission from *any part of Canada or the USA* must be received by the Registrar's Office by August 1st in order to ensure prompt and efficient handling.

Applications from *all other countries* must be received by May 1st. (Students from Great Britain or the West Indies who write GCE qualifying examinations in June may request an extension of this deadline if they can ensure that their examination results will be available to the Admissions Office by August 21st; otherwise the May 1st deadline must apply.)

Application procedure and ways of appraising applications: as for students from the Maritime Provinces.

Equivalences

The following levels are considered equivalent to Senior Matriculation (Grade XII) in Nova Scotia *Other Provinces of Canada*

(a) *Newfoundland:* first year Memorial University.

(b) *Quebec:* Senior High School Leaving Certificate; or first year of CEGEP General programme or first year of university Collegial programme. Well qualified students may be admitted after one year of CEGEP.

(c) *Ontario:* Grade XIII (Secondary School Honour Graduation Diploma), or very high standing in Grade XII.

(d) *Manitoba, Saskatchewan, Alberta, British Columbia:* Grade XII.

Other Countries

(e) *USA:* first year at a recognized university or similar institution of higher learning (minimum 30 semester hours). Students of lesser standing will be considered if they appear exceptionally well qualified, for example on the basis of CEE scores or advanced placement work.

(f) *Great Britain, West Indies, West Africa:* General Certificate of Education with pass standing in at least five subjects, of which at least two must be at Advanced level, and one must be English.

(g) *Hong Kong:* GCE as for Great Britain; or University of Hong Kong Matriculation Certificate under same conditions as for GCE.

(h) *India, Pakistan:* Bachelor's degree with first- or second-class standing from a recognized university; or in certain circumstances, first-class standing in the Intermediate examinations in Arts and Science, provided the candidate has passes at the university level in English, Mathematics and a language other than English.

(i) *Countries not mentioned above:* Write to the Registrar's Office, University of King's College for further information.

4. Transfer from other Colleges and Universities

Deadlines for Receipt of Applications

Canada and the USA: August 1st.

Other countries: May 1st

Applications received after the above dates will be considered, but prompt processing cannot be assured.

Documents to be Submitted

a) Completed application form (available from Registrar's Office).

b) Official academic transcripts (or certified copies) from all colleges and universities attended;

c) Copies of calendars (or similar publications) of all colleges and universities attended;

d) Certification of proficiency in English if the

native language of the applicant is another language;

Certified copies of original documents, or relevant sections of documents (e.g. calendar pages) are acceptable in lieu of originals. Certificates in languages other than English or French must be accompanied by certified translations into English or French.

Transfer of Credits

Students who have attended a recognized junior college, for at least one year, and can present satisfactory certificates may be granted Senior Matriculation standing provided the work has been done in approved academic courses. For work completed beyond the Senior Matriculation level, credit may be granted on admission for a maximum of five equivalent classes. Students who are admitted under these conditions can complete the requirements for a general degree in two years, or for an honours degree in three years. Such transfer is regularly accepted from the Convent of the Sacred Heart in Halifax, or the Nova Scotia Teachers' College, or Nova Scotia Agricultural College in Truro.

Students who have attended another recognized university may, on presentation of satisfactory documentary evidence, be granted credits for appropriate classes, within the limits of the Regulations set out below.

General Regulations Concerning Transfer (See also General Faculty Regulations).

a) A student from another college or university who is not eligible for re-admission to that college or university on academic grounds will not be admitted to King's College.

b) No transfer credit will be granted for any class in which a final mark of less than C (or the equivalent) was obtained, or for any class in which a final mark was granted conditionally.

c) To obtain a first degree from the Faculty of Arts and Science, Dalhousie-King's University, at least half of the classes, including at least half in the field of concentration, must normally be taken at Dalhousie-King's.

d) A student in a Dalhousie-King's honours programme must attend Dalhousie-King's as a full-time student in his last two years, unless special permission to the contrary is obtained from the Committee on Studies.

e) No classes taken at another institution will be counted towards fulfilling the concentration requirement of the general Bachelor's degree or the principle subject requirement of an honours programme without specific approval from the departments concerned at Dalhousie.

f) Transfer credits may be granted only for classes equivalent to classes offered at King's, and only in subjects recognized as having standing in a faculty of Arts and Science.

g) No credit will be given for any classes taken at another university while a student is inadmissible at Dalhousie-King's.

5. Admission of mature students and those lacking normal admissions requirements

In individual circumstances, the University may admit persons who lack the normal high school preparation including those who have been away from school for a number of years, provided they can show by letter and through interview that they possess qualities fitting them for university studies.

General Faculty Regulations

Changes of Regulations usually become effective upon publication in the Calendar of the Faculty of Arts and Science. Students are subject to changes in regulations and courses made after their first registration unless specifically excused by the Faculty. All enquiries about the regulations hereunder should be made to the Registrar. Any student suffering *undue hardship* from application of any of the regulations may appeal for relief through the Registrar to the Committee on Studies at Dalhousie.

1. General

Admission to Classes

No student shall be admitted to a class until he has satisfied the regulations regarding entrance and complied with the *General University Regulations*. Students who wish to add classes after two weeks from the commencement of the term in which the class begins would have to get the approval of the chairman of the department in which the student intends to add the class, as well as the approval of the class instructor.

Duration of Undergraduate Studies

A student is normally required to complete his undergraduate studies within ten years of his first registration.

Auditing

A full-time student registered at King's College may, with the permission of the instructor concerned, audit any class in the Faculty of Arts and Science, provided that it is clearly understood that he will not be eligible to write examinations in the class and will not in any circumstances be granted credit for it.

Advanced Placement

A student possessing advanced knowledge of a subject, which he has acquired otherwise than at a university, will be encouraged to begin his studies in that subject at a level appropriate to his knowledge, as determined by the department concerned, and will be exempted from any classes which are normally prerequisites for the one to which he is admitted. However, the student must substitute for the exempted classes an equal number of other classes, not necessarily in the same subjects (i.e., he must complete at the University the full number of classes required for a general or an honours degree).

Counting of Classes toward Two Undergraduate Degrees

A student who holds one undergraduate degree (B.A., B.Sc., or B.Com.) and who wishes to gain a second undergraduate degree must fulfil the requirements of the second degree and meet the following stipulations:

- only classes that are applicable to the course for the second degree may be counted for credit;
- each class carried forward must bear a grade of C or higher;
- a minimum of six new classes must be taken, of which four must be in a declared major subject.

d) a new area of concentration is to be chosen.

Note: Conversion of a General degree to an Honours degree (degree Programmes, section) does not involve the award of a second degree; hence it is not subject to this regulation.

Concurrent Registration at University of King's College and Another Educational Institution

Ordinarily no student may register at King's if concurrently taking work in another educational institution. Regulation 8 below outlines procedures to be followed to secure waiver of this general regulation. Regular exceptions are made with respect to registration at affiliated institutions.

Forced Withdrawal Consequent on Unsatisfactory Performance

When the work of a student becomes unsatisfactory his case will be discussed by the Committee on Studies which may require him to withdraw from the class or classes concerned and to be excluded from the relevant examinations, or may advise him to withdraw temporarily from the University or to reduce his class load.

2. Credit and Assessment

A credit toward a degree is earned in a full-credit class, a class in which typically there are two to three lecture hours weekly for the regular (September to May) academic year. Credits may be obtained for university-level studies

- normally during the regular academic year; or exceptionally
- during a summer session or by correspondence,
- by transfer from other universities attended prior to entrance to University of King's College,
- in other Faculties of Dalhousie, or
- at other institutions while registered at King's.

Regulations governing each of these ways of earning credit are presented below in sections 4 through 8.

Gaining Credit

To gain credit toward a degree or diploma, a student must meet the requirements relevant to that degree or diploma and must appear at all examinations, prepare such essays, exercises, reports, etc. as may be prescribed and, in a class involving field or laboratory work, complete such work satisfactorily.

Credit Contingent on Settling Debts to the University

To gain credit, a student must settle all obligations to the University with respect to tuition and residence fees, bookstore debts, library fines, etc. (not later than April 30 for Spring Convocations).

Method of Assessment

In determining pass lists, the standings attained in prescribed class exercises, in field or laboratory

work, and in the various examinations, may be taken into consideration by an instructor. Each instructor must ensure that students are informed of the method of evaluation to be used in a class within two weeks of the first meeting of the class; within four weeks after the beginning of each term the departmental chairmen must report to the Dean the method of evaluation to be used by each instructor in each class.

Grades

The passing grades are A+, A, A-, B+, B, B-, C and D. The failing grades are F/M and F.

Submission of Grades

On completion of a class, the instructor is required to submit grades to the Registrar, such grades to be based on the instructor's evaluation of the academic performance of the students in the class in question. Christmas grades must be submitted to the Registrar in 100-level full-year classes with enrollments in excess of 25 (on October 1); Christmas grades are normally submitted in other full-year classes.

Incomplete

Each student is expected to complete class work by the prescribed deadlines. Only in special circumstances may an instructor extend such deadlines. Incomplete work in a class must be completed within four weeks of the required date for submission of grades in that class to the Registrar's Office.

Exceptions to this rule will only be extended to classes which require field work during the summer months. At present the list of the classes consists of Biology 4800 (A, B, C or R), 4900 and Music 360R and 460C. Students taking these classes in their final year should note that they will not be able to graduate at the spring convocation.

Change of Grade

Correction of errors in the recording of a grade may be made at any time. The final date for grade changes for other reasons is September 15 following the academic year; such changes to be made only after the procedures for reassessment of a grade have been complied with.

Examinations and Tests

A period of roughly two weeks in the spring and one week in December will be set aside for scheduling by the Registrar of formal written examinations. An instructor wishing to have an examination scheduled by the Registrar for a class must so inform the Registrar by October 15 for the Christmas period and February 15 for the Spring period.

Departments will advise the Registrar, on request, of examinations to be scheduled by the Registrar. An instructor may also arrange his examinations at a time and place of his choosing (including the formal examination periods) with the understanding that in cases of conflict examinations for an individual student

Registrar's examination schedule takes priority. No tests or examinations covering the work of an entire term or year shall be held during the last two weeks of classes in the term. No tests or examinations shall be held during the period between the end of classes and the beginning of the official examination period.

Reassessment of a Grade

On payment of a fee, a student may appeal to the Registrar at Dalhousie for reassessment of a grade in a class. The Registrar will direct the request to the Chairman of the Department concerned, who will ensure that the reassessment is carried out and reported to the Registrar.

Special Examinations

Special examinations may be granted to students in case of genuine illness, supported by a medical certificate, or in other unusual or exceptional circumstances. Medical certificates must be submitted at the time of the illness and will normally be accepted after a lapse of one week from the date of the examination. A student wishing to appear as a candidate at a special examination shall be required to give notice of his intention to the Registrar's Office at Dalhousie on or before July 10. Students wishing to write at outside centres must apply by July 10.

Supplemental Examinations

A student is permitted to write a supplemental examination in one class which he failed provided that:

- he obtained a final grade of F/M;
- he has satisfied the requirements for the class (see Regulations);
- a single compulsory final examination or test in the class in question accounted for at least forty percent of the final grade (the supplemental examination should — at the discretion of the department — constitute the same proportion of the final grade as did the final examination during the regular session);
- he has not failed his year (See Regulation).

Apart from the case of "A" classes (given in the fall term), the supplemental examination must be written in August immediately following the failure. For "A" classes, supplemental examinations must be written in February immediately following the failure. Supplemental examinations may not be deferred. Notice of intention to write, together with the required fee, must be presented to the Registrar's Office, Dalhousie, by July 10th for supplemental examinations to be written in August, and by January 28th for supplemental examinations to be written in February.

A student who fails to pass the supplemental examination can obtain credit for that class only by repeating it.

No more than one supplemental examination may be written by any student on the work of any one year.

No student may write both a supplemental examination and an examination at the end of the Summer School in the same class in the same year.

No supplemental examinations are allowed for classes taken at Summer School.

No more than five passes obtained as a result of supplemental examinations may be counted toward a degree.

Repetition of Classes not Passed

Except as provided in Regulation, above, a student can gain credit only by repeating a class which he has not passed.

3. Merit Points and Minimum Standing

Merit points are awarded for each class as follows:

Grade	Points
A+, A, A-	3
B+, B, B-	2
C	1
D	0

Note that although D is a passing grade, no points are awarded. For fractional credit classes, corresponding fractional merit points are awarded. (e.g., in a half-credit class, an A would yield 1½ points). Students receiving credit for classes taken at another institution are not awarded points for those classes; the minima stated in the rules below are adjusted in proportion to the number of King's credits received relative to the number required.

Minimum Standing for a General Degree

In order to qualify for the award of a general degree, candidates must have obtained a minimum of ten merit points on the fifteen classes required. For all students graduating in 1976 and subsequently a minimum of twelve merit points on the fifteen classes required must be obtained. (Note that the rule on minimum standing stated in the 1972-73 Calendar was not approved by Senate; if applied it would be more stringent than the regulation stated above.)

General Degree with Distinction

A general degree will be awarded "With Distinction" to a student who has achieved an aggregate of 40 points in the 15 classes taken for his degree (or a proportional figure if he has taken more than 15 classes).

Minimum Standing for an Honours Degree

Students in honours courses are expected to maintain an overall standing of at least C in each year of study; if they fail to do so, they may be required by the Committee on Studies to transfer to a general degree course.

4. Regular Academic Year

Workload

Five classes shall be regarded as constituting a normal year's work for a student, and may not be exceeded without written permission from the Committee on Studies. Such permission will not normally be granted to any student who is in his first year of study or to any student who, in the preceding academic year, has failed any class or had an average of less than B-.

Failed Year

A student is considered to have failed his year if he passes fewer than three of the full classes (or their equivalent) for which he is registered, unless:

- the year is the first he has spent at any university, when passes in only two classes are required;
- he is a part-time student, when he must pass at least one half-class.

The results reported in the pass lists of the academic year determine whether a student has passed or failed his year.

Penalty for Failed Year

(a) A student who has failed his year for the first occasion is required to reapply to the Faculty for consideration for readmission.

(b) A student who fails a year on two occasions will be ineligible to return to the University as either a full-time or a part-time student. Ordinarily an appeal will be allowed only if illness has seriously interrupted the student's studies and this is established by submission of a medical certificate from the physician attending the student to the Registrar at the time of the illness.

5. Summer School and Correspondence Classes

Limits on Credits

Up to five credits from Summer School and correspondence classes may be accepted towards the requirements for a degree, not more than two of them by correspondence. Such classes must have been passed at an adequate level and can be accepted only if they are closely equivalent in content to classes normally given at King's.

Maximum Workload

No student may take classes totalling more than one full credit in any one Summer School session. Not more than two full credits can be obtained a Summer School in any one academic year.

Exceptions will normally be granted by the Committee on Studies only in respect of attendance at a university which operates a trimester system or its equivalent.

In all cases, permission must be obtained in advance, following the procedure detailed below.

Credit for Summer School Classes at Other Institutions

A student wishing to take, at a university other than Dalhousie, a Summer School class to be counted for credit towards a Dalhousie-King's degree must:

- obtain an application form from the Office of the Registrar at Dalhousie University;
- obtain from the university he proposes to attend a full description of the Summer School classes (or alternative classes) he wishes to take; usually the Summer School calendar will suffice;
- make application to the Registrar of Dalhousie University and submit the class description of the class he wishes to take (alternatives should be indicated where possible).

When a decision has been reached, the student will be notified directly by the Registrar. If the decision is favourable, the receiving university will be so advised by the Registrar's Office.

Correspondence Classes

A regulation similar to the above to correspondence classes and, at the present time, only the correspondence classes offered by Queen's University, Kingston, Ontario will be considered.

Students should make application for Summer School as early as possible in order that they may make necessary arrangements and obtain a list of the text-books required.

6. Transfer Credits

Upon receipt of an application for admission to this University, and an official transcript, students will be advised of the number of credits which may be transferred from another university. However, provisional assessment can be made on interim transcripts.

7. Credits from Other Faculties

A student taking classes in another Faculty as part of an affiliated course must conform to the regulations of that Faculty with respect to these classes.

8. Credits from Other Universities under Concurrent Registration

A student, while registered at King's, wishing to take classes at another institution, must make an application to the Registrar at Dalhousie and provide a description of the classes offered at the other institution. A letter of permission will be provided if approval for the classes is given by the appropriate department.

The class fee will be paid by Dalhousie if:
(a) the student is registered as a full-time student at Dalhousie-King's;
(b) the classes are approved.

The class fee will be paid by the student if registered as a part-time student at Dalhousie-King's.

9. Change of Registration

Changing a Class

Class changes will not be permitted during the

first week after commencement of classes in September. Students should decide during the first week of classes what changes they wish to make and make these changes during the second week of classes (see below).

Adding Classes

The last date for adding classes is two weeks from the commencement of the term in which that class begins. Students must complete the appropriate registration change form which must be approved by the instructors concerned and by the Registrar at Dalhousie.

Withdrawing from Classes

(a) The last day for withdrawing from a class without penalty is: for A classes: 16th November, for B classes: 1 week after study break, for C classes: 31 January, for full year classes: 31st January. Classes dropped after these dates are recorded as W (withdrawal). Students must complete the appropriate registration change form which must be approved by the instructors concerned and by the Registrar.

(b) No class may be dropped after the last day of classes in the term in which that class ends.

(c) Classes may not be added to replace withdrawn classes after the second week of the term in which that class begins (see Regulation).

(d) A student may not transfer from full to part-time status by withdrawing from classes after the deadlines listed (see Regulation).

Withdrawing from the University or Changing to Part-time Status

A registered student who wishes to withdraw from the University, or one who wishes to change from full-time to part-time status, must write to the Registrar at Dalhousie and King's explaining his circumstances. In either case, the student should not discontinue attendance at any class until his application has been approved. A student proposing withdrawal will normally be invited to discuss his situation with the Dean or the Assistant Dean of Student Services at Dalhousie and the Registrar at King's.

10. Experimental Classes

Experimental classes, on any subject or combination of subjects to which the arts and sciences are relevant and differing in conception from any of the classes regularly listed in departmental offerings, may be formed on the initiative of students or of faculty members.

If formed on the initiative of students, the students concerned shall seek out faculty mem-

bers to take part in the classes.

Whether formed on the initiative of students or on the initiative of faculty members, the faculty members who wish to take part must obtain the consent of their department.

The classes may be of one-year length or half-year length.

A class shall be held to be formed when at least one faculty member and at least eight students have committed themselves to taking part in it its full length, and in the case of one-half year classes when a class in the other one-half year is available.

Classes may be formed any time before the end of the second week of classes in the Fall term to the year or first half year, or any time before the end of the second week of classes in the Spring term. If they are formed long enough in advance to be announced in the Calendar, they shall be announced, in a section describing the Experimental Programme; if they are formed later, they shall be announced (a) in the Dalhousie Gazette, (b) in the University News, (c) on a central bulletin board set aside for this purpose.

One faculty member taking part in each experimental class shall be designated the *rapporteur* of the class. It shall be his responsibility (a) to advise the Curriculum Committee of the formation and content of the class; (b) to obtain from the Curriculum Committee a ruling as to whether the requirement or requirements of distribution, concentration and credit the class may be accepted as satisfying; (c) to report to the Registrar on the performance of students in the class; and (d) to report to the Curriculum Committee, after the class has finished its work on the subjects treated, the techniques of instruction, and the success of the class as an experiment in pedagogy (judged so far as possible on the basis of objective comparisons with more familiar types of classes).

A student may have five one-year length experimental classes (or some equivalent combination of these with half-year length classes) counted towards satisfying class for class any of the requirements for the degree, subject to the rulings of the Curriculum Committee (above) and (where relevant) to the approval of the departments.

Foundation Year Programme

Introduction

The University of King's College, in association with Dalhousie University, offers a special Foundation Year Programme in the first year of the Bachelor of Arts and Bachelor of Science. First offered in 1972-73, the Programme has proved a successful way of providing an integrated and interdisciplinary course for first year students. Now approved by the Dalhousie Senate as a permanent part of the offerings of the Dalhousie-King's Faculty of Arts and Science, the Programme is open only to students registered at King's. Students taking this course will, like other King's students, be proceeding to the degrees of Bachelor of Arts or Bachelor of Science granted by the Senate of Dalhousie University or will be engaged in one of the pre-professional courses in medicine, dentistry, law, architecture, divinity, social work, education, etc..

The Foundation Year Programme is a new approach to the first year of University. Literature, history, philosophy, political and social institutions, the history of science, economic forms, religion, art and music are studied together in one course in an integrated manner which sees them as interdependent elements in the development of western culture. The movement of this culture is understood through the examination of some of the most basic works in our history. To learn to deal with these works is to acquire a foundation for studies in the humanities and social sciences, just as to have a conception of the nature of our society and culture is to have a basis for thoughtful living. To provide these is the aim of this new programme.

Many scientists are acutely aware of the need to understand the relation of science to other

King's provides an alternative to the ordinary B.A. and B.Sc. first year programmes.

The ordinary first year programme consists of five classes.

The King's alternative first year programme, the Foundation Year Programme, is a first year programme for both general and honours students. Bachelor of Arts students enrolled in the Foundation Year Programme do one class in addition to the Foundation Course. Bachelor of Science students in the Programme do two additional classes. Thus for B.A. students the Foundation Year Programme is equivalent to 4 classes, for B.Sc. students it is equivalent to 3 classes.

aspects of culture and to social life; a stream of the Programme will provide a general view of our culture for science students interested in these questions.

The form of the teaching is designed to meet the special problems of first year students. Enrolment in the Programme is limited to 100 Arts students and 25 Science students. The very favourable ratio of staff to students and the concentration of the student's work within one course permit the course to offer a wide variety of experiences and allow it to help students analyze, focus, and evaluate their experiences. The amount of time spent in small group tutorials permits close attention to be paid to each student's development. The exposure to many different aspects of our civilization, and the large number of departments recognizing the Programme as a substitute for their introductory class, give Foundation Year students both a wider experience from which to judge their interests and wider options for second year study.

The instructors in the programme are specialists in a wide variety of university subjects. All take the view, however, that first year study at university can profitably be devoted to attempts to integrate knowledge and understanding rather than to premature specialization in particular subjects.

Admission Requirements

The admission requirements are those pertaining to the Faculty of Arts and Science, i.e. Nova Scotia Grade XII or its equivalent. The normal standard is five approved academic subjects with an average of 60%. An approved course consists of at least four classes chosen from English, History,

Languages, Mathematics and the Sciences and one other class. Students who have chosen to depart from these requirements, because of specific interests and aspirations, should not hesitate to apply for admission. They will be considered on their merit as individual cases. Mature students, students whose education has been interrupted and who do not meet the normal admission requirements, but who can demonstrate that there is a reasonable likelihood of success at university, may be admitted as special cases. Students from New Brunswick and Prince Edward Island should complete Grade XII and have an average of 60%. Very exceptional students from Nova Scotia Grade XI and students not in the University Preparatory Programme are also considered for admission on their individual merits.

Scholarships

Scholarships of \$1000., \$750. and \$400. are open to students entering the Foundation Year Programme. Application for admission constitutes application for a scholarship. In recent years more than one quarter of the entering students have received awards. Scholarships provided from monies given in memory of Henry S. Cousins and Dr. Norman H. Gosse are open only to students entering the Foundation Year Programme.

Grading and Credit

The Programme is to be regarded as a complete unit. It is not possible for students to enrol in only part of the course. Evaluation of the students' performances is continuous and made on the basis of tutorial participation and essays. There are no examinations. The final grade is a composite of all evaluations. Final grading is the result of discussion among all those teachers who have had grading responsibilities. Grades are given in terms of the letter grade system of the Faculty of Arts and Science.

Successful completion of the Programme gives students in the K100 course twenty four credit hours or four class credits toward a Bachelor of Arts or Bachelor of Science degree. These students do one other class to achieve a complete first year. Students taking K110 do two courses in addition to their work in the Foundation Year Programme. This stream of the Foundation Year

Programme carries eighteen hours of credit in three class credits. Normally students taking K100 would be candidates for the Bachelor of Arts degree and students taking K110 will be candidates for the degree of Bachelor of Science but exceptions may be made.

Upon successful completion of the Programme the normal departmental requirement of passing an introductory course in the discipline concerned is waived by the following departments:
English Language and Literature
History
Political Science
Sociology (except for courses in Anthropology)

The following departments admit students completing the Foundation Year Programme introductory and advanced courses for which there is no language requirement:

Classics
German
Spanish
Russian.

In addition the following departmental provisions have been established:

Biology:

Successful completion of the Foundation Year Programme supplies the prerequisites for Biology 3400, 3401A, 3410B. These are courses in the history of science, the history of biological sciences and man in nature.

German:

Successful completion of the Foundation Year Programme may be regarded as a substitute for German 221.

Economics:

Honours students in Economics who have completed the Foundation Year Programme are exempted from doing one economics course.

Philosophy:

Successful completion of the Foundation Year Programme may be regarded as a substitute for Philosophy 230.

Religion:

The Department of Religion recognizes Foundation Year Programme as satisfying prerequisites for Religion 201, 202 and 351.

The departmental provisions listed above those applicable for the 1976-77 session.

Pre-Professional Training

The Faculties of Medicine and Dentistry of Dalhousie University have approved the Foundation Year Programme as part of the pre-professional work they require for admission to their respective faculties. Students may substitute the Programme for the appropriate requirements laid down by these faculties; for details of these provisions consult the Director of the Foundation Year Programme. The Department of Education of Dalhousie University waives its requirement of English 100 for students enrolled in the B.Ed. Integrated Course who have successfully completed the Foundation Year Programme. Discussions are now underway with the School of Physiotherapy and the School of Business Administration regarding the place of the Foundation Year Programme in their new four year degrees, Bachelor of Science (Physiotherapy) and Bachelor of Commerce.

Course Designation, Lecture and Tutorial Hours

The formal designation of the Programme courses is as follows:

King's Interdisciplinary Studies

K100 Foundation in Social Science and Humanities; Lectures M.W.Th.F. 9:35 a.m. - 11:25 a.m.; Four hours of tutorials to be arranged.

K110 Foundation in Social Science and Humanities; Lectures M.W.F. 9:35 a.m. - 11:25 a.m.; Four hours of tutorials to be arranged.

Outline of the Foundation Year Programme

The course has its own logic; it is not just a collection of diverse materials but integrates them in accord with the interpretation of our culture which it develops. As we work out this interpretation, we consider works of various kinds, some of the most crucial works in this culture. These we consider no matter what discipline ordinarily studies them. Thus we look, for example, at Mozart's Don Giovanni, early Greek urns, Michelangelo's "Prisoners" and Brooklyn bridge; these are usually understood to belong to the disciplines of music, archaeology, art history and architecture. We read Homer's

Iliad, Marlowe's *Faust*, Dicken's *Hard Times*; works usually studied by the departments of classics, theatre, and English literature. We analyse St. Anselm's *Proslogion*, Descartes' *Meditations*, and Luther's *The Freedom of a Christian*, which are usually studied by departments of philosophy, theology and religion. We study Huizinga's *The Waning of the Middle Ages*, Rousseau's *Social Contract*, Marx's *Capital*, Sweezy's *Modern Capitalism* works thought to belong to history, political theory, economics and sociology. We read selections from Copernicus' *On the Celestial Spheres*, Newton's *Optics*, Darwin's *On the Origin of the Species*; texts taken from the history of astronomy, physics and biology.

The logic we develop to integrate the different stances of these various works is of two kinds. On the one hand, we see how each of these works shows the nature of the different epochs or stages of our culture and how each of these civilizations breaks up to form the one succeeding. On the other hand, we trace some institutions, ideas and movements through each of the historical periods.

The following are the teaching units of the course. One or more of the aspects of culture mentioned above tends to be stressed in each unit. This is both because of the differences between the general character of each period and also on account of the particular approach which the co-ordinator responsible for the section brings to the presentation of it. Four teaching weeks are devoted to each of these units.

1. The Ancient World: the origin of the primary institutions and beliefs of the western world in Greece, Rome, and Israel. Religion manifesting itself in art, myth and institutions provides a focus for our approach to this epoch. *Co-ordinator*: Dr. Atherton.

2. The Medieval World: the formation of Christendom. The development of christian forms in political, social, intellectual life as these grow in contrast to and by assimilation of ancient culture is our main concern. We attempt to grasp the unity of this world as the medievals themselves saw in Dante's *Divine Comedy*. *Co-ordinator*: Professor Starnes.

3. The Renaissance and Reformation: the foundations of modernity in the break up of the medieval world. The worldliness of the Renaissance and the renunciation of this in the Reformation form the two poles of our treatment of this period. The discovery of the new world and the Counter-Reformation culture of Spain are new elements added to this unit. *Co-ordinator*: Professor Hankey.

4. The Age of Reason or the enlightenment: Modern freedom developed theoretically in the philosophy of Descartes and in relation to nature and society is the central theme. Special attention is paid to political theory and natural science in this section. Goethe's *Faust* is its literary center. *Co-ordinator*: Dr. Steffen.

5. The Triumph of the Bourgeoisie: Bourgeois culture from its triumph in the French Revolution to its collapse in World War I. The nineteenth century is mainly treated in terms of the revolutions: political and industrial. Marx provides a crucial analytical focus; novels provide a new form of literary experience. *Co-ordinator*: Dr. Morgan.

6. The Contemporary World: From the decline of the European empires to contemporary industrial society. The focus is the stand point of the new social sciences which came into view in our investigation of the nineteenth century. The revolutions of the twentieth century are considered central. *Co-ordinator*: Dr. Gamberg.

The following are the recurring general topics which are discussed in each of the units outlined above.

- (a) Political institutions, the modes of authority, conceptions of law and the person, the political ideal.
- (b) Religious, theological and philosophical positions and forms.
- (c) The conception of nature and forms of natural science.
- (d) Economic institutions.
- (e) The structure of society.
- (f) Literary, musical and artistic expression.

A classroom with facilities for slides, films and musical reproduction is used so that the presentation of these aspects of culture can be an integral part of the teaching.

Evaluation

The mark for the course is based on students' papers and their class participation. No student will be able to pass the course without completing the written requirements. Students registered in K100 will write at least two essays for each unit. Students in K110 write at least one essay for each of these units. Some of the additional work of students in K100 will relate to the Thursday lectures which are required for them but not for students in K110. Generally the additional Thursday lectures will consider one text or topic in detail during the whole unit e.g. in 1976-77 Section III will read Cervantes, *Don Quixote*; Section IV: Goethe, *Faust*, and Section V: Dostoyevsky, *Crime and Punishment*.

Required Reading (1975-76)

The following list of required reading for 1975-76 gives an indication of the theoretical works through which our understanding of these aspects of our culture is developed.

This is a list of the reading required for arts students (K100) and science students (K110). The items marked (*) are required reading for arts students but not for science students.

Divinity

Director of Parish Field Work and Divinity Secretary
Rev. Canon J. H. Graven, M.A. (Dal.), L.Th. (Vind.).

With the establishment of the Atlantic School of Theology during 1974, the work of the Faculty of Divinity of the University of King's College was transferred to that School and the Faculty dissolved as a teaching component of King's College.

King's College remains a recognized institution for the conferring of divinity degrees and diplomas on recommendation of the General Synod of the Anglican Church.

Divinity scholarships awarded by King's College are tenable at the Atlantic School of Theology.

Details of the basic course requirements and offerings of the Atlantic School of Theology are

given in a bulletin published separately, and available from the School or from King's Registrar on request.

The University of King's College has established the diploma of Associate of King's College (Nova Scotia), A.K.C., (N.S.), to encourage further study for those persons who are not eligible for the B.D. It combines extramural and intramural work, and includes Pastoralia. Particulars concerning regulations for this diploma may be had upon application to the registrar. (No new registrations after July 1, 1974).

Bachelor of Divinity (B.D.)

Students who have received the M.Div. B.S.Litt., or B.S.T. and graduate students who have qualified for the L.Th. may proceed to the final examination for the extra-mural degree of B.D. under the General Synod Board of Examiners. Institute of Pastoral Training

University of King's College
Atlantic School of Theology
Acadia Divinity College
Medical Faculty of Dalhousie University

The organization of the Institute in collaboration with Pine Hill Divinity Hall, the Divinity School of Acadia University, Presbyterian College, (Montreal), Medical Faculty of Dalhousie University, pioneered this modern development in Theological education on the Canadian scene. It is the objective of the Institute to bring pastors and theological students face to face with human misery as it exists both in and out of institutions, through courses in Clinical Pastoral Education in both general and mental hospitals, reformatories and juvenile courts, homes for the aged, alcoholism treatment centres, and other social agencies. In this connection, the Institute now sponsors six-week courses in Clinical Pastoral Education, usually commencing mid May, at the Nova Scotia Hospital, Dartmouth (mental), the Nova Scotia Sanatorium, Kentville, the Victoria General Hospital, Halifax, the New Brunswick Provincial Hospital in Lancaster, King's County Hospital, Waterville, and Springhill Medium Correctional Center, Springhill.

While the above mentioned courses aim primarily at increasing the pastoral competence of the parish minister or church worker, students of

particular aptitude and interest can be guided in further theological training to become qualified teachers of these subjects in theological courses, directors of Clinical Training Courses, and institutional chaplains; also, in certain cases, to become experts in particular specified fields, such as ministering to the mentally ill or alcoholics, where the church may have a significant role to play in partnership with other helping professions.

A recent development in this field was the formal constitution in December 1965 of "The Canadian Council for Supervised Pastoral Education". In 1974 the Canadian Council for Supervised Pastoral Education officially adopted the shorter and now more appropriate title of Canadian Association for Pastoral Education which seeks to co-ordinate training across Canada, establishing and maintaining high standards, accrediting training courses, and certifying supervisors. The Institute of Pastoral Training has links with the Council, a former Executive Director served as President of the Council and as a member of the Board of Directors, and two members of its Executive have been serving on the Council's Committee on Accreditation and Certification. Professor R. J. R. Stokoe of Atlantic School of Theology who has directed the six-weeks course at the Nova Scotia Hospital, Dartmouth, and now directs courses at the V.G. Hospital, has been

certified as a Chaplain Supervisor, by the Canadian Council and also by the Association for Clinical Pastoral Education in the United States.

Other goals of the Institute include the production of teaching materials, the promotion of workshops, and the establishment of a first class library and reference center at the Institute office.

A number of one-day and four-day workshops have already been held in various localities in the Maritimes, and information as to what is involved in setting one of these up may be obtained from the Secretary of the Institute.

All enquiries concerning courses offered should be addressed to the Executive Secretary of the Institute of Pastoral Training, University of King's College, Halifax, N.S. Board and lodging can usually be arranged, and some bursary assistance is forthcoming. Academic credit is given to certain Canadian and American colleges, including the Atlantic School of Theology, for satisfactory completion of any of the courses offered. Applications to attend the courses from bona fide enquirers belonging to other professions are welcomed and receive equal consideration.

Extension Courses

Extension courses are given in the evenings at the University of King's College. These courses are available in a number of topics. All extension courses are designed for their general interest and are now taken as credits in degree programmes. Academic requirements for admission are not necessary, the expectation being simply that persons who enrol in the courses will do so on the basis of their interest in pursuing the topic. Specific courses to be offered are announced in the Fall.

Registration for all courses will occur on the evening of September 29 from 7:00 to 10:00 p.m., fees being payable at that time.

Residence life at the University is encouraged for all students because the community life there enjoyed forms an essential part of the student's education. Exceptions will be made in the case of a student wishing to reside in a home or lodging outside the university.

All students registered at King's College are guaranteed residence accommodation should they wish it, on completion of the form for application for accommodation, and subject to the approval of the application by the Dean of Residence.

All rooms are furnished with bed, dresser, desk, and chairs. Students are required to provide their own bedding and towels, and to attend to their own laundry arrangements. Coin-operated washing and drying equipment is provided in both men's and women's residences.

Single and double rooms are available to both men and women, priority for single rooms being given to students in their senior year.

The residences have been designed to provide for the comfort and convenience of the students, and to facilitate study. In the men's residence, two students occupy a suite of two rooms.

The Women's Residence was built in 1962 and is modern in every respect. Traditional double and single rooms are available and in addition the Residence provides a library, laundry room, recreation room, three lounges with kitchenette facilities, a service elevator, and ample storage space.

Both residences are designed so that it is not necessary to go outside for meals and extra-curricular activities.

Meals are prepared and served to all resident students in Prince Memorial Hall, erected in 1962.

Students accepted in residence by the Dean are expected to remain for the whole session, or, in the case of withdrawal during the session, must obtain substitutes satisfactory to the Dean. All residents will be charged with room for the complete session and will be liable for this charge unless or until a substitute has assumed obligation to the University for the balance. No student may withdraw from the residence without notice to the Dean.

It should be noted that the University assumes no liability for personal property in the case of theft or damage. No pets of any kind are allowed in residence.

The residence will be open for new students from the evening of September 12, 1976 and for returning students September 14, 1976, until December 21, 1976 and from the evening of January 2, 1977 to the morning of May 14, 1977 (Students not in their graduating year will be expected to vacate the residence 24 hours following their last examination). Resident students in faculties whose terms exceed these periods may reside in the College by permission of the dean on payment of rent; and, when Prince Hall is open, meals may be eaten by arrangement with the Dean.

Except under unusual circumstances and with the permission of the Dean, no student is permitted to occupy the residences over the Christmas Holidays.

Confirmation of accommodation will not be made until the student has been accepted by the University for the coming session and a \$50.00 residence deposit has been received by the Business Office. Deposits for all applications made prior to July 15th must be received by that date. Applications for residence accommodation made after July 15 must be accompanied by the \$50.00 deposit. Cancellation of application received by the Registrar or the Dean prior to August 15th will entitle the student to a refund of the \$50.00 deposit.

Alexandra Hall

3. Numbering of Classes

The Faculty is in the process of reviewing its system of numbering classes. Most classes are numbered with a three digit number; others, however, are numbered with a four digit number. The following general criteria apply to both kinds of numbering. Students are urged to consult the relevant departments if they are confused by any specific numbering system.

Classes are numbered to indicate their general level and the year of study in which they may first be taken. The first digit in either a three or four digit number normally indicates the year of study. Thus, classes in the 100 + series are introductory and can normally be taken by fully matriculated students without any special prerequisites. Completion of a 100-level class is normally a prerequisite for admission to further classes in the subject. Classes in the 200 + series, 300 + series and 400 + series are normally taken in the second, third and fourth years respectively.

Certain classes in the 200, 300, or 400 series are restricted to Honours students and may not be taken by students in the General Degree programmes, except with special permission of the instructor.

Classes in the 500 + and 600 + series are normally regarded as graduate classes; however, some may be open to senior undergraduates with

the permission of the department or instructor concerned.

The Letters A and B denote classes given in the fall and winter terms respectively. The symbol A/B indicates a class given in the first term and repeated in the second term. The letters C and R denote classes spread over both terms, i.e., given in the regular academic year. An R class carries one full credit or more, and a C class less than one full credit. The letters S and T denote classes given in the first and second summer session respectively, regardless of the credit value of the class.

Classes with numbers below 100 do not carry credits but may be prerequisites for entry to credit classes for students whose matriculation backgrounds are deficient.

4. Programme Advice

4.1 Entering Students

Any student who wishes to declare his major at initial registration must consult with the department concerned regarding his first-year programme.

Students entering the King's Foundation Year Programme should consult the Director of the Programme before registration.

4.2 Students who have Completed the First Year

Every student entering the second year is assigned a Faculty advisor with whom he must consult regarding his programme. Normally the department concerned assigns an advisor to a student once he has declared his major subject. Students seeking to enter an Individual Programme (section 5.2.3 below) or an Unconcentrated Honours Programme (section 5.3.5.2 below) must approach the Chairman of the Programme Advisory Committee which will assign an advisor or advisors and which must give approval to programmes of these types.

4.3 Prospective Teachers

Students considering teaching as a profession should before registering consult the Chairman of the Department of Education regarding their programme of study. Those considering music teaching should consult the Chairman of the Department of Music.

4.4 Part-Time Students

Part-time students may follow most of the programmes offered by the Faculty. For such students the normal requirements and regulations apply, it being understood that the first five classes taken by the student will constitute his/her first year of study, the second five classes his/her second year of study, etc. For example, paragraph 5.1 below applies to the first five classes for a student working for a B.A. or a B.Sc., and paragraph 5.2 applies to the next ten classes of such a student.

5. Bachelor of Arts/Bachelor of Science

General: three years—15 classes required¹
Honours: four years—20 classes required

5.1 The First Year

5.1.1 Requirements

(a) Each full-time student planning to take a B.A. or a B.Sc. will in the first year normally take five classes or the equivalent, chosen from groups A, B, C, and D. (The King's Foundation Year Programme is equivalent to four classes for B.A. candidates or three classes for B.Sc. candidates).

(b) No student may in his first year take for credit more than the equivalent of two full-credit classes in a single department.

(c) One of the five classes chosen must be selected from a list of classes in which written work is considered frequently and in detail. These classes are approved by the Curriculum Committee and listed in the Programme Planning Guide.

¹Application of Regulations to students who entered in 1972 or earlier.

All students who entered a General B.A. or General B.Sc. degree programme prior to 1973 must meet the requirements as outlined in Sections 5.2 and 5.1.1(a) above; if beyond the first year they will be considered to have been in an Ordinary Programme.

5.1.2 Recommendations

These recommendations do not apply to students entering the King's Foundation Year Programme.

(a) Students should seriously consider choosing a class from a list of classes which deal with a formal subject. This list is in the Programme Planning Guide and has been approved by the Curriculum Committee.

(b) Students should consider becoming fluent in French.

(c) It is recommended that one class be chosen from each of the groups A, B, C, and D.

5.1.3. Special Options

(a) A first-year student may (but need not) declare his intended major department and may be accepted by the chosen department at initial registration. Such a student must consult with the department concerned regarding his first-year programme.

(b) The King's Foundation Year Programme offers the first-year student in Arts and Science an integrated introduction to the humanities and social sciences through study of some of the principal works of western culture. To take advantage of this Programme the student must be enrolled at King's and advice may be obtained

from the Director of the Programme.

5.2 General B.A. and B.Sc. — Requirements for the Second and Third Years

A student who has successfully completed the first year may pursue a programme toward a general degree or — if qualified — enter an honours programme. (Honours programmes are outlined in section 5.3 below.) In the second and third years, three types of options are open to the candidate for a General B.A. or General B.Sc.:

(a) **Ordinary Programmes**, which may be pursued in any department in which it is possible to obtain a General B.A. or B.Sc. In such a programme, the student must select a major subject, but the structure of study in the major and elective classes may be relatively loose;

(b) **Co-ordinated Programmes**, offered by some departments or groups of related departments, each programme requiring either one or two years of relatively concentrated study in the departmental or interdepartmental area of specialization; and

(c) **Individual Programmes**, for students whose academic needs are not met by the foregoing options.

The rules governing each of these options are outlined below.

5.2.1 Ordinary Programmes (B.A./B.Sc. General)

5.2.1.1 The ten classes making up the course for the second and third years must meet the following requirements:

(a) at least seven classes shall be beyond the 100 level;

(b) at least one class shall be in each of at least three subjects;

(c) (i) at least four and no more than eight classes beyond the 100 level shall be in a single area of concentration (the major). (ii) up to two of the classes in the major subject must be selected in accordance with departmental or interdepartmental requirements outlined in the Calendar under Programmes of Study. These requirements may also designate particular offerings of the department (e.g. service classes) as unacceptable in constituting a part of the major specialization.

5.2.1.2 On registration in his second year the student must declare his major and have it approved by the department concerned.

5.2.1.3 For the B.A., the major may be chosen from French, German, Greek, Latin, Russian, Spanish, classics, English, history, philosophy, music, anthropology, economics, political science, sociology, or from any of the B.Sc. subjects except engineering.

5.2.1.4 For the B.Sc. the major subject must be chosen from biology, chemistry, engineering, geology, mathematics, physics, or psychology.

5.2.1.5 Electives may be chosen from any of the subjects listed in the preceding two paragraphs and from Architecture 100, Art History, Biochemistry, not more than three classes in Commerce, Comparative Literature, Computer Science, Hebrew, Humanistic Studies in Science, Mediaeval Studies, Religion, Theatre 100, and two in Education numbered below 4300.

5.2.2 Co-ordinated Programmes (B.A./B.Sc. General)

A student may in his second and third years follow a two-year or two one-year — integrated programme(s) of study. If two one-year programmes are chosen, they may be in different departments. All such co-ordinated programmes have been explicitly approved by the Curriculum Committee. A department or group of departments offering co-ordinated programmes may structure them as it wishes, consistent with sound academic practice and subject to the following guidelines:

(a) that the equivalent of five class units constitute a normal year;

(b) that the function of each programme form part of the Calendar description of each programme;

(c) that each two-year programme permit the student at least one class of his own choice in each of the second and third years;

(d) that two-year programmes normally not be exclusively in a single discipline.

(e) that the normal prerequisite for entry into a departmental one-year or two-year programme be the introductory class of the department in question, or an equivalent that the department considers acceptable, and not more than one introductory class in a related subject.

A student considering a Co-ordinated Programme should consult as early as possible with the departments concerned.

5.2.3 Individual Programmes (B.A./B.Sc. General)

A student whose academic needs are not met by the programmes offered under paragraphs 5.2.1 and 5.2.2 may present two one-year or a two-year programme of his own choice to the Programme Advisory Committee for scrutiny and approval; it being understood that the Committee and/or Faculty advisor provide assistance in constructing and revising such programmes.

5.2.4 Transfer Between Programmes

A student who transfers at the beginning of his third year from or into an Ordinary Programme must meet the requirements under either paragraphs 5.2.1 or 5.2.3, and may declare a new major subject.

5.3 Honours Programmes

Able and ambitious students are urged to enter Honours Programme. These programmes entail a higher quality of work than that required for the general bachelor's degree. There are two types of honours courses: concentrated, involving a concentration in a single discipline or a combination of two related disciplines; and unconcentrated, involving breadth of study in several related disciplines. A student may transfer from the honours to the general programme without serious inconvenience. To this end, Honours candidate must include among his first year classes one selected from a list of classes which written work is considered frequently in detail. (See 5.1.1(c)). Of classes in the second and third year, at least one class shall be in each of three subjects. *Students considering an honours course are advised to consult as soon as possible — preferably before their first registration with the departments in which they may wish to do their advanced work.*

5.3.1 Acceptance

Honours students in a concentrated programme must be accepted by the major department concerned, which will supervise their work in the programme of study. Honours students in an unconcentrated programme must be accepted by the Programme Advisory Committee, which will appoint an interdisciplinary advisory committee of two or more Faculty members to supervise the programme of study.

5.3.2 Application for Admission

Application for admission to an honours programme must be made in triplicate on forms that are available from the Registrar's Office. Students desiring to pursue a concentrated programme must submit these forms to the head of the department concerned.

5.3.3 Conversion to Honours of a General B.A., B.Sc., or B.Comm. Degree

A student who has received a General B.A., B.Sc., or B.Comm. degree from Dalhousie University who is not enrolled in a programme of study in another Faculty, may apply for admission into an Honours B.A., B.Sc., B.Sc. (Eng. Phys.), or B.Comm. programme. Regulations in paragraphs 5.3.1 and 5.3.5 (or the regulations regarding B.Sc. with Honours in Engineering Physics) must be met. On satisfying the requirements of the Honours degree programme, the student will receive a certificate which converts his General degree to an Honours degree.

5.3.5 Requirements for the Second, Third, and Fourth Years

5.3.5.1 Concentrated Honours Programmes

(a) Honours in a *major programme* are based on the general requirement that the 15 classes beyond the first year of study comprise:

(i) A normal requirement of nine classes beyond the 100 level in one subject (the major subject) which the student may, with the approval of the department concerned, elect a maximum of eleven classes in this area. In this case (iii) below will be reduced

two or three classes.

(ii) two classes in a minor subject satisfactory to the major department; and

(iii) four classes not in the major field.

(b) Honours in a *combined programme* are based on the general requirements that the 15 classes beyond the first year of study comprise:

(i) A normal requirement of eleven classes beyond the 100 level in two allied subjects, not more than seven classes being in either of them. A student may, with the approval of the departments concerned, elect a maximum of thirteen classes in two allied subjects, not more than nine classes being in either of them. In this case the requirement in (ii) below is reduced to two classes.

(ii) four classes in subjects other than the two offered to satisfy the requirement in the preceding clause.

(c) At the conclusion of an honours programme a student's record must show a grade which is additional to those for the required twenty classes. This grade may be obtained through a comprehensive examination, the presentation of a research paper (which may be an extension of one of the classes), or such other methods as may be determined by the major department (subject to the approval of the Committee on Studies). The method by which this grade is obtained will be referred to as the honours supplementary examination.

(d) Departments may elect to use a pass-fail grading system for the honours supplementary examination.

Students must attain an average of B- in the eleven (or more) classes in the two disciplines in which he/she has concentrated; attainment of an average of at least A- in these classes is required to obtain First Class Honours. In departments which do not use a pass-fail grade for the honours supplementary examination, students must attain a grade of not less than B- in the honours supplementary examination; attainment of a grade of at least A- in the honours supplementary examination is required to obtain first class honours.

Details of specific departmental honours programmes will be found under departmental listings of *Programmes of Study*.

5.3.5.2 Unconcentrated Honours Programmes

(a) Honours in the unconcentrated programmes are based on the general requirement that the fifteen classes beyond the first year of study comprise:

(i) twelve classes beyond the 100 level in three or more subjects. No more than five of these may be in a single subject; no less than six and no more than nine may be in two subjects.

(ii) three other classes.

(b) Requirements for an Unconcentrated B.A. (Honours)

At least ten classes of the twenty required must be selected from groups A, B, and C.

(c) Requirements for an Unconcentrated B.Sc. (Honours)

At least eight classes of the twenty required must be selected from biology, chemistry, geology, mathematics, physics, and psychology, and at least six additional classes must be selected from groups C and D.

(d) At the conclusion of an Unconcentrated Honours program a student's record must show a grade which is additional to those for the required twenty classes. This grade may be obtained through a comprehensive examination, the presentation of a research paper (which may be an extension of one of the classes), or such other methods as may be determined by the committee or departments supervising the student's program (subject to the approval of the Committee on Studies). The method by which this grade is obtained will be referred to as the honours supplementary examination.

(e) Departments may elect to use a pass-fail grading system for the honours supplementary examination.

Students must attain an average of B- in the required advanced classes which comprise his honours program; attainment of an average of at least A- in these advanced classes is required to obtain First Class Honours.

In departments which do not use a pass-fail grade for the honours supplementary examination, students must attain a grade of not less than B- in the honours supplementary examination; attainment of a grade of at least A- in the honours supplementary examination is required to obtain First Class Honours.

Pre-Professional Courses

The pre-professional courses in many fields are given by the Faculty of Arts and Science. Students planning to seek admission to Dentistry, Medicine, Law, Education, Social Work and Architecture, etc., may do their Arts and Science preparation at King's College.

The Faculties of Medicine and Dentistry of Dalhousie University have approved the Foundation Year Programme as part of the pre-professional work they require for admission to their respective faculties. Students may substitute the Programme for the appropriate requirements laid down by these faculties; for details of these provisions consult the Director of the Foundation Year Programme. The Department of Education of Dalhousie University waives its requirement of English 100 for students enrolled in the B.Ed. Integrated Course who have successfully completed the Foundation Year Programme. Discussions are now underway with the School of Physiotherapy and the School of Business Administration regarding the place of the Foundation Year Programme in their new four year degrees, Bachelor of Science (Physiotherapy) and Bachelor of Commerce.

The Foundation Year Programme is obviously an acceptable part of pre-professional Arts and Science work for schools like Architecture, Social Work and Law which have no fixed requirements.

7. Dentistry

Detailed requirements for admission are set forth in the Calendar of the Dalhousie University Faculty of Dentistry. Candidates are encouraged to proceed to a Bachelor's degree before seeking admission.

7.1 Entrance Requirements

The minimum academic course must include university classes in English, biology, general chemistry, organic chemistry and physics, each of an academic year's duration. The science classes must include laboratory instruction or seminar periods. Credit for the remaining five classes may be obtained in either of the following ways:

- by the successful completion of three classes chosen from the humanities and the social sciences plus two other elective classes.
- by Bachelor's degree. If an applicant has a Bachelor's degree in a course acceptable to the Faculty of Dentistry, it is assumed that a suitable selection of courses has been included in the degree programme.

7.2 Dental Aptitude Tests

All Canadian applicants must submit test results from the Canadian Dental Association Dental Aptitude Testing Programme. Information regarding the Dental Association Aptitude Testing Programme may be obtained from the office of the Registrar, or by writing to the Administrator, Dental Aptitude Test Programme, The Canadian Dental Association, 234 St. George Street, Toronto M5R 2P2.

Applicants from other countries may submit the American Dental Association Dental Aptitude Testing Programme results. While this information will not be a final or deciding factor in selection it will be used as an additional criterion

by the Admissions Committee when evaluating student qualifications.

8. Medicine

Detailed requirements for admission are set forth in the Calendar of the Dalhousie University Faculty of Medicine. The majority of students accepted for admission to that Faculty have a bachelor's degree, but this is not a requirement.

8.1 Entrance Requirements

At a minimum, applicants pursuing a premedical course in the Faculty of Arts and Science to which they have been admitted on the basis of Nova Scotia Senior Matriculation (or the equivalent) including credits in English and mathematics, are required to have completed ten classes in a regular degree programme prior to June 10 of the year of expected entrance.

(a) Five of these classes are imperative, namely: English 100, Biology 1000 or 2000, Chemistry 110, 240 or 241 and Physics 100, 110 or 130 or any equivalent classes.

(b) The remaining five classes must include at least two in a single subject. Ordinarily these five electives should be chosen from the following: anthropology, biology, chemistry, classics or classical languages, economics, English, history, mathematics, modern languages, philosophy, physics, political science, psychology or sociology.

All elective classes should, if possible, be selected so as to conform to the degree requirements of the applicant's university.

8.2 Medical College Admission Test

Results of this test must be submitted by all applicants.

9. Architecture

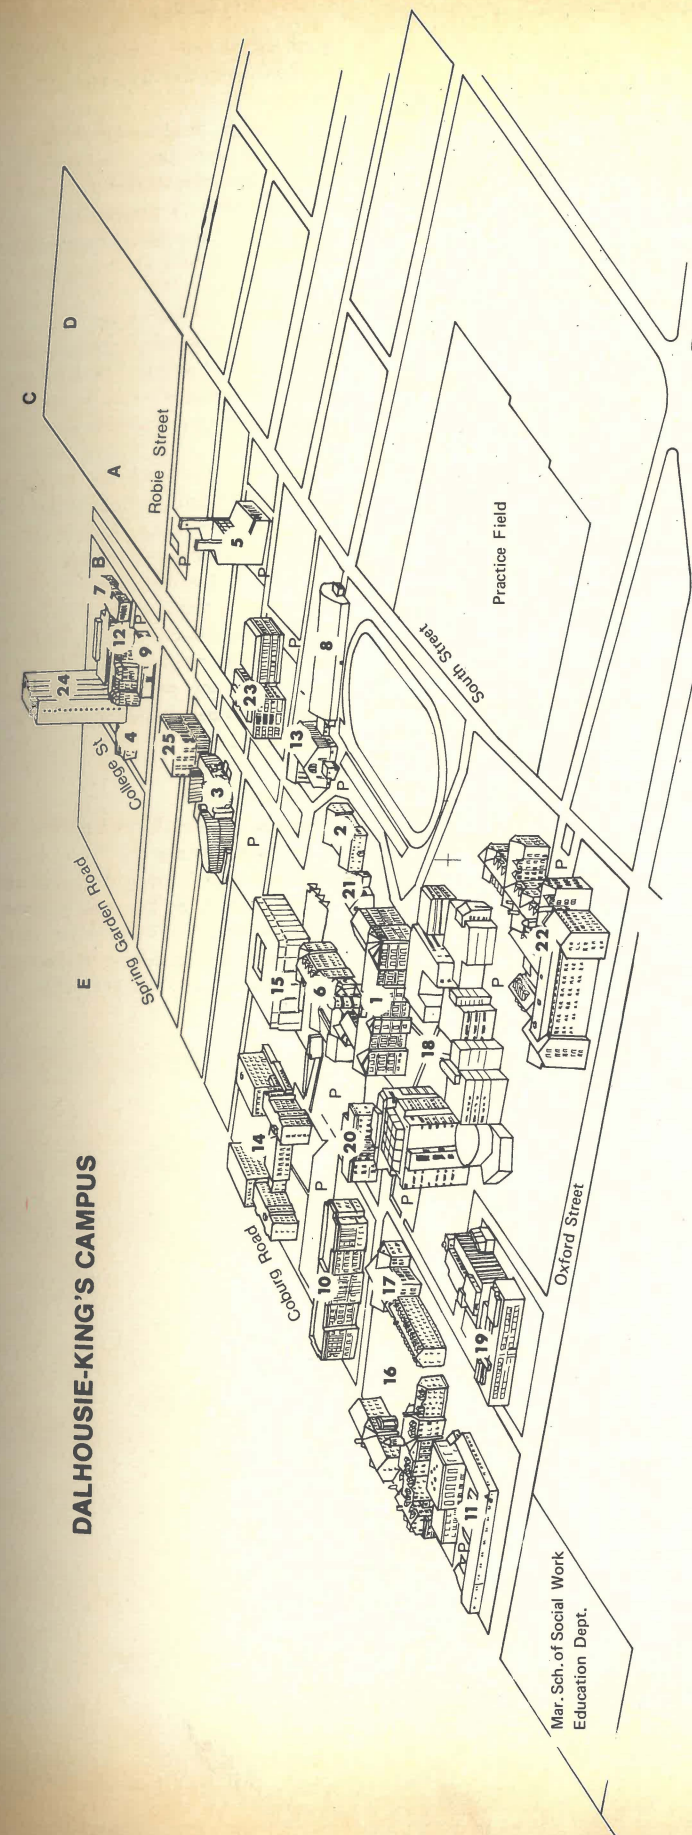

Qualification for entrance to the School of Architecture at the Nova Scotia Technical College is the satisfactory completion of at least two years in a degree programme at any university equivalent institution recognized by the Faculty of the School of Architecture. A university course in mathematics is prerequisite, except that the Admissions Committee may instead require a written examination in this subject.

Providing it has been undertaken in a recognized degree programme, virtually any course of studies, including arts, fine arts, engineering, other technologies, science, agriculture, or social sciences, education, medicine, is acceptable.

A candidate for admission to the first year architecture should submit to the Coordinator of the Cooperative Programme by July 1 for review by the Admissions Committee of the Faculty of the School of Architecture the following documents; (a) an application form obtained from the School of Architecture; (b) an official transcript of his university record; (c) a letter of recommendation from some person of academic rank with close personal knowledge of his academic background.

10. Design

Students successfully completing one year of a B.A. programme in the Humanities at Dalhousie-King's may be admitted into the second year of the four-year programme leading to the Bachelor of Design degree in Communication Design or Environmental Design at the Nova Scotia College of Art and Design.
